<b>Sub-Fund's risk profile</b>	<p>Investment in the Sub-Fund is subject to a degree of financial risk. Before any decision to invest, investors are advised to carefully review the Sub-Fund's Investment Policy and Objectives as set out in the full Prospectus.</p> <p>The investments of the Sub-Fund are subject to market fluctuations and there is a risk for the investors to eventually recover an amount lower than the one invested.</p> <p>Investment in securities issued by companies and governments of different nations and denominated in different currencies involves certain risks. These risks include exchange rate fluctuations, international and regional political and economic developments and the possible imposition of exchange controls or other local governmental laws or restrictions applicable to such investments. Investors should also be aware of the risks of leverage inherent to warrants.</p>
<b>Profile of the typical investor</b>	<p>As the sub-fund could invest in warrants, that may be highly volatile, it is only suitable for investors able to accept temporary losses and who see funds as a convenient way of participating in capital market developments. It is designed for the investment objective of building up capital.</p>
<b>Treatment of income</b>	<p>The Sub-Fund policy is currently to reinvest all its profits and not to pay dividends. Nevertheless, the Management Company of the Fund, on the basis of the accounts of the Fund on 31<sup>st</sup> December, could determine if and to what extent distributions could be payable to the unitholders of the Sub-Fund</p>

No conversion fee will be charged.</p> <p>The unitholder who wants to make such a conversion may make the request in writing, to the Fund, indicating the number of the units to be converted from one Sub-Fund to another Sub-Fund provided that the number of Units to be converted shall be 10 or more Units.</p> <p>Conversion requests are irrevocable except in the case of suspension of the calculation of the net asset value as described in the Full Prospectus.</p> <p>The Fund reserves the right to refuse all or part of a conversion application for units.</p>

Income derived by the Fund from different sources may be subject to withholding taxes in the countries of origin.</p> <p><b>Unitholders:</b></p> <p>The implementation of the European Union Savings Directive (EUSD) into Luxembourg National law implies a withholding tax by default on savings income in the form of interest received by individuals residing in another Member State of the European Union. EUSD will effectively be applied from 1 July 2005.</p> <p>The Directive qualifies as interest income proceeds which are not necessarily qualified as such by the tax law of the country of residence of the beneficial owner (notably capital gains on shares/units issued by SICAV/FCP investing more than 40% in fixed income products).</p> <p>This withholding tax will be implemented gradually:</p> <ul style="list-style-type: none"> <li>➤ 15% from the 1st of July 2005 to the 30th of June 2008</li> <li>➤ 20% from the 1st of July 2008 to the 30th of June 2011</li> <li>➤ 35% from the 1st of July 2011.</li> </ul> <p>However, instead of having the withholding tax applied by default, the investors<sup>1</sup> may opt for:</p> <ul style="list-style-type: none"> <li>➤ the exchange of information between tax administrations,</li> <li>➤ or the production of a tax certificate issued by the tax administration of the country of residence.</li> </ul> <p>If the sub-Fund of the FCP is within the scope of the European Union Savings Directive, the Transfer Agent will publish through CCLUX the taxable interest per unit valued together with the Sub-Fund Net Asset Value and the Distributor will inform its clients.</p> <p><b>Investors should consult their professional advisers on the possible tax or other consequences of buying, holding, redeeming, converting, transferring or selling any units under the laws of their countries of citizenship, residence or domicile.</b></p>
