Important Information

Global Equity Blend Portfolio (the “Portfolio”) is a portfolio of ACMBernstein (the “Fund”). The Fund is a mutual investment fund established in Luxembourg on 21 August 1991 for an unlimited duration as an unincorporated co-proprietorship managed in the interest of its unitholders by AllianceBernstein (Luxembourg) S.à r.l. (the “Management Company”) and is organized as an umbrella fund under Part I of the law of 17 December 2010 relating to undertakings for collective investment (the “Law of 2010”). Outside of Germany, Austria and Switzerland, the Fund conducts business under the name AllianceBernstein. The Fund comprises several portfolios which, together with their Share classes are described in the Prospectus.

Investment Objective

The investment objective of the Portfolio is to achieve long-term growth of capital.

Investment Policy

In seeking to achieve its investment objective, the Portfolio will invest in a global portfolio of equity securities. The strategy is designed for investors who seek equity returns but also want broad diversification of related risks across styles, capitalization and geographic regions. The Portfolio intends to spread invest risk and expects to invest in equity securities of issuers domiciled in developed countries. However, the Portfolio’s assets may also be invested in securities of issuers domiciled, or with significant operations in countries which, the Investment Manager, in its discretion, will determine as constituting emerging market countries. Normally, the Portfolio targets an equal weighting of growth and value stocks (50% each), all of which are invested globally. The Investment Manager will allow the strategy’s relative weightings to change in response to markets, but only within carefully constructed ranges. Beyond those ranges, the Investment Manager will rebalance the portfolio toward the targeted allocations. The Portfolio’s investments in securities of issuers domiciled in emerging market countries are not expected to exceed 30% of the relevant Portfolio’s net assets. The Investment Manager expects that at any time at least 90% of each Portfolio’s total assets will be invested in equity securities and in no case will the amount of a Portfolio’s assets invested in such securities be

less than two-thirds of the Portfolio’s total assets. Efficient portfolio management and hedging techniques may include use of exchange-traded and OTC derivative instruments, including swaps, options, futures and currency transactions.

Risk Profile

The Portfolio is classified as a "Sophisticated" portfolio. The Portfolio shall employ the Value-at-Risk ("VaR") approach.

Investments of the Portfolio are subject to high risks inherent in equity investments. In general, the value of equity investments may fluctuate, sometimes dramatically, in response to the activities and results of individual companies or because of general market, economic, political and natural conditions that are difficult to predict. Such factors include the possibility of sudden or prolonged market declines and risks associated with individual companies. Historically, equity securities have provided greater long-term returns and have entailed greater short-term risks than other investment choices.

The Portfolio is subject to market, interest rate and currency fluctuations and to other risks inherent in investing in securities. Therefore, no assurance can be given that the investment objective will be achieved, that invested capital will be preserved, or that capital appreciation will occur. Investment results may vary substantially on a monthly, quarterly or annual basis. An investment in the Portfolio does not represent a complete investment program.

More details on the risks related to investment in the Portfolio are included in the Prospectus. See "Risk Factors and Special Considerations" in Section II of the Prospectus.

Profile of the Typical Investor

The Portfolio will suit high risk-tolerant investors seeking the longer-term rewards of equity investment. Investors are encouraged to consult their independent financial advisors regarding the suitability of Shares of the Portfolio for their investment needs.

The Management Company has resolved to prevent the ownership of Shares by any "United States Person," as such term is defined in the Prospectus.

Class S and S1 Shares shall only be placed with institutional investors within the meaning of article 174 of the Law of 2010. Transfers of Class S and S1 Shares shall be restricted to transfers to such institutional investors.

Historical Performance

The following graph illustrates past performance of class A shares of the Portfolio for each of the Fund's last three fiscal years.

Past performance is no guarantee of future results. Total returns, provided by the Investment Manager, reflect the percentage change in Net Asset Value of class A shares of the Portfolio for each of the twelve-month fiscal periods ending 31 August of each year indicated. Class A share performance since 31 August 2011 may differ, perhaps significantly, from performance shown. In addition, the performance of other share classes may be higher or lower due to the different fees and charges associated with such share classes. Returns provided assume the reinvestment of distributions, if any, paid on class A shares for the period shown, but do not reflect any sales charges. Accordingly, these figures do

not represent actual returns to an investor. The investment return and principal value of an investment in the Portfolio will fluctuate as the prices of the individual securities in which it invests fluctuate, so that an investor's Shares, when redeemed, may be worth more or less than their original cost.

Purchase, Redemption and Exchanges

Purchase, redemption and exchange orders for a given Trade Date may be accepted up to 4:00 p.m. U.S. Eastern time on such Trade Date. Valid and complete orders received and accepted by the Management Company or its agents within this time frame are processed as of such Trade Date at the Net Asset Value determined as of the Valuation Point for such Trade Date. Orders received and accepted after 4:00 p.m. U.S. Eastern time are processed on the next Business Day at the appropriate Net Asset Value determined as of the Valuation

Point on such Business Day. The Management Company may limit or suspend the redemption of Shares as provided in the Prospectus and maximum or minimum investment amounts with respect to any share class may be waived by the Management Company in its sole discretion. Shareholders may exchange their Shares to the extent provided in the Prospectus. The Management Company currently does not charge any administrative or other fees in connection with exchanges. However, Shareholders who hold their Shares through accounts with a dealer should contact such dealer to determine if any such fees apply in connection with exchanges. For more information, see “How to Purchase Shares,” “How to Redeem Shares,” and “How to Exchange Shares” in Section II of the Prospectus.
