CONSTITUTION

Eurizon Manager Selection Fund (the "Fund") was created in the Grand Duchy of Luxembourg on 6 April 2006 in the form of a mutual investment fund in transferable securities governed by the Law of Luxembourg, and is currently subject to Part I of the Law of 17 December 2010 on undertakings for collective investment ("UCI") as amended.

The management regulations (the "Management Regulations"), after having been approved by the Board of Directors of the management company Eurizon Capital S.A. (the "Management Company"), have been signed by State Street Bank International GmbH, Luxembourg Branch (formerly State Street Bank Luxembourg S.C.A.), the Depositary Bank at that date, on 6 April 2006. They were filed with the "Registre de Commerce et des Sociétés" in Luxembourg on 12 April 2006 and have been published in the "Mémorial, Recueil des Sociétés et Associations" on 18 April 2006. Amendments were made to the Management Regulations and the notification of the filing with the "Registre de Commerce et des Sociétés" in Luxembourg were published in the "Mémorial, Recueil des Sociétés et Associations" on 14 May 2007 and on 7 October 2008. The Management Regulations in force have been filed with the "Registre de Commerce et des Sociétés" in Luxembourg, where they may be consulted, and copies can be obtained.

The Fund has been established for an indefinite period.

GLOBAL RISK EXPOSURE

The method used to calculate the global risk exposure is the commitment approach.

REMUNERATION POLICY

The Remuneration Policy of Eurizon Capital S.A. (hereinafter also referred as the "Company") is based on the principles applied in the Intesa Sanpaolo Group including:

- alignment with the interests of shareholders, customers and their assets under management, the medium and long term strategies and objectives, under a framework of reference rules aimed at avoiding conflict of interests, and at the proper control of current and future business risks and ensuring an adequate level of liquidity and capitalization;
- consistency with and promotion of sound and effective risk management and discouragement of risk-taking which is inconsistent with the risk profile, rules or instruments of incorporation of the assets managed;

The Remuneration Policy has been prepared on the basis of the Intesa Sanpaolo Group's remuneration policies and, for what is not in conflict, not governed or more restrictive, in compliance with European and national regulations governing the asset management industry:

- the Law of 12 July 2013 on alternative investment fund managers (transposing the EU Directive 2011/61/EU - the AIFM Directive), and
- the Law of 17 December 2010 relating to undertakings for collective investment (transposing the EU Directive 2014/91/UE - the UCITS V Directive).

Governance Structure

All incentives and reward systems for the Company's personnel are subject to the following types of conditions:

- activation conditions for the Group and the Company, consisting of liquidity, capitalisation and financial parameters;
- financing conditions of the mechanism of bonus funding for the Group and the Company, according to a top-down approach such as to take into account the exceeding of certain liquidity, capitalisation and financial parameters, in the first place at the level of the Group and, therefore, of the Company;
- individual access condition, meaning the level of achievement of the individual performance objectives, subject to the verification of the absence of individual compliance breaches. The individual performance objectives include financial as well as non-financial criteria.

The Board of Directors of the Company establishes and reviews annually the Remuneration Policy of the Company and ensures consistency with the overall policy of the Company in terms of risk-taking, the strategy and long-term, corporate governance structure and internal control objectives. It involves the Conducting Officers, each for their own responsibilities, in the definition and implementation of the Remuneration Policy.

The Company decided to entrust the Independent Directors Committee with the advisory and consulting functions aimed to support the Board of Directors in all activities relating to remuneration, defined in accordance with the principles set out in the ESMA Guidelines on sound remuneration policies (ESMA 232/2013 and 411/2016). The Committee is entirely composed of independent members. External persons can still participate in the meetings of the Committee in relation to specific items.

The internal process related to the governance of remuneration involves the Human Resources, the Risk Management, the Compliance and the Operations & Finance departments, each under the supervision of the respective Conducting Officer.

The Corporate Control Functions verify, for each area of competence (Risk Management, Compliance, Internal Audit), the alignment of the remuneration practices with the approved policies and the applicable regulations.

The ex-ante annual independent internal review of the remuneration system concluded its design to be appropriate.

Compensation Structure

The compensation of personnel includes:

- Fixed component, defined on the basis of the contractual category, the role held and the extent of responsibilities, reflecting the experience and skills required, as well as the quality of the contribution to corporate results;
- Variable component, linked to employee's performance and aligned with the annual results actually achieved and the risks prudentially assumed.

The criteria for the definition of the Company incentive systems, in application of the Intesa Sanpaolo Group's remuneration policies, aimed at ensuring the correlation between remuneration, performance and risks are, among others:

- the measurement of performance from multiple perspectives in order to align the management and employees behaviour to medium and long term strategic drivers, both quantitative (profitability, growth, productivity, cost of risk / sustainability) and qualitative (strategic actions or projects and managerial quality), on different perimeters (Group / Structure / Individual);
- the principle of selectivity, by differentiating the best performances and assigning higher bonuses;
- the principle of financial sustainability, by the definition of a bonus pool correlated to the performance of a Group parameter, currently identified as Income before tax from continuing operations and the use of a solidarity mechanism, according to which the amount of total bonuses paid to the employees of each Business Unit depends in part on the Group's overall performance (reflected in the size of the bonus pool) and in part on the degree of expected contribution to the Group's results;
- the definition of target bonus for roles and professional clusters to be used across all Group, in order to guarantee internal balance and the ongoing benchmarking between roles and/or professional clusters Group target bonuses and external market practices;
- the verification of the so-called individual compliance breaches as a restriction to bonus accrual (disciplinary measures, serious findings received from the Bank's control functions, sanctions by the Supervisory Authorities).

Vesting of the variable remuneration for Risk Takers is governed by specific rules in terms of:

- Deferral mechanisms
- Payment partly in cash and partly in instruments and retention period for units/shares of funds;
- *Ex-post* adjustment mechanisms - *malus* or clawback.

Compensation for 2023

In accordance with the Law as of 17 December 2010 on Undertakings for Collective Investments (as subsequently amended) in conjunction with the guidelines on sound remuneration policies under UCITS published by the European Securities and Markets Authority (ESMA), the Company has identified individuals who have a material impact of the Company's risk profile (Material Risk Takers).

The regulations provide rules in relation to the variable component of the compensation of Risk Takers, indicating that:

- at least 40% of the variable component (60% for significant bonuses) must be subject to deferred payment for a period of 3 years (5 years for significant bonuses);
- a substantial portion (at least 50%) is paid out in units / shares of funds managed by the Company, or equivalent instruments; said percentage is applied, in the same proportion, to both the deferred and upfront portions of the variable component;
- there is a specific holding period (of no less than 2 years for the upfront component, and shorter for the deferred portion) for the vesting of the financial instruments referenced above.

In case the Variable Compensation is lower than EUR 80,000, the Material Risk Takers receive their entire Variable Compensation in cash without any deferral.

1. ACTIVITY

The Mutual Investment Fund Eurizon Manager Selection Fund (the "Fund") was established in Luxembourg on 6 April 2006, in accordance with Part I of the Law of 20 December 2002 on Undertakings for Collective Investment in transferable securities as amended. Since 1 July 2011, the Fund is governed by the Luxembourg Law of 17 December 2010 on Undertakings for Collective Investment (the "Law").

The Fund is a joint ownership of transferable securities and other financial assets as authorized by the Law, managed by the Management Company on the basis of the risk spreading principle, on behalf of and in the sole interest of the coowners (the "Unitholders"), who are committed only to the extent of their investment.

Its assets are owned jointly and indivisibly by the Unitholders and constitute a holding separate from the Management Company's holdings. All of the jointly owned Units have equal rights. The Fund net assets are at least equal to EUR 1 250 000,00. There is no maximum limit set on the amount of holdings or on the number of jointly owned Units representing the Fund's net assets.

In order to offer investments with different levels of risks, Eurizon Manager Selection Fund is subdivided into a range of Sub-Funds.

The Board of Directors of the Management Company decided in 2017 that the financial year of the Fund will not end any longer on 31 March, but on 31 December of each year.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Fund keeps the books of each Sub-Fund in its respective currency and the financial statements were prepared in Euro in accordance with the Luxembourg regulations relating to undertakings for collective investment and in particular using the following valuation rules:

a) Valuation of investments in securities

Investment securities, including zero-coupon bonds and money market instruments, quoted on an official stock exchange or on another regulated market are valued according to the last known price and, in the event of being quoted on several markets, according to the last known price of the principal market.

Valuation of investment securities, including zero-coupon bonds and money market instruments, not quoted on an official stock exchange or on another regulated market is fixed in a reasonable way on the basis of the sale prices anticipated cautiously and in good faith or, in the absence of a market value, according to the probable value in the reasonable estimation of the Board of Directors of the Management Company.

Liquid asset, money market instruments or any other short-term debt or debt-related instruments, that is to say with residual maturity not exceeding 90 days, may be valued at nominal value plus any accrued interest or on an amortized cost basis, provided a regular review of the portfolio holdings is performed to detect any material deviation between the net assets calculated using these methods and those calculated using market quotations. If a deviation exists which may result in a material dilution or unfair result to Unitholders, appropriate corrective actions will be taken including, if necessary, the calculation of the net asset value by using available market quotations.

The value of each investment in open-ended funds, either listed or not, is based on the last known Net Asset Value on the Valuation Day.

b) Net realised profit / (loss) on sales of investments

Realised profits or losses made on the sales of investments are calculated according to the average weighted cost.

c) Cost of purchase of securities in portfolios

For securities in currencies other than the base currency of the Sub-Fund, the purchase price is calculated based on the closing exchange rates prevailing at the date of the purchase.

d) Forward foreign exchange contracts

Forward foreign exchange contracts are valued at forward foreign exchange rate for the remaining period to run until maturity at the date of valuation.

Unrealised profits and losses are recorded in the Statement of Net Assets and their variations in the Statement of Changes in Net Assets under the heading "Change in unrealised appreciation / (depreciation) on forward foreign exchange contracts".

e) Future contracts

Commitments related to future contracts are recorded off balance sheet and future contracts are valued according to the last available contract price.

Unrealised profits and losses on future contracts are recorded in the Statement of Net Assets and their variations in the Statement of Changes in Net Assets under the heading "Change in unrealised appreciation / (depreciation) on future contracts".

Guarantee deposits and margin calls are recorded in the Statement of Net Assets under the headings "Other banks and broker accounts" and "Amounts due to brokers".

f) Option contracts

Option contracts quoted on an official stock exchange or on another regulated market are valued according to the last known market price or, if there are several markets, according to the last known price of the principal market.

Option contracts not quoted on an official stock exchange or on another regulated market are valued at their last known market value or, in the absence of a market value, according to their probable market value in the reasonable estimation of the Board of Directors of the Management Company.

Premiums received on the written option contracts are recorded at market value as liabilities and premiums paid on purchased option contracts are recorded as assets. Unrealised profits and losses on option contracts are recorded in the Statement of Net Assets and their variations in the Statement of Changes in Net Assets under the heading "Change in unrealised appreciation / (depreciation) on option contracts".

In the case of options on futures, no premium margin is required because here a daily profit and loss adjustment (variation margin) is made by the procedure known as "marking-to-market". The profit of one party to the contract is the loss of the other party. The resulting gains and losses are either debited or credited to the appropriate account on a daily basis via the mark-to-market process.

The final valuation is made at the final settlement price of either the expiration date of the option or the day on which it is exercised.

g) Combined statements of the Fund

The combined statements correspond to the sum of the statements of each Sub-Fund.

h) Income

Dividends are recognised on the date on which the Shares/Units concerned are quoted «ex-dividend», net of withholding tax. Interest is calculated prorata temporis and recorded net of withholding tax.

i) Translation of items expressed in foreign currencies

Assets and liabilities in foreign currencies are converted into the base currency of the Sub-Funds at the closing exchange rates of the final day of the financial period.

Income and expenses denominated in currencies other than the base currency of the Sub-Funds are converted into the currency of the Sub-Funds at the closing exchange rates prevailing at the date of the transactions.

The resulting realised and unrealised profit or loss made on foreign exchange is included in the Statement of Changes in Net Assets; any unrealised profit or loss on currencies of foreign cash positions, receivables and payables denominated in currencies other than the base currency of the Sub-Funds being recorded under the heading "Change in unrealised appreciation / (depreciation) on foreign currencies".

The main exchange rates as at 30 June 2023 are:

1 EUR = 1,638999989 AUD

1 EUR = 1,443666198 CAD

1 EUR = 0,976063453 CHF

1 EUR = 0,858142681 GBP

1 EUR = 157,687733883 JPY

1 EUR = 1,091000338 USD

j) Net Asset Value per Unit

The Net Asset Value of each Sub-Fund is equal to the difference between the total assets and the liabilities of the Sub-Fund.

The Net Asset Value per Unit is calculated by dividing the Net Asset Value by the number of Units outstanding on the day of calculation in the respective Classes of Units.

k) Basis of preparation

The Financial Statements have been prepared on a going concern basis, using the last official/tradeable net asset value of the financial period (30 June 2023).

l) Swing pricing mechanism

To the extent that the Management Company considers that it is in the best interests of the Fund, given the prevailing market conditions and that the net number of units to be issued or redeemed in any Sub-Fund on any Valuation Day exceeds 2% of units in issue of that Sub-Fund, the Management Company reserves the right to value the underlying assets on an offer or bid price basis respectively.

The swing pricing mechanism was not applied during the period ended 30 June 2023.

3. BANKS, OTHER BANKS AND BROKER ACCOUNTS

As at 30 June 2023, the counterparty for the "Banks" account is State Street Bank International GmbH, Luxembourg Branch for all the Sub-Funds.
