European Research Fund	Prudent Wealth Fund
European Smaller Companies Fund	U.K. Equity Fund
European Value Fund	U.S. Concentrated Growth Fund
Global Concentrated Fund	U.S. Corporate Bond Fund
Global Credit Fund	U.S. Government Bond Fund
Global Equity Fund	U.S. Growth Fund
Global Equity Income Fund	U.S. Total Return Bond Fund
Global High Yield Fund	U.S. Value Fund
Global Intrinsic Value Fund	

The following Fund is not registered for marketing in the Federal Republic of Germany in accordance with Section 310 of the German Investment Code (KAGB):

### Emerging Markets Equity Research Fund

Shares of the above mentioned Fund are not allowed to be marketed in Germany.

In case of a conflict between the English and translated versions, the English version will govern.

The English Prospectus, the English Articles of Incorporation, the audited annual and unaudited semi-annual financial statements as well as the German Key Investor Information Documents of the fund may be inspected at and are available free of charge by mail or by e-mail from the German Paying and Information Agent Marcard, Stein & Co AG, Ballindamm 36, 20095 Hamburg.

## LETTER FROM THE CHAIR

Dear Shareholders:

Markets experienced dramatic swings over the past twelve months as the coronavirus pandemic brought the global economy to a standstill for several months early in 2020. The speedy development of vaccines and therapeutics later brightened the economic and market outlook, but uncertainty remains as new variants of the virus appear and questions persist over how fast vaccines can be made widely available. In the United States, political uncertainty eased after former Vice President Joe Biden won the presidential election and the Democrats gained control of a closely divided Senate.

Global central banks have taken aggressive steps to cushion the economic and market fallout related to the virus, and governments are deploying unprecedented levels of fiscal support. Additional U.S. stimulus is anticipated with the Democrats in the White House and holding the reins in both houses of Congress. As coronavirus restrictions are lifted, pent-up consumer demand could fuel a surge in economic activity. As a result, markets anticipate at least temporary inflation pressures in the months ahead and have pushed up yields on global government bonds, resulting in ripple effects being felt across most financial markets. The measures already put in place have helped build a supportive environment and are encouraging economic recovery; however, if markets disconnect from fundamentals, they can sow the seeds of instability. As such, dramatic increases in speculative retail trading bear watching.

In the aftermath of the crisis, we could see societal changes as households, businesses, and governments adjust to a new reality, and any such alterations could affect the investment landscape. For investors, events such as the COVID-19 outbreak demonstrate the importance of having a deep understanding of company fundamentals, and we have built our global research platform to do just that.

At MFS®, we put our clients' assets to work responsibly by carefully navigating the increasing complexity of our global markets and economies. Guided by our long-term philosophy and adhering to our commitment to sustainable investing, we tune out the noise and aim to uncover what we believe are the best, most durable investment opportunities in the market. Our unique global investment platform combines collective expertise, long-term discipline, and thoughtful risk management to create sustainable value for investors.

Respectfully,

A handwritten signature in dark ink that reads "Lina Medeiros". The signature is fluid and cursive, with a large initial 'L'.

Lina Medeiros  
Chair of the Board  
MFS Investment Management Company (Lux) S.à r.l.

(a) The performance is for the period from the class inception date through the stated period end. See Note 18 for additional information.

(c) The commencement of operations of the sub-fund was 2 December 2020.

## NOTES TO PERFORMANCE TABLE

Performance data shown represents past performance and is no guarantee of future results. Investment return and principal value fluctuate so your shares, when sold, may be worth more or less than the original cost; current performance may be lower or higher than quoted. For most recent month-end performance, please contact your financial consultant.

Performance results reflect any applicable expense subsidies and waivers in effect during the periods shown. Without such subsidies and waivers, the sub-funds' performance results would have been less favorable. Please see the prospectus and financial statements for details. All results are historical and assume the reinvestment of dividends and capital gains.

Total returns do not include the applicable sales charges. If these charges had been included, the results would have been lower.

Changes in currency exchange rates may affect the net asset values per share and the performance of share classes denominated in currencies other than a sub-fund's base currency.

Performance results do not include adjustments made for financial reporting purposes.

Performance results include the impact of swing pricing, if applicable. See Note 3 of the Notes to Financial Statements for additional information.

From time to time the sub-funds may receive proceeds from litigation settlements, without which performance would be lower.

## GENERAL INFORMATION

Audited annual and unaudited semiannual financial statements are available at the registered office of the fund and at [meridian.mfs.com](http://meridian.mfs.com).

Notices of general meetings are published in the *Mémorial – Journal Officiel du Grand-Duché de Luxembourg* and in other newspapers circulating in jurisdictions in which the fund is registered or in other publications as determined by the directors.

The list of changes in the portfolios for the period ended 31 January 2021 is available, free of charge, at the registered office of the fund.

Information concerning the sub-funds' net asset values and purchases and sales of securities is available at the registered office of the fund.

The Articles of Incorporation are lodged at the office of the Chief Registrar of the District Court of Luxembourg (Greffé du Tribunal d'Arrondissement de et à Luxembourg), at [meridian.mfs.com](http://meridian.mfs.com), and at the registered office of the fund where they are available for inspection and where copies thereof may be obtained upon request.

The fund's most recent offering documents, including the Key Investor Information Documents (KIIDs) and Key Facts Statements (KFS) for Hong Kong investors, contain information on the sub-funds' investment objectives, charges, expenses and risks. The offering documents, Articles of Incorporation and financial reports and other information about the sub-funds are available to investors at no cost at the fund's registered office, from your financial intermediary, or on the web at [meridian.mfs.com](http://meridian.mfs.com). Please read them carefully before you invest. Please note that not all of the sub-funds or classes may be registered or authorized for distribution in every jurisdiction. In certain jurisdictions, investments may only be made by qualified investors and/or through authorized intermediaries on a limited private placement basis subject to applicable laws and regulations in the country of distribution. In particular, please note that as of 31 January 2021 the Contrarian Value Fund, Diversified Income Fund, Emerging Markets Debt Local Currency Fund, Euro Credit Fund, Global Credit Fund, Global Equity Income Fund, Global Intrinsic Value Fund, Global New Discovery Fund, Global Opportunistic Bond Fund, Managed Wealth Fund, Prudent Capital Fund, U.S. Corporate Bond Fund, U.S. Equity Income Fund, and U.S. Growth Fund were not registered in Hong Kong and these sub-funds shall not be offered to the public in this jurisdiction.

## CORPORATE GOVERNANCE

### ALFI CODE OF CONDUCT

The fund is committed to corporate governance standards relating to its management. In connection therewith, the fund adheres to the ALFI (Association of the Luxembourg Fund Industry) Code of Conduct for Luxembourg Investment Funds, which was issued in September 2009 and updated and re-issued in 2013. This Code sets forth principles regarding qualified and experienced personnel, conflicts of interests and serving the best interests of fund shareholders, due diligence and oversight, compliance with applicable laws and risk management processes.

## SHAREHOLDER COMPLAINTS OR INQUIRIES

If you wish to make a complaint about any aspect of the service you have received, you may contact your local agent in your respective country, or contact the funds' transfer agent at State Street Bank International GmbH, Luxembourg Branch, by mail, phone or email.

Mail: MFS Meridian Funds c/o State Street Bank International GmbH, Luxembourg Branch  
49 Avenue J.F. Kennedy  
L-1855 Luxembourg  
Grand Duchy of Luxembourg

Telephone: Europe and Asia: +352-46-40-10-600  
The Americas: +1-416-506-8418

Email: Europe and Asia: [MFSquerydesk@statestreet.com](mailto:MFSquerydesk@statestreet.com)

You may find more information on the fund's complaint handling process at [meridian.mfs.com](http://meridian.mfs.com).

## CERTAIN RISK MANAGEMENT DISCLOSURES (unaudited)

### Information Regarding Global Exposure Under The Funds' Risk Management Program

The fund's Management Company must employ a risk management process which enables it to monitor and measure at any time the risk of the positions in the sub-funds' portfolios and their contribution to the overall risk profile of their portfolios. The global exposure relating to financial derivative instruments may be calculated through the "commitment approach" or through a Value-at-Risk ("VaR") methodology. Generally, a sub-fund that uses derivatives more extensively or as part of its investment objective will utilize the VaR methodology, and a sub-fund that uses derivatives less extensively will utilize the commitment approach.

For each sub-fund except the Emerging Markets Debt Local Currency Fund, Euro Credit Fund, Global Credit Fund, Global Opportunistic Bond Fund, and Managed Wealth Fund, the commitment approach methodology is used to calculate global exposure. The commitment approach is based, in part, on the principle of converting the exposure to derivative instruments into equivalent positions of the underlying assets and quantifying the exposure in absolute value of the total commitments (which may account for hedging and netting). Prior to 18 September 2020, the Euro Credit Fund and the Global Credit Fund used the commitment approach.

For the Managed Wealth Fund, an absolute Value-at-Risk ("VaR") approach is used and for the Emerging Markets Debt Local Currency Fund, Euro Credit Fund, Global Credit Fund, and Global Opportunistic Bond Fund, a relative VaR approach is used, to measure global exposure. VaR provides a measure of the potential minimum loss that could arise over a given time interval under normal market conditions, and at a given confidence level. The sub-funds' risk management program limits the maximum VaR that the sub-fund can have relative to its net asset value for absolute VaR or relative to its benchmark for relative VaR, as determined by the sub-fund taking into account its investment policy and risk profile. For the Managed Wealth Fund, the absolute VaR cannot be greater than 20% of its respective net asset value. For the Emerging Markets Debt Local Currency Fund, Euro Credit Fund, Global Credit Fund, and Global Opportunistic Bond Fund, the relative VaR cannot be greater than 200% of its current benchmark. The VaR approach used by each of these sub-funds is based upon an historical model. The VaR is measured daily at the 99% level of confidence based on a one month (20 day) holding period. The underlying data set encompasses one year of data (minimum of 250 observations).

For the Emerging Markets Debt Local Currency Fund, the expected level of leverage may vary between 0% and 375% (measured using the sum of the notional value of derivatives used by the sub-fund), based on the net asset value of the sub-fund. In addition, the Management Company supplementally monitors the expected level of leverage measured using the commitment approach, which may vary between 0% and 125% based on the net asset value of the sub-fund. Under certain circumstances, such as unusual market conditions or temporary operational factors, the level of leverage might exceed the ranges noted above.

For the Euro Credit Fund, the expected level of leverage may vary between 0% and 275% (measured using the sum of the notional value of derivatives used by the sub-fund), based on the net asset value of the sub-fund. In addition, the Management Company supplementally monitors the expected level of leverage measured using the commitment approach, which may vary between 0% and 125% based on the net asset value of the sub-fund. Under certain circumstances, such as unusual market conditions or temporary operational factors, the level of leverage might exceed the ranges noted above.

For the Global Credit Fund, the expected level of leverage may vary between 0% and 275% (measured using the sum of the notional value of derivatives used by the sub-fund), based on the net asset value of the sub-fund. In addition, the Management Company supplementally monitors the expected level of leverage measured using the commitment approach, which may vary between 0% and 125% based on the net asset value of the sub-fund. Under certain circumstances, such as unusual market conditions or temporary operational factors, the level of leverage might exceed the ranges noted above.

For the Global Opportunistic Bond Fund, the expected level of leverage may vary between 0% and 400% (measured using the sum of the notional value of derivatives used by the sub-fund), based on the net asset value of the sub-fund. In addition, the Management Company supplementally monitors the expected level of leverage measured using the commitment approach, which may vary between 0% and 125% based on the net asset value of the sub-fund. Under certain circumstances, such as unusual market conditions or temporary operational factors, the level of leverage might exceed the ranges noted above.

For the Managed Wealth Fund, the expected level of leverage may vary between 0% and 200% (measured using the sum of the notional value of derivatives used by the sub-fund), based on the net asset value of the sub-fund. In addition, the Management Company supplementally monitors the expected level of leverage measured using the commitment approach, which may vary between 0% and 100% based on the net asset value of the sub-fund. Under certain circumstances, such as unusual market conditions or temporary operational factors, the level of leverage might exceed the ranges noted above.

The sum of notional value is the sum of the absolute values of the full underlying exposures of our derivative positions. The sum of notional value is based upon the full notional exposure with no netting or hedging. Under both levels of leverage methodologies, the sum of the absolute exposures is calculated in order that exposures of opposite signs to unrelated assets do not offset each other in the final result.

Please see the table below for summary information regarding the daily VaR and leverage results for the Emerging Markets Debt Local Currency Fund, Global Opportunistic Bond Fund, and Managed Wealth Fund beginning 1 February 2020 through the year ended 31 January 2021:

<b>1 February 2020 - 31 January 2021</b>	<b>Emerging Markets Debt Local Currency Fund</b>	<b>Global Opportunistic Bond Fund</b>	<b>Managed Wealth Fund</b>
Lowest Absolute VaR	N/A	N/A	1.96%
Highest Absolute VaR	N/A	N/A	10.11%
Average Absolute VaR	N/A	N/A	4.55%
Lowest Relative VaR	85.33%	67.30%	N/A
Highest Relative VaR	145.87%	160.24%	N/A
Average Relative VaR	109.28%	97.51%	N/A
Lowest Leverage Level (Sum of Notional Value)	70.34%	103.32%	75.68%
Highest Leverage Level (Sum of Notional Value)	228.28%	356.09%	126.50%
Average Leverage Level (Sum of Notional Value)	120.67%	175.33%	96.48%
Lowest Leverage Level (Commitment Approach)	49.32%	27.75%	75.87%
Highest Leverage Level (Commitment Approach)	108.41%	60.15%	84.97%
Average Leverage Level (Commitment Approach)	62.29%	47.11%	81.09%

Please see the table below for summary information regarding the daily VaR and leverage results for the Euro Credit Fund and Global Credit Fund beginning 18 September 2020 through the period ended 31 January 2021:

<b>18 September 2020 - 31 January 2021</b>	<b>Euro Credit Fund</b>	<b>Global Credit Fund</b>
Lowest Relative VaR	81.54%	85.33%
Highest Relative VaR	140.41%	124.48%
Average Relative VaR	131.22%	109.28%
Lowest Leverage Level (Sum of Notional Value)	16.40%	14.97%
Highest Leverage Level (Sum of Notional Value)	61.14%	84.52%
Average Leverage Level (Sum of Notional Value)	29.80%	38.03%
Lowest Leverage Level (Commitment Approach)	5.58%	3.77%
Highest Leverage Level (Commitment Approach)	16.34%	7.03%
Average Leverage Level (Commitment Approach)	10.20%	5.08%

U.K. Equity Fund	£ 5,427,312	30.13%	14
U.S. Concentrated Growth Fund	\$ 10,624,948	1.87%	1
U.S. Value Fund	\$ 41,122,045	2.08%	2

- (l) A portion of this security is on loan. See Note 4 for additional information.
- (p) Payment-in-kind (PIK) security for which interest income may be received in additional securities and/or cash.
- (v) The rate quoted is the annualized seven-day yield of the fund at period end and may be negative (i.e., the costs and expenses of the fund may exceed the income and gains of its portfolio).
- (y) The rate shown represents an annualized yield at time of purchase.

The following abbreviations are used in this report and are defined:

ADR	American Depositary Receipt
AGM	Assured Guaranty Municipal
AID	U.S. Agency for International Development
CDO	Collateralized Debt Obligation
CLO	Collateralized Loan Obligation
CPI	Consumer Price Index
ETC	Exchange-Traded Commodity
ETF	Exchange-Traded Fund
FLR	Floating Rate. The period-end rate reported may not be the current rate.
GDR	Global Depositary Receipt
LIBOR	London Interbank Offer Rate
REIT	Real Estate Investment Trust
TBA	To Be Announced
TIPS	Treasury Inflation Protected Security

Currency abbreviations have been used throughout this report. A list of abbreviations is shown below:

AUD	Australian Dollar
BRL	Brazilian Real
CAD	Canadian Dollar
CHF	Swiss Franc
CLP	Chilean Peso
CNH	Chinese Yuan Renminbi (Offshore)
CNY	China Yuan Renminbi
COP	Colombian Peso
CZK	Czech Koruna

DKK	Danish Krone
EUR	Euro
GBP	British Pound
HKD	Hong Kong Dollar
HUF	Hungarian Forint
IDR	Indonesian Rupiah
ILS	Israeli Shekel
INR	Indian Rupee
ISK	Iceland Krona
JPY	Japanese Yen
KRW	South Korean Won
MXN	Mexican Peso
MYR	Malaysian Ringgit
NOK	Norwegian Krone
NZD	New Zealand Dollar
PEN	Peruvian Nuevo Sol
PHP	Philippine Peso
PLN	Polish Zloty
RON	Romanian New Leu
RUB	Russian Ruble
SEK	Swedish Krona
SGD	Singapore Dollar
THB	Thai Baht
TRY	Turkish Lira
TWD	Taiwan Dollar
USD	United States Dollar
UYU	Uruguayan Peso
ZAR	South African Rand

**Note 1: The Fund**

The MFS Meridian Funds (the “fund” or the “Company”) is an open-ended investment company incorporated under the laws of the Grand Duchy of Luxembourg on 4 February 1992. It is organised under Part I of the Luxembourg Law of 17 December 2010 on Undertakings for Collective Investment, as amended, as a Société Anonyme qualifying as a “Société d’Investissement à Capital Variable” (“SICAV”). The fund is registered with the Registre de Commerce et des Sociétés of Luxembourg, under number R.C.S. B 39346. On 31 October 2014, MFS Investment Management Company (Lux) S.à r.l. (“MFS Lux”) was appointed by the fund to act as Management Company.

The fund is organised as an “umbrella fund” comprising separate sub-funds each of which relates to a separate portfolio of securities with specific investment objectives. At 31 January 2021, it comprises 37 sub-funds, each relating to a separate investment portfolio consisting of securities, cash, and other instruments. Each sub-fund may offer various types of classes of shares, which may differ in the minimum subscription amount, minimum holding amount, currency and/or eligibility requirements, the fees and expenses, and the dividend policy applicable to them. The fund may be offered for sale in European Economic Area (“EEA”) states, subject to notification in countries other than the Grand Duchy of Luxembourg, and in certain jurisdictions subject to local offering requirements. Please note that not all of the sub-funds or classes may be registered or authorized for distribution in every jurisdiction. Share classes available for each sub-fund at 31 January 2021 can be found under “Statistical Information” in this report.

**Note 2: Summary of Significant Accounting Policies**

The financial statements have been prepared in accordance with Luxembourg legal and regulatory requirements applicable to investment funds. A reconciliation of the impact on net investment income for those impacted sub-funds arising from accounting differences between Luxembourg legal and regulatory requirements for investment funds and Generally Accepted Accounting Principles (“GAAP”) used in the United States is provided in Note 16.

- A) *Use of Estimates* – The preparation of financial statements in conformity with accounting principles generally accepted in Luxembourg requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the reported amounts of income and expenses during the reporting period. Actual results may differ from those estimates.
- B) *Financial Instrument Valuations* – Equity securities are generally valued at the last sale or official closing price on their primary market or exchange as provided by a third-party pricing service. Equity securities, for which there were no sales reported that day, are generally valued at the last quoted daily bid quotation on their primary market or exchange as provided by a third-party pricing service.

Debt instruments and floating rate loans are generally valued at an evaluated or composite bid as provided by a third-party pricing service.

Exchange-traded options are generally valued at the last sale or official closing price on their primary exchange as provided by a third-party pricing service. Exchange-traded options for which there were no sales reported that day are generally valued at the last daily bid quotation on their primary exchange as provided by a third-party pricing service. For put options, the position may be valued at the last daily ask quotation if there are no trades reported during the day. Options not traded on an exchange are generally valued at a broker/dealer bid quotation. Foreign currency options are generally valued at valuations provided by a third-party pricing service.

Futures contracts are generally valued at the last posted settlement price on their primary exchange as provided by a third-party pricing service. Futures contracts for which there were no trades that day for a particular position are generally valued at the closing bid quotation on their primary exchange as provided by a third-party pricing service.

Swap agreements are generally valued using valuations provided by a third-party pricing service, which for cleared swaps includes an evaluation of any trading activity at the clearinghouses.

Forward foreign currency exchange contracts are generally valued at the mean of bid and asked prices for the time period interpolated from rates provided by a third-party pricing service for proximate time periods.

Short-term instruments with a maturity at issuance of 60 days or less may be valued at amortized cost, which approximates market value.

Open-end investment companies are generally valued at their net asset value per share excluding redemption fees (if any).

Securities and other assets generally valued on the basis of information from a third-party pricing service may also be valued at a broker/dealer bid quotation.

Values obtained from third-party pricing services can utilize both transaction data and market information such as yield, quality, coupon rate, maturity, type of issue, trading characteristics, and other market data. The values of securities and other assets and liabilities expressed in non-base currencies are converted to the base currency of the sub-fund based upon exchange rates provided by a third-party source.

The Management Company has delegated primary responsibility for determining or causing to be determined the value of the sub-fund’s investments (including any fair valuation) to Massachusetts Financial Services Company (“MFS”), the Investment Manager, pursuant to valuation policies and procedures approved by the Board of Directors of the Company and under the oversight of the Board of Directors. In carrying out the valuation policies and procedures, the Investment Manager provides instructions to the Administration Agent on an ongoing basis. If the Investment Manager determines that reliable market quotations are not readily available, investments are valued at fair value as determined in good faith by the Investment Manager in accordance with such procedures under the oversight of the Board of Directors.

Under the valuation policies and procedures applicable to the sub-funds, investments may be valued at fair value if the Investment Manager determines that an investment’s value has been materially affected by events occurring after the close of the exchange or market on which the investment is principally traded (such as foreign exchange or market) and prior to the determination of the sub-fund’s net asset value, or after the halt of trading of a specific security where trading does not resume prior to the close of the exchange or market on which the security is principally traded. Events that occur after markets close (such as developments in foreign markets) and prior to the determination of the sub-fund’s net asset value may be deemed to have a material effect on the value of securities traded in these markets. Accordingly, the sub-fund’s non-U.S. (“foreign”) equity securities may often be valued at fair value. The Investment Manager may rely on third-party pricing services or other information (such as the correlation with price movements of similar securities in the same or other markets; the type, cost and investment characteristics of the security; the business and financial condition of the issuer; and trading and other market data) to assist in determining whether to fair value and at what value to fair value an investment. The value of an investment for

purposes of calculating the sub-fund's net asset value can differ depending on the source and method used to determine the value. When fair valuation is used, the value of an investment used to determine the sub-fund's net asset value may differ from quoted or published prices for the same investment. There can be no assurance that the sub-fund could obtain the fair value assigned to an investment if it were to sell the investment at the same time at which the sub-fund determines its net asset value per share.

- C) *Dividends and Interest* – Dividends received in cash are recorded on the ex-dividend date. Certain dividends from foreign securities will be recorded when the sub-fund is informed of the dividend if such information is obtained subsequent to the ex-dividend date. Interest income is recorded on the accrual basis. Each sub-fund generally accretes discounts on debt securities as adjustments to interest income. The sub-funds do not amortize premiums on debt securities. Dividend and interest payments received in additional securities are recorded on the ex-dividend or ex-interest date in an amount equal to the value of the security on such date.

The sub-funds may receive proceeds from litigation settlements. Any proceeds received from litigation involving portfolio holdings are reflected in the Statements of Operations and Changes in Net Assets in net realized gain (loss) on investments, derivatives, and currency transactions if the security has been disposed of by the sub-fund or in net change in unrealized gain (loss) on investments, derivatives, and currency translation if the security is still held by the sub-fund. Any other proceeds from litigation not related to portfolio holdings are recorded as net realized gain, in the Statements of Operations and Changes in Net Assets.

- D) *Foreign Currency Translation* – Purchases and sales of foreign investments, income, and expenses initially expressed in foreign currencies are converted each business day into each sub-fund's base currency based upon currency exchange rates prevailing on the respective dates of such transactions or on the reporting date for foreign denominated receivables and payables. The base currency for the Blended Research European Equity Fund, Continental European Equity Fund, Euro Credit Fund, European Core Equity Fund, European Research Fund, European Smaller Companies Fund, and European Value Fund is EUR. The base currency for the U.K. Equity Fund is GBP. The base currency for all the remaining sub-funds is USD. Gains and losses attributable to foreign currency exchange rates on sales of securities and foreign exchange rate movements on receivables, payables, income, and expenses are recorded for financial statement purposes as net realized gain (loss) on investments, derivatives, and currency transactions. The portion of both realized and unrealized gains and losses on investments that results from fluctuations in currency exchange rates is not separately disclosed.
- E) *Cost of Securities Sold* – In determining the cost of securities sold, each sub-fund uses the identified cost basis.
- F) *Derivative Collateral Requirements* – Derivative counterparty credit risk is managed through formal evaluation of the creditworthiness of all potential counterparties. On certain, but not all, uncleared derivatives, the sub-fund attempts to reduce its exposure to counterparty credit risk, whenever possible by entering into an International Swaps and Derivatives Association ("ISDA") Master Agreement on a bilateral basis, at the sub-fund level. The ISDA Master Agreement gives each party to the agreement the right to terminate all transactions traded under such agreement if there is a specified deterioration in the credit quality of the other party. Upon an event of default or a termination of the ISDA Master Agreement, the non-defaulting party has the right to close out all transactions traded under such agreement and to net amounts owed under each agreement to one net amount payable by one party to the other. This right to close out and net payments across all transactions traded under the ISDA Master Agreement could result in a reduction of the sub-fund's credit risk to such counterparty equal to any amounts payable by the sub-fund under the applicable transactions, if any. These netting rights may be stayed or limited in the event the counterparty becomes insolvent. However, absent an event of default by the counterparty or a termination of the agreement, the ISDA Master Agreement does not result in an offset of reported balance sheet assets and liabilities across transactions between the sub-fund and the applicable counterparty.

Collateral and margin requirements differ by type of derivative. Margin requirements are set by the clearing broker and the clearinghouse for cleared derivatives (e.g., futures contracts, cleared swaps, and exchange-traded options). Collateral terms are contract specific for uncleared derivatives (e.g., forward foreign currency exchange contracts, uncleared swap agreements, and uncleared options). For derivatives traded under an ISDA Master Agreement, which contains a collateral support annex, the collateral requirements are netted across all transactions traded under such counterparty-specific agreement and an amount is posted from one party to the other to collateralize such obligations. Cash that has been segregated or delivered to cover the sub-fund's collateral or margin obligations under derivative contracts, if any, will be reported separately in the Statements of Assets and Liabilities as "Restricted cash" for uncleared derivatives and/or "Deposits with brokers" for cleared derivatives. Securities pledged as collateral or margin for the same purpose, if any, are noted in the Schedules of Investments. The sub-funds may be required to make payments of interest on uncovered collateral or margin obligations with the broker. Any such payments are included in "Interest expense and similar charges" in the Statements of Operations and Changes in Net Assets. Collateral received consists of cash and/or high quality government debt, which is not reported in the Statements of Assets and Liabilities or Schedules of Investments. At 31 January 2021, the following sub-funds had segregated cash or received cash and/or high quality government debt as collateral for open uncleared derivatives. See Notes 13 and 14 for deposits with brokers.

Sub-Fund	Cash Segregated by the Sub-Fund (Restricted Cash)	Collateral Received by the Sub-Fund
Emerging Markets Debt Fund	\$140,000	\$1,092,523
Emerging Markets Debt Local Currency Fund	\$10,000	\$19,126

Global Opportunistic Bond Fund	\$680,000	\$1,852,000
Global Total Return Fund	\$730,000	\$—

<b>Sub-Fund – (continued)</b>	<b>Cash Segregated by the Sub-Fund (Restricted Cash)</b>	<b>Collateral Received by the Sub-Fund</b>
Prudent Capital Fund	\$5,715,507	\$12,242,303
Prudent Wealth Fund	\$4,925,099	\$16,942,377

- G) *Forward Foreign Currency Exchange Contracts* – Each sub-fund may enter into forward foreign currency exchange contracts for the purchase or sale of a specific foreign currency at a fixed price on a future date. Risks may arise upon entering into these contracts from the potential inability of counterparties to meet the terms of their contracts and from unanticipated movements in the value of the contract. Certain sub-funds may enter into forward foreign currency exchange contracts for efficient portfolio management, hedging, or for investment purposes. For efficient portfolio management purposes, the sub-fund may enter into contracts to deliver or receive foreign currency it will receive from or require in its normal investment activities. For hedging purposes, the sub-fund may use contracts in a manner intended to protect foreign currency denominated securities from declines in value due to unfavorable exchange rate movements. For investment purposes, certain sub-funds may enter into contracts with the intent of changing the relative exposure of the sub-fund's portfolio of securities to different currencies to take advantage of anticipated exchange rate changes. The forward foreign currency exchange contracts are adjusted by the daily exchange rate of the underlying currency and any unrealized gains or losses are recorded as a receivable or payable for forward foreign currency exchange contracts until the contract settlement date. On contract settlement date, any gains or losses are recorded as realized gain (loss) on investments, derivatives, and currency transactions in the Statements of Operations and Changes in Net Assets. Collateral, in the form of cash or securities, is held in segregated accounts with the sub-fund's depositary in connection with these agreements. Details of the forward foreign currency exchange contracts outstanding are listed in Note 10.
- H) *Hedged Share Classes* – Certain sub-funds offer classes with the aim to reduce exchange rate and return fluctuations between the applicable non-base currency hedged share class ("Hedged Share Classes" with the exception of the BRL-Hedged Share Classes as discussed below) and the unhedged base currency class of the relevant sub-fund. Brown Brothers Harriman Investor Services Limited ("BBH"), as delegated provider of currency hedging services for Hedged Share Classes, engaged in hedging transactions for such Hedged Share Classes. The terms and conditions applicable to the Hedged Share Classes are the same as those which apply for the same classes of shares offered in the base currency, the difference being the hedging of the Hedged Share Class to the base currency of the sub-fund. BBH may execute such hedging transactions by using various hedging techniques and instruments, including forward foreign currency exchange contracts, foreign exchange swap contracts, currency futures, written call options, and purchased put options. The gains/losses and expenses of the hedging process will be borne by the Hedged Share Classes. Given that there is no segregation of liabilities between share classes of the sub-funds, there is a risk that, under certain circumstances, currency hedging transactions in relation to one share class (e.g. a Hedged Share Class) could result in liabilities which might affect the net asset value of the other share classes of the same sub-fund. For example, if a currency hedging transaction in respect of a Hedged Share Class were to result in liabilities that the Hedged Share Class has insufficient assets to cover, assets attributable to the other share classes of the sub-fund may be used to cover the liabilities. Further, collateral posting requirements, which may become more burdensome in light of recent regulatory developments, may require the sub-fund to maintain a larger allocation to cash and cash-equivalent instruments than the Investment Manager would otherwise determine to hold. This could negatively affect performance for the sub-fund as a whole, even where the corresponding derivative transactions are in respect of the Hedged Share Classes alone. Details of the class-specific forward foreign currency exchange contracts outstanding are listed in Note 11.
- BRL-Hedged Share Classes seek to systematically convert the value of net assets to the Brazilian Real ("BRL") through the use of derivatives. BRL-Hedged Share Classes are similar in terms of characteristics and risks to the other Hedged Share Classes as described above, except that they are not denominated in BRL (due to currency trading restrictions on BRL) but in the base currency of the respective Fund. BRL-Hedged Share Classes are designated with an "R" (e.g., IH1R (USD)). References to "Hedged Share Classes" throughout this document otherwise include the BRL-Hedged Share Classes.
- I) *Written Options* – In exchange for a premium, each sub-fund may write call options on securities for which it anticipated the price would decline and also write put options on securities for which it anticipated the price would increase. At the time the option was written, the sub-fund believed the premium received exceeded the potential loss that could result from adverse price changes in the options' underlying securities. In a written option, the sub-fund as the option writer grants the buyer the right to purchase from, or sell to, the sub-fund a specified number of shares or units of a particular security, currency or index at a specified price within a specified period of time. The premium is initially recorded as a liability in the Statements of Assets and Liabilities. The option is subsequently marked-to-market daily with the difference between the premium received and the market value of the written option being recorded as unrealized appreciation or depreciation. When a written option expires, the sub-fund realizes a gain equal to the amount of the premium received. The difference between the premium and the amount paid on effecting a closing transaction is considered a realized gain or loss. When a written call option is exercised, the premium received is offset against the proceeds to determine the realized gain or loss. When a written put option is exercised, the premium reduces the cost basis of the security purchased by the sub-fund. Collateral, for uncleared options, in the form of cash or securities, is held in segregated accounts with the sub-fund's depositary in connection with these agreements.
- At the initiation of the written option contract, for exchange traded options, the sub-fund is required to deposit securities or cash as collateral with either the depositary for the benefit of the broker or directly with the clearing broker, based on the type of option. For uncleared options, the sub-fund may post collateral subject to the terms of an ISDA Master Agreement as generally described above if the market value of the options contract moves against it. The sub-fund, as writer of an option, may have no control over whether the underlying securities may be sold (call) or purchased (put) and, as a result, bears the market risk of an unfavorable change in the price of the securities underlying the written option. Losses from writing options can exceed the premium received and can exceed the potential loss from an ordinary buy and sell transaction. Although the sub-fund's market risk may be significant, the maximum counterparty credit risk to the sub-fund is equal to the market value of any collateral posted to the broker. For uncleared options, this risk is mitigated in cases where there is an ISDA Master Agreement between the sub-fund and the counterparty providing for netting as described above.
- J) *Purchased Options* – Each sub-fund may purchase call or put options for a premium. Purchased call and put options entitle the holder to buy or sell a specified number of shares or units of particular security, currency or index at a specified price at a specified date or within a specified period of time. Purchasing call options may be used to hedge against an anticipated increase in the cost of securities or currency to be acquired or to increase the sub-fund's exposure to an underlying instrument. Purchasing put options may hedge against an anticipated decline in the value of portfolio securities or

currency or decrease the sub-fund's exposure to an underlying instrument. The premium paid is initially recorded as an investment in the Schedules of Investments. That investment is subsequently marked-to-market daily with the difference between the premium paid and the market value of the purchased option being recorded as unrealized appreciation or depreciation. Premiums paid for purchased call and put options which have expired are treated as net realized loss on investments in the Statements of Operations and Changes in Net Assets. Upon the exercise or closing of a purchased option, the premium paid is either added to the cost of the security or financial instrument in the case of a call option, or offset against the proceeds on the sale of the underlying security or financial instrument in the case of a put option, in order to determine the net realized gain or loss on investments, derivatives, and currency transactions. Whether or not the option is exercised, the sub-fund's maximum risk of loss from purchasing an option is the amount of premium paid. All option contracts involve credit risk if the counterparty to the option contract fails to perform. For uncleared options, this risk is mitigated in cases where there is an ISDA Master Agreement between the fund and the counterparty providing for netting as described above and, where applicable, by the posting of collateral by the counterparty to the sub-fund to cover the sub-fund's exposure to the counterparty under such ISDA Master Agreement.

- K) *Swap Agreements* – Certain sub-funds may enter into swap agreements. A swap agreement is generally an exchange of cash payments, at specified intervals or upon the occurrence of specified events, between the sub-fund and another party. Swaps may be centrally cleared ("cleared swaps") or uncleared ("uncleared swaps"). In a cleared swap transaction, the ultimate counterparty to the transaction is a clearinghouse (the "clearinghouse"). The contract is transferred and accepted by the clearinghouse immediately following execution of the swap contract with an executing broker. Thereafter, throughout the term of the cleared swap, the sub-fund interfaces indirectly with the clearinghouse through a clearing broker and has counterparty risk to the clearing broker as well. Net cash payments are exchanged at specified intervals and the expected income or expense is recorded on the accrual basis. The swap agreement is recorded at value and adjusted daily and the change in value is recorded as unrealized appreciation or depreciation in the Statements of Operations and Changes in Net Assets. The value of the swap agreement, which is adjusted daily, is recorded in the Statements of Assets and Liabilities, as "Swaps, at value" for uncleared swaps. For cleared swaps, payments (variation margin) are made or received by the fund each day, depending on the daily fluctuations in the value of the cleared swap, such that only the current day net receivable or payable for variation margin is included in "Receivable due from brokers" or "Payable due to brokers" as reported in the Statement of Assets and Liabilities. Amounts paid or received at the inception of the swap agreement are disclosed as premiums paid or received in Note 14 and are amortized using the effective interest method over the term of the agreement. A liquidation payment received or made upon early termination is recorded as a realized gain or loss in the Statements of Operations and Changes in Net Assets. In most instances, collateral for uncleared swaps, in the form of cash or securities, is held in segregated accounts with the sub-fund's depository in connection with these agreements. Collateral may also be posted directly with certain counterparties. Collateral for cleared swaps, in the form of cash or securities, is posted by the sub-fund directly to the clearing broker.

Risks related to swap agreements include the possible lack of a liquid market, unfavorable market and interest rate movements of the underlying instrument and the failure of the counterparty to perform under the terms of the agreements. The sub-fund's maximum risk of loss from counterparty credit risk is the discounted net value of the cash flows to be received from/paid to the counterparty over the contract's remaining life, to the extent that the amount is positive, plus any collateral posted directly to the counterparty. To address counterparty risk, uncleared swap agreements are limited to only highly-rated counterparties. Risk is further reduced by having an ISDA Master Agreement between the sub-fund and its counterparty providing for netting as described above and, where applicable, by the posting of collateral by the counterparty to the sub-fund to cover the sub-fund's exposure to the counterparty under such ISDA Master Agreement. The sub-fund's counterparty risk due to cleared swaps is mitigated by the fact that the clearinghouse is the true counterparty to the transaction and the regulatory safeguards in the event of a clearinghouse or clearing broker bankruptcy. Certain sub-funds may enter into swaps for efficient portfolio management. Certain sub-funds may also enter into swaps for investment purposes. For efficient portfolio management purposes, the sub-fund may use swaps to reduce its exposure to interest and foreign exchange rate fluctuations. For investment purposes, certain sub-funds may use swaps to take a position on anticipated changes in the underlying financial index.

*Interest Rate Swaps* – Interest rate swap agreements involve the periodic exchange of cash flows, between the sub-fund and a counterparty, based on the differences between two interest rates applied to a notional principal amount. The two interest rates exchanged may either be a fixed rate and a floating rate or two floating rates based on different indices. The net receivable or payable associated with these payments is accrued daily and recorded as an unrealized gain or loss, and any payments received or made are recorded as realized gain or loss, in the Statements of Operations and Changes in Net Assets. Details of the interest rate swaps outstanding are listed in Note 14.

*Credit Default Swaps* – Credit default swaps are agreements to manage a sub-fund's exposure to the market or certain sectors of the market, to reduce a sub-fund's credit risk exposure to defaults of corporate and sovereign issuers or to create exposure to corporate or sovereign issuers to which it is not otherwise exposed. In a credit default swap, the protection buyer can make an upfront payment and will make a stream of payments to the protection seller based on a fixed percentage applied to the contract notional amount in exchange for the right to receive a specified return upon the occurrence of a defined credit event on the reference obligation (which may be either a single security or a basket of securities issued by corporate or sovereign issuers) and, with respect to the cases where physical settlement applies, the delivery by the buyer to the seller of a defined deliverable obligation. Although agreement specific, credit events generally consist of a combination of the following: bankruptcy, failure to pay, restructuring, obligation acceleration, obligation default, or repudiation/moratorium, each as defined in the 2003 ISDA Credit Derivatives Definitions as amended by the relevant contract. Restructuring is generally not applicable when the reference obligation is issued by a North American corporation and obligation acceleration, obligation default, or repudiation/moratorium are generally only applicable when the reference obligation is issued by a sovereign entity or an entity in an emerging markets country. Upon determination of the final price for the deliverable obligation (or upon delivery of the deliverable obligation in the case of physical settlement), the difference between the value of the deliverable obligation and the swap's notional amount is recorded as realized gain or loss in the Statements of Operations and Changes in Net Assets. As discussed earlier in this note, collateral requirements for these swaps, if uncleared, are based generally on the market value of the swap netted against collateral requirements for other types of uncleared derivatives traded under each counterparty's ISDA Master Agreement. Details of the credit default swaps outstanding are listed in Note 14.

- L) *Futures Contracts* – The sub-funds may enter into futures contracts which may be used to hedge against or obtain broad market exposure, interest rate exposure, currency exposure, or to manage duration. A futures contract represents a commitment for the future purchase or sale of an asset at a specified price on a specified date. Upon entering into a futures contract, the sub-fund is required to deposit with the broker either in cash or securities an initial margin in an amount equal to a certain percentage of the notional amount of the contract, which subjects the sub-fund to counterparty risk to the clearing broker and possibly the clearinghouse with respect to such collateral. Subsequent payments (variation margin) are made or received by the sub-fund each day, depending on the daily fluctuations in the value of the contract, and are recorded for financial statement purposes as unrealized gains

- or losses by the sub-fund until the contract is closed or expires at which point the gain or loss on futures contracts is realized. Upon entering into such contracts, the sub-fund bears the risk of interest or exchange rates or securities' prices moving unexpectedly, in which case, the sub-fund may not achieve the anticipated benefits of the futures contracts and may realize a loss. Details of the futures contracts outstanding, including collateral amounts posted by a sub-fund for such contracts, are recorded in the Statements of Assets and Liabilities as "Deposits with brokers" and listed in Note 13.
- M) *Combined Statements* – The combined Statements of Assets and Liabilities and Statements of Operations and Changes in Net Assets are presented in EUR at the exchange rate at 31 January 2021. The currency translation adjustment relates to the retranslation of the opening Net Asset Values at this exchange rate. The currency exchange rates (USD to EUR) for 31 January 2021 and 31 January 2020 were 0.824029 and 0.901673, respectively. The currency exchange rates (GBP to EUR) for 31 January 2021 and 31 January 2020 were 1.129043 and 1.190659, respectively.
- N) *Negative Interest* – Each sub-fund may be charged interest ("negative interest") on cash balances. Any such payments are included in "Interest expense and similar charges" in the Statements of Operations and Changes in Net Assets.
- O) *Distributions* – The income allocated to Roll-up shares (A1, B1, C1, I1, N1, S1, P1, W1, and Z1, if offered) of each sub-fund shall be included in the portion of the net assets corresponding to such shares. Each sub-fund distributes to shareholders of Income shares (A2, A4, B2, C2, I2, N2, and W2, if offered) substantially all of the net investment income attributable to such shares. For Gross Income shares (A3, C3, I3, N3, and W3, if offered), the dividend is calculated at the discretion of the Board of Directors on the basis of the total investment income attributable to such shares, with relevant expenses of the class deducted after such distribution. See the fund's prospectus for additional details. Effective 11 June 2020, Classes A3, B1, B2, C3, N3, and W3 were terminated. See Note 18 for additional information.
- P) *Repurchase Agreements* – Each sub-fund may enter into repurchase agreements. Each repurchase agreement is recorded at cost. For certain repurchase agreements, collateral posted by the counterparty is held by the sub-funds' depositary or its agent, while for others it may be held with a third-party agent. In the latter case, the sub-funds are exposed to additional counterparty risk with respect to such collateral due to the possibility of insolvency of the third-party agent. Under Luxembourg regulations, the sub-funds' depositary has established procedures to monitor collateral held with such third-party agent on behalf of the sub-funds. Each sub-fund monitors, on a daily basis, the value of the collateral to ensure that its value, including accrued interest, is greater than amounts owed to each sub-fund under each such repurchase agreement. Interest income earned on the sub-fund's investment in repurchase agreements are reflected in "Income on repurchase agreements" in the Statements of Operations and Changes in Net Assets. Details of the repurchase agreements including various counterparties and collateral amounts relating to such agreements outstanding are listed in Note 12. For the year ended 31 January 2021, there were no transaction costs related to repurchase agreements.
- Q) *Inflation-Adjusted Debt Securities* – Certain sub-funds may invest in inflation-adjusted debt securities issued by the U.S. Treasury. Certain sub-funds may also invest in inflation-adjusted debt securities issued by U.S. Government agencies and instrumentalities other than the U.S. Treasury and by other entities such as U.S. and foreign corporations and foreign governments. The principal value of these debt securities is adjusted through income according to changes in the Consumer Price Index or another general price or wage index. These debt securities typically pay a fixed rate of interest, but this fixed rate is applied to the inflation-adjusted principal amount. The principal paid at maturity of the debt security is typically equal to the inflation-adjusted principal amount, or the security's original par value, whichever is greater. Other types of inflation-adjusted securities may use other methods to adjust for other measures of inflation.

### Note 3: Swing Pricing

Large transactions into or out of a sub-fund can create "dilution" of the sub-fund's assets because the price at which an investor buys or sells shares may not entirely reflect the trading and other related costs that arise when the Investment Manager trades securities to accommodate the large inflows and outflows. Therefore, the Company has adopted procedures such that a sub-fund's net asset value may be adjusted upward or downward (otherwise known as "swing pricing") in order to reduce the impact of such costs to existing shareholders of that sub-fund. Under these procedures, in the usual course of business, the adjustment will be triggered whenever the net subscriptions, exchanges, and redemptions in shares of all classes on a particular business day exceed a certain percentage of the sub-fund's assets as set by the Board of Directors of the Company or Management Company from time to time. Any adjustment to a sub-fund's net asset value will not exceed 2% of the net asset value of the relevant sub-fund on the relevant valuation date. In case of a large amount of net purchases, the net asset value per share will be adjusted upward and purchasers of sub-fund shares on that valuation date will effectively contribute an additional amount to offset the related transaction costs. Conversely, net asset value per share will be adjusted downward with a large amount of net redemptions. The adjusted net asset value will be applicable to all purchases, exchanges, or redemptions in shares of all classes on that valuation day. As a sub-fund's net purchases, redemptions, and exchanges vary from business day to business day, it is not possible to predict how frequently a sub-fund's net asset value will be adjusted. Based on these adjustments, the volatility of a sub-fund's net asset value may not fully reflect the true performance of the sub-fund's underlying assets. The published/dealing NAV per share, as adjusted in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, is disclosed in Statistical Information and may include a swing pricing adjustment. This adjustment is not recognized in either the Statements of Assets and Liabilities or the Statements of Operations and Changes in Net Assets. At 31 January 2021, no sub-funds included a swing pricing adjustment. A swing pricing historical activity report for the period is available at [meridian.mfs.com](http://meridian.mfs.com).

### Note 4: Securities Loaned

Goldman Sachs Agency Lending ("GSAL"), as lending agent, may loan the securities of certain sub-funds to certain qualified institutions (the "Borrowers") approved by the fund. The loans are collateralized by high quality government debt in an amount at least equal to the market value of the securities loaned marked-to-market on a daily basis; such collateral is held within the sub-fund's depositary's custodian network. GSAL provides the applicable sub-fund with indemnification against Borrower default, including failure to deliver to the sub-fund any applicable distributions with respect to securities on loan or to return to the applicable sub-fund securities on loan in accordance with the lending agreement. On loans collateralized by high quality government debt, a fee is received from the Borrower, and is allocated between the sub-fund and the lending agent (which is not a related party to the fund, Management Company,

Investment Manager or Depositary). Income and expense from securities lending is separately reported in the Statements of Operations and Changes in Net Assets. The dividend and interest income earned on the securities loaned is accounted for in the same manner as other dividend and interest income as disclosed in Note 2. The market value of securities loaned and collateral outstanding at 31 January 2021 for the applicable sub-funds were as follows:

Sub-Fund	Market Value of Securities Loaned	Market Value of Collateral
European Research Fund	€21,973,378	€23,697,959
European Smaller Companies Fund	€ 412,449	€ 519,196

#### Note 5: Related Party Transactions

A) *Management Company Fee* – The Board of Directors of the fund has appointed MFS Investment Management Company (Lux) S.à r.l. pursuant to a Management Company Agreement to carry out the functions of management of the fund as prescribed under Luxembourg regulations. The Management Company is responsible for the fund's investment management, administration and distribution and marketing functions. The Management Company has been permitted by the fund to delegate, under the Management Company's supervision and control, certain administrative, distribution and investment management functions to affiliates or third party service providers. The Management Company has appointed MFS, an affiliate, as the Investment Manager and Administrative Services Agent.

Each sub-fund pays the Management Company an annual fee approved by the fund's Board of Directors, which is intended to cover the expenses of services the Management Company provides in connection with its mandate, plus a target profit margin. These expenses include fees paid to the Management Company's independent Conducting Persons and Managers of the Management Company, legal, regulatory and operational costs of the Management Company as well as fees paid by the Management Company to third parties to provide certain administrative, risk management and reporting services to the Management Company, including the administrative support services provided by MFS. The fund also reimburses the Management Company for out-of-pocket expenses related to its services. The management company fee is computed daily and is allocated such that each sub-fund pays a fixed fee of \$20,000 (or currency equivalent) plus an asset-based fee based on average daily net assets over \$40 million and up to \$4 billion (or currency equivalent) for each sub-fund. The management company fee incurred by each sub-fund for the year ended 31 January 2021 was equivalent to the following annual effective rates of each sub-fund's average daily net assets:

Sub-Fund	% of Average Daily Net Assets
Asia Ex-Japan Fund	0.0429%
Blended Research European Equity Fund	0.2851%
Continental European Equity Fund	0.0874%
Contrarian Value Fund	0.7973%
Diversified Income Fund	0.0296%
Emerging Markets Debt Fund	0.0217%
Emerging Markets Debt Local Currency Fund	0.0458%
Emerging Markets Equity Fund	0.0330%
Euro Credit Fund	0.0738%
European Core Equity Fund	0.0292%
European Research Fund	0.0218%
European Smaller Companies Fund	0.0234%
European Value Fund	0.0177%
Global Concentrated Fund	0.0227%
Global Credit Fund	0.0616%
Global Energy Fund (b)	0.3398%
Global Equity Fund	0.0213%
Global Equity Income Fund	0.9108%
Global High Yield Fund	0.0246%
Global Intrinsic Value Fund	0.0361%
Global New Discovery Fund (c)	0.7946%
Global Opportunistic Bond Fund	0.0230%
Global Research Focused Fund	0.0291%
Global Total Return Fund	0.0221%
Inflation-Adjusted Bond Fund	0.0303%

Sub-Fund – (continued)	% of Average Daily Net Assets
Japan Equity Fund	0.5026%
Latin American Equity Fund	0.3791%
Limited Maturity Fund	0.0225%
Managed Wealth Fund	0.1616%
Prudent Capital Fund	0.0207%
Prudent Wealth Fund	0.0194%
U.K. Equity Fund	0.0983%
U.S. Concentrated Growth Fund	0.0235%
U.S. Corporate Bond Fund	0.0230%
U.S. Equity Income Fund (b)	0.4843%
U.S. Government Bond Fund	0.0242%
U.S. Growth Fund	0.0546%
U.S. Total Return Bond Fund	0.0230%
U.S. Value Fund	0.0220%

(b) The sub-fund ceased operations on 15 April 2020.

(c) The commencement of operations of the sub-fund was 2 December 2020.

- B) *Investment Management Fee* – The Management Company has an investment management agreement with MFS to provide investment management services for the sub-funds. The investment management fee is computed daily and paid monthly at the following annual rates as of 31 January 2021 based on average daily net assets of each share class for the sub-funds below:

Sub-Fund	Class A	Class B(a)	Class C	Class I	Class N	Class S	Class W
Asia Ex-Japan Fund	1.05%	1.05%	1.05%	0.75%	1.05%	1.05%	0.80%
Blended Research European Equity Fund	0.60%	—	0.60%	0.45%	0.60%	—	0.50%
Continental European Equity Fund	1.00%	—	1.00%	0.70%	1.00%	—	0.75%
Contrarian Value Fund	1.00%	—	1.00%	0.70%	1.00%	—	0.75%

(a) See Note 18 for additional information.

(b) The sub-fund ceased operations on 15 April 2020. Information for the current period is as of 15 April 2020, and period end information disclosed is as of this date.

(c) The commencement of operations of the sub-fund was 2 December 2020.

Prior to 1 August 2020, for the following sub-funds, the investment management fee was based on the rates noted in the table below:

Sub-Fund	Class A	Class C	Class I	Class N	Class S	Class W
Continental European Equity Fund	1.05%	1.05%	0.75%	1.05%	—	0.80%
Contrarian Value Fund	1.05%	1.05%	0.75%	1.05%	—	0.80%
Diversified Income Fund	0.85%	0.85%	0.75%	0.85%	—	0.80%
Emerging Markets Debt Fund	0.90%	0.90%	0.80%	0.90%	0.90%	0.90%
Emerging Markets Equity Fund	1.15%	1.15%	0.95%	1.15%	1.15%	1.05%
Global High Yield Fund	0.75%	0.75%	0.65%	0.75%	0.75%	0.70%
Global Intrinsic Value Fund	1.05%	1.05%	0.75%	1.05%	—	0.80%
Global Research Focused Fund	1.05%	1.05%	0.75%	1.05%	1.05%	0.80%
Japan Equity Fund	1.05%	1.05%	0.75%	1.05%	—	0.80%
Latin American Equity Fund	1.15%	1.15%	0.95%	1.15%	—	1.05%
Limited Maturity Fund	0.60%	0.60%	0.50%	0.60%	0.60%	0.55%
Managed Wealth Fund	1.05%	1.05%	0.75%	1.05%	—	0.80%
U.K. Equity Fund	1.05%	1.05%	0.75%	1.05%	—	0.80%
U.S. Corporate Bond Fund	0.60%	0.60%	0.50%	0.60%	—	0.55%
U.S. Government Bond Fund	0.60%	0.60%	0.50%	0.60%	0.60%	0.55%
U.S. Growth Fund	1.05%	1.05%	0.75%	1.05%	—	0.80%

Class P shares pay fees for investment management and distribution services as a single combined annual management charge. The annual management charge is computed daily and paid monthly at the following annual rates as of 31 January 2021 based on average daily net assets of each share class for the sub-funds below:

Sub-Fund	Class P
Blended Research European Equity Fund	1.35%
Diversified Income Fund	1.35%
Emerging Markets Debt Fund	1.40%
Emerging Markets Equity Fund	1.90%
European Research Fund	1.80%
Global Concentrated Fund	1.90%
Global Equity Fund	1.80%

Sub-Fund – (continued)	Class P
Global Intrinsic Value Fund	1.75%
Global Opportunistic Bond Fund	1.05%
Global Total Return Fund	1.80%
Managed Wealth Fund	1.75%
Prudent Capital Fund	1.80%
U.S. Value Fund	1.80%

Prior to 1 August 2020, for class P shares on the following sub-funds, the annual management charge was based on the rates noted in the table below:

Sub-Fund	Class P
Global Intrinsic Value Fund	1.80%
Managed Wealth Fund	1.80%

The investment management fee for Class Z shares will be administratively levied and will be paid directly by the shareholder, in relation to investment management services provided by MFS to the sub-fund, and the payment of such fee is not charged to or paid by the sub-fund.

- C) *Distribution and Service Fees* – The Management Company is also responsible for oversight of the distribution and marketing function with respect to the fund. All distribution and service fees are being paid to the Management Company or its affiliate. The Management Company or its affiliates may pay all or a portion of such fees to financial intermediaries. The Management Company may engage certain of its affiliates (including MFS International Limited) to provide distribution support to the Management Company.

The fund has adopted a distribution plan, which provides that each sub-fund pays the Management Company or its affiliate an annual distribution and/or service fee paid on a monthly basis. In the case of Class A shares and Class N shares, the sub-fund pays a distribution fee of up to 0.50% and 1.00%, respectively, annually of average daily net assets of each share class for Diversified Income Fund, Emerging Markets Debt Fund, Emerging Markets Debt Local Currency Fund, Euro Credit Fund, Global Credit Fund, Global High Yield Fund, Global Opportunistic Bond Fund, Inflation-Adjusted Bond Fund, Limited Maturity Fund, U.S. Corporate Bond Fund, U.S. Government Bond Fund, and U.S. Total Return Bond Fund and up to 0.75% and 1.25%, respectively, annually of average daily net assets of Class A shares and Class N shares for each remaining sub-fund. Effective 1 August 2020, the distribution fee for Class A shares was lowered from 0.50% to 0.40% for Inflation-Adjusted Bond Fund, Limited Maturity Fund, and U.S. Government Bond Fund. In the case of Class B shares and Class C shares, each sub-fund pays a distribution fee of 1.00% of average daily net assets of the share class. In consideration for the distribution fees, the Management Company or its affiliate pays expenses on behalf of these sub-funds related to the marketing and distribution of their shares, including a fee paid to financial intermediaries or institutions. Effective 11 June 2020, all Class B Shares were terminated. See Note 18 for additional information.

The service fee paid to the Management Company or its affiliate is established at the annual rate of 0.50% of average daily net assets attributable to the Class B and Class C shares of each sub-fund.

Class A shares are subject to a front-end load of up to 6.00% of the net asset value of such shares. With respect to each sub-fund, certain large purchases of Class A shares may be purchased without a front-end load. If purchased before 1 July 2018, Class A shares may be subject to a back-end load up to 1.00% in the event of a share redemption within 24 months following purchase (Class A shares purchased on or after 1 July 2018 will not be subject to any back-end load). Class N shares and Class P shares are subject to a front-end load of up to 3.00% of the net asset value of such shares. A back-end load up to a maximum of 4.00% is imposed on shareholder redemptions of Class B shares in the event of a shareholder redemption within four years from the purchase. Class C shares are subject to a back-end load up to a maximum of 1.00% in the event of a shareholder redemption within twelve months following the purchase. Front-end loads may be paid to the Management Company or its affiliate (all or a portion of which may be paid as a commission by the Management Company or its affiliate to the applicable financial intermediary upon the sale of Class A shares) or may be deducted from the applicable purchase amount directly by the financial intermediary upon the purchase of Class A shares. The Management Company or its affiliate receives all back-end loads, which are generally intended to recapture sales commissions paid by the Management Company or its affiliate to financial intermediaries upon the purchase of the applicable class.

The Management Company has voluntarily agreed to rebate a portion of the service fee for Class B shares and Class C shares and a portion of the distribution fee for Class A shares and Class N shares to the respective share class attributable to accounts for which the Management Company retains the service fee except for accounts attributable to MFS or its affiliates' seed money. The reductions under these agreements are included in "Expenses reimbursed by related parties" in the Statements of Operations and Changes in Net Assets.

- D) *Directors' Fees* – The fund pays no compensation directly to Directors of the fund who are Officers or employees of the Management Company, Investment Manager or its affiliates (other than fund related out-of-pocket expenses). As of the date of this report, all Directors of the fund are Officers or Directors of the Management Company, MFS and its affiliates, except for Thomas Bogart and James R. Julian, Jr., whose compensation, paid by the sub-funds in aggregate, amounts to \$150,000 annually, before taxes. Thomas Bogart and James R. Julian, Jr., also received reimbursement for out-of-pocket expenses, paid by the sub-funds in the aggregate amount of \$244 before taxes. These fees are included in the "Miscellaneous" expenses in the Statements of Operations and Changes in Net Assets.
- E) *Expense Cap Arrangement* – Each sub-fund has entered into a temporary expense cap agreement whereby MFS has agreed in writing to bear certain of the sub-fund's "Other Expenses," excluding taxes (other than the Luxembourg tax d'abonnement) and expenses associated with the sub-fund's investment activities such as interest expense, such that these expenses do not exceed the rates of average daily net assets of Class A, Class B, Class C, Class I, Class N, Class P, Class W, and Class Z noted in the table below.

"Other Expenses" generally include all direct sub-fund expenses other than investment management, distribution and service fees. "Other Expenses" include fees paid to the Management Company, Depository and Transfer Agent, legal and audit fees, share class hedging expenses, certain expenses associated with the sub-fund's investment activities including interest, and expenses in connection with the sub-fund's operation and central administration in Luxembourg, among others. "Other Expenses" do not include brokerage commissions and transaction costs or currency conversion costs and the fee paid to the securities lending agent.

For Class S, each sub-fund has entered into a temporary expense cap agreement whereby MFS has agreed in writing to bear certain direct expenses, excluding taxes (other than the Luxembourg tax d'abonnement) and expenses associated with the sub-fund's investment activities such as interest expense, such that the "Total Expense Ratio" does not exceed the rates of average daily net assets noted in the table below.

To the extent the "Total Expense Ratio" (in the case of Class S) or "Other Expenses" (in the case of other classes) exceeds the expense cap rate, the difference is attributable to certain other expenses that are excluded from the expense cap arrangement, such as interest expenses associated with the sub-fund's investment activities, brokerage commissions and transaction costs, currency conversion costs, or the fee paid to the securities lending agent.

For Class IS and Class WS, the Management Company reserves the right to offer a partial waiver of the investment management fee and/or an arrangement to bear "Other Expenses." The reductions under these agreements are included in "Expenses reimbursed by related parties" in the Statements of Operations and Changes in Net Assets.

(a) See Note 18 for additional information.

(b) The sub-fund ceased operations on 15 April 2020. Information for the current period is as of 15 April 2020, and period end information disclosed is as of this date.

(c) The commencement of operations of the sub-fund was 2 December 2020.

(d) Prior to 18 September 2020, the expense cap fee for Class Z was 0.15%.

Prior to 1 August 2020, for the following sub-funds, the expense cap arrangement was based on the rates noted in the table below:

Sub-Fund	Class A	Class C	Class I	Class N	Class P	Class S	Class W	Class Z
Asia Ex-Japan Fund	0.25%	0.25%	0.15%	0.25%	—	1.00%	0.20%	—

The reductions under these agreements are included in "Expenses reimbursed by related parties" in the Statements of Operations and Changes in Net Assets. These expense cap agreements are in place until 31 January 2022, at which time the arrangements may or may not be continued. All transactions entered into between the fund and MFS have been entered into in the ordinary course of business and on normal commercial terms. The fund has not entered into any transactions through a broker who is a connected person, nor has the fund entered into any transactions which are outside the ordinary course of business or not on normal commercial terms.

#### Note 6: Depositary Fees

Each sub-fund will pay State Street Bank International GmbH, Luxembourg Branch ("State Street"), the fund's depositary and global custodian (the "Depositary"), a fee based on the monthly net asset value of the month-end holdings by foreign markets of the sub-funds plus a fee based upon the trading activity of each sub-fund. The Depositary and the Management Company or MFS, on behalf of the fund, shall determine the level of the fee from time to time in light of market rates applicable in Luxembourg. The fee is approved by the fund's Board of Directors. Reasonable disbursements and out-of-pocket expenses incurred by the Depositary or by other banks and financial institutions to which safekeeping of assets of the sub-funds is entrusted are in addition to the Depositary's fee. The Management Company and the fund have also entered into agreements with State Street to serve as the Registrar, Transfer Agent, Luxembourg Paying Agent, Central Administration Agent, and Fund Accounting Agent. The fund pays State Street fees for such services at commercial rates agreed upon between the parties, together with reasonable out-of-pocket expenses. The fees paid to State Street for these services are part of each sub-fund's operating expenses which are capped by MFS as described in Note 5.

**Note 7: Commission Sharing**

In allocating brokerage commissions for sub-funds managed wholly outside of the European Union and the United Kingdom, MFS may take into consideration the receipt of brokerage and research services, consistent with its obligation to seek best price and execution for client transactions. Such services include advice as to the value of securities, the advisability of investing in, purchasing or selling securities, and the availability of securities or purchasers or sellers of securities, furnishing analyses and reports concerning issuers, industries, securities, economic factors and trends, portfolio strategy and the performance of accounts, and effecting securities transactions and performing functions incidental thereto (such as clearance and settlement) or required in connection therewith by applicable rules. Research services can include access to corporate management, industry conferences, research field trips to visit corporate management and/or to tour manufacturing, production or distribution facilities, statistical, research and other factual information or services such as investment research reports; access to analysts; execution systems and trading analytics; reports or databases containing corporate, fundamental and technical analyses; portfolio modelling strategies; and economic research services, such as publications, chart services and advice from economists concerning macroeconomics information, and analytical investment information about particular corporations (collectively, "Research"). MFS has entered into Client Commission Agreements with certain broker/dealers that execute, clear or settle securities transactions on behalf of these sub-funds (collectively, "Executing Brokers") which provide for the Executing Brokers to pool a portion of the commissions paid by these sub-funds for securities transactions ("Pooled Commissions") to research providers. Such research providers shall provide Research for the benefit of MFS. MFS would initially, through the use of the Research acquired with brokerage commissions including Pooled Commissions, avoid the additional expenses that would be incurred if it attempted to develop comparable information through its own staff or if it purchased such Research with its own resources. As a result, to the extent a sub-fund's portfolio transactions are used to obtain Research, the brokerage commissions paid by the sub-fund may initially exceed those that might otherwise be paid for execution only; however, for sub-funds managed wholly outside of the European Union and the United Kingdom, MFS has voluntarily undertaken to reimburse the sub-funds from its own resources on a quarterly basis for Research and therefore MFS ultimately assumes the additional expenses that it would incur if it purchased such Research with its own resources. This agreement may be rescinded at any time. This reimbursement, if any, will be determined in arrears on a calendar quarterly basis, or more frequently as determined by MFS. The reimbursement under these agreements is included in "Other" income in the Statements of Operations and Changes in Net Assets.

For sub-funds managed in whole or in part within the European Union and the United Kingdom, MFS has determined to pay for Research out of its own resources rather than through brokerage commissions. For these sub-funds, MFS may take the following factors into account when placing orders for the purchase and sale of securities on behalf of a sub-fund: price, the size of the transaction, the nature of the market of the security, the amount of the commission, the timing and impact of the transaction considering market prices and trends, the reputation, experience and financial stability of the broker/dealer involved, the willingness of the broker/dealer to commit capital, the need for anonymity in the market, and the quality of services rendered by the broker/dealer in other transactions (but not including research or brokerage services).

MFS often receives Research from executing dealers in fixed income transactions. However, MFS believes that executing dealers in fixed income transactions do not charge lower markups, markdowns, commission equivalents or other fees if clients forego Research. Consequently, MFS does not believe it pays a higher markup, markdown, commission equivalent or other fees to dealers on fixed income transactions than it would if it did not receive any Research from dealers. However, except to the extent that Research received on fixed income transactions for portfolios managed in the European Union or the United Kingdom is offered generally to any investment firm, is made public or otherwise is believed by MFS not to constitute an illegal "inducement" under EU law, MFS will pay for such Research out of its own resources.

**Note 8: Taxation**

The fund is subject to Luxembourg law with respect to its tax status. Under legislation and regulations currently prevailing in Luxembourg, the fund is subject to a "taxe d'abonnement" on its net assets at an annual rate of 0.05% for Class A, Class B, Class C, Class N, Class P, and Class W and 0.01% for Class I, Class S, and Class Z. The "taxe d'abonnement" is calculated and payable quarterly on the basis of the net assets at the end of each calendar quarter. Interest and dividend income, and gains on securities, may be subject to non-recoverable withholding taxes deducted at source in the countries of origin.

The fund is registered for Value Added Tax in the Grand Duchy of Luxembourg and subject to account for Value Added Tax in accordance with current regulations.

*United Kingdom Tax Considerations* – The Company has received "reporting fund" status for certain sub-funds and share classes for the fiscal year ended 31 January 2021. More information can be found at [www.mfs.com](http://www.mfs.com).

**Note 9: Line of Credit**

Each sub-fund and other funds managed by MFS participate in an unsecured committed line of credit, subject to a \$250 million sublimit provided by a syndicate of banks under a credit agreement. Borrowings may be made for temporary financing needs. Interest is charged to each sub-fund, based on its borrowings, generally at a rate equal to the highest of one month LIBOR, the Federal Funds Effective Rate and the Overnight Bank Funding Rate, plus an agreed upon spread. A commitment fee, based on the average daily unused portion of the committed line of credit, is allocated among the participating sub-funds. In addition, each sub-fund and other funds managed by MFS have established a \$200 million unsecured uncommitted borrowing arrangement with its depository bank for temporary financing needs. Interest is charged to each participating sub-fund, based on its borrowings, at rates equal to customary reference rates plus an agreed upon spread. Any interest fees are reflected in "Interest expense and similar charges" and any commitment fees are reflected in "Miscellaneous" expense in the Statements of Operations and Changes in Net Assets. None of the sub-funds had any borrowings outstanding under these arrangements at 31 January 2021. The Global New Discovery Fund did not participate in these agreements during the year ended 31 January 2021. The sub-fund will be added to the agreements in the next fiscal year.

**Note 10: Open Forward Foreign Currency Exchange Contracts**

At 31 January 2021, the sub-funds had outstanding the following forward foreign currency exchange contracts. Each sub-fund had sufficient cash and/or other securities to cover any commitments under these derivative contracts.

Type	Currency	Counterparty	Contracts to Deliver/Receive	Settlement Date Range	In Exchange For	Contracts at Value	Net Unrealized Gain (Loss)

The following abbreviations are used in this report and are defined:

BZDIOVRA	Brazil Cetip Interbank Deposit Rate
FLR	Floating Rate. The period-end rate reported may not be the current rate.
LIBOR	London Interbank Offer Rate
THBFIX	Thai Baht Floating Rate Fixed
TIE	Interbank Equilibrium Interest Rate

### Note 15: Transaction Costs

For the year ended 31 January 2021, the sub-funds incurred transaction costs which have been defined as brokerage commissions (which may include costs related to Research, see Note 7) in respect of the purchase or sale of transferable securities, money market instruments, derivatives or other eligible assets, and fees charged by the Depositary for the execution of the sub-funds' transactions. Brokerage commissions are included in Identified Cost in the Schedules of Investments or in Net Realized Gain (Loss) on Investments, Derivatives, and Currency Transactions in the Statements of Operations and Changes in Net Assets. The reimbursement of Research by MFS, if any, is reported as "Other" in the Statements of Operations and Changes in Net Assets. Fees charged by the Depositary are disclosed as part of the Depositary fee in the Statements of Operations and Changes in Net Assets.

U.S. Growth Fund	\$11,939
U.S. Total Return Bond Fund	\$38,074
U.S. Value Fund	\$179,255

(b) The sub-fund ceased operations on 15 April 2020. Information for the current period is as of 15 April 2020, and period end information disclosed is as of this date.

(c) The commencement of operations of the sub-fund was 2 December 2020.

#### Note 16: Summary of accounting differences between Luxembourg legal and regulatory requirements for investment funds and accounting principles generally accepted in the United States

The fund's financial statements are prepared in accordance with Luxembourg legal and regulatory requirements for investment funds. These requirements differ in the manner in which discount is accreted and premium is amortized into income for certain fixed income securities from accounting principles generally accepted in the United States ("U.S. GAAP"). These differences do not change the total results of operations but may impact amounts reported for net investment income and change in realized and unrealized gain (loss) for investments, derivatives, and currency translation. These differences have no impact on the net assets of the sub-funds. A description of the material differences and the financial statement impact for those impacted sub-funds are as follows:

	Luxembourg legal and regulatory requirements	U.S. GAAP	
Fixed income securities	Premium on fixed income securities is not required to be amortized to income on a daily basis. Discount on interest only securities is not required to be accreted to income on a daily basis.	Premium on fixed income securities is amortized to income on a daily basis. Discount on interest only securities is accreted to income on a daily basis.	
Sub-Fund	Total net investment income in accordance with Luxembourg legal and regulatory requirements	Net adjustment for amortization of premium, and accretion of discount on certain fixed income securities	Total net investment income in accordance with U.S. GAAP

**Note 17: Impacts of COVID-19**

The pandemic related to the global spread of novel coronavirus disease (COVID-19), which was first detected in December 2019, has resulted in significant disruptions to global business activity and the global economy, as well as the economies of individual countries, the financial performance of individual companies and sectors, and the securities and commodities markets in general. Multiple surges in cases globally, the availability and widespread adoption of vaccines, and the emergence of variant strains of the virus continue to create uncertainty as to the future and long-term impacts resulting from the pandemic including impacts to the prices and liquidity of the sub-funds' investments and the sub-funds' performance.

**Note 18: Share Class Events**

Effective 27 March 2020, the following MFS Meridian Funds' share classes commenced operations:

European Research Fund	IH1 (SGD)
Global Intrinsic Value Fund	P1 (EUR), PH1 (EUR)

Effective 8 June 2020, the following MFS Meridian Funds' share classes were liquidated and closed:

Emerging Markets Debt Fund	IH1 (GBP), WH3 (GBP)
Emerging Markets Debt Local Currency Fund	B1 (USD)
Global Opportunistic Bond Fund	WH2 (EUR), WH2 (GBP)
Global Total Return Fund	IH1 (GBP), WH3 (EUR)
Latin America Equity Fund	N1 (EUR)

Effective 11 June 2020, the following MFS Meridian Funds' share classes were consolidated on all applicable sub-funds. The terminating share classes were converted to the corresponding receiving share classes:

Terminating Class	Receiving Class
A3 (USD)	A2 (USD)
AH3 (EUR)	AH2 (EUR)
B1 (USD)	A1 (USD)
B2 (USD)	A2 (USD)
C3 (USD)	C2 (USD)
I1X (USD)	I1 (USD)
N3 (USD)	N2 (USD)
W2 (EUR)	W1 (EUR)
W3 (USD)	W2 (USD)
WH3 (EUR)	WH1 (EUR)
WH3 (GBP)	WH1 (GBP)

Effective 11 June 2020, the following MFS Meridian Funds' share classes were consolidated on the respective sub-funds. The terminating share classes were converted to the corresponding receiving share classes:

Sub-Fund	Terminating Class	Receiving Class
Emerging Markets Debt Fund	AH1 (CHF)	AH1 (EUR)
European Research Fund	AH1 (CHF)	A1 (EUR)
Latin American Equity Fund	AH1 (CHF)	WH1 (EUR)
European Value Fund	IH1 (CHF)	I1 (EUR)
Prudent Capital Fund	IH1 (GBP)	I1 (GBP)
Prudent Capital Fund	IH2 (EUR)	IH1 (EUR)

Sub-Fund	Terminating Class	Receiving Class
Emerging Markets Debt Fund, Emerging Markets Debt Local Currency Fund, European Research Fund	N1 (EUR)	A1 (EUR)
European Research Fund	WH1 (CHF)	W1 (EUR)
Global Equity Fund, Global Total Return Fund, Prudent Capital Fund	WH1 (CHF)	WH1 (EUR)
Global High Yield Fund	WH2 (EUR)	WH1 (EUR)

Effective 11 August 2020, the following MFS Meridian Fund's share classes commenced operations:

Emerging Markets Debt Fund                      ISH2 (EUR)

Effective 13 January 2021, the following MFS Meridian Funds' share classes commenced operations:

Continental European Equity Fund              I1 (EUR)

Prudent Capital Fund                              AH1 (CHF), WH1 (CHF)

#### Note 19: Subsequent Events

Effective 27 April 2021, MFS Meridian Funds - Emerging Markets Equity Research Fund will commence operations.

## ADDENDUM

### EXPENSE RATIOS (audited)

For the twelve months ended 31 January 2021:

The following expense ratio has been calculated in accordance with the Swiss Funds & Asset Management Association Guidelines on the calculation and disclosure of the Total Expense Ratio of collective investment schemes 16 May 2008 (Version of 20 April 2015).

Emerging Markets Debt Fund	
Class Z1 (USD)	0.07%

### REMUNERATION POLICY (unaudited)

The Management Company has adopted a remuneration policy and implements related procedures and practices which are consistent with and promote sound and effective risk management in a manner appropriate to the Management Company's size, internal organization, and the nature, scope and complexity of its activities. The remuneration policy of the Management Company is administered and overseen by a remuneration committee composed of members of MFS executive management and its human resources team and is reviewed and approved by the remuneration committee and Board of Managers of the Management Company each financial year.

Further details on the remuneration policy, including a description of how remuneration and benefits are calculated, are available by referring to [meridian.mfs.com](http://meridian.mfs.com) (and clicking the link "Information on MFS' Remuneration Policy"), and a paper copy of such details is available upon request at the registered office of the Management Company without charge.

As of the Company's fiscal year end, the Management Company identified staff who performed activities in respect of the Company consisted of 58 individuals, inclusive of the independent Managers of the Management Company and certain delegated investment manager staff. The total amount of remuneration paid by the Management Company and its delegates to identified staff in respect of the Company during the Company's fiscal year was €25,105,983, which consisted of €1,984,478 in fixed remuneration and €23,121,505 in variable remuneration. Information on the remuneration paid during the year to identified staff is available upon request at the registered office of the Management Company based on the demonstration of a satisfactory need for such information.

None of the remuneration paid by the Management Company for the Company's financial year was paid directly by the Company or any sub-fund, or resulted from performance fees.

### SECURITIES FINANCING TRANSACTIONS REGULATION (unaudited)

Securities Financing Transactions Regulation (Regulation (EU) 2015/2365) ("SFTR") requires disclosure detailing the Company's use of securities financing transactions in the Company's annual and semiannual reports.

A securities financing transaction ("SFT") is defined per Article 31(11) of the SFTR as:

- a repurchase transaction;
- securities or commodities lending and securities or commodities borrowing;
- a buy-sell back transaction or sell-buy back transaction;
- a margin lending transaction.

The SFTR also extends the disclosure requirements to total return swaps.

The disclosure requirements are presented in the tables below. For additional information regarding the sub-funds' usage of SFTs and total return swaps, refer to the following Notes within the Notes to Financial Statements:

- Repurchase Agreements: Note 2 and Note 12
- Securities Loaned: Note 4
- Total Return Swaps: Note 2 and Note 14

At 31 January 2021, the sub-funds had the following amounts of securities on loan as proportion to total lendable assets:

Sub-Fund	Market Value of Securities Loaned	Market Value as % of Total Lendable Assets (a)
European Research Fund	€21,973,378	0.78%
European Smaller Companies Fund	€ 412,449	0.08%

(a) Total Lendable Assets is defined as "Investments, at value" on the Statements of Assets and Liabilities which excludes cash and cash equivalents.

At 31 January 2021, the sub-funds had the following amounts of assets engaged in each type of SFT and as a percentage of the sub-fund's net assets:

Sub-Fund	Market Value of Securities Loaned	% of Net Assets	Market Value of Repurchase Agreements	% of Net Assets
Settlement/clearing for each type of SFT:	Bi-Lateral		Bi-Lateral	
Asia Ex-Japan Fund	\$—	0.00%	\$307,000	0.44%

Share of collateral received that is reused, compared to the maximum amount specified in the prospectus or in the disclosure to investors:

The sub-funds are not permitted to sell, reinvest or pledge collateral received in the form of securities. To the extent the sub-funds receive cash as collateral, such cash collateral would only be placed on deposit with credit institutions allowed under Luxembourg law, and if applicable may only be reinvested in high-quality government bonds, reverse repurchase transactions (provided the transactions are with credit institutions subject to prudential supervision and the sub-fund is able to recall at any time the full amount of cash on accrued basis) or short-term money market funds allowed by Luxembourg law in order to mitigate the risk of losses on reinvestment. The sub-funds did not receive cash collateral for SFTs or total return swaps at 31 January 2021.

Safekeeping of collateral received by the sub-funds as part of SFTs, number and names of custodians and the amount of the collateral assets safe-kept by each of the custodians:

Safekeeping of collateral granted by the sub-fund as part of SFTs and total return swaps, proportion of collateral held in segregated accounts or in pooled accounts or in any other accounts:

At 31 January 2021, the sub-funds did not pledge collateral in connection with SFTs or total return swaps.

Data on return and cost for each type of SFTs and total return swaps broken down between the sub-fund, the manager of the collective investment undertaking and third parties (e.g. agent lender) in absolute terms and as a percentage of overall returns generated by that type of SFTs and total return swaps:

For information on income or returns earned and costs incurred for repurchase agreements, refer to Note 2 and for securities loaned, refer to Note 4. At 31 January 2021, the sub-funds did not hold any total return swaps.

## INDEPENDENT AUDITOR'S REPORT

To the Shareholders of  
MFS Meridian Funds  
4, rue Albert Borschette  
L-1246 Luxembourg  
Grand Duchy of Luxembourg

### Opinion

We have audited the financial statements of MFS Meridian Funds (the "Fund") and of each of its sub-funds, which comprise the statements of assets and liabilities and the schedules of investments as at 31 January 2021, and the statements of operations and changes in net assets for the year then ended, and the notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund and of each of its sub-funds as at 31 January 2021, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

### Basis for Opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (the "Law of 23 July 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" ("CSSF"). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "responsibilities of the réviseur d'entreprises agréé" for the audit of the financial statements" section of our report. We are also independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants ("IESBA Code") as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our report of the "réviseur d'entreprises agréé" thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

### Responsibilities of the Board of Directors of the Fund for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and of each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

### Responsibilities of the "réviseur d'entreprises agréé" for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the "réviseur d'entreprises agréé" that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund.

## INDEPENDENT AUDITOR'S REPORT

- Conclude on the appropriateness of Board of Directors of the Fund use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the "réviseur d'entreprises agréé" to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the "réviseur d'entreprises agréé". However, future events or conditions may cause the Fund or any of its sub-funds to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Ernst & Young  
Société anonyme  
Cabinet de révision agréé

Luxembourg, 15 April 2021

## REPORT OF INDEPENDENT AUDITORS

To the Shareholders of  
MFS Meridian Funds  
4, rue Albert Borschette  
L-1246 Luxembourg  
Grand Duchy of Luxembourg

We have audited the accompanying financial statements of MFS Meridian Funds (the “Fund”), which comprises the statements of assets and liabilities, including the schedules of investments, as of 31 January 2021, and the related statements of operations and changes in net assets for the year then ended, and the related notes to the financial statements.

### Management’s Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with Luxembourg legal and regulatory requirements; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

### Auditor’s Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of MFS Meridian Funds at 31 January 2021, and the results of its operations and changes in net assets for the year then ended in conformity with Luxembourg legal and regulatory requirements.
