This fund is managed by FIL Investment Management (Luxembourg) S.A.

Objectives and Investment Policy

Objective: The fund aims to achieve capital growth over the long term and provide income.

Investment Policy: The fund invests at least 70% of its assets, in equities of companies of any capitalisation that are listed, headquartered, or do most of their business in in Australia. The fund may also invest in Australian corporate hybrid and debt securities if the Investment Manager believes they offer better investment opportunities than the related equity. The fund may also invest in money market instruments on an ancillary basis.

The fund may invest in the following assets according to the percentages indicated:

below investment grade bonds: up to 20%

corporate bonds of any credit quality listed in the Australian stock exchange: up to 30%

collateralised and securitised debt instruments: up to 20%

hybrids and contingent convertible bonds (CoCos): less than 30%, with less than 20% in CoCos

The fund's largest ten holdings may account for 50% or more of its assets, resulting in portfolio concentration. The fund will have a mixture of investments in larger, medium and smaller sized companies.

Investment Process: In actively managing the fund, the Investment Manager considers growth and valuation metrics, company financials, return on capital, cash flows and other measures, as well as company management, industry, economic conditions, and other factors. The Investment Manager takes into account Sustainability Risks in its investment process.

For more information, see "Sustainable Investing and ESG Integration".

Derivatives and Techniques: The fund may use derivatives for hedging, efficient portfolio management and investment purposes.

Benchmark: S&P ASX 200 Index. Used for: investment selection, risk monitoring, and performance comparison.

Risk Management Method: Commitment.

Base Currency: AUD.

Distribution: As this is a non-distributing share class, dividends are re-invested.

Risk and Reward Profile

Historical data may not be a reliable indication for the future.

The risk category shown is not guaranteed and may change over time.

The lowest category does not mean a "risk free" investment.

The risk and reward profile is classified by the level of historical fluctuation of the Net Asset Values of the share class, and within this classification, categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level and 6-7 a high level.

The value of your investment may fall as well as rise and you may get back less than you originally invested.

The fund may invest in instruments denominated in currencies other than the fund base currency. Changes in currency exchange rates can therefore affect the value of your investment.

This Fund is categorised in risk class 5 because, in accordance with the investment policy, the value of the investments may fluctuate somewhat sharply. Consequently, both the expected return and the potential risk of loss may be above average.

Additional risks: credit.
