

# Schroder International Selection Fund Global High Yield

I Accumulation GBP Hedged | Data as at 31.03.2020

## Fund objectives and investment policy

---

The fund aims to provide income and capital growth in excess of the Bloomberg Barclays Global HYxCMBSxEMG Index USD Hedged 2% Cap after fees have been deducted over a three to five year period by investing in below investment grade bonds issued worldwide. The fund is actively managed and invests at least two-thirds of its assets in bonds that have a below investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies). The bonds may be denominated in various currencies and issued by governments, government agencies, supra-nationals and companies worldwide. The fund may invest up to 10% of its assets in contingent convertible bonds. The fund may also invest directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, investment funds, warrants and money market investments, and hold cash. The fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the fund more efficiently. The fund may use leverage and take short positions.

**Relevant risk as associated with this Fund are shown overleaf and should be carefully considered before making any investment.**

## Performance over 5 years (%)

**Past Performance is not a guide to future performance and may not be repeated. The value of investments and the income from them may go down as well as up and investors may not get back the amounts originally invested. Exchange rate changes may cause the value of any overseas investments to rise or fall.**

Source: Morningstar, bid to bid, net income reinvested, net of fees. The fund's performance should be assessed against its target benchmark being to exceed the Bloomberg Barclays Global HYxCMBSxEMG index USD Hedged 2% cap and compared against the Morningstar Global High Yield sector. The majority of the fund's investments may be components of the target benchmark. The investment manager invests on a discretionary basis and is not limited to investing in accordance with the composition of any benchmark. The investment manager will invest in companies or sectors not included in the target benchmark in order to take advantage of specific investment opportunities.

The Benchmark performance is shown in the base currency of the fund. To enable comparison between the performance of this Hedged share class and the Benchmark, and to show the effect of the currency hedge, the equivalent unhedged base currency share class performance is also shown.

The equivalent unhedged share class and benchmark will be blank if the inception date is different to the hedged share class inception date. In August 2005 the Bloomberg Barclays Global High Yield Corporate 2% Cap Index replaced the Bloomberg Barclays Global High Yield Corporate Index. The full track record of the previous index has been kept and chain linked to the new one.

I Accumulation GBP Hedged | Data as at 31.03.2020

### 5 year return of GBP 10,000

**Past Performance is not a guide to future performance and may not be repeated.**

**The value of investments and the income from them may go down as well as up and investors may not get back the amounts originally invested. Exchange rate changes may cause the value of any overseas investments to rise or fall.**

The chart is for illustrative purposes only and does not reflect an actual return on any investment.

Returns are calculated bid to bid (which means performance does not include the effect of any initial charges), net income reinvested, net of fees.

### Risk considerations

**Credit risk:** A decline in the financial health of an issuer could cause the value of its bonds to fall or become worthless.

**Liquidity risk:** In difficult market conditions, the fund may not be able to sell a security for full value or at all. This could affect performance and could cause the fund to defer or suspend redemptions of its shares.

**Operational risk:** Operational processes, including those related to the safekeeping of assets, may fail. This may result in losses to the fund.

**Contingent convertible bonds:** The fund may invest in contingent convertible bonds. If the financial strength of the issuer of a contingent convertible bond falls in a prescribed way, the value of the bond may fall significantly and, in the worst case, may result in losses to the fund.

**Currency risk:** The fund may lose value as a result of movements in foreign exchange rates.

**High yield bond risk:** High yield bonds (normally lower rated or unrated) generally carry greater market, credit and liquidity risk.

**Event risk:** The fund will take significant positions on companies involved in mergers, acquisitions, reorganisations and other corporate events. These may not turn out as expected and may result in losses to the fund.

**Derivatives risk – Efficient Portfolio Management and Investment Purposes:** Derivatives may be used to manage the portfolio efficiently. A derivative may not perform as expected, may create losses greater than the cost of the derivative and may result in losses to the fund. The fund may also materially invest in derivatives including using short selling and leverage techniques with the aim of making a return. When the value of an asset changes, the value of a derivative based on that asset may change to a much greater extent. This may result in greater losses than investing in the underlying asset.

**Interest rate risk:** The fund may lose value as a direct result of interest rate changes.

**Counterparty risk:** The fund may have contractual agreements with counterparties. If a counterparty is unable to fulfil their obligations, the sum that they owe to the fund may be lost in part or in whole.

**Performance risk:** Investment objectives express an intended result but there is no guarantee that such a result will be achieved. Depending on market conditions and the macro economic environment, investment objectives may become more difficult to achieve.

**IBOR:** The transition of the financial markets away from the use of interbank offered rates (IBORs) to alternative reference rates may impact the valuation of certain holdings and disrupt liquidity in certain instruments. This may impact the investment performance of the fund.

**Currency risk/hedged share class:** The hedging of the share class may not be fully effective and residual currency exposure may remain. The cost associated with hedging may impact performance and potential gains may be more limited than for unhedged share classes.

### Synthetic risk & reward indicator (SRRI)

#### LOWER RISK

Potentially lower reward

#### HIGHER RISK

Potentially higher reward

The risk category was calculated using historical performance data and may not be a reliable indicator of the fund's future risk profile. The fund's risk category is not guaranteed to remain fixed and may change over time. A fund in the lowest category does not mean a risk-free investment. The fund is in this category because it can take higher risks in search of higher rewards and its price may rise and fall accordingly.

### Risk statistics & financial ratios

	Fund	Target
<b>Annual volatility (%) (3y)</b>	9.8	8.1
<b>Effective duration (years)</b>	3.9	-
<b>Current yield (%)</b>	6.2	-
<b>Yield to maturity</b>	9.8	-

### Important information

This document does not constitute an offer to anyone, or a solicitation by anyone, to subscribe for shares of Schroder International Selection Fund (the "Company"). Nothing in this document should be construed as advice and is therefore not a recommendation to buy or sell shares. Subscriptions for shares of the Company can only be made on the basis of its latest Key Investor Information Document and prospectus, together with the latest audited annual report (and subsequent unaudited semi-annual report, if published), copies of which can be obtained, free of charge, from Schroder Investment Management (Europe) S.A. The Company is a Luxembourg-registered UCITS recognised in the UK under Section 264 of the Financial Services and Markets Act 2000. There will be no right to cancel any agreement to purchase shares. If shares are purchased directly or through an overseas agent not authorised to carry our regulated activities in the UK, all or most of the protection provided by the UK regulatory system will not apply to investments in the Company and compensation will not be available under the UK Financial Services Compensation Scheme and the Financial Ombudsman Service. An investment in the Company entails risks, which are fully described in the prospectus. This document is issued by Schroder Investment Management (Europe) S.A., 5, rue Höhenhof, L-1736 Sennigerberg, Luxembourg. Registered No. B 37.799. Approved for issue in the UK by Schroder Investment Management Limited, 1, London Wall Place, London EC2Y 5AU. Authorised and regulated by the Financial Conduct Authority. **Benchmark:** The target benchmark has been selected because it is representative of the type of investments in which the fund is likely to invest and it is, therefore, an appropriate target in relation to the return that the fund aims to provide. The comparator benchmark has been selected because the investment manager believes that the benchmark is a suitable comparison for performance purposes given the fund's investment objective and policy.
