This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

XACT BEAR (ETF)

ISIN: SE0005466513 Management Company: Handelsbanken Fonder AB, a subsidiary to Svenska Handelsbanken AB (publ)

Objectives and Investment Policy

The fund is a special leveraged exchange-traded fund which means that it differs from a mutual fund. The objective of the fund is to provide a daily return equivalent to approximately 150% of the daily opposite change in the OMXS30T Index (OMXS30 refers to the index that includes dividends, OMXS30GI) before management fees and other transaction costs. This means that when the OMXS30T falls by 1% on the market in one day, XACT Bear should rise by approximately 1.5%. The index consists of the 30 most-traded shares on the NASDAQ OMX Nordic Exchange (Stockholm Stock Exchange). The fund's capital consists of liquid assets and sold futures contracts (OMXS30T futures) equivalent to approximately 150% of the fund's value. A daily rebalancing of the fund's futures holdings occurs to ensure that the fund maintains an exposure of -150% of the fund capital.

The fund may invest in derivative instruments as part of the fund's investment focus.

The fund does not distribute dividends. All income is reinvested in the fund.

Normally, you can purchase and sell fund units on the stock market, the so-called secondary market, on all banking days. You can also create and redeem units directly with the management company on the so-called primary market.

This fund may not be suitable for investors that do not actively monitor their investments on a frequent basis, as leveraged funds can have sharp fluctuations over a short period.

The risk/return indicator illustrates the link between risk and potential returns from an investment in the fund. The indicator is based on the change in the fund's value over the past 5 years.

This fund belongs to category 7, which means there is a high risk for up- and downturns in the net asset value. Category 1 does not mean that the fund is risk-free. The fund's risk indicator can change both upwards and downwards on the scale over time, as the indicator is based on historical data that does not guarantee future risk/returns.

An investment in an equity fund is generally characterized by high risk as the value of the equities can fluctuate significantly over time but also has the potential for high returns.

The indicator reflects the most important risks in the fund but excludes the following material risks:

The fund is expected to have significant fluctuations as a direct effect of leverage in the fund.

Given that the fund's investments are made in one country or a limited number of countries, the fund normally has a higher risk relative to investments that are allocated with a broader geographical distribution across several regions or countries.

Additional information about the risks may be found in the prospectus available at www.handelsbanken.se/funds.

Performance fee	None
-----------------	------

Fees may be charged in accordance with the fund rules for the subscription and redemption of fund units in the primary market. Additional information about the applicable fee levels is available in the information brochure. Subscription and redemption fees do not impact investors selling fund units on the stock market, i.e., in the secondary market. Brokerage fees will be charged and such transactions are conducted in accordance with the spread in the existing bid- and ask prices. Information about the applicable brokerage fees for trading on the stock market are available at your broker.

A maximum fee of 1.5% of the fund's net asset value, with a minimum fee of SEK 30,000, is charged for the creation and redemption of fund units made directly with the Management Company in the so-called primary market. A maximum fee of 2%, with a minimum fee of SEK 100, is charged for the redemption of fund units on the primary market that total less than 200,000 units.

Ongoing charges include all of the costs in the fund, including the management fee, but excluding transaction costs on securities transactions, interest expenses, transaction-related tax expenses and any performance-based fees. The ongoing charges are based on the previous year's charges for fees in the fund. The fee impacts the share price and can vary from year to year.

Further information about fees can be found in the information brochure and § 11 in the fund rules which are available at www.xact.se/en and www.handelsbanken.se/funds.
