PineBridge Japan Equity Fund (the "Sub-fund")

Unit Class A (ISIN: IE00B0VPN609), a sub-fund of PineBridge Global Funds

Management Company: PineBridge Investments Ireland Limited ("PBIL")

Objectives and Investment Policy

The Sub-Fund aims to grow the value of your investment over the long term by investing the majority of its assets in shares and related instruments of companies which are incorporated in Japan or companies whose assets, products or operations are located in Japan.

The Sub-Fund seeks to promote environmental and social characteristics and incorporates sustainability risk-related factors into the investment process.

The Sub-Fund is actively managed, seeking to deliver excess returns over the Sub-Fund's benchmark. The holdings may or may not be components of the benchmark and the Investment Manager has discretion to deviate entirely from the benchmark securities, weightings and risk characteristics. The degree to which the Sub-Fund resembles the composition and risk characteristics of the benchmark is not a specifically targeted outcome and could vary over time, and the Sub-Fund's performance may be meaningfully different from the Sub-Fund's benchmark.

Distribution Policy

This Unit Class seeks to pay out stable distributions consisting of income, gains and, potentially, capital. Distributions from capital may amount to a re-payment out of your original investment. Over time this could lead to the reduction or complete exhaustion of your holdings in the Unit Class. You may elect to receive payments of or reinvest distributions from your units.

Subscription and Redemption

The Unit Class of the Sub-Fund may be redeemed on demand on any dealing day. A dealing day is any day on which banks in Ireland and also in Japan are open for business.

The price you pay or receive depends on the net asset value per unit on the dealing day when the unit is bought or sold.

Risk and Reward Profile

This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Sub-Fund. The risk and reward category shown is not guaranteed to remain unchanged and may shift over time. The lowest category does not mean investment is 'risk free'. This indicator is not a measure of the risk that you may lose the amount you have invested.

Why is this Sub-Fund in this Category?

The Sub-Fund is in category 6 because variations in the price of its units are typically high. The Sub-Fund invests in assets that carry higher risk and offer potentially higher rewards than other categories of assets.

Are there any other particular Risks?

Equity Investing Risks: The value of shares and securities related to shares may fall due to issuer related issues, financial market dynamics and world events including economic and political changes.

Concentration Risk: The Sub-Fund may invest in a limited number of securities compared to more diversified Sub-Funds or it may focus its investments and hold relatively large positions in, among other things, particular industries, countries, sectors, currencies or issuers. This may increase the volatility of the value of the Sub-Fund or for the sub-fund to bear losses and may also limit the liquidity of certain securities within the Sub-Fund.

Derivatives Risks: A Sub-Fund may use derivative instruments for both efficient portfolio management and for investment purposes. Derivative transactions may be subject to significant volatility which may result in a loss greater than the principal amount invested.

Counterparty Risk: A Sub-Fund may have credit exposure (by virtue of position in swaps, repurchase agreements, FDI etc.) to its trading parties and may bear the risk of default of the counterparties.

Currency Risk – Base Currency: Securities may be denominated in currencies different from the Sub-Fund's Base currency and there is a risk that changes in exchange rates and exchange control regulations may cause the value of the assets expressed in the Base Currency to rise or fall.

For a detailed description of risks, please refer to the prospectus.
