## About the fund

The Fund aims to achieve a long-term return, in excess of the long-term return that is typically achieved from European smaller companies equity markets, by investing at any given time at least two-thirds of its net assets in:

- smaller companies having their registered office in Europe (including the United Kingdom),
- smaller companies that do not have their registered office in Europe but either (i) carry out a predominant proportion of their business activity in Europe (including the United Kingdom), or (ii) are holding companies which predominantly own companies with registered offices in Europe (including the United Kingdom).

The return will be a combination of capital and income returns.

In this context the term "European smaller companies" means companies whose market capitalisation, at the time of purchase by the Investment Manager, does not exceed Euro 3.5 billion. This capitalisation figure may be adjusted from time to time, depending on market conditions. Ollie Beckett is Fund Manager within Henderson's European Equities team. Ollie first joined Henderson after the merger of AMP Asset Management in 1998 as an Assistant Portfolio Manager for European Equities before becoming Fund Manager in 1999. In 2000, he became Fund Manager for Global Technology Equities before joining Anglo-Suisse Capital for one year. Ollie returned to Henderson in his current role in 2005. Ollie holds a BA (Hons) degree in Economics and Government from the University of Manchester and is a member of the Institute of Investment Managers and Research.

Rory Stokes joined Henderson in 2013 as an Analyst. His career began at HOLT Value Associates as a Research Analyst. Rory then went on to work in several roles at Credit Suisse, before joining Liberum Capital to work in Small and Mid-Cap Equity Sales.

Rory graduated from Oxford University with a 2:1 in Philosophy, Politics and Economics. He is a CFA charterholder and is also FCA registered.

## General risks

- The value of the funds and the income from them is not guaranteed and may fall as well as rise. You may get back less than you originally invested.
- Past performance is not a guide to future performance.

## Risk profile

- This fund invests in shares, which may be more volatile than other asset classes such as cash or bonds. The fund may utilise derivatives for efficient portfolio management.
- As the fund invests in Europe it may have exposure to non-Euro currencies and thus to changes in exchange rates which may cause the value of investments to fall or rise independently of the underlying holdings.
- The fund will invest in smaller companies, which can be more risky than larger companies, due to lack of liquidity and increased volatility. The shares of smaller companies may be subject to more abrupt price movements than shares of larger companies.
- This fund is designed to be used only as one component in several in a diversified investment portfolio. Investors should consider carefully the proportion of their portfolio invested into this fund.

## Important information

Please note: due to rounding the figures in the holdings breakdowns may not add up to 100%.
