Potential investors are advised to read the prospectus for the Company dated 24 November 2009 (“Prospectus”) and Fund Supplement dated 24 November 2009, as amended by an Addendum dated 12 February 2010 (together the “Fund Supplement”) (together the “Full Prospectus”) before making an investment decision. The rights and duties of the investor as well as the legal relationship with the Company are laid down in the Full Prospectus.

The base currency of the Fund is the euro.

Investment Objective: The Fund seeks to provide returns consistent with the performance of the Barclays Capital Global Aggregate Euro Non-Government Bond Index (the “Index”), a market-weighted bond index of the euro investment-grade bond market with an intermediate-term weighted average maturity.

Investment Policy: The Fund employs a “passive management” - or indexing - strategy designed to track the performance of the Index, which is a subset of the Barclays Capital Global Aggregate Bond Index. This market-weighted Index is designed to reflect the total universe of the euro-denominated investment-grade fixed-income securities excluding Eurozone Treasury and Eurozone government-related securities. All issues have a maturity greater than one year.

The Fund invests by *sampling* the Index, meaning that it holds a range of securities that, in the aggregate, approximate the full Index in terms of key risk factors and other characteristics. All of the Fund’s investments will be selected through the sampling process, and at least 90% of the Fund’s assets will be invested in bonds held in the Index. The Fund may use up to 10% of its assets to over-weight non-government bonds rated AA- or higher (which are not represented in the Index) and correspondingly under-weight government bonds (which are represented in the Index). Under normal circumstances, the Fund is expected to maintain a weighted average maturity of 5 to 10 years.

The Fund’s investment policy is to remain substantially fully invested in bonds. At least two-thirds of the net assets of the Fund (without taking into account ancillary liquid assets) shall at all times be invested in bonds of investment-grade quality, denominated in Euros, contained in the Index. Up to one-third of the net assets of the Fund (without taking into account ancillary liquid assets) may, in the aggregate, be invested in bonds and short-term debt instruments denominated in or hedged to the euro. These securities may originate from an issuer that may or may not be contained in the Index.

The Fund may invest in short-term securities due to its uncommitted cash balances and to maintain liquidity to meet Shareholder redemptions. These short-term securities may be denominated in the euro and other currencies. To the extent that the Fund invests in securities denominated in currencies other than the euro, the Fund will hedge such investments back to the euro.

The Fund may use certain financial derivative instruments for the purpose of efficient portfolio management.

Risk Profile:

The Fund is designed as a low-risk investment, but you could still lose money by investing in it.

The value of the Shares, and the income from them, may go up or down, and the investors may not get back the amount they invested.

The Fund is subject to certain risks, namely credit risk, currency risk, income risk, index sampling risk and interest rate risk, which could hurt its investment performance.

A more detailed description of the risk factors that apply to the Fund is set out in the Fund Supplement.

Profile of a Typical Investor:

- Investors seeking long-term growth of capital.

Distribution Policy:

The Directors do not intend to declare a dividend. Accordingly, the Fund's income and capital gains are reflected in its Net Asset Value per Share.

Fees and Expenses:

The portfolio turnover rate for the year ended 31 December 2008 was 23.0%³.

¹The Fund may charge a purchase fee of up to 0.40% on purchases of Shares to offset some of the costs of trading securities. The purchase fee ensures that these higher costs are borne by the investors making the transaction and not by the Shareholders already in the Fund. All fees are paid directly to the Fund itself, unlike a sales load, which normally ends up in the pockets of the sponsor, advisor or sales representative. Without purchase fees, the Fund would have trouble tracking its Index. The purchase fee may be reduced or waived, either generally or in any specific case, to take account of actual expected costs.

²All percentages are expressed as a percentage of the average Fund Net Asset Value. All annual fund operating expenses are paid by the Fund.

³Turnover under the regulatory calculation methodology considers share capital activity which can result in a negative figure.

All matrix based on data from the period 1 January 2008 to 31 December 2008.

In calculating the subscription/redemption price for any class of Shares, the Company may, on any Business Day when there are net subscriptions/redemptions adjust the subscription/redemption price by adding an anti-dilution levy to cover dealing costs and to preserve the value of the underlying assets of the Fund. The anti-dilution levy is designed to compensate the Fund and will be applied only in the exceptional event that dealing costs result in a material cost to the Fund and its existing shareholders. The anti-dilution levy will be paid into the Fund and become part of the property of the Fund; it is designed to protect both the value of the Fund's underlying assets, and the current Shareholders' interests in the Fund.

Taxation:

The Company is resident in Ireland for tax purposes and is not subject to Irish taxation charges on income or capital gains. No Irish stamp duty is payable on the issue, redemption or transfer of Shares in the Company.

Shareholders and potential investors are advised to consult their professional advisors concerning possible taxation or other consequences of purchasing, holding, selling, exchanging or otherwise disposing of Shares under the laws of their country of incorporation, establishment, citizenship, residence, ordinary residence or domicile.
