Transferable Securities under Luxembourg law

January 2010

Nordea 1– Global Bond Fund

Investment objective

This Sub-fund aims to preserve the Shareholder's capital and to provide a stable, high yield exceeding the interest level represented by the Sub-funds' reference index. This Sub-fund is further using its reference index as a tool for performance comparison purposes.

Eligible assets, investment policy and risk profile

This Sub-fund invests globally and shall invest a minimum of two-thirds of its total assets (after deduction of cash) in fixed-income and floating rate debt securities issued by private borrowers and public authorities.

In addition to the above-mentioned limitations, this Sub-fund will respect within the remaining one-third of its total assets all the following limitations for investments in the below securities/instruments which may in aggregate not exceed one third of its total assets:

- (i) a maximum of 25 percent of the total assets of this Sub-fund may be invested in convertible bonds and other equity-linked debt securities;
- (ii) a maximum of one third of the total assets of this Sub-fund may be invested in money market instruments;
- (iii) a maximum of 10 percent of the total assets of this Sub-fund may be invested in equity securities.

Within the above-mentioned restrictions and the Company's general investment restrictions this Sub-fund invests world-wide. The Management Company will decide on the asset allocation from time to time.

Private borrowers and public authorities comprise, among others, corporations, municipalities, mortgage institutions, governments and supra-national institutions.

This Sub-fund may accessarily hold liquid assets in all currencies in which investments are effected, as well as in the currency of its respective Class(es) and/or Sub-class(es).

For this Sub-fund the use of derivatives is limited to hedging of the Sub-fund's net assets in relation to the composition of the reference index used.

The investments made in this Sub-fund may be subject to fluctuations and no guarantee can be given that the value of the Shares will not fall below the value at the time of their acquisition.

The factors that may trigger such fluctuations or can influence their scale include but are not limited to:

- Changes in interest rates
- Changes in exchange rates
- Changes affecting economic factors such as employment, public expenditure and indebtedness, inflation
- Changes in the legal environment
- Change in investor confidence in investment type (e.g. bonds versus equities or cash).

By diversifying investments, the investment manager endeavours to partially mitigate the negative impact of such risks on the value of the individual Sub-funds.

Although the Board of Directors makes every effort to achieve the investment objectives of the Company and its Sub-funds, no guarantee can be given as to whether the investment objectives will be achieved.

Investors must read carefully the special risk considerations as described in the chapter "Special Risk Considerations" of the Prospectus before investing in the Sub-fund.

Taxation of the Company

Under Luxembourg law, there are currently no Luxembourg income, withholding or capital gains taxes payable by the Company. The Company is, however, subject to (i) an annual subscription tax (Taxe d'Abonnement) of 0.05% on the aggregate Net Asset Value of the outstanding Private Shares of the Company, and (ii) an annual subscription tax (Taxe d'Abonnement) of 0.01% on the aggregate Net Asset Value of the outstanding Institutional Shares and the X-Shares of the Company. The Taxe d'Abonnement is calculated and payable at the end of each quarter.

Taxation of the Shareholders

On 3 June 2003 the European Union agreed on the implementation of the Council Directive 2003/48/EC (the "Savings Tax Directive"). The Savings Tax Directive will apply to the whole European Union ("EU"); furthermore a number of other countries and territories have agreed to introduce rules similar to those of the EU. The Savings Tax Directive is applicable to interest income as defined in the Savings Tax Directive, when the interest income - as a main rule - is received by an individual, who is resident in the EU and holds a bank account in another country or territory that has agreed to implement the Savings Tax Directive. Further to its implementation on 1 July 2005, the Savings Tax Directive may therefore have an effect on the individual Shareholder taxation level, either as a withholding tax on (part of) the gains realised at disposal of the shares or as a withholding tax on any distributions.

At the date of issue of the Prospectus, there is no Luxembourg withholding tax in general, should the Company decide to make distributions as mentioned in the chapter "Distribution Policy" of the Prospectus. However, the Savings Tax Directive, as described above, may have an effect on the distributions.

Prospective Investors should keep themselves informed of the taxes applicable to the acquisition, holding and disposal of Shares and to distributions in respect thereof under the laws of the countries of their citizenship, residence or domicile before they subscribe, convert or redeem any Shares.

Price calculation and price publication

The Net Asset Value per Share is calculated on each banking business day in Luxembourg. The share prices are available daily from the Custodian, the Management Company and at the internet site of the Company. The share prices are published in the "Tageblatt" in Luxembourg and may also be published in a daily newspaper in those countries where the Company has obtained a public marketing authorisation.
