Potential investors are advised to read the full Prospectus dated 10 March 2008 together with all relevant supplements thereto (the “Full Prospectus”) before making an investment decision. The rights

incorporated in Ireland on 25 April 2005 and authorised by the Irish Financial Services Regulatory Authority under the European Communities (UCITS) Regulations 2003, as amended. The Company has the following Funds:

and duties of the investor as well as the investor's legal relationship with the Company are set out in the Full Prospectus.

Investment Objective

Barclays Global Investors Euro Government Bond Index Fund The investment objective of the Fund is to provide investors with a total return, taking into account both capital and income returns, which reflects the total return of the Government Bond Markets in European Monetary Union (“EMU”) participating states.

Barclays Global Investors World ex Euro Government Bond Index Fund The investment objective of the Fund is to provide investors with a total return, taking into account both capital and income returns, which reflects the total return of the World's major government bond markets excluding European Monetary Union (“EMU”) participant states.

GiltTrak Fund The investment objective of the Fund is to provide investors with a total return, taking into account both capital and income returns, which reflects the total return of the gilt market as represented by the FTSE Government All Stocks Gilt Index (the “Index”). The Index is the benchmark that includes all conventional British Government issued funds with varying redemption dates and maturities.

Barclays Global Investors Euro Corporate Bond Index Fund The investment objective of the Fund is to provide investors with a total return, taking into account both capital and income returns, which reflects the total return of the euro denominated investment grade bond market excluding European Monetary Union (“EMU”) government bonds.

Barclays Global Investors UK Corporate Bond Index Fund The investment objective of the Fund is to provide investors with a total return, taking into account both capital and income returns, which reflects the total return of the UK bond non-gilt market.

Barclays Global Investors US Corporate Bond Index Fund The investment objective of the Fund is to provide investors with a total return, taking into account both capital and income returns, which reflects the total return of the US corporate bond market.

Barclays Global Investors Euro Government Enhanced Index Fund The investment objective of the Fund is to provide investors with a total return, taking into account both capital and income returns, which reflects the total return of the government bond market in the European Monetary Union (“EMU”) participant states.

Barclays Global Investors Euro Corporate Enhanced Index Fund The investment objective of the Fund is to provide investors with a total return, taking into account both capital and income returns, which reflects the total return of the Euro Denominated investment grade bond market excluding European Monetary Union government bonds.

Barclays Global Investors Global Inflation-Linked Bond Fund (US Dollar Hedged) The investment objective of the Fund is to provide a total return which reflects the return of the global inflation-linked bond market hedged into US Dollars.

Investment Policy

Barclays Global Investors Euro Government Bond Index

Fund The investment policy of the Fund is to invest in a wide range of securities issued by EMU governments. In those jurisdictions where the Fund might be liable to withholding taxes on investment in government bonds, the Fund may look to invest in high quality financial institutions and corporate issuers. This Fund's investments will normally be listed or traded on regulated markets in the European Union, but may alternatively be listed or traded on other Regulated Markets as set out in Appendix 1 of the Prospectus. It is intended that all investments will have received a long term credit rating of at least A from Moody's Investors Services ("Moody's") or an equivalent rating from another agency or are deemed by the Investment Manager to be of an equivalent rating. Any bond that is subsequently downgraded may continue to be held in order to avoid a distressed sale.

Barclays Global Investors Euro Corporate Bond

Index Fund The investment policy of the Fund is to invest in a wide range of securities with a diversified spread of multinational issuers, high quality financial institutions and corporate issuers. The Fund may also invest in fixed and floating bonds issued by non-EMU governments and in European Union and non-European Union domiciled supranational bonds (both fixed and floating) such as (but not limited to) bonds issued by the European Investment Bank. This Fund's investments will normally be listed or traded on regulated markets in the European Union, but may alternatively be listed or traded on other Regulated Markets as set out in Appendix 1 of the Prospectus. It is intended that all investments will have received a long term credit rating of at least Baa3 from Moody's Investors Services ("Moody's") or an equivalent rating from another agency or are of equivalent high quality or are deemed by the Investment Manager to be of an equivalent rating.

Barclays Global Investors World ex Euro

Government Bond Index Fund The investment policy of the Fund is to invest in a wide range of securities with a diversified spread of sovereign issuers. This Fund's investments will normally be listed or traded on Regulated Markets in the US, Japan, UK, Sweden, Switzerland, Denmark and Australia but may alternatively be listed or traded on other Regulated Markets as set out in Appendix 1 of the Prospectus. It is intended that all investments will have received a long term credit rating of at least Aa from Moody's or an equivalent rating from another agency or are deemed by the Investment Manager to be of an equivalent rating.

GiltTrak Fund The investment policy of the Fund is to invest in the majority of securities comprised in the FTSE Government All Stocks Gilt Index with a

diversified spread of maturity dates and coupons.

All investments will be Aaa rated from Moody's Investors Services or an equivalent rating from another agency or are deemed by the Investment Manager to be of an equivalent rating.

Barclays Global Investors UK Corporate Bond Index

Fund The investment policy of the Fund is to invest in a wide range of Sterling denominated securities with a diversified spread of sovereign and multinational issuers, high quality financial institutions and corporate issuers. This Fund's investments will normally be listed or traded on Regulated Markets in the UK and the European Union, but may alternatively be listed or traded on other Regulated Markets as set out in Appendix I of the Prospectus. It is intended that all investments will be investment grade rated from Moody's Investors Services or an equivalent rating from another agency or are deemed by the Investment Manager to be of an equivalent rating. Any bond that is subsequently downgraded may continue to be held in order to avoid a distressed sale.

Barclays Global Investors US Corporate Bond Index

Funds The investment policy of the Fund is to invest in a wide range of US Dollar denominated securities with a diversified spread of sovereign and multinational issuers, high quality financial institutions and corporate issuers. This Fund's investments will normally be listed or traded on Regulated Markets in the US and the European Union, but may alternatively be listed or traded on other Regulated Markets as set out in Appendix I of the Prospectus. All investments will be investment grade rated from Moody's Investors Services or an equivalent rating from another agency or are deemed by the Investment Manager to be of an equivalent rating.

Barclays Global Investors Euro Government

Enhanced Index Fund The investment policy of the Fund is to invest in a wide range of securities issued by EMU governments. In those jurisdictions where the Fund might be liable to withholding taxes on investment in government bonds, the Fund may look to invest in high quality institutions. These may include AAA rated bonds issued by supranational and agency issuers (administrative divisions of a government or similar body) and are not likely to exceed 10% of the Fund's Net Asset Value. This Fund's investments will normally be listed or traded on regulated markets in the European Union, but may alternatively be listed or traded on other Regulated Markets as set out in Appendix 1 of the Prospectus. It is intended that all investments will have received a long term credit rating of at least BBB-/Baa3 from Moody's Investors Services ("Moody's") or an equivalent rating from another agency or are deemed by the Investment Manager to be of an equivalent rating.

Barclays Global Investors Euro Corporate Enhanced Index Fund The investment policy of the Fund is to invest in a wide range of corporate securities with a diversified spread of multinational issuers, high quality institutions and corporate issuers. The Fund may also invest in fixed and floating bonds issued by non-EMU governments and in European Union and non-European Union domiciled supranational bonds (both fixed and floating) such as (but not limited to) bonds issued by the European Investment Bank. This Fund's investments will normally be listed or traded on regulated markets in the European Union, but may alternatively be listed or traded on other Regulated Markets as set out in Appendix 1 of the Prospectus. It is intended that all investments will have received a long term credit rating of at least Baa3 from Moody's Investors Services ("Moody's") or an equivalent rating from another agency or are of equivalent high quality or are deemed by the Investment Manager to be of an equivalent rating. Any bond that is subsequently downgraded may continue to be held in order to avoid a distressed sale.

Barclays Global Investors Global Inflation-Linked Bond Fund (US Dollar Hedged) The investment policy of the Fund is to invest in a portfolio of inflation-linked fixed income securities. This Fund's investments will normally be listed or traded on Regulated Markets as set out in Appendix I of the Prospectus. The fixed income securities in which the Fund may invest will include inflation-linked government and corporate bonds, debentures, money market instruments (including certificates of deposit, treasury bills and cash funds), securitised and asset-backed debt instruments, fixed and floating bonds and such other fixed income securities similar in nature to the foregoing as may seem appropriate to the Investment Manager. Fixed income securities may be of investment grade or below investment grade. Collateralised loan obligations and collateralised bond obligations are securities issued by bank or special purpose vehicles.

Risk Profile

The following risk factors apply to each Fund:

Potential investors should consider the following risk factors before investing in a Fund.

1. There is no assurance that any appreciation in the value of investments will occur, or that the investment objectives of any Fund will be achieved. **The value of investments and the income derived therefrom may fall as well as rise and investors may not recoup the original amount invested in a Fund. The difference at any one time between subscription and redemption prices for Shares means that any investment should be viewed as medium to long term. An investment should only be made by those persons who are able to sustain a loss on their investment.**
2. Although the Company invests in high quality credit instruments, there can be no assurance that the securities in which the Company invests will not be subject to credit difficulties leading to the loss of some or all of the sums invested in such securities or other instruments. The relevant Fund

will also be exposed to a credit risk on parties with whom it trades and may also bear the risk of settlement default. In the event of a bankruptcy or other default of a seller of a repurchase or reverse repurchase agreement, the relevant Fund could experience both delays in liquidating the underlying securities and losses including a possible decline in value of the underlying securities during the period when the relevant Fund seeks to enforce its rights thereto, reducing levels of income and lack of access to income during this period and the expense of enforcing its rights.

3. Each Fund may use financial derivative instruments including, but not limited to futures, forwards, options, swaps, swaptions and warrants, subject to certain limits and conditions. Such financial derivative instruments tend to have a greater volatility than the securities to which they relate and they bear a corresponding greater degree of risk.

A more detailed description of the risk factors that apply to the Funds is set out in the Full Prospectus.

Performance Data

The performance of the funds is summarised over a period of time as set out in Appendix 1.

The charts representing the performance of the funds are set out in Appendix 2.

Please note that in any event past performance is not a guide to the future performance of the Company.

Profile of a Typical Investor

The funds are open to institutional investors that are taxable entities and tax exempt. Examples include: intermediate investors such as pension funds, corporate, universities, charities and trusts. Non tax exempt investors domiciled in the US or Ireland are excluded.

The funds are designed for medium to long term investment, although the funds open daily for subscriptions and redemptions.

The funds are designed for those investors with a low tolerance for risk against the chosen benchmark. The choice of benchmark relative to the investors objectives is key. Risk relative to a benchmark is kept within strict tolerances.

Distribution Policy

Each of the Share Classes, save the Distributing Share Classes of the GiltTrak Fund, the Barclays Global Investors Euro Corporate Enhanced Index Fund, the Barclays Global Investors Euro Government Bond Index Fund, the Barclays Global Investors Euro Corporate Bond Index Fund and the Barclays Global Investors UK Corporate Bond Index Fund, is an accumulating share class and, therefore, it is not intended to distribute dividends to the Shareholders in the Fund. The income on other profits will be accumulated and reinvested on behalf of Shareholders. Dividends, if any, paid on the Shares, may be paid out of the net revenue of the Funds including interest and dividends earned by the Funds, realised and unrealised returns on the disposal/valuation of investments and other assets less realised and unrealised losses of the Funds.

The dividend policy of the Distributing Share Classes of the Funds is as follows:

The Directors intend to declare dividends on the Shares of the Distributing Classes of the GiltTrak Fund, the Barclays Global Investors Euro Corporate Enhanced Index Fund, the Barclays Global Investors Euro Government Bond Index Fund and the Barclays Global Investors Euro Corporate Bond Index Fund out of the net revenue of the Funds including interest and dividends earned by the Funds, realised and unrealised returns on the disposal/valuation of the investments and other assets less realised and unrealised losses of the Funds.

The Directors intend to declare dividends on the Shares of the Distributing Classes of the Barclays Global Investors UK Corporate Bond Index Fund out of the net revenue of the Barclays Global Investors UK Corporate Bond Index Fund including interest and dividends earned by the Barclays Global Investors UK Corporate Bond Index Fund.

Dividends in respect of the Distributing Share Class of the Barclays Global Investors Euro Corporate Enhanced Index Fund will normally be declared in February and August and paid in March and September to the Shareholder's account by way of electronic transfer. Dividends in respect of the Distributing Euro Share Class of the Barclays Global Investors Euro Government Bond Index Fund and the Barclays Global Investors Euro Corporate Bond Index Fund will normally be declared in July and paid in August each year.

Dividends in respect of the Distributing Share Class of the GiltTrak Fund and the Barclays Global Investors UK Corporate Bond Index Fund will normally be declared in January and July and paid in February and August to the Shareholder's account by way of electronic transfer.

The Directors intend to maintain a dividend policy in respect of the Distributing Classes of the GiltTrak Fund and of the Barclays Global Investors UK Corporate Bond Index Fund which enables the Distributing Class to qualify in each financial year as a "distributing class" under Chapter V of Part XVII of the United Kingdom Income and Corporation Taxes Act 1988.
