

Key Investor Information

This document provides you with key investor information about this Sub-Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Sub-Fund. You are advised to read it so you can make an informed decision about whether to invest.

PineBridge Global Dynamic Asset Allocation Fund the ("Sub-Fund")

Unit Class A (ISIN: IE0034235295), a sub-fund of PineBridge Global Funds

Management Company: PineBridge Investments Ireland Limited ("PBIL")

Objectives and Investment Policy

The Sub-Fund aims to grow the value of your investment over the long term by investing in shares or related instruments of companies and in bonds issued by companies, governments and international organisations. The Sub-Fund's investments may be worldwide. The bonds that the Sub-Fund invests in may pay fixed or variable rates of interest.

The Sub-Fund may invest up to 10% of its net asset value in other investment funds including real estate investment trusts ("REITS"). These investment funds must have investment objectives and policies that are consistent with those of the Sub-Fund. Investment in other funds is made to expose the Sub-Fund to types of investments not covered already. The Sub-Fund may also use derivatives including swaps, futures and/or Contracts for Difference in order to indirectly obtain exposure to shares, bonds and the performance of financial indices. Swaps are contracts where the parties to the contract agree to exchange certain benefits of one party's financial instruments for those of the other party's financial instrument. Futures are contracts which oblige the buyer to purchase and the seller to sell shares or other instruments at an agreed future date and price. Contracts for Difference oblige the owner of the shares to pay the return on the shares to the Sub-Fund which will pay a funding cost to the counterparty to the transaction.

The value of any such investment in Swaps or Contracts for Difference will not, in aggregate, exceed 20% of the Sub-Fund's net asset value.

The Sub-Fund uses forward foreign exchange contracts to manage and offset currency risk. Under these contracts, the Sub-Fund will buy or sell foreign currency at an agreed exchange rate. The currency will be paid for and delivered at a future date.

Distribution Policy

This Unit Class seeks to pay out stable distributions consisting of income, gains and, potentially, capital. Distributions from capital may amount to a re-payment out of your original investment. Over time this could lead to the reduction or complete exhaustion of your holdings in the Unit Class. You may elect to receive payments of or reinvest distributions from your units.

Subscription and Redemption

The Unit Class of the Sub-Fund may be redeemed on demand on any dealing day.

The price you pay or receive depends on the net asset value per unit on the dealing day when the unit is bought or sold.

Risk and Reward Profile

This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Sub-Fund. The risk and reward category shown is not guaranteed to remain unchanged and may shift over time. The lowest category does not mean investment is 'risk free'. This indicator is not a measure of the risk that you may lose the amount you have invested.

Why is this Sub-Fund in this Category?

The Sub-Fund is in category 5 because variations in the price of its units are typically medium. The Sub-Fund invests in assets that typically carry medium risk and offer medium rewards compared with other categories of assets.

Are there any other particular Risks?

Fixed Income Default Risk: The failure of an issuer or a counterparty to meet its payment obligations of a financial asset in the Fund will have a negative impact on the Sub-Fund.

Equity Investing Risks: The value of shares and securities related to shares may fall due to issuer related issues, financial market dynamics and world events including economic and political changes.

Derivatives Risks: A Sub-Fund may use derivative instruments for both efficient portfolio management and for investment purposes. Derivative transactions may be subject to significant volatility which may result in a loss greater than the principal amount invested.

Emerging Markets Risks: Emerging markets are typically smaller, less transparent, and subject to evolving, less stable political and regulatory regimes and securities from these markets may be more expensive to transact in, bear higher risk or have lower liquidity.

For a detailed description of risks, please refer to the prospectus.

Charges

The charges you pay are used to pay the cost of running the Sub-Fund, including the costs of distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge: 5.00%

Exit charge: 3.00%

This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out.

Charges taken from the unit class over a year

Ongoing charge: 1.91%

Charges taken from the unit class under certain specific conditions
