19. Inversiones en valores de la India

Con anterioridad, los subfondos Pictet - Emerging Markets, Pictet - Indian Equities y Pictet - Asian Equities Ex Japan podían invertir en valores emitidos por empresas indias, tanto de manera directa como indirecta a través de Pictet (Mauritius) Limited, Pictet Country (Mauritius) Ltd y Pictet Asian Equities (Mauritius) Limited, respectivamente, tres sociedades constituidas en Mauricio, que estaban plenamente controladas por los respectivos subfondos y que ofrecían, con carácter exclusivo, servicios de asesoramiento para cada subfondo (las "sociedades de Mauricio").

Hasta el 31 de marzo de 2017, dichas inversiones se realizaban en exclusiva a través de las sociedades de Mauricio. Durante este periodo financiero cerrado a 30 de septiembre de 2023, los subfondos mencionados con anterioridad únicamente realizaron inversiones directas en valores emitidos por sociedades indias, y las sociedades de Mauricio han finalizado su proceso de liquidación respectivo.

20. Inversiones cruzadas entre subfondos

A 30 septiembre 2023, veintiocho subfondos de la SICAV invierten en otros subfondos de esta.

Pictet - EUR Corporate Bonds

| SUBFONDO EN EL QUE SE HA INVERTIDO | IMPORTE DE LA INVERSIÓN EN EUR | % DEL PATRIMONIO NETO |
|--------------------------------------|--------------------------------|-----------------------|
| Pictet - Short-Term Money Market EUR | 6,753,397.52 | 1.29 |

El importe total de las inversiones cruzadas para el subfondo Pictet - EUR Corporate Bonds se sitúa en EUR 6,753,397.52 y representa el 1.29% de su patrimonio neto.

Pictet - Global Emerging Debt

| SUBFONDO EN EL QUE SE HA INVERTIDO | IMPORTE DE LA INVERSIÓN EN USD | % DEL PATRIMONIO NETO |
|--------------------------------------|--------------------------------|-----------------------|
| Pictet - Short-Term Money Market USD | 126,424,242.09 | 6.21 |

El importe total de las inversiones cruzadas para el subfondo Pictet - Global Emerging Debt se sitúa en USD 126,424,242.09 y representa el 6.21% de su patrimonio neto.

Notas a los estados financieros a 30 septiembre 2023 (continuación)

Pictet - EUR High Yield

| SUBFONDO EN EL QUE SE HA INVERTIDO | IMPORTE DE LA INVERSIÓN EN EUR | % DEL PATRIMONIO NETO |

| Pictet - Sovereign Short-Term Money Market USD | USD | 4,110,000.00 |

22. Conflicto entre Rusia y Ucrania

El estallido del conflicto entre Rusia y Ucrania en febrero de 2022 ha repercutido en la rentabilidad de los mercados financieros, impacto que se ha visto agravado por las sanciones, las distorsiones en los mercados y la escasa liquidez, sobre todo en torno a los títulos rusos y ucranianos, por lo que resulta imposible contratar o valorar la mayor parte de los títulos rusos (títulos cotizados en el mercado nacional, es decir, denominados en RUB o UAH) o repatriar el producto de ventas en moneda fuerte desde una cuenta S.

Notas a los estados financieros a 30 septiembre 2023 (continuación)

- Teniendo en cuenta el contexto arriba descrito, el Consejo de Administración de la SICAV ha otorgado valor nulo a los títulos rusos en moneda local y fuerte.
- Las cuentas de depósito y efectivo en RUB han sido valoradas a cero por el Consejo de Administración.

Esto podría cambiar, en función de cómo evolucione la situación.

La Sociedad Gestora sigue supervisando las exposiciones existentes a Rusia y Ucrania, así como las consecuencias del conflicto entre estos dos países. En el marco de las reuniones periódicas del Comité de Evaluación y del Comité de Riesgo en concreto, las decisiones se adoptan teniendo en cuenta la situación actual y su evolución. Esas decisiones están sujetas a una revisión periódica. Entre los aspectos clave que se tienen en cuenta, cabe destacar los siguientes:

- Exposiciones directas e indirectas, y efectos colaterales que probablemente tendrán un impacto negativo en los subfondos.
- Mercados y valoración de activos.
- Conformidad de la cartera, considerando las restricciones de capital y las sanciones impuestas como resultado del conflicto entre Rusia y Ucrania.

El Consejo de Administración de la SICAV confía en la capacidad de la SICAV para continuar como empresa en funcionamiento y supervisa de cerca la crisis actual.

Información específica al subfondo Pictet - Russian Equities

En este contexto, el Consejo de Administración de la SICAV decidió suspender el cálculo del valor liquidativo, las suscripciones y los reembolsos de las acciones del subfondo Pictet - Russian Equities con efecto a partir del 28 de febrero de 2022 (como se menciona en la notificación a los accionistas con fecha 25 de febrero de 2022), así como renunciar a las comisiones de gestión hasta nuevo aviso.

El Consejo de Administración de la SICAV revisará continuamente la suspensión y adoptará todas las medidas que estime razonables para poner fin al Periodo de Suspensión lo antes posible, teniendo siempre en cuenta el mejor interés de los accionistas.

En vista de la situación actual, no es posible determinar cuánto durará la suspensión del cálculo del valor liquidativo oficial (y también de la emisión, el reembolso y la conversión de acciones). La información contable y el valor liquidativo correspondientes al subfondo que se presentan en los estados financieros actuales se han establecido y calculado aplicando los principios contables que se describen en la nota 2. Se trata de un valor liquidativo técnico que no se ha publicado.

Notas a los estados financieros a 30 septiembre 2023 (continuación)

Toda decisión posterior que modifique esta situación se comunicará a los inversores como y cuando corresponda.

Otros subfondos afectados

Con la excepción del subfondo Pictet - Russian Equities, la exposición de los siguientes subfondos a Rusia se ha calculado sobre la base del precio teórico de mercado (cotizaciones de mercado no negociables) de los títulos rusos y de la exposición al RUB a 30 de septiembre de 2023, como porcentaje del valor liquidativo de los subfondos. Esta información se ofrece con fines meramente indicativos.

- Pictet - Emerging Market Index: 2.72%;
- Pictet - Quest Emerging Sustainable Equities: 3.65%;
- Pictet - Emerging Markets Multi Asset⁸: 2.58%.

23. Acontecimientos ocurridos desde el cierre del ejercicio

No se ha producido ningún acontecimiento significativo desde la finalización del ejercicio.

⁸ Incluye el último VL oficial de Pictet Russian Equities HZ EUR

Ratio De Gastos Totales ("TER") (Apéndice no auditado)

De conformidad con las Directrices emitidas por la Swiss Fund & Asset Management Association ("SFAMA") de 16 de mayo de 2008, tituladas "Directrices referentes al cálculo y la publicación del ratio de gastos totales (TER) de organismos de inversión colectiva", y sus modificaciones oportunas, la SICAV está obligada a publicar el TER correspondiente al último periodo de 12 meses (el "TER de la SFAMA").

El TER se define como el cociente de los gastos de explotación totales (las cargas de explotación consisten principalmente en las comisiones de asesoramiento sobre la gestión e inversión, las comisiones del depositario, los intereses y comisiones bancarios, las comisiones de servicios, las comisiones de rentabilidad, los impuestos y las tasas) y el patrimonio neto medio de la clase de acciones / subfondo pertinente (calculado en función del patrimonio neto medio total durante el periodo en cuestión) expresado en su moneda de referencia.

La SICAV también publica el "TER de Préstamos de valores" que aplica el mismo método de cálculo utilizado para el TER de la SFAMA, pero incluye los ingresos por intereses de las operaciones de préstamo de valores.

Además, en el caso de las nuevas clases de acciones lanzadas durante el ejercicio, los gastos de explotación se han anualizado, tal y como se indica en el punto 8 de las Directrices. Dichos importes fueron anualizados mientras que determinados gastos fijos no fueron distribuidos de manera equitativa durante el año.

En el caso de los subfondos que invierten más de un 10% de su patrimonio en otros fondos de inversión, se calcula un TER sintético:

- sumando al TER la suma de los TER de los fondos subyacentes ponderados según su proporción en el patrimonio neto del subfondo correspondiente en la fecha de referencia. Si alguno de los fondos objetivo no publica un TER, no se calculará ningún TER sintético para esta fracción de inversión;
- restando el impacto de la retrocesión percibida, que se calcula dividiendo el volumen de retrocesiones entre el patrimonio medio.

Durante el periodo comprendido entre el 1 de octubre de 2022 y el 30 septiembre 2023, el TER fue el siguiente:

| CLASE | DIVISA | TER INCLUYENDO PRÉSTAMOS DE VALORES | SFAMA TER INCLUYENDO CUOTAS DE DESEMPEÑO | SFAMA TER EXCLUYENDO LAS TASAS DE DESEMPEÑO | TER SINTÉTICO |

Rentabilidad (Apéndice no auditado)

La rentabilidad por clase de acciones se calculó comparando el valor liquidativo por acción a 30 de septiembre de 2023 con el valor liquidativo por acción a 30 de septiembre de 2022, con arreglo a las Directrices de la SFAMA.

En el caso de las clases de acciones que distribuyen dividendos (véase la nota 18), el importe de los dividendos se incluyó en el patrimonio neto a 30 de septiembre de 2023, con el fin de computar la rentabilidad contemplando dichos dividendos.

Los datos relativos a la rentabilidad no tienen en cuenta las comisiones ni los costes derivados de la emisión y el reembolso de acciones.

A 30 septiembre 2023, se registraron las siguientes rentabilidades:

Otra información para los accionistas (Apéndice no auditado)

1. OICVM indexados

La SICAV está compuesta por los 7 siguientes subfondos indexados a 30 septiembre 2023:

| SUBFONDO | ÍNDICE DE REFERENCIA | DIVISA | TE EX POST(1) | RENTABILIDAD DEL SUBFONDO (2) | RENTABILIDAD DEL ÍNDICE DE REFERENCIA |
|-------------------------------------|-----------------------|--------|---------------|-------------------------------|---------------------------------------|
| Pictet - Europe Index (3) | MSCI EUROPE | EUR | 0.13% | 19.57% | 19.22% |
| Pictet - USA Index | S&P 500 Comp | USD | 0.05% | 21.04% | 21.01% |
| Pictet - Japan Index | MSCI JAPAN | JPY | 0.06% | 29.76% | 29.82% |
| Pictet - Pacific Ex Japan Index | MSCI PACIFIC EX JAPAN | USD | 0.16% | 10.49% | 10.58% |
| Pictet - Emerging Markets Index (4) | MSCI EM | USD | 0.32% | 11.39% | 11.70% |
| Pictet - Euroland Index (5) | MSCI EMU | EUR | 0.15% | 24.73% | 24.25% |
| Pictet - China Index (6) | MSCI CHINA | USD | 0.49% | 5.01% | 5.24% |

(1) El tracking error (TE) ex post se presenta como la diferencia en la desviación típica expresada en términos porcentuales. Esta medida muestra la diferencia entre la rentabilidad que recibe el inversor y la registrada en el índice de referencia.

(2) La rentabilidad del subfondo se calcula en función de una frecuencia diaria y una rentabilidad bruta (antes de gastos y comisiones, salvo los gastos de transacción).

(3) La desviación positiva con respecto al índice de referencia también se debe a una carga impositiva de los dividendos inferior a lo que supone MSCI en su cálculo del índice. Si bien MSCI aplica los tipos del impuesto de sociedades específicos a cada país, estos pueden diferir del tipo impositivo efectivo de las empresas individuales.

(4) Desde la introducción en 2018 de un impuesto sobre las plusvalías en la India (15% a corto plazo y 10% a largo plazo aplicable a todas las acciones indias), Pictet ha establecido una provisión diaria sobre el VL del fondo. Esta provisión se materializa durante las suscripciones y los reembolsos de los inversores entrantes/salientes. Los títulos rusos mantenidos en la cartera (2.2% a 25/02/2022) han sido valorados a 0 después del 25/02/2022, mientras que MSCI eliminó a Rusia de sus índices el 09/03/2022.

(5) La desviación positiva con respecto al índice de referencia también se debe a una carga impositiva de los dividendos inferior a lo que supone MSCI en su cálculo del índice. Si bien MSCI aplica los tipos del impuesto de sociedades específicos a cada país, estos pueden diferir del tipo impositivo efectivo de las empresas individuales.

(6) La volatilidad de la rentabilidad relativa de Pictet-China Index con respecto a su índice de referencia se debe a un desajuste cambiario durante la valoración de las acciones locales chinas: El VL del fondo utiliza el tipo de cambio CNY/USD en su cálculo, mientras que el proveedor del índice utiliza el par CNH/USD en el cálculo del índice de referencia. Las mayores desviaciones en términos de ponderación entre el fondo y el índice de referencia se atribuyen a los títulos que han sido excluidos del universo de inversión en función de criterios de sostenibilidad internos.

2. Remuneración de los miembros de la Sociedad Gestora

Política de remuneración

Pictet Asset Management (Europe) S.A. (la "Sociedad Gestora") ha adoptado una política de remuneración que se ajusta a los principios establecidos por la Directiva 2014/91/UE sobre organismos de inversión colectiva en valores mobiliarios (la "Directiva UCITS V") y su transposición al Derecho luxemburgoés con fecha 10 de mayo de 2016, que modifica la Ley de 17 de diciembre de 2010 (la "Ley UCITS"), así como a las Directrices sobre las políticas remunerativas adecuadas con arreglo a la Directiva OICVM publicadas por la Autoridad Europea de Valores y Mercados (AEVM) (las "Directrices de la AEVM").

Más detalles de la política remunerativa, incluidas, entre otras cosas, una descripción de la forma en que se calculan la remuneración y los beneficios, están disponibles en el siguiente sitio web:

<https://www.am.pictet/en/luxembourg/global-articles/ucits-remuneration-disclosure>

Asimismo, podrá obtenerse una copia en papel, previa solicitud y sin coste alguno, en el domicilio social de la Sociedad Gestora.

Elementos cuantitativos

Las cifras que se ofrecen a continuación hacen referencia a Pictet Asset Management (Europe) S.A. (incluidas sus sucursales), a prorrata de los activos gestionados representados por la SICAV respecto al ejercicio financiero finalizado el 30 de septiembre de 2023:

| (EN MILES DE CHF) | REMUNERACIÓN FIJA | REMUNERACIÓN VARIABLE | REMUNERACIÓN TOTAL | NÚMERO DE BENEFICIARIOS |
|-----------------------------|-------------------|-----------------------|--------------------|-------------------------|
| Personal | 10,829 | 8,273 | 19,102 | 108 |
| Personal clave identificado | 3,541 | 3,279 | 6,820 | 25 |
| Total | 14,370 | 11,552 | 25,922 | 133 |

Como contexto adicional, la Sociedad Gestora gestiona 18 fondos de inversión alternativos y 3 OICVM, con un volumen combinado de activos gestionados por valor de CHF 130,791,295,072 en septiembre de 2023.

El importe agregado de la remuneración en 2023 abonado al personal clave identificado de entidades delegadas asciende a un total de CHF 19,933,154 ⁽⁵⁾.

Notas aclaratorias:

1. La remuneración fija representa el total del salario, la pensión y los beneficios abonados durante el ejercicio comprendido entre el 1 de octubre de 2022 y el 30 de septiembre de 2023 en el caso del personal de la Sociedad Gestora y de las sucursales europeas.
2. La remuneración variable representa el total de las retribuciones específicas, discrecionales y parciales abonadas durante el ejercicio comprendido entre el 1 de octubre de 2022 y el 30 de septiembre de 2023.
3. La remuneración fija y variable total facilitada se basa en una distribución proporcional de los activos gestionados representados por la SICAV. Los beneficiarios son empleados pasados y actuales que recibieron una remuneración fija y variable durante el respectivo periodo.
4. A 30 de septiembre de 2023, los 133 empleados de la Sociedad Gestora y sus sucursales europeas consisten en:
 - 25 empleados clave identificados (el "personal clave identificado") de la Sociedad Gestora y sus sucursales europeas con arreglo a la Directiva UCITS V y las Directrices de la AEVM.

Estas 25 personas comprenden:

- 6 miembros del Consejo de Administración de la Sociedad Gestora. Solo 2 miembros del Consejo de Administración de la Sociedad Gestora reciben un emolumento de la Sociedad Gestora.

Otra información para los accionistas (Apéndice no auditado) (continuación)

- 7 directivos, miembros del Comité de Gestión de la Sociedad Gestora y 1 auditor interno.
 - 11 responsables de distribución, inversión, comercialización, intermediarios, operaciones y desarrollo de negocio en las sucursales europeas de la Sociedad Gestora.
 - 108 empleados de la Sociedad Gestora y sus sucursales europeas (el "personal").
5. Con respecto a 2023, las entidades delegadas son las contrapartes en las que se ha delegado formalmente la gestión de carteras, de conformidad con las últimas directrices de la AEVM. La cifra se basa en la parte proporcional de los activos de la SICAV que están gestionados por el personal identificado de las entidades delegadas.

3. Admisibilidad para el PEA o *Plan d'Epargne en Actions* (Plan de ahorro en acciones francés)

Los inversores que sean residentes fiscales en Francia deben tener en cuenta que el subfondo que se indica a continuación es apto para el plan de ahorro en acciones ("PEA") en Francia. La SICAV se compromete a que los subfondos inviertan permanentemente al menos el 75% de su patrimonio en valores o derechos aptos para el PEA.

A 30 de septiembre de 2023, el subfondo que figura a continuación invertía el siguiente porcentaje de su patrimonio en activos aptos para el PEA:

- Pictet - Euroland Index: 96.64%

4. Código de Conducta ALFI

El Consejo de Administración de la SICAV ha adoptado los Principios del Código de Conducta ALFI de fecha junio de 2022 (el "Código"), que establece un marco de principios de alto nivel y recomendaciones de mejores prácticas para la gobernanza de los fondos de inversión luxemburgueses. El Consejo de Administración de la SICAV considera que se ha actuado de conformidad con los Principios del Código en todos los aspectos esenciales con respecto al ejercicio finalizado el 30 septiembre 2023.

5. Información sobre evaluación de riesgos

A 30 de septiembre de 2023, los siguientes subfondos de Pictet emplean el enfoque del valor en riesgo (VaR) para controlar la exposición global al riesgo. Los demás subfondos de Pictet emplean el enfoque del compromiso para controlar la exposición global al riesgo.

Otra información para los accionistas (Apéndice no auditado) (continuación)

El VaR puede calcularse usando el enfoque del VaR absoluto o el enfoque del VaR relativo. El tratamiento y la presentación de las cifras del VaR diferirán en función del enfoque de VaR empleado (relativo o absoluto).

1. Enfoque del VaR absoluto

El enfoque del VaR absoluto limita el VaR máximo que un subfondo puede tener en comparación con su valor liquidativo. Se mide en comparación con un límite normativo del 20%.

También se incluye el nivel de apalancamiento. Este se ha calculado como la suma de los nocionales de los instrumentos financieros derivados empleados (CESR/10-788 cuadro 25). La cifra presentada se basa en una media de las observaciones mensuales que abarcan el periodo transcurrido entre el 1 de octubre de 2022 y el 30 de septiembre de 2023.

| NOMBRE DEL SUBFONDO | APALANCIAMIENTO MEDIO | VAR MÍNIMO | VAR MÁXIMO | VAR MEDIO |
|--|-----------------------|------------|------------|-----------|
| Pictet - EUR Bonds | 189.49% | 3.80% | 5.68% | 4.79% |
| Pictet - USD Government Bonds | 6.61% | 3.76% | 4.87% | 4.44% |
| Pictet - EUR Corporate Bonds | 12.18% | 3.68% | 4.94% | 4.28% |
| Pictet - Global Emerging Debt | 159.98% | 6.37% | 9.15% | 7.51% |
| Pictet - Global Bonds | 226.28% | 3.88% | 5.72% | 4.89% |
| Pictet - USD Short Mid-Term Bonds | 13.69% | 0.86% | 2.35% | 1.21% |
| Pictet - CHF Bonds | 51.88% | 3.03% | 6.25% | 3.33% |
| Pictet - EUR Government Bonds | 3.89% | 3.76% | 4.87% | 4.44% |

| Pictet - Short-Term Emerging Local Currency Debt | 294.47% | 4.97% | 7.83% | 6.53% |
| Pictet - Global Sustainable Credit | 87.65% | 5.08% | 6.41% | 5.70% |
| Pictet - EUR Short Mid Term Bonds | 2.82% | 0.77% | 2.27% | 1.06% |
| Pictet - EUR Short Term Corporate Bonds | 18.54% | 2.09% | 3.07% | 2.39% |
| Pictet - Short Term Emerging Corporate Bonds | 2.29% | 1.62% | 2.63% | 2.16% |
| Pictet - Chinese Local Currency Debt | 80.94% | 0.63% | 3.65% | 1.47% |
| Pictet - Absolute Return Fixed Income | 319.58% | 0.99% | 6.92% | 2.43% |
| Pictet - Global Fixed Income Opportunities | 571.81% | 2.22% | 5.49% | 4.14% |
| Pictet - Strategic Credit | 201.30% | 1.93% | 6.10% | 4.05% |
| Pictet - Climate Government Bonds | 202.52% | 2.81% | 3.76% | 3.34% |
| Pictet - Corto Europe Long Short | 83.14% | 1.27% | 5.45% | 3.18% |
| Pictet - Multi Asset Global Opportunities | 117.26% | 3.93% | 6.47% | 5.14% |
| Pictet - Global Dynamic Allocation | 54.49% | 5.81% | 10.96% | 8.76% |
| Pictet - Emerging Markets Multi Asset | 62.01% | 7.62% | 14.31% | 11.08% |

2. Enfoque del VaR relativo

El enfoque del VaR relativo se emplea para los subfondos para los que se define una cartera de referencia que refleja su estrategia de inversión. El VaR relativo de un subfondo se expresa como un múltiplo del VaR de la cartera de referencia (índice de referencia) y está limitado, por normativa, a no más del doble del VaR de su índice de referencia.

Otra información para los accionistas (Apéndice no auditado) (continuación)

Las observaciones diarias del VaR (del 1 de octubre de 2022 al 30 de septiembre de 2023) en relación con los subfondos se han medido de manera sistemática en comparación con las observaciones del VaR de sus índices de referencia. El ratio obtenido se denomina "ratio de utilización del límite del VaR".

A título de ejemplo, el ratio de utilización del límite del VaR correspondiente al subfondo Pictet EUR Short Term High Yield ascendió al 115.36% en una ocasión. En este día, se calcularon las siguientes cifras:

- VaR del subfondo: 4.58%
- VaR del índice de referencia: 3.97%
- Utilización del límite del VaR: 115.36%

Este ratio debe ponerse en perspectiva con el límite máximo permitido por la Ley, a saber, el 200% del VaR del índice de referencia.

| NOMBRE DEL SUBFONDO | APALANCIAMIENTO MEDIO | VAR MÍNIMO | VAR MÁXIMO | VAR MEDIO |
|--|-----------------------|------------|------------|-----------|
| Pictet - EUR High Yield | 53.22% | 103.20% | 166.39% | 139.51% |
| Pictet - Global High Yield | 39.43% | 91.05% | 121.21% | 106.03% |
| Pictet - EUR Short Term High Yield | 23.56% | 101.65% | 141.38% | 123.65% |
| Pictet - Emerging Corporate Bonds | 12.34% | 107.23% | 149.56% | 128.98% |
| Pictet - Sustainable Emerging Debt Blend | 245.99% | 87.52% | 137.79% | 110.70% |
| Pictet - Global Equities Diversified Alpha | 662.11% | 97.41% | 124.94% | 110.92% |

Índices de referencia de los subfondos

| NOMBRE DEL SUBFONDO | ÍNDICE DE REFERENCIA DEL SUBFONDO |

| Pictet - Sustainable Emerging Debt Blend | JP Morgan ESG EMD Sovereign HC/LC Blended (USD) |
| Pictet - Global Equities Diversified Alpha | MSCI World (EUR) |

Comentarios generales

Todas las mediciones del VaR se determinan sobre la base de los siguientes parámetros:

- Período de tenencia de 1 mes;
- Intervalo de confianza del 99% (esto significa que existe una probabilidad del 1% de que el valor de la cartera pueda experimentar una caída mensual superior al porcentaje indicado);
- Simulaciones Monte Carlo; y
- Datos históricos semanales de 3.5 años para determinar los factores de riesgo. Salvo en el caso del subfondo Pictet Chinese Local CCY Debt, que emplea un horizonte temporal diario a 1 año sujeto a un decrecimiento exponencial.

6. Reglamento sobre las operaciones de financiación de valores ("SFTR")

A 30 de septiembre de 2023, los siguientes subfondos celebraron contratos de permuta financiera de rentabilidad total:

- Pictet - EUR High Yield
- Pictet - Emerging Local Currency Debt
- Pictet - Asian Local Currency Debt
- Pictet - Global Equities Diversified Alpha

Y los subfondos siguientes llevaron a cabo operaciones de préstamo de valores como tipo de instrumento dentro del ámbito de aplicación del Reglamento (UE) 2015/2365 del Parlamento Europeo y del Consejo de noviembre de 2015 sobre transparencia de las operaciones de financiación de valores (OFV) y por el que se modifica el Reglamento (UE) n.º 648/2012:

- Pictet - EUR Corporate Bonds
- Pictet - EUR High Yield
- Pictet - Global High Yield
- Pictet - Global Sustainable Credit
- Pictet - EUR Short Term High Yield
- Pictet - EUR Short Term Corporate Bonds
- Pictet - Strategic Credit
- Pictet - Family
- Pictet - Europe Index
- Pictet - Japan Index
- Pictet - Biotech
- Pictet - Premium Brands
- Pictet - Japanese Equity Opportunities
- Pictet - Japanese Equity Selection
- Pictet - Emerging Markets Index
- Pictet - Euroland Index
- Pictet - Clean Energy Transition
- Pictet - Timber
- Pictet - Global Megatrend Selection
- Pictet - Global Environmental Opportunities
- Pictet - SmartCity
- Pictet - China Index
- Pictet - China Environmental Opportunities
- Pictet - Multi Asset Global Opportunities

En lo relativo a los contratos de permuta financiera de rentabilidad total, los valores de mercado totales indicados más adelante son la suma del valor absoluto de las plusvalías/minusvalías latentes de cada contrato. Esto se aplica a todos los apartados que figuran a continuación.

A 30 de septiembre de 2023, todos los préstamos de valores y las permutas financieras de rentabilidad total se consideran que tienen un vencimiento abierto.

Garantías

En el marco de las operaciones de préstamo, los subfondos de la SICAV reciben una garantía (en forma de bonos emitidos o garantizados por un Gobierno o una entidad pública municipal o regional en un Estado miembro de la OCDE, o emitido o garantizado por las sucursales locales, regionales o internacionales de las instituciones u organizaciones supranacionales que cuenten con una calificación crediticia igual o superior a AA y/o bonos emitidos o garantizados por los emisores principales que ofrezcan una adecuada liquidez.

Datos sobre el rendimiento y coste

Los subfondos reciben una retribución por estas operaciones de préstamo de valores. Esta remuneración está presente en la cuenta de pérdidas y ganancias y estado de variaciones del patrimonio neto, en el epígrafe titulado "Intereses sobre préstamos de valores". El Banco depositario, Pictet & Cie (Europe) S.A., percibirá una comisión del 20% sobre los intereses recibidos por los servicios prestados a la SICAV en el contexto de la contratación de préstamos de valores.

Otra información para los accionistas (Apéndice no auditado) (continuación)

En el marco de estas operaciones de préstamo, los subfondos de la SICAV reciben una garantía (en forma de bonos emitidos o garantizados por un Gobierno o una entidad pública municipal o regional en un Estado miembro de la OCDE, o emitido o garantizado por las sucursales locales, regionales o internacionales de las instituciones u organizaciones supranacionales que cuenten con una calificación crediticia igual o superior a AA y/o bonos emitidos o garantizados por los emisores principales que ofrezcan una adecuada liquidez), cuyo valor en el momento de la celebración del contrato de préstamo de valores debe ser equivalente al 105% del valor de mercado total de los títulos cedidos en préstamo.

Datos sobre reutilización de las garantías

No se reutilizaron valores de garantías ni garantías en efectivo durante el ejercicio finalizado el 30 de septiembre de 2023.

Sustainable Finance Disclosure Regulation (Apéndice no auditado)

El 27 de noviembre de 2019, se publicó el Reglamento (UE) 2019/2088 del Parlamento Europeo y del Consejo sobre la divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros (el "SFDR"). El SFDR tiene como finalidad aumentar la armonización de, y la trasparencia hacia los inversores finales con respecto de, la integración de los riesgos de sostenibilidad, el análisis de las incidencias adversas en materia de sostenibilidad, la promoción de características ambientales o sociales, así como de la inversión sostenible, al requerir información precontractual y en curso a dichos inversores finales.

El SFDR proporciona definiciones de alto nivel y distingue entre varias categorías de productos, como los "productos del artículo 8", que son productos financieros que promueven, entre otras, características medioambientales o sociales, o una combinación de ellas, siempre y cuando las empresas en las que se hace la inversión observen buenas prácticas de gobernanza ("productos del artículo 8 del SFDR"), y los "productos del artículo 9", que son productos que tienen como objetivo inversiones sostenibles ("productos del artículo 9 del SFDR").

Los siguientes subfondos se clasifican como productos financieros que se enmarcan en el ámbito de aplicación de los siguientes artículos del SFDR a 30 de septiembre de 2023:

| SUBFONDO | ACTUAL CATEGORÍA DEL SFDR A 30/09/2023 |

En el sentido del SFDR (Reglamento (UE) 2019/2088, de 27 de noviembre de 2019, sobre la divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros), los demás subfondos no promueven características medioambientales o sociales ni tienen como objetivo inversiones sostenibles.

A los efectos del reglamento sobre "taxonomía" (Reglamento (UE) 2020/852, de 18 de junio de 2020, relativo al establecimiento de un marco para facilitar las inversiones sostenibles y por el que se modifica el Reglamento (UE) 2019/2088), las inversiones subyacentes a los subfondos no tienen en cuenta los criterios de la UE para las actividades económicas medioambientalmente sostenibles.

01.10.2022 - 30.09.2023

Plantilla de información periódica de los productos financieros a que se refiere el artículo 8, apartados 1, 2 y 2 bis, del Reglamento (UE) 2019/2088 y el artículo 6, párrafo primero, del Reglamento (UE) 2020/852

Nombre del producto: **Pictet - EUR Bonds**

Identificador de entidad jurídica: **5493000BO6Q6PX1XRQ35**

CARACTERÍSTICAS MEDIOAMBIENTALES O SOCIALES

Inversión sostenible significa una inversión en una actividad económica que contribuye a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo a ningún objetivo medioambiental o social y que las empresas en las que se invierte sigan prácticas de buena gobernanza.

La **taxonomía de la UE** es un sistema de clasificación previsto en el Reglamento (UE) 2020/852 por el que se establece una lista de **actividades económicas medioambientalmente sostenibles**. Dicho Reglamento no prevé una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental pueden ajustarse, o no, a la taxonomía.

| ¿ESTE PRODUCTO FINANCIERO TENÍA UN OBJETIVO DE INVERSIÓN SOSTENIBLE? | | | |
|--|--|-------------------------------------|--|
| <input checked="" type="radio"/> Si | | <input checked="" type="radio"/> No | |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo medioambiental: ____% | <input checked="" type="checkbox"/> | Promovió características medioambientales o sociales y, aunque no tenía como objetivo una inversión sostenible, tuvo un porcentaje del 27,51% de inversiones sostenibles |
| <input type="checkbox"/> | en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> | con un objetivo medioambiental en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> | en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> | con un objetivo medioambiental en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo social: ____% | <input type="checkbox"/> | con un objetivo social |
| <input type="checkbox"/> | | <input type="checkbox"/> | Ha promovido características medioambientales o sociales, pero no ha realizado ninguna inversión sostenible |

Nota: Las inversiones sostenibles se calcularon sobre una base de aprobado/suspenso, incluyendo bonos con etiqueta (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% (medida por ingresos, EBIT, valor de empresa o indicadores similares) a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.

¿En qué grado se han cumplido las características medioambientales o sociales que promueve este producto financiero?

Las características medioambientales y sociales de este producto financiero se promovieron utilizando:

- Inclinación positiva:

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos y, como resultado, los valores que mantiene tuvieron un perfil medioambiental, social y de gobernanza (ASG) mejor que el del índice de referencia. El índice Bloomberg Euro-Aggregate se utilizó para medir la inclinación positiva; sin embargo, no se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

- Exclusiones basadas en normas y valores:

El fondo excluyó los emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente o que incumplen de forma grave las normas internacionales, según se detalla a continuación:

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

Actividad

Umbrales de ingresos

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

| | |
|---|------------------------------------|
| Combustibles fósiles y energía nuclear | |
| Extracción de carbón térmico | > 25% |
| Generación de energía térmica de carbón | > 25% |
| Extracción de arenas bituminosas | > 25% |
| Extracción de energía de esquisto | > 25% |
| Exploración de petróleo y gas en el Ártico | > 10% |
| Armas | |
| Producción de armas controvertidas ^[1] | > 0% |
| Armas de contratación militar | > 10% |
| Clientes civiles de armas pequeñas (armas de asalto) | > 10% |
| Clientes civiles de armas pequeñas (armas de no asalto) | > 10% |
| Clientes militares/de fuerzas del orden de armas pequeñas | > 25% |
| Componentes clave de armas pequeñas | > 25% |
| Otras actividades controvertidas | |
| Producción de entretenimiento para adultos | > 10% |
| Operaciones de juego | > 10% |
| Producción de productos de tabaco | > 10% |
| Exclusiones de empresas por incumplimiento de normas internacionales | Excluidas |
| Empresas que incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción | Sí |
| Exclusiones de países | Excluidas |
| Países (i) incluidos en la lista de Estados patrocinadores del terrorismo, según la definición de la Oficina de Control de Activos Extranjeros de EE. UU. ^[2] o (ii) sujetos a sanciones financieras de la UE contra bancos centrales y/o empresas de propiedad estatal. | Sí |
| Países (i) clasificados como de muy alto o alto riesgo en el Índice de Estados Frágiles o (ii) afectados por conflictos violentos según la definición del Banco Mundial. | Sí |
| Países (i) incluidos en la lista de «alerta» del Índice de Estados Frágiles o (ii) sujetos a sanciones relacionadas con la exportación por parte de la UE. | Lista de vigilancia ^[3] |

^[1] Entre las armas controvertidas se encuentran las minas antipersona, las municiones de racimo, las armas biológicas y químicas (incluido el fósforo blanco) y las armas nucleares procedentes de países no firmantes del Tratado de No Proliferación de Armas Nucleares (TNP).

^[2] «Estado patrocinador del terrorismo» es una designación aplicada por el Departamento de Estado de Estados Unidos a países que repetidamente han prestado apoyo a actos de terrorismo internacional.

^[3] Además de las exclusiones estrictas, Pictet Asset Management mantiene una lista de vigilancia que incluye países que requieren una diligencia debida adicional por parte de los equipos de inversión antes de invertir.

Para más detalles, consulte la Política de Inversión responsable de Pictet Asset Management (Anexo B).

- Titularidad activa:

El fondo se implicó con la dirección de las empresas sobre cuestiones ASG importantes.

● **¿Cómo se han comportado los indicadores de sostenibilidad?**

Durante el periodo de información, los indicadores de sostenibilidad se comportaron según se indica a continuación:

• **Perfil ASG global**

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos.

Como resultado, el fondo ha conseguido un perfil ambiental, social y de gobernanza (ASG) mejor que el del índice de referencia.

- **Principal incidencia adversa (PIA)**

El fondo utiliza una combinación de enfoques para considerar y, en la medida de lo posible, mitigar las incidencias adversas materiales de nuestras inversiones en la sociedad y el medioambiente, como emisiones de GEI, contaminación atmosférica, pérdida de biodiversidad, emisiones al agua, residuos peligrosos/radioactivos, derechos humanos, normas laborales, corrupción y soborno, y salud pública.

El grado y la forma en que estas incidencias se tuvieron en cuenta dependieron de factores como el contexto específico de la inversión que provoca la incidencia adversa o la disponibilidad de datos fiables.

De conformidad con la política de exclusión de Pictet Asset Management descrita en la Política de Inversión responsable de la empresa (véase el cuadro anterior para consultar las actividades excluidas y los umbrales de exclusión aplicados), el fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente:

Actividades controvertidas (media ponderada de ingresos de la empresa, en %)*:

| | Fondo (%) | Índice de referencia (%) |
|--|-----------|--------------------------|
| Combustibles fósiles y energía nuclear | 0,74 | 0,87 |
| Armas | 0,02 | 0,05 |
| Otras actividades controvertidas | 0,02 | 0,22 |
| No aplicable: | 61,90 | 62,46 |
| No cubierto: | 0,30 | 0,19 |

* Los combustibles fósiles y la energía nuclear incluyen la extracción de carbón térmico y la generación de electricidad, la producción y extracción de petróleo y gas, la extracción de energía de esquisto, la exploración de petróleo y gas en los mares del Ártico y la generación de energía nuclear. Las armas incluyen la contratación militar (servicios de armas y relacionadas con estas), clientes civiles de armas pequeñas (armas de asalto/ho asalto), clientes militares/de las fuerzas y cuerpos de seguridad de armas pequeñas y componentes clave de pequeñas armas. Otras actividades controvertidas incluyen la producción de tabaco, la producción de entretenimiento para adultos, la explotación de juegos de azar, el desarrollo o crecimiento de organismos modificados genéticamente, la producción o venta al por menor de pesticidas. La exposición se basa en datos de terceros y puede no reflejar nuestro punto de vista interno. Pictet Asset Management tiene plena discreción sobre la aplicación de los criterios de exclusión y se reserva el derecho de apartarse de la información de terceros, según el caso, cuando se considere incorrecta o incompleta.

Fuente: Pictet Asset Management, Sustainalytics.

Además, el fondo excluyó a los emisores que tenían exposición a:

(i) PIA 10: Incumplimientos de los principios del Pacto Mundial de las Naciones Unidas y las Directrices para Empresas Multinacionales de la Organización para la Cooperación y el Desarrollo Económicos (OCDE).

(ii) PIA 14: Exposición a armas controvertidas (minas antipersonas, municiones en racimo, armas químicas y armas biológicas)

- **Interacción**

El fondo se implicó con 30 empresas sobre cuestiones ASG (datos a 30.09.2023). Esto incluye diálogos internos, iniciativas de colaboración entre inversores y servicios de implicación de terceros. Para que se considere implicación, el diálogo con una empresa objetivo debe tener un objetivo claro y mensurable en un horizonte temporal predefinido. Es importante señalar que no todas las interacciones rutinarias o de supervisión, aunque impliquen a la alta dirección o al Consejo de administración, se consideran implicaciones en nuestra evaluación.

Fuente: Pictet Asset Management, Sustainalytics.

- **¿... y en comparación con períodos anteriores?**

Esta cuestión se abordará en futuros informes anuales debido a la falta de historial.

● **¿Cuáles han sido los objetivos de las inversiones sostenibles que ha realizado en parte el producto financiero y de qué forma ha contribuido la inversión sostenible a dichos objetivos?**

El fondo no se comprometió a un porcentaje mínimo de inversiones sostenibles.

Sin embargo, *a posteriori*, el fondo invirtió en valores que financian actividades económicas que contribuyeron sustancialmente a objetivos medioambientales y/o sociales como:

Medioambientales

- mitigación del cambio climático o adaptación al mismo
- uso sostenible y protección de los recursos hídricos y marinos
- transición hacia una economía circular
- prevención y control de la contaminación o
- protección y recuperación de la biodiversidad y los ecosistemas

Sociales

- comunidades inclusivas y sostenibles
- nivel de vida adecuado y bienestar para los usuarios finales o
- trabajo digno

Pictet Asset Management utilizó un marco de referencia propio, así como los objetivos de la Taxonomía de la UE, para definir las inversiones sostenibles.

● **¿De qué manera las inversiones sostenibles que el producto financiero ha realizado en parte, no han causado un perjuicio significativo a ningún objetivo de inversión sostenible medioambiental o social?**

Para evitar que las inversiones sostenibles causen un perjuicio significativo a cualquier otro objetivo medioambiental o social, el fondo aplicó los siguientes criterios de selección sobre la base del mejor esfuerzo:

- (i) Exclusiones de emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente (véase la descripción del marco de exclusión de IR).
- (ii) Los emisores asociados a controversias elevadas y graves no se contabilizaron como inversiones sostenibles.

La información se obtuvo de proveedores terceros y/o de análisis interno. La información ASG de terceros proveedores de datos puede haber sido incompleta, inexacta o no estar disponible. Como consecuencia de ello, existía el riesgo de que el Gestor de inversiones evaluara incorrectamente un valor o emisor, dando lugar a la inclusión o exclusión incorrecta de un valor en el fondo. Los datos ASG incompletos, inexactos o no disponibles también pueden actuar como una limitación metodológica a una estrategia de inversión no financiera (como la aplicación de criterios ASG o similares). En los casos identificados, el Gestor de inversiones trató de mitigar este riesgo mediante su propia evaluación. En caso de que las características ASG de un valor mantenido por el fondo cambiaran, dando lugar a la venta del valor, el Gestor de inversiones no acepta responsabilidad alguna en relación con dicho cambio.

● **¿Cómo se han tenido en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?**

Pictet Asset Management realiza un seguimiento de todos los indicadores obligatorios de principales incidencias adversas (incluidos en el Anexo 1 del Reglamento Delegado (UE) 22 / 1288 de la Comisión) cuando disponemos de datos sólidos. Se espera que la calidad de los datos disponibles mejore con el tiempo.

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas de sus inversiones en la sociedad y el medioambiente que se consideran importantes para la estrategia de inversión, mediante un conjunto de decisiones de gestión de cartera, actividades de propiedad activa y exclusión de emisores asociados a conductas o actividades controvertidas. Más información en el informe de PIA de la entidad, disponible en:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=es&bl=PAM>

Las principales incidencias adversas son las incidencias negativas más importantes de las decisiones de inversión sobre los factores de sostenibilidad en relación con asuntos medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

- ¿Se han ajustado las inversiones sostenibles a las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios rectores de las Naciones Unidas sobre las empresas y los derechos humanos?

Para garantizar que la inversión sostenible no causara un perjuicio significativo a ningún objetivo de inversión sostenible, el fondo excluyó a las empresas con infracciones elevadas y graves de (i) los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción o (ii) las Líneas Directrices de la OCDE para Empresas Multinacionales, incluidos los asuntos sociales y laborales graves.

La taxonomía de la UE establece el principio de «no causar un perjuicio significativo», según el cual las inversiones que se ajusten a la taxonomía no deben perjudicar significativamente a los objetivos de la taxonomía de la UE, e incluye criterios específicos de la Unión.

El principio de «no perjudicar de forma significativa» se aplica únicamente a las inversiones subyacentes del producto financiero que contemplan los criterios de la UE relativos a actividades económicas sostenibles desde una perspectiva medioambiental. Las inversiones subyacentes al resto del producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas medioambientalmente sostenibles.

Cualquier otra inversión sostenible tampoco debe perjudicar significativamente a ningún objetivo medioambiental o social.

¿Cómo tiene en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas que se consideran importantes para la estrategia de inversión. Estas incidencias adversas se abordaron mediante una combinación de:

(i) decisiones de gestión de carteras

El equipo de inversión evaluó sus posiciones corporativas con arreglo a un análisis de los riesgos medioambientales, sociales y de gobernanza como parte del marco de inversión del fondo. Los gestores de inversiones, basándose en análisis interno y de terceros, incluidos los datos cuantitativos ASG incluidos los datos sobre la Principal incidencia adversa , los datos ASG facilitados por las empresas y los datos proporcionados por terceros proveedores de datos ASG. El análisis del equipo de inversión fue un componente clave del proceso de construcción de la cartera del comportamiento, determinando las ponderaciones objetivo en la cartera para lograr una inclinación positiva de la misma.

(ii) implicación

La interacción con los emisores se realizó mediante conversaciones individuales, reuniones de accionistas/bonistas, giras de inversores y/o conferencias telefónicas en colaboración con otros equipos de inversión y terceros. Los objetivos de estas interacciones fueron evaluar una organización, supervisar que su estrategia se estaba aplicando conforme a nuestras expectativas y garantizar que los emisores iban camino de cumplir sus metas y objetivos.

Cuando corresponde, nos implicamos con las empresas en relación con cuestiones ASG importantes, como los objetivos de reducción de los GEI, las mejoras en la gobernanza y diversas controversias medioambientales, sociales y de gobernanza, para asegurarnos de que las entendieran y las abordaran eficazmente a corto, medio y largo plazo. Nuestras actividades de implicación combinaron debates dirigidos a nivel interno, iniciativas de colaboración con inversores institucionales y servicios de implicación externos.

(iii) exclusión de emisores asociados a conductas o actividades controvertidas

El fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se definen en la Política de Inversión responsable de la Pictet Asset Management y/o (ii) empresas que infringieron gravemente los principios del Pacto Mundial de la ONU sobre derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción y las armas controvertidas, o (iii) países sujetos a sanciones internacionales; véase también la información detallada sobre las exclusiones que figura en la Política de Inversión responsable de Pictet Asset Management.

¿Cuáles han sido las inversiones principales de este producto financiero?

La lista incluye las inversiones que constituyen la **mayor parte de las inversiones** del producto financiero durante el período de referencia, que es: 01.10.2022 - 30.09.2023

| INVERSIONES DE MAYOR VOLUMEN | SECTOR | % DE ACTIVOS | PAÍS |

¿Cuál ha sido la proporción de inversiones relacionadas con la sostenibilidad?

27,51%

La asignación de activos describe el porcentaje de inversiones en activos específicos.

¿Cuál ha sido la asignación de activos?

El fondo se ajustó en un 94,98% con características medioambientales o sociales (n.º 1 Ajustadas a características medioambientales o sociales) y tuvo hasta un 5,02% invertido en la categoría Otras (n.º 2 Otras). El 27,51% se asignó a inversiones sostenibles (n.º 1A Sostenibles) y el resto se invirtió en inversiones ajustadas a otras características medioambientales o sociales (n.º 1B Otras características medioambientales o sociales).

n.º 1 Ajustadas a características medioambientales o sociales incluye las inversiones del producto financiero utilizadas para lograr las características medioambientales o sociales que promueve el producto financiero.

n.º 2 Otras incluye el resto de inversiones del producto financiero que ni se ajustan a las características medioambientales o sociales ni pueden considerarse inversiones sostenibles.

La categoría n.º 1 Ajustadas a características medioambientales o sociales abarca:

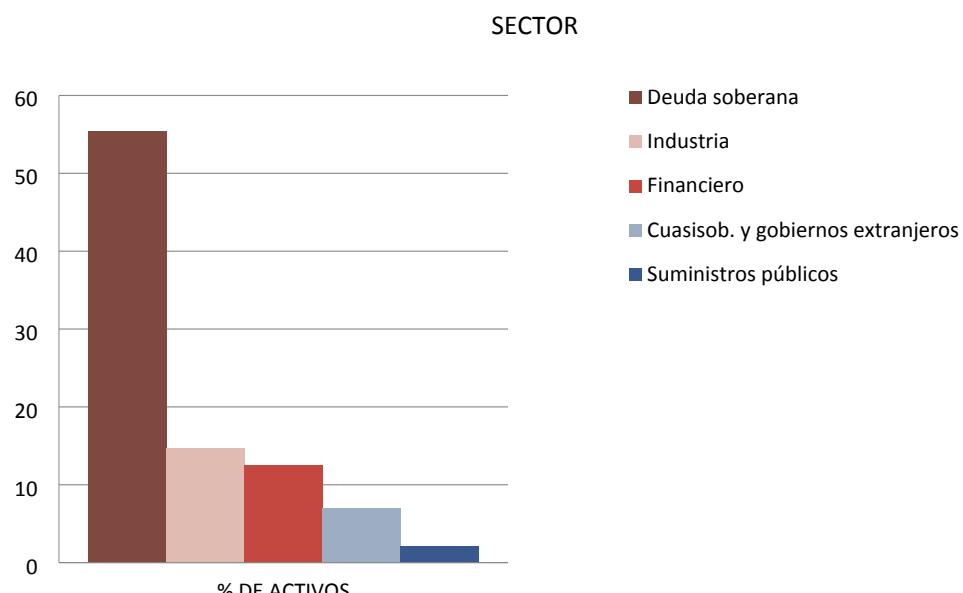

- la subcategoría n.º 1A Sostenibles, que abarca las inversiones sostenibles con objetivos medioambientales o sociales.
- la subcategoría n.º 1B Otras características medioambientales o sociales, que abarca inversiones ajustadas a las características medioambientales o sociales que no pueden considerarse inversiones sostenibles.

Notas:

- Las inversiones «n.º 1A Sostenibles», «Otras medioambientales» y «Sociales» se calcularon sobre una base de aprobado/suspenso. Incluyen bonos certificados (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.
- Las inversiones ajustadas a la taxonomía verde de la UE se calculan ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a la mitigación del cambio climático y la adaptación al mismo) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.
- A falta de una taxonomía social de la UE, Pictet ha desarrollado un marco de taxonomía social propio. El marco se basa en basado en el Informe sobre taxonomía social publicado por la Plataforma de Finanzas Sostenibles de la UE en 2022. Las actividades admisibles se definen como bienes y servicios beneficiosos desde el punto de vista social que contribuyen sustancialmente a uno de los tres objetivos sociales siguientes: (1) comunidades inclusivas y sostenibles, (2) nivel de vida adecuado y bienestar para los usuarios finales y (3) trabajo digno.

Fuente: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RBICS.

● ¿En qué sectores económicos se han realizado las inversiones?

Fuente: Pictet Asset Management, Merrill Lynch.

Estamos evaluando la disponibilidad y la calidad de los datos que nos permitirían divulgar información más granular en futuros informes sobre los sectores y subsectores de la economía que obtienen ingresos a partir de la exploración, la minería, la extracción, la producción, el procesamiento, el almacenamiento, el refinado o la distribución, incluidos el transporte, el almacenamiento y el comercio, de combustibles fósiles, según se definen en el artículo 2, punto (62), del Reglamento (UE) 2018/1999 del Parlamento Europeo y del Consejo.

¿En qué medida se ajustaban las inversiones sostenibles con un objetivo medioambiental a la taxonomía de la UE?

El fondo realizó inversiones en actividades económicas que contribuyeron a los dos primeros objetivos medioambientales (mitigación del cambio climático y adaptación a este), según lo establecido en el artículo 9 del Reglamento (UE) 2020/852.

Las inversiones ajustadas a la taxonomía de la UE se calcularon ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a objetivos medioambientales relevantes) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.

Los datos de ajuste a la Taxonomía verde de la UE proceden de informes públicos. Los cálculos también pueden incluir estimaciones en un número limitado de casos en los que no se disponía de datos sobre la alineación con la Taxonomía verde de la UE. Las estimaciones se realizaron sobre la base del mejor esfuerzo y siguiendo un planteamiento conservador para obtener un resultado prudente.

Los procedimientos de control se han aplicado para verificar en todo momento el cumplimiento del artículo 3 del Reglamento sobre taxonomía de la UE.

Los datos facilitados no han sido verificados por un auditor externo ni revisados por un tercero independiente.

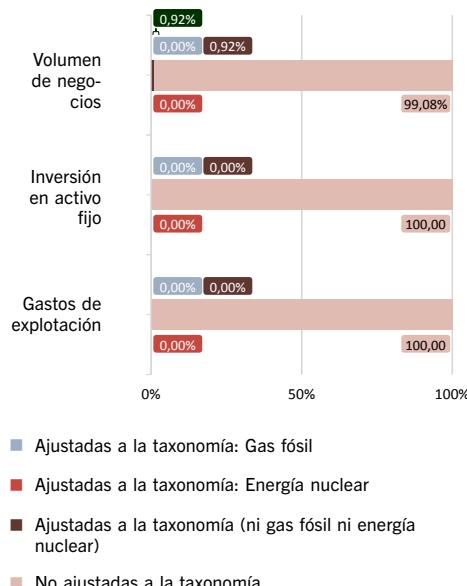

Para ajustarse a la taxonomía de la UE, los criterios correspondientes al **gas fósil** incluyen limitaciones de emisiones y el paso a la energía renovable o combustibles bajos en carbono de aquí al fin de 2035. Por lo que respecta a la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las actividades que se ajustan a la taxonomía se expresan como un porcentaje de:

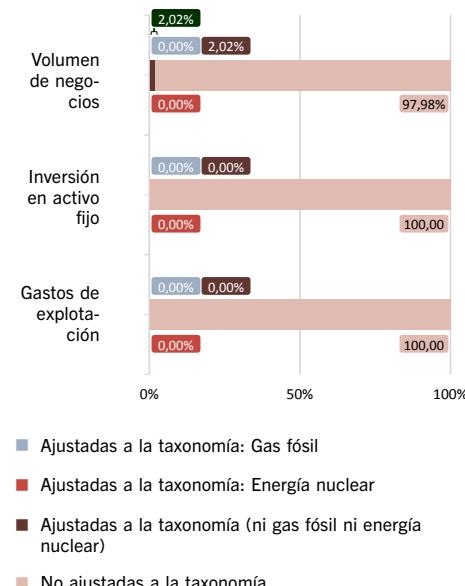

- el **volumen de negocios**, que refleja el «carácter ecológico» de las empresas en las que se invierte en la actualidad;
- la **inversión en activo fijo**, que muestra las inversiones ecológicas realizadas por las empresas en las que se invierte, pertinentes para la transición a una economía verde;
- los **gastos de explotación**, que reflejan las actividades operativas ecológicas de las empresas en las que se invierte.

Los gráficos que figuran a continuación muestran en verde el porcentaje de inversiones que se ajustaban a la taxonomía de la UE. Dado que no existe una metodología adecuada para determinar la adaptación a la taxonomía de los bonos soberanos, el primer gráfico muestra la adaptación a la taxonomía correspondiente para todas las inversiones del producto financiero, incluidos los bonos soberanos, mientras que el segundo gráfico muestra la adaptación a la taxonomía solo en relación con las inversiones del producto financiero distintas de los bonos soberanos.*

1. Ajuste a la taxonomía de las inversiones incluidos los bonos soberanos*

2. Ajuste a la taxonomía de las inversiones excluidos los bonos soberanos*

Este gráfico representa el 46,49% de las inversiones totales.

* A efectos de estos gráficos, los «bonos soberanos» incluyen todas las exposiciones soberanas

¹ Las actividades relacionadas con el gas fósil o la energía nuclear solo cumplirán la taxonomía de la UE cuando contribuyan a limitar el cambio climático («mitigación del cambio climático») y no perjudiquen significativamente ningún objetivo de la taxonomía de la UE (véase la nota explicativa en el margen izquierdo). Los criterios completos correspondientes a las actividades económicas del gas fósil y la energía nuclear que se ajustan a la taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

Nota:

Utilizamos los ingresos como medida clave para establecer la asignación de objetivos y el ajuste real con la taxonomía de la UE debido a la disponibilidad limitada y a la falta de datos fiables para los gastos de explotación y la inversión en activo fijo.

Fuente: Pictet Asset Management.

● **¿Cuál ha sido la proporción de las inversiones realizadas en actividades de transición y facilitadoras?**

La proporción de inversiones realizadas en:

- Actividades de transición: No aplicable*
- Actividades de facilitadoras: No aplicable*

* La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permiten ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

● **¿Qué porcentaje de inversiones se han ajustado a la taxonomía de la UE en comparación con los períodos de referencia anteriores?**

No aplicable.

¿Cuál ha sido la proporción de inversiones sostenibles con un objetivo medioambiental no ajustadas a la taxonomía de la UE?

20,43%

Estas inversiones sostenibles no se ajustan a la Taxonomía de la UE porque sus actividades económicas o bien (i) no están cubiertas por la Taxonomía de la UE, o bien (ii) no cumplen los criterios técnicos de selección para lograr una contribución sustancial en el sentido de la Taxonomía de la UE.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta los criterios para las actividades económicas medioambientalmente sostenibles con arreglo al Reglamento (UE) 2020/852.

¿Cuál ha sido la proporción de inversiones socialmente sostenibles?

7,08%

¿Qué inversiones se han incluido en «otras» y cuál ha sido su propósito? ¿ha habido garantías medioambientales o sociales mínimas?

Las «otras» inversiones del fondo incluían posiciones de tesorería mantenidas principalmente para satisfacer los objetivos diarios de liquidez y gestión de riesgos permitidos y previstos por la política de inversión del fondo. Cuando sea preciso, se aplicarán salvaguardias medioambientales o sociales mínimas a los valores subyacentes.

¿Qué medidas se han adoptado para cumplir las características medioambientales o sociales durante el período de referencia?

Durante el periodo de referencia, se alcanzó el objetivo de inversión sostenible siguiendo la estrategia de inversión y respetando los elementos vinculantes.

Los elementos vinculantes del fondo son:

- Exclusión de emisores que:
 - están relacionados con armas nucleares de países que no han firmado el Tratado sobre la No Proliferación de Armas Nucleares (TNP) y otras armas controvertidas
 - obtienen una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, como la extracción de carbón térmico y la generación de electricidad, la exploración y producción no convencional de petróleo y gas, las armas convencionales y armas

pequeñas, las armas de contratación militar, la producción de tabaco, la producción de entretenimiento para adultos y las actividades del juego. Para más detalles sobre los umbrales de exclusión aplicables a las actividades anteriores, consulte la Política de Inversión responsable de Pictet Asset Management.

- incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción
- exclusiones de países sujetos a sanciones internacionales
- un perfil ASG mejor que el del universo de inversión
- análisis de criterios ASG de los valores admisibles que abarca al menos el 90% del patrimonio neto o el número de emisores incluidos en la cartera

Además, el fondo se implicó con 30 empresas a 30.09.2023.

¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

Los índices de referencia son índices para medir si el producto financiero logra las características medioambientales o sociales que promueve.

● ¿Cómo difería el índice de referencia de un índice general de mercado?

No aplicable.

● ¿Cómo se ha comportado este producto financiero con respecto a los indicadores de sostenibilidad para determinar la conformidad del índice de referencia con las características medioambientales o sociales que promueve?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice general de mercado?

No aplicable.

Plantilla de información periódica de los productos financieros a que se refiere el artículo 8, apartados 1, 2 y 2 bis, del Reglamento (UE) 2019/2088 y el artículo 6, párrafo primero, del Reglamento (UE) 2020/852

Nombre del producto: **Pictet - EUR Corporate Bonds**

Identificador de entidad jurídica: **549300BPK7857G4FHG58**

CARACTERÍSTICAS MEDIOAMBIENTALES O SOCIALES

Inversión sostenible
significa una inversión en una actividad económica que contribuye a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo a ningún objetivo medioambiental o social y que las empresas en las que se invierte sigan prácticas de buena gobernanza.

La **taxonomía de la UE** es un sistema de clasificación previsto en el Reglamento (UE) 2020/852 por el que se establece una lista de **actividades económicas medioambientalmente sostenibles**. Dicho Reglamento no prevé una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental pueden ajustarse, o no, a la taxonomía.

| ¿ESTE PRODUCTO FINANCIERO TENÍA UN OBJETIVO DE INVERSIÓN SOSTENIBLE? | | | |
|--|--|-------------------------------------|--|
| <input checked="" type="radio"/> Si | | <input checked="" type="radio"/> No | |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo medioambiental: ____% | <input checked="" type="checkbox"/> | Promovió características medioambientales o sociales y, aunque no tenía como objetivo una inversión sostenible, tuvo un porcentaje del 32,70% de inversiones sostenibles |
| <input type="checkbox"/> | en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> | con un objetivo medioambiental en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> | en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> | con un objetivo medioambiental en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo social: ____% | <input type="checkbox"/> | con un objetivo social |
| <input type="checkbox"/> | | <input type="checkbox"/> | Ha promovido características medioambientales o sociales, pero no ha realizado ninguna inversión sostenible |

Nota: Las inversiones sostenibles se calcularon sobre una base de aprobado/suspenso, incluyendo bonos con etiqueta (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% (medida por ingresos, EBIT, valor de empresa o indicadores similares) a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.

¿En qué grado se han cumplido las características medioambientales o sociales que promueve este producto financiero?

Las características medioambientales y sociales de este producto financiero se promovieron utilizando:

- Inclinación positiva:

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos y, como resultado, tuvo un perfil medioambiental, social y de gobernanza (ASG) mejor que el del índice de referencia. El índice Bloomberg Euro-Aggregate Corporate se utilizó para medir la inclinación positiva; sin embargo, no se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

- Exclusiones basadas en normas y valores:

El fondo excluyó los emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente o que incumplen de forma grave las normas internacionales, según se detalla a continuación:

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

Actividad

Umbrales de ingresos

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

| | |
|---|------------------------------------|
| Combustibles fósiles y energía nuclear | |
| Extracción de carbón térmico | > 25% |
| Generación de energía térmica de carbón | > 25% |
| Extracción de arenas bituminosas | > 25% |
| Extracción de energía de esquisto | > 25% |
| Exploración de petróleo y gas en el Ártico | > 10% |
| Armas | |
| Producción de armas controvertidas ^[1] | > 0% |
| Armas de contratación militar | > 10% |
| Clientes civiles de armas pequeñas (armas de asalto) | > 10% |
| Clientes civiles de armas pequeñas (armas de no asalto) | > 10% |
| Clientes militares/de fuerzas del orden de armas pequeñas | > 25% |
| Componentes clave de armas pequeñas | > 25% |
| Otras actividades controvertidas | |
| Producción de entretenimiento para adultos | > 10% |
| Operaciones de juego | > 10% |
| Producción de productos de tabaco | > 10% |
| Exclusiones de empresas por incumplimiento de normas internacionales | Excluidas |
| Empresas que incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción | Sí |
| Exclusiones de países | Excluidas |
| Países (i) incluidos en la lista de Estados patrocinadores del terrorismo, según la definición de la Oficina de Control de Activos Extranjeros de EE. UU. ^[2] o (ii) sujetos a sanciones financieras de la UE contra bancos centrales y/o empresas de propiedad estatal. | Sí |
| Países (i) clasificados como de muy alto o alto riesgo en el Índice de Estados Frágiles o (ii) afectados por conflictos violentos según la definición del Banco Mundial. | Sí |
| Países (i) incluidos en la lista de «alerta» del Índice de Estados Frágiles o (ii) sujetos a sanciones relacionadas con la exportación por parte de la UE. | Lista de vigilancia ^[3] |

^[1] Entre las armas controvertidas se encuentran las minas antipersona, las municiones de racimo, las armas biológicas y químicas (incluido el fósforo blanco) y las armas nucleares procedentes de países no firmantes del Tratado de No Proliferación de Armas Nucleares (TNP).

^[2] «Estado patrocinador del terrorismo» es una designación aplicada por el Departamento de Estado de Estados Unidos a países que repetidamente han prestado apoyo a actos de terrorismo internacional.

^[3] Además de las exclusiones estrictas, Pictet Asset Management mantiene una lista de vigilancia que incluye países que requieren una diligencia debida adicional por parte de los equipos de inversión antes de invertir.

Para más detalles, consulte la Política de Inversión responsable de Pictet Asset Management (Anexo B).

- Titularidad activa:

El fondo se implicó con la dirección de las empresas sobre cuestiones ASG importantes.

● **¿Cómo se han comportado los indicadores de sostenibilidad?**

Durante el periodo de información, los indicadores de sostenibilidad se comportaron según se indica a continuación:

• **Perfil ASG global**

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos.

Como resultado, el fondo ha conseguido un perfil ambiental, social y de gobernanza (ASG) mejor que el del índice de referencia.

- **Principal incidencia adversa (PIA)**

El fondo utiliza una combinación de enfoques para considerar y, en la medida de lo posible, mitigar las incidencias adversas materiales de nuestras inversiones en la sociedad y el medioambiente, como emisiones de GEI, contaminación atmosférica, pérdida de biodiversidad, emisiones al agua, residuos peligrosos/radioactivos, derechos humanos, normas laborales, corrupción y soborno, y salud pública.

El grado y la forma en que estas incidencias se tuvieron en cuenta dependieron de factores como el contexto específico de la inversión que provoca la incidencia adversa o la disponibilidad de datos fiables.

De conformidad con la política de exclusión de Pictet Asset Management descrita en la Política de Inversión responsable de la empresa (véase el cuadro anterior para consultar las actividades excluidas y los umbrales de exclusión aplicados), el fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente:

Actividades controvertidas (media ponderada de ingresos de la empresa, en %)*:

| | Fondo (%) | Índice de referencia (%) |
|--|-----------|--------------------------|
| Combustibles fósiles y energía nuclear | 4,16 | 0,87 |
| Armas | 0,06 | 0,05 |
| Otras actividades controvertidas | 0,05 | 0,22 |
| No aplicable: | 7,47 | 61,21 |
| No cubierto: | 0,30 | 0,19 |

* Los combustibles fósiles y la energía nuclear incluyen la extracción de carbón térmico y la generación de electricidad, la producción y extracción de petróleo y gas, la extracción de energía de esquisto, la exploración de petróleo y gas en los mares del Ártico y la generación de energía nuclear. Las armas incluyen la contratación militar (servicios de armas y relacionadas con estas), clientes civiles de armas pequeñas (armas de asalto/ho asalto), clientes militares/de las fuerzas y cuerpos de seguridad de armas pequeñas y componentes clave de pequeñas armas. Otras actividades controvertidas incluyen la producción de tabaco, la producción de entretenimiento para adultos, la explotación de juegos de azar, el desarrollo o crecimiento de organismos modificados genéticamente, la producción o venta al por menor de pesticidas. La exposición se basa en datos de terceros y puede no reflejar nuestro punto de vista interno. Pictet Asset Management tiene plena discreción sobre la aplicación de los criterios de exclusión y se reserva el derecho de apartarse de la información de terceros, según el caso, cuando se considere incorrecta o incompleta.

Fuente: Pictet Asset Management, Sustainalytics.

Además, el fondo excluyó a los emisores que tenían exposición a:

(i) PIA 10: Incumplimientos de los principios del Pacto Mundial de las Naciones Unidas y las Directrices para Empresas Multinacionales de la Organización para la Cooperación y el Desarrollo Económicos (OCDE).

(ii) PIA 14: Exposición a armas controvertidas (minas antipersonas, municiones en racimo, armas químicas y armas biológicas)

- **Interacción**

El fondo se implicó con 33 empresas sobre cuestiones ASG (datos a 30.09.2023). Esto incluye diálogos internos, iniciativas de colaboración entre inversores y servicios de implicación de terceros. Para que se considere implicación, el diálogo con una empresa objetivo debe tener un objetivo claro y mensurable en un horizonte temporal predefinido. Es importante señalar que no todas las interacciones rutinarias o de supervisión, aunque impliquen a la alta dirección o al Consejo de administración, se consideran implicaciones en nuestra evaluación.

Fuente: Pictet Asset Management, Sustainalytics.

- **¿... y en comparación con períodos anteriores?**

Esta cuestión se abordará en futuros informes anuales debido a la falta de historial.

● **¿Cuáles han sido los objetivos de las inversiones sostenibles que ha realizado en parte el producto financiero y de qué forma ha contribuido la inversión sostenible a dichos objetivos?**

El fondo no se comprometió a un porcentaje mínimo de inversiones sostenibles.

Sin embargo, *a posteriori*, el fondo invirtió en valores que financian actividades económicas que contribuyeron sustancialmente a objetivos medioambientales y/o sociales como:

Medioambientales

- mitigación del cambio climático o adaptación al mismo
- uso sostenible y protección de los recursos hídricos y marinos
- transición hacia una economía circular
- prevención y control de la contaminación o
- protección y recuperación de la biodiversidad y los ecosistemas

Sociales

- comunidades inclusivas y sostenibles
- nivel de vida adecuado y bienestar para los usuarios finales o
- trabajo digno

Pictet Asset Management utilizó un marco de referencia propio, así como los objetivos de la Taxonomía de la UE, para definir las inversiones sostenibles.

● **¿De qué manera las inversiones sostenibles que el producto financiero ha realizado en parte, no han causado un perjuicio significativo a ningún objetivo de inversión sostenible medioambiental o social?**

Para evitar que las inversiones sostenibles causen un perjuicio significativo a cualquier otro objetivo medioambiental o social, el fondo aplicó los siguientes criterios de selección sobre la base del mejor esfuerzo:

- (i) Exclusiones de emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente (véase la descripción del marco de exclusión de IR).
- (ii) Los emisores asociados a controversias elevadas y graves no se contabilizaron como inversiones sostenibles.

La información se obtuvo de proveedores terceros y/o de análisis interno. La información ASG de terceros proveedores de datos puede haber sido incompleta, inexacta o no estar disponible. Como consecuencia de ello, existía el riesgo de que el Gestor de inversiones evaluara incorrectamente un valor o emisor, dando lugar a la inclusión o exclusión incorrecta de un valor en el fondo. Los datos ASG incompletos, inexactos o no disponibles también pueden actuar como una limitación metodológica a una estrategia de inversión no financiera (como la aplicación de criterios ASG o similares). En los casos identificados, el Gestor de inversiones trató de mitigar este riesgo mediante su propia evaluación. En caso de que las características ASG de un valor mantenido por el fondo cambiaran, dando lugar a la venta del valor, el Gestor de inversiones no acepta responsabilidad alguna en relación con dicho cambio.

● **¿Cómo se han tenido en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?**

Pictet Asset Management realiza un seguimiento de todos los indicadores obligatorios de principales incidencias adversas (incluidos en el Anexo 1 del Reglamento Delegado (UE) 22 / 1288 de la Comisión) cuando disponemos de datos sólidos. Se espera que la calidad de los datos disponibles mejore con el tiempo.

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas de sus inversiones en la sociedad y el medioambiente que se consideran importantes para la estrategia de inversión, mediante un conjunto de decisiones de gestión de cartera, actividades de propiedad activa y exclusión de emisores asociados a conductas o actividades controvertidas. Más información en el informe de PIA de la entidad, disponible en:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=es&bl=PAM>

Las principales incidencias adversas son las incidencias negativas más importantes de las decisiones de inversión sobre los factores de sostenibilidad en relación con asuntos medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

- ¿Se han ajustado las inversiones sostenibles a las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios rectores de las Naciones Unidas sobre las empresas y los derechos humanos?

Para garantizar que la inversión sostenible no causara un perjuicio significativo a ningún objetivo de inversión sostenible, el fondo excluyó a las empresas con infracciones elevadas y graves de (i) los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción o (ii) las Líneas Directrices de la OCDE para Empresas Multinacionales, incluidos los asuntos sociales y laborales graves.

La taxonomía de la UE establece el principio de «no causar un perjuicio significativo», según el cual las inversiones que se ajusten a la taxonomía no deben perjudicar significativamente a los objetivos de la taxonomía de la UE, e incluye criterios específicos de la Unión.

El principio de «no perjudicar de forma significativa» se aplica únicamente a las inversiones subyacentes del producto financiero que contemplan los criterios de la UE relativos a actividades económicas sostenibles desde una perspectiva medioambiental. Las inversiones subyacentes al resto del producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas medioambientalmente sostenibles.

Cualquier otra inversión sostenible tampoco debe perjudicar significativamente a ningún objetivo medioambiental o social.

¿Cómo tiene en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas que se consideran importantes para la estrategia de inversión. Entre las incidencias adversas se incluyeron, entre otras, las emisiones de gases de efecto invernadero (GEI), la contaminación atmosférica, la pérdida de biodiversidad, las emisiones al agua, los residuos peligrosos/radioactivos, las cuestiones sociales y laborales, y la corrupción y el soborno, que se abordaron mediante una combinación de:

(i) decisiones de gestión de carteras

El equipo de inversión puntuó las posiciones según una evaluación de los riesgos medioambientales, sociales y de gobernanza como parte del marco de puntuación del fondo. Los gestores de inversiones determinan las puntuaciones sobre una base cualitativa, basándose en el análisis fundamental y en datos cuantitativos ASG, incluidos los datos sobre la Principal incidencia adversa, los datos ASG facilitados por las empresas y los datos proporcionados por terceros proveedores de datos ASG. El proceso de puntuación del equipo de inversión fue un componente clave del proceso de construcción de la cartera del comportamiento, determinando las ponderaciones objetivo en la cartera.

(ii) implicación

La interacción con los emisores se realizó mediante conversaciones individuales, reuniones de accionistas/bonistas, giras de inversores y/o conferencias telefónicas. Los objetivos de estas interacciones fueron evaluar una organización, supervisar que su estrategia se estaba aplicando conforme a nuestras expectativas y garantizar que los emisores iban camino de cumplir sus metas y objetivos.

Cuando corresponde, nos implicamos con las empresas en relación con cuestiones ASG importantes, como los objetivos de reducción de los GEI, las mejoras en la gobernanza y diversas controversias medioambientales, sociales y de gobernanza, para asegurarnos de que las entendieran y las abordaran eficazmente a corto, medio y largo plazo. Nuestras actividades de implicación combinaron debates dirigidos a nivel interno, iniciativas de colaboración con inversores institucionales y servicios de implicación externos.

(iii) exclusión de emisores asociados a conductas o actividades controvertidas

El fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se definen en la Política de Inversión responsable de la Pictet Asset Management y/o (ii) empresas que infringieron gravemente los principios del Pacto Mundial de la ONU sobre derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción y las armas controvertidas.

¿Cuáles han sido las inversiones principales de este producto financiero?

La lista incluye las inversiones que constituyen la **mayor parte de las inversiones** del producto financiero durante el período de referencia, que es: 01.10.2022 - 30.09.2023

| INVERSIONES DE MAYOR VOLUMEN | SECTOR | % DE ACTIVOS | PAÍS |

Fuente: Pictet Asset Management, Merrill Lynch.

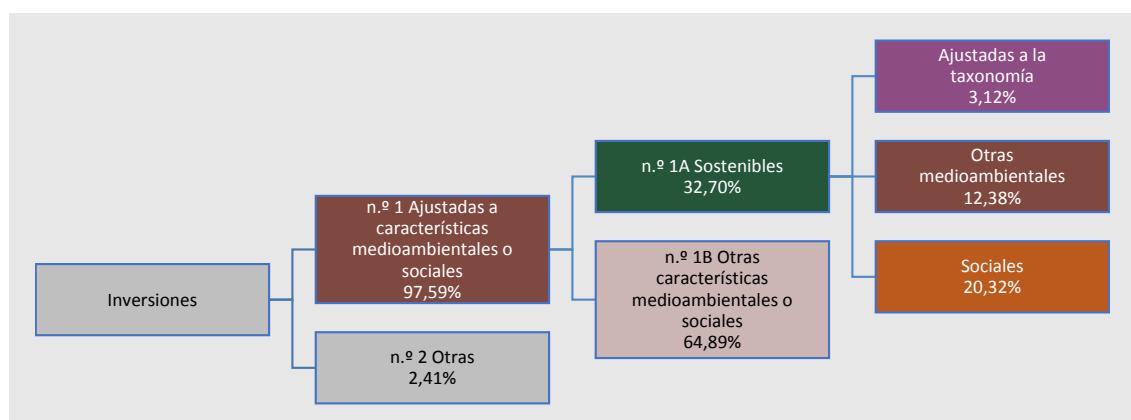

¿Cuál ha sido la proporción de inversiones relacionadas con la sostenibilidad?

32,70%

La asignación de **activos** describe el porcentaje de inversiones en activos específicos.

¿Cuál ha sido la asignación de activos?

El fondo se ajustó en un 97,59% con características medioambientales o sociales (n.º 1 Ajustadas a características medioambientales o sociales) y tuvo hasta un 2,41% invertido en la categoría Otras (n.º 2 Otras). El 32,70% se asignó a inversiones sostenibles (n.º 1A Sostenibles) y el resto se invirtió en inversiones ajustadas a otras características medioambientales o sociales (n.º 1B Otras características medioambientales o sociales).

n.º 1 Ajustadas a características medioambientales o sociales incluye las inversiones del producto financiero utilizadas para lograr las características medioambientales o sociales que promueve el producto financiero.

n.º 2 Otras incluye el resto de inversiones del producto financiero que ni se ajustan a las características medioambientales o sociales ni pueden considerarse inversiones sostenibles.

La categoría n.º 1 Ajustadas a características medioambientales o sociales abarca:

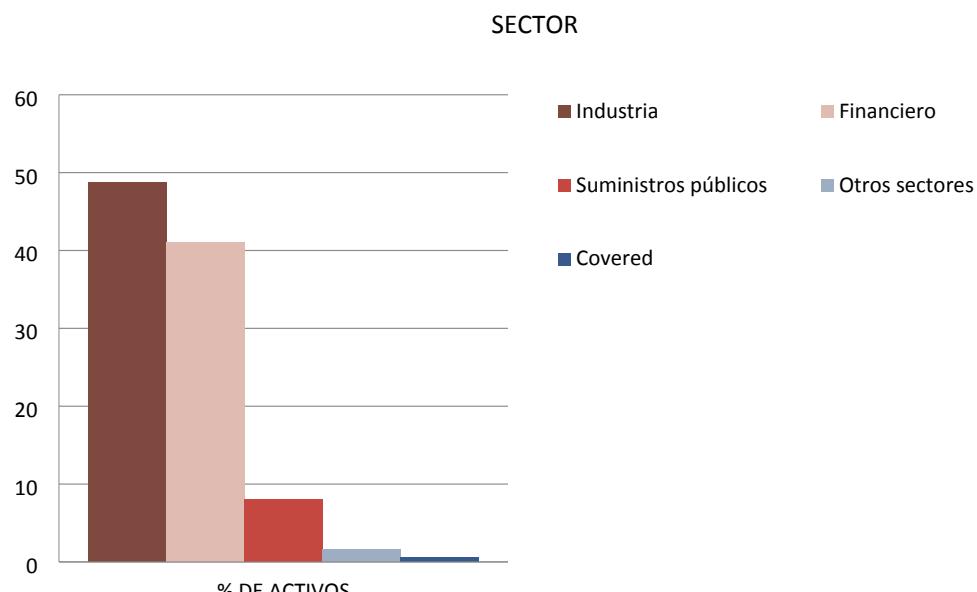

- la subcategoría n.º 1A Sostenibles, que abarca las inversiones sostenibles con objetivos medioambientales o sociales.
- la subcategoría n.º 1B Otras características medioambientales o sociales, que abarca inversiones ajustadas a las características medioambientales o sociales que no pueden considerarse inversiones sostenibles.

Notas:

- Las inversiones «n.º 1A Sostenibles», «Otras medioambientales» y «Sociales» se calcularon sobre una base de aprobado/suspenso. Incluyen bonos certificados (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.
- Las inversiones ajustadas a la taxonomía verde de la UE se calculan ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a la mitigación del cambio climático y la adaptación al mismo) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.
- A falta de una taxonomía social de la UE, Pictet ha desarrollado un marco de taxonomía social propio. El marco se basa en basado en el Informe sobre taxonomía social publicado por la Plataforma de Finanzas Sostenibles de la UE en 2022. Las actividades admisibles se definen como bienes y servicios beneficiosos desde el punto de vista social que contribuyen sustancialmente a uno de los tres objetivos sociales siguientes: (1) comunidades inclusivas y sostenibles, (2) nivel de vida adecuado y bienestar para los usuarios finales y (3) trabajo digno.

Fuente: Pictet Asset Management, Sustainanalytics, FTSE Green Revenues, Factset RBICS.

● ¿En qué sectores económicos se han realizado las inversiones?

Fuente: Pictet Asset Management, Merrill Lynch.

Estamos evaluando la disponibilidad y la calidad de los datos que nos permitirían divulgar información más granular en futuros informes sobre los sectores y subsectores de la economía que obtienen ingresos a partir de la exploración, la minería, la extracción, la producción, el procesamiento, el almacenamiento, el refinado o la distribución, incluidos el transporte, el almacenamiento y el comercio, de combustibles fósiles, según se definen en el artículo 2, punto (62), del Reglamento (UE) 2018/1999 del Parlamento Europeo y del Consejo.

¿En qué medida se ajustaban las inversiones sostenibles con un objetivo medioambiental a la taxonomía de la UE?

El fondo realizó inversiones en actividades económicas que contribuyeron a los dos primeros objetivos medioambientales (mitigación del cambio climático y adaptación a este), según lo establecido en el artículo 9 del Reglamento (UE) 2020/852.

Las inversiones ajustadas a la taxonomía de la UE se calcularon ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a objetivos medioambientales relevantes) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.

Los datos de ajuste a la Taxonomía verde de la UE proceden de informes públicos. Los cálculos también pueden incluir estimaciones en un número limitado de casos en los que no se disponía de datos sobre la alineación con la Taxonomía verde de la UE. Las estimaciones se realizaron sobre la base del mejor esfuerzo y siguiendo un planteamiento conservador para obtener un resultado prudente.

Los procedimientos de control se han aplicado para verificar en todo momento el cumplimiento del artículo 3 del Reglamento sobre taxonomía de la UE.

Los datos facilitados no han sido verificados por un auditor externo ni revisados por un tercero independiente.

● **¿Invirtió el producto financiero en actividades relacionadas con el gas fósil o la energía nuclear que cumplían con la taxonomía de la UE¹?**

Sí:

En gas fósil En energía nuclear

No

La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permite ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

Para ajustarse a la taxonomía de la UE, los criterios correspondientes al **gas fósil** incluyen limitaciones de emisiones y el paso a la energía renovable o combustibles bajos en carbono de aquí al fin de 2035. Por lo que respecta a la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

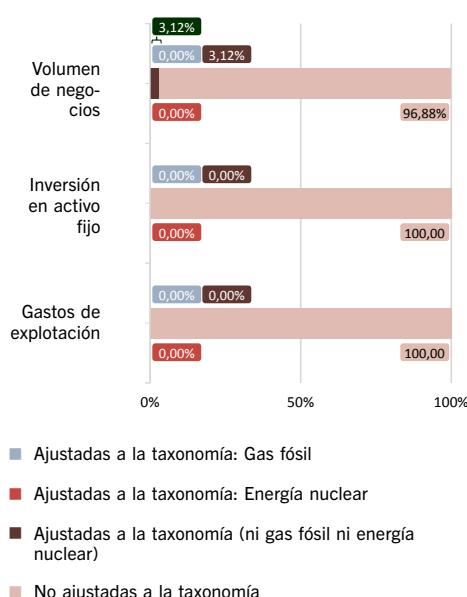

¹ Las actividades relacionadas con el gas fósil o la energía nuclear solo cumplirán la taxonomía de la UE cuando contribuyan a limitar el cambio climático («mitigación del cambio climático») y no perjudiquen significativamente ningún objetivo de la taxonomía de la UE (véase la nota explicativa en el margen izquierdo). Los criterios completos correspondientes a las actividades económicas del gas fósil y la energía nuclear que se ajustan a la taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

Las actividades que se ajustan a la taxonomía se expresan como un porcentaje de:

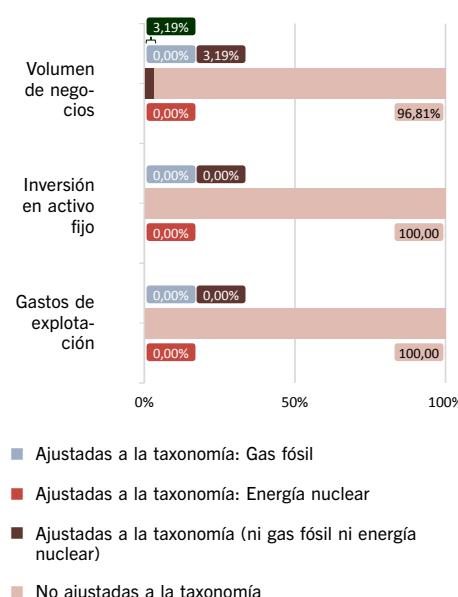

- el **volumen de negocios**, que refleja el «carácter ecológico» de las empresas en las que se invierte en la actualidad;
- la **inversión en activo fijo**, que muestra las inversiones ecológicas realizadas por las empresas en las que se invierte, pertinentes para la transición a una economía verde;
- los **gastos de explotación**, que reflejan las actividades operativas ecológicas de las empresas en las que se invierte.

Los gráficos que figuran a continuación muestran en verde el porcentaje de inversiones que se ajustaban a la taxonomía de la UE. Dado que no existe una metodología adecuada para determinar la adaptación a la taxonomía de los bonos soberanos*, el primer gráfico muestra la adaptación a la taxonomía correspondiente para todas las inversiones del producto financiero, incluidos los bonos soberanos, mientras que el segundo gráfico muestra la adaptación a la taxonomía solo en relación con las inversiones del producto financiero distintas de los bonos soberanos.

1. Ajuste a la taxonomía de las inversiones incluidos los bonos soberanos*

2. Ajuste a la taxonomía de las inversiones excluidos los bonos soberanos*

Este gráfico representa el 97,59% de las inversiones totales.

* A efectos de estos gráficos, los «bonos soberanos» incluyen todas las exposiciones soberanas

Nota:

Utilizamos los ingresos como medida clave para establecer la asignación de objetivos y el ajuste real con la taxonomía de la UE debido a la disponibilidad limitada y a la falta de datos fiables para los gastos de explotación y la inversión en activo fijo.

Fuente: Pictet Asset Management.

● ¿Cuál ha sido la proporción de las inversiones realizadas en actividades de transición y facilitadoras?

La proporción de inversiones realizadas en:

- Actividades de transición: No aplicable*
- Actividades de facilitadoras: No aplicable*

* La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permiten ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

● ¿Qué porcentaje de inversiones se han ajustado a la taxonomía de la UE en comparación con los períodos de referencia anteriores?

No aplicable.

¿Cuál ha sido la proporción de inversiones sostenibles con un objetivo medioambiental no ajustadas a la taxonomía de la UE?

12,38%

Estas inversiones sostenibles no se ajustan a la Taxonomía de la UE porque sus actividades económicas o bien (i) no están cubiertas por la Taxonomía de la UE, o bien (ii) no cumplen los criterios técnicos de selección para lograr una contribución sustancial en el sentido de la Taxonomía de la UE.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta

¿Cuál ha sido la proporción de inversiones socialmente sostenibles?

20,32%

¿Qué inversiones se han incluido en «otras» y cuál ha sido su propósito? ¿ha habido garantías medioambientales o sociales mínimas?

Las «otras» inversiones del fondo incluían posiciones de tesorería mantenidas principalmente para satisfacer los objetivos diarios de liquidez y gestión de riesgos permitidos y previstos por la política de inversión del fondo. Cuando sea preciso, se aplicarán salvaguardias medioambientales o sociales mínimas a los valores subyacentes.

¿Qué medidas se han adoptado para cumplir las características medioambientales o sociales durante el período de referencia?

Durante el periodo de referencia, se alcanzó el objetivo de inversión sostenible siguiendo la estrategia de inversión y respetando los elementos vinculantes.

Los elementos vinculantes del fondo son:

- Exclusión de emisores que:
 - están relacionados con armas nucleares de países que no han firmado el Tratado sobre la No Proliferación de Armas Nucleares (TNP) y otras armas controvertidas
 - obtienen una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, como la extracción de carbón térmico y la generación de electricidad, la exploración y producción no convencional de petróleo y gas, las armas convencionales y armas pequeñas, las armas de contratación militar, la producción de tabaco, la producción de entretenimiento para adultos y las actividades del juego. Para más detalles sobre los umbrales de exclusión aplicables a las actividades anteriores, consulte la Política de Inversión responsable de Pictet Asset Management.
 - incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción
- un perfil ASG mejor que el del índice de referencia
- análisis de criterios ASG de los valores admisibles que abarca al menos el 90% del patrimonio neto o el número de emisores incluidos en la cartera

Además, el fondo se implicó con 33 empresas a 30.09.2023.

¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

● ¿Cómo difería el índice de referencia de un índice general de mercado?

No aplicable.

- **¿Cómo se ha comportado este producto financiero con respecto a los indicadores de sostenibilidad para determinar la conformidad del índice de referencia con las características medioambientales o sociales que promueve?**
No aplicable.
- **¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?**
No aplicable.
- **¿Cómo se ha comportado este producto financiero en comparación con el índice general de mercado?**
No aplicable.

Nombre del producto: **Pictet - Global Emerging Debt**

Identificador de entidad jurídica: **549300A8YN6U8D2CFX77**

CARACTERÍSTICAS MEDIOAMBIENTALES O SOCIALES

Inversión sostenible
significa una inversión en una actividad económica que contribuye a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo a ningún objetivo medioambiental o social y que las empresas en las que se invierte sigan prácticas de buena gobernanza.

La **taxonomía de la UE** es un sistema de clasificación previsto en el Reglamento (UE) 2020/852 por el que se establece una lista de **actividades económicas medioambientalmente sostenibles**. Dicho Reglamento no prevé una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental pueden ajustarse, o no, a la taxonomía.

| ¿ESTE PRODUCTO FINANCIERO TENÍA UN OBJETIVO DE INVERSIÓN SOSTENIBLE? | | | |
|--|--|--|--|
| <input checked="" type="checkbox"/> Si | | <input checked="" type="checkbox"/> No | |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo medioambiental: ____% | <input checked="" type="checkbox"/> | Promovió características medioambientales o sociales y, aunque no tenía como objetivo una inversión sostenible, tuvo un porcentaje del 10,93% de inversiones sostenibles |
| <input type="checkbox"/> | en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input type="checkbox"/> | con un objetivo medioambiental en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> | en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> | con un objetivo medioambiental en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo social: ____% | <input type="checkbox"/> | con un objetivo social |
| <input type="checkbox"/> | | <input type="checkbox"/> | Ha promovido características medioambientales o sociales, pero no ha realizado ninguna inversión sostenible |

Nota: Las inversiones sostenibles se calcularon sobre una base de aprobado/suspenso, incluyendo bonos con etiqueta (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% (medida por ingresos, EBIT, valor de empresa o indicadores similares) a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.

¿En qué grado se han cumplido las características medioambientales o sociales que promueve este producto financiero?

Las características medioambientales y sociales de este producto financiero se promovieron utilizando:

- Best-in-class / best effort:

El fondo invirtió en valores de emisores con riesgos de sostenibilidad bajos y/o decrecientes, a la vez que evitó aquellos con riesgo de sostenibilidad alto y/o creciente, reduciendo el universo de inversión en al menos un 20%. El universo de inversión está compuesto por bonos soberanos y corporativos de los países emergentes.

No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

- Bonos con etiqueta:

El fondo invirtió parcialmente en bonos con etiqueta medioambiental y/o social.

- Exclusiones basadas en normas y valores:

El fondo excluyó los emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente o que incumplen de forma grave las normas internacionales, según se detalla a continuación:

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

| Actividad | Umbrales de ingresos |
|---|----------------------|
| Combustibles fósiles y energía nuclear | |
| Extracción de carbón térmico | > 25% |
| Generación de energía térmica de carbón | > 25% |
| Producción de petróleo y gas | > 25% |
| Extracción de arenas bituminosas | > 10% |
| Extracción de energía de esquisto | > 10% |
| Exploración de petróleo y gas en el Ártico | > 10% |
| Generación de energía nuclear | > 50% |
| Armas | |
| Producción de armas controvertidas[1] | > 0% |
| Armas de contratación militar | > 10% |
| Productos y/o servicios relacionados con armas de contratación militar | > 50% |
| Clientes civiles de armas pequeñas (armas de asalto) | > 10% |
| Clientes civiles de armas pequeñas (armas de no asalto) | > 10% |
| Clientes militares/de fuerzas del orden de armas pequeñas | > 25% |
| Componentes clave de armas pequeñas | > 25% |
| Otras actividades controvertidas | |
| Producción de entretenimiento para adultos | > 10% |
| Operaciones de juego | > 10% |
| Desarrollo de plantas y semillas modificadas genéticamente | > 25% |
| Cultivo de plantas y semillas modificadas genéticamente | > 25% |
| Producción de plaguicidas | > 10% |
| Venta al por menor de plaguicidas | > 10% |
| Producción de productos de tabaco | > 10% |
| Exclusiones de empresas por incumplimiento de normas internacionales | Excluidas |
| Empresas que incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción | Sí |
| Exclusiones de países | Excluidas |
| Países (i) incluidos en la lista de Estados patrocinadores del terrorismo, según la definición de la Oficina de Control de Activos Extranjeros de EE. UU.[2] o (ii) sujetos a sanciones financieras de la UE contra bancos centrales y/o empresas de propiedad estatal. | Sí |
| Países (i) clasificados como de muy alto o alto riesgo en el Índice de Estados Frágiles o (ii) afectados por conflictos violentos según la definición del Banco Mundial. | Sí |

Países (i) incluidos en la lista de «alerta» del Índice de Estados Frágiles o (ii) sujetos a sanciones relacionadas con la exportación por parte de la UE. Lista de vigilancia[3]

[1] Entre las armas controvertidas se encuentran las minas antipersona, las municiones de racimo, las armas biológicas y químicas (incluido el fósforo blanco) y las armas nucleares procedentes de países no firmantes del Tratado de No Proliferación de Armas Nucleares (TNP).

[2] «Estado patrocinador del terrorismo» es una designación aplicada por el Departamento de Estado de Estados Unidos a países que repetidamente han prestado apoyo a actos de terrorismo internacional.

[3] Además de las exclusiones estrictas, Pictet Asset Management mantiene una lista de vigilancia que incluye países que requieren una diligencia debida adicional por parte de los equipos de inversión antes de invertir.

Para más detalles, consulte la Política de Inversión responsable de Pictet Asset Management (Anexo B).

- Titularidad activa:

El fondo se implicó con ciertos emisores soberanos sobre cuestiones ASG durante el periodo de referencia.

- **¿Cómo se han comportado los indicadores de sostenibilidad?**

Durante el periodo de información, los indicadores de sostenibilidad se comportaron según se indica a continuación:

- **Exposición a empresas que obtienen una parte significativa de sus ingresos, EBIT, valor de empresa o parámetros similares de actividades económicas que contribuyen a los objetivos medioambientales o sociales, y bonos con etiqueta cuando sea relevante para la clase de activos (inversiones sostenibles):**

10,93%

En el informe del próximo año se facilitará información adicional sobre objetivos medioambientales y/o sociales específicos.

- **Exposición a bonos con etiqueta verde y/o social**

Durante el periodo de referencia, el fondo tuvo una exposición del 10,93% a bonos certificados.

Los fondos certificados incluyen bonos medioambientales, sociales y de sostenibilidad. La clasificación de los bonos certificados se proporciona por emisor de bonos y puede no reflejar nuestro punto de vista interno.

- **Reducción del universo de inversión por factores ASG**

El fondo reduce su universo de inversión eliminando al menos el 20% de los emisores con los mayores riesgos de sostenibilidad.

Los riesgos de sostenibilidad son acontecimientos o condiciones de riesgo ASG que podrían tener una incidencia negativa importante en el valor de las inversiones si se produjeran. Los riesgos de sostenibilidad incluían, entre otros, los siguientes: riesgo de transición climática, riesgo físico climático, riesgo medioambiental, riesgo social y riesgo de gobernanza. Se realizan revisiones periódicas y controles de riesgo para supervisar la aplicación.

Las principales incidencias adversas («PIA») son efectos negativos, materiales o posiblemente materiales, sobre factores de sostenibilidad causados, agravados o directamente vinculados con las decisiones y el asesoramiento. Entre las principales incidencias adversas se incluyen, entre otras, las emisiones de gases de efecto invernadero (GEI), la contaminación atmosférica, la pérdida de biodiversidad, las emisiones al agua, los residuos peligrosos/radioactivos, las cuestiones sociales y laborales, y la corrupción y el soborno.

- **Principal incidencia adversa (PIA)**

El fondo utiliza una combinación de enfoques para considerar y, en la medida de lo posible, mitigar las incidencias adversas materiales de nuestras inversiones en la sociedad y el medioambiente, como emisiones de GEI, contaminación atmosférica, pérdida de biodiversidad, emisiones al agua, residuos peligrosos/radioactivos, derechos humanos, normas laborales, corrupción y soborno, y salud pública.

El grado y la forma en que estas incidencias se tuvieron en cuenta dependieron de factores como el contexto específico de la inversión que provoca la incidencia adversa o la disponibilidad de datos fiables.

El fondo invierte principalmente en deuda pública durante el período de referencia. En el caso de las inversiones en bonos no soberanos y de conformidad con la política de exclusión de Pictet Asset Management descrita en la Política de Inversión responsable de la empresa (véase el cuadro

Los indicadores de sostenibilidad miden cómo se alcanzan las características medioambientales o sociales que promueve el producto financiero.

anterior para consultar las actividades excluidas y los umbrales de exclusión aplicados), el fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente:

Actividades controvertidas (media ponderada de ingresos de la empresa, en %)*:

| | Fondo (%) | Índice de referencia (%) |
|--|-----------|--------------------------|
| Combustibles fósiles y energía nuclear | 0,62 | 6,41 |
| Armas | 0,01 | 0,01 |
| Otras actividades controvertidas | 0,02 | 0,08 |
| No aplicable: | 84,49 | 81,27 |
| No cubierto: | 2,76 | 1,09 |

* Los combustibles fósiles y la energía nuclear incluyen la extracción de carbón térmico y la generación de electricidad, la producción y extracción de petróleo y gas, la extracción de energía de esquisto, la exploración de petróleo y gas en los mares del Ártico y la generación de energía nuclear. Las armas incluyen la contratación militar (servicios de armas y relacionadas con estas), clientes civiles de armas pequeñas (armas de asalto/no asalto), clientes militares/de las fuerzas y cuerpos de seguridad de armas pequeñas y componentes clave de pequeñas armas. Otras actividades controvertidas incluyen la producción de tabaco, la producción de entretenimiento para adultos, la explotación de juegos de azar, el desarrollo o crecimiento de organismos modificados genéticamente, la producción o venta al por menor de pesticidas. La exposición se basa en datos de terceros y puede no reflejar nuestro punto de vista interno. Pictet Asset Management tiene plena discreción sobre la aplicación de los criterios de exclusión y se reserva el derecho de apartarse de la información de terceros, según el caso, cuando se considere incorrecta o incompleta.

Fuente: Pictet Asset Management, Sustainalytics.

Además, el fondo excluyó a los emisores que tenían exposición a:

- (i) PIA 10: Incumplimientos de los principios del Pacto Mundial de las Naciones Unidas y las Directrices para Empresas Multinacionales de la Organización para la Cooperación y el Desarrollo Económicos (OCDE).
- (ii) PIA 14: Exposición a armas controvertidas (minas antipersonas, municiones en racimo, armas químicas y armas biológicas)

● Interacción

El fondo se implicó con 6 emisores soberanos sobre cuestiones ASG (datos a 30.09.2023).

Fuente: Pictet Asset Management.

● ¿... y en comparación con períodos anteriores?

Esta cuestión se abordará en futuros informes anuales debido a la falta de historial.

● ¿Cuáles han sido los objetivos de las inversiones sostenibles que ha realizado en parte el producto financiero y de qué forma ha contribuido la inversión sostenible a dichos objetivos?

Pictet Asset Management utilizó marcos de referencia propios, así como los objetivos de la Taxonomía de la UE, para definir las inversiones sostenibles.

El fondo invirtió en valores que financiaban actividades económicas que contribuyeron sustancialmente a objetivos medioambientales y/o sociales como:

Medioambientales

- mitigación del cambio climático o adaptación al mismo
- uso sostenible y protección de los recursos hídricos y marinos
- transición hacia una economía circular
- prevención y control de la contaminación o
- protección y recuperación de la biodiversidad y los ecosistemas

Sociales

- comunidades inclusivas y sostenibles
- nivel de vida adecuado y bienestar para los usuarios finales o

- trabajo digno

● **¿De qué manera las inversiones sostenibles que el producto financiero ha realizado en parte, no han causado un perjuicio significativo a ningún objetivo de inversión sostenible medioambiental o social?**

Para evitar que las inversiones sostenibles causen un perjuicio significativo a cualquier otro objetivo medioambiental o social, el fondo aplicó los siguientes criterios de selección sobre la base del mejor esfuerzo:

(i) Exclusiones de emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente (véase la descripción del marco de exclusión de IR).

(ii) Los emisores asociados a controversias elevadas y graves no se contabilizaron como inversiones sostenibles.

La información se obtuvo de proveedores terceros y/o de análisis interno. La información ASG de terceros proveedores de datos puede haber sido incompleta, inexacta o no estar disponible. Como consecuencia de ello, existía el riesgo de que el Gestor de inversiones evaluara incorrectamente un valor o emisor, dando lugar a la inclusión o exclusión incorrecta de un valor en el fondo. Los datos ASG incompletos, inexactos o no disponibles también pueden actuar como una limitación metodológica a una estrategia de inversión no financiera (como la aplicación de criterios ASG o similares). En los casos identificados, el Gestor de inversiones trató de mitigar este riesgo mediante su propia evaluación. En caso de que las características ASG de un valor mantenido por el fondo cambiaran, dando lugar a la venta del valor, el Gestor de inversiones no acepta responsabilidad alguna en relación con dicho cambio.

● **¿Cómo se han tenido en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?**

Pictet Asset Management realiza un seguimiento de todos los indicadores obligatorios de principales incidencias adversas (incluidos en el Anexo 1 del Reglamento Delegado (UE) 22 / 1288 de la Comisión) cuando disponemos de datos sólidos. Se espera que la calidad de los datos disponibles mejore con el tiempo.

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas de sus inversiones en la sociedad y el medioambiente que se consideran importantes para la estrategia de inversión, mediante un conjunto de decisiones de gestión de cartera, actividades de propiedad activa y exclusión de emisores asociados a conductas o actividades controvertidas. Más información en el informe de PIA de la entidad, disponible en:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=es&bl=PAM>

● **¿Se han ajustado las inversiones sostenibles a las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios rectores de las Naciones Unidas sobre las empresas y los derechos humanos?**

Para garantizar que la inversión sostenible no causara un perjuicio significativo a ningún objetivo de inversión sostenible, el fondo excluyó a las empresas con infracciones elevadas y graves de (i) los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción o (ii) las Líneas Directrices de la OCDE para Empresas Multinacionales, incluidos los asuntos sociales y laborales graves.

La taxonomía de la UE establece el principio de «no causar un perjuicio significativo», según el cual las inversiones que se ajusten a la taxonomía no deben perjudicar significativamente a los objetivos de la taxonomía de la UE, e incluye criterios específicos de la Unión.

El principio de «no perjudicar de forma significativa» se aplica únicamente a las inversiones subyacentes del producto financiero que contemplan los criterios de la UE relativos a actividades económicas sostenibles desde una perspectiva medioambiental. Las inversiones subyacentes al resto del producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas medioambientalmente sostenibles.

Cualquier otra inversión sostenible tampoco debe perjudicar significativamente a ningún objetivo medioambiental o social.

Las principales incidencias adversas
son las incidencias negativas más importantes de las decisiones de inversión sobre los factores de sostenibilidad en relación con asuntos medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

¿Cómo tiene en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas que se consideran importantes para la estrategia de inversión. Entre las incidencias adversas se incluyeron, entre otras, las emisiones de gases de efecto invernadero (GEI), la contaminación atmosférica, la pérdida de biodiversidad, las emisiones al agua, los residuos peligrosos/radioactivos, las cuestiones sociales y laborales, y la corrupción y el soborno, que se abordaron mediante una combinación de:

(i) decisiones de gestión de carteras

El equipo de inversión puntuó las posiciones según una evaluación de los riesgos medioambientales, sociales y de gobernanza como parte del marco de puntuación del fondo. Los gestores de inversiones determinan las puntuaciones sobre una base cualitativa, basándose en el análisis fundamental y en datos cuantitativos ASG, incluidos los datos sobre la Principal incidencia adversa, los datos ASG facilitados por las empresas y los datos proporcionados por terceros proveedores de datos ASG. El proceso de puntuación del equipo de inversión fue un componente clave del proceso de construcción de la cartera del comportamiento, determinando las ponderaciones objetivo en la cartera.

(ii) implicación

La interacción con los emisores se realizó mediante conversaciones individuales, reuniones de accionistas/bonistas, giras de inversores y/o conferencias telefónicas.

Cuando corresponde, nos implicamos con las empresas en relación con cuestiones ASG importantes, como los objetivos de reducción de los GEI, las mejoras en la gobernanza y diversas controversias medioambientales, sociales y de gobernanza, para asegurarnos de que las entendieran y las abordaran eficazmente a corto, medio y largo plazo. Nuestras actividades de implicación combinaron debates dirigidos a nivel interno e iniciativas de colaboración con inversores institucionales.

(iii) exclusión de emisores asociados a conductas o actividades controvertidas

El fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se definen en la Política de Inversión responsable de la Pictet Asset Management y/o (ii) empresas que infringieron gravemente los principios del Pacto Mundial de la ONU sobre derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción y las armas controvertidas, o (iii) países sujetos a sanciones internacionales; véase también la información detallada sobre las exclusiones que figura en la Política de Inversión responsable de Pictet Asset Management.

¿Cuáles han sido las inversiones principales de este producto financiero?

La lista incluye las inversiones que constituyen la mayor parte de las inversiones del producto financiero durante el período de referencia, que es: 01.10.2022 - 30.09.2023

| INVERSIONES DE MAYOR VOLUMEN | SECTOR | % DE ACTIVOS | PAÍS |

Fuente: Pictet Asset Management, Merrill Lynch.

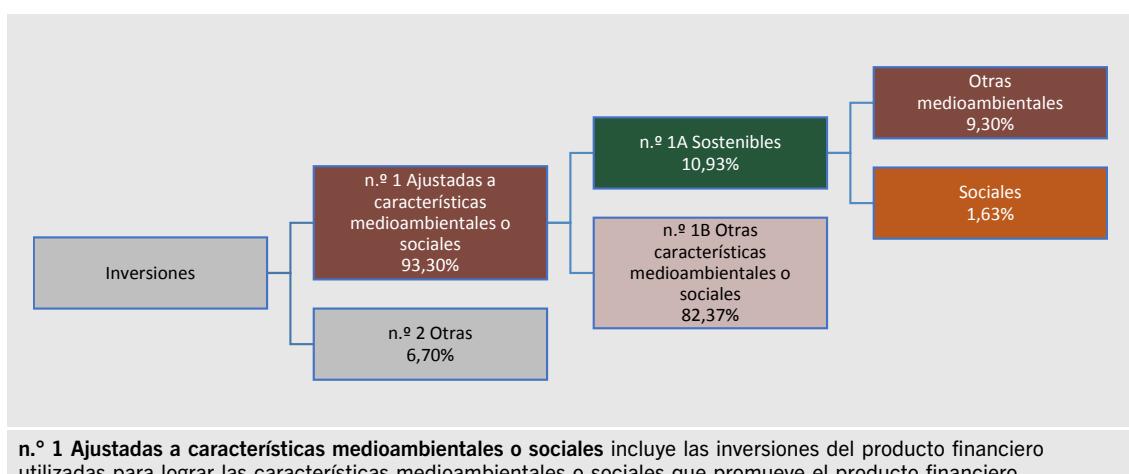

¿Cuál ha sido la proporción de inversiones relacionadas con la sostenibilidad?

10,93%

La asignación de activos describe el porcentaje de inversiones en activos específicos.

● ¿Cuál ha sido la asignación de activos?

El fondo se ajustó en un 93,30% con características medioambientales o sociales (n.º 1 Ajustadas a características medioambientales o sociales) y tuvo hasta un 6,70% invertido en la categoría Otras (n.º 2 Otras). El 10,93% se asignó a inversiones sostenibles (n.º 1A Sostenibles) y el resto se invirtió en inversiones ajustadas a otras características medioambientales o sociales (n.º 1B Otras características medioambientales o sociales).

n.º 1 Ajustadas a características medioambientales o sociales incluye las inversiones del producto financiero utilizadas para lograr las características medioambientales o sociales que promueve el producto financiero.

n.º 2 Otras incluye el resto de inversiones del producto financiero que ni se ajustan a las características medioambientales o sociales ni pueden considerarse inversiones sostenibles.

La categoría **n.º 1 Ajustadas a características medioambientales o sociales** abarca:

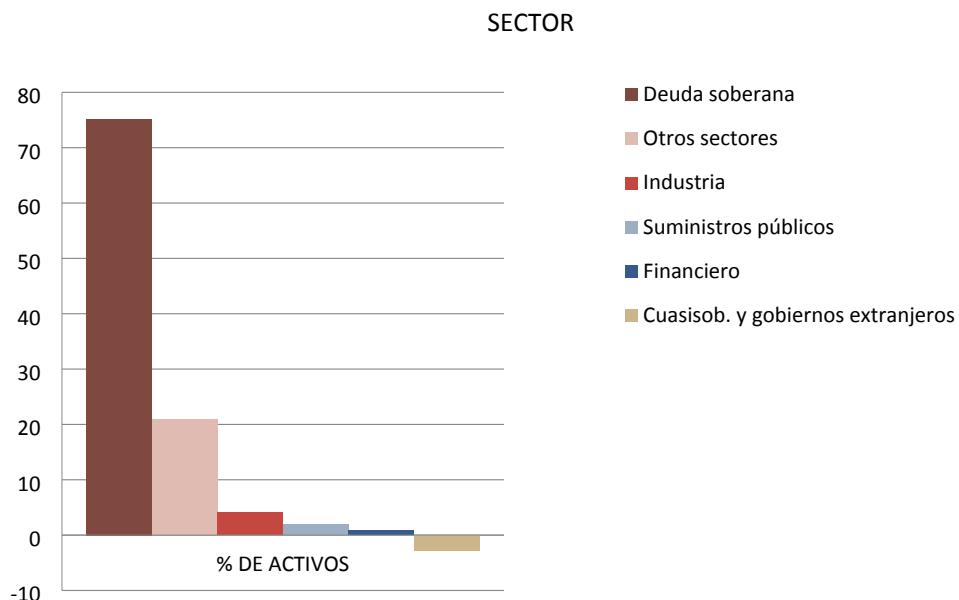

- la subcategoría **n.º 1A Sostenibles**, que abarca las inversiones sostenibles con objetivos medioambientales o sociales.
- la subcategoría **n.º 1B Otras características medioambientales o sociales**, que abarca inversiones ajustadas a las características medioambientales o sociales que no pueden considerarse inversiones sostenibles.

Notas:

- Las inversiones «n.º 1A Sostenibles», «Otras medioambientales» y «Sociales» se calcularon sobre una base de aprobado/suspenso. Incluyen bonos certificados (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.
- A falta de una taxonomía social de la UE, Pictet ha desarrollado un marco de taxonomía social propio. El marco se basa en basado en el Informe sobre taxonomía social publicado por la Plataforma de Finanzas Sostenibles de la UE en 2022. Las actividades admisibles se definen como bienes y servicios beneficiosos desde el punto de vista social que contribuyen sustancialmente a uno de los tres objetivos sociales siguientes: (1) comunidades inclusivas y sostenibles, (2) nivel de vida adecuado y bienestar para los usuarios finales y (3) trabajo digno.

Fuente: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RBICS.

● ¿En qué sectores económicos se han realizado las inversiones?

Fuente: Pictet Asset Management, Merrill Lynch.

Estamos evaluando la disponibilidad y la calidad de los datos que nos permitirían divulgar información más granular en futuros informes sobre los sectores y subsectores de la economía que obtienen ingresos a partir de la exploración, la minería, la extracción, la producción, el procesamiento, el almacenamiento, el refinado o la distribución, incluidos el transporte, el almacenamiento y el comercio, de combustibles fósiles, según se definen en el artículo 2, punto (62), del Reglamento (UE) 2018/1999 del Parlamento Europeo y del Consejo.

¿En qué medida se ajustaban las inversiones sostenibles con un objetivo medioambiental a la taxonomía de la UE?

No aplicable.

● ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil o la energía nuclear que cumplían con la taxonomía de la UE¹?

Sí:

En gas fósil En energía nuclear

No

Para ajustarse a la taxonomía de la UE, los criterios correspondientes al **gas fósil** incluyen limitaciones de emisiones y el paso a la energía renovable o combustibles bajos en carbono de aquí al fin de 2035. Por lo que respecta a la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

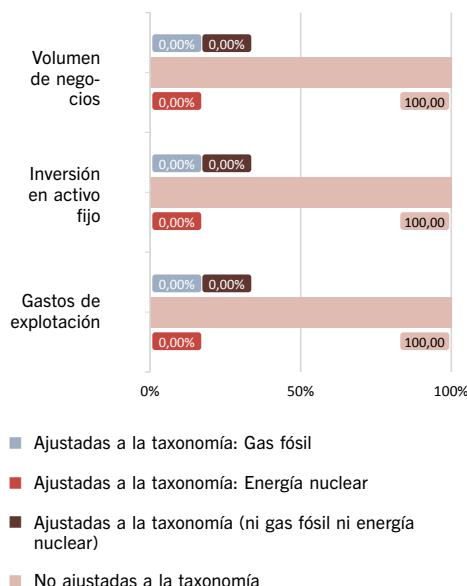

¹ Las actividades relacionadas con el gas fósil o la energía nuclear solo cumplirán la taxonomía de la UE cuando contribuyan a limitar el cambio climático («mitigación del cambio climático») y no perjudiquen significativamente ningún objetivo de la taxonomía de la UE (véase la nota explicativa en el margen izquierdo). Los criterios completos correspondientes a las actividades económicas del gas fósil y la energía nuclear que se ajustan a la taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

Las actividades que se ajustan a la taxonomía se expresan como un porcentaje de:

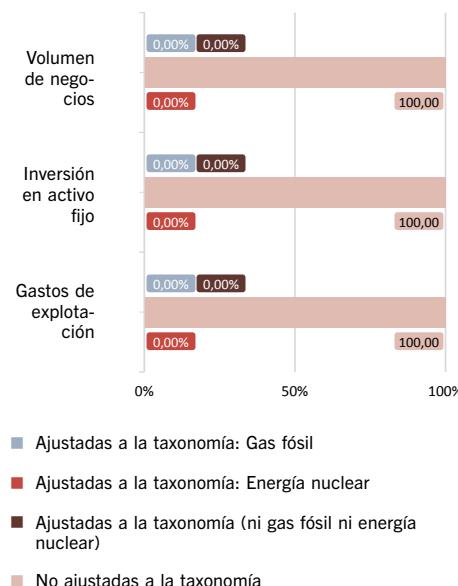

- el **volumen de negocios**, que refleja el «carácter ecológico» de las empresas en las que se invierte en la actualidad;
- la **inversión en activo fijo**, que muestra las inversiones ecológicas realizadas por las empresas en las que se invierte, pertinentes para la transición a una economía verde;
- los **gastos de explotación**, que reflejan las actividades operativas ecológicas de las empresas en las que se invierte.

Los gráficos que figuran a continuación muestran en verde el porcentaje de inversiones que se ajustaban a la taxonomía de la UE. Dado que no existe una metodología adecuada para determinar la adaptación a la taxonomía de los bonos soberanos*, el primer gráfico muestra la adaptación a la taxonomía correspondiente para todas las inversiones del producto financiero, incluidos los bonos soberanos, mientras que el segundo gráfico muestra la adaptación a la taxonomía solo en relación con las inversiones del producto financiero distintas de los bonos soberanos.

1. Ajuste a la taxonomía de las inversiones incluidos los bonos soberanos*

2. Ajuste a la taxonomía de las inversiones excluidos los bonos soberanos*

Este gráfico representa el 12,34% de las inversiones totales.

* A efectos de estos gráficos, los «bonos soberanos» incluyen todas las exposiciones soberanas

● ¿Cuál ha sido la proporción de las inversiones realizadas en actividades de transición y facilitadoras?

No aplicable.

● ¿Qué porcentaje de inversiones se han ajustado a la taxonomía de la UE en comparación con los períodos de referencia anteriores?

No aplicable.

¿Cuál ha sido la proporción de inversiones sostenibles con un objetivo medioambiental no ajustadas a la taxonomía de la UE?

9,30%

Estas inversiones sostenibles no se ajustan a la Taxonomía de la UE porque sus actividades económicas o bien (i) no están cubiertas por la Taxonomía de la UE, o bien (ii) no cumplen los criterios técnicos de selección para lograr una contribución sustancial en el sentido de la Taxonomía de la UE.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta los criterios para las actividades económicas medioambientalmente sostenibles con arreglo al Reglamento (UE) 2020/852.

¿Cuál ha sido la proporción de inversiones socialmente sostenibles?

1,63%

¿Qué inversiones se han incluido en «otras» y cuál ha sido su propósito? ¿ha habido garantías medioambientales o sociales mínimas?

Las «otras» inversiones del fondo incluían posiciones de tesorería mantenidas principalmente para satisfacer los objetivos diarios de liquidez y gestión de riesgos permitidos y previstos por la política de inversión del fondo. Cuando sea preciso, se aplicarán salvaguardias medioambientales o sociales mínimas a los valores subyacentes.

¿Qué medidas se han adoptado para cumplir las características medioambientales o sociales durante el período de referencia?

Durante el periodo de referencia, se alcanzó el objetivo de inversión sostenible siguiendo la estrategia de inversión y respetando los elementos vinculantes.

Los elementos vinculantes del fondo son:

- Exclusión de emisores que:
 - están relacionados con armas nucleares de países que no han firmado el Tratado sobre la No Proliferación de Armas Nucleares (TNP) y otras armas controvertidas
 - obtienen una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, como la extracción de carbón térmico y la generación de electricidad, la exploración y producción no convencional de petróleo y gas, la producción de petróleo y gas convencional, la generación de energía nuclear, las armas convencionales y armas pequeñas, la contratación militar de armas y productos y servicios relacionados con las armas, la producción de tabaco, la producción de entretenimiento para adultos, las actividades del juego, el desarrollo y crecimiento de organismos modificados genéticamente, la producción y comercialización de pesticidas. Para más detalles sobre los umbrales de exclusión aplicables a las actividades anteriores, consulte la Política de Inversión responsable de Pictet Asset Management.
 - incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción
- exclusiones de países sujetos a sanciones internacionales
- análisis de criterios ASG de los valores admisibles que abarca al menos el 90% del patrimonio neto o el número de emisores incluidos en la cartera

El fondo se implicó con 6 emisores soberanos sobre cuestiones ASG (datos a 30.09.2023).

¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

Los índices de referencia son índices para medir si el producto financiero logra las características medioambientales o sociales que promueve.

● ¿Cómo difería el índice de referencia de un índice general de mercado?

No aplicable.

● ¿Cómo se ha comportado este producto financiero con respecto a los indicadores de sostenibilidad para determinar la conformidad del índice de referencia con las características medioambientales o sociales que promueve?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice general de mercado?

No aplicable.

01.10.2022 - 30.09.2023

Plantilla de información periódica de los productos financieros a que se refiere el artículo 8, apartados 1, 2 y 2 bis, del Reglamento (UE) 2019/2088 y el artículo 6, párrafo primero, del Reglamento (UE) 2020/852

Nombre del producto: **Pictet - Global Bonds**

Identificador de entidad jurídica: **5493009TDSBRGGNYLX39**

CARACTERÍSTICAS MEDIOAMBIENTALES O SOCIALES

Inversión sostenible significa una inversión en una actividad económica que contribuye a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo a ningún objetivo medioambiental o social y que las empresas en las que se invierte sigan prácticas de buena gobernanza.

La **taxonomía de la UE** es un sistema de clasificación previsto en el Reglamento (UE) 2020/852 por el que se establece una lista de **actividades económicas medioambientalmente sostenibles**. Dicho Reglamento no prevé una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental pueden ajustarse, o no, a la taxonomía.

| ¿ESTE PRODUCTO FINANCIERO TENÍA UN OBJETIVO DE INVERSIÓN SOSTENIBLE? | | | |
|--|--|-------------------------------------|--|
| | <input type="checkbox"/> Si | | <input checked="" type="checkbox"/> No |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo medioambiental: ____% | <input checked="" type="checkbox"/> | Promovió características medioambientales o sociales y, aunque no tenía como objetivo una inversión sostenible, tuvo un porcentaje del 11,47% de inversiones sostenibles |
| <input type="checkbox"/> | en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> | con un objetivo medioambiental en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> | en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> | con un objetivo medioambiental en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo social: ____% | <input type="checkbox"/> | con un objetivo social |
| <input type="checkbox"/> | | <input type="checkbox"/> | Ha promovido características medioambientales o sociales, pero no ha realizado ninguna inversión sostenible |

Nota: Las inversiones sostenibles se calcularon sobre una base de aprobado/suspenso, incluyendo bonos con etiqueta (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% (medida por ingresos, EBIT, valor de empresa o indicadores similares) a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.

¿En qué grado se han cumplido las características medioambientales o sociales que promueve este producto financiero?

Las características medioambientales y sociales de este producto financiero se promovieron utilizando:

- Inclinación positiva:

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos y, como resultado, los valores que mantiene tuvieron un perfil medioambiental, social y de gobernanza (ASG) mejor que el del índice de referencia. El índice FTSE WBGI All Maturities se utilizó para medir la inclinación positiva; sin embargo, no se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

- Exclusiones basadas en normas y valores:

El fondo excluyó los emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente o que incumplen de forma grave las normas internacionales, según se detalla a continuación:

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

Actividad

Umbrales de ingresos

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

| | |
|---|------------------------------------|
| Combustibles fósiles y energía nuclear | |
| Extracción de carbón térmico | > 25% |
| Generación de energía térmica de carbón | > 25% |
| Extracción de arenas bituminosas | > 25% |
| Extracción de energía de esquisto | > 25% |
| Exploración de petróleo y gas en el Ártico | > 10% |
| Armas | |
| Producción de armas controvertidas ^[1] | > 0% |
| Armas de contratación militar | > 10% |
| Clientes civiles de armas pequeñas (armas de asalto) | > 10% |
| Clientes civiles de armas pequeñas (armas de no asalto) | > 10% |
| Clientes militares/de fuerzas del orden de armas pequeñas | > 25% |
| Componentes clave de armas pequeñas | > 25% |
| Otras actividades controvertidas | |
| Producción de entretenimiento para adultos | > 10% |
| Operaciones de juego | > 10% |
| Producción de productos de tabaco | > 10% |
| Exclusiones de empresas por incumplimiento de normas internacionales | Excluidas |
| Empresas que incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción | Sí |
| Exclusiones de países | Excluidas |
| Países (i) incluidos en la lista de Estados patrocinadores del terrorismo, según la definición de la Oficina de Control de Activos Extranjeros de EE. UU. ^[2] o (ii) sujetos a sanciones financieras de la UE contra bancos centrales y/o empresas de propiedad estatal. | Sí |
| Países (i) clasificados como de muy alto o alto riesgo en el Índice de Estados Frágiles o (ii) afectados por conflictos violentos según la definición del Banco Mundial. | Sí |
| Países (i) incluidos en la lista de «alerta» del Índice de Estados Frágiles o (ii) sujetos a sanciones relacionadas con la exportación por parte de la UE. | Lista de vigilancia ^[3] |

^[1] Entre las armas controvertidas se encuentran las minas antipersona, las municiones de racimo, las armas biológicas y químicas (incluido el fósforo blanco) y las armas nucleares procedentes de países no firmantes del Tratado de No Proliferación de Armas Nucleares (TNP).

^[2] «Estado patrocinador del terrorismo» es una designación aplicada por el Departamento de Estado de Estados Unidos a países que repetidamente han prestado apoyo a actos de terrorismo internacional.

^[3] Además de las exclusiones estrictas, Pictet Asset Management mantiene una lista de vigilancia que incluye países que requieren una diligencia debida adicional por parte de los equipos de inversión antes de invertir.

Para más detalles, consulte la Política de Inversión responsable de Pictet Asset Management (Anexo B).

- Titularidad activa:

El fondo se implicó con la dirección de las empresas sobre cuestiones ASG importantes.

● **¿Cómo se han comportado los indicadores de sostenibilidad?**

Durante el periodo de información, los indicadores de sostenibilidad se comportaron según se indica a continuación:

• **Perfil ASG global**

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos.

Como resultado, el fondo ha conseguido un perfil ambiental, social y de gobernanza (ASG) mejor que el del índice de referencia.

- **Principal incidencia adversa (PIA)**

El fondo utiliza una combinación de enfoques para considerar y, en la medida de lo posible, mitigar las incidencias adversas materiales de nuestras inversiones en la sociedad y el medioambiente, como emisiones de GEI, contaminación atmosférica, pérdida de biodiversidad, emisiones al agua, residuos peligrosos/radioactivos, derechos humanos, normas laborales, corrupción y soborno, y salud pública.

El grado y la forma en que estas incidencias se tuvieron en cuenta dependieron de factores como el contexto específico de la inversión que provoca la incidencia adversa o la disponibilidad de datos fiables.

De conformidad con la política de exclusión de Pictet Asset Management descrita en la Política de Inversión responsable de la empresa (véase el cuadro anterior para consultar las actividades excluidas y los umbrales de exclusión aplicados), el fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente:

Actividades controvertidas (media ponderada de ingresos de la empresa, en %)*:

| | Fondo (%) | Índice de referencia (%) |
|--|-----------|--------------------------|
| Combustibles fósiles y energía nuclear | 0,39 | 0,00 |
| Armas | 0,00 | 0,00 |
| Otras actividades controvertidas | 0,01 | 0,00 |
| No aplicable: | 87,12 | 100,00 |
| No cubierto: | 0,71 | 0,00 |

* Los combustibles fósiles y la energía nuclear incluyen la extracción de carbón térmico y la generación de electricidad, la producción y extracción de petróleo y gas, la extracción de energía de esquisto, la exploración de petróleo y gas en los mares del Ártico y la generación de energía nuclear. Las armas incluyen la contratación militar (servicios de armas y relacionadas con estas), clientes civiles de armas pequeñas (armas de asalto/ho asalto), clientes militares/de las fuerzas y cuerpos de seguridad de armas pequeñas y componentes clave de pequeñas armas. Otras actividades controvertidas incluyen la producción de tabaco, la producción de entretenimiento para adultos, la explotación de juegos de azar, el desarrollo o crecimiento de organismos modificados genéticamente, la producción o venta al por menor de pesticidas. La exposición se basa en datos de terceros y puede no reflejar nuestro punto de vista interno. Pictet Asset Management tiene plena discreción sobre la aplicación de los criterios de exclusión y se reserva el derecho de apartarse de la información de terceros, según el caso, cuando se considere incorrecta o incompleta.

Fuente: Pictet Asset Management, Sustainalytics.

Además, el fondo excluyó a los emisores que tenían exposición a:

(i) PIA 10: Incumplimientos de los principios del Pacto Mundial de las Naciones Unidas y las Directrices para Empresas Multinacionales de la Organización para la Cooperación y el Desarrollo Económicos (OCDE).

(ii) PIA 14: Exposición a armas controvertidas (minas antipersonas, municiones en racimo, armas químicas y armas biológicas)

- **Interacción**

El fondo se implicó con 10 empresas sobre cuestiones ASG (datos a 30.09.2023). Esto incluye diálogos internos, iniciativas de colaboración entre inversores y servicios de implicación de terceros. Para que se considere implicación, el diálogo con una empresa objetivo debe tener un objetivo claro y mensurable en un horizonte temporal predefinido. Es importante señalar que no todas las interacciones rutinarias o de supervisión, aunque impliquen a la alta dirección o al Consejo de administración, se consideran implicaciones en nuestra evaluación.

Fuente: Pictet Asset Management, Sustainalytics.

- **¿... y en comparación con períodos anteriores?**

Esta cuestión se abordará en futuros informes anuales debido a la falta de historial.

● **¿Cuáles han sido los objetivos de las inversiones sostenibles que ha realizado en parte el producto financiero y de qué forma ha contribuido la inversión sostenible a dichos objetivos?**

El fondo no se comprometió a un porcentaje mínimo de inversiones sostenibles.

Sin embargo, *a posteriori*, el fondo invirtió en valores que financian actividades económicas que contribuyeron sustancialmente a objetivos medioambientales y/o sociales como:

Medioambientales

- mitigación del cambio climático o adaptación al mismo
- uso sostenible y protección de los recursos hídricos y marinos
- transición hacia una economía circular
- prevención y control de la contaminación o
- protección y recuperación de la biodiversidad y los ecosistemas

Sociales

- comunidades inclusivas y sostenibles
- nivel de vida adecuado y bienestar para los usuarios finales o
- trabajo digno

Pictet Asset Management utilizó un marco de referencia propio, así como los objetivos de la Taxonomía de la UE, para definir las inversiones sostenibles.

● **¿De qué manera las inversiones sostenibles que el producto financiero ha realizado en parte, no han causado un perjuicio significativo a ningún objetivo de inversión sostenible medioambiental o social?**

Para evitar que las inversiones sostenibles causen un perjuicio significativo a cualquier otro objetivo medioambiental o social, el fondo aplicó los siguientes criterios de selección sobre la base del mejor esfuerzo:

- (i) Exclusiones de emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente (véase la descripción del marco de exclusión de IR).
- (ii) Los emisores asociados a controversias elevadas y graves no se contabilizaron como inversiones sostenibles.

La información se obtuvo de proveedores terceros y/o de análisis interno. La información ASG de terceros proveedores de datos puede haber sido incompleta, inexacta o no estar disponible. Como consecuencia de ello, existía el riesgo de que el Gestor de inversiones evaluara incorrectamente un valor o emisor, dando lugar a la inclusión o exclusión incorrecta de un valor en el fondo. Los datos ASG incompletos, inexactos o no disponibles también pueden actuar como una limitación metodológica a una estrategia de inversión no financiera (como la aplicación de criterios ASG o similares). En los casos identificados, el Gestor de inversiones trató de mitigar este riesgo mediante su propia evaluación. En caso de que las características ASG de un valor mantenido por el fondo cambiaran, dando lugar a la venta del valor, el Gestor de inversiones no acepta responsabilidad alguna en relación con dicho cambio.

● **¿Cómo se han tenido en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?**

Pictet Asset Management realiza un seguimiento de todos los indicadores obligatorios de principales incidencias adversas (incluidos en el Anexo 1 del Reglamento Delegado (UE) 22 / 1288 de la Comisión) cuando disponemos de datos sólidos. Se espera que la calidad de los datos disponibles mejore con el tiempo.

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas de sus inversiones en la sociedad y el medioambiente que se consideran importantes para la estrategia de inversión, mediante un conjunto de decisiones de gestión de cartera, actividades de propiedad activa y exclusión de emisores asociados a conductas o actividades controvertidas. Más información en el informe de PIA de la entidad, disponible en:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=es&bl=PAM>

Las principales incidencias adversas son las incidencias negativas más importantes de las decisiones de inversión sobre los factores de sostenibilidad en relación con asuntos medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

- ¿Se han ajustado las inversiones sostenibles a las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios rectores de las Naciones Unidas sobre las empresas y los derechos humanos?

Para garantizar que la inversión sostenible no causara un perjuicio significativo a ningún objetivo de inversión sostenible, el fondo excluyó a las empresas con infracciones elevadas y graves de (i) los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción o (ii) las Líneas Directrices de la OCDE para Empresas Multinacionales, incluidos los asuntos sociales y laborales graves.

La taxonomía de la UE establece el principio de «no causar un perjuicio significativo», según el cual las inversiones que se ajusten a la taxonomía no deben perjudicar significativamente a los objetivos de la taxonomía de la UE, e incluye criterios específicos de la Unión.

El principio de «no perjudicar de forma significativa» se aplica únicamente a las inversiones subyacentes del producto financiero que contemplan los criterios de la UE relativos a actividades económicas sostenibles desde una perspectiva medioambiental. Las inversiones subyacentes al resto del producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas medioambientalmente sostenibles.

Cualquier otra inversión sostenible tampoco debe perjudicar significativamente a ningún objetivo medioambiental o social.

¿Cómo tiene en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas que se consideran importantes para la estrategia de inversión. Estas incidencias adversas se abordaron mediante una combinación de:

(i) decisiones de gestión de carteras

El equipo de inversión evaluó sus posiciones corporativas con arreglo a un análisis de los riesgos medioambientales, sociales y de gobernanza como parte del marco de inversión del fondo. Los gestores de inversiones, basándose en análisis interno y de terceros, incluidos los datos cuantitativos ASG incluidos los datos sobre la Principal incidencia adversa , los datos ASG facilitados por las empresas y los datos proporcionados por terceros proveedores de datos ASG. El análisis del equipo de inversión fue un componente clave del proceso de construcción de la cartera del comportamiento, determinando las ponderaciones objetivo en la cartera para lograr una inclinación positiva de la misma.

(ii) implicación

La interacción con los emisores se realizó mediante conversaciones individuales, reuniones de accionistas/bonistas, giras de inversores y/o conferencias telefónicas en colaboración con otros equipos de inversión y terceros. Los objetivos de estas interacciones fueron evaluar una organización, supervisar que su estrategia se estaba aplicando conforme a nuestras expectativas y garantizar que los emisores iban camino de cumplir sus metas y objetivos.

Cuando corresponde, nos implicamos con las empresas en relación con cuestiones ASG importantes, como los objetivos de reducción de los GEI, las mejoras en la gobernanza y diversas controversias medioambientales, sociales y de gobernanza, para asegurarnos de que las entendieran y las abordaran eficazmente a corto, medio y largo plazo. Nuestras actividades de implicación combinaron debates dirigidos a nivel interno, iniciativas de colaboración con inversores institucionales y servicios de implicación externos.

(iii) exclusión de emisores asociados a conductas o actividades controvertidas

El fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se definen en la Política de Inversión responsable de la Pictet Asset Management y/o (ii) empresas que infringieron gravemente los principios del Pacto Mundial de la ONU sobre derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción y las armas controvertidas, o (iii) países sujetos a sanciones internacionales; véase también la información detallada sobre las exclusiones que figura en la Política de Inversión responsable de Pictet Asset Management.

¿Cuáles han sido las inversiones principales de este producto financiero?

La lista incluye las inversiones que constituyen la **mayor parte de las inversiones** del producto financiero durante el período de referencia, que es: 01.10.2022 - 30.09.2023

| INVERSIONES DE MAYOR VOLUMEN | SECTOR | % DE ACTIVOS | PAÍS |

¿Cuál ha sido la proporción de inversiones relacionadas con la sostenibilidad?

11,47%

La asignación de activos describe el porcentaje de inversiones en activos específicos.

¿Cuál ha sido la asignación de activos?

El fondo se ajustó en un 93,72% con características medioambientales o sociales (n.º 1 Ajustadas a características medioambientales o sociales) y tuvo hasta un 6,28% invertido en la categoría Otras (n.º 2 Otras). El 11,47% se asignó a inversiones sostenibles (n.º 1A Sostenibles) y el resto se invirtió en inversiones ajustadas a otras características medioambientales o sociales (n.º 1B Otras características medioambientales o sociales).

n.º 1 Ajustadas a características medioambientales o sociales incluye las inversiones del producto financiero utilizadas para lograr las características medioambientales o sociales que promueve el producto financiero.

n.º 2 Otras incluye el resto de inversiones del producto financiero que ni se ajustan a las características medioambientales o sociales ni pueden considerarse inversiones sostenibles.

La categoría n.º 1 Ajustadas a características medioambientales o sociales abarca:

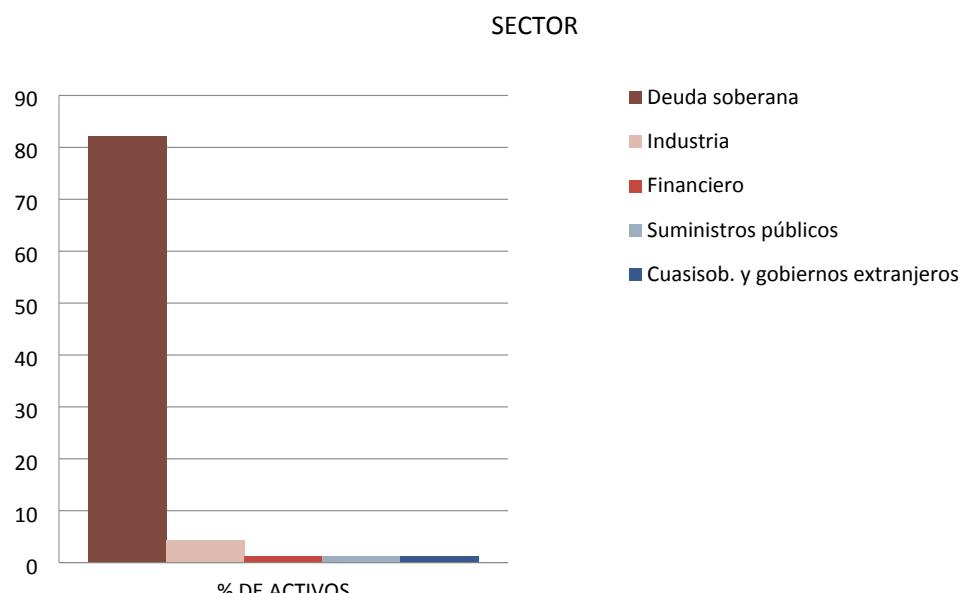

- la subcategoría n.º **1A Sostenibles**, que abarca las inversiones sostenibles con objetivos medioambientales o sociales.
- la subcategoría n.º **1B Otras características medioambientales o sociales**, que abarca inversiones ajustadas a las características medioambientales o sociales que no pueden considerarse inversiones sostenibles.

Notas:

- Las inversiones «n.º 1A Sostenibles», «Otras medioambientales» y «Sociales» se calcularon sobre una base de aprobado/suspenso. Incluyen bonos certificados (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.
- Las inversiones ajustadas a la taxonomía verde de la UE se calculan ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a la mitigación del cambio climático y la adaptación al mismo) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.
- A falta de una taxonomía social de la UE, Pictet ha desarrollado un marco de taxonomía social propio. El marco se basa en basado en el Informe sobre taxonomía social publicado por la Plataforma de Finanzas Sostenibles de la UE en 2022. Las actividades admisibles se definen como bienes y servicios beneficiosos desde el punto de vista social que contribuyen sustancialmente a uno de los tres objetivos sociales siguientes: (1) comunidades inclusivas y sostenibles, (2) nivel de vida adecuado y bienestar para los usuarios finales y (3) trabajo digno.

Fuente: *Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RBICS*.

● ¿En qué sectores económicos se han realizado las inversiones?

Fuente: *Pictet Asset Management, Merrill Lynch*.

Estamos evaluando la disponibilidad y la calidad de los datos que nos permitirían divulgar información más granular en futuros informes sobre los sectores y subsectores de la economía que obtienen ingresos a partir de la exploración, la minería, la extracción, la producción, el procesamiento, el almacenamiento, el refinado o la distribución, incluidos el transporte, el almacenamiento y el comercio, de combustibles fósiles, según se definen en el artículo 2, punto (62), del Reglamento (UE) 2018/1999 del Parlamento Europeo y del Consejo.

¿En qué medida se ajustaban las inversiones sostenibles con un objetivo medioambiental a la taxonomía de la UE?

El fondo realizó inversiones en actividades económicas que contribuyeron a los dos primeros objetivos medioambientales (mitigación del cambio climático y adaptación a este), según lo establecido en el artículo 9 del Reglamento (UE) 2020/852.

Las inversiones ajustadas a la taxonomía de la UE se calcularon ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a objetivos medioambientales relevantes) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.

Los datos de ajuste a la Taxonomía verde de la UE proceden de informes públicos. Los cálculos también pueden incluir estimaciones en un número limitado de casos en los que no se disponía de datos sobre la alineación con la Taxonomía verde de la UE. Las estimaciones se realizaron sobre la base del mejor esfuerzo y siguiendo un planteamiento conservador para obtener un resultado prudente.

Los procedimientos de control se han aplicado para verificar en todo momento el cumplimiento del artículo 3 del Reglamento sobre taxonomía de la UE.

Los datos facilitados no han sido verificados por un auditor externo ni revisados por un tercero independiente.

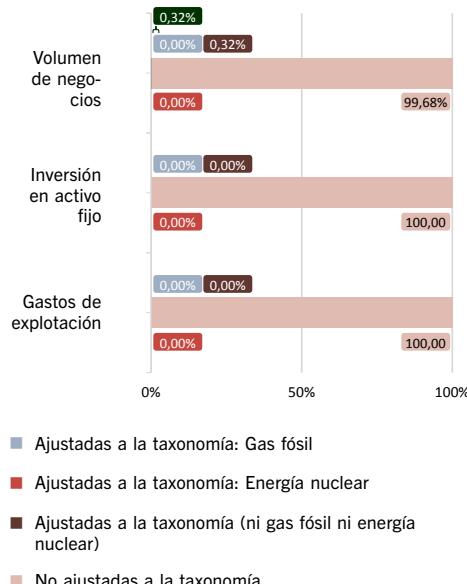

Para ajustarse a la taxonomía de la UE, los criterios correspondientes al **gas fósil** incluyen limitaciones de emisiones y el paso a la energía renovable o combustibles bajos en carbono de aquí al fin de 2035. Por lo que respecta a la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las actividades que se ajustan a la taxonomía se expresan como un porcentaje de:

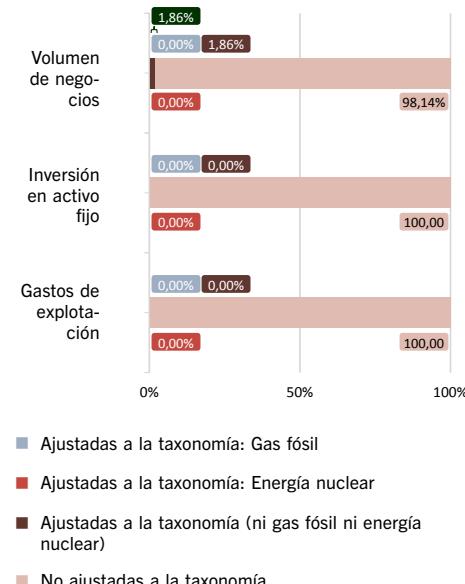

- el **volumen de negocios**, que refleja el «carácter ecológico» de las empresas en las que se invierte en la actualidad;
- la **inversión en activo fijo**, que muestra las inversiones ecológicas realizadas por las empresas en las que se invierte, pertinentes para la transición a una economía verde;
- los **gastos de explotación**, que reflejan las actividades operativas ecológicas de las empresas en las que se invierte.

Los gráficos que figuran a continuación muestran en verde el porcentaje de inversiones que se ajustaban a la taxonomía de la UE. Dado que no existe una metodología adecuada para determinar la adaptación a la taxonomía de los bonos soberanos, el primer gráfico muestra la adaptación a la taxonomía correspondiente para todas las inversiones del producto financiero, incluidos los bonos soberanos, mientras que el segundo gráfico muestra la adaptación a la taxonomía solo en relación con las inversiones del producto financiero distintas de los bonos soberanos.*

1. Ajuste a la taxonomía de las inversiones incluidos los bonos soberanos*

2. Ajuste a la taxonomía de las inversiones excluidos los bonos soberanos*

Este gráfico representa el 18,04% de las inversiones totales.

* A efectos de estos gráficos, los «bonos soberanos» incluyen todas las exposiciones soberanas

¹ Las actividades relacionadas con el gas fósil o la energía nuclear solo cumplirán la taxonomía de la UE cuando contribuyan a limitar el cambio climático («mitigación del cambio climático») y no perjudiquen significativamente ningún objetivo de la taxonomía de la UE (véase la nota explicativa en el margen izquierdo). Los criterios completos correspondientes a las actividades económicas del gas fósil y la energía nuclear que se ajustan a la taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

Nota:

Utilizamos los ingresos como medida clave para establecer la asignación de objetivos y el ajuste real con la taxonomía de la UE debido a la disponibilidad limitada y a la falta de datos fiables para los gastos de explotación y la inversión en activo fijo.

Fuente: Pictet Asset Management.

● **¿Cuál ha sido la proporción de las inversiones realizadas en actividades de transición y facilitadoras?**

La proporción de inversiones realizadas en:

- Actividades de transición: No aplicable*
- Actividades de facilitadoras: No aplicable*

* La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permiten ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

● **¿Qué porcentaje de inversiones se han ajustado a la taxonomía de la UE en comparación con los períodos de referencia anteriores?**

No aplicable.

¿Cuál ha sido la proporción de inversiones sostenibles con un objetivo medioambiental no ajustadas a la taxonomía de la UE?

9,46%

Estas inversiones sostenibles no se ajustan a la Taxonomía de la UE porque sus actividades económicas o bien (i) no están cubiertas por la Taxonomía de la UE, o bien (ii) no cumplen los criterios técnicos de selección para lograr una contribución sustancial en el sentido de la Taxonomía de la UE.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta los criterios para las actividades económicas medioambientalmente sostenibles con arreglo al Reglamento (UE) 2020/852.

¿Cuál ha sido la proporción de inversiones socialmente sostenibles?

2,01%

¿Qué inversiones se han incluido en «otras» y cuál ha sido su propósito? ¿ha habido garantías medioambientales o sociales mínimas?

Las «otras» inversiones del fondo incluían posiciones de tesorería mantenidas principalmente para satisfacer los objetivos diarios de liquidez y gestión de riesgos permitidos y previstos por la política de inversión del fondo. Cuando sea preciso, se aplicarán salvaguardias medioambientales o sociales mínimas a los valores subyacentes.

¿Qué medidas se han adoptado para cumplir las características medioambientales o sociales durante el período de referencia?

Durante el periodo de referencia, se alcanzó el objetivo de inversión sostenible siguiendo la estrategia de inversión y respetando los elementos vinculantes.

Los elementos vinculantes del fondo son:

- Exclusión de emisores que:
 - están relacionados con armas nucleares de países que no han firmado el Tratado sobre la No Proliferación de Armas Nucleares (TNP) y otras armas controvertidas
 - obtienen una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, como la extracción de carbón térmico y la generación de electricidad, la exploración y producción no convencional de petróleo y gas, las armas convencionales y armas

pequeñas, las armas de contratación militar, la producción de tabaco, la producción de entretenimiento para adultos y las actividades del juego. Para más detalles sobre los umbrales de exclusión aplicables a las actividades anteriores, consulte la Política de Inversión responsable de Pictet Asset Management.

- incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción
- exclusiones de países sujetos a sanciones internacionales
- un perfil ASG mejor que el del universo de inversión
- análisis de criterios ASG de los valores admisibles que abarca al menos el 90% del patrimonio neto o el número de emisores incluidos en la cartera

Además, el fondo se implicó con 10 empresas a 30.09.2023.

¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

Los índices de referencia son índices para medir si el producto financiero logra las características medioambientales o sociales que promueve.

● ¿Cómo difería el índice de referencia de un índice general de mercado?

No aplicable.

● ¿Cómo se ha comportado este producto financiero con respecto a los indicadores de sostenibilidad para determinar la conformidad del índice de referencia con las características medioambientales o sociales que promueve?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice general de mercado?

No aplicable.

Plantilla de información periódica de los productos financieros a que se refiere el artículo 8, apartados 1, 2 y 2 bis, del Reglamento (UE) 2019/2088 y el artículo 6, párrafo primero, del Reglamento (UE) 2020/852

Nombre del producto: **Pictet - CHF Bonds**

Identificador de entidad jurídica: **549300640RZPBDXPBN65**

CARACTERÍSTICAS MEDIOAMBIENTALES O SOCIALES

Inversión sostenible
significa una inversión en una actividad económica que contribuye a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo a ningún objetivo medioambiental o social y que las empresas en las que se invierte sigan prácticas de buena gobernanza.

La **taxonomía de la UE** es un sistema de clasificación previsto en el Reglamento (UE) 2020/852 por el que se establece una lista de **actividades económicas medioambientalmente sostenibles**. Dicho Reglamento no prevé una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental pueden ajustarse, o no, a la taxonomía.

| ¿ESTE PRODUCTO FINANCIERO TENÍA UN OBJETIVO DE INVERSIÓN SOSTENIBLE? | | | |
|--|--|--|--|
| ● ● <input type="checkbox"/> Si | | ● ● <input checked="" type="checkbox"/> No | |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo medioambiental: ____% | <input checked="" type="checkbox"/> | Promovió características medioambientales o sociales y, aunque no tenía como objetivo una inversión sostenible, tuvo un porcentaje del 24,74% de inversiones sostenibles |
| <input type="checkbox"/> | en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> | con un objetivo medioambiental en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> | en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> | con un objetivo medioambiental en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo social: ____% | <input type="checkbox"/> | con un objetivo social |
| <input type="checkbox"/> | | <input type="checkbox"/> | Ha promovido características medioambientales o sociales, pero no ha realizado ninguna inversión sostenible |

Nota: Las inversiones sostenibles se calcularon sobre una base de aprobado/suspenso, incluyendo bonos con etiqueta (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% (medida por ingresos, EBIT, valor de empresa o indicadores similares) a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.

¿En qué grado se han cumplido las características medioambientales o sociales que promueve este producto financiero?

Las características medioambientales y sociales de este producto financiero se promovieron utilizando:

- Inclinación positiva:

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos y, como resultado, tuvo un perfil medioambiental, social y de gobernanza (ASG) mejor que el del índice de referencia. El Swiss Bond Index Foreign AAA-BBB se utilizó para medir la inclinación positiva; sin embargo, no se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

- Exclusiones basadas en normas y valores:

El fondo excluyó los emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente o que incumplen de forma grave las normas internacionales, según se detalla a continuación:

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

Actividad

Umbrales de ingresos

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

| | |
|---|------------------------------------|
| Combustibles fósiles y energía nuclear | |
| Extracción de carbón térmico | > 25% |
| Generación de energía térmica de carbón | > 25% |
| Extracción de arenas bituminosas | > 25% |
| Extracción de energía de esquisto | > 25% |
| Exploración de petróleo y gas en el Ártico | > 10% |
| Armas | |
| Producción de armas controvertidas ^[1] | > 0% |
| Armas de contratación militar | > 10% |
| Clientes civiles de armas pequeñas (armas de asalto) | > 10% |
| Clientes civiles de armas pequeñas (armas de no asalto) | > 10% |
| Clientes militares/de fuerzas del orden de armas pequeñas | > 25% |
| Componentes clave de armas pequeñas | > 25% |
| Otras actividades controvertidas | |
| Producción de entretenimiento para adultos | > 10% |
| Operaciones de juego | > 10% |
| Producción de productos de tabaco | > 10% |
| Exclusiones de empresas por incumplimiento de normas internacionales | Excluidas |
| Empresas que incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción | Sí |
| Exclusiones de países | Excluidas |
| Países (i) incluidos en la lista de Estados patrocinadores del terrorismo, según la definición de la Oficina de Control de Activos Extranjeros de EE. UU. ^[2] o (ii) sujetos a sanciones financieras de la UE contra bancos centrales y/o empresas de propiedad estatal. | Sí |
| Países (i) clasificados como de muy alto o alto riesgo en el Índice de Estados Frágiles o (ii) afectados por conflictos violentos según la definición del Banco Mundial. | Sí |
| Países (i) incluidos en la lista de «alerta» del Índice de Estados Frágiles o (ii) sujetos a sanciones relacionadas con la exportación por parte de la UE. | Lista de vigilancia ^[3] |

^[1] Entre las armas controvertidas se encuentran las minas antipersona, las municiones de racimo, las armas biológicas y químicas (incluido el fósforo blanco) y las armas nucleares procedentes de países no firmantes del Tratado de No Proliferación de Armas Nucleares (TNP).

^[2] «Estado patrocinador del terrorismo» es una designación aplicada por el Departamento de Estado de Estados Unidos a países que repetidamente han prestado apoyo a actos de terrorismo internacional.

^[3] Además de las exclusiones estrictas, Pictet Asset Management mantiene una lista de vigilancia que incluye países que requieren una diligencia debida adicional por parte de los equipos de inversión antes de invertir.

Para más detalles, consulte la Política de Inversión responsable de Pictet Asset Management (Anexo B).

- Titularidad activa:

El fondo se implicó con la dirección de las empresas sobre cuestiones ASG importantes.

● **¿Cómo se han comportado los indicadores de sostenibilidad?**

Durante el periodo de información, los indicadores de sostenibilidad se comportaron según se indica a continuación:

• **Perfil ASG global**

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos.

Como resultado, el fondo ha conseguido un perfil ambiental, social y de gobernanza (ASG) mejor que el del índice de referencia.

- **Principal incidencia adversa (PIA)**

El fondo utiliza una combinación de enfoques para considerar y, en la medida de lo posible, mitigar las incidencias adversas materiales de nuestras inversiones en la sociedad y el medioambiente, como emisiones de GEI, contaminación atmosférica, pérdida de biodiversidad, emisiones al agua, residuos peligrosos/radioactivos, derechos humanos, normas laborales, corrupción y soborno, y salud pública.

El grado y la forma en que estas incidencias se tuvieron en cuenta dependieron de factores como el contexto específico de la inversión que provoca la incidencia adversa o la disponibilidad de datos fiables.

De conformidad con la política de exclusión de Pictet Asset Management descrita en la Política de Inversión responsable de la empresa (véase el cuadro anterior para consultar las actividades excluidas y los umbrales de exclusión aplicados), el fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente:

Actividades controvertidas (media ponderada de ingresos de la empresa, en %)*:

| | Fondo (%) | Índice de referencia (%) |
|--|-----------|--------------------------|
| Combustibles fósiles y energía nuclear | 0,87 | 2,51 |
| Armas | 0,01 | 0,01 |
| Otras actividades controvertidas | 0,00 | 0,35 |
| No aplicable: | 5,75 | 4,10 |
| No cubierto: | 8,15 | 4,01 |

* Los combustibles fósiles y la energía nuclear incluyen la extracción de carbón térmico y la generación de electricidad, la producción y extracción de petróleo y gas, la extracción de energía de esquisto, la exploración de petróleo y gas en los mares del Ártico y la generación de energía nuclear. Las armas incluyen la contratación militar (servicios de armas y relacionadas con estas), clientes civiles de armas pequeñas (armas de asalto/ho asalto), clientes militares/de las fuerzas y cuerpos de seguridad de armas pequeñas y componentes clave de pequeñas armas. Otras actividades controvertidas incluyen la producción de tabaco, la producción de entretenimiento para adultos, la explotación de juegos de azar, el desarrollo o crecimiento de organismos modificados genéticamente, la producción o venta al por menor de pesticidas. La exposición se basa en datos de terceros y puede no reflejar nuestro punto de vista interno. Pictet Asset Management tiene plena discreción sobre la aplicación de los criterios de exclusión y se reserva el derecho de apartarse de la información de terceros, según el caso, cuando se considere incorrecta o incompleta.

Fuente: Pictet Asset Management, Sustainalytics.

Además, el fondo excluyó a los emisores que tenían exposición a:

(i) PIA 10: Incumplimientos de los principios del Pacto Mundial de las Naciones Unidas y las Directrices para Empresas Multinacionales de la Organización para la Cooperación y el Desarrollo Económicos (OCDE).

(ii) PIA 14: Exposición a armas controvertidas (minas antipersonas, municiones en racimo, armas químicas y armas biológicas)

- **Interacción**

El fondo se implicó con 17 empresas sobre cuestiones ASG (datos a 30.09.2023). Esto incluye diálogos internos, iniciativas de colaboración entre inversores y servicios de implicación de terceros. Para que se considere implicación, el diálogo con una empresa objetivo debe tener un objetivo claro y mensurable en un horizonte temporal predefinido. Es importante señalar que no todas las interacciones rutinarias o de supervisión, aunque impliquen a la alta dirección o al Consejo de administración, se consideran implicaciones en nuestra evaluación.

Fuente: Pictet Asset Management, Sustainalytics.

- **¿... y en comparación con períodos anteriores?**

Esta cuestión se abordará en futuros informes anuales debido a la falta de historial.

● **¿Cuáles han sido los objetivos de las inversiones sostenibles que ha realizado en parte el producto financiero y de qué forma ha contribuido la inversión sostenible a dichos objetivos?**

El fondo no se comprometió a un porcentaje mínimo de inversiones sostenibles.

Sin embargo, *a posteriori*, el fondo invirtió en valores que financian actividades económicas que contribuyeron sustancialmente a objetivos medioambientales y/o sociales como:

Medioambientales

- mitigación del cambio climático o adaptación al mismo
- uso sostenible y protección de los recursos hídricos y marinos
- transición hacia una economía circular
- prevención y control de la contaminación o
- protección y recuperación de la biodiversidad y los ecosistemas

Sociales

- comunidades inclusivas y sostenibles
- nivel de vida adecuado y bienestar para los usuarios finales o
- trabajo digno

Pictet Asset Management utilizó un marco de referencia propio, así como los objetivos de la Taxonomía de la UE, para definir las inversiones sostenibles.

● **¿De qué manera las inversiones sostenibles que el producto financiero ha realizado en parte, no han causado un perjuicio significativo a ningún objetivo de inversión sostenible medioambiental o social?**

Para evitar que las inversiones sostenibles causen un perjuicio significativo a cualquier otro objetivo medioambiental o social, el fondo aplicó los siguientes criterios de selección sobre la base del mejor esfuerzo:

- (i) Exclusiones de emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente (véase la descripción del marco de exclusión de IR).
- (ii) Los emisores asociados a controversias elevadas y graves no se contabilizaron como inversiones sostenibles.

La información se obtuvo de proveedores terceros y/o de análisis interno. La información ASG de terceros proveedores de datos puede haber sido incompleta, inexacta o no estar disponible. Como consecuencia de ello, existía el riesgo de que el Gestor de inversiones evaluara incorrectamente un valor o emisor, dando lugar a la inclusión o exclusión incorrecta de un valor en el fondo. Los datos ASG incompletos, inexactos o no disponibles también pueden actuar como una limitación metodológica a una estrategia de inversión no financiera (como la aplicación de criterios ASG o similares). En los casos identificados, el Gestor de inversiones trató de mitigar este riesgo mediante su propia evaluación. En caso de que las características ASG de un valor mantenido por el fondo cambiaran, dando lugar a la venta del valor, el Gestor de inversiones no acepta responsabilidad alguna en relación con dicho cambio.

● **¿Cómo se han tenido en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?**

Pictet Asset Management realiza un seguimiento de todos los indicadores obligatorios de principales incidencias adversas (incluidos en el Anexo 1 del Reglamento Delegado (UE) 22 / 1288 de la Comisión) cuando disponemos de datos sólidos. Se espera que la calidad de los datos disponibles mejore con el tiempo.

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas de sus inversiones en la sociedad y el medioambiente que se consideran importantes para la estrategia de inversión, mediante un conjunto de decisiones de gestión de cartera, actividades de propiedad activa y exclusión de emisores asociados a conductas o actividades controvertidas. Más información en el informe de PIA de la entidad, disponible en:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=es&bl=PAM>

Las principales incidencias adversas son las incidencias negativas más importantes de las decisiones de inversión sobre los factores de sostenibilidad en relación con asuntos medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

- ¿Se han ajustado las inversiones sostenibles a las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios rectores de las Naciones Unidas sobre las empresas y los derechos humanos?

Para garantizar que la inversión sostenible no causara un perjuicio significativo a ningún objetivo de inversión sostenible, el fondo excluyó a las empresas con infracciones elevadas y graves de (i) los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción o (ii) las Líneas Directrices de la OCDE para Empresas Multinacionales, incluidos los asuntos sociales y laborales graves.

La taxonomía de la UE establece el principio de «no causar un perjuicio significativo», según el cual las inversiones que se ajusten a la taxonomía no deben perjudicar significativamente a los objetivos de la taxonomía de la UE, e incluye criterios específicos de la Unión.

El principio de «no perjudicar de forma significativa» se aplica únicamente a las inversiones subyacentes del producto financiero que contemplan los criterios de la UE relativos a actividades económicas sostenibles desde una perspectiva medioambiental. Las inversiones subyacentes al resto del producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas medioambientalmente sostenibles.

Cualquier otra inversión sostenible tampoco debe perjudicar significativamente a ningún objetivo medioambiental o social.

¿Cómo tiene en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas que se consideran importantes para la estrategia de inversión. Entre las incidencias adversas se incluyeron, entre otras, las emisiones de gases de efecto invernadero (GEI), la contaminación atmosférica, la pérdida de biodiversidad, las emisiones al agua, los residuos peligrosos/radioactivos, las cuestiones sociales y laborales, y la corrupción y el soborno, que se abordaron mediante una combinación de:

(i) decisiones de gestión de carteras

El equipo de inversión puntuó las posiciones según una evaluación de los riesgos medioambientales, sociales y de gobernanza como parte del marco de puntuación del fondo. Los gestores de inversiones determinan las puntuaciones sobre una base cualitativa, basándose en el análisis fundamental y en datos cuantitativos ASG, incluidos los datos sobre la Principal incidencia adversa, los datos ASG facilitados por las empresas y los datos proporcionados por terceros proveedores de datos ASG. El proceso de puntuación del equipo de inversión fue un componente clave del proceso de construcción de la cartera del comportamiento, determinando las ponderaciones objetivo en la cartera.

(ii) implicación

La interacción con los emisores se realizó mediante conversaciones individuales, reuniones de accionistas/bonistas, giras de inversores y/o conferencias telefónicas. Los objetivos de estas interacciones fueron evaluar una organización, supervisar que su estrategia se estaba aplicando conforme a nuestras expectativas y garantizar que los emisores iban camino de cumplir sus metas y objetivos.

Cuando corresponde, nos implicamos con las empresas en relación con cuestiones ASG importantes, como los objetivos de reducción de los GEI, las mejoras en la gobernanza y diversas controversias medioambientales, sociales y de gobernanza, para asegurarnos de que las entendieran y las abordaran eficazmente a corto, medio y largo plazo. Nuestras actividades de implicación combinaron debates dirigidos a nivel interno, iniciativas de colaboración con inversores institucionales y servicios de implicación externos.

(iii) exclusión de emisores asociados a conductas o actividades controvertidas

El fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se definen en la Política de Inversión responsable de la Pictet Asset Management y/o (ii) empresas que infringieron gravemente los principios del Pacto Mundial de la ONU sobre derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción y las armas controvertidas.

¿Cuáles han sido las inversiones principales de este producto financiero?

La lista incluye las inversiones que constituyen la **mayor parte de las inversiones** del producto financiero durante el período de referencia, que es: 01.10.2022 - 30.09.2023

| INVERSIONES DE MAYOR VOLUMEN | SECTOR | % DE ACTIVOS | PAÍS |

Fuente: Pictet Asset Management, Merrill Lynch.

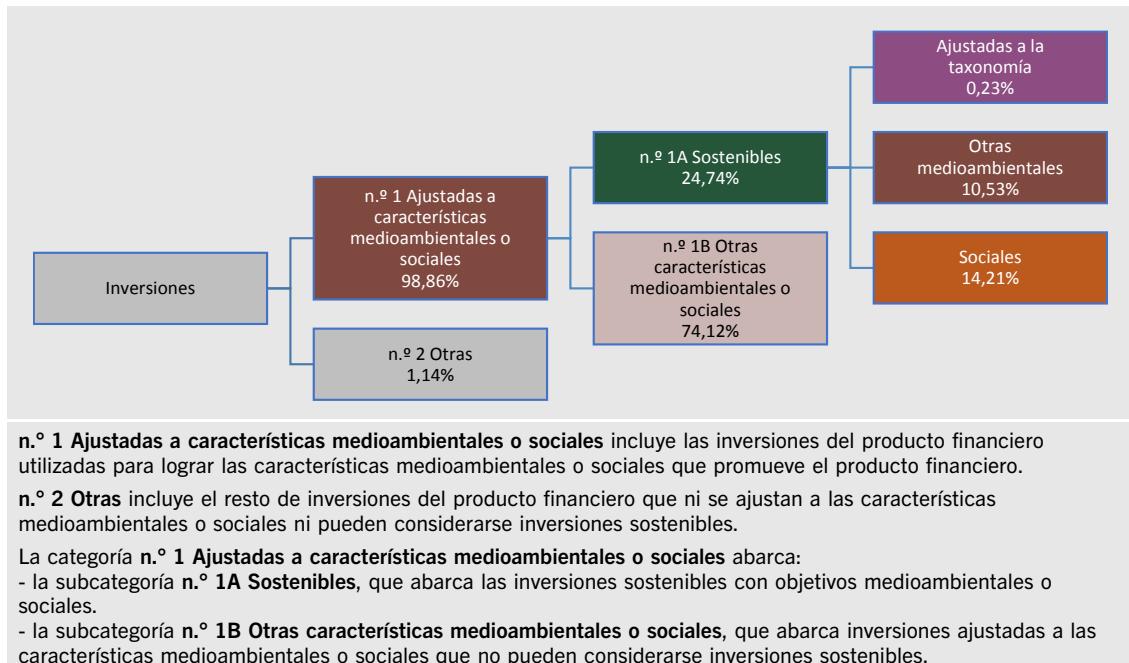

¿Cuál ha sido la proporción de inversiones relacionadas con la sostenibilidad?

24,74%

La asignación de activos describe el porcentaje de inversiones en activos específicos.

¿Cuál ha sido la asignación de activos?

El fondo se ajustó en un 98,86% con características medioambientales o sociales (n.º 1 Ajustadas a características medioambientales o sociales) y tuvo hasta un 1,14% invertido en la categoría Otras (n.º 2 Otras). El 24,74% se asignó a inversiones sostenibles (n.º 1A Sostenibles) y el resto se invirtió en inversiones ajustadas a otras características medioambientales o sociales (n.º 1B Otras características medioambientales o sociales).

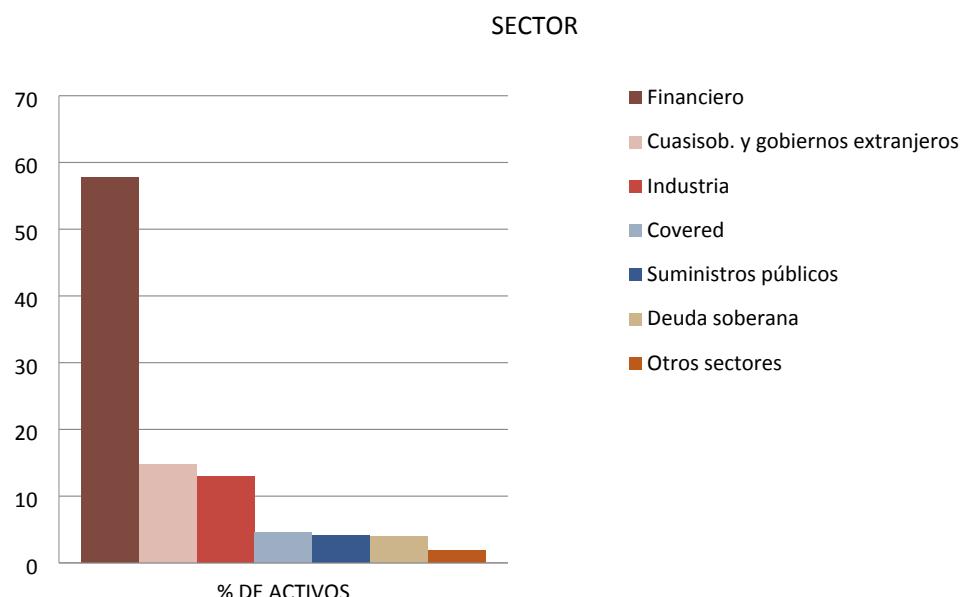

Notas:

- Las inversiones «n.º 1A Sostenibles», «Otras medioambientales» y «Sociales» se calcularon sobre una base de aprobado/suspenso. Incluyen bonos certificados (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.
- Las inversiones ajustadas a la taxonomía verde de la UE se calculan ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a la mitigación del cambio climático y la adaptación al mismo) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.
- A falta de una taxonomía social de la UE, Pictet ha desarrollado un marco de taxonomía social propio. El marco se basa en basado en el Informe sobre taxonomía social publicado por la Plataforma de Finanzas Sostenibles de la UE en 2022. Las actividades admisibles se definen como bienes y servicios beneficiosos desde el punto de vista social que contribuyen sustancialmente a uno de los tres objetivos sociales siguientes: (1) comunidades inclusivas y sostenibles, (2) nivel de vida adecuado y bienestar para los usuarios finales y (3) trabajo digno.

Fuente: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RBICS.

● ¿En qué sectores económicos se han realizado las inversiones?

Fuente: Pictet Asset Management, Merrill Lynch.

Estamos evaluando la disponibilidad y la calidad de los datos que nos permitirían divulgar información más granular en futuros informes sobre los sectores y subsectores de la economía que obtienen ingresos a partir de la exploración, la minería, la extracción, la producción, el procesamiento, el almacenamiento, el refinado o la distribución, incluidos el transporte, el almacenamiento y el comercio, de combustibles fósiles, según se definen en el artículo 2, punto (62), del Reglamento (UE) 2018/1999 del Parlamento Europeo y del Consejo.

¿En qué medida se ajustaban las inversiones sostenibles con un objetivo medioambiental a la taxonomía de la UE?

El fondo realizó inversiones en actividades económicas que contribuyeron a los dos primeros objetivos medioambientales (mitigación del cambio climático y adaptación a este), según lo establecido en el artículo 9 del Reglamento (UE) 2020/852.

Las inversiones ajustadas a la taxonomía de la UE se calcularon ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a objetivos medioambientales relevantes) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.

Los datos de ajuste a la Taxonomía verde de la UE proceden de informes públicos. Los cálculos también pueden incluir estimaciones en un número limitado de casos en los que no se disponía de datos sobre la alineación con la Taxonomía verde de la UE. Las estimaciones se realizaron sobre la base del mejor esfuerzo y siguiendo un planteamiento conservador para obtener un resultado prudente.

Los procedimientos de control se han aplicado para verificar en todo momento el cumplimiento del artículo 3 del Reglamento sobre taxonomía de la UE.

Los datos facilitados no han sido verificados por un auditor externo ni revisados por un tercero independiente.

● ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil o la energía nuclear que cumplían con la taxonomía de la UE¹?

Sí:

En gas fósil En energía nuclear

No

La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permite ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

Para ajustarse a la taxonomía de la UE, los criterios correspondientes al **gas fósil** incluyen limitaciones de emisiones y el paso a la energía renovable o combustibles bajos en carbono de aquí al fin de 2035. Por lo que respecta a la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

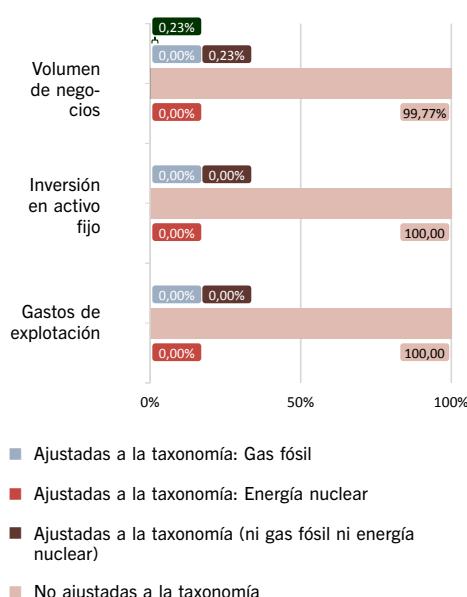

¹ Las actividades relacionadas con el gas fósil o la energía nuclear solo cumplirán la taxonomía de la UE cuando contribuyan a limitar el cambio climático («mitigación del cambio climático») y no perjudiquen significativamente ningún objetivo de la taxonomía de la UE (véase la nota explicativa en el margen izquierdo). Los criterios completos correspondientes a las actividades económicas del gas fósil y la energía nuclear que se ajustan a la taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

Las actividades que se ajustan a la taxonomía se expresan como un porcentaje de:

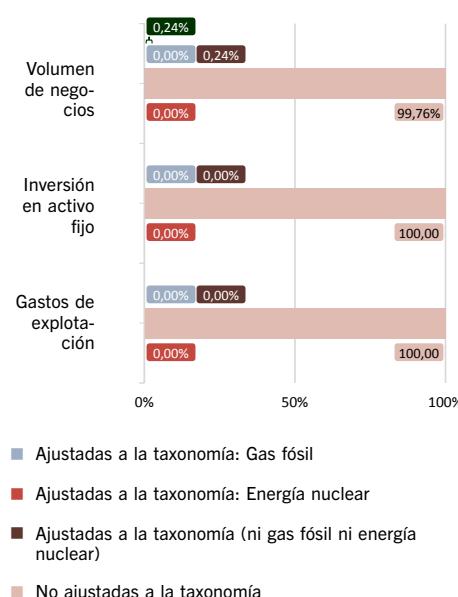

- el **volumen de negocios**, que refleja el «carácter ecológico» de las empresas en las que se invierte en la actualidad;
- la **inversión en activo fijo**, que muestra las inversiones ecológicas realizadas por las empresas en las que se invierte, pertinentes para la transición a una economía verde;
- los **gastos de explotación**, que reflejan las actividades operativas ecológicas de las empresas en las que se invierte.

Los gráficos que figuran a continuación muestran en verde el porcentaje de inversiones que se ajustaban a la taxonomía de la UE. Dado que no existe una metodología adecuada para determinar la adaptación a la taxonomía de los bonos soberanos*, el primer gráfico muestra la adaptación a la taxonomía correspondiente para todas las inversiones del producto financiero, incluidos los bonos soberanos, mientras que el segundo gráfico muestra la adaptación a la taxonomía solo en relación con las inversiones del producto financiero distintas de los bonos soberanos.

1. Ajuste a la taxonomía de las inversiones incluidos los bonos soberanos*

2. Ajuste a la taxonomía de las inversiones excluidos los bonos soberanos*

Este gráfico representa el 96,87% de las inversiones totales.

* A efectos de estos gráficos, los «bonos soberanos» incluyen todas las exposiciones soberanas

Nota:

Utilizamos los ingresos como medida clave para establecer la asignación de objetivos y el ajuste real con la taxonomía de la UE debido a la disponibilidad limitada y a la falta de datos fiables para los gastos de explotación y la inversión en activo fijo.

Fuente: Pictet Asset Management.

● ¿Cuál ha sido la proporción de las inversiones realizadas en actividades de transición y facilitadoras?

La proporción de inversiones realizadas en:

- Actividades de transición: No aplicable*
- Actividades de facilitadoras: No aplicable*

* La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permiten ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

● ¿Qué porcentaje de inversiones se han ajustado a la taxonomía de la UE en comparación con los períodos de referencia anteriores?

No aplicable.

¿Cuál ha sido la proporción de inversiones sostenibles con un objetivo medioambiental no ajustadas a la taxonomía de la UE?

10,53%

Estas inversiones sostenibles no se ajustan a la Taxonomía de la UE porque sus actividades económicas o bien (i) no están cubiertas por la Taxonomía de la UE, o bien (ii) no cumplen los criterios técnicos de selección para lograr una contribución sustancial en el sentido de la Taxonomía de la UE.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta

¿Cuál ha sido la proporción de inversiones socialmente sostenibles?

14,21%

¿Qué inversiones se han incluido en «otras» y cuál ha sido su propósito? ¿ha habido garantías medioambientales o sociales mínimas?

Las «otras» inversiones del fondo incluían posiciones de tesorería mantenidas principalmente para satisfacer los objetivos diarios de liquidez y gestión de riesgos permitidos y previstos por la política de inversión del fondo. Cuando sea preciso, se aplicarán salvaguardias medioambientales o sociales mínimas a los valores subyacentes.

¿Qué medidas se han adoptado para cumplir las características medioambientales o sociales durante el período de referencia?

Durante el periodo de referencia, se alcanzó el objetivo de inversión sostenible siguiendo la estrategia de inversión y respetando los elementos vinculantes.

Los elementos vinculantes del fondo son:

- Exclusión de emisores que:
 - están relacionados con armas nucleares de países que no han firmado el Tratado sobre la No Proliferación de Armas Nucleares (TNP) y otras armas controvertidas
 - obtienen una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, como la extracción de carbón térmico y la generación de electricidad, la exploración y producción no convencional de petróleo y gas, las armas convencionales y armas pequeñas, las armas de contratación militar, la producción de tabaco, la producción de entretenimiento para adultos y las actividades del juego. Para más detalles sobre los umbrales de exclusión aplicables a las actividades anteriores, consulte la Política de Inversión responsable de Pictet Asset Management.
 - incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción
- un perfil ASG mejor que el del índice de referencia
- análisis de criterios ASG de los valores admisibles que abarca al menos el 90% del patrimonio neto o el número de emisores incluidos en la cartera

Además, el fondo se implicó con 17 empresas a 30.09.2023.

¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

● ¿Cómo difería el índice de referencia de un índice general de mercado?

No aplicable.

- **¿Cómo se ha comportado este producto financiero con respecto a los indicadores de sostenibilidad para determinar la conformidad del índice de referencia con las características medioambientales o sociales que promueve?**
No aplicable.
- **¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?**
No aplicable.
- **¿Cómo se ha comportado este producto financiero en comparación con el índice general de mercado?**
No aplicable.

01.10.2022 - 30.09.2023

Plantilla de información periódica de los productos financieros a que se refiere el artículo 8, apartados 1, 2 y 2 bis, del Reglamento (UE) 2019/2088 y el artículo 6, párrafo primero, del Reglamento (UE) 2020/852

Nombre del producto: **Pictet - Emerging Local Currency Debt**

Identificador de entidad jurídica: **549300YGHOSBCB47SV89**

CARACTERÍSTICAS MEDIOAMBIENTALES O SOCIALES

Inversión sostenible
significa una inversión en una actividad económica que contribuye a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo a ningún objetivo medioambiental o social y que las empresas en las que se invierte sigan prácticas de buena gobernanza.

La **taxonomía de la UE** es un sistema de clasificación previsto en el Reglamento (UE) 2020/852 por el que se establece una lista de **actividades económicas medioambientalmente sostenibles**. Dicho Reglamento no prevé una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental pueden ajustarse, o no, a la taxonomía.

| ¿ESTE PRODUCTO FINANCIERO TENÍA UN OBJETIVO DE INVERSIÓN SOSTENIBLE? | | | |
|--|--|--|---|
| ● ● <input type="checkbox"/> Si | | ● ● <input checked="" type="checkbox"/> No | |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo medioambiental: ____% | <input checked="" type="checkbox"/> | Promovió características medioambientales o sociales y, aunque no tenía como objetivo una inversión sostenible, tuvo un porcentaje del 5,42% de inversiones sostenibles |
| <input type="checkbox"/> | en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input type="checkbox"/> | con un objetivo medioambiental en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> | en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> | con un objetivo medioambiental en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo social: ____% | <input type="checkbox"/> | con un objetivo social |
| <input type="checkbox"/> | | <input type="checkbox"/> | Ha promovido características medioambientales o sociales, pero no ha realizado ninguna inversión sostenible |

Nota: Las inversiones sostenibles se calcularon sobre una base de aprobado/suspenso, incluyendo bonos con etiqueta (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% (medida por ingresos, EBIT, valor de empresa o indicadores similares) a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.

¿En qué grado se han cumplido las características medioambientales o sociales que promueve este producto financiero?

Las características medioambientales y sociales de este producto financiero se promovieron utilizando:

- Best-in-class / best effort:

El fondo invirtió en valores de emisores con riesgos de sostenibilidad bajos y/o decrecientes, a la vez que evitó aquellos con riesgo de sostenibilidad alto y/o creciente, reduciendo el universo de inversión en al menos un 20%. El universo de inversión está compuesto por bonos soberanos y corporativos de los países emergentes.

No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

- Bonos con etiqueta:

El fondo invirtió parcialmente en bonos con etiqueta medioambiental y/o social.

- Exclusiones basadas en normas y valores:

El fondo excluyó los emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente o que incumplen de forma grave las normas internacionales, según se detalla a continuación:

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

| Actividad | Umbrales de ingresos |
|---|----------------------|
| Combustibles fósiles y energía nuclear | |
| Extracción de carbón térmico | > 25% |
| Generación de energía térmica de carbón | > 25% |
| Producción de petróleo y gas | > 25% |
| Extracción de arenas bituminosas | > 10% |
| Extracción de energía de esquisto | > 10% |
| Exploración de petróleo y gas en el Ártico | > 10% |
| Generación de energía nuclear | > 50% |
| Armas | |
| Producción de armas controvertidas[1] | > 0% |
| Armas de contratación militar | > 10% |
| Productos y/o servicios relacionados con armas de contratación militar | > 50% |
| Clientes civiles de armas pequeñas (armas de asalto) | > 10% |
| Clientes civiles de armas pequeñas (armas de no asalto) | > 10% |
| Clientes militares/de fuerzas del orden de armas pequeñas | > 25% |
| Componentes clave de armas pequeñas | > 25% |
| Otras actividades controvertidas | |
| Producción de entretenimiento para adultos | > 10% |
| Operaciones de juego | > 10% |
| Desarrollo de plantas y semillas modificadas genéticamente | > 25% |
| Cultivo de plantas y semillas modificadas genéticamente | > 25% |
| Producción de plaguicidas | > 10% |
| Venta al por menor de plaguicidas | > 10% |
| Producción de productos de tabaco | > 10% |
| Exclusiones de empresas por incumplimiento de normas internacionales | Excluidas |
| Empresas que incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción | Sí |
| Exclusiones de países | Excluidas |
| Países (i) incluidos en la lista de Estados patrocinadores del terrorismo, según la definición de la Oficina de Control de Activos Extranjeros de EE. UU.[2] o (ii) sujetos a sanciones financieras de la UE contra bancos centrales y/o empresas de propiedad estatal. | Sí |
| Países (i) clasificados como de muy alto o alto riesgo en el Índice de Estados Frágiles o (ii) afectados por conflictos violentos según la definición del Banco Mundial. | Sí |

Países (i) incluidos en la lista de «alerta» del Índice de Estados Frágiles o (ii) sujetos a sanciones relacionadas con la exportación por parte de la UE. Lista de vigilancia[3]

[1] Entre las armas controvertidas se encuentran las minas antipersona, las municiones de racimo, las armas biológicas y químicas (incluido el fósforo blanco) y las armas nucleares procedentes de países no firmantes del Tratado de No Proliferación de Armas Nucleares (TNP).

[2] «Estado patrocinador del terrorismo» es una designación aplicada por el Departamento de Estado de Estados Unidos a países que repetidamente han prestado apoyo a actos de terrorismo internacional.

[3] Además de las exclusiones estrictas, Pictet Asset Management mantiene una lista de vigilancia que incluye países que requieren una diligencia debida adicional por parte de los equipos de inversión antes de invertir.

Para más detalles, consulte la Política de Inversión responsable de Pictet Asset Management (Anexo B).

- Titularidad activa:

El fondo se implicó con ciertos emisores soberanos sobre cuestiones ASG durante el periodo de referencia.

- **¿Cómo se han comportado los indicadores de sostenibilidad?**

Durante el periodo de información, los indicadores de sostenibilidad se comportaron según se indica a continuación:

- **Exposición a empresas que obtienen una parte significativa de sus ingresos, EBIT, valor de empresa o parámetros similares de actividades económicas que contribuyen a los objetivos medioambientales o sociales, y bonos con etiqueta cuando sea relevante para la clase de activos (inversiones sostenibles):**

5,42%

En el informe del próximo año se facilitará información adicional sobre objetivos medioambientales y/o sociales específicos.

- **Exposición a bonos con etiqueta verde y/o social**

Durante el periodo de referencia, el fondo tuvo una exposición del 5,42% a bonos certificados.

Los fondos certificados incluyen bonos medioambientales, sociales y de sostenibilidad. La clasificación de los bonos certificados se proporciona por emisor de bonos y puede no reflejar nuestro punto de vista interno.

- **Reducción del universo de inversión por factores ASG**

El fondo reduce su universo de inversión eliminando al menos el 20% de los emisores con los mayores riesgos de sostenibilidad.

Los riesgos de sostenibilidad son acontecimientos o condiciones de riesgo ASG que podrían tener una incidencia negativa importante en el valor de las inversiones si se produjeran. Los riesgos de sostenibilidad incluían, entre otros, los siguientes: riesgo de transición climática, riesgo físico climático, riesgo medioambiental, riesgo social y riesgo de gobernanza. Se realizan revisiones periódicas y controles de riesgo para supervisar la aplicación.

Las principales incidencias adversas («PIA») son efectos negativos, materiales o posiblemente materiales, sobre factores de sostenibilidad causados, agravados o directamente vinculados con las decisiones y el asesoramiento. Entre las principales incidencias adversas se incluyen, entre otras, las emisiones de gases de efecto invernadero (GEI), la contaminación atmosférica, la pérdida de biodiversidad, las emisiones al agua, los residuos peligrosos/radioactivos, las cuestiones sociales y laborales, y la corrupción y el soborno.

- **Principal incidencia adversa (PIA)**

El fondo utiliza una combinación de enfoques para considerar y, en la medida de lo posible, mitigar las incidencias adversas materiales de nuestras inversiones en la sociedad y el medioambiente, como emisiones de GEI, contaminación atmosférica, pérdida de biodiversidad, emisiones al agua, residuos peligrosos/radioactivos, derechos humanos, normas laborales, corrupción y soborno, y salud pública.

El grado y la forma en que estas incidencias se tuvieron en cuenta dependieron de factores como el contexto específico de la inversión que provoca la incidencia adversa o la disponibilidad de datos fiables.

El fondo invierte principalmente en deuda pública durante el período de referencia. En el caso de las inversiones en bonos no soberanos y de conformidad con la política de exclusión de Pictet Asset Management descrita en la Política de Inversión responsable de la empresa (véase el cuadro

Los indicadores de sostenibilidad miden cómo se alcanzan las características medioambientales o sociales que promueve el producto financiero.

anterior para consultar las actividades excluidas y los umbrales de exclusión aplicados), el fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente:

Actividades controvertidas (media ponderada de ingresos de la empresa, en %)*:

| | Fondo (%) | Índice de referencia (%) |
|--|-----------|--------------------------|
| Combustibles fósiles y energía nuclear | 0,00 | 0,00 |
| Armas | 0,00 | 0,00 |
| Otras actividades controvertidas | 0,00 | 0,00 |
| No aplicable: | 98,67 | 100,00 |
| No cubierto: | 0,03 | 0,00 |

* Los combustibles fósiles y la energía nuclear incluyen la extracción de carbón térmico y la generación de electricidad, la producción y extracción de petróleo y gas, la extracción de energía de esquisto, la exploración de petróleo y gas en los mares del Ártico y la generación de energía nuclear. Las armas incluyen la contratación militar (servicios de armas y relacionadas con estas), clientes civiles de armas pequeñas (armas de asalto/no asalto), clientes militares/de las fuerzas y cuerpos de seguridad de armas pequeñas y componentes clave de pequeñas armas. Otras actividades controvertidas incluyen la producción de tabaco, la producción de entretenimiento para adultos, la explotación de juegos de azar, el desarrollo o crecimiento de organismos modificados genéticamente, la producción o venta al por menor de pesticidas. La exposición se basa en datos de terceros y puede no reflejar nuestro punto de vista interno. Pictet Asset Management tiene plena discreción sobre la aplicación de los criterios de exclusión y se reserva el derecho de apartarse de la información de terceros, según el caso, cuando se considere incorrecta o incompleta.

Fuente: Pictet Asset Management, Sustainalytics.

Además, el fondo excluyó a los emisores que tenían exposición a:

- (i) PIA 10: Incumplimientos de los principios del Pacto Mundial de las Naciones Unidas y las Directrices para Empresas Multinacionales de la Organización para la Cooperación y el Desarrollo Económicos (OCDE).
- (ii) PIA 14: Exposición a armas controvertidas (minas antipersonas, municiones en racimo, armas químicas y armas biológicas)

● Interacción

El fondo se implicó con 6 emisores soberanos sobre cuestiones ASG (datos a 30.09.2023).

Fuente: Pictet Asset Management.

● ¿... y en comparación con períodos anteriores?

Esta cuestión se abordará en futuros informes anuales debido a la falta de historial.

● ¿Cuáles han sido los objetivos de las inversiones sostenibles que ha realizado en parte el producto financiero y de qué forma ha contribuido la inversión sostenible a dichos objetivos?

Pictet Asset Management utilizó marcos de referencia propios, así como los objetivos de la Taxonomía de la UE, para definir las inversiones sostenibles.

El fondo invirtió en valores que financiaban actividades económicas que contribuyeron sustancialmente a objetivos medioambientales y/o sociales como:

Medioambientales

- mitigación del cambio climático o adaptación al mismo
- uso sostenible y protección de los recursos hídricos y marinos
- transición hacia una economía circular
- prevención y control de la contaminación o
- protección y recuperación de la biodiversidad y los ecosistemas

Sociales

- comunidades inclusivas y sostenibles
- nivel de vida adecuado y bienestar para los usuarios finales o

- trabajo digno

● **¿De qué manera las inversiones sostenibles que el producto financiero ha realizado en parte, no han causado un perjuicio significativo a ningún objetivo de inversión sostenible medioambiental o social?**

Para evitar que las inversiones sostenibles causen un perjuicio significativo a cualquier otro objetivo medioambiental o social, el fondo aplicó los siguientes criterios de selección sobre la base del mejor esfuerzo:

(i) Exclusiones de emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente (véase la descripción del marco de exclusión de IR).

(ii) Los emisores asociados a controversias elevadas y graves no se contabilizaron como inversiones sostenibles.

La información se obtuvo de proveedores terceros y/o de análisis interno. La información ASG de terceros proveedores de datos puede haber sido incompleta, inexacta o no estar disponible. Como consecuencia de ello, existía el riesgo de que el Gestor de inversiones evaluara incorrectamente un valor o emisor, dando lugar a la inclusión o exclusión incorrecta de un valor en el fondo. Los datos ASG incompletos, inexactos o no disponibles también pueden actuar como una limitación metodológica a una estrategia de inversión no financiera (como la aplicación de criterios ASG o similares). En los casos identificados, el Gestor de inversiones trató de mitigar este riesgo mediante su propia evaluación. En caso de que las características ASG de un valor mantenido por el fondo cambiaran, dando lugar a la venta del valor, el Gestor de inversiones no acepta responsabilidad alguna en relación con dicho cambio.

● **¿Cómo se han tenido en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?**

Pictet Asset Management realiza un seguimiento de todos los indicadores obligatorios de principales incidencias adversas (incluidos en el Anexo 1 del Reglamento Delegado (UE) 22 / 1288 de la Comisión) cuando disponemos de datos sólidos. Se espera que la calidad de los datos disponibles mejore con el tiempo.

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas de sus inversiones en la sociedad y el medioambiente que se consideran importantes para la estrategia de inversión, mediante un conjunto de decisiones de gestión de cartera, actividades de propiedad activa y exclusión de emisores asociados a conductas o actividades controvertidas. Más información en el informe de PIA de la entidad, disponible en:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=es&bl=PAM>

● **¿Se han ajustado las inversiones sostenibles a las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios rectores de las Naciones Unidas sobre las empresas y los derechos humanos?**

Para garantizar que la inversión sostenible no causara un perjuicio significativo a ningún objetivo de inversión sostenible, el fondo excluyó a las empresas con infracciones elevadas y graves de (i) los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción o (ii) las Líneas Directrices de la OCDE para Empresas Multinacionales, incluidos los asuntos sociales y laborales graves.

La taxonomía de la UE establece el principio de «no causar un perjuicio significativo», según el cual las inversiones que se ajusten a la taxonomía no deben perjudicar significativamente a los objetivos de la taxonomía de la UE, e incluye criterios específicos de la Unión.

El principio de «no perjudicar de forma significativa» se aplica únicamente a las inversiones subyacentes del producto financiero que contemplan los criterios de la UE relativos a actividades económicas sostenibles desde una perspectiva medioambiental. Las inversiones subyacentes al resto del producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas medioambientalmente sostenibles.

Cualquier otra inversión sostenible tampoco debe perjudicar significativamente a ningún objetivo medioambiental o social.

¿Cómo tiene en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas que se consideran importantes para la estrategia de inversión. Entre las incidencias adversas se incluyeron, entre otras, las emisiones de gases de efecto invernadero (GEI), la contaminación atmosférica, la pérdida de biodiversidad, las emisiones al agua, los residuos peligrosos/radioactivos, las cuestiones sociales y laborales, y la corrupción y el soborno, que se abordaron mediante una combinación de:

(i) decisiones de gestión de carteras

El equipo de inversión puntuó las posiciones según una evaluación de los riesgos medioambientales, sociales y de gobernanza como parte del marco de puntuación del fondo. Los gestores de inversiones determinan las puntuaciones sobre una base cualitativa, basándose en el análisis fundamental y en datos cuantitativos ASG, incluidos los datos sobre la Principal incidencia adversa, los datos ASG facilitados por las empresas y los datos proporcionados por terceros proveedores de datos ASG. El proceso de puntuación del equipo de inversión fue un componente clave del proceso de construcción de la cartera del comportamiento, determinando las ponderaciones objetivo en la cartera.

(ii) implicación

La interacción con los emisores se realizó mediante conversaciones individuales, reuniones de accionistas/bonistas, giras de inversores y/o conferencias telefónicas.

Cuando corresponde, nos implicamos con las empresas en relación con cuestiones ASG importantes, como los objetivos de reducción de los GEI, las mejoras en la gobernanza y diversas controversias medioambientales, sociales y de gobernanza, para asegurarnos de que las entendieran y las abordaran eficazmente a corto, medio y largo plazo. Nuestras actividades de implicación combinaron debates dirigidos a nivel interno e iniciativas de colaboración con inversores institucionales.

(iii) exclusión de emisores asociados a conductas o actividades controvertidas

El fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se definen en la Política de Inversión responsable de la Pictet Asset Management y/o (ii) empresas que infringieron gravemente los principios del Pacto Mundial de la ONU sobre derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción y las armas controvertidas, o (iii) países sujetos a sanciones internacionales; véase también la información detallada sobre las exclusiones que figura en la Política de Inversión responsable de Pictet Asset Management.

¿Cuáles han sido las inversiones principales de este producto financiero?

La lista incluye las inversiones que constituyen la mayor parte de las inversiones del producto financiero durante el período de referencia, que es: 01.10.2022 - 30.09.2023

| INVERSIONES DE MAYOR VOLUMEN | SECTOR | % DE ACTIVOS | PAÍS |

Fuente: Pictet Asset Management, Merrill Lynch.

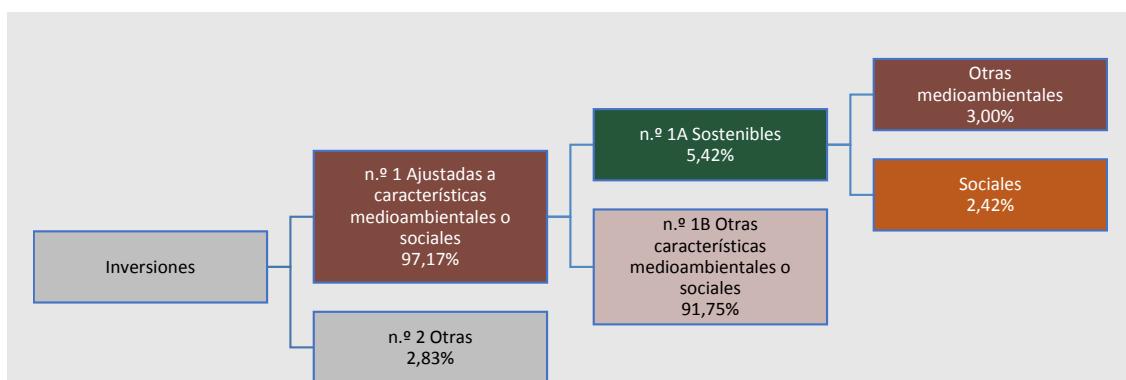

¿Cuál ha sido la proporción de inversiones relacionadas con la sostenibilidad?

5,42%

La asignación de activos describe el porcentaje de inversiones en activos específicos.

¿Cuál ha sido la asignación de activos?

El fondo se ajustó en un 97,17% con características medioambientales o sociales (n.º 1 Ajustadas a características medioambientales o sociales) y tuvo hasta un 2,83% invertido en la categoría Otras (n.º 2 Otras). El 5,42% se asignó a inversiones sostenibles (n.º 1A Sostenibles) y el resto se invirtió en inversiones ajustadas a otras características medioambientales o sociales (n.º 1B Otras características medioambientales o sociales).

n.º 1 Ajustadas a características medioambientales o sociales incluye las inversiones del producto financiero utilizadas para lograr las características medioambientales o sociales que promueve el producto financiero.

n.º 2 Otras incluye el resto de inversiones del producto financiero que ni se ajustan a las características medioambientales o sociales ni pueden considerarse inversiones sostenibles.

La categoría n.º 1 Ajustadas a características medioambientales o sociales abarca:

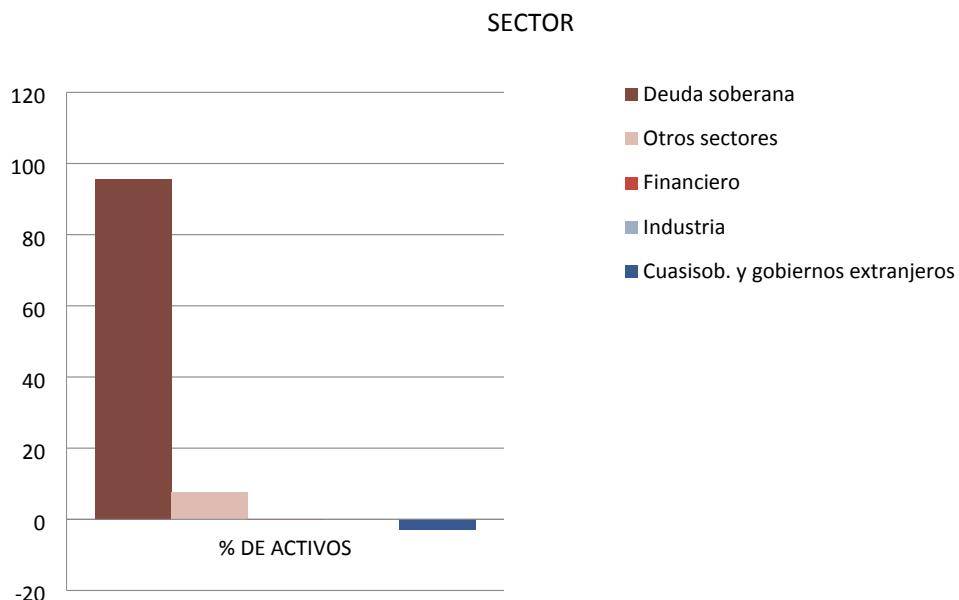

- la subcategoría n.º 1A Sostenibles, que abarca las inversiones sostenibles con objetivos medioambientales o sociales.
- la subcategoría n.º 1B Otras características medioambientales o sociales, que abarca inversiones ajustadas a las características medioambientales o sociales que no pueden considerarse inversiones sostenibles.

Notas:

- Las inversiones «n.º 1A Sostenibles», «Otras medioambientales» y «Sociales» se calcularon sobre una base de aprobado/suspenso. Incluyen bonos certificados (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.
- A falta de una taxonomía social de la UE, Pictet ha desarrollado un marco de taxonomía social propio. El marco se basa en basado en el Informe sobre taxonomía social publicado por la Plataforma de Finanzas Sostenibles de la UE en 2022. Las actividades admisibles se definen como bienes y servicios beneficiosos desde el punto de vista social que contribuyen sustancialmente a uno de los tres objetivos sociales siguientes: (1) comunidades inclusivas y sostenibles, (2) nivel de vida adecuado y bienestar para los usuarios finales y (3) trabajo digno.

Fuente: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RB/CS.

● ¿En qué sectores económicos se han realizado las inversiones?

Fuente: Pictet Asset Management, Merrill Lynch.

Estamos evaluando la disponibilidad y la calidad de los datos que nos permitirían divulgar información más granular en futuros informes sobre los sectores y subsectores de la economía que obtienen ingresos a partir de la exploración, la minería, la extracción, la producción, el procesamiento, el almacenamiento, el refinado o la distribución, incluidos el transporte, el almacenamiento y el comercio, de combustibles fósiles, según se definen en el artículo 2, punto (62), del Reglamento (UE) 2018/1999 del Parlamento Europeo y del Consejo.

¿En qué medida se ajustaban las inversiones sostenibles con un objetivo medioambiental a la taxonomía de la UE?

No aplicable.

● ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil o la energía nuclear que cumplían con la taxonomía de la UE¹?

Sí:

En gas fósil En energía nuclear

No

Para ajustarse a la taxonomía de la UE, los criterios correspondientes al **gas fósil** incluyen limitaciones de emisiones y el paso a la energía renovable o combustibles bajos en carbono de aquí al fin de 2035. Por lo que respecta a la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

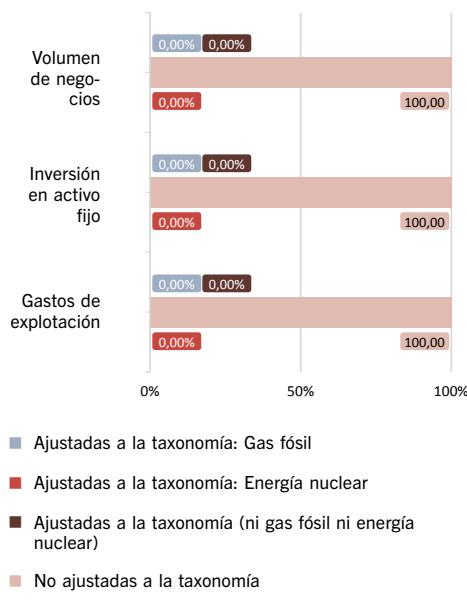

¹ Las actividades relacionadas con el gas fósil o la energía nuclear solo cumplirán la taxonomía de la UE cuando contribuyan a limitar el cambio climático («mitigación del cambio climático») y no perjudiquen significativamente ningún objetivo de la taxonomía de la UE (véase la nota explicativa en el margen izquierdo). Los criterios completos correspondientes a las actividades económicas del gas fósil y la energía nuclear que se ajustan a la taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

Las actividades que se ajustan a la taxonomía se expresan como un porcentaje de:

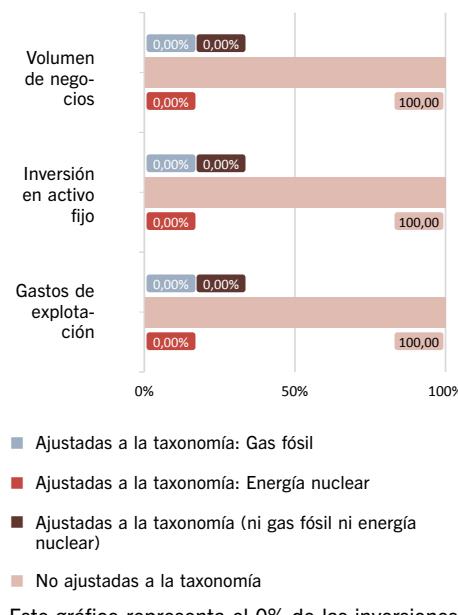

- el **volumen de negocios**, que refleja el «carácter ecológico» de las empresas en las que se invierte en la actualidad;
- la **inversión en activo fijo**, que muestra las inversiones ecológicas realizadas por las empresas en las que se invierte, pertinentes para la transición a una economía verde;
- los **gastos de explotación**, que reflejan las actividades operativas ecológicas de las empresas en las que se invierte.

Los gráficos que figuran a continuación muestran en verde el porcentaje de inversiones que se ajustaban a la taxonomía de la UE. Dado que no existe una metodología adecuada para determinar la adaptación a la taxonomía de los bonos soberanos*, el primer gráfico muestra la adaptación a la taxonomía correspondiente para todas las inversiones del producto financiero, incluidos los bonos soberanos, mientras que el segundo gráfico muestra la adaptación a la taxonomía solo en relación con las inversiones del producto financiero distintas de los bonos soberanos.

1. Ajuste a la taxonomía de las inversiones incluidos los bonos soberanos*

2. Ajuste a la taxonomía de las inversiones excluidos los bonos soberanos*

Este gráfico representa el 0% de las inversiones totales.

* A efectos de estos gráficos, los «bonos soberanos» incluyen todas las exposiciones soberanas

● ¿Cuál ha sido la proporción de las inversiones realizadas en actividades de transición y facilitadoras?

No aplicable.

● ¿Qué porcentaje de inversiones se han ajustado a la taxonomía de la UE en comparación con los períodos de referencia anteriores?

No aplicable.

¿Cuál ha sido la proporción de inversiones sostenibles con un objetivo medioambiental no ajustadas a la taxonomía de la UE?

3,00%

Estas inversiones sostenibles no se ajustan a la Taxonomía de la UE porque sus actividades económicas o bien (i) no están cubiertas por la Taxonomía de la UE, o bien (ii) no cumplen los criterios técnicos de selección para lograr una contribución sustancial en el sentido de la Taxonomía de la UE.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta los criterios para las actividades económicas medioambientalmente sostenibles con arreglo al Reglamento (UE) 2020/852.

¿Cuál ha sido la proporción de inversiones socialmente sostenibles?

2,42%

¿Qué inversiones se han incluido en «otras» y cuál ha sido su propósito? ¿ha habido garantías medioambientales o sociales mínimas?

Las «otras» inversiones del fondo incluían posiciones de tesorería mantenidas principalmente para satisfacer los objetivos diarios de liquidez y gestión de riesgos permitidos y previstos por la política de inversión del fondo. Cuando sea preciso, se aplicarán salvaguardias medioambientales o sociales mínimas a los valores subyacentes.

¿Qué medidas se han adoptado para cumplir las características medioambientales o sociales durante el período de referencia?

Durante el periodo de referencia, se alcanzó el objetivo de inversión sostenible siguiendo la estrategia de inversión y respetando los elementos vinculantes.

Los elementos vinculantes del fondo son:

- Exclusión de emisores que:
 - están relacionados con armas nucleares de países que no han firmado el Tratado sobre la No Proliferación de Armas Nucleares (TNP) y otras armas controvertidas
 - obtienen una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, como la extracción de carbón térmico y la generación de electricidad, la exploración y producción no convencional de petróleo y gas, la producción de petróleo y gas convencional, la generación de energía nuclear, las armas convencionales y armas pequeñas, la contratación militar de armas y productos y servicios relacionados con las armas, la producción de tabaco, la producción de entretenimiento para adultos, las actividades del juego, el desarrollo y crecimiento de organismos modificados genéticamente, la producción y comercialización de pesticidas. Para más detalles sobre los umbrales de exclusión aplicables a las actividades anteriores, consulte la Política de Inversión responsable de Pictet Asset Management.
 - incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción
- exclusiones de países sujetos a sanciones internacionales
- análisis de criterios ASG de los valores admisibles que abarca al menos el 90% del patrimonio neto o el número de emisores incluidos en la cartera

El fondo se implicó con 6 emisores soberanos sobre cuestiones ASG (datos a 30.09.2023).

¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

Los índices de referencia son índices para medir si el producto financiero logra las características medioambientales o sociales que promueve.

● ¿Cómo difería el índice de referencia de un índice general de mercado?

No aplicable.

● ¿Cómo se ha comportado este producto financiero con respecto a los indicadores de sostenibilidad para determinar la conformidad del índice de referencia con las características medioambientales o sociales que promueve?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice general de mercado?

No aplicable.

01.10.2022 - 30.09.2023

Plantilla de información periódica de los productos financieros a que se refiere el artículo 8, apartados 1, 2 y 2 bis, del Reglamento (UE) 2019/2088 y el artículo 6, párrafo primero, del Reglamento (UE) 2020/852

Nombre del producto: **Pictet - Global High Yield**

Identificador de entidad jurídica: **549300SQCEGXVG3EIP06**

CARACTERÍSTICAS MEDIOAMBIENTALES O SOCIALES

Inversión sostenible
significa una inversión en una actividad económica que contribuye a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo a ningún objetivo medioambiental o social y que las empresas en las que se invierte sigan prácticas de buena gobernanza.

La **taxonomía de la UE** es un sistema de clasificación previsto en el Reglamento (UE) 2020/852 por el que se establece una lista de **actividades económicas medioambientalmente sostenibles**. Dicho Reglamento no prevé una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental pueden ajustarse, o no, a la taxonomía.

| ¿ESTE PRODUCTO FINANCIERO TENÍA UN OBJETIVO DE INVERSIÓN SOSTENIBLE? | | | |
|---|-------------------------------------|---|---|
| <input checked="" type="radio"/> Si | <input type="radio"/> No | <input checked="" type="radio"/> Promovió características medioambientales o sociales y, aunque no tenía como objetivo una inversión sostenible, tuvo un porcentaje del 38,87% de inversiones sostenibles | <input checked="" type="radio"/> con un objetivo medioambiental en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> Realizó inversiones sostenibles con un objetivo medioambiental: ____% | <input checked="" type="checkbox"/> | <input checked="" type="checkbox"/> con un objetivo medioambiental en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> con un objetivo social |
| <input type="checkbox"/> en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | | | |
| <input type="checkbox"/> en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | | | |
| <input type="checkbox"/> Realizó inversiones sostenibles con un objetivo social: ____% | <input type="checkbox"/> | <input type="checkbox"/> Ha promovido características medioambientales o sociales, pero no ha realizado ninguna inversión sostenible | |

Nota: Las inversiones sostenibles se calcularon sobre una base de aprobado/suspenso, incluyendo bonos con etiqueta (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% (medida por ingresos, EBIT, valor de empresa o indicadores similares) a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.

¿En qué grado se han cumplido las características medioambientales o sociales que promueve este producto financiero?

Las características medioambientales y sociales de este producto financiero se promovieron utilizando:

- Inclinación positiva:

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos y, como resultado, tuvo un perfil ASG similar o mejor que el del índice de referencia. El índice ICE Developed Markets High Yield ESG Tilt Constrained se utilizó para medir la inclinación positiva; sin embargo, no se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

- Exclusiones basadas en normas y valores:

El fondo excluyó los emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente o que incumplen de forma grave las normas internacionales, según se detalla a continuación:

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

Actividad

Umbrales de ingresos

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

| | |
|---|------------------------------------|
| Combustibles fósiles y energía nuclear | |
| Extracción de carbón térmico | > 25% |
| Generación de energía térmica de carbón | > 25% |
| Extracción de arenas bituminosas | > 25% |
| Extracción de energía de esquisto | > 25% |
| Exploración de petróleo y gas en el Ártico | > 10% |
| Armas | |
| Producción de armas controvertidas ^[1] | > 0% |
| Armas de contratación militar | > 10% |
| Clientes civiles de armas pequeñas (armas de asalto) | > 10% |
| Clientes civiles de armas pequeñas (armas de no asalto) | > 10% |
| Clientes militares/de fuerzas del orden de armas pequeñas | > 25% |
| Componentes clave de armas pequeñas | > 25% |
| Otras actividades controvertidas | |
| Producción de entretenimiento para adultos | > 10% |
| Operaciones de juego | > 10% |
| Producción de productos de tabaco | > 10% |
| Exclusiones de empresas por incumplimiento de normas internacionales | Excluidas |
| Empresas que incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción | Sí |
| Exclusiones de países | Excluidas |
| Países (i) incluidos en la lista de Estados patrocinadores del terrorismo, según la definición de la Oficina de Control de Activos Extranjeros de EE. UU. ^[2] o (ii) sujetos a sanciones financieras de la UE contra bancos centrales y/o empresas de propiedad estatal. | Sí |
| Países (i) clasificados como de muy alto o alto riesgo en el Índice de Estados Frágiles o (ii) afectados por conflictos violentos según la definición del Banco Mundial. | Sí |
| Países (i) incluidos en la lista de «alerta» del Índice de Estados Frágiles o (ii) sujetos a sanciones relacionadas con la exportación por parte de la UE. | Lista de vigilancia ^[3] |

^[1] Entre las armas controvertidas se encuentran las minas antipersona, las municiones de racimo, las armas biológicas y químicas (incluido el fósforo blanco) y las armas nucleares procedentes de países no firmantes del Tratado de No Proliferación de Armas Nucleares (TNP).

^[2] «Estado patrocinador del terrorismo» es una designación aplicada por el Departamento de Estado de Estados Unidos a países que repetidamente han prestado apoyo a actos de terrorismo internacional.

^[3] Además de las exclusiones estrictas, Pictet Asset Management mantiene una lista de vigilancia que incluye países que requieren una diligencia debida adicional por parte de los equipos de inversión antes de invertir.

Para más detalles, consulte la Política de Inversión responsable de Pictet Asset Management (Anexo B).

- Titularidad activa:

El fondo se implicó con la dirección de las empresas sobre cuestiones ASG importantes.

● **¿Cómo se han comportado los indicadores de sostenibilidad?**

Durante el periodo de información, los indicadores de sostenibilidad se comportaron según se indica a continuación:

• **Perfil ASG global**

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos.

Como resultado, el fondo ha conseguido un perfil ambiental, social y de gobernanza (ASG) mejor que el del índice de referencia.

- **Principal incidencia adversa (PIA)**

El fondo utiliza una combinación de enfoques para considerar y, en la medida de lo posible, mitigar las incidencias adversas materiales de nuestras inversiones en la sociedad y el medioambiente, como emisiones de GEI, contaminación atmosférica, pérdida de biodiversidad, emisiones al agua, residuos peligrosos/radioactivos, derechos humanos, normas laborales, corrupción y soborno, y salud pública.

El grado y la forma en que estas incidencias se tuvieron en cuenta dependieron de factores como el contexto específico de la inversión que provoca la incidencia adversa o la disponibilidad de datos fiables.

De conformidad con la política de exclusión de Pictet Asset Management descrita en la Política de Inversión responsable de la empresa (véase el cuadro anterior para consultar las actividades excluidas y los umbrales de exclusión aplicados), el fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente:

Actividades controvertidas (media ponderada de ingresos de la empresa, en %)*:

| | Fondo (%) | Índice de referencia (%) |
|--|-----------|--------------------------|
| Combustibles fósiles y energía nuclear | 3,45 | 3,07 |
| Armas | 0,77 | 0,48 |
| Otras actividades controvertidas | 0,20 | 2,43 |
| No aplicable: | 1,49 | 0,00 |
| No cubierto: | 1,58 | 2,68 |

* Los combustibles fósiles y la energía nuclear incluyen la extracción de carbón térmico y la generación de electricidad, la producción y extracción de petróleo y gas, la extracción de energía de esquisto, la exploración de petróleo y gas en los mares del Ártico y la generación de energía nuclear. Las armas incluyen la contratación militar (servicios de armas y relacionadas con estas), clientes civiles de armas pequeñas (armas de asalto/ho asalto), clientes militares/de las fuerzas y cuerpos de seguridad de armas pequeñas y componentes clave de pequeñas armas. Otras actividades controvertidas incluyen la producción de tabaco, la producción de entretenimiento para adultos, la explotación de juegos de azar, el desarrollo o crecimiento de organismos modificados genéticamente, la producción o venta al por menor de pesticidas. La exposición se basa en datos de terceros y puede no reflejar nuestro punto de vista interno. Pictet Asset Management tiene plena discreción sobre la aplicación de los criterios de exclusión y se reserva el derecho de apartarse de la información de terceros, según el caso, cuando se considere incorrecta o incompleta.

Fuente: Pictet Asset Management, Sustainalytics.

Además, el fondo excluyó a los emisores que tenían exposición a:

(i) PIA 10: Incumplimientos de los principios del Pacto Mundial de las Naciones Unidas y las Directrices para Empresas Multinacionales de la Organización para la Cooperación y el Desarrollo Económicos (OCDE).

(ii) PIA 14: Exposición a armas controvertidas (minas antipersonas, municiones en racimo, armas químicas y armas biológicas)

- **Interacción**

El fondo se implicó con 11 empresas sobre cuestiones ASG (datos a 30.09.2023). Esto incluye diálogos internos, iniciativas de colaboración entre inversores y servicios de implicación de terceros. Para que se considere implicación, el diálogo con una empresa objetivo debe tener un objetivo claro y mensurable en un horizonte temporal predefinido. Es importante señalar que no todas las interacciones rutinarias o de supervisión, aunque impliquen a la alta dirección o al Consejo de administración, se consideran implicaciones en nuestra evaluación.

Fuente: Pictet Asset Management, Sustainalytics.

- **¿... y en comparación con períodos anteriores?**

Esta cuestión se abordará en futuros informes anuales debido a la falta de historial.

● **¿Cuáles han sido los objetivos de las inversiones sostenibles que ha realizado en parte el producto financiero y de qué forma ha contribuido la inversión sostenible a dichos objetivos?**

El fondo no se comprometió a un porcentaje mínimo de inversiones sostenibles.

Sin embargo, *a posteriori*, el fondo invirtió en valores que financian actividades económicas que contribuyeron sustancialmente a objetivos medioambientales y/o sociales como:

Medioambientales

- mitigación del cambio climático o adaptación al mismo
- uso sostenible y protección de los recursos hídricos y marinos
- transición hacia una economía circular
- prevención y control de la contaminación o
- protección y recuperación de la biodiversidad y los ecosistemas

Sociales

- comunidades inclusivas y sostenibles
- nivel de vida adecuado y bienestar para los usuarios finales o
- trabajo digno

Pictet Asset Management utilizó un marco de referencia propio, así como los objetivos de la Taxonomía de la UE, para definir las inversiones sostenibles.

● **¿De qué manera las inversiones sostenibles que el producto financiero ha realizado en parte, no han causado un perjuicio significativo a ningún objetivo de inversión sostenible medioambiental o social?**

Para evitar que las inversiones sostenibles causen un perjuicio significativo a cualquier otro objetivo medioambiental o social, el fondo aplicó los siguientes criterios de selección sobre la base del mejor esfuerzo:

- (i) Exclusiones de emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente (véase la descripción del marco de exclusión de IR).
- (ii) Los emisores asociados a controversias elevadas y graves no se contabilizaron como inversiones sostenibles.

La información se obtuvo de proveedores terceros y/o de análisis interno. La información ASG de terceros proveedores de datos puede haber sido incompleta, inexacta o no estar disponible. Como consecuencia de ello, existía el riesgo de que el Gestor de inversiones evaluara incorrectamente un valor o emisor, dando lugar a la inclusión o exclusión incorrecta de un valor en el fondo. Los datos ASG incompletos, inexactos o no disponibles también pueden actuar como una limitación metodológica a una estrategia de inversión no financiera (como la aplicación de criterios ASG o similares). En los casos identificados, el Gestor de inversiones trató de mitigar este riesgo mediante su propia evaluación. En caso de que las características ASG de un valor mantenido por el fondo cambiaran, dando lugar a la venta del valor, el Gestor de inversiones no acepta responsabilidad alguna en relación con dicho cambio.

● **¿Cómo se han tenido en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?**

Pictet Asset Management realiza un seguimiento de todos los indicadores obligatorios de principales incidencias adversas (incluidos en el Anexo 1 del Reglamento Delegado (UE) 22 / 1288 de la Comisión) cuando disponemos de datos sólidos. Se espera que la calidad de los datos disponibles mejore con el tiempo.

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas de sus inversiones en la sociedad y el medioambiente que se consideran importantes para la estrategia de inversión, mediante un conjunto de decisiones de gestión de cartera, actividades de propiedad activa y exclusión de emisores asociados a conductas o actividades controvertidas. Más información en el informe de PIA de la entidad, disponible en:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=es&bl=PAM>

Las principales incidencias adversas son las incidencias negativas más importantes de las decisiones de inversión sobre los factores de sostenibilidad en relación con asuntos medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

- ¿Se han ajustado las inversiones sostenibles a las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios rectores de las Naciones Unidas sobre las empresas y los derechos humanos?

Para garantizar que la inversión sostenible no causara un perjuicio significativo a ningún objetivo de inversión sostenible, el fondo excluyó a las empresas con infracciones elevadas y graves de (i) los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción o (ii) las Líneas Directrices de la OCDE para Empresas Multinacionales, incluidos los asuntos sociales y laborales graves.

La taxonomía de la UE establece el principio de «no causar un perjuicio significativo», según el cual las inversiones que se ajusten a la taxonomía no deben perjudicar significativamente a los objetivos de la taxonomía de la UE, e incluye criterios específicos de la Unión.

El principio de «no perjudicar de forma significativa» se aplica únicamente a las inversiones subyacentes del producto financiero que contemplan los criterios de la UE relativos a actividades económicas sostenibles desde una perspectiva medioambiental. Las inversiones subyacentes al resto del producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas medioambientalmente sostenibles.

Cualquier otra inversión sostenible tampoco debe perjudicar significativamente a ningún objetivo medioambiental o social.

¿Cómo tiene en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas que se consideran importantes para la estrategia de inversión. Entre las incidencias adversas se incluyeron, entre otras, las emisiones de gases de efecto invernadero (GEI), la contaminación atmosférica, la pérdida de biodiversidad, las emisiones al agua, los residuos peligrosos/radioactivos, las cuestiones sociales y laborales, y la corrupción y el soborno, que se abordaron mediante una combinación de:

(i) decisiones de gestión de carteras

El equipo de inversión puntuó las posiciones según una evaluación de los riesgos medioambientales, sociales y de gobernanza como parte del marco de puntuación del fondo. Los gestores de inversiones determinan las puntuaciones sobre una base cualitativa, basándose en el análisis fundamental y en datos cuantitativos ASG, incluidos los datos sobre la Principal incidencia adversa, los datos ASG facilitados por las empresas y los datos proporcionados por terceros proveedores de datos ASG. El proceso de puntuación del equipo de inversión fue un componente clave del proceso de construcción de la cartera del comportamiento, determinando las ponderaciones objetivo en la cartera.

(ii) implicación

La interacción con los emisores se realizó mediante conversaciones individuales, reuniones de accionistas/bonistas, giras de inversores y/o conferencias telefónicas. Los objetivos de estas interacciones fueron evaluar una organización, supervisar que su estrategia se estaba aplicando conforme a nuestras expectativas y garantizar que los emisores iban camino de cumplir sus metas y objetivos.

Cuando corresponde, nos implicamos con las empresas en relación con cuestiones ASG importantes, como los objetivos de reducción de los GEI, las mejoras en la gobernanza y diversas controversias medioambientales, sociales y de gobernanza, para asegurarnos de que las entendieran y las abordaran eficazmente a corto, medio y largo plazo. Nuestras actividades de implicación combinaron debates dirigidos a nivel interno, iniciativas de colaboración con inversores institucionales y servicios de implicación externos.

(iii) exclusión de emisores asociados a conductas o actividades controvertidas

El fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se definen en la Política de Inversión responsable de la Pictet Asset Management y/o (ii) empresas que infringieron gravemente los principios del Pacto Mundial de la ONU sobre derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción y las armas controvertidas.

¿Cuáles han sido las inversiones principales de este producto financiero?

La lista incluye las inversiones que constituyen la **mayor parte de las inversiones** del producto financiero durante el período de referencia, que es: 01.10.2022 - 30.09.2023

| INVERSIONES DE MAYOR VOLUMEN | SECTOR | % DE ACTIVOS | PAÍS |

¿Cuál ha sido la proporción de inversiones relacionadas con la sostenibilidad?

38,87%

La **asignación de activos** describe el porcentaje de inversiones en activos específicos.

● ¿Cuál ha sido la asignación de activos?

El fondo se ajustó en un 98,53% con características medioambientales o sociales (n.º 1 Ajustadas a características medioambientales o sociales) y tuvo hasta un 1,47% invertido en la categoría Otras (n.º 2 Otras). El 38,87% se asignó a inversiones sostenibles (n.º 1A Sostenibles) y el resto se invirtió en inversiones ajustadas a otras características medioambientales o sociales (n.º 1B Otras características medioambientales o sociales).

n.º 1 Ajustadas a características medioambientales o sociales incluye las inversiones del producto financiero utilizadas para lograr las características medioambientales o sociales que promueve el producto financiero.

n.º 2 Otras incluye el resto de inversiones del producto financiero que ni se ajustan a las características medioambientales o sociales ni pueden considerarse inversiones sostenibles.

La categoría n.º 1 Ajustadas a características medioambientales o sociales abarca:

- la subcategoría n.º 1A Sostenibles, que abarca las inversiones sostenibles con objetivos medioambientales o sociales.

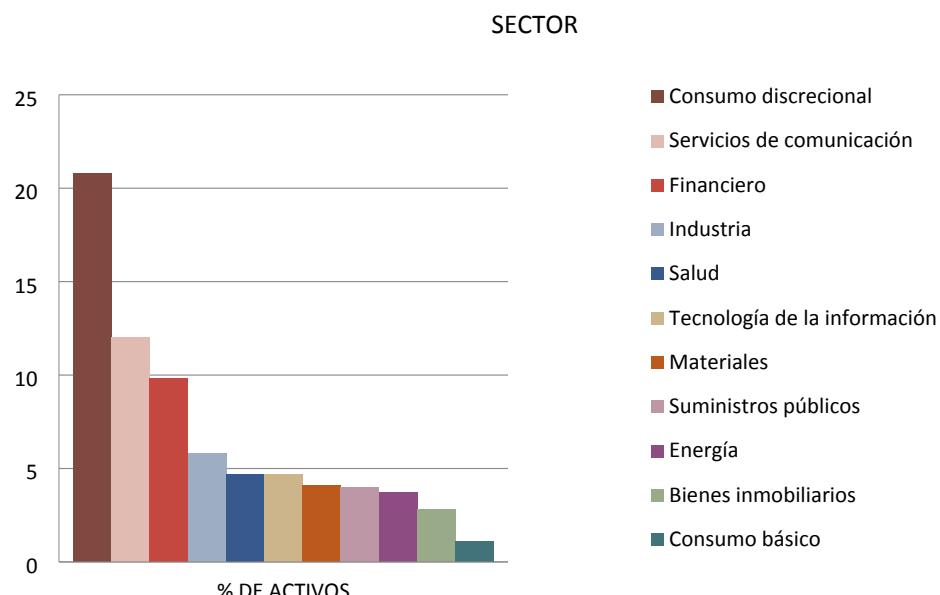

- la subcategoría n.º 1B Otras características medioambientales o sociales, que abarca inversiones ajustadas a las características medioambientales o sociales que no pueden considerarse inversiones sostenibles.

Notas:

- Las inversiones «n.º 1A Sostenibles», «Otras medioambientales» y «Sociales» se calcularon sobre una base de aprobado/suspenso. Incluyen bonos certificados (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.
- Las inversiones ajustadas a la taxonomía verde de la UE se calculan ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a la mitigación del cambio climático y la adaptación al mismo) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.
- A falta de una taxonomía social de la UE, Pictet ha desarrollado un marco de taxonomía social propio. El marco se basa en basado en el Informe sobre taxonomía social publicado por la Plataforma de Finanzas Sostenibles de la UE en 2022. Las actividades admisibles se definen como bienes y servicios beneficiosos desde el punto de vista social que contribuyen sustancialmente a uno de los tres objetivos sociales siguientes: (1) comunidades inclusivas y sostenibles, (2) nivel de vida adecuado y bienestar para los usuarios finales y (3) trabajo digno.

Fuente: Pictet Asset Management, Sustainanalytics, FTSE Green Revenues, Factset RBICS.

● ¿En qué sectores económicos se han realizado las inversiones?

Fuente: Pictet Asset Management, Merrill Lynch.

Estamos evaluando la disponibilidad y la calidad de los datos que nos permitirían divulgar información más granular en futuros informes sobre los sectores y subsectores de la economía que obtienen ingresos a partir de la explotación, la minería, la extracción, la producción, el procesamiento, el almacenamiento, el refinado o la distribución, incluidos el transporte, el almacenamiento y el comercio, de combustibles fósiles, según se definen en el artículo 2, punto (62), del Reglamento (UE) 2018/1999 del Parlamento Europeo y del Consejo.

¿En qué medida se ajustaban las inversiones sostenibles con un objetivo medioambiental a la taxonomía de la UE?

El fondo realizó inversiones en actividades económicas que contribuyeron a los dos primeros objetivos medioambientales (mitigación del cambio climático y adaptación a este), según lo establecido en el artículo 9 del Reglamento (UE) 2020/852.

Las inversiones ajustadas a la taxonomía de la UE se calcularon ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a objetivos medioambientales relevantes) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.

Los datos de ajuste a la Taxonomía verde de la UE proceden de informes públicos. Los cálculos también pueden incluir estimaciones en un número limitado de casos en los que no se disponía de datos sobre la alineación con la Taxonomía verde de la UE. Las estimaciones se realizaron sobre la base del mejor esfuerzo y siguiendo un planteamiento conservador para obtener un resultado prudente.

Los procedimientos de control se han aplicado para verificar en todo momento el cumplimiento del artículo 3 del Reglamento sobre taxonomía de la UE.

Los datos facilitados no han sido verificados por un auditor externo ni revisados por un tercero independiente.

● **¿Invirtió el producto financiero en actividades relacionadas con el gas fósil o la energía nuclear que cumplían con la taxonomía de la UE¹?**

Sí:

En gas fósil En energía nuclear

No

La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permite ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

Para ajustarse a la taxonomía de la UE, los criterios correspondientes al **gas fósil** incluyen limitaciones de emisiones y el paso a la energía renovable o combustibles bajos en carbono de aquí al fin de 2035. Por lo que respecta a la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

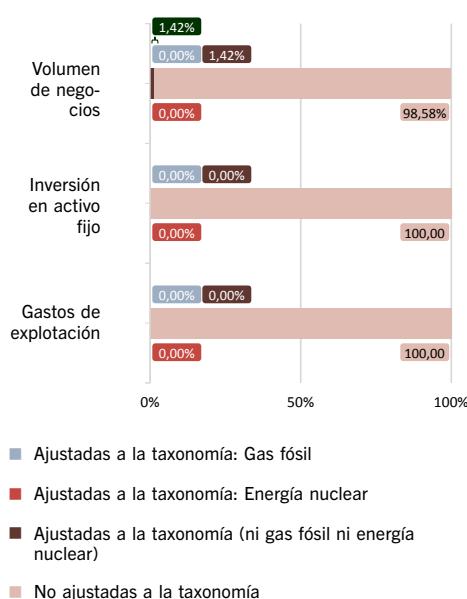

¹ Las actividades relacionadas con el gas fósil o la energía nuclear solo cumplirán la taxonomía de la UE cuando contribuyan a limitar el cambio climático («mitigación del cambio climático») y no perjudiquen significativamente ningún objetivo de la taxonomía de la UE (véase la nota explicativa en el margen izquierdo). Los criterios completos correspondientes a las actividades económicas del gas fósil y la energía nuclear que se ajustan a la taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

Las actividades que se ajustan a la taxonomía se expresan como un porcentaje de:

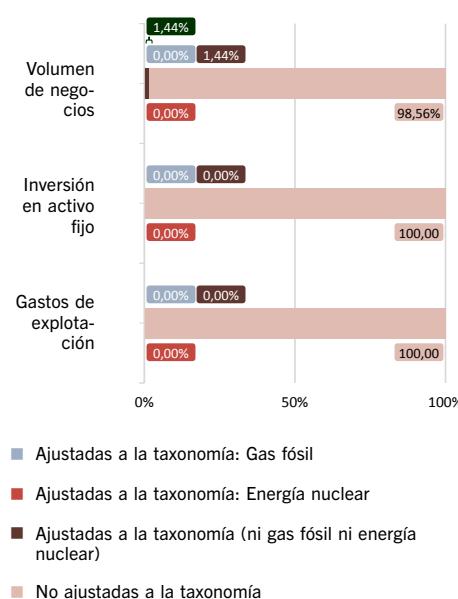

- el **volumen de negocios**, que refleja el «carácter ecológico» de las empresas en las que se invierte en la actualidad;
- la **inversión en activo fijo**, que muestra las inversiones ecológicas realizadas por las empresas en las que se invierte, pertinentes para la transición a una economía verde;
- los **gastos de explotación**, que reflejan las actividades operativas ecológicas de las empresas en las que se invierte.

Los gráficos que figuran a continuación muestran en verde el porcentaje de inversiones que se ajustaban a la taxonomía de la UE. Dado que no existe una metodología adecuada para determinar la adaptación a la taxonomía de los bonos soberanos*, el primer gráfico muestra la adaptación a la taxonomía correspondiente para todas las inversiones del producto financiero, incluidos los bonos soberanos, mientras que el segundo gráfico muestra la adaptación a la taxonomía solo en relación con las inversiones del producto financiero distintas de los bonos soberanos.

1. Ajuste a la taxonomía de las inversiones incluidos los bonos soberanos*

2. Ajuste a la taxonomía de las inversiones excluidos los bonos soberanos*

Este gráfico representa el 98,53% de las inversiones totales.

* A efectos de estos gráficos, los «bonos soberanos» incluyen todas las exposiciones soberanas

Nota:

Utilizamos los ingresos como medida clave para establecer la asignación de objetivos y el ajuste real con la taxonomía de la UE debido a la disponibilidad limitada y a la falta de datos fiables para los gastos de explotación y la inversión en activo fijo.

Fuente: Pictet Asset Management.

● ¿Cuál ha sido la proporción de las inversiones realizadas en actividades de transición y facilitadoras?

La proporción de inversiones realizadas en:

- Actividades de transición: No aplicable*
- Actividades de facilitadoras: No aplicable*

* La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permiten ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

● ¿Qué porcentaje de inversiones se han ajustado a la taxonomía de la UE en comparación con los períodos de referencia anteriores?

No aplicable.

¿Cuál ha sido la proporción de inversiones sostenibles con un objetivo medioambiental no ajustadas a la taxonomía de la UE?

10,02%

Estas inversiones sostenibles no se ajustan a la Taxonomía de la UE porque sus actividades económicas o bien (i) no están cubiertas por la Taxonomía de la UE, o bien (ii) no cumplen los criterios técnicos de selección para lograr una contribución sustancial en el sentido de la Taxonomía de la UE.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta

¿Cuál ha sido la proporción de inversiones socialmente sostenibles?

28,86%

¿Qué inversiones se han incluido en «otras» y cuál ha sido su propósito? ¿ha habido garantías medioambientales o sociales mínimas?

Las «otras» inversiones del fondo incluían posiciones de tesorería mantenidas principalmente para satisfacer los objetivos diarios de liquidez y gestión de riesgos permitidos y previstos por la política de inversión del fondo. Cuando sea preciso, se aplicarán salvaguardias medioambientales o sociales mínimas a los valores subyacentes.

¿Qué medidas se han adoptado para cumplir las características medioambientales o sociales durante el período de referencia?

Durante el periodo de referencia, se alcanzó el objetivo de inversión sostenible siguiendo la estrategia de inversión y respetando los elementos vinculantes.

Los elementos vinculantes del fondo son:

- Exclusión de emisores que:
 - están relacionados con armas nucleares de países que no han firmado el Tratado sobre la No Proliferación de Armas Nucleares (TNP) y otras armas controvertidas
 - obtienen una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, como la extracción de carbón térmico y la generación de electricidad, la exploración y producción no convencional de petróleo y gas, las armas convencionales y armas pequeñas, las armas de contratación militar, la producción de tabaco, la producción de entretenimiento para adultos y las actividades del juego. Para más detalles sobre los umbrales de exclusión aplicables a las actividades anteriores, consulte la Política de Inversión responsable de Pictet Asset Management.
 - incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción
- lograr un perfil ASG igual o mejor que el del índice de referencia
- análisis de criterios ASG de los valores admisibles que abarca al menos el 90% del patrimonio neto o el número de emisores incluidos en la cartera

Además, el fondo se implicó con 11 empresas a 30.09.2023.

¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

● ¿Cómo difería el índice de referencia de un índice general de mercado?

No aplicable.

- **¿Cómo se ha comportado este producto financiero con respecto a los indicadores de sostenibilidad para determinar la conformidad del índice de referencia con las características medioambientales o sociales que promueve?**
No aplicable.
- **¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?**
No aplicable.
- **¿Cómo se ha comportado este producto financiero en comparación con el índice general de mercado?**
No aplicable.

OBJETIVO DE INVERSIÓN SOSTENIBLE

Inversión sostenible significa una inversión en una actividad económica que contribuye a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo a ningún objetivo medioambiental o social y que las empresas en las que se invierte sigan prácticas de buena gobernanza.

La **taxonomía de la UE** es un sistema de clasificación previsto en el Reglamento (UE) 2020/852 por el que se establece una lista de **actividades económicas medioambientalmente sostenibles**. Dicho Reglamento no prevé una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental pueden ajustarse, o no, a la taxonomía.

| ¿ESTE PRODUCTO FINANCIERO TENÍA UN OBJETIVO DE INVERSIÓN SOSTENIBLE? | | | |
|---|--|--------------------------|--|
| <input checked="" type="radio"/> Si | | <input type="radio"/> No | |
| <p><input checked="" type="checkbox"/> Ha realizado inversiones sostenibles con un objetivo medioambiental: 55,75% <input type="checkbox"/> Promovió características medioambientales o sociales y, aunque no tenía como objetivo una inversión sostenible, tuvo un porcentaje del ___% de inversiones sostenibles</p> <p><input checked="" type="checkbox"/> en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE <input type="checkbox"/> con un objetivo medioambiental en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE</p> <p><input checked="" type="checkbox"/> en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE <input type="checkbox"/> con un objetivo medioambiental en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE</p> <p><input checked="" type="checkbox"/> <input type="checkbox"/> con un objetivo social</p> | | | |
| <p><input checked="" type="checkbox"/> Ha realizado inversiones sostenibles con un objetivo social: 38,77% <input type="checkbox"/> Ha promovido características medioambientales o sociales, pero no ha realizado ninguna inversión sostenible</p> | | | |

Nota: Las inversiones sostenibles se calcularon sobre una base de aprobado/suspenso, incluyendo bonos con etiqueta (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% (medida por ingresos, EBIT, valor de empresa o indicadores similares) a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.

¿En qué grado se ha cumplido el objetivo de inversión sostenible de este producto financiero?

Principales maneras por las que el fondo logró su objetivo de sostenibilidad:

- Impacto positivo:

El fondo logró un impacto medioambiental y/o social positivo, invirtiendo principalmente en

(i) empresas cuyas actividades están relacionadas en gran medida con productos y servicios que apoyan la transición energética, la economía circular, la eficiencia energética, la calidad y el suministro del agua, la salud y la integración social

(ii) bonos certificados ASG, incluidos, entre otros, bonos verdes y bonos sociales

(iii) empresas con una baja huella medioambiental, teniendo cuenta, entre otras cosas, la intensidad de carbono

No se ha designado ningún índice de referencia con el fin de lograr el objetivo de inversión sostenible.

Los valores admisibles fueron:

(i) valores emitidos por empresas con una proporción significativa de actividades (según los ingresos, los beneficios antes de intereses e impuestos, el valor de empresa o similares) derivadas de dichas actividades económicas

(ii) en su caso, bonos con etiqueta verde y/o social emitidos por empresas o países cuyos ingresos se destinan a financiar dichas actividades económicas.

- Exclusiones basadas en normas y valores:

El fondo excluyó los emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente o que incumplen de forma grave las normas internacionales, según se detalla a continuación:

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

| Actividad | Umbrales de ingresos |
|---|----------------------|
| Combustibles fósiles y energía nuclear | |
| Extracción de carbón térmico | > 25% |
| Generación de energía térmica de carbón | > 25% |
| Producción de petróleo y gas | > 25% |
| Extracción de arenas bituminosas | > 10% |
| Extracción de energía de esquisto | > 10% |
| Exploración de petróleo y gas en el Ártico | > 10% |
| Generación de energía nuclear | > 50% |
| Armas | |
| Producción de armas controvertidas[1] | > 0% |
| Armas de contratación militar | > 10% |
| Productos y/o servicios relacionados con armas de contratación militar | > 50% |
| Clientes civiles de armas pequeñas (armas de asalto) | > 10% |
| Clientes civiles de armas pequeñas (armas de no asalto) | > 10% |
| Clientes militares/de fuerzas del orden de armas pequeñas | > 25% |
| Componentes clave de armas pequeñas | > 25% |
| Otras actividades controvertidas | |
| Producción de entretenimiento para adultos | > 10% |
| Operaciones de juego | > 10% |
| Desarrollo de plantas y semillas modificadas genéticamente | > 25% |
| Cultivo de plantas y semillas modificadas genéticamente | > 25% |
| Producción de plaguicidas | > 10% |
| Venta al por menor de plaguicidas | > 10% |
| Producción de productos de tabaco | > 10% |
| Exclusiones de empresas por incumplimiento de normas internacionales | Excluidas |
| Empresas que incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción | Sí |
| Exclusiones de países | Excluidas |
| Países (i) incluidos en la lista de Estados patrocinadores del terrorismo, según la definición de la Oficina de Control de Activos Extranjeros de EE. UU.[2] o (ii) sujetos a sanciones financieras de la UE contra bancos centrales y/o empresas de propiedad estatal. | Sí |
| Países (i) clasificados como de muy alto o alto riesgo en el Índice de Estados Frágiles o (ii) afectados por conflictos violentos según la definición del Banco Mundial. | Sí |

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

Países (i) incluidos en la lista de «alerta» del Índice de Estados Frágiles o (ii) sujetos a sanciones relacionadas con la exportación por parte de la UE. Lista de vigilancia[3]

[1] Entre las armas controvertidas se encuentran las minas antipersona, las municiones de racimo, las armas biológicas y químicas (incluido el fósforo blanco) y las armas nucleares procedentes de países no firmantes del Tratado de No Proliferación de Armas Nucleares (TNP).

[2] «Estado patrocinador del terrorismo» es una designación aplicada por el Departamento de Estado de Estados Unidos a países que repetidamente han prestado apoyo a actos de terrorismo internacional.

[3] Además de las exclusiones estrictas, Pictet Asset Management mantiene una lista de vigilancia que incluye países que requieren una diligencia debida adicional por parte de los equipos de inversión antes de invertir.

Para más detalles, consulte la Política de Inversión responsable de Pictet Asset Management (Anexo B).

Además de las exclusiones mencionadas, basadas en la Política de Inversión responsable de Pictet Asset Management, la estrategia aplicó límites de exclusión más estrictos basados en directrices internas.

- Bonos con etiqueta:

El fondo invirtió en parte en bonos con etiqueta medioambiental y/o social.

- Intensidad de carbono:

El fondo invirtió en empresas con una baja huella de carbono, teniendo cuenta, entre otras cosas, la intensidad de carbono.

- Titularidad activa:

El fondo se implicó con la dirección de las empresas sobre cuestiones ASG importantes.

- Inversiones sostenibles:

Pictet Asset Management utilizó un marco propio, así como los objetivos de la Taxonomía de la UE, para definir las inversiones sostenibles.

El fondo invirtió en valores que financiaban actividades económicas que contribuyeron sustancialmente a objetivos medioambientales y/o sociales como:

Medioambientales

- mitigación del cambio climático o adaptación al mismo
- suso sostenible y protección de los recursos hídricos y marinos
- transición hacia una economía circular
- prevención y control de la contaminación o
- protección y recuperación de la biodiversidad y el ecosistema

Sociales

- comunidades inclusivas y sostenibles
- nivel de vida adecuado y bienestar para los usuarios finales o
- trabajo digno

● **¿Cómo se han comportado los indicadores de sostenibilidad?**

Durante el periodo de información, los indicadores de sostenibilidad se comportaron según se indica a continuación:

- **Exposición a empresas que obtienen una parte significativa de sus ingresos, EBIT, valor de empresa o parámetros similares de actividades económicas que contribuyen a los objetivos medioambientales o sociales, y bonos con etiqueta cuando sea relevante para la clase de activos (inversiones sostenibles):**

94,52%

- **Exposición a ingresos de actividades económicas que contribuyen a la mitigación del cambio climático y/o a la adaptación al mismo (inversiones ajustadas a la taxonomía de la UE):**

4,55%

En el informe del próximo año se facilitará información adicional sobre objetivos medioambientales y/o sociales específicos.

- **Exposición a bonos con etiqueta verde y/o social**

Durante el periodo de referencia, el fondo tuvo una exposición del 48,63% a bonos certificados.

Los indicadores de sostenibilidad miden cómo se logran los objetivos sostenibles de este producto financiero.

Los fondos certificados incluyen bonos medioambientales, sociales y de sostenibilidad. La clasificación de los bonos certificados se proporciona por emisor de bonos y puede no reflejar nuestro punto de vista interno.

- **Principal incidencia adversa (PIA)**

El fondo utiliza una combinación de enfoques para considerar y, en la medida de lo posible, mitigar las incidencias adversas materiales de sus inversiones en la sociedad y el medioambiente, como emisiones de GEI, contaminación atmosférica, pérdida de biodiversidad, emisiones al agua, residuos peligrosos/radioactivos, derechos humanos, normas laborales, corrupción y soborno, y salud pública.

El grado y la forma en que estas incidencias se tuvieron en cuenta dependieron de factores como el contexto específico de la inversión que provoca la incidencia adversa o la disponibilidad de datos fiables.

De conformidad con la política de exclusión de Pictet Asset Management descrita en la Política de Inversión responsable de la empresa (véase el cuadro anterior para consultar las actividades excluidas y los umbrales de exclusión aplicados), el fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se detalla a continuación:

Actividades controvertidas (media ponderada de ingresos de la empresa, en %)*:

| | Fondo (%) | Índice de referencia (%) |
|--|-----------|--------------------------|
| Combustibles fósiles y energía nuclear | 0,33 | 5,47 |
| Armas | 0,02 | 0,83 |
| Otras actividades controvertidas | 0,02 | 1,16 |
| No aplicable: | 20,46 | 0,01 |
| No cubierto: | 0,16 | 1,79 |

* Los combustibles fósiles y la energía nuclear incluyen la extracción de carbón térmico y la generación de electricidad, la producción y extracción de petróleo y gas, la extracción de energía de esquisto, la exploración de petróleo y gas en los mares del Ártico y la generación de energía nuclear. Las armas incluyen la contratación militar (servicios de armas y relacionadas con estas), clientes civiles de armas pequeñas (armas de asalto/no asalto), clientes militares/de las fuerzas y cuerpos de seguridad de armas pequeñas y componentes clave de pequeñas armas. Otras actividades controvertidas incluyen la producción de tabaco, la producción de entretenimiento para adultos, la explotación de juegos de azar, el desarrollo o crecimiento de organismos modificados genéticamente, la producción o venta al por menor de pesticidas. La exposición se basa en datos de terceros y puede no reflejar nuestro punto de vista interno. Pictet Asset Management tiene plena discreción sobre la aplicación de los criterios de exclusión y se reserva el derecho de apartarse de la información de terceros, según el caso, cuando se considere incorrecta o incompleta.

Fuente: Pictet Asset Management, Sustainalytics.

Además, el fondo excluyó a los emisores que tenían exposición a:

- (i) PIA 10: Incumplimientos de los principios del Pacto Mundial de las Naciones Unidas y las Directrices para Empresas Multinacionales de la Organización para la Cooperación y el Desarrollo Económicos (OCDE).
- (ii) PIA 14: Exposición a armas controvertidas (minas antipersonas, municiones en racimo, armas químicas y armas biológicas)

- **Interacción**

El fondo se implicó con 25 empresas sobre cuestiones ASG (datos a 30.09.2023). Esto incluye diálogos internos, iniciativas de colaboración entre inversores y servicios de implicación de terceros. Para que se considere implicación, el diálogo con una empresa objetivo debe tener un objetivo claro y mensurable en un horizonte temporal predefinido. Es importante señalar que no todas las interacciones rutinarias o de supervisión, aunque impliquen a la alta dirección o al Consejo de administración, se consideran implicaciones en nuestra evaluación.

Fuente: Pictet Asset Management, Sustainalytics.

- **¿... y en comparación con períodos anteriores?**

Esta cuestión se abordará en futuros informes anuales debido a la falta de historial.

● **¿De qué manera las inversiones sostenibles no han causado un perjuicio significativo a ningún objetivo medioambiental o social?**

Para evitar que las inversiones sostenibles causen un perjuicio significativo a cualquier otro objetivo medioambiental o social, el fondo aplicó los siguientes criterios de selección sobre la base del mejor esfuerzo:

(i) Exclusiones de emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente (véase la descripción del marco de exclusión de IR).

(ii) Los emisores asociados a controversias elevadas y graves se excluyeron.

La información se obtuvo de proveedores terceros y/o de análisis interno. La información ASG de terceros proveedores de datos puede haber sido incompleta, inexacta o no estar disponible. Como consecuencia de ello, existía el riesgo de que el Gestor de inversiones evaluara incorrectamente un valor o emisor, dando lugar a la inclusión o exclusión incorrecta de un valor en el fondo. Los datos ASG incompletos, inexactos o no disponibles también pueden actuar como una limitación metodológica a una estrategia de inversión no financiera (como la aplicación de criterios ASG o similares). En los casos identificados, el Gestor de inversiones trató de mitigar este riesgo mediante su propia evaluación. En caso de que las características ASG de un valor mantenido por el fondo cambiaran, dando lugar a la venta del valor, el Gestor de inversiones no acepta responsabilidad alguna en relación con dicho cambio.

● **¿Cómo se han tenido en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?**

Pictet Asset Management realiza un seguimiento de todos los indicadores obligatorios de principales incidencias adversas (incluidos en el Anexo 1 del Reglamento Delegado (UE) 22 / 1288 de la Comisión) cuando disponemos de datos sólidos. Se espera que la calidad y la disponibilidad de los datos mejoren con el tiempo.

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas de sus inversiones en la sociedad y el medioambiente que se consideran importantes para la estrategia de inversión, mediante un conjunto de decisiones de gestión de cartera, actividades de propiedad activa y exclusión de emisores asociados a conductas o actividades controvertidas.

Más información en el informe de PIA de la entidad, disponible en:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&sla=es&bl=PAM>

● **¿Se han ajustado las inversiones sostenibles a las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios rectores de las Naciones Unidas sobre las empresas y los derechos humanos?**

Para garantizar que la inversión sostenible no causara un perjuicio significativo a ningún objetivo de inversión sostenible, el fondo excluyó a las empresas con infracciones elevadas y graves de (i) los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción o (ii) las Líneas Directrices de la OCDE para Empresas Multinacionales, incluidos los asuntos sociales y laborales graves.

¿Cómo tiene en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas que se consideran importantes para la estrategia de inversión. Entre las incidencias adversas se incluyeron, entre otras, las emisiones de gases de efecto invernadero (GEI), la contaminación atmosférica, la pérdida de biodiversidad, las emisiones al agua, los residuos peligrosos/radioactivos, las cuestiones sociales y laborales, y la corrupción y el soborno, que se abordaron mediante una combinación de:

(i) decisiones de gestión de carteras

El equipo de inversión puntuó las posiciones según una evaluación de los riesgos medioambientales, sociales y de gobernanza, así como la exposición a inversiones sostenibles, como parte del marco de puntuación del fondo. Las puntuaciones se determinan de forma cualitativa por los gestores de inversión, basándose en estudios fundamentales y datos cuantitativos ASG, incluidos los datos sobre el Principio de Impacto Negativo, los datos ASG facilitados por las empresas y los datos proporcionados por terceros proveedores de datos ASG. El proceso de puntuación del equipo de inversión fue un componente clave del proceso de construcción de la cartera del comportamiento, determinando las ponderaciones objetivo en la cartera.

(ii) implicación

La interacción con los emisores se realizó mediante conversaciones individuales, reuniones de accionistas/bonistas, giras de inversores y/o conferencias telefónicas. Los objetivos de estas interacciones fueron evaluar una organización, supervisar que su estrategia se estaba aplicando conforme a nuestras expectativas y garantizar que los emisores iban camino de cumplir sus metas y objetivos.

Cuando correspondió, nos implicamos con los emisores para abordar preocupaciones importantes en materia de ASG, mejorar las prácticas de sostenibilidad de las empresas o implicarnos en temas de impacto positivo para asegurarnos de que las entendían plenamente y las abordaban eficazmente a corto, medio y largo plazo. Nuestras actividades de implicación combinaron debates dirigidos a nivel interno, iniciativas de colaboración con inversores institucionales y servicios de implicación externos.

(iii) exclusión de emisores asociados a conductas o actividades controvertidas

El fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se definen en la Política de Inversión responsable de la Pictet Asset Management y/o (ii) empresas que infringieron gravemente los principios del Pacto Mundial de la ONU sobre derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción y las armas controvertidas.

¿Cuáles han sido las inversiones principales de este producto financiero?

La lista incluye las inversiones que constituyen la mayor parte de las inversiones del producto financiero durante el período de referencia, que es: 01.10.2022 - 30.09.2023

| INVERSIONES DE MAYOR VOLUMEN | SECTOR | % DE ACTIVOS | PAÍS |
|--|----------------------|--------------|----------------|

Fuente: Pictet Asset Management, Merrill Lynch.

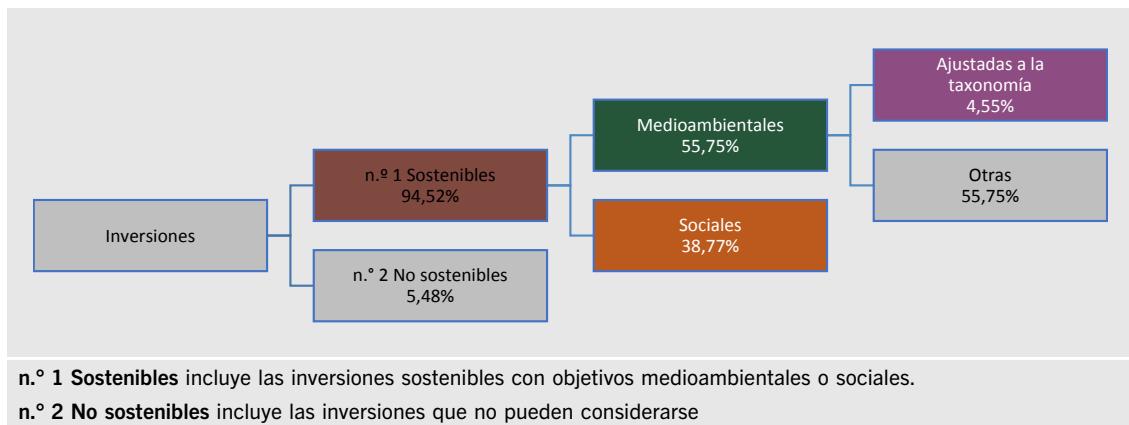

¿Cuál ha sido la proporción de inversiones relacionadas con la sostenibilidad?

94,52%

● ¿Cuál ha sido la asignación de activos?

El fondo asignó el 94,52% de sus activos a inversiones sostenibles (n.º 1 Sostenibles) y el 5,48% a Inversiones no sostenibles (n.º 2 No sostenibles). El 55,75% de sus activos se han asignado a objetivos medioambientales y el 38,77% a objetivos sociales.

La asignación de activos describe el porcentaje de inversiones en activos específicos.

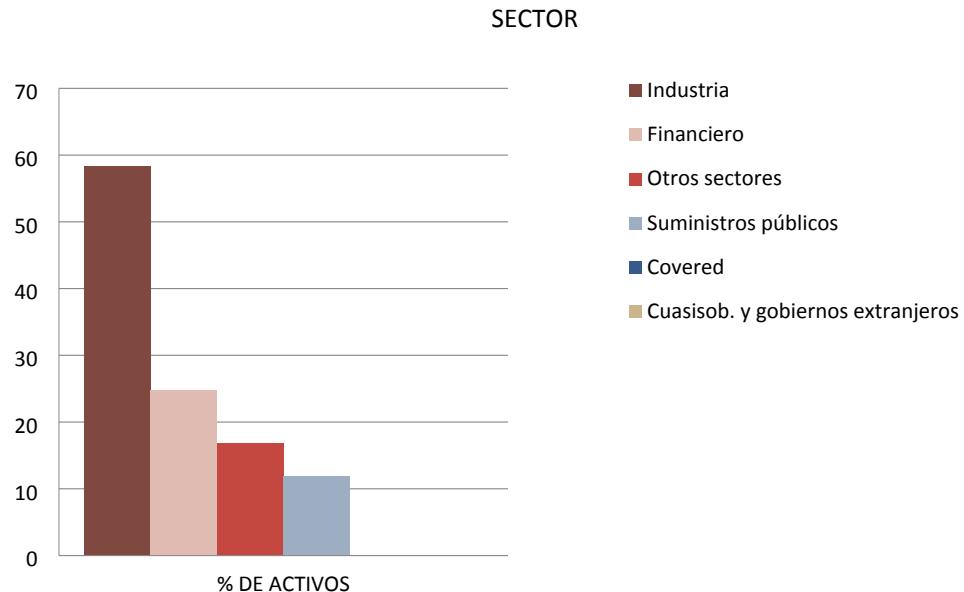

Notas:

- Las inversiones «n.º 1A Sostenibles», «Otras medioambientales» y «Sociales» se calcularon sobre una base de aprobado/suspenso. Incluyen bonos certificados (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.
- Las inversiones ajustadas a la taxonomía verde de la UE se calculan ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a la mitigación del cambio climático y la adaptación al mismo) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.
- A falta de una taxonomía social de la UE, Pictet ha desarrollado un marco de taxonomía social propio, basado en el Informe sobre taxonomía social publicado por la Plataforma de Finanzas Sostenibles de la UE en 2022. Las actividades admisibles se definen como bienes y servicios que contribuyen sustancialmente a uno de los tres objetivos siguientes: (1) comunidades inclusivas y sostenibles, (2) nivel de vida adecuado y bienestar para los usuarios finales y (3) trabajo digno.

Fuente: Pictet Asset Management, FTSE Green revenues, Factset RBICS.

● ¿En qué sectores económicos se han realizado las inversiones?

Fuente: Pictet Asset Management, Merrill Lynch.

Estamos evaluando la disponibilidad y la calidad de los datos que nos permitirían divulgar información más granular en futuros informes sobre los sectores y subsectores de la economía que obtienen ingresos a partir de la explotación, la minería, la extracción, la producción, el procesamiento, el almacenamiento, el refinado o la distribución, incluidos el transporte, el almacenamiento y el comercio, de combustibles fósiles, según se definen en el artículo 2, punto (62), del Reglamento (UE) 2018/1999 del Parlamento Europeo y del Consejo.

¿En qué medida se ajustaban las inversiones sostenibles con un objetivo medioambiental a la

taxonomía de la UE?

El fondo realizó inversiones en actividades económicas que contribuyeron a los dos primeros objetivos medioambientales (mitigación del cambio climático y adaptación a este), según lo establecido en el artículo 9 del Reglamento (UE) 2020/852.

Las inversiones ajustadas a la taxonomía de la UE se calcularon ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a objetivos medioambientales relevantes) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspensión.

Los datos de ajuste a la Taxonomía verde de la UE proceden de informes públicos. Los cálculos también pueden incluir estimaciones en un número limitado de casos en los que no se disponía de datos sobre la alineación con la Taxonomía verde de la UE. Las estimaciones se realizaron sobre la base del mejor esfuerzo y siguiendo un planteamiento conservador para obtener un resultado prudente.

Los procedimientos de control se han aplicado para verificar en todo momento el cumplimiento del artículo 3 del Reglamento sobre taxonomía de la UE.

Los datos facilitados no han sido verificados por un auditor externo ni revisados por un tercero independiente.

● **¿Invirtió el producto financiero en actividades relacionadas con el gas fósil o la energía nuclear que cumplían con la taxonomía de la UE¹?**

Sí:

En gas fósil En energía nuclear

No

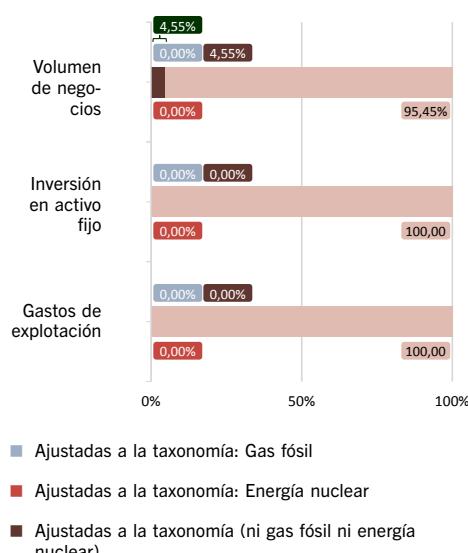

La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permite ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

Para ajustarse a la taxonomía de la UE, los criterios correspondientes al **gas fósil** incluyen limitaciones de emisiones y el paso a la energía renovable o combustibles bajos en carbono de aquí al fin de 2035. Por lo que respecta a la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

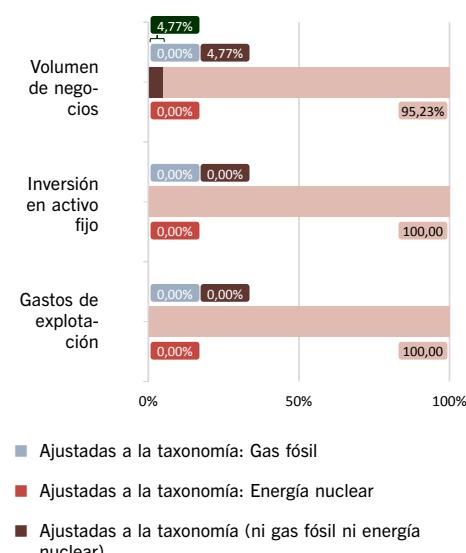

Las actividades que se ajustan a la taxonomía se expresan como un porcentaje de:
 - El **volumen de negocios**, que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas en las que se invierte.
 - La **inversión en activo fijo**, que muestra las inversiones ecológicas realizadas por las empresas en las que se invierte, por ejemplo, para la transición a una economía verde.
 - Los **gastos de explotación**, que reflejan las actividades operativas ecológicas de las empresas en las que se invierte.

Los gráficos que figuran a continuación muestran en verde el porcentaje de inversiones que se ajustaban a la taxonomía de la UE. Dado que no existe una metodología adecuada para determinar la adaptación a la taxonomía de los bonos soberanos*, el primer gráfico muestra la adaptación a la taxonomía correspondiente para todas las inversiones del producto financiero, incluidos los bonos soberanos, mientras que el segundo gráfico muestra la adaptación a la taxonomía solo en relación con las inversiones del producto financiero distintas de los bonos soberanos.

1. Ajuste a la taxonomía de las inversiones incluidos los bonos soberanos*

2. Ajuste a la taxonomía de las inversiones excluidos los bonos soberanos*

¹ Las actividades relacionadas con el gas fósil o la energía nuclear solo cumplirán la taxonomía de la UE cuando contribuyan a limitar el cambio climático («mitigación del cambio climático») y no perjudiquen significativamente ningún objetivo de la taxonomía de la UE (véase la nota explicativa en el margen izquierdo). Los criterios completos correspondientes a las actividades económicas del gas fósil y la energía nuclear que se ajustan a la taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

■ No ajustadas a la taxonomía

■ No ajustadas a la taxonomía

Este gráfico representa el 95,1% de las inversiones totales.

* A efectos de estos gráficos, los «bonos soberanos» incluyen todas las exposiciones soberanas

Nota:

Utilizamos los ingresos como medida clave para establecer la asignación de objetivos y el ajuste real con la taxonomía de la UE debido a la disponibilidad limitada y a la falta de datos fiables para los gastos de explotación y la inversión en activo fijo.

Fuente: Pictet Asset Management.

● **¿Cuál ha sido la proporción de las inversiones realizadas en actividades de transición y facilitadoras?**

La proporción de inversiones realizadas en:

- Actividades de transición: No aplicable*
- Actividades de facilitadoras: No aplicable*

* La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permiten ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

● **¿Qué porcentaje de inversiones se han ajustado a la taxonomía de la UE en comparación con los períodos de referencia anteriores?**

No aplicable.

¿Cuál ha sido la proporción de inversiones sostenibles con un objetivo medioambiental no ajustadas a la taxonomía de la UE?

55,75%

Estas inversiones sostenibles no se ajustan a la Taxonomía de la UE porque sus actividades económicas o bien (i) no están cubiertas por la Taxonomía de la UE, o bien (ii) no cumplen los criterios técnicos de selección para lograr una contribución sustancial en el sentido de la Taxonomía de la UE.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta los criterios para las actividades económicas medioambientalmente sostenibles con arreglo a la taxonomía de la UE.

¿Cuál ha sido la proporción de inversiones socialmente sostenibles?

38,77%

¿Qué inversiones se han incluido en «No sostenibles» y cuál ha sido su propósito? ¿Ha habido garantías medioambientales o sociales mínimas?

Las «otras» inversiones del fondo incluían posiciones de tesorería mantenidas principalmente para satisfacer los objetivos diarios de liquidez y gestión de riesgos permitidos y previstos por la política de inversión del fondo. Cuando sea preciso, se aplicarán salvaguardias medioambientales o sociales mínimas a los valores subyacentes.

¿Qué medidas se han adoptado para lograr el objetivo de inversión sostenible durante el período de referencia?

Durante el periodo de referencia, se alcanzó el objetivo de inversión sostenible siguiendo la estrategia de inversión y respetando los elementos vinculantes.

Los elementos vinculantes del fondo son:

- inversiones en empresas cuyas actividades están relacionadas en gran medida con, entre otras cosas, productos y servicios que apoyan la transición energética, la economía circular, la eficiencia energética, la calidad y el suministro del agua, la salud y la integración social (según los ingresos, el valor de empresa, los beneficios antes de intereses e impuestos o similares)
- exposición mínima del 80% a inversiones sostenibles, incluyendo, entre otros, bonos con etiqueta medioambiental y/o social
- una huella de carbono inferior a la del índice de referencia
- Exclusión de emisores que:
 - están relacionados con armas nucleares de países que no han firmado el Tratado sobre la No Proliferación de Armas Nucleares (TNP) y otras armas controvertidas
 - obtienen una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, como la extracción de carbón térmico y la generación de electricidad, la exploración y producción no convencional de petróleo y gas, la producción de petróleo y gas convencional, la generación de energía nuclear, las armas convencionales y armas pequeñas, la contratación militar de armas y productos y servicios relacionados con las armas, la producción de tabaco, la producción de entretenimiento para adultos, las actividades del juego, el desarrollo y crecimiento de organismos modificados genéticamente, la producción y comercialización de pesticidas. Para más detalles sobre los umbrales de exclusión aplicables a las actividades anteriores, consulte la Política de Inversión responsable de Pictet Asset Management.
 - incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción
- análisis de criterios ASG de los valores admisibles que abarca al menos el 90% del patrimonio neto o el número de emisores incluidos en la cartera

Además, el fondo se implicó con 25 empresas a 30.09.2023.

¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No se ha designado ningún índice de referencia con el fin de lograr el objetivo de inversión sostenible.

Los índices de referencia de sostenibilidad son índices que miden si el producto financiero logra el objetivo de sostenibilidad.

● ¿Cómo difería el índice de referencia de un índice general de mercado?

No aplicable.

● ¿Cómo se ha comportado este producto financiero con respecto a los indicadores de sostenibilidad para determinar la conformidad del índice de referencia con las características medioambientales o sociales que promueve?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice general de mercado?

No aplicable.

Identificador de entidad jurídica: **5493001BLDF0NBC83W95**

CARACTERÍSTICAS MEDIOAMBIENTALES O SOCIALES

Inversión sostenible
significa una inversión en una actividad económica que contribuye a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo a ningún objetivo medioambiental o social y que las empresas en las que se invierte sigan prácticas de buena gobernanza.

La **taxonomía de la UE** es un sistema de clasificación previsto en el Reglamento (UE) 2020/852 por el que se establece una lista de **actividades económicas medioambientalmente sostenibles**. Dicho Reglamento no prevé una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental pueden ajustarse, o no, a la taxonomía.

| ¿ESTE PRODUCTO FINANCIERO TENÍA UN OBJETIVO DE INVERSIÓN SOSTENIBLE? | | | |
|--|--|-------------------------------------|--|
| <input checked="" type="radio"/> Si | | <input checked="" type="radio"/> No | |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo medioambiental: ____% | <input checked="" type="checkbox"/> | Promovió características medioambientales o sociales y, aunque no tenía como objetivo una inversión sostenible, tuvo un porcentaje del 25,31% de inversiones sostenibles |
| <input type="checkbox"/> | en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> | con un objetivo medioambiental en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> | en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> | con un objetivo medioambiental en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo social: ____% | <input type="checkbox"/> | <input checked="" type="checkbox"/> con un objetivo social |
| <input type="checkbox"/> | | <input type="checkbox"/> | Ha promovido características medioambientales o sociales, pero no ha realizado ninguna inversión sostenible |

Nota: Las inversiones sostenibles se calcularon sobre una base de aprobado/suspenso, incluyendo bonos con etiqueta (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% (medida por ingresos, EBIT, valor de empresa o indicadores similares) a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.

¿En qué grado se han cumplido las características medioambientales o sociales que promueve este producto financiero?

Las características medioambientales y sociales de este producto financiero se promovieron utilizando:

- Inclinación positiva:

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos y, como resultado, tuvo un perfil medioambiental, social y de gobernanza (ASG) mejor que el del índice de inversión. El índice ICE BofA Euro High Yield Ex Financial BB-B 1-3 Years Constrained se utilizó para medir la inclinación positiva; sin embargo, no se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

- Exclusiones basadas en normas y valores:

El fondo excluyó los emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente o que incumplen de forma grave las normas internacionales, según se detalla a continuación:

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

Actividad

Umbrales de ingresos

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

| | |
|---|------------------------------------|
| Combustibles fósiles y energía nuclear | |
| Extracción de carbón térmico | > 25% |
| Generación de energía térmica de carbón | > 25% |
| Extracción de arenas bituminosas | > 25% |
| Extracción de energía de esquisto | > 25% |
| Exploración de petróleo y gas en el Ártico | > 10% |
| Armas | |
| Producción de armas controvertidas ^[1] | > 0% |
| Armas de contratación militar | > 10% |
| Clientes civiles de armas pequeñas (armas de asalto) | > 10% |
| Clientes civiles de armas pequeñas (armas de no asalto) | > 10% |
| Clientes militares/de fuerzas del orden de armas pequeñas | > 25% |
| Componentes clave de armas pequeñas | > 25% |
| Otras actividades controvertidas | |
| Producción de entretenimiento para adultos | > 10% |
| Operaciones de juego | > 10% |
| Producción de productos de tabaco | > 10% |
| Exclusiones de empresas por incumplimiento de normas internacionales | Excluidas |
| Empresas que incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción | Sí |
| Exclusiones de países | Excluidas |
| Países (i) incluidos en la lista de Estados patrocinadores del terrorismo, según la definición de la Oficina de Control de Activos Extranjeros de EE. UU. ^[2] o (ii) sujetos a sanciones financieras de la UE contra bancos centrales y/o empresas de propiedad estatal. | Sí |
| Países (i) clasificados como de muy alto o alto riesgo en el Índice de Estados Frágiles o (ii) afectados por conflictos violentos según la definición del Banco Mundial. | Sí |
| Países (i) incluidos en la lista de «alerta» del Índice de Estados Frágiles o (ii) sujetos a sanciones relacionadas con la exportación por parte de la UE. | Lista de vigilancia ^[3] |

^[1] Entre las armas controvertidas se encuentran las minas antipersona, las municiones de racimo, las armas biológicas y químicas (incluido el fósforo blanco) y las armas nucleares procedentes de países no firmantes del Tratado de No Proliferación de Armas Nucleares (TNP).

^[2] «Estado patrocinador del terrorismo» es una designación aplicada por el Departamento de Estado de Estados Unidos a países que repetidamente han prestado apoyo a actos de terrorismo internacional.

^[3] Además de las exclusiones estrictas, Pictet Asset Management mantiene una lista de vigilancia que incluye países que requieren una diligencia debida adicional por parte de los equipos de inversión antes de invertir.

Para más detalles, consulte la Política de Inversión responsable de Pictet Asset Management (Anexo B).

- Titularidad activa:

El fondo se implicó con la dirección de las empresas sobre cuestiones ASG importantes.

● **¿Cómo se han comportado los indicadores de sostenibilidad?**

Durante el periodo de información, los indicadores de sostenibilidad se comportaron según se indica a continuación:

• **Perfil ASG global**

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos.

Como resultado, el fondo ha conseguido un perfil ambiental, social y de gobernanza (ASG) mejor que el del índice de referencia.

- **Principal incidencia adversa (PIA)**

El fondo utiliza una combinación de enfoques para considerar y, en la medida de lo posible, mitigar las incidencias adversas materiales de nuestras inversiones en la sociedad y el medioambiente, como emisiones de GEI, contaminación atmosférica, pérdida de biodiversidad, emisiones al agua, residuos peligrosos/radioactivos, derechos humanos, normas laborales, corrupción y soborno, y salud pública.

El grado y la forma en que estas incidencias se tuvieron en cuenta dependieron de factores como el contexto específico de la inversión que provoca la incidencia adversa o la disponibilidad de datos fiables.

De conformidad con la política de exclusión de Pictet Asset Management descrita en la Política de Inversión responsable de la empresa (véase el cuadro anterior para consultar las actividades excluidas y los umbrales de exclusión aplicados), el fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente:

Actividades controvertidas (media ponderada de ingresos de la empresa, en %)*:

| | Fondo (%) | Índice de referencia (%) |
|--|-----------|--------------------------|
| Combustibles fósiles y energía nuclear | 0,45 | 3,21 |
| Armas | 0,10 | 1,09 |
| Otras actividades controvertidas | 0,05 | 2,17 |
| No aplicable: | 1,38 | 0,00 |
| No cubierto: | 21,61 | 12,58 |

* Los combustibles fósiles y la energía nuclear incluyen la extracción de carbón térmico y la generación de electricidad, la producción y extracción de petróleo y gas, la extracción de energía de esquisto, la exploración de petróleo y gas en los mares del Ártico y la generación de energía nuclear. Las armas incluyen la contratación militar (servicios de armas y relacionadas con estas), clientes civiles de armas pequeñas (armas de asalto/ho asalto), clientes militares/de las fuerzas y cuerpos de seguridad de armas pequeñas y componentes clave de pequeñas armas. Otras actividades controvertidas incluyen la producción de tabaco, la producción de entretenimiento para adultos, la explotación de juegos de azar, el desarrollo o crecimiento de organismos modificados genéticamente, la producción o venta al por menor de pesticidas. La exposición se basa en datos de terceros y puede no reflejar nuestro punto de vista interno. Pictet Asset Management tiene plena discreción sobre la aplicación de los criterios de exclusión y se reserva el derecho de apartarse de la información de terceros, según el caso, cuando se considere incorrecta o incompleta.

Fuente: Pictet Asset Management, Sustainalytics.

Además, el fondo excluyó a los emisores que tenían exposición a:

(i) PIA 10: Incumplimientos de los principios del Pacto Mundial de las Naciones Unidas y las Directrices para Empresas Multinacionales de la Organización para la Cooperación y el Desarrollo Económicos (OCDE).

(ii) PIA 14: Exposición a armas controvertidas (minas antipersonas, municiones en racimo, armas químicas y armas biológicas)

- **Interacción**

El fondo se implicó con 7 empresas sobre cuestiones ASG (datos a 30.09.2023). Esto incluye diálogos internos, iniciativas de colaboración entre inversores y servicios de implicación de terceros. Para que se considere implicación, el diálogo con una empresa objetivo debe tener un objetivo claro y mensurable en un horizonte temporal predefinido. Es importante señalar que no todas las interacciones rutinarias o de supervisión, aunque impliquen a la alta dirección o al Consejo de administración, se consideran implicaciones en nuestra evaluación.

Fuente: Pictet Asset Management, Sustainalytics.

- **¿... y en comparación con períodos anteriores?**

Esta cuestión se abordará en futuros informes anuales debido a la falta de historial.

● **¿Cuáles han sido los objetivos de las inversiones sostenibles que ha realizado en parte el producto financiero y de qué forma ha contribuido la inversión sostenible a dichos objetivos?**

El fondo no se comprometió a un porcentaje mínimo de inversiones sostenibles.

Sin embargo, *a posteriori*, el fondo invirtió en valores que financian actividades económicas que contribuyeron sustancialmente a objetivos medioambientales y/o sociales como:

Medioambientales

- mitigación del cambio climático o adaptación al mismo
- uso sostenible y protección de los recursos hídricos y marinos
- transición hacia una economía circular
- prevención y control de la contaminación o
- protección y recuperación de la biodiversidad y los ecosistemas

Sociales

- comunidades inclusivas y sostenibles
- nivel de vida adecuado y bienestar para los usuarios finales o
- trabajo digno

Pictet Asset Management utilizó un marco de referencia propio, así como los objetivos de la Taxonomía de la UE, para definir las inversiones sostenibles.

● **¿De qué manera las inversiones sostenibles que el producto financiero ha realizado en parte, no han causado un perjuicio significativo a ningún objetivo de inversión sostenible medioambiental o social?**

Para evitar que las inversiones sostenibles causen un perjuicio significativo a cualquier otro objetivo medioambiental o social, el fondo aplicó los siguientes criterios de selección sobre la base del mejor esfuerzo:

- (i) Exclusiones de emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente (véase la descripción del marco de exclusión de IR).
- (ii) Los emisores asociados a controversias elevadas y graves no se contabilizaron como inversiones sostenibles.

La información se obtuvo de proveedores terceros y/o de análisis interno. La información ASG de terceros proveedores de datos puede haber sido incompleta, inexacta o no estar disponible. Como consecuencia de ello, existía el riesgo de que el Gestor de inversiones evaluara incorrectamente un valor o emisor, dando lugar a la inclusión o exclusión incorrecta de un valor en el fondo. Los datos ASG incompletos, inexactos o no disponibles también pueden actuar como una limitación metodológica a una estrategia de inversión no financiera (como la aplicación de criterios ASG o similares). En los casos identificados, el Gestor de inversiones trató de mitigar este riesgo mediante su propia evaluación. En caso de que las características ASG de un valor mantenido por el fondo cambiaran, dando lugar a la venta del valor, el Gestor de inversiones no acepta responsabilidad alguna en relación con dicho cambio.

● **¿Cómo se han tenido en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?**

Pictet Asset Management realiza un seguimiento de todos los indicadores obligatorios de principales incidencias adversas (incluidos en el Anexo 1 del Reglamento Delegado (UE) 22 / 1288 de la Comisión) cuando disponemos de datos sólidos. Se espera que la calidad de los datos disponibles mejore con el tiempo.

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas de sus inversiones en la sociedad y el medioambiente que se consideran importantes para la estrategia de inversión, mediante un conjunto de decisiones de gestión de cartera, actividades de propiedad activa y exclusión de emisores asociados a conductas o actividades controvertidas. Más información en el informe de PIA de la entidad, disponible en:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=es&bl=PAM>

Las principales incidencias adversas son las incidencias negativas más importantes de las decisiones de inversión sobre los factores de sostenibilidad en relación con asuntos medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

- ¿Se han ajustado las inversiones sostenibles a las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios rectores de las Naciones Unidas sobre las empresas y los derechos humanos?

Para garantizar que la inversión sostenible no causara un perjuicio significativo a ningún objetivo de inversión sostenible, el fondo excluyó a las empresas con infracciones elevadas y graves de (i) los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción o (ii) las Líneas Directrices de la OCDE para Empresas Multinacionales, incluidos los asuntos sociales y laborales graves.

La taxonomía de la UE establece el principio de «no causar un perjuicio significativo», según el cual las inversiones que se ajusten a la taxonomía no deben perjudicar significativamente a los objetivos de la taxonomía de la UE, e incluye criterios específicos de la Unión.

El principio de «no perjudicar de forma significativa» se aplica únicamente a las inversiones subyacentes del producto financiero que contemplan los criterios de la UE relativos a actividades económicas sostenibles desde una perspectiva medioambiental. Las inversiones subyacentes al resto del producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas medioambientalmente sostenibles.

Cualquier otra inversión sostenible tampoco debe perjudicar significativamente a ningún objetivo medioambiental o social.

¿Cómo tiene en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas que se consideran importantes para la estrategia de inversión. Entre las incidencias adversas se incluyeron, entre otras, las emisiones de gases de efecto invernadero (GEI), la contaminación atmosférica, la pérdida de biodiversidad, las emisiones al agua, los residuos peligrosos/radioactivos, las cuestiones sociales y laborales, y la corrupción y el soborno, que se abordaron mediante una combinación de:

(i) decisiones de gestión de carteras

El equipo de inversión puntuó las posiciones según una evaluación de los riesgos medioambientales, sociales y de gobernanza como parte del marco de puntuación del fondo. Los gestores de inversiones determinan las puntuaciones sobre una base cualitativa, basándose en el análisis fundamental y en datos cuantitativos ASG, incluidos los datos sobre la Principal incidencia adversa, los datos ASG facilitados por las empresas y los datos proporcionados por terceros proveedores de datos ASG. El proceso de puntuación del equipo de inversión fue un componente clave del proceso de construcción de la cartera del comportamiento, determinando las ponderaciones objetivo en la cartera.

(ii) implicación

La interacción con los emisores se realizó mediante conversaciones individuales, reuniones de accionistas/bonistas, giras de inversores y/o conferencias telefónicas. Los objetivos de estas interacciones fueron evaluar una organización, supervisar que su estrategia se estaba aplicando conforme a nuestras expectativas y garantizar que los emisores iban camino de cumplir sus metas y objetivos.

Cuando corresponde, nos implicamos con las empresas en relación con cuestiones ASG importantes, como los objetivos de reducción de los GEI, las mejoras en la gobernanza y diversas controversias medioambientales, sociales y de gobernanza, para asegurarnos de que las entendieran y las abordaran eficazmente a corto, medio y largo plazo. Nuestras actividades de implicación combinaron debates dirigidos a nivel interno, iniciativas de colaboración con inversores institucionales y servicios de implicación externos.

(iii) exclusión de emisores asociados a conductas o actividades controvertidas

El fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se definen en la Política de Inversión responsable de la Pictet Asset Management y/o (ii) empresas que infringieron gravemente los principios del Pacto Mundial de la ONU sobre derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción y las armas controvertidas.

¿Cuáles han sido las inversiones principales de este producto financiero?

La lista incluye las inversiones que constituyen la **mayor parte de las inversiones** del producto financiero durante el período de referencia, que es: 01.10.2022 - 30.09.2023

| INVERSIONES DE MAYOR VOLUMEN | SECTOR | % DE ACTIVOS | PAÍS |

Fuente: Pictet Asset Management, Merrill Lynch.

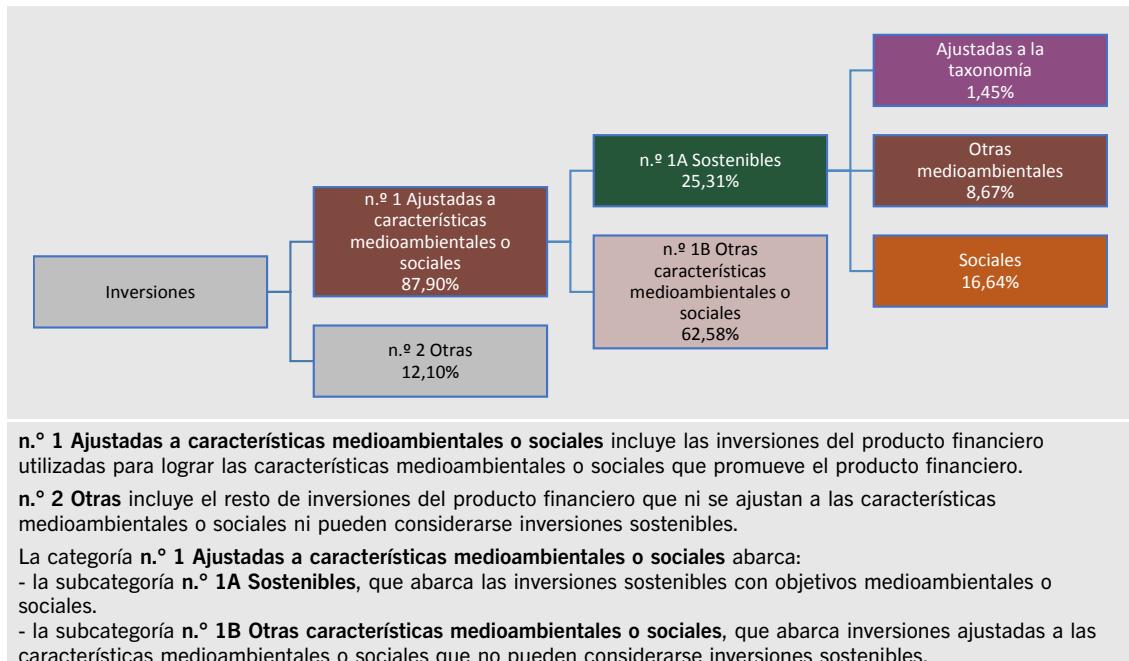

¿Cuál ha sido la proporción de inversiones relacionadas con la sostenibilidad?

25,31%

La **asignación de activos** describe el porcentaje de inversiones en activos específicos.

¿Cuál ha sido la asignación de activos?

El fondo se ajustó en un 87,90% con características medioambientales o sociales (n.º 1 Ajustadas a características medioambientales o sociales) y tuvo hasta un 12,10% invertido en la categoría Otras (n.º 2 Otras). El 25,31% se asignó a inversiones sostenibles (n.º 1A Sostenibles) y el resto se invirtió en inversiones ajustadas a otras características medioambientales o sociales (n.º 1B Otras características medioambientales o sociales).

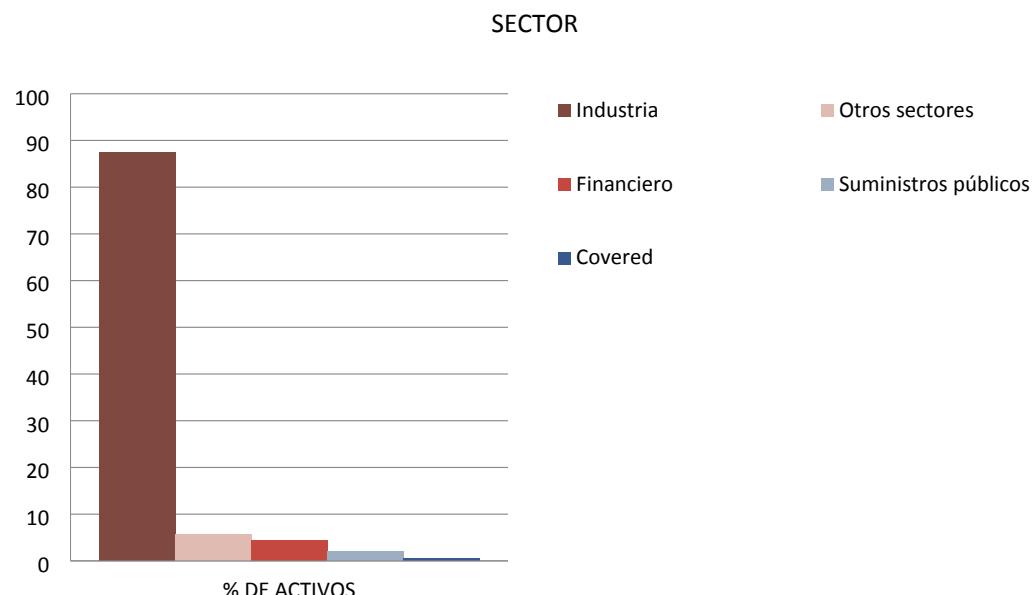

Notas:

- Las inversiones «n.º 1A Sostenibles», «Otras medioambientales» y «Sociales» se calcularon sobre una base de aprobado/suspenso. Incluyen bonos certificados (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.
- Las inversiones ajustadas a la taxonomía verde de la UE se calculan ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a la mitigación del cambio climático y la adaptación al mismo) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.
- A falta de una taxonomía social de la UE, Pictet ha desarrollado un marco de taxonomía social propio. El marco se basa en basado en el Informe sobre taxonomía social publicado por la Plataforma de Finanzas Sostenibles de la UE en 2022. Las actividades admisibles se definen como bienes y servicios beneficiosos desde el punto de vista social que contribuyen sustancialmente a uno de los tres objetivos sociales siguientes: (1) comunidades inclusivas y sostenibles, (2) nivel de vida adecuado y bienestar para los usuarios finales y (3) trabajo digno.

Fuente: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RBICS.

● ¿En qué sectores económicos se han realizado las inversiones?

Fuente: Pictet Asset Management, Merrill Lynch.

Estamos evaluando la disponibilidad y la calidad de los datos que nos permitirían divulgar información más granular en futuros informes sobre los sectores y subsectores de la economía que obtienen ingresos a partir de la exploración, la minería, la extracción, la producción, el procesamiento, el almacenamiento, el refinado o la distribución, incluidos el transporte, el almacenamiento y el comercio, de combustibles fósiles, según se definen en el artículo 2, punto (62), del Reglamento (UE) 2018/1999 del Parlamento Europeo y del Consejo.

¿En qué medida se ajustaban las inversiones sostenibles con un objetivo medioambiental a la taxonomía de la UE?

El fondo realizó inversiones en actividades económicas que contribuyeron a los dos primeros objetivos medioambientales (mitigación del cambio climático y adaptación a este), según lo establecido en el artículo 9 del Reglamento (UE) 2020/852.

Las inversiones ajustadas a la taxonomía de la UE se calcularon ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a objetivos medioambientales relevantes) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.

Los datos de ajuste a la Taxonomía verde de la UE proceden de informes públicos. Los cálculos también pueden incluir estimaciones en un número limitado de casos en los que no se disponía de datos sobre la alineación con la Taxonomía verde de la UE. Las estimaciones se realizaron sobre la base del mejor esfuerzo y siguiendo un planteamiento conservador para obtener un resultado prudente.

Los procedimientos de control se han aplicado para verificar en todo momento el cumplimiento del artículo 3 del Reglamento sobre taxonomía de la UE.

Los datos facilitados no han sido verificados por un auditor externo ni revisados por un tercero independiente.

● ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil o la energía nuclear que cumplían con la taxonomía de la UE¹?

Sí:

En gas fósil En energía nuclear

No

La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permite ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

Para ajustarse a la taxonomía de la UE, los criterios correspondientes al **gas fósil** incluyen limitaciones de emisiones y el paso a la energía renovable o combustibles bajos en carbono de aquí al fin de 2035. Por lo que respecta a la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

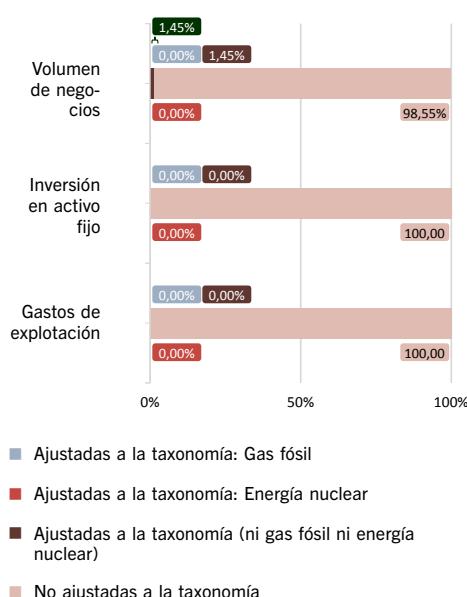

¹ Las actividades relacionadas con el gas fósil o la energía nuclear solo cumplirán la taxonomía de la UE cuando contribuyan a limitar el cambio climático («mitigación del cambio climático») y no perjudiquen significativamente ningún objetivo de la taxonomía de la UE (véase la nota explicativa en el margen izquierdo). Los criterios completos correspondientes a las actividades económicas del gas fósil y la energía nuclear que se ajustan a la taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

Las actividades que se ajustan a la taxonomía se expresan como un porcentaje de:

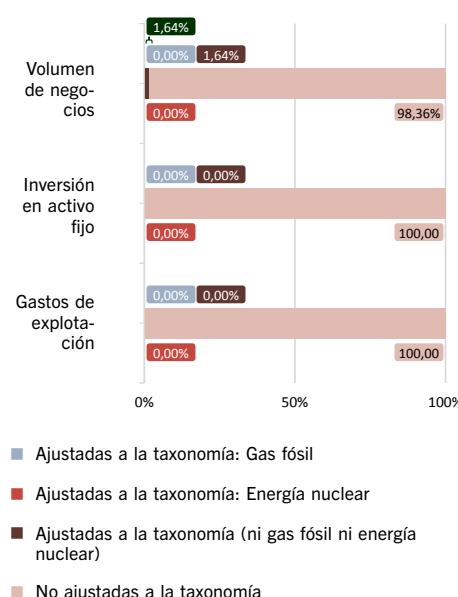

- el **volumen de negocios**, que refleja el «carácter ecológico» de las empresas en las que se invierte en la actualidad;
- la **inversión en activo fijo**, que muestra las inversiones ecológicas realizadas por las empresas en las que se invierte, pertinentes para la transición a una economía verde;
- los **gastos de explotación**, que reflejan las actividades operativas ecológicas de las empresas en las que se invierte.

Los gráficos que figuran a continuación muestran en verde el porcentaje de inversiones que se ajustaban a la taxonomía de la UE. Dado que no existe una metodología adecuada para determinar la adaptación a la taxonomía de los bonos soberanos*, el primer gráfico muestra la adaptación a la taxonomía correspondiente para todas las inversiones del producto financiero, incluidos los bonos soberanos, mientras que el segundo gráfico muestra la adaptación a la taxonomía solo en relación con las inversiones del producto financiero distintas de los bonos soberanos.

1. Ajuste a la taxonomía de las inversiones incluidos los bonos soberanos*

2. Ajuste a la taxonomía de las inversiones excluidos los bonos soberanos*

Este gráfico representa el 87,9% de las inversiones totales.

* A efectos de estos gráficos, los «bonos soberanos» incluyen todas las exposiciones soberanas

Nota:

Utilizamos los ingresos como medida clave para establecer la asignación de objetivos y el ajuste real con la taxonomía de la UE debido a la disponibilidad limitada y a la falta de datos fiables para los gastos de explotación y la inversión en activo fijo.

Fuente: Pictet Asset Management.

● ¿Cuál ha sido la proporción de las inversiones realizadas en actividades de transición y facilitadoras?

La proporción de inversiones realizadas en:

- Actividades de transición: No aplicable*
- Actividades de facilitadoras: No aplicable*

* La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permiten ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

● ¿Qué porcentaje de inversiones se han ajustado a la taxonomía de la UE en comparación con los períodos de referencia anteriores?

No aplicable.

¿Cuál ha sido la proporción de inversiones sostenibles con un objetivo medioambiental no ajustadas a la taxonomía de la UE?

8,67%

Estas inversiones sostenibles no se ajustan a la Taxonomía de la UE porque sus actividades económicas o bien (i) no están cubiertas por la Taxonomía de la UE, o bien (ii) no cumplen los criterios técnicos de selección para lograr una contribución sustancial en el sentido de la Taxonomía de la UE.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta

¿Cuál ha sido la proporción de inversiones socialmente sostenibles?

16,64%

¿Qué inversiones se han incluido en «otras» y cuál ha sido su propósito? ¿ha habido garantías medioambientales o sociales mínimas?

Las «otras» inversiones del fondo incluían posiciones de tesorería mantenidas principalmente para satisfacer los objetivos diarios de liquidez y gestión de riesgos permitidos y previstos por la política de inversión del fondo. Cuando sea preciso, se aplicarán salvaguardias medioambientales o sociales mínimas a los valores subyacentes.

¿Qué medidas se han adoptado para cumplir las características medioambientales o sociales durante el período de referencia?

Durante el periodo de referencia, se alcanzó el objetivo de inversión sostenible siguiendo la estrategia de inversión y respetando los elementos vinculantes.

Los elementos vinculantes del fondo son:

- Exclusión de emisores que:
 - están relacionados con armas nucleares de países que no han firmado el Tratado sobre la No Proliferación de Armas Nucleares (TNP) y otras armas controvertidas
 - obtienen una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, como la extracción de carbón térmico y la generación de electricidad, la exploración y producción no convencional de petróleo y gas, las armas convencionales y armas pequeñas, las armas de contratación militar, la producción de tabaco, la producción de entretenimiento para adultos y las actividades del juego. Para más detalles sobre los umbrales de exclusión aplicables a las actividades anteriores, consulte la Política de Inversión responsable de Pictet Asset Management.
 - incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción
- un perfil ASG mejor que el del índice de inversión
- análisis de criterios ASG de los valores admisibles que abarca al menos el 90% del patrimonio neto o el número de emisores incluidos en la cartera

Además, el fondo se implicó con 7 empresas a 30.09.2023.

¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

● ¿Cómo difería el índice de referencia de un índice general de mercado?

No aplicable.

- **¿Cómo se ha comportado este producto financiero con respecto a los indicadores de sostenibilidad para determinar la conformidad del índice de referencia con las características medioambientales o sociales que promueve?**
No aplicable.
- **¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?**
No aplicable.
- **¿Cómo se ha comportado este producto financiero en comparación con el índice general de mercado?**
No aplicable.

CARACTERÍSTICAS MEDIOAMBIENTALES O SOCIALES

Inversión sostenible
significa una inversión en una actividad económica que contribuye a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo a ningún objetivo medioambiental o social y que las empresas en las que se invierte sigan prácticas de buena gobernanza.

La taxonomía de la UE es un sistema de clasificación previsto en el Reglamento (UE) 2020/852 por el que se establece una lista de **actividades económicas medioambientalmente sostenibles**. Dicho Reglamento no prevé una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental pueden ajustarse, o no, a la taxonomía.

| ¿ESTE PRODUCTO FINANCIERO TENÍA UN OBJETIVO DE INVERSIÓN SOSTENIBLE? | | | |
|--|--|-------------------------------------|--|
| <input checked="" type="radio"/> Si | | <input checked="" type="radio"/> No | |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo medioambiental: ____% | <input checked="" type="checkbox"/> | Promovió características medioambientales o sociales y, aunque no tenía como objetivo una inversión sostenible, tuvo un porcentaje del 37,01% de inversiones sostenibles |
| <input type="checkbox"/> | en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> | con un objetivo medioambiental en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> | en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> | con un objetivo medioambiental en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo social: ____% | <input type="checkbox"/> | con un objetivo social |
| <input type="checkbox"/> | | <input type="checkbox"/> | Ha promovido características medioambientales o sociales, pero no ha realizado ninguna inversión sostenible |

Nota: Las inversiones sostenibles se calcularon sobre una base de aprobado/suspenso, incluyendo bonos con etiqueta (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% (medida por ingresos, EBIT, valor de empresa o indicadores similares) a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.

¿En qué grado se han cumplido las características medioambientales o sociales que promueve este producto financiero?

Las características medioambientales y sociales de este producto financiero se promovieron utilizando:

- Inclinación positiva:

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos y, como resultado, tuvo un perfil medioambiental, social y de gobernanza (ASG) mejor que el del índice de referencia. El índice Bloomberg Euro-Aggregate Corporate 1-3 Years A-BBB se utilizó para medir la inclinación positiva; sin embargo, no se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

- Exclusiones basadas en normas y valores:

El fondo excluyó los emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente o que incumplen de forma grave las normas internacionales, según se detalla a continuación:

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

Actividad

Umbrales de ingresos

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

| | |
|---|------------------------------------|
| Combustibles fósiles y energía nuclear | |
| Extracción de carbón térmico | > 25% |
| Generación de energía térmica de carbón | > 25% |
| Extracción de arenas bituminosas | > 25% |

| Exclusiones de empresas por incumplimiento de normas internacionales | Excluidas |
| Empresas que incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción | Sí |
| Exclusiones de países | Excluidas |
| Países (i) incluidos en la lista de Estados patrocinadores del terrorismo, según la definición de la Oficina de Control de Activos Extranjeros de EE. UU. ^[2] o (ii) sujetos a sanciones financieras de la UE contra bancos centrales y/o empresas de propiedad estatal. | Sí |
| Países (i) clasificados como de muy alto o alto riesgo en el Índice de Estados Frágiles o (ii) afectados por conflictos violentos según la definición del Banco Mundial. | Sí |
| Países (i) incluidos en la lista de «alerta» del Índice de Estados Frágiles o (ii) sujetos a sanciones relacionadas con la exportación por parte de la UE. | Lista de vigilancia ^[3] |

^[1] Entre las armas controvertidas se encuentran las minas antipersona, las municiones de racimo, las armas biológicas y químicas (incluido el fósforo blanco) y las armas nucleares procedentes de países no firmantes del Tratado de No Proliferación de Armas Nucleares (TNP).

^[2] «Estado patrocinador del terrorismo» es una designación aplicada por el Departamento de Estado de Estados Unidos a países que repetidamente han prestado apoyo a actos de terrorismo internacional.

^[3] Además de las exclusiones estrictas, Pictet Asset Management mantiene una lista de vigilancia que incluye países que requieren una diligencia debida adicional por parte de los equipos de inversión antes de invertir.

Para más detalles, consulte la Política de Inversión responsable de Pictet Asset Management (Anexo B).

- Titularidad activa:

El fondo se implicó con la dirección de las empresas sobre cuestiones ASG importantes.

● **¿Cómo se han comportado los indicadores de sostenibilidad?**

Durante el periodo de información, los indicadores de sostenibilidad se comportaron según se indica a continuación:

• **Perfil ASG global**

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos.

Como resultado, el fondo ha conseguido un perfil ambiental, social y de gobernanza (ASG) mejor que el del índice de referencia.

- **Principal incidencia adversa (PIA)**

El fondo utiliza una combinación de enfoques para considerar y, en la medida de lo posible, mitigar las incidencias adversas materiales de nuestras inversiones en la sociedad y el medioambiente, como emisiones de GEI, contaminación atmosférica, pérdida de biodiversidad, emisiones al agua, residuos peligrosos/radioactivos, derechos humanos, normas laborales, corrupción y soborno, y salud pública.

El grado y la forma en que estas incidencias se tuvieron en cuenta dependieron de factores como el contexto específico de la inversión que provoca la incidencia adversa o la disponibilidad de datos fiables.

De conformidad con la política de exclusión de Pictet Asset Management descrita en la Política de Inversión responsable de la empresa (véase el cuadro anterior para consultar las actividades excluidas y los umbrales de exclusión aplicados), el fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente:

Actividades controvertidas (media ponderada de ingresos de la empresa, en %)*:

| | Fondo (%) | Índice de referencia (%) |
|--|-----------|--------------------------|
| Combustibles fósiles y energía nuclear | 0,54 | 2,72 |
| Armas | 0,03 | 0,28 |
| Otras actividades controvertidas | 0,02 | 1,20 |
| No aplicable: | 13,05 | 0,00 |
| No cubierto: | 0,79 | 0,64 |

* Los combustibles fósiles y la energía nuclear incluyen la extracción de carbón térmico y la generación de electricidad, la producción y extracción de petróleo y gas, la extracción de energía de esquisto, la exploración de petróleo y gas en los mares del Ártico y la generación de energía nuclear. Las armas incluyen la contratación militar (servicios de armas y relacionadas con estas), clientes civiles de armas pequeñas (armas de asalto/ho asalto), clientes militares/de las fuerzas y cuerpos de seguridad de armas pequeñas y componentes clave de pequeñas armas. Otras actividades controvertidas incluyen la producción de tabaco, la producción de entretenimiento para adultos, la explotación de juegos de azar, el desarrollo o crecimiento de organismos modificados genéticamente, la producción o venta al por menor de pesticidas. La exposición se basa en datos de terceros y puede no reflejar nuestro punto de vista interno. Pictet Asset Management tiene plena discreción sobre la aplicación de los criterios de exclusión y se reserva el derecho de apartarse de la información de terceros, según el caso, cuando se considere incorrecta o incompleta.

Fuente: Pictet Asset Management, Sustainalytics.

Además, el fondo excluyó a los emisores que tenían exposición a:

(i) PIA 10: Incumplimientos de los principios del Pacto Mundial de las Naciones Unidas y las Directrices para Empresas Multinacionales de la Organización para la Cooperación y el Desarrollo Económicos (OCDE).

(ii) PIA 14: Exposición a armas controvertidas (minas antipersonas, municiones en racimo, armas químicas y armas biológicas)

- **Interacción**

El fondo se implicó con 26 empresas sobre cuestiones ASG (datos a 30.09.2023). Esto incluye diálogos internos, iniciativas de colaboración entre inversores y servicios de implicación de terceros. Para que se considere implicación, el diálogo con una empresa objetivo debe tener un objetivo claro y mensurable en un horizonte temporal predefinido. Es importante señalar que no todas las interacciones rutinarias o de supervisión, aunque impliquen a la alta dirección o al Consejo de administración, se consideran implicaciones en nuestra evaluación.

Fuente: Pictet Asset Management, Sustainalytics.

- **¿... y en comparación con períodos anteriores?**

Esta cuestión se abordará en futuros informes anuales debido a la falta de historial.

● **¿Cuáles han sido los objetivos de las inversiones sostenibles que ha realizado en parte el producto financiero y de qué forma ha contribuido la inversión sostenible a dichos objetivos?**

El fondo no se comprometió a un porcentaje mínimo de inversiones sostenibles.

Sin embargo, *a posteriori*, el fondo invirtió en valores que financian actividades económicas que contribuyeron sustancialmente a objetivos medioambientales y/o sociales como:

Medioambientales

- mitigación del cambio climático o adaptación al mismo
- uso sostenible y protección de los recursos hídricos y marinos
- transición hacia una economía circular
- prevención y control de la contaminación o
- protección y recuperación de la biodiversidad y los ecosistemas

Sociales

- comunidades inclusivas y sostenibles
- nivel de vida adecuado y bienestar para los usuarios finales o
- trabajo digno

Pictet Asset Management utilizó un marco de referencia propio, así como los objetivos de la Taxonomía de la UE, para definir las inversiones sostenibles.

● **¿De qué manera las inversiones sostenibles que el producto financiero ha realizado en parte, no han causado un perjuicio significativo a ningún objetivo de inversión sostenible medioambiental o social?**

Para evitar que las inversiones sostenibles causen un perjuicio significativo a cualquier otro objetivo medioambiental o social, el fondo aplicó los siguientes criterios de selección sobre la base del mejor esfuerzo:

- (i) Exclusiones de emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente (véase la descripción del marco de exclusión de IR).
- (ii) Los emisores asociados a controversias elevadas y graves no se contabilizaron como inversiones sostenibles.

La información se obtuvo de proveedores terceros y/o de análisis interno. La información ASG de terceros proveedores de datos puede haber sido incompleta, inexacta o no estar disponible. Como consecuencia de ello, existía el riesgo de que el Gestor de inversiones evaluara incorrectamente un valor o emisor, dando lugar a la inclusión o exclusión incorrecta de un valor en el fondo. Los datos ASG incompletos, inexactos o no disponibles también pueden actuar como una limitación metodológica a una estrategia de inversión no financiera (como la aplicación de criterios ASG o similares). En los casos identificados, el Gestor de inversiones trató de mitigar este riesgo mediante su propia evaluación. En caso de que las características ASG de un valor mantenido por el fondo cambiaran, dando lugar a la venta del valor, el Gestor de inversiones no acepta responsabilidad alguna en relación con dicho cambio.

● **¿Cómo se han tenido en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?**

Pictet Asset Management realiza un seguimiento de todos los indicadores obligatorios de principales incidencias adversas (incluidos en el Anexo 1 del Reglamento Delegado (UE) 22 / 1288 de la Comisión) cuando disponemos de datos sólidos. Se espera que la calidad de los datos disponibles mejore con el tiempo.

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas de sus inversiones en la sociedad y el medioambiente que se consideran importantes para la estrategia de inversión, mediante un conjunto de decisiones de gestión de cartera, actividades de propiedad activa y exclusión de emisores asociados a conductas o actividades controvertidas. Más información en el informe de PIA de la entidad, disponible en:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=es&bl=PAM>

Las principales incidencias adversas son las incidencias negativas más importantes de las decisiones de inversión sobre los factores de sostenibilidad en relación con asuntos medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

- ¿Se han ajustado las inversiones sostenibles a las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios rectores de las Naciones Unidas sobre las empresas y los derechos humanos?

Para garantizar que la inversión sostenible no causara un perjuicio significativo a ningún objetivo de inversión sostenible, el fondo excluyó a las empresas con infracciones elevadas y graves de (i) los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción o (ii) las Líneas Directrices de la OCDE para Empresas Multinacionales, incluidos los asuntos sociales y laborales graves.

La taxonomía de la UE establece el principio de «no causar un perjuicio significativo», según el cual las inversiones que se ajusten a la taxonomía no deben perjudicar significativamente a los objetivos de la taxonomía de la UE, e incluye criterios específicos de la Unión.

El principio de «no perjudicar de forma significativa» se aplica únicamente a las inversiones subyacentes del producto financiero que contemplan los criterios de la UE relativos a actividades económicas sostenibles desde una perspectiva medioambiental. Las inversiones subyacentes al resto del producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas medioambientalmente sostenibles.

Cualquier otra inversión sostenible tampoco debe perjudicar significativamente a ningún objetivo medioambiental o social.

¿Cómo tiene en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas que se consideran importantes para la estrategia de inversión. Entre las incidencias adversas se incluyeron, entre otras, las emisiones de gases de efecto invernadero (GEI), la contaminación atmosférica, la pérdida de biodiversidad, las emisiones al agua, los residuos peligrosos/radioactivos, las cuestiones sociales y laborales, y la corrupción y el soborno, que se abordaron mediante una combinación de:

(i) decisiones de gestión de carteras

El equipo de inversión puntuó las posiciones según una evaluación de los riesgos medioambientales, sociales y de gobernanza como parte del marco de puntuación del fondo. Los gestores de inversiones determinan las puntuaciones sobre una base cualitativa, basándose en el análisis fundamental y en datos cuantitativos ASG, incluidos los datos sobre la Principal incidencia adversa, los datos ASG facilitados por las empresas y los datos proporcionados por terceros proveedores de datos ASG. El proceso de puntuación del equipo de inversión fue un componente clave del proceso de construcción de la cartera del comportamiento, determinando las ponderaciones objetivo en la cartera.

(ii) implicación

La interacción con los emisores se realizó mediante conversaciones individuales, reuniones de accionistas/bonistas, giras de inversores y/o conferencias telefónicas. Los objetivos de estas interacciones fueron evaluar una organización, supervisar que su estrategia se estaba aplicando conforme a nuestras expectativas y garantizar que los emisores iban camino de cumplir sus metas y objetivos.

Cuando corresponde, nos implicamos con las empresas en relación con cuestiones ASG importantes, como los objetivos de reducción de los GEI, las mejoras en la gobernanza y diversas controversias medioambientales, sociales y de gobernanza, para asegurarnos de que las entendieran y las abordaran eficazmente a corto, medio y largo plazo. Nuestras actividades de implicación combinaron debates dirigidos a nivel interno, iniciativas de colaboración con inversores institucionales y servicios de implicación externos.

(iii) exclusión de emisores asociados a conductas o actividades controvertidas

El fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se definen en la Política de Inversión responsable de la Pictet Asset Management y/o (ii) empresas que infringieron gravemente los principios del Pacto Mundial de la ONU sobre derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción y las armas controvertidas.

¿Cuáles han sido las inversiones principales de este producto financiero?

La lista incluye las inversiones que constituyen la **mayor parte de las inversiones** del producto financiero durante el período de referencia, que es: 01.10.2022 - 30.09.2023

| INVERSIONES DE MAYOR VOLUMEN | SECTOR | % DE ACTIVOS | PAÍS |

Fuente: Pictet Asset Management, Merrill Lynch.

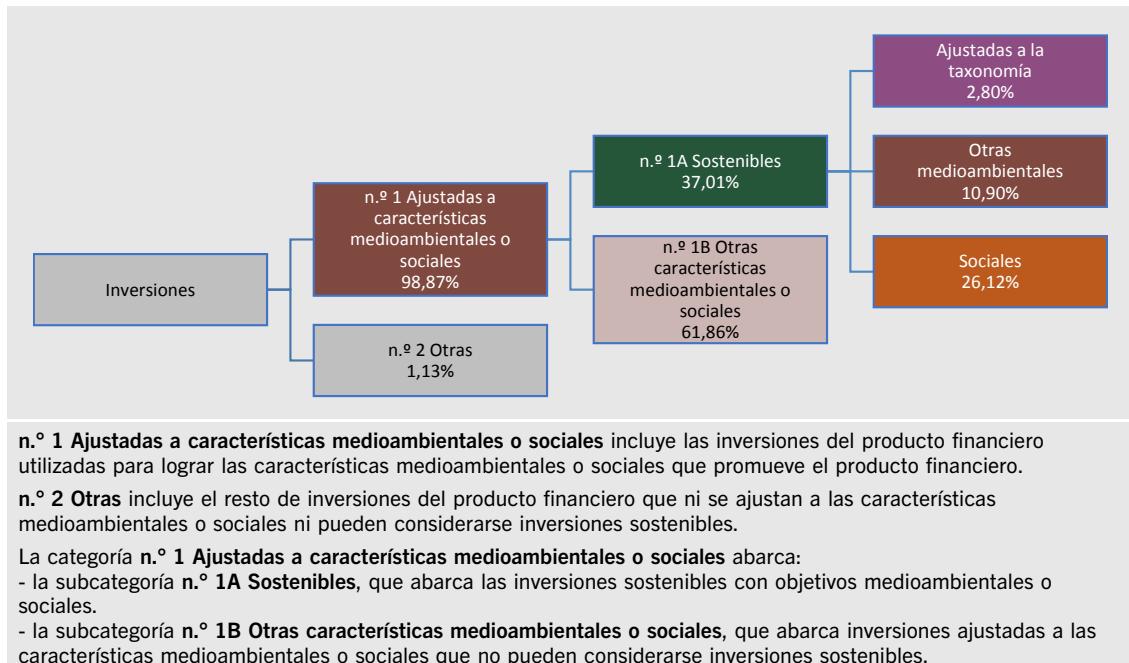

¿Cuál ha sido la proporción de inversiones relacionadas con la sostenibilidad?

37,01%

La **asignación de activos** describe el porcentaje de inversiones en activos específicos.

¿Cuál ha sido la asignación de activos?

El fondo se ajustó en un 98,87% con características medioambientales o sociales (n.º 1 Ajustadas a características medioambientales o sociales) y tuvo hasta un 1,13% invertido en la categoría Otras (n.º 2 Otras). El 37,01% se asignó a inversiones sostenibles (n.º 1A Sostenibles) y el resto se invirtió en inversiones ajustadas a otras características medioambientales o sociales (n.º 1B Otras características medioambientales o sociales).

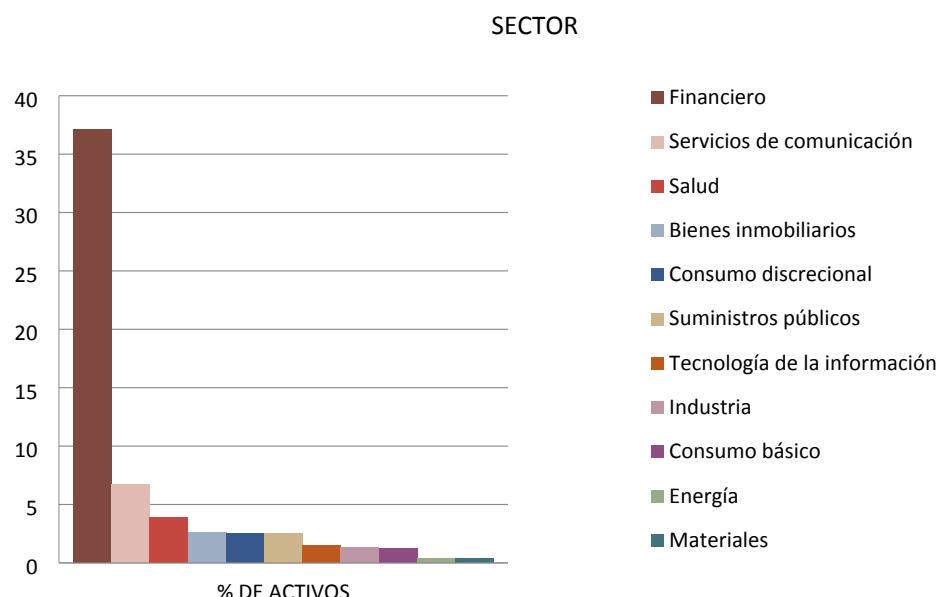

Notas:

- Las inversiones «n.º 1A Sostenibles», «Otras medioambientales» y «Sociales» se calcularon sobre una base de aprobado/suspenso. Incluyen bonos certificados (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.
- Las inversiones ajustadas a la taxonomía verde de la UE se calculan ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a la mitigación del cambio climático y la adaptación al mismo) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.
- A falta de una taxonomía social de la UE, Pictet ha desarrollado un marco de taxonomía social propio. El marco se basa en basado en el Informe sobre taxonomía social publicado por la Plataforma de Finanzas Sostenibles de la UE en 2022. Las actividades admisibles se definen como bienes y servicios beneficiosos desde el punto de vista social que contribuyen sustancialmente a uno de los tres objetivos sociales siguientes: (1) comunidades inclusivas y sostenibles, (2) nivel de vida adecuado y bienestar para los usuarios finales y (3) trabajo digno.

Fuente: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RB/CS.

● ¿En qué sectores económicos se han realizado las inversiones?

Fuente: Pictet Asset Management, Merrill Lynch.

Estamos evaluando la disponibilidad y la calidad de los datos que nos permitirían divulgar información más granular en futuros informes sobre los sectores y subsectores de la economía que obtienen ingresos a partir de la exploración, la minería, la extracción, la producción, el procesamiento, el almacenamiento, el refinado o la distribución, incluidos el transporte, el almacenamiento y el comercio, de combustibles fósiles, según se definen en el artículo 2, punto (62), del Reglamento (UE) 2018/1999 del Parlamento Europeo y del Consejo.

¿En qué medida se ajustaban las inversiones sostenibles con un objetivo medioambiental a la taxonomía de la UE?

El fondo realizó inversiones en actividades económicas que contribuyeron a los dos primeros objetivos medioambientales (mitigación del cambio climático y adaptación a este), según lo establecido en el artículo 9 del Reglamento (UE) 2020/852.

Las inversiones ajustadas a la taxonomía de la UE se calcularon ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a objetivos medioambientales relevantes) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.

Los datos de ajuste a la Taxonomía verde de la UE proceden de informes públicos. Los cálculos también pueden incluir estimaciones en un número limitado de casos en los que no se disponía de datos sobre la alineación con la Taxonomía verde de la UE. Las estimaciones se realizaron sobre la base del mejor esfuerzo y siguiendo un planteamiento conservador para obtener un resultado prudente.

Los procedimientos de control se han aplicado para verificar en todo momento el cumplimiento del artículo 3 del Reglamento sobre taxonomía de la UE.

Los datos facilitados no han sido verificados por un auditor externo ni revisados por un tercero independiente.

● ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil o la energía nuclear que cumplían con la taxonomía de la UE¹?

Sí:

En gas fósil En energía nuclear

No

La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permite ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

Para ajustarse a la taxonomía de la UE, los criterios correspondientes al **gas fósil** incluyen limitaciones de emisiones y el paso a la energía renovable o combustibles bajos en carbono de aquí al fin de 2035. Por lo que respecta a la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

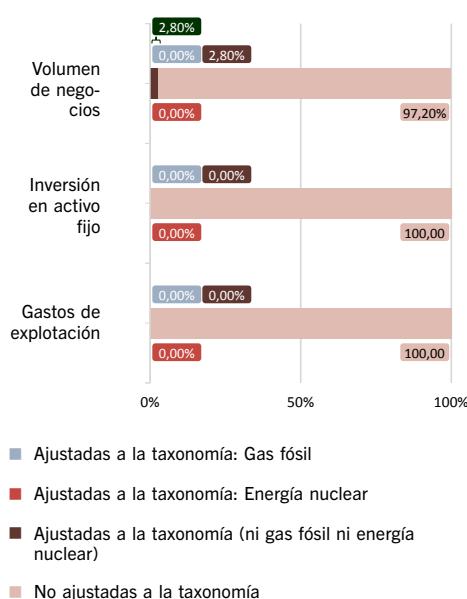

¹ Las actividades relacionadas con el gas fósil o la energía nuclear solo cumplirán la taxonomía de la UE cuando contribuyan a limitar el cambio climático («mitigación del cambio climático») y no perjudiquen significativamente ningún objetivo de la taxonomía de la UE (véase la nota explicativa en el margen izquierdo). Los criterios completos correspondientes a las actividades económicas del gas fósil y la energía nuclear que se ajustan a la taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

Las actividades que se ajustan a la taxonomía se expresan como un porcentaje de:

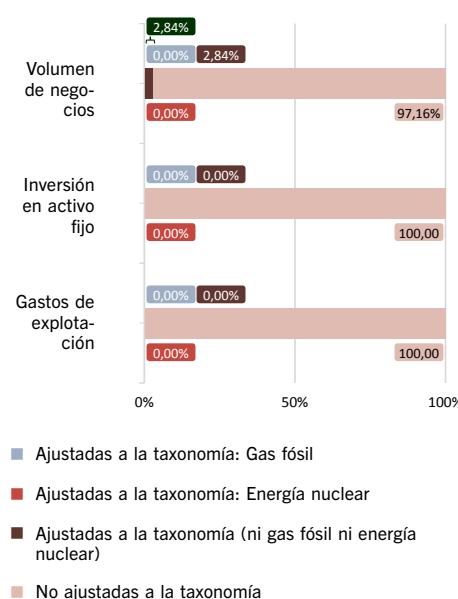

- el **volumen de negocios**, que refleja el «carácter ecológico» de las empresas en las que se invierte en la actualidad;
- la **inversión en activo fijo**, que muestra las inversiones ecológicas realizadas por las empresas en las que se invierte, pertinentes para la transición a una economía verde;
- los **gastos de explotación**, que reflejan las actividades operativas ecológicas de las empresas en las que se invierte.

Los gráficos que figuran a continuación muestran en verde el porcentaje de inversiones que se ajustaban a la taxonomía de la UE. Dado que no existe una metodología adecuada para determinar la adaptación a la taxonomía de los bonos soberanos*, el primer gráfico muestra la adaptación a la taxonomía correspondiente para todas las inversiones del producto financiero, incluidos los bonos soberanos, mientras que el segundo gráfico muestra la adaptación a la taxonomía solo en relación con las inversiones del producto financiero distintas de los bonos soberanos.

1. Ajuste a la taxonomía de las inversiones incluidos los bonos soberanos*

2. Ajuste a la taxonomía de las inversiones excluidos los bonos soberanos*

Este gráfico representa el 98,67% de las inversiones totales.

* A efectos de estos gráficos, los «bonos soberanos» incluyen todas las exposiciones soberanas

Nota:

Utilizamos los ingresos como medida clave para establecer la asignación de objetivos y el ajuste real con la taxonomía de la UE debido a la disponibilidad limitada y a la falta de datos fiables para los gastos de explotación y la inversión en activo fijo.

Fuente: Pictet Asset Management.

● ¿Cuál ha sido la proporción de las inversiones realizadas en actividades de transición y facilitadoras?

La proporción de inversiones realizadas en:

- Actividades de transición: No aplicable*
- Actividades de facilitadoras: No aplicable*

* La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permiten ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

● ¿Qué porcentaje de inversiones se han ajustado a la taxonomía de la UE en comparación con los períodos de referencia anteriores?

No aplicable.

¿Cuál ha sido la proporción de inversiones sostenibles con un objetivo medioambiental no ajustadas a la taxonomía de la UE?

10,90%

Estas inversiones sostenibles no se ajustan a la Taxonomía de la UE porque sus actividades económicas o bien (i) no están cubiertas por la Taxonomía de la UE, o bien (ii) no cumplen los criterios técnicos de selección para lograr una contribución sustancial en el sentido de la Taxonomía de la UE.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta

¿Cuál ha sido la proporción de inversiones socialmente sostenibles?

26,12%

¿Qué inversiones se han incluido en «otras» y cuál ha sido su propósito? ¿ha habido garantías medioambientales o sociales mínimas?

Las «otras» inversiones del fondo incluían posiciones de tesorería mantenidas principalmente para satisfacer los objetivos diarios de liquidez y gestión de riesgos permitidos y previstos por la política de inversión del fondo. Cuando sea preciso, se aplicarán salvaguardias medioambientales o sociales mínimas a los valores subyacentes.

¿Qué medidas se han adoptado para cumplir las características medioambientales o sociales durante el período de referencia?

Durante el periodo de referencia, se alcanzó el objetivo de inversión sostenible siguiendo la estrategia de inversión y respetando los elementos vinculantes.

Los elementos vinculantes del fondo son:

- Exclusión de emisores que:
 - están relacionados con armas nucleares de países que no han firmado el Tratado sobre la No Proliferación de Armas Nucleares (TNP) y otras armas controvertidas
 - obtienen una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, como la extracción de carbón térmico y la generación de electricidad, la exploración y producción no convencional de petróleo y gas, las armas convencionales y armas pequeñas, las armas de contratación militar, la producción de tabaco, la producción de entretenimiento para adultos y las actividades del juego. Para más detalles sobre los umbrales de exclusión aplicables a las actividades anteriores, consulte la Política de Inversión responsable de Pictet Asset Management.
 - incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción
- un perfil ASG mejor que el del índice de referencia
- análisis de criterios ASG de los valores admisibles que abarca al menos el 90% del patrimonio neto o el número de emisores incluidos en la cartera

Además, el fondo se implicó con 26 empresas a 30.09.2023.

¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

● ¿Cómo difería el índice de referencia de un índice general de mercado?

No aplicable.

- **¿Cómo se ha comportado este producto financiero con respecto a los indicadores de sostenibilidad para determinar la conformidad del índice de referencia con las características medioambientales o sociales que promueve?**
No aplicable.
- **¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?**
No aplicable.
- **¿Cómo se ha comportado este producto financiero en comparación con el índice general de mercado?**
No aplicable.

CARACTERÍSTICAS MEDIOAMBIENTALES O SOCIALES

Inversión sostenible
significa una inversión en una actividad económica que contribuye a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo a ningún objetivo medioambiental o social y que las empresas en las que se invierte sigan prácticas de buena gobernanza.

La taxonomía de la UE es un sistema de clasificación previsto en el Reglamento (UE) 2020/852 por el que se establece una lista de **actividades económicas medioambientalmente sostenibles**. Dicho Reglamento no prevé una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental pueden ajustarse, o no, a la taxonomía.

| ¿ESTE PRODUCTO FINANCIERO TENÍA UN OBJETIVO DE INVERSIÓN SOSTENIBLE? | | | |
|--|--|-------------------------------------|--|
| | <input type="checkbox"/> Si | | <input checked="" type="checkbox"/> No |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo medioambiental: ____% | <input checked="" type="checkbox"/> | Promovió características medioambientales o sociales y, aunque no tenía como objetivo una inversión sostenible, tuvo un porcentaje del 17,86% de inversiones sostenibles |
| <input type="checkbox"/> | en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input type="checkbox"/> | con un objetivo medioambiental en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> | en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> | con un objetivo medioambiental en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo social: ____% | <input type="checkbox"/> | <input checked="" type="checkbox"/> con un objetivo social |
| <input type="checkbox"/> | | <input type="checkbox"/> | Ha promovido características medioambientales o sociales, pero no ha realizado ninguna inversión sostenible |

Nota: Las inversiones sostenibles se calcularon sobre una base de aprobado/suspenso, incluyendo bonos con etiqueta (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% (medida por ingresos, EBIT, valor de empresa o indicadores similares) a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.

¿En qué grado se han cumplido las características medioambientales o sociales que promueve este producto financiero?

Las características medioambientales y sociales de este producto financiero se promovieron utilizando:

- Inclinación positiva:

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos y, como resultado, tuvo un perfil medioambiental, social y de gobernanza (ASG) mejor que el del índice de referencia. El índice JP Morgan CEMBI Broad Diversified 1-3 Years se utilizó para medir la inclinación positiva; sin embargo, no se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

- Exclusiones basadas en normas y valores:

El fondo excluyó los emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente o que incumplen de forma grave las normas internacionales, según se detalla a continuación:

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

Actividad

Umbrales de ingresos

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

| | |
|---|------------------------------------|
| Combustibles fósiles y energía nuclear | |
| Extracción de carbón térmico | > 25% |
| Generación de energía térmica de carbón | > 25% |
| Extracción de arenas bituminosas | > 25% |
| Extracción de energía de esquisto | > 25% |
| Exploración de petróleo y gas en el Ártico | > 10% |
| Armas | |
| Producción de armas controvertidas ^[1] | > 0% |
| Armas de contratación militar | > 10% |
| Clientes civiles de armas pequeñas (armas de asalto) | > 10% |
| Clientes civiles de armas pequeñas (armas de no asalto) | > 10% |

| Exclusiones de empresas por incumplimiento de normas internacionales | Excluidas |
| Empresas que incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción | Sí |
| Exclusiones de países | Excluidas |
| Países (i) incluidos en la lista de Estados patrocinadores del terrorismo, según la definición de la Oficina de Control de Activos Extranjeros de EE. UU. ^[2] o (ii) sujetos a sanciones financieras de la UE contra bancos centrales y/o empresas de propiedad estatal. | Sí |
| Países (i) clasificados como de muy alto o alto riesgo en el Índice de Estados Frágiles o (ii) afectados por conflictos violentos según la definición del Banco Mundial. | Sí |
| Países (i) incluidos en la lista de «alerta» del Índice de Estados Frágiles o (ii) sujetos a sanciones relacionadas con la exportación por parte de la UE. | Lista de vigilancia ^[3] |

^[1] Entre las armas controvertidas se encuentran las minas antipersona, las municiones de racimo, las armas biológicas y químicas (incluido el fósforo blanco) y las armas nucleares procedentes de países no firmantes del Tratado de No Proliferación de Armas Nucleares (TNP).

^[2] «Estado patrocinador del terrorismo» es una designación aplicada por el Departamento de Estado de Estados Unidos a países que repetidamente han prestado apoyo a actos de terrorismo internacional.

^[3] Además de las exclusiones estrictas, Pictet Asset Management mantiene una lista de vigilancia que incluye países que requieren una diligencia debida adicional por parte de los equipos de inversión antes de invertir.

Para más detalles, consulte la Política de Inversión responsable de Pictet Asset Management (Anexo B).

- Titularidad activa:

El fondo se implicó con la dirección de las empresas sobre cuestiones ASG importantes.

● **¿Cómo se han comportado los indicadores de sostenibilidad?**

Durante el periodo de información, los indicadores de sostenibilidad se comportaron según se indica a continuación:

• **Perfil ASG global**

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos.

Como resultado, el fondo ha conseguido un perfil ambiental, social y de gobernanza (ASG) mejor que el del índice de referencia.

- **Principal incidencia adversa (PIA)**

El fondo utiliza una combinación de enfoques para considerar y, en la medida de lo posible, mitigar las incidencias adversas materiales de nuestras inversiones en la sociedad y el medioambiente, como emisiones de GEI, contaminación atmosférica, pérdida de biodiversidad, emisiones al agua, residuos peligrosos/radioactivos, derechos humanos, normas laborales, corrupción y soborno, y salud pública.

El grado y la forma en que estas incidencias se tuvieron en cuenta dependieron de factores como el contexto específico de la inversión que provoca la incidencia adversa o la disponibilidad de datos fiables.

De conformidad con la política de exclusión de Pictet Asset Management descrita en la Política de Inversión responsable de la empresa (véase el cuadro anterior para consultar las actividades excluidas y los umbrales de exclusión aplicados), el fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente:

Actividades controvertidas (media ponderada de ingresos de la empresa, en %)*:

| | Fondo (%) | Índice de referencia (%) |
|--|-----------|--------------------------|
| Combustibles fósiles y energía nuclear | 10,46 | 10,94 |
| Armas | 0,00 | 0,16 |
| Otras actividades controvertidas | 0,00 | 3,22 |
| No aplicable: | 2,45 | 0,00 |
| No cubierto: | 3,29 | 1,13 |

* Los combustibles fósiles y la energía nuclear incluyen la extracción de carbón térmico y la generación de electricidad, la producción y extracción de petróleo y gas, la extracción de energía de esquisto, la exploración de petróleo y gas en los mares del Ártico y la generación de energía nuclear. Las armas incluyen la contratación militar (servicios de armas y relacionadas con estas), clientes civiles de armas pequeñas (armas de asalto/ho asalto), clientes militares/de las fuerzas y cuerpos de seguridad de armas pequeñas y componentes clave de pequeñas armas. Otras actividades controvertidas incluyen la producción de tabaco, la producción de entretenimiento para adultos, la explotación de juegos de azar, el desarrollo o crecimiento de organismos modificados genéticamente, la producción o venta al por menor de pesticidas. La exposición se basa en datos de terceros y puede no reflejar nuestro punto de vista interno. Pictet Asset Management tiene plena discreción sobre la aplicación de los criterios de exclusión y se reserva el derecho de apartarse de la información de terceros, según el caso, cuando se considere incorrecta o incompleta.

Fuente: Pictet Asset Management, Sustainalytics.

Además, el fondo excluyó a los emisores que tenían exposición a:

(i) PIA 10: Incumplimientos de los principios del Pacto Mundial de las Naciones Unidas y las Directrices para Empresas Multinacionales de la Organización para la Cooperación y el Desarrollo Económicos (OCDE).

(ii) PIA 14: Exposición a armas controvertidas (minas antipersonas, municiones en racimo, armas químicas y armas biológicas)

- **Interacción**

El fondo se implicó con 6 empresas sobre cuestiones ASG (datos a 30.09.2023). Esto incluye diálogos internos, iniciativas de colaboración entre inversores y servicios de implicación de terceros. Para que se considere implicación, el diálogo con una empresa objetivo debe tener un objetivo claro y mensurable en un horizonte temporal predefinido. Es importante señalar que no todas las interacciones rutinarias o de supervisión, aunque impliquen a la alta dirección o al Consejo de administración, se consideran implicaciones en nuestra evaluación.

Fuente: Pictet Asset Management, Sustainalytics.

- **¿... y en comparación con períodos anteriores?**

Esta cuestión se abordará en futuros informes anuales debido a la falta de historial.

● **¿Cuáles han sido los objetivos de las inversiones sostenibles que ha realizado en parte el producto financiero y de qué forma ha contribuido la inversión sostenible a dichos objetivos?**

El fondo no se comprometió a un porcentaje mínimo de inversiones sostenibles.

Sin embargo, *a posteriori*, el fondo invirtió en valores que financian actividades económicas que contribuyeron sustancialmente a objetivos medioambientales y/o sociales como:

Medioambientales

- mitigación del cambio climático o adaptación al mismo
- uso sostenible y protección de los recursos hídricos y marinos
- transición hacia una economía circular
- prevención y control de la contaminación o
- protección y recuperación de la biodiversidad y los ecosistemas

Sociales

- comunidades inclusivas y sostenibles
- nivel de vida adecuado y bienestar para los usuarios finales o
- trabajo digno

Pictet Asset Management utilizó un marco de referencia propio, así como los objetivos de la Taxonomía de la UE, para definir las inversiones sostenibles.

● **¿De qué manera las inversiones sostenibles que el producto financiero ha realizado en parte, no han causado un perjuicio significativo a ningún objetivo de inversión sostenible medioambiental o social?**

Para evitar que las inversiones sostenibles causen un perjuicio significativo a cualquier otro objetivo medioambiental o social, el fondo aplicó los siguientes criterios de selección sobre la base del mejor esfuerzo:

- (i) Exclusiones de emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente (véase la descripción del marco de exclusión de IR).
- (ii) Los emisores asociados a controversias elevadas y graves no se contabilizaron como inversiones sostenibles.

La información se obtuvo de proveedores terceros y/o de análisis interno. La información ASG de terceros proveedores de datos puede haber sido incompleta, inexacta o no estar disponible. Como consecuencia de ello, existía el riesgo de que el Gestor de inversiones evaluara incorrectamente un valor o emisor, dando lugar a la inclusión o exclusión incorrecta de un valor en el fondo. Los datos ASG incompletos, inexactos o no disponibles también pueden actuar como una limitación metodológica a una estrategia de inversión no financiera (como la aplicación de criterios ASG o similares). En los casos identificados, el Gestor de inversiones trató de mitigar este riesgo mediante su propia evaluación. En caso de que las características ASG de un valor mantenido por el fondo cambiaran, dando lugar a la venta del valor, el Gestor de inversiones no acepta responsabilidad alguna en relación con dicho cambio.

● **¿Cómo se han tenido en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?**

Pictet Asset Management realiza un seguimiento de todos los indicadores obligatorios de principales incidencias adversas (incluidos en el Anexo 1 del Reglamento Delegado (UE) 22 / 1288 de la Comisión) cuando disponemos de datos sólidos. Se espera que la calidad de los datos disponibles mejore con el tiempo.

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas de sus inversiones en la sociedad y el medioambiente que se consideran importantes para la estrategia de inversión, mediante un conjunto de decisiones de gestión de cartera, actividades de propiedad activa y exclusión de emisores asociados a conductas o actividades controvertidas. Más información en el informe de PIA de la entidad, disponible en:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=es&bl=PAM>

Las principales incidencias adversas son las incidencias negativas más importantes de las decisiones de inversión sobre los factores de sostenibilidad en relación con asuntos medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

- ¿Se han ajustado las inversiones sostenibles a las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios rectores de las Naciones Unidas sobre las empresas y los derechos humanos?

Para garantizar que la inversión sostenible no causara un perjuicio significativo a ningún objetivo de inversión sostenible, el fondo excluyó a las empresas con infracciones elevadas y graves de (i) los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción o (ii) las Líneas Directrices de la OCDE para Empresas Multinacionales, incluidos los asuntos sociales y laborales graves.

La taxonomía de la UE establece el principio de «no causar un perjuicio significativo», según el cual las inversiones que se ajusten a la taxonomía no deben perjudicar significativamente a los objetivos de la taxonomía de la UE, e incluye criterios específicos de la Unión.

El principio de «no perjudicar de forma significativa» se aplica únicamente a las inversiones subyacentes del producto financiero que contemplan los criterios de la UE relativos a actividades económicas sostenibles desde una perspectiva medioambiental. Las inversiones subyacentes al resto del producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas medioambientalmente sostenibles.

Cualquier otra inversión sostenible tampoco debe perjudicar significativamente a ningún objetivo medioambiental o social.

¿Cómo tiene en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas que se consideran importantes para la estrategia de inversión. Entre las incidencias adversas se incluyeron, entre otras, las emisiones de gases de efecto invernadero (GEI), la contaminación atmosférica, la pérdida de biodiversidad, las emisiones al agua, los residuos peligrosos/radioactivos, las cuestiones sociales y laborales, y la corrupción y el soborno, que se abordaron mediante una combinación de:

(i) decisiones de gestión de carteras

El equipo de inversión puntuó las posiciones según una evaluación de los riesgos medioambientales, sociales y de gobernanza como parte del marco de puntuación del fondo. Los gestores de inversiones determinan las puntuaciones sobre una base cualitativa, basándose en el análisis fundamental y en datos cuantitativos ASG, incluidos los datos sobre la Principal incidencia adversa, los datos ASG facilitados por las empresas y los datos proporcionados por terceros proveedores de datos ASG. El proceso de puntuación del equipo de inversión fue un componente clave del proceso de construcción de la cartera del comportamiento, determinando las ponderaciones objetivo en la cartera.

(ii) implicación

La interacción con los emisores se realizó mediante conversaciones individuales, reuniones de accionistas/bonistas, giras de inversores y/o conferencias telefónicas. Los objetivos de estas interacciones fueron evaluar una organización, supervisar que su estrategia se estaba aplicando conforme a nuestras expectativas y garantizar que los emisores iban camino de cumplir sus metas y objetivos.

Cuando corresponde, nos implicamos con las empresas en relación con cuestiones ASG importantes, como los objetivos de reducción de los GEI, las mejoras en la gobernanza y diversas controversias medioambientales, sociales y de gobernanza, para asegurarnos de que las entendieran y las abordaran eficazmente a corto, medio y largo plazo. Nuestras actividades de implicación combinaron debates dirigidos a nivel interno, iniciativas de colaboración con inversores institucionales y servicios de implicación externos.

(iii) exclusión de emisores asociados a conductas o actividades controvertidas

El fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se definen en la Política de Inversión responsable de la Pictet Asset Management y/o (ii) empresas que infringieron gravemente los principios del Pacto Mundial de la ONU sobre derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción y las armas controvertidas.

¿Cuáles han sido las inversiones principales de este producto financiero?

La lista incluye las inversiones que constituyen la **mayor parte de las inversiones** del producto financiero durante el período de referencia, que es: 01.10.2022 - 30.09.2023

| INVERSIONES DE MAYOR VOLUMEN | SECTOR | % DE ACTIVOS | PAÍS |

¿Cuál ha sido la proporción de inversiones relacionadas con la sostenibilidad?

17,86%

La asignación de activos describe el porcentaje de inversiones en activos específicos.

¿Cuál ha sido la asignación de activos?

El fondo se ajustó en un 92,29% con características medioambientales o sociales (n.º 1 Ajustadas a características medioambientales o sociales) y tuvo hasta un 7,71% invertido en la categoría Otras (n.º 2 Otras). El 17,86% se asignó a inversiones sostenibles (n.º 1A Sostenibles) y el resto se invirtió en inversiones ajustadas a otras características medioambientales o sociales (n.º 1B Otras características medioambientales o sociales).

n.º 1 Ajustadas a características medioambientales o sociales incluye las inversiones del producto financiero utilizadas para lograr las características medioambientales o sociales que promueve el producto financiero.

n.º 2 Otras incluye el resto de inversiones del producto financiero que ni se ajustan a las características medioambientales o sociales ni pueden considerarse inversiones sostenibles.

La categoría n.º 1 Ajustadas a características medioambientales o sociales abarca:

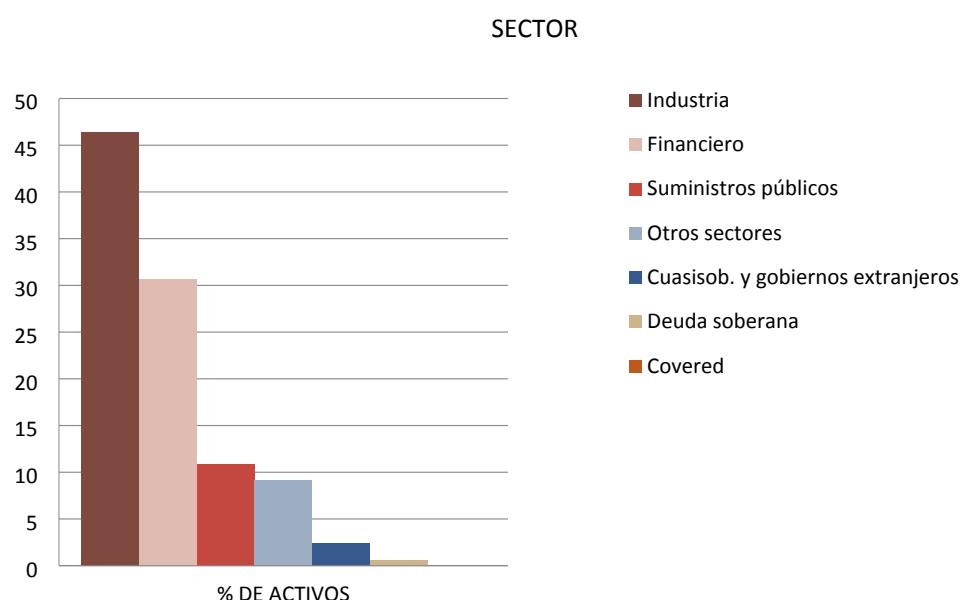

- la subcategoría n.º 1A Sostenibles, que abarca las inversiones sostenibles con objetivos medioambientales o sociales.
- la subcategoría n.º 1B Otras características medioambientales o sociales, que abarca inversiones ajustadas a las características medioambientales o sociales que no pueden considerarse inversiones sostenibles.

Notas:

- Las inversiones «n.º 1A Sostenibles», «Otras medioambientales» y «Sociales» se calcularon sobre una base de aprobado/suspenso. Incluyen bonos certificados (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.
- A falta de una taxonomía social de la UE, Pictet ha desarrollado un marco de taxonomía social propio. El marco se basa en basado en el Informe sobre taxonomía social publicado por la Plataforma de Finanzas Sostenibles de la UE en 2022. Las actividades admisibles se definen como bienes y servicios beneficiosos desde el punto de vista social que contribuyen sustancialmente a uno de los tres objetivos sociales siguientes: (1) comunidades inclusivas y sostenibles, (2) nivel de vida adecuado y bienestar para los usuarios finales y (3) trabajo digno.

Fuente: Pictet Asset Management, Sustainanalytics, FTSE Green Revenues, Factset RBICS.

● ¿En qué sectores económicos se han realizado las inversiones?

Fuente: Pictet Asset Management, Merrill Lynch.

Estamos evaluando la disponibilidad y la calidad de los datos que nos permitirían divulgar información más granular en futuros informes sobre los sectores y subsectores de la economía que obtienen ingresos a partir de la exploración, la minería, la extracción, la producción, el

procesamiento, el almacenamiento, el refinado o la distribución, incluidos el transporte, el almacenamiento y el comercio, de combustibles fósiles, según se definen en el artículo 2, punto (62), del Reglamento (UE) 2018/1999 del Parlamento Europeo y del Consejo.

¿En qué medida se ajustaban las inversiones sostenibles con un objetivo medioambiental a la taxonomía de la UE?

No aplicable.

● ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil o la energía nuclear que cumplían con la taxonomía de la UE¹?

Sí:

En gas fósil En energía nuclear

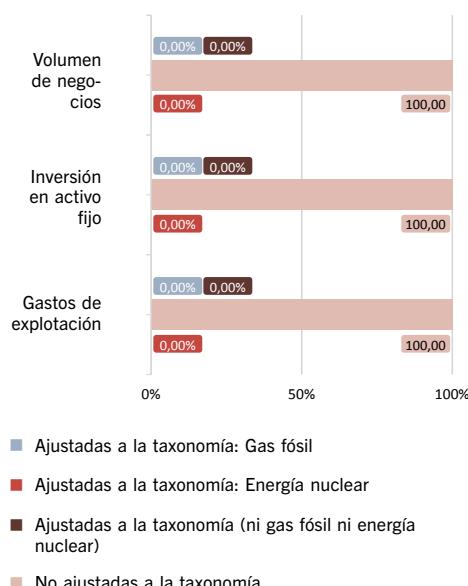

No

Para ajustarse a la taxonomía de la UE, los criterios correspondientes al **gas fósil** incluyen limitaciones de emisiones y el paso a la energía renovable o combustibles bajos en carbono de aquí al fin de 2035. Por lo que respecta a la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

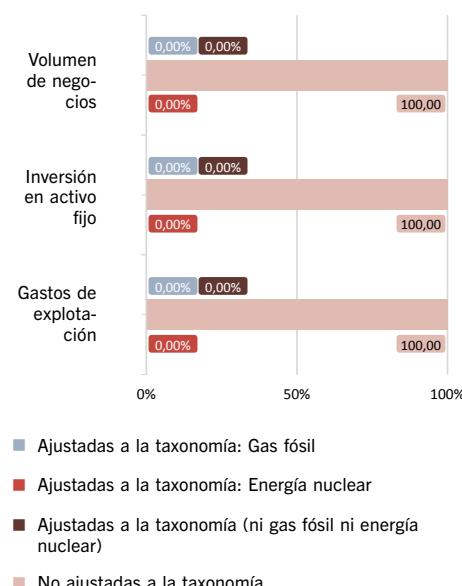

Las actividades que se ajustan a la taxonomía se expresan como un porcentaje de:
- el **volumen de negocios**, que refleja el «carácter ecológico» de las empresas en las que se invierte en la actualidad;
- la **inversión en activo fijo**, que muestra las inversiones ecológicas realizadas por las empresas en las que se invierte, pertinentes para la transición a una economía verde;
- los **gastos de explotación**, que reflejan las actividades operativas ecológicas de las empresas en las que se invierte.

Los gráficos que figuran a continuación muestran en verde el porcentaje de inversiones que se ajustaban a la taxonomía de la UE. Dado que no existe una metodología adecuada para determinar la adaptación a la taxonomía de los bonos soberanos*, el primer gráfico muestra la adaptación a la taxonomía correspondiente para todas las inversiones del producto financiero, incluidos los bonos soberanos, mientras que el segundo gráfico muestra la adaptación a la taxonomía solo en relación con las inversiones del producto financiero distintas de los bonos soberanos.

1. Ajuste a la taxonomía de las inversiones incluidos los bonos soberanos*

2. Ajuste a la taxonomía de las inversiones excluidos los bonos soberanos*

Este gráfico representa el 92,14% de las inversiones totales.

* A efectos de estos gráficos, los «bonos soberanos» incluyen todas las exposiciones soberanas

● ¿Cuál ha sido la proporción de las inversiones realizadas en actividades de transición y facilitadoras?

No aplicable.

¹ Las actividades relacionadas con el gas fósil o la energía nuclear solo cumplirán la taxonomía de la UE cuando contribuyan a limitar el cambio climático («mitigación del cambio climático») y no perjudiquen significativamente ningún objetivo de la taxonomía de la UE (véase la nota explicativa en el margen izquierdo). Los criterios completos correspondientes a las actividades económicas del gas fósil y la energía nuclear que se ajustan a la taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

- **¿Qué porcentaje de inversiones se han ajustado a la taxonomía de la UE en comparación con los períodos de referencia anteriores?**

No aplicable.

¿Cuál ha sido la proporción de inversiones sostenibles con un objetivo medioambiental no ajustadas a la taxonomía de la UE?

6,64%

Estas inversiones sostenibles no se ajustan a la Taxonomía de la UE porque sus actividades económicas o bien (i) no están cubiertas por la Taxonomía de la UE, o bien (ii) no cumplen los criterios técnicos de selección para lograr una contribución sustancial en el sentido de la Taxonomía de la UE.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta los criterios para las actividades económicas medioambientalmente sostenibles con arreglo al Reglamento (UE) 2020/852.

¿Cuál ha sido la proporción de inversiones socialmente sostenibles?

11,22%

¿Qué inversiones se han incluido en «otras» y cuál ha sido su propósito? ¿ha habido garantías medioambientales o sociales mínimas?

Las «otras» inversiones del fondo incluían posiciones de tesorería mantenidas principalmente para satisfacer los objetivos diarios de liquidez y gestión de riesgos permitidos y previstos por la política de inversión del fondo. Cuando sea preciso, se aplicarán salvaguardias medioambientales o sociales mínimas a los valores subyacentes.

¿Qué medidas se han adoptado para cumplir las características medioambientales o sociales durante el período de referencia?

Durante el periodo de referencia, se alcanzó el objetivo de inversión sostenible siguiendo la estrategia de inversión y respetando los elementos vinculantes.

Los elementos vinculantes del fondo son:

- Exclusión de emisores que:
 - están relacionados con armas nucleares de países que no han firmado el Tratado sobre la No Proliferación de Armas Nucleares (TNP) y otras armas controvertidas
 - obtienen una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, como la extracción de carbón térmico y la generación de electricidad, la exploración y producción no convencional de petróleo y gas, las armas convencionales y armas pequeñas, las armas de contratación militar, la producción de tabaco, la producción de entretenimiento para adultos y las actividades del juego. Para más detalles sobre los umbrales de exclusión aplicables a las actividades anteriores, consulte la Política de Inversión responsable de Pictet Asset Management.
 - incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción
- un perfil ASG mejor que el del índice de referencia
- análisis de criterios ASG de los valores admisibles que abarca al menos el 90% del patrimonio neto o el número de emisores incluidos en la cartera

Además, el fondo se implicó con 6 empresas a 30.09.2023.

¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

Los índices de referencia son índices para medir si el producto financiero logra las características medioambientales o sociales que promueve.

● ¿Cómo difería el índice de referencia de un índice general de mercado?

No aplicable.

● ¿Cómo se ha comportado este producto financiero con respecto a los indicadores de sostenibilidad para determinar la conformidad del índice de referencia con las características medioambientales o sociales que promueve?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice general de mercado?

No aplicable.

Nombre del producto: **Pictet - Absolute Return Fixed Income**

Identificador de entidad jurídica: **549300UVU2ZEG8T8ZH17**

CARACTERÍSTICAS MEDIOAMBIENTALES O SOCIALES

Inversión sostenible
significa una inversión en una actividad económica que contribuye a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo a ningún objetivo medioambiental o social y que las empresas en las que se invierte sigan prácticas de buena gobernanza.

La **taxonomía de la UE** es un sistema de clasificación previsto en el Reglamento (UE) 2020/852 por el que se establece una lista de **actividades económicas medioambientalmente sostenibles**. Dicho Reglamento no prevé una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental pueden ajustarse, o no, a la taxonomía.

| ¿ESTE PRODUCTO FINANCIERO TENÍA UN OBJETIVO DE INVERSIÓN SOSTENIBLE? | | | |
|--|--|--|--|
| ● ● <input type="checkbox"/> Si | | ● ● <input checked="" type="checkbox"/> No | |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo medioambiental: ____% | <input checked="" type="checkbox"/> | Promovió características medioambientales o sociales y, aunque no tenía como objetivo una inversión sostenible, tuvo un porcentaje del 15,11% de inversiones sostenibles |
| <input type="checkbox"/> | en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> | con un objetivo medioambiental en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> | en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> | con un objetivo medioambiental en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo social: ____% | <input type="checkbox"/> | con un objetivo social |
| <input type="checkbox"/> | | <input type="checkbox"/> | Ha promovido características medioambientales o sociales, pero no ha realizado ninguna inversión sostenible |

Nota: Las inversiones sostenibles se calcularon sobre una base de aprobado/suspenso, incluyendo bonos con etiqueta (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% (medida por ingresos, EBIT, valor de empresa o indicadores similares) a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.

¿En qué grado se han cumplido las características medioambientales o sociales que promueve este producto financiero?

Las características medioambientales y sociales de este producto financiero se promovieron utilizando:

- Inclinación positiva:

El fondo incrementó el peso de los bonos corporativos con riesgos de sostenibilidad bajos y/o disminuyó el peso de los bonos corporativos con riesgos de sostenibilidad altos y, como resultado, los bonos corporativos que mantiene tuvieron un perfil ASG mejor que el del universo de inversión.

No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

- Exclusiones basadas en normas y valores:

El fondo excluyó los emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente o que incumplen de forma grave las normas internacionales, según se detalla a continuación:

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

Actividad

Umbrales de ingresos

| Países (i) incluidos en la lista de Estados patrocinadores del terrorismo, según la definición de la Oficina de Control de Activos Extranjeros de EE. UU. ^[2] o (ii) sujetos a sanciones financieras de la UE contra bancos centrales y/o empresas de propiedad estatal. | Sí |
| Países (i) clasificados como de muy alto o alto riesgo en el Índice de Estados Frágiles o (ii) afectados por conflictos violentos según la definición del Banco Mundial. | Sí |
| Países (i) incluidos en la lista de «alerta» del Índice de Estados Frágiles o (ii) sujetos a sanciones relacionadas con la exportación por parte de la UE. | Lista de vigilancia ^[3] |

^[1] Entre las armas controvertidas se encuentran las minas antipersona, las municiones de racimo, las armas biológicas y químicas (incluido el fósforo blanco) y las armas nucleares procedentes de países no firmantes del Tratado de No Proliferación de Armas Nucleares (TNP).

^[2] «Estado patrocinador del terrorismo» es una designación aplicada por el Departamento de Estado de Estados Unidos a países que repetidamente han prestado apoyo a actos de terrorismo internacional.

^[3] Además de las exclusiones estrictas, Pictet Asset Management mantiene una lista de vigilancia que incluye países que requieren una diligencia debida adicional por parte de los equipos de inversión antes de invertir.

Para más detalles, consulte la Política de Inversión responsable de Pictet Asset Management (Anexo B).

- Titularidad activa:

El fondo se implicó con la dirección de las empresas sobre cuestiones ASG importantes.

● **¿Cómo se han comportado los indicadores de sostenibilidad?**

Durante el periodo de información, los indicadores de sostenibilidad se comportaron según se indica a continuación:

• **Perfil ASG global**

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos.

Como resultado, el fondo ha conseguido un perfil ambiental, social y de gobernanza (ASG) mejor que el del universo de inversión.

- **Principal incidencia adversa (PIA)**

El fondo utiliza una combinación de enfoques para considerar y, en la medida de lo posible, mitigar las incidencias adversas materiales de nuestras inversiones en la sociedad y el medioambiente, como emisiones de GEI, contaminación atmosférica, pérdida de biodiversidad, emisiones al agua, residuos peligrosos/radioactivos, derechos humanos, normas laborales, corrupción y soborno, y salud pública.

El grado y la forma en que estas incidencias se tuvieron en cuenta dependieron de factores como el contexto específico de la inversión que provoca la incidencia adversa o la disponibilidad de datos fiables.

De conformidad con la política de exclusión de Pictet Asset Management descrita en la Política de Inversión responsable de la empresa (véase el cuadro anterior para consultar las actividades excluidas y los umbrales de exclusión aplicados), el fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente:

Actividades controvertidas (media ponderada de ingresos de la empresa, en %)*:

| | Fondo (%) | Índice de referencia (%) |
|--|-----------|--------------------------|
| Combustibles fósiles y energía nuclear | 0,73 | 0,00 |
| Armas | 0,00 | 0,00 |
| Otras actividades controvertidas | 0,03 | 0,00 |
| No aplicable: | 83,92 | 0,00 |
| No cubierto: | 0,40 | 0,00 |

* Los combustibles fósiles y la energía nuclear incluyen la extracción de carbón térmico y la generación de electricidad, la producción y extracción de petróleo y gas, la extracción de energía de esquisto, la exploración de petróleo y gas en los mares del Ártico y la generación de energía nuclear. Las armas incluyen la contratación militar (servicios de armas y relacionadas con estas), clientes civiles de armas pequeñas (armas de asalto/ho asalto), clientes militares/de las fuerzas y cuerpos de seguridad de armas pequeñas y componentes clave de pequeñas armas. Otras actividades controvertidas incluyen la producción de tabaco, la producción de entretenimiento para adultos, la explotación de juegos de azar, el desarrollo o crecimiento de organismos modificados genéticamente, la producción o venta al por menor de pesticidas. La exposición se basa en datos de terceros y puede no reflejar nuestro punto de vista interno. Pictet Asset Management tiene plena discreción sobre la aplicación de los criterios de exclusión y se reserva el derecho de apartarse de la información de terceros, según el caso, cuando se considere incorrecta o incompleta.

Fuente: Pictet Asset Management, Sustainalytics.

Además, el fondo excluyó a los emisores que tenían exposición a:

(i) PIA 10: Incumplimientos de los principios del Pacto Mundial de las Naciones Unidas y las Directrices para Empresas Multinacionales de la Organización para la Cooperación y el Desarrollo Económicos (OCDE).

(ii) PIA 14: Exposición a armas controvertidas (minas antipersonas, municiones en racimo, armas químicas y armas biológicas)

- **Interacción**

El fondo se implicó con 11 empresas sobre cuestiones ASG (datos a 30.09.2023). Esto incluye diálogos internos, iniciativas de colaboración entre inversores y servicios de implicación de terceros. Para que se considere implicación, el diálogo con una empresa objetivo debe tener un objetivo claro y mensurable en un horizonte temporal predefinido. Es importante señalar que no todas las interacciones rutinarias o de supervisión, aunque impliquen a la alta dirección o al Consejo de administración, se consideran implicaciones en nuestra evaluación.

Fuente: Pictet Asset Management, Sustainalytics.

- **¿... y en comparación con períodos anteriores?**

Esta cuestión se abordará en futuros informes anuales debido a la falta de historial.

● **¿Cuáles han sido los objetivos de las inversiones sostenibles que ha realizado en parte el producto financiero y de qué forma ha contribuido la inversión sostenible a dichos objetivos?**

El fondo no se comprometió a un porcentaje mínimo de inversiones sostenibles.

Sin embargo, *a posteriori*, el fondo invirtió en valores que financian actividades económicas que contribuyeron sustancialmente a objetivos medioambientales y/o sociales como:

Medioambientales

- mitigación del cambio climático o adaptación al mismo
- uso sostenible y protección de los recursos hídricos y marinos
- transición hacia una economía circular
- prevención y control de la contaminación o
- protección y recuperación de la biodiversidad y los ecosistemas

Sociales

- comunidades inclusivas y sostenibles
- nivel de vida adecuado y bienestar para los usuarios finales o
- trabajo digno

Pictet Asset Management utilizó un marco de referencia propio, así como los objetivos de la Taxonomía de la UE, para definir las inversiones sostenibles.

● **¿De qué manera las inversiones sostenibles que el producto financiero ha realizado en parte, no han causado un perjuicio significativo a ningún objetivo de inversión sostenible medioambiental o social?**

Para evitar que las inversiones sostenibles causen un perjuicio significativo a cualquier otro objetivo medioambiental o social, el fondo aplicó los siguientes criterios de selección sobre la base del mejor esfuerzo:

- (i) Exclusiones de emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente (véase la descripción del marco de exclusión de IR).
- (ii) Los emisores asociados a controversias elevadas y graves no se contabilizaron como inversiones sostenibles.

La información se obtuvo de proveedores terceros y/o de análisis interno. La información ASG de terceros proveedores de datos puede haber sido incompleta, inexacta o no estar disponible. Como consecuencia de ello, existía el riesgo de que el Gestor de inversiones evaluara incorrectamente un valor o emisor, dando lugar a la inclusión o exclusión incorrecta de un valor en el fondo. Los datos ASG incompletos, inexactos o no disponibles también pueden actuar como una limitación metodológica a una estrategia de inversión no financiera (como la aplicación de criterios ASG o similares). En los casos identificados, el Gestor de inversiones trató de mitigar este riesgo mediante su propia evaluación. En caso de que las características ASG de un valor mantenido por el fondo cambiaran, dando lugar a la venta del valor, el Gestor de inversiones no acepta responsabilidad alguna en relación con dicho cambio.

● **¿Cómo se han tenido en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?**

Pictet Asset Management realiza un seguimiento de todos los indicadores obligatorios de principales incidencias adversas (incluidos en el Anexo 1 del Reglamento Delegado (UE) 22 / 1288 de la Comisión) cuando disponemos de datos sólidos. Se espera que la calidad de los datos disponibles mejore con el tiempo.

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas de sus inversiones en la sociedad y el medioambiente que se consideran importantes para la estrategia de inversión, mediante un conjunto de decisiones de gestión de cartera, actividades de propiedad activa y exclusión de emisores asociados a conductas o actividades controvertidas. Más información en el informe de PIA de la entidad, disponible en:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=es&bl=PAM>

Las principales incidencias adversas son las incidencias negativas más importantes de las decisiones de inversión sobre los factores de sostenibilidad en relación con asuntos medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

- ¿Se han ajustado las inversiones sostenibles a las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios rectores de las Naciones Unidas sobre las empresas y los derechos humanos?

Para garantizar que la inversión sostenible no causara un perjuicio significativo a ningún objetivo de inversión sostenible, el fondo excluyó a las empresas con infracciones elevadas y graves de (i) los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción o (ii) las Líneas Directrices de la OCDE para Empresas Multinacionales, incluidos los asuntos sociales y laborales graves.

La taxonomía de la UE establece el principio de «no causar un perjuicio significativo», según el cual las inversiones que se ajusten a la taxonomía no deben perjudicar significativamente a los objetivos de la taxonomía de la UE, e incluye criterios específicos de la Unión.

El principio de «no perjudicar de forma significativa» se aplica únicamente a las inversiones subyacentes del producto financiero que contemplan los criterios de la UE relativos a actividades económicas sostenibles desde una perspectiva medioambiental. Las inversiones subyacentes al resto del producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas medioambientalmente sostenibles.

Cualquier otra inversión sostenible tampoco debe perjudicar significativamente a ningún objetivo medioambiental o social.

¿Cómo tiene en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas que se consideran importantes para la estrategia de inversión. Estas incidencias adversas se abordaron mediante una combinación de:

(i) decisiones de gestión de carteras

El equipo de inversión evaluó sus posiciones corporativas con arreglo a un análisis de los riesgos medioambientales, sociales y de gobernanza como parte del marco de inversión del fondo. Los gestores de inversiones, basándose en análisis interno y de terceros, incluidos los datos cuantitativos ASG incluidos los datos sobre la Principal incidencia adversa , los datos ASG facilitados por las empresas y los datos proporcionados por terceros proveedores de datos ASG. El análisis del equipo de inversión fue un componente clave del proceso de construcción de la cartera del comportamiento, determinando las ponderaciones objetivo en la cartera para lograr una inclinación positiva de la misma.

(ii) implicación

La interacción con los emisores se realizó mediante conversaciones individuales, reuniones de accionistas/bonistas, giras de inversores y/o conferencias telefónicas en colaboración con otros equipos de inversión y terceros. Los objetivos de estas interacciones fueron evaluar una organización, supervisar que su estrategia se estaba aplicando conforme a nuestras expectativas y garantizar que los emisores iban camino de cumplir sus metas y objetivos.

Cuando corresponde, nos implicamos con las empresas en relación con cuestiones ASG importantes, como los objetivos de reducción de los GEI, las mejoras en la gobernanza y diversas controversias medioambientales, sociales y de gobernanza, para asegurarnos de que las entendieran y las abordaran eficazmente a corto, medio y largo plazo. Nuestras actividades de implicación combinaron debates dirigidos a nivel interno, iniciativas de colaboración con inversores institucionales y servicios de implicación externos.

(iii) exclusión de emisores asociados a conductas o actividades controvertidas

El fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se definen en la Política de Inversión responsable de la Pictet Asset Management y/o (ii) empresas que infringieron gravemente los principios del Pacto Mundial de la ONU sobre derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción y las armas controvertidas, o (iii) países sujetos a sanciones internacionales; véase también la información detallada sobre las exclusiones que figura en la Política de Inversión responsable de Pictet Asset Management.

¿Cuáles han sido las inversiones principales de este producto financiero?

La lista incluye las inversiones que constituyen la **mayor parte de las inversiones** del producto financiero durante el período de referencia, que es: 01.10.2022 - 30.09.2023

| INVERSIONES DE MAYOR VOLUMEN | SECTOR | % DE ACTIVOS | PAÍS |

Fuente: Pictet Asset Management, Merrill Lynch.

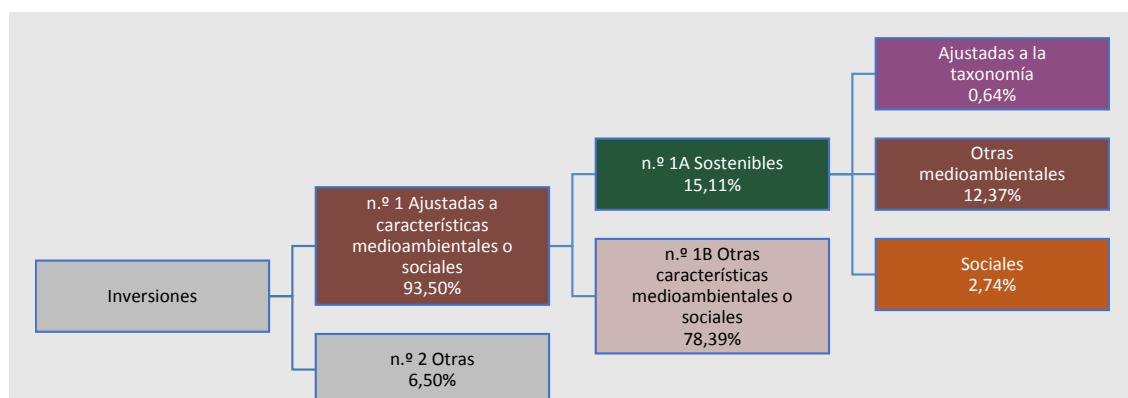

¿Cuál ha sido la proporción de inversiones relacionadas con la sostenibilidad?

15,11%

La **asignación de activos** describe el porcentaje de inversiones en activos específicos.

¿Cuál ha sido la asignación de activos?

El fondo se ajustó en un 93,50% con características medioambientales o sociales (n.º 1 Ajustadas a características medioambientales o sociales) y tuvo hasta un 6,50% invertido en la categoría Otras (n.º 2 Otras). El 15,11% se asignó a inversiones sostenibles (n.º 1A Sostenibles) y el resto se invirtió en inversiones ajustadas a otras características medioambientales o sociales (n.º 1B Otras características medioambientales o sociales).

n.º 1 Ajustadas a características medioambientales o sociales incluye las inversiones del producto financiero utilizadas para lograr las características medioambientales o sociales que promueve el producto financiero.

n.º 2 Otras incluye el resto de inversiones del producto financiero que ni se ajustan a las características medioambientales o sociales ni pueden considerarse inversiones sostenibles.

La categoría n.º 1 Ajustadas a características medioambientales o sociales abarca:

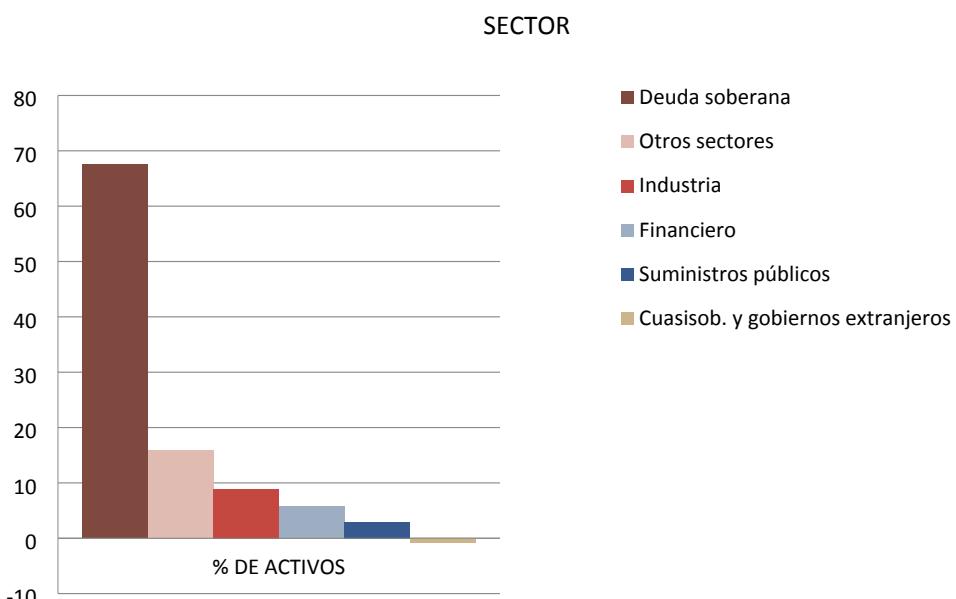

- la subcategoría n.º **1A Sostenibles**, que abarca las inversiones sostenibles con objetivos medioambientales o sociales.
- la subcategoría n.º **1B Otras características medioambientales o sociales**, que abarca inversiones ajustadas a las características medioambientales o sociales que no pueden considerarse inversiones sostenibles.

Notas:

- Las inversiones «n.º 1A Sostenibles», «Otras medioambientales» y «Sociales» se calcularon sobre una base de aprobado/suspenso. Incluyen bonos certificados (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.
- Las inversiones ajustadas a la taxonomía verde de la UE se calculan ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a la mitigación del cambio climático y la adaptación al mismo) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.
- A falta de una taxonomía social de la UE, Pictet ha desarrollado un marco de taxonomía social propio. El marco se basa en basado en el Informe sobre taxonomía social publicado por la Plataforma de Finanzas Sostenibles de la UE en 2022. Las actividades admisibles se definen como bienes y servicios beneficiosos desde el punto de vista social que contribuyen sustancialmente a uno de los tres objetivos sociales siguientes: (1) comunidades inclusivas y sostenibles, (2) nivel de vida adecuado y bienestar para los usuarios finales y (3) trabajo digno.

Fuente: *Pictet Asset Management, Sustainanalytics, FTSE Green Revenues, Factset RB/ICS.*

● ¿En qué sectores económicos se han realizado las inversiones?

Fuente: *Pictet Asset Management, Merrill Lynch.*

Estamos evaluando la disponibilidad y la calidad de los datos que nos permitirían divulgar información más granular en futuros informes sobre los sectores y subsectores de la economía que obtienen ingresos a partir de la exploración, la minería, la extracción, la producción, el procesamiento, el almacenamiento, el refinado o la distribución, incluidos el transporte, el almacenamiento y el comercio, de combustibles fósiles, según se definen en el artículo 2, punto (62), del Reglamento (UE) 2018/1999 del Parlamento Europeo y del Consejo.

¿En qué medida se ajustaban las inversiones sostenibles con un objetivo medioambiental a la taxonomía de la UE?

El fondo realizó inversiones en actividades económicas que contribuyeron a los dos primeros objetivos medioambientales (mitigación del cambio climático y adaptación a este), según lo establecido en el artículo 9 del Reglamento (UE) 2020/852.

Las inversiones ajustadas a la taxonomía de la UE se calcularon ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a objetivos medioambientales relevantes) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.

Los datos de ajuste a la Taxonomía verde de la UE proceden de informes públicos. Los cálculos también pueden incluir estimaciones en un número limitado de casos en los que no se disponía de datos sobre la alineación con la Taxonomía verde de la UE. Las estimaciones se realizaron sobre la base del mejor esfuerzo y siguiendo un planteamiento conservador para obtener un resultado prudente.

Los procedimientos de control se han aplicado para verificar en todo momento el cumplimiento del artículo 3 del Reglamento sobre taxonomía de la UE.

Los datos facilitados no han sido verificados por un auditor externo ni revisados por un tercero independiente.

Para ajustarse a la taxonomía de la UE, los criterios correspondientes al **gas fósil** incluyen limitaciones de emisiones y el paso a la energía renovable o combustibles bajos en carbono de aquí al fin de 2035. Por lo que respecta a la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las actividades que se ajustan a la taxonomía se expresan como un porcentaje de:

- el **volumen de negocios**, que refleja el «carácter ecológico» de las empresas en las que se invierte en la actualidad;
- la **inversión en activo fijo**, que muestra las inversiones ecológicas realizadas por las empresas en las que se invierte, pertinentes para la transición a una economía verde;
- los **gastos de explotación**, que reflejan las actividades operativas ecológicas de las empresas en las que se invierte.

● **¿Invirtió el producto financiero en actividades relacionadas con el gas fósil o la energía nuclear que cumplían con la taxonomía de la UE¹?**

Sí:

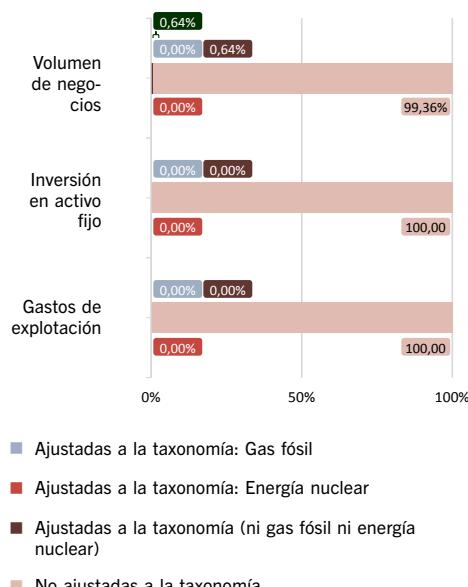

En gas fósil En energía nuclear

No

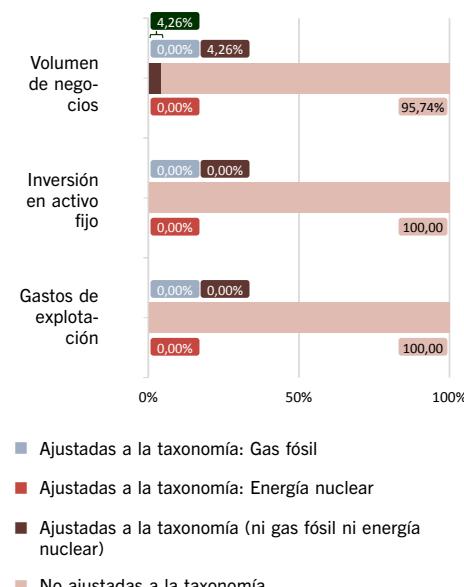

La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permite ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

Los gráficos que figuran a continuación muestran en verde el porcentaje de inversiones que se ajustaban a la taxonomía de la UE. Dado que no existe una metodología adecuada para determinar la adaptación a la taxonomía de los bonos soberanos*, el primer gráfico muestra la adaptación a la taxonomía correspondiente para todas las inversiones del producto financiero, incluidos los bonos soberanos, mientras que el segundo gráfico muestra la adaptación a la taxonomía solo en relación con las inversiones del producto financiero distintas de los bonos soberanos.

1. Ajuste a la taxonomía de las inversiones incluidos los bonos soberanos*

2. Ajuste a la taxonomía de las inversiones excluidos los bonos soberanos*

Este gráfico representa el 18,56% de las inversiones totales.

* A efectos de estos gráficos, los «bonos soberanos» incluyen todas las exposiciones soberanas

¹ Las actividades relacionadas con el gas fósil o la energía nuclear solo cumplirán la taxonomía de la UE cuando contribuyan a limitar el cambio climático («mitigación del cambio climático») y no perjudiquen significativamente ningún objetivo de la taxonomía de la UE (véase la nota explicativa en el margen izquierdo). Los criterios completos correspondientes a las actividades económicas del gas fósil y la energía nuclear que se ajustan a la taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

Nota:

Utilizamos los ingresos como medida clave para establecer la asignación de objetivos y el ajuste real con la taxonomía de la UE debido a la disponibilidad limitada y a la falta de datos fiables para los gastos de explotación y la inversión en activo fijo.

Fuente: Pictet Asset Management.

● **¿Cuál ha sido la proporción de las inversiones realizadas en actividades de transición y facilitadoras?**

La proporción de inversiones realizadas en:

- Actividades de transición: No aplicable*
- Actividades de facilitadoras: No aplicable*

* La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permiten ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

● **¿Qué porcentaje de inversiones se han ajustado a la taxonomía de la UE en comparación con los períodos de referencia anteriores?**

No aplicable.

¿Cuál ha sido la proporción de inversiones sostenibles con un objetivo medioambiental no ajustadas a la taxonomía de la UE?

12,37%

Estas inversiones sostenibles no se ajustan a la Taxonomía de la UE porque sus actividades económicas o bien (i) no están cubiertas por la Taxonomía de la UE, o bien (ii) no cumplen los criterios técnicos de selección para lograr una contribución sustancial en el sentido de la Taxonomía de la UE.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta los criterios para las actividades económicas medioambientalmente sostenibles con arreglo al Reglamento (UE) 2020/852.

¿Cuál ha sido la proporción de inversiones socialmente sostenibles?

2,74%

¿Qué inversiones se han incluido en «otras» y cuál ha sido su propósito? ¿ha habido garantías medioambientales o sociales mínimas?

Las «otras» inversiones del fondo incluían posiciones de tesorería mantenidas principalmente para satisfacer los objetivos diarios de liquidez y gestión de riesgos permitidos y previstos por la política de inversión del fondo. Cuando sea preciso, se aplicarán salvaguardias medioambientales o sociales mínimas a los valores subyacentes.

¿Qué medidas se han adoptado para cumplir las características medioambientales o sociales durante el período de referencia?

Durante el periodo de referencia, se alcanzó el objetivo de inversión sostenible siguiendo la estrategia de inversión y respetando los elementos vinculantes.

Los elementos vinculantes del fondo son:

- Exclusión de emisores que:
 - están relacionados con armas nucleares de países que no han firmado el Tratado sobre la No Proliferación de Armas Nucleares (TNP) y otras armas controvertidas
 - obtienen una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, como la extracción de carbón térmico y la generación de electricidad, la exploración y producción no convencional de petróleo y gas, las armas convencionales y armas

pequeñas, las armas de contratación militar, la producción de tabaco, la producción de entretenimiento para adultos y las actividades del juego. Para más detalles sobre los umbrales de exclusión aplicables a las actividades anteriores, consulte la Política de Inversión responsable de Pictet Asset Management.

- incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción
- exclusiones de países sujetos a sanciones internacionales
- un perfil ASG mejor que el del universo de inversión
- análisis de criterios ASG de los valores admisibles que abarca al menos el 90% del patrimonio neto o el número de emisores incluidos en la cartera

Además, el fondo se implicó con 11 empresas a 30.09.2023.

¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

Los índices de referencia son índices para medir si el producto financiero logra las características medioambientales o sociales que promueve.

● ¿Cómo difería el índice de referencia de un índice general de mercado?

No aplicable.

● ¿Cómo se ha comportado este producto financiero con respecto a los indicadores de sostenibilidad para determinar la conformidad del índice de referencia con las características medioambientales o sociales que promueve?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice general de mercado?

No aplicable.

Identificador de entidad jurídica: **222100Z1WAW34W2EHC60**

CARACTERÍSTICAS MEDIOAMBIENTALES O SOCIALES

Inversión sostenible
significa una inversión en una actividad económica que contribuye a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo a ningún objetivo medioambiental o social y que las empresas en las que se invierte sigan prácticas de buena gobernanza.

La **taxonomía de la UE** es un sistema de clasificación previsto en el Reglamento (UE) 2020/852 por el que se establece una lista de **actividades económicas medioambientalmente sostenibles**. Dicho Reglamento no prevé una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental pueden ajustarse, o no, a la taxonomía.

| ¿ESTE PRODUCTO FINANCIERO TENÍA UN OBJETIVO DE INVERSIÓN SOSTENIBLE? | | | |
|--|--|--|--|
| ● ● <input type="checkbox"/> Si | | ● ● <input checked="" type="checkbox"/> No | |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo medioambiental: ____% | <input checked="" type="checkbox"/> | Promovió características medioambientales o sociales y, aunque no tenía como objetivo una inversión sostenible, tuvo un porcentaje del 11,74% de inversiones sostenibles |
| <input type="checkbox"/> | en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> | con un objetivo medioambiental en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> | en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> | con un objetivo medioambiental en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo social: ____% | <input type="checkbox"/> | con un objetivo social |
| <input type="checkbox"/> | | <input type="checkbox"/> | Ha promovido características medioambientales o sociales, pero no ha realizado ninguna inversión sostenible |

Nota: Las inversiones sostenibles se calcularon sobre una base de aprobado/suspenso, incluyendo bonos con etiqueta (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% (medida por ingresos, EBIT, valor de empresa o indicadores similares) a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.

¿En qué grado se han cumplido las características medioambientales o sociales que promueve este producto financiero?

Las características medioambientales y sociales de este producto financiero se promovieron utilizando:

- Inclinación positiva:

El fondo incrementó el peso de los bonos corporativos con riesgos de sostenibilidad bajos y/o disminuyó el peso de los bonos corporativos con riesgos de sostenibilidad altos y, como resultado, los bonos corporativos que mantiene tuvieron un perfil ASG mejor que el del universo de inversión.

No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

- Exclusiones basadas en normas y valores:

El fondo excluyó los emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente o que incumplen de forma grave las normas internacionales, según se detalla a continuación:

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

Actividad

Umbrales de ingresos

| Países (i) clasificados como de muy alto o alto riesgo en el Índice de Estados Frágiles o (ii) afectados por conflictos violentos según la definición del Banco Mundial. | Sí |
| Países (i) incluidos en la lista de «alerta» del Índice de Estados Frágiles o (ii) sujetos a sanciones relacionadas con la exportación por parte de la UE. | Lista de vigilancia ^[3] |

^[1] Entre las armas controvertidas se encuentran las minas antipersona, las municiones de racimo, las armas biológicas y químicas (incluido el fósforo blanco) y las armas nucleares procedentes de países no firmantes del Tratado de No Proliferación de Armas Nucleares (TNP).

^[2] «Estado patrocinador del terrorismo» es una designación aplicada por el Departamento de Estado de Estados Unidos a países que repetidamente han prestado apoyo a actos de terrorismo internacional.

^[3] Además de las exclusiones estrictas, Pictet Asset Management mantiene una lista de vigilancia que incluye países que requieren una diligencia debida adicional por parte de los equipos de inversión antes de invertir.

Para más detalles, consulte la Política de Inversión responsable de Pictet Asset Management (Anexo B).

- Titularidad activa:

El fondo se implicó con la dirección de las empresas sobre cuestiones ASG importantes.

● ¿Cómo se han comportado los indicadores de sostenibilidad?

Durante el periodo de información, los indicadores de sostenibilidad se comportaron según se indica a continuación:

- **Perfil ASG global**

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos.

Como resultado, el fondo ha conseguido un perfil ambiental, social y de gobernanza (ASG) mejor que el del universo de inversión.

- **Principal incidencia adversa (PIA)**

El fondo utiliza una combinación de enfoques para considerar y, en la medida de lo posible, mitigar las incidencias adversas materiales de nuestras inversiones en la sociedad y el medioambiente, como emisiones de GEI, contaminación atmosférica, pérdida de biodiversidad, emisiones al agua, residuos peligrosos/radioactivos, derechos humanos, normas laborales, corrupción y soborno, y salud pública.

El grado y la forma en que estas incidencias se tuvieron en cuenta dependieron de factores como el contexto específico de la inversión que provoca la incidencia adversa o la disponibilidad de datos fiables.

De conformidad con la política de exclusión de Pictet Asset Management descrita en la Política de Inversión responsable de la empresa (véase el cuadro anterior para consultar las actividades excluidas y los umbrales de exclusión aplicados), el fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente:

Actividades controvertidas (media ponderada de ingresos de la empresa, en %)*:

| | Fondo (%) | Índice de referencia (%) |
|--|-----------|--------------------------|
| Combustibles fósiles y energía nuclear | 1,42 | 0,00 |
| Armas | 0,01 | 0,00 |
| Otras actividades controvertidas | 0,05 | 0,00 |
| No aplicable: | 75,50 | 0,00 |
| No cubierto: | 0,68 | 100,00 |

* Los combustibles fósiles y la energía nuclear incluyen la extracción de carbón térmico y la generación de electricidad, la producción y extracción de petróleo y gas, la extracción de energía de esquisto, la exploración de petróleo y gas en los mares del Ártico y la generación de energía nuclear. Las armas incluyen la contratación militar (servicios de armas y relacionadas con estas), clientes civiles de armas pequeñas (armas de asalto/ho asalto), clientes militares/de las fuerzas y cuerpos de seguridad de armas pequeñas y componentes clave de pequeñas armas. Otras actividades controvertidas incluyen la producción de tabaco, la producción de entretenimiento para adultos, la explotación de juegos de azar, el desarrollo o crecimiento de organismos modificados genéticamente, la producción o venta al por menor de pesticidas. La exposición se basa en datos de terceros y puede no reflejar nuestro punto de vista interno. Pictet Asset Management tiene plena discreción sobre la aplicación de los criterios de exclusión y se reserva el derecho de apartarse de la información de terceros, según el caso, cuando se considere incorrecta o incompleta.

Fuente: Pictet Asset Management, Sustainalytics.

Además, el fondo excluyó a los emisores que tenían exposición a:

- (i) PIA 10: Incumplimientos de los principios del Pacto Mundial de las Naciones Unidas y las Directrices para Empresas Multinacionales de la Organización para la Cooperación y el Desarrollo Económicos (OCDE).
- (ii) PIA 14: Exposición a armas controvertidas (minas antipersonas, municiones en racimo, armas químicas y armas biológicas)

- **Interacción**

El fondo se implicó con 11 empresas sobre cuestiones ASG (datos a 30.09.2023). Esto incluye diálogos internos, iniciativas de colaboración entre inversores y servicios de implicación de terceros. Para que se considere implicación, el diálogo con una empresa objetivo debe tener un objetivo claro y mensurable en un horizonte temporal predefinido. Es importante señalar que no todas las interacciones rutinarias o de supervisión, aunque impliquen a la alta dirección o al Consejo de administración, se consideran implicaciones en nuestra evaluación.

Fuente: Pictet Asset Management, Sustainalytics.

- **¿... y en comparación con períodos anteriores?**

Esta cuestión se abordará en futuros informes anuales debido a la falta de historial.

● **¿Cuáles han sido los objetivos de las inversiones sostenibles que ha realizado en parte el producto financiero y de qué forma ha contribuido la inversión sostenible a dichos objetivos?**

El fondo no se comprometió a un porcentaje mínimo de inversiones sostenibles.

Sin embargo, *a posteriori*, el fondo invirtió en valores que financian actividades económicas que contribuyeron sustancialmente a objetivos medioambientales y/o sociales como:

Medioambientales

- mitigación del cambio climático o adaptación al mismo
- uso sostenible y protección de los recursos hídricos y marinos
- transición hacia una economía circular
- prevención y control de la contaminación o
- protección y recuperación de la biodiversidad y los ecosistemas

Sociales

- comunidades inclusivas y sostenibles
- nivel de vida adecuado y bienestar para los usuarios finales o
- trabajo digno

Pictet Asset Management utilizó un marco de referencia propio, así como los objetivos de la Taxonomía de la UE, para definir las inversiones sostenibles.

● **¿De qué manera las inversiones sostenibles que el producto financiero ha realizado en parte, no han causado un perjuicio significativo a ningún objetivo de inversión sostenible medioambiental o social?**

Para evitar que las inversiones sostenibles causen un perjuicio significativo a cualquier otro objetivo medioambiental o social, el fondo aplicó los siguientes criterios de selección sobre la base del mejor esfuerzo:

- (i) Exclusiones de emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente (véase la descripción del marco de exclusión de IR).
- (ii) Los emisores asociados a controversias elevadas y graves no se contabilizaron como inversiones sostenibles.

La información se obtuvo de proveedores terceros y/o de análisis interno. La información ASG de terceros proveedores de datos puede haber sido incompleta, inexacta o no estar disponible. Como consecuencia de ello, existía el riesgo de que el Gestor de inversiones evaluara incorrectamente un valor o emisor, dando lugar a la inclusión o exclusión incorrecta de un valor en el fondo. Los datos ASG incompletos, inexactos o no disponibles también pueden actuar como una limitación metodológica a una estrategia de inversión no financiera (como la aplicación de criterios ASG o similares). En los casos identificados, el Gestor de inversiones trató de mitigar este riesgo mediante su propia evaluación. En caso de que las características ASG de un valor mantenido por el fondo cambiaran, dando lugar a la venta del valor, el Gestor de inversiones no acepta responsabilidad alguna en relación con dicho cambio.

● **¿Cómo se han tenido en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?**

Pictet Asset Management realiza un seguimiento de todos los indicadores obligatorios de principales incidencias adversas (incluidos en el Anexo 1 del Reglamento Delegado (UE) 22 / 1288 de la Comisión) cuando disponemos de datos sólidos. Se espera que la calidad de los datos disponibles mejore con el tiempo.

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas de sus inversiones en la sociedad y el medioambiente que se consideran importantes para la estrategia de inversión, mediante un conjunto de decisiones de gestión de cartera, actividades de propiedad activa y exclusión de emisores asociados a conductas o actividades controvertidas. Más información en el informe de PIA de la entidad, disponible en:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=es&bl=PAM>

Las principales incidencias adversas son las incidencias negativas más importantes de las decisiones de inversión sobre los factores de sostenibilidad en relación con asuntos medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

- ¿Se han ajustado las inversiones sostenibles a las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios rectores de las Naciones Unidas sobre las empresas y los derechos humanos?

Para garantizar que la inversión sostenible no causara un perjuicio significativo a ningún objetivo de inversión sostenible, el fondo excluyó a las empresas con infracciones elevadas y graves de (i) los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción o (ii) las Líneas Directrices de la OCDE para Empresas Multinacionales, incluidos los asuntos sociales y laborales graves.

La taxonomía de la UE establece el principio de «no causar un perjuicio significativo», según el cual las inversiones que se ajusten a la taxonomía no deben perjudicar significativamente a los objetivos de la taxonomía de la UE, e incluye criterios específicos de la Unión.

El principio de «no perjudicar de forma significativa» se aplica únicamente a las inversiones subyacentes del producto financiero que contemplan los criterios de la UE relativos a actividades económicas sostenibles desde una perspectiva medioambiental. Las inversiones subyacentes al resto del producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas medioambientalmente sostenibles.

Cualquier otra inversión sostenible tampoco debe perjudicar significativamente a ningún objetivo medioambiental o social.

¿Cómo tiene en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas que se consideran importantes para la estrategia de inversión. Estas incidencias adversas se abordaron mediante una combinación de:

(i) decisiones de gestión de carteras

El equipo de inversión evaluó sus posiciones corporativas con arreglo a un análisis de los riesgos medioambientales, sociales y de gobernanza como parte del marco de inversión del fondo. Los gestores de inversiones, basándose en análisis interno y de terceros, incluidos los datos cuantitativos ASG incluidos los datos sobre la Principal incidencia adversa , los datos ASG facilitados por las empresas y los datos proporcionados por terceros proveedores de datos ASG. El análisis del equipo de inversión fue un componente clave del proceso de construcción de la cartera del comportamiento, determinando las ponderaciones objetivo en la cartera para lograr una inclinación positiva de la misma.

(ii) implicación

La interacción con los emisores se realizó mediante conversaciones individuales, reuniones de accionistas/bonistas, giras de inversores y/o conferencias telefónicas en colaboración con otros equipos de inversión y terceros. Los objetivos de estas interacciones fueron evaluar una organización, supervisar que su estrategia se estaba aplicando conforme a nuestras expectativas y garantizar que los emisores iban camino de cumplir sus metas y objetivos.

Cuando corresponde, nos implicamos con las empresas en relación con cuestiones ASG importantes, como los objetivos de reducción de los GEI, las mejoras en la gobernanza y diversas controversias medioambientales, sociales y de gobernanza, para asegurarnos de que las entendieran y las abordaran eficazmente a corto, medio y largo plazo. Nuestras actividades de implicación combinaron debates dirigidos a nivel interno, iniciativas de colaboración con inversores institucionales y servicios de implicación externos.

(iii) exclusión de emisores asociados a conductas o actividades controvertidas

El fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se definen en la Política de Inversión responsable de la Pictet Asset Management y/o (ii) empresas que infringieron gravemente los principios del Pacto Mundial de la ONU sobre derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción y las armas controvertidas, o (iii) países sujetos a sanciones internacionales; véase también la información detallada sobre las exclusiones que figura en la Política de Inversión responsable de Pictet Asset Management.

¿Cuáles han sido las inversiones principales de este producto financiero?

La lista incluye las inversiones que constituyen la **mayor parte de las inversiones** del producto financiero durante el período de referencia, que es: 01.10.2022 - 30.09.2023

¿Cuál ha sido la proporción de inversiones relacionadas con la sostenibilidad?

11,74%

La asignación de activos describe el porcentaje de inversiones en activos específicos.

¿Cuál ha sido la asignación de activos?

El fondo se ajustó en un 89,94% con características medioambientales o sociales (n.º 1 Ajustadas a características medioambientales o sociales) y tuvo hasta un 10,06% invertido en la categoría Otras (n.º 2 Otras). El 11,74% se asignó a inversiones sostenibles (n.º 1A Sostenibles) y el resto se invirtió en inversiones ajustadas a otras características medioambientales o sociales (n.º 1B Otras características medioambientales o sociales).

n.º 1 Ajustadas a características medioambientales o sociales incluye las inversiones del producto financiero utilizadas para lograr las características medioambientales o sociales que promueve el producto financiero.

n.º 2 Otras incluye el resto de inversiones del producto financiero que ni se ajustan a las características medioambientales o sociales ni pueden considerarse inversiones sostenibles.

La categoría n.º 1 Ajustadas a características medioambientales o sociales abarca:

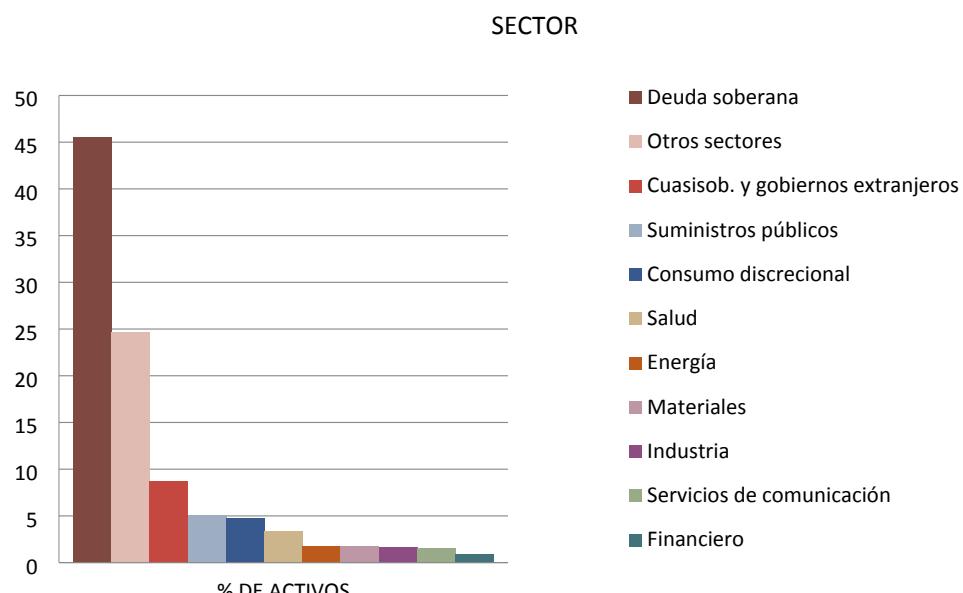

- la subcategoría n.º **1A Sostenibles**, que abarca las inversiones sostenibles con objetivos medioambientales o sociales.
- la subcategoría n.º **1B Otras características medioambientales o sociales**, que abarca inversiones ajustadas a las características medioambientales o sociales que no pueden considerarse inversiones sostenibles.

Notas:

- Las inversiones «n.º 1A Sostenibles», «Otras medioambientales» y «Sociales» se calcularon sobre una base de aprobado/suspenso. Incluyen bonos certificados (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.
- Las inversiones ajustadas a la taxonomía verde de la UE se calculan ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a la mitigación del cambio climático y la adaptación al mismo) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.
- A falta de una taxonomía social de la UE, Pictet ha desarrollado un marco de taxonomía social propio. El marco se basa en basado en el Informe sobre taxonomía social publicado por la Plataforma de Finanzas Sostenibles de la UE en 2022. Las actividades admisibles se definen como bienes y servicios beneficiosos desde el punto de vista social que contribuyen sustancialmente a uno de los tres objetivos sociales siguientes: (1) comunidades inclusivas y sostenibles, (2) nivel de vida adecuado y bienestar para los usuarios finales y (3) trabajo digno.

Fuente: *Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RB/ICS.*

● ¿En qué sectores económicos se han realizado las inversiones?

Fuente: *Pictet Asset Management, Merrill Lynch.*

Estamos evaluando la disponibilidad y la calidad de los datos que nos permitirían divulgar información más granular en futuros informes sobre los sectores y subsectores de la economía que obtienen ingresos a partir de la exploración, la minería, la extracción, la producción, el procesamiento, el almacenamiento, el refinado o la distribución, incluidos el transporte, el almacenamiento y el comercio, de combustibles fósiles, según se definen en el artículo 2, punto (62), del Reglamento (UE) 2018/1999 del Parlamento Europeo y del Consejo.

¿En qué medida se ajustaban las inversiones sostenibles con un objetivo medioambiental a la taxonomía de la UE?

El fondo realizó inversiones en actividades económicas que contribuyeron a los dos primeros objetivos medioambientales (mitigación del cambio climático y adaptación a este), según lo establecido en el artículo 9 del Reglamento (UE) 2020/852.

Las inversiones ajustadas a la taxonomía de la UE se calcularon ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a objetivos medioambientales relevantes) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.

Los datos de ajuste a la Taxonomía verde de la UE proceden de informes públicos. Los cálculos también pueden incluir estimaciones en un número limitado de casos en los que no se disponía de datos sobre la alineación con la Taxonomía verde de la UE. Las estimaciones se realizaron sobre la base del mejor esfuerzo y siguiendo un planteamiento conservador para obtener un resultado prudente.

Los procedimientos de control se han aplicado para verificar en todo momento el cumplimiento del artículo 3 del Reglamento sobre taxonomía de la UE.

Los datos facilitados no han sido verificados por un auditor externo ni revisados por un tercero independiente.

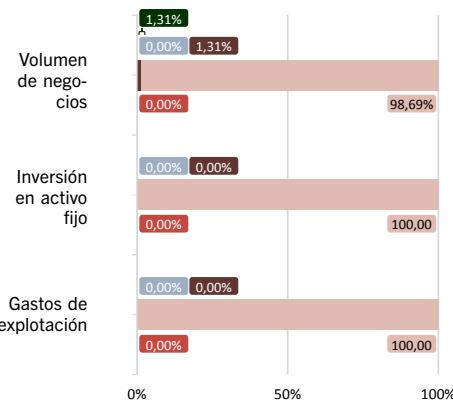

Para ajustarse a la taxonomía de la UE, los criterios correspondientes al **gas fósil** incluyen limitaciones de emisiones y el paso a la energía renovable o combustibles bajos en carbono de aquí al fin de 2035. Por lo que respecta a la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las actividades que se ajustan a la taxonomía se expresan como un porcentaje de:

- el **volumen de negocios**, que refleja el «carácter ecológico» de las empresas en las que se invierte en la actualidad;
- la **inversión en activo fijo**, que muestra las inversiones ecológicas realizadas por las empresas en las que se invierte, pertinentes para la transición a una economía verde;
- los **gastos de explotación**, que reflejan las actividades operativas ecológicas de las empresas en las que se invierte.

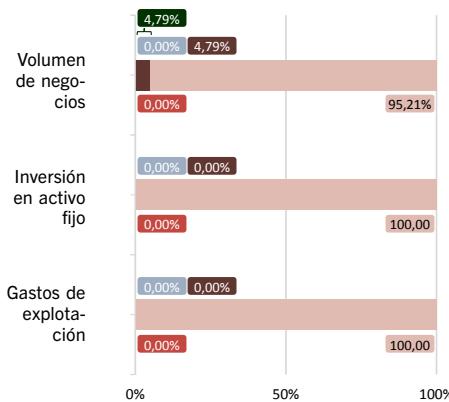

Los gráficos que figuran a continuación muestran en verde el porcentaje de inversiones que se ajustaban a la taxonomía de la UE. Dado que no existe una metodología adecuada para determinar la adaptación a la taxonomía de los bonos soberanos, el primer gráfico muestra la adaptación a la taxonomía correspondiente para todas las inversiones del producto financiero, incluidos los bonos soberanos, mientras que el segundo gráfico muestra la adaptación a la taxonomía solo en relación con las inversiones del producto financiero distintas de los bonos soberanos.*

1. Ajuste a la taxonomía de las inversiones incluidos los bonos soberanos*

- Ajustadas a la taxonomía: Gas fósil
- Ajustadas a la taxonomía: Energía nuclear
- Ajustadas a la taxonomía (ni gas fósil ni energía nuclear)
- No ajustadas a la taxonomía

2. Ajuste a la taxonomía de las inversiones excluidos los bonos soberanos*

- Ajustadas a la taxonomía: Gas fósil
- Ajustadas a la taxonomía: Energía nuclear
- Ajustadas a la taxonomía (ni gas fósil ni energía nuclear)
- No ajustadas a la taxonomía

Este gráfico representa el 33,42% de las inversiones totales.

* A efectos de estos gráficos, los «bonos soberanos» incluyen todas las exposiciones soberanas

¹ Las actividades relacionadas con el gas fósil o la energía nuclear solo cumplirán la taxonomía de la UE cuando contribuyan a limitar el cambio climático («mitigación del cambio climático») y no perjudiquen significativamente ningún objetivo de la taxonomía de la UE (véase la nota explicativa en el margen izquierdo). Los criterios completos correspondientes a las actividades económicas del gas fósil y la energía nuclear que se ajustan a la taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

Nota:

Utilizamos los ingresos como medida clave para establecer la asignación de objetivos y el ajuste real con la taxonomía de la UE debido a la disponibilidad limitada y a la falta de datos fiables para los gastos de explotación y la inversión en activo fijo.

Fuente: Pictet Asset Management.

● **¿Cuál ha sido la proporción de las inversiones realizadas en actividades de transición y facilitadoras?**

La proporción de inversiones realizadas en:

- Actividades de transición: No aplicable*
- Actividades de facilitadoras: No aplicable*

* La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permiten ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

● **¿Qué porcentaje de inversiones se han ajustado a la taxonomía de la UE en comparación con los períodos de referencia anteriores?**

No aplicable.

¿Cuál ha sido la proporción de inversiones sostenibles con un objetivo medioambiental no ajustadas a la taxonomía de la UE?

6,86%

Estas inversiones sostenibles no se ajustan a la Taxonomía de la UE porque sus actividades económicas o bien (i) no están cubiertas por la Taxonomía de la UE, o bien (ii) no cumplen los criterios técnicos de selección para lograr una contribución sustancial en el sentido de la Taxonomía de la UE.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta los criterios para las actividades económicas medioambientalmente sostenibles con arreglo al Reglamento (UE) 2020/852.

¿Cuál ha sido la proporción de inversiones socialmente sostenibles?

4,88%

¿Qué inversiones se han incluido en «otras» y cuál ha sido su propósito? ¿ha habido garantías medioambientales o sociales mínimas?

Las «otras» inversiones del fondo incluían posiciones de tesorería mantenidas principalmente para satisfacer los objetivos diarios de liquidez y gestión de riesgos permitidos y previstos por la política de inversión del fondo. Cuando sea preciso, se aplicarán salvaguardias medioambientales o sociales mínimas a los valores subyacentes.

¿Qué medidas se han adoptado para cumplir las características medioambientales o sociales durante el período de referencia?

Durante el periodo de referencia, se alcanzó el objetivo de inversión sostenible siguiendo la estrategia de inversión y respetando los elementos vinculantes.

Los elementos vinculantes del fondo son:

- Exclusión de emisores que:
 - están relacionados con armas nucleares de países que no han firmado el Tratado sobre la No Proliferación de Armas Nucleares (TNP) y otras armas controvertidas
 - obtienen una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, como la extracción de carbón térmico y la generación de electricidad, la exploración y producción no convencional de petróleo y gas, las armas convencionales y armas

pequeñas, las armas de contratación militar, la producción de tabaco, la producción de entretenimiento para adultos y las actividades del juego. Para más detalles sobre los umbrales de exclusión aplicables a las actividades anteriores, consulte la Política de Inversión responsable de Pictet Asset Management.

- incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción
- exclusiones de países sujetos a sanciones internacionales
- un perfil ASG mejor que el del universo de inversión
- análisis de criterios ASG de los valores admisibles que abarca al menos el 90% del patrimonio neto o el número de emisores incluidos en la cartera

Además, el fondo se implicó con 11 empresas a 30.09.2023.

¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

Los índices de referencia son índices para medir si el producto financiero logra las características medioambientales o sociales que promueve.

● ¿Cómo difería el índice de referencia de un índice general de mercado?

No aplicable.

● ¿Cómo se ha comportado este producto financiero con respecto a los indicadores de sostenibilidad para determinar la conformidad del índice de referencia con las características medioambientales o sociales que promueve?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice general de mercado?

No aplicable.

CARACTERÍSTICAS MEDIOAMBIENTALES O SOCIALES

Inversión sostenible
significa una inversión en una actividad económica que contribuye a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo a ningún objetivo medioambiental o social y que las empresas en las que se invierte sigan prácticas de buena gobernanza.

La **taxonomía de la UE** es un sistema de clasificación previsto en el Reglamento (UE) 2020/852 por el que se establece una lista de **actividades económicas medioambientalmente sostenibles**. Dicho Reglamento no prevé una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental pueden ajustarse, o no, a la taxonomía.

| ¿ESTE PRODUCTO FINANCIERO TENÍA UN OBJETIVO DE INVERSIÓN SOSTENIBLE? | | | |
|--|--|--|--|
| ● ● <input type="checkbox"/> Si | | ● ● <input checked="" type="checkbox"/> No | |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo medioambiental: ____% | <input checked="" type="checkbox"/> | Promovió características medioambientales o sociales y, aunque no tenía como objetivo una inversión sostenible, tuvo un porcentaje del 14,30% de inversiones sostenibles |
| <input type="checkbox"/> | en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input type="checkbox"/> | con un objetivo medioambiental en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> | en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> | con un objetivo medioambiental en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo social: ____% | <input type="checkbox"/> | con un objetivo social |
| <input type="checkbox"/> | | <input type="checkbox"/> | Ha promovido características medioambientales o sociales, pero no ha realizado ninguna inversión sostenible |

Nota: Las inversiones sostenibles se calcularon sobre una base de aprobado/suspenso, incluyendo bonos con etiqueta (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% (medida por ingresos, EBIT, valor de empresa o indicadores similares) a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.

¿En qué grado se han cumplido las características medioambientales o sociales que promueve este producto financiero?

Las características medioambientales y sociales de este producto financiero se promovieron utilizando:

- Best-in-class / best effort:

El fondo invirtió en valores de emisores con riesgos de sostenibilidad bajos y/o decrecientes, a la vez que evitó aquellos con riesgo de sostenibilidad alto y/o creciente, reduciendo el universo de inversión en al menos un 20%. El universo de inversión está compuesto por bonos soberanos y corporativos de los países emergentes.

No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

- Bonos con etiqueta:

El fondo invirtió parcialmente en bonos con etiqueta medioambiental y/o social.

- Exclusiones basadas en normas y valores:

El fondo excluyó los emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente o que incumplen de forma grave las normas internacionales, según se detalla a continuación:

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

| Actividad | Umbrales de ingresos |
|---|----------------------|
| Combustibles fósiles y energía nuclear | |
| Extracción de carbón térmico | > 25% |
| Generación de energía térmica de carbón | > 25% |
| Producción de petróleo y gas | > 25% |
| Extracción de arenas bituminosas | > 10% |
| Extracción de energía de esquisto | > 10% |
| Exploración de petróleo y gas en el Ártico | > 10% |
| Generación de energía nuclear | > 50% |
| Armas | |
| Producción de armas controvertidas[1] | > 0% |
| Armas de contratación militar | > 10% |
| Productos y/o servicios relacionados con armas de contratación militar | > 50% |
| Clientes civiles de armas pequeñas (armas de asalto) | > 10% |
| Clientes civiles de armas pequeñas (armas de no asalto) | > 10% |
| Clientes militares/de fuerzas del orden de armas pequeñas | > 25% |
| Componentes clave de armas pequeñas | > 25% |
| Otras actividades controvertidas | |
| Producción de entretenimiento para adultos | > 10% |
| Operaciones de juego | > 10% |
| Desarrollo de plantas y semillas modificadas genéticamente | > 25% |
| Cultivo de plantas y semillas modificadas genéticamente | > 25% |
| Producción de plaguicidas | > 10% |
| Venta al por menor de plaguicidas | > 10% |
| Producción de productos de tabaco | > 10% |
| Exclusiones de empresas por incumplimiento de normas internacionales | Excluidas |
| Empresas que incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción | Sí |
| Exclusiones de países | Excluidas |
| Países (i) incluidos en la lista de Estados patrocinadores del terrorismo, según la definición de la Oficina de Control de Activos Extranjeros de EE. UU.[2] o (ii) sujetos a sanciones financieras de la UE contra bancos centrales y/o empresas de propiedad estatal. | Sí |
| Países (i) clasificados como de muy alto o alto riesgo en el Índice de Estados Frágiles o (ii) afectados por conflictos violentos según la definición del Banco Mundial. | Sí |

Países (i) incluidos en la lista de «alerta» del Índice de Estados Frágiles o (ii) sujetos a sanciones relacionadas con la exportación por parte de la UE. Lista de vigilancia[3]

[1] Entre las armas controvertidas se encuentran las minas antipersona, las municiones de racimo, las armas biológicas y químicas (incluido el fósforo blanco) y las armas nucleares procedentes de países no firmantes del Tratado de No Proliferación de Armas Nucleares (TNP).

[2] «Estado patrocinador del terrorismo» es una designación aplicada por el Departamento de Estado de Estados Unidos a países que repetidamente han prestado apoyo a actos de terrorismo internacional.

[3] Además de las exclusiones estrictas, Pictet Asset Management mantiene una lista de vigilancia que incluye países que requieren una diligencia debida adicional por parte de los equipos de inversión antes de invertir.

Para más detalles, consulte la Política de Inversión responsable de Pictet Asset Management (Anexo B).

- Titularidad activa:

El fondo se implicó con ciertos emisores soberanos sobre cuestiones ASG durante el periodo de referencia.

- **¿Cómo se han comportado los indicadores de sostenibilidad?**

Durante el periodo de información, los indicadores de sostenibilidad se comportaron según se indica a continuación:

- **Exposición a empresas que obtienen una parte significativa de sus ingresos, EBIT, valor de empresa o parámetros similares de actividades económicas que contribuyen a los objetivos medioambientales o sociales, y bonos con etiqueta cuando sea relevante para la clase de activos (inversiones sostenibles):**

14,30%

En el informe del próximo año se facilitará información adicional sobre objetivos medioambientales y/o sociales específicos.

- **Exposición a bonos con etiqueta verde y/o social**

Durante el periodo de referencia, el fondo tuvo una exposición del 14,30% a bonos certificados.

Los fondos certificados incluyen bonos medioambientales, sociales y de sostenibilidad. La clasificación de los bonos certificados se proporciona por emisor de bonos y puede no reflejar nuestro punto de vista interno.

- **Reducción del universo de inversión por factores ASG**

El fondo reduce su universo de inversión eliminando al menos el 20% de los emisores con los mayores riesgos de sostenibilidad.

Los riesgos de sostenibilidad son acontecimientos o condiciones de riesgo ASG que podrían tener una incidencia negativa importante en el valor de las inversiones si se produjeran. Los riesgos de sostenibilidad incluían, entre otros, los siguientes: riesgo de transición climática, riesgo físico climático, riesgo medioambiental, riesgo social y riesgo de gobernanza. Se realizan revisiones periódicas y controles de riesgo para supervisar la aplicación.

Las principales incidencias adversas («PIA») son efectos negativos, materiales o posiblemente materiales, sobre factores de sostenibilidad causados, agravados o directamente vinculados con las decisiones y el asesoramiento. Entre las principales incidencias adversas se incluyen, entre otras, las emisiones de gases de efecto invernadero (GEI), la contaminación atmosférica, la pérdida de biodiversidad, las emisiones al agua, los residuos peligrosos/radioactivos, las cuestiones sociales y laborales, y la corrupción y el soborno.

- **Principal incidencia adversa (PIA)**

El fondo utiliza una combinación de enfoques para considerar y, en la medida de lo posible, mitigar las incidencias adversas materiales de nuestras inversiones en la sociedad y el medioambiente, como emisiones de GEI, contaminación atmosférica, pérdida de biodiversidad, emisiones al agua, residuos peligrosos/radioactivos, derechos humanos, normas laborales, corrupción y soborno, y salud pública.

El grado y la forma en que estas incidencias se tuvieron en cuenta dependieron de factores como el contexto específico de la inversión que provoca la incidencia adversa o la disponibilidad de datos fiables.

El fondo invierte principalmente en deuda pública durante el período de referencia. En el caso de las inversiones en bonos no soberanos y de conformidad con la política de exclusión de Pictet Asset Management descrita en la Política de Inversión responsable de la empresa (véase el cuadro

Los indicadores de sostenibilidad miden cómo se alcanzan las características medioambientales o sociales que promueve el producto financiero.

anterior para consultar las actividades excluidas y los umbrales de exclusión aplicados), el fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente:

Actividades controvertidas (media ponderada de ingresos de la empresa, en %)*:

| | Fondo (%) | Índice de referencia (%) |
|--|-----------|--------------------------|
| Combustibles fósiles y energía nuclear | 0,12 | 1,45 |
| Armas | 0,00 | 0,00 |
| Otras actividades controvertidas | 0,00 | 0,01 |
| No aplicable: | 92,57 | 94,79 |
| No cubierto: | 1,51 | 0,56 |

* Los combustibles fósiles y la energía nuclear incluyen la extracción de carbón térmico y la generación de electricidad, la producción y extracción de petróleo y gas, la extracción de energía de esquisto, la exploración de petróleo y gas en los mares del Ártico y la generación de energía nuclear. Las armas incluyen la contratación militar (servicios de armas y relacionadas con estas), clientes civiles de armas pequeñas (armas de asalto/no asalto), clientes militares/de las fuerzas y cuerpos de seguridad de armas pequeñas y componentes clave de pequeñas armas. Otras actividades controvertidas incluyen la producción de tabaco, la producción de entretenimiento para adultos, la explotación de juegos de azar, el desarrollo o crecimiento de organismos modificados genéticamente, la producción o venta al por menor de pesticidas. La exposición se basa en datos de terceros y puede no reflejar nuestro punto de vista interno. Pictet Asset Management tiene plena discreción sobre la aplicación de los criterios de exclusión y se reserva el derecho de apartarse de la información de terceros, según el caso, cuando se considere incorrecta o incompleta.

Fuente: Pictet Asset Management, Sustainalytics.

Además, el fondo excluyó a los emisores que tenían exposición a:

- (i) PIA 10: Incumplimientos de los principios del Pacto Mundial de las Naciones Unidas y las Directrices para Empresas Multinacionales de la Organización para la Cooperación y el Desarrollo Económicos (OCDE).
- (ii) PIA 14: Exposición a armas controvertidas (minas antipersonas, municiones en racimo, armas químicas y armas biológicas)

● Interacción

El fondo se implicó con 6 emisores soberanos sobre cuestiones ASG (datos a 30.09.2023).

Fuente: Pictet Asset Management.

● ¿... y en comparación con períodos anteriores?

Esta cuestión se abordará en futuros informes anuales debido a la falta de historial.

● ¿Cuáles han sido los objetivos de las inversiones sostenibles que ha realizado en parte el producto financiero y de qué forma ha contribuido la inversión sostenible a dichos objetivos?

Pictet Asset Management utilizó marcos de referencia propios, así como los objetivos de la Taxonomía de la UE, para definir las inversiones sostenibles.

El fondo invirtió en valores que financiaban actividades económicas que contribuyeron sustancialmente a objetivos medioambientales y/o sociales como:

Medioambientales

- mitigación del cambio climático o adaptación al mismo
- uso sostenible y protección de los recursos hídricos y marinos
- transición hacia una economía circular
- prevención y control de la contaminación o
- protección y recuperación de la biodiversidad y los ecosistemas

Sociales

- comunidades inclusivas y sostenibles
- nivel de vida adecuado y bienestar para los usuarios finales o

- trabajo digno

● **¿De qué manera las inversiones sostenibles que el producto financiero ha realizado en parte, no han causado un perjuicio significativo a ningún objetivo de inversión sostenible medioambiental o social?**

Para evitar que las inversiones sostenibles causen un perjuicio significativo a cualquier otro objetivo medioambiental o social, el fondo aplicó los siguientes criterios de selección sobre la base del mejor esfuerzo:

(i) Exclusiones de emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente (véase la descripción del marco de exclusión de IR).

(ii) Los emisores asociados a controversias elevadas y graves no se contabilizaron como inversiones sostenibles.

La información se obtuvo de proveedores terceros y/o de análisis interno. La información ASG de terceros proveedores de datos puede haber sido incompleta, inexacta o no estar disponible. Como consecuencia de ello, existía el riesgo de que el Gestor de inversiones evaluara incorrectamente un valor o emisor, dando lugar a la inclusión o exclusión incorrecta de un valor en el fondo. Los datos ASG incompletos, inexactos o no disponibles también pueden actuar como una limitación metodológica a una estrategia de inversión no financiera (como la aplicación de criterios ASG o similares). En los casos identificados, el Gestor de inversiones trató de mitigar este riesgo mediante su propia evaluación. En caso de que las características ASG de un valor mantenido por el fondo cambiaran, dando lugar a la venta del valor, el Gestor de inversiones no acepta responsabilidad alguna en relación con dicho cambio.

● **¿Cómo se han tenido en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?**

Pictet Asset Management realiza un seguimiento de todos los indicadores obligatorios de principales incidencias adversas (incluidos en el Anexo 1 del Reglamento Delegado (UE) 22 / 1288 de la Comisión) cuando disponemos de datos sólidos. Se espera que la calidad de los datos disponibles mejore con el tiempo.

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas de sus inversiones en la sociedad y el medioambiente que se consideran importantes para la estrategia de inversión, mediante un conjunto de decisiones de gestión de cartera, actividades de propiedad activa y exclusión de emisores asociados a conductas o actividades controvertidas. Más información en el informe de PIA de la entidad, disponible en:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=es&bl=PAM>

● **¿Se han ajustado las inversiones sostenibles a las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios rectores de las Naciones Unidas sobre las empresas y los derechos humanos?**

Para garantizar que la inversión sostenible no causara un perjuicio significativo a ningún objetivo de inversión sostenible, el fondo excluyó a las empresas con infracciones elevadas y graves de (i) los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción o (ii) las Líneas Directrices de la OCDE para Empresas Multinacionales, incluidos los asuntos sociales y laborales graves.

La taxonomía de la UE establece el principio de «no causar un perjuicio significativo», según el cual las inversiones que se ajusten a la taxonomía no deben perjudicar significativamente a los objetivos de la taxonomía de la UE, e incluye criterios específicos de la Unión.

El principio de «no perjudicar de forma significativa» se aplica únicamente a las inversiones subyacentes del producto financiero que contemplan los criterios de la UE relativos a actividades económicas sostenibles desde una perspectiva medioambiental. Las inversiones subyacentes al resto del producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas medioambientalmente sostenibles.

Cualquier otra inversión sostenible tampoco debe perjudicar significativamente a ningún objetivo medioambiental o social.

¿Cómo tiene en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas que se consideran importantes para la estrategia de inversión. Entre las incidencias adversas se incluyeron, entre otras, las emisiones de gases de efecto invernadero (GEI), la contaminación atmosférica, la pérdida de biodiversidad, las emisiones al agua, los residuos peligrosos/radioactivos, las cuestiones sociales y laborales, y la corrupción y el soborno, que se abordaron mediante una combinación de:

(i) decisiones de gestión de carteras

El equipo de inversión puntuó las posiciones según una evaluación de los riesgos medioambientales, sociales y de gobernanza como parte del marco de puntuación del fondo. Los gestores de inversiones determinan las puntuaciones sobre una base cualitativa, basándose en el análisis fundamental y en datos cuantitativos ASG, incluidos los datos sobre la Principal incidencia adversa, los datos ASG facilitados por las empresas y los datos proporcionados por terceros proveedores de datos ASG. El proceso de puntuación del equipo de inversión fue un componente clave del proceso de construcción de la cartera del comportamiento, determinando las ponderaciones objetivo en la cartera.

(ii) implicación

La interacción con los emisores se realizó mediante conversaciones individuales, reuniones de accionistas/bonistas, giras de inversores y/o conferencias telefónicas.

Cuando corresponde, nos implicamos con las empresas en relación con cuestiones ASG importantes, como los objetivos de reducción de los GEI, las mejoras en la gobernanza y diversas controversias medioambientales, sociales y de gobernanza, para asegurarnos de que las entendieran y las abordaran eficazmente a corto, medio y largo plazo. Nuestras actividades de implicación combinaron debates dirigidos a nivel interno e iniciativas de colaboración con inversores institucionales.

(iii) exclusión de emisores asociados a conductas o actividades controvertidas

El fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se definen en la Política de Inversión responsable de la Pictet Asset Management y/o (ii) empresas que infringieron gravemente los principios del Pacto Mundial de la ONU sobre derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción y las armas controvertidas, o (iii) países sujetos a sanciones internacionales; véase también la información detallada sobre las exclusiones que figura en la Política de Inversión responsable de Pictet Asset Management.

¿Cuáles han sido las inversiones principales de este producto financiero?

La lista incluye las inversiones que constituyen la mayor parte de las inversiones del producto financiero durante el período de referencia, que es: 01.10.2022 - 30.09.2023

| INVERSIONES DE MAYOR VOLUMEN | SECTOR | % DE ACTIVOS | PAÍS |

¿Cuál ha sido la proporción de inversiones relacionadas con la sostenibilidad?

14,30%

La asignación de activos describe el porcentaje de inversiones en activos específicos.

¿Cuál ha sido la asignación de activos?

El fondo se ajustó en un 94,35% con características medioambientales o sociales (n.º 1 Ajustadas a características medioambientales o sociales) y tuvo hasta un 5,65% invertido en la categoría Otras (n.º 2 Otras). El 14,30% se asignó a inversiones sostenibles (n.º 1A Sostenibles) y el resto se invirtió en inversiones ajustadas a otras características medioambientales o sociales (n.º 1B Otras características medioambientales o sociales).

n.º 1 Ajustadas a características medioambientales o sociales incluye las inversiones del producto financiero utilizadas para lograr las características medioambientales o sociales que promueve el producto financiero.

n.º 2 Otras incluye el resto de inversiones del producto financiero que ni se ajustan a las características medioambientales o sociales ni pueden considerarse inversiones sostenibles.

La categoría **n.º 1 Ajustadas a características medioambientales o sociales** abarca:

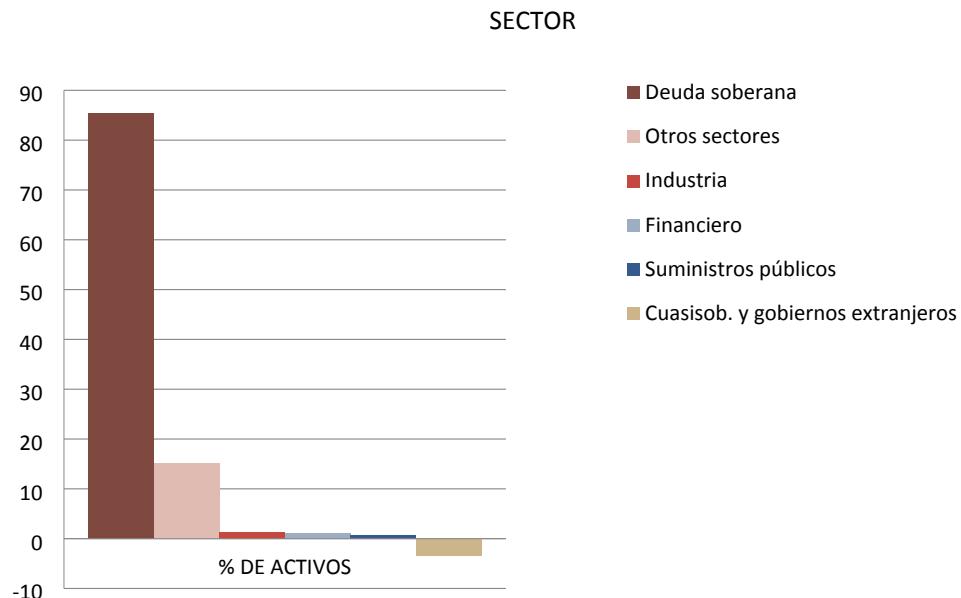

- la subcategoría **n.º 1A Sostenibles**, que abarca las inversiones sostenibles con objetivos medioambientales o sociales.
- la subcategoría **n.º 1B Otras características medioambientales o sociales**, que abarca inversiones ajustadas a las características medioambientales o sociales que no pueden considerarse inversiones sostenibles.

Notas:

- Las inversiones «n.º 1A Sostenibles», «Otras medioambientales» y «Sociales» se calcularon sobre una base de aprobado/suspenso. Incluyen bonos certificados (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.
- A falta de una taxonomía social de la UE, Pictet ha desarrollado un marco de taxonomía social propio. El marco se basa en basado en el Informe sobre taxonomía social publicado por la Plataforma de Finanzas Sostenibles de la UE en 2022. Las actividades admisibles se definen como bienes y servicios beneficiosos desde el punto de vista social que contribuyen sustancialmente a uno de los tres objetivos sociales siguientes: (1) comunidades inclusivas y sostenibles, (2) nivel de vida adecuado y bienestar para los usuarios finales y (3) trabajo digno.

Fuente: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RBICS.

● ¿En qué sectores económicos se han realizado las inversiones?

Fuente: Pictet Asset Management, Merrill Lynch.

Estamos evaluando la disponibilidad y la calidad de los datos que nos permitirían divulgar información más granular en futuros informes sobre los sectores y subsectores de la economía que obtienen ingresos a partir de la exploración, la minería, la extracción, la producción, el procesamiento, el almacenamiento, el refinado o la distribución, incluidos el transporte, el almacenamiento y el comercio, de combustibles fósiles, según se definen en el artículo 2, punto (62), del Reglamento (UE) 2018/1999 del Parlamento Europeo y del Consejo.

● ¿En qué medida se ajustaban las inversiones sostenibles con un objetivo medioambiental a la taxonomía de la UE?

No aplicable.

● ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil o la energía nuclear que cumplían con la taxonomía de la UE¹?

Sí:

En gas fósil En energía nuclear

No

Para ajustarse a la taxonomía de la UE, los criterios correspondientes al **gas fósil** incluyen limitaciones de emisiones y el paso a la energía renovable o combustibles bajos en carbono de aquí al fin de 2035. Por lo que respecta a la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

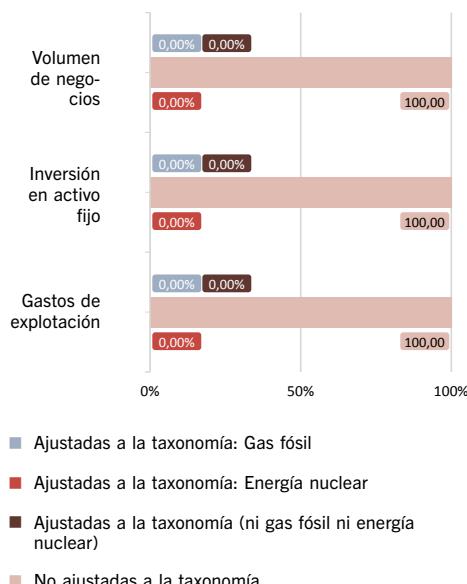

¹ Las actividades relacionadas con el gas fósil o la energía nuclear solo cumplirán la taxonomía de la UE cuando contribuyan a limitar el cambio climático («mitigación del cambio climático») y no perjudiquen significativamente ningún objetivo de la taxonomía de la UE (véase la nota explicativa en el margen izquierdo). Los criterios completos correspondientes a las actividades económicas del gas fósil y la energía nuclear que se ajustan a la taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

Las actividades que se ajustan a la taxonomía se expresan como un porcentaje de:

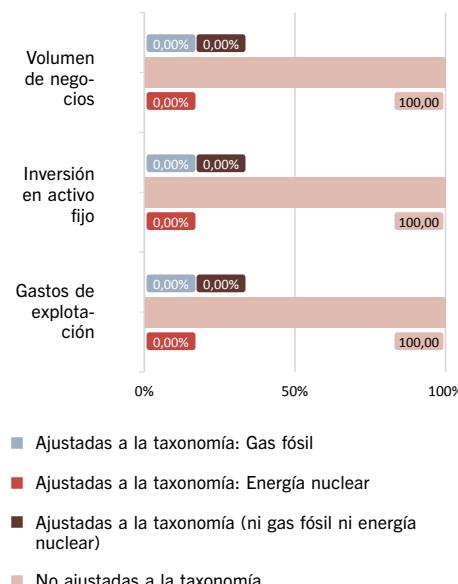

- el **volumen de negocios**, que refleja el «carácter ecológico» de las empresas en las que se invierte en la actualidad;
- la **inversión en activo fijo**, que muestra las inversiones ecológicas realizadas por las empresas en las que se invierte, pertinentes para la transición a una economía verde;
- los **gastos de explotación**, que reflejan las actividades operativas ecológicas de las empresas en las que se invierte.

Los gráficos que figuran a continuación muestran en verde el porcentaje de inversiones que se ajustaban a la taxonomía de la UE. Dado que no existe una metodología adecuada para determinar la adaptación a la taxonomía de los bonos soberanos*, el primer gráfico muestra la adaptación a la taxonomía correspondiente para todas las inversiones del producto financiero, incluidos los bonos soberanos, mientras que el segundo gráfico muestra la adaptación a la taxonomía solo en relación con las inversiones del producto financiero distintas de los bonos soberanos.

1. Ajuste a la taxonomía de las inversiones incluidos los bonos soberanos*

2. Ajuste a la taxonomía de las inversiones excluidos los bonos soberanos*

- Ajustadas a la taxonomía: Gas fósil
- Ajustadas a la taxonomía: Energía nuclear
- Ajustadas a la taxonomía (ni gas fósil ni energía nuclear)
- No ajustadas a la taxonomía

Este gráfico representa el 4,97% de las inversiones totales.

* A efectos de estos gráficos, los «bonos soberanos» incluyen todas las exposiciones soberanas

● ¿Cuál ha sido la proporción de las inversiones realizadas en actividades de transición y facilitadoras?

No aplicable.

● ¿Qué porcentaje de inversiones se han ajustado a la taxonomía de la UE en comparación con los períodos de referencia anteriores?

No aplicable.

¿Cuál ha sido la proporción de inversiones sostenibles con un objetivo medioambiental no ajustadas a la taxonomía de la UE?

11,07%

Estas inversiones sostenibles no se ajustan a la Taxonomía de la UE porque sus actividades económicas o bien (i) no están cubiertas por la Taxonomía de la UE, o bien (ii) no cumplen los criterios técnicos de selección para lograr una contribución sustancial en el sentido de la Taxonomía de la UE.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta los criterios para las actividades económicas medioambientalmente sostenibles con arreglo al Reglamento (UE) 2020/852.

¿Cuál ha sido la proporción de inversiones socialmente sostenibles?

3,23%

¿Qué inversiones se han incluido en «otras» y cuál ha sido su propósito? ¿ha habido garantías medioambientales o sociales mínimas?

Las «otras» inversiones del fondo incluían posiciones de tesorería mantenidas principalmente para satisfacer los objetivos diarios de liquidez y gestión de riesgos permitidos y previstos por la política de inversión del fondo. Cuando sea preciso, se aplicarán salvaguardias medioambientales o sociales mínimas a los valores subyacentes.

¿Qué medidas se han adoptado para cumplir las características medioambientales o sociales durante el período de referencia?

Durante el periodo de referencia, se alcanzó el objetivo de inversión sostenible siguiendo la estrategia de inversión y respetando los elementos vinculantes.

Los elementos vinculantes del fondo son:

- Exclusión de emisores que:
 - están relacionados con armas nucleares de países que no han firmado el Tratado sobre la No Proliferación de Armas Nucleares (TNP) y otras armas controvertidas
 - obtienen una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, como la extracción de carbón térmico y la generación de electricidad, la exploración y producción no convencional de petróleo y gas, la producción de petróleo y gas convencional, la generación de energía nuclear, las armas convencionales y armas pequeñas, la contratación militar de armas y productos y servicios relacionados con las armas, la producción de tabaco, la producción de entretenimiento para adultos, las actividades del juego, el desarrollo y crecimiento de organismos modificados genéticamente, la producción y comercialización de pesticidas. Para más detalles sobre los umbrales de exclusión aplicables a las actividades anteriores, consulte la Política de Inversión responsable de Pictet Asset Management.
 - incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción
- exclusiones de países sujetos a sanciones internacionales
- análisis de criterios ASG de los valores admisibles que abarca al menos el 90% del patrimonio neto o el número de emisores incluidos en la cartera

El fondo se implicó con 6 emisores soberanos sobre cuestiones ASG (datos a 30.09.2023).

¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

Los índices de referencia son índices para medir si el producto financiero logra las características medioambientales o sociales que promueve.

● ¿Cómo difería el índice de referencia de un índice general de mercado?

No aplicable.

● ¿Cómo se ha comportado este producto financiero con respecto a los indicadores de sostenibilidad para determinar la conformidad del índice de referencia con las características medioambientales o sociales que promueve?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice general de mercado?

No aplicable.

OBJETIVO DE INVERSIÓN SOSTENIBLE

Inversión sostenible significa una inversión en una actividad económica que contribuye a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo a ningún objetivo medioambiental o social y que las empresas en las que se invierte sigan prácticas de buena gobernanza.

La **taxonomía de la UE** es un sistema de clasificación previsto en el Reglamento (UE) 2020/852 por el que se establece una lista de **actividades económicas medioambientalmente sostenibles**. Dicho Reglamento no prevé una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental pueden ajustarse, o no, a la taxonomía.

| ¿ESTE PRODUCTO FINANCIERO TENÍA UN OBJETIVO DE INVERSIÓN SOSTENIBLE? | | | |
|---|--|--------------------------|--|
| <input checked="" type="radio"/> Si | | <input type="radio"/> No | |
| <p><input checked="" type="checkbox"/> Ha realizado inversiones sostenibles con un objetivo medioambiental: 93,44% <input type="checkbox"/> Promovió características medioambientales o sociales y, aunque no tenía como objetivo una inversión sostenible, tuvo un porcentaje del ___% de inversiones sostenibles</p> <p><input checked="" type="checkbox"/> en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE <input type="checkbox"/> con un objetivo medioambiental en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE</p> <p><input checked="" type="checkbox"/> en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE <input type="checkbox"/> con un objetivo medioambiental en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE</p> <p><input type="checkbox"/> con un objetivo social</p> | | | |
| <p><input type="checkbox"/> Realizó inversiones sostenibles con un objetivo social: ___% <input type="checkbox"/> Ha promovido características medioambientales o sociales, pero no ha realizado ninguna inversión sostenible</p> | | | |

Nota: Las inversiones sostenibles se calcularon sobre una base de aprobado/suspenso, incluyendo bonos con etiqueta (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% (medida por ingresos, EBIT, valor de empresa o indicadores similares) a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.

¿En qué grado se ha cumplido el objetivo de inversión sostenible de este producto financiero?

Principales maneras por las que el fondo logró su objetivo de sostenibilidad:

- Impacto positivo:

El fondo logró un impacto medioambiental positivo, invirtiendo en países que tienen una baja exposición a emisiones de carbono para contribuir a los objetivos a largo plazo del calentamiento global del Acuerdo de París (adoptados en virtud de la Convención Marco de las Naciones Unidas sobre el Cambio Climático para tratar de limitar el calentamiento global).

No se ha designado ningún índice de referencia con el fin de lograr el objetivo de inversión sostenible.

El fondo invirtió principalmente en bonos y otros valores de deuda:

- emitidos o garantizados por gobiernos o por gobiernos regionales o locales que, en el momento de su adquisición, tengan una calificación mínima equivalente a «B-», según la definición de Standard & Poor's o una calificación de crédito equivalente de otras agencias de calificación reconocidas. A falta de un sistema de calificación oficial, los Gestores adquirieron valores mobiliarios que presentaban criterios de igual calidad
- de países que están reduciendo sus emisiones de gases de efecto invernadero y su intensidad de carbono (sin tener en cuenta la gestión del suelo y los bosques) o

- de países que, en opinión del gestor, están en proceso de aplicar políticas que pueden conducir a una mejora significativa de la reducción de las emisiones de CO₂, por ejemplo, un país que está legislando sobre sus políticas de carbono pero cuyos datos aún no lo reflejan.

Las inversiones mencionadas incluyen bonos con la etiqueta ASG.

Los valores admisibles fueron:

(i) valores emitidos por países que están reduciendo sus emisiones de gases de efecto invernadero y su intensidad de carbono (sin tener en cuenta la gestión del suelo y los bosques) o que están en proceso de aplicar dichas políticas

(ii) en su caso, bonos con etiqueta verde y/o social emitidos por empresas o países cuyos ingresos se destinan a financiar dichas actividades económicas.

- Inclusión:

El fondo invirtió en parte en bonos con etiqueta medioambiental.

- Exclusiones basadas en normas y valores:

El fondo excluyó los emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente o que incumplen de forma grave las normas internacionales, según se detalla a continuación:

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

| Actividad | Umbrales de ingresos |
|---|----------------------|
| Combustibles fósiles y energía nuclear | |
| Extracción de carbón térmico | > 25% |
| Generación de energía térmica de carbón | > 25% |
| Producción de petróleo y gas | > 25% |
| Extracción de arenas bituminosas | > 10% |
| Extracción de energía de esquisto | > 10% |
| Exploración de petróleo y gas en el Ártico | > 10% |
| Generación de energía nuclear | > 50% |
| Armas | |
| Producción de armas controvertidas[1] | > 0% |
| Armas de contratación militar | > 10% |
| Productos y/o servicios relacionados con armas de contratación militar | > 50% |
| Clientes civiles de armas pequeñas (armas de asalto) | > 10% |
| Clientes civiles de armas pequeñas (armas de no asalto) | > 10% |
| Clientes militares/de fuerzas del orden de armas pequeñas | > 25% |
| Componentes clave de armas pequeñas | > 25% |
| Otras actividades controvertidas | |
| Producción de entretenimiento para adultos | > 10% |
| Operaciones de juego | > 10% |
| Desarrollo de plantas y semillas modificadas genéticamente | > 25% |
| Cultivo de plantas y semillas modificadas genéticamente | > 25% |
| Producción de plaguicidas | > 10% |
| Venta al por menor de plaguicidas | > 10% |
| Producción de productos de tabaco | > 10% |
| Exclusiones de empresas por incumplimiento de normas internacionales | Excluidas |
| Empresas que incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción | Sí |

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

| Exclusiones de países | Excluidas |
|---|------------------------|
| Países (i) incluidos en la lista de Estados patrocinadores del terrorismo, según la definición de la Oficina de Control de Activos Extranjeros de EE. UU.[2] o (ii) sujetos a sanciones financieras de la UE contra bancos centrales y/o empresas de propiedad estatal. | Sí |
| Países (i) clasificados como de muy alto o alto riesgo en el Índice de Estados Frágiles o (ii) afectados por conflictos violentos según la definición del Banco Mundial. | Sí |
| Países (i) incluidos en la lista de «alerta» del Índice de Estados Frágiles o (ii) sujetos a sanciones relacionadas con la exportación por parte de la UE. | Lista de vigilancia[3] |

[1] Entre las armas controvertidas se encuentran las minas antipersona, las municiones de racimo, las armas biológicas y químicas (incluido el fósforo blanco) y las armas nucleares procedentes de países no firmantes del Tratado de No Proliferación de Armas Nucleares (TNP).

[2] «Estado patrocinador del terrorismo» es una designación aplicada por el Departamento de Estado de Estados Unidos a países que repetidamente han prestado apoyo a actos de terrorismo internacional.

[3] Además de las exclusiones estrictas, Pictet Asset Management mantiene una lista de vigilancia que incluye países que requieren una diligencia debida adicional por parte de los equipos de inversión antes de invertir.

Para más detalles, consulte la Política de Inversión responsable de Pictet Asset Management (Anexo B).

- Titularidad activa:

El fondo invierte principalmente en bonos soberanos y nos implicamos sobre ciertas cuestiones ASG durante el periodo de referencia.

- Inversiones sostenibles:

Pictet Asset Management utilizó un marco propio, así como los objetivos de la Taxonomía de la UE, para definir las inversiones sostenibles.

El fondo invirtió en valores que financian actividades económicas que contribuyeron sustancialmente a objetivos medioambientales como:

- mitigación del cambio climático o adaptación al mismo
- suso sostenible y protección de los recursos hídricos y marinos
- transición hacia una economía circular
- prevención y control de la contaminación o
- protección y recuperación de la biodiversidad y el ecosistema

- ¿Cómo se han comportado los indicadores de sostenibilidad?

Durante el periodo de información, los indicadores de sostenibilidad se comportaron según se indica a continuación:

- Exposición a bonos con etiqueta verde y/o social

Durante el periodo de referencia, el fondo tuvo una exposición del 37,18% a bonos certificados.

Los fondos certificados incluyen bonos medioambientales, sociales y de sostenibilidad. La clasificación de los bonos certificados se proporciona por emisor de bonos y puede no reflejar nuestro punto de vista interno.

- Huella de carbono media a nivel de la cartera, tanto emisiones totales de carbono como emisiones de carbono por PIB, incluyendo la contribución de gestión del suelo (LULUCF) en nuestra medición de las emisiones

0,21 KtCO₂e/EUR de PIB

Medido por la reducción de las emisiones totales de CO₂ del país en kilotoneladas durante los últimos 4 años y la mejora de la eficiencia del CO₂, es decir, las emisiones totales de CO₂ en kilotoneladas por cada mil millones de dólares de PIB durante los últimos 4 años. Fuente: Pictet Asset Management, a partir de datos de EDGAR y FAOSTAT

- Principal incidencia adversa (PIA)

El fondo utiliza una combinación de enfoques para considerar y, en la medida de lo posible, mitigar las incidencias adversas materiales de sus inversiones en la sociedad y el medioambiente, como emisiones de GEI, contaminación atmosférica, pérdida de biodiversidad, emisiones al agua, residuos peligrosos/radioactivos, derechos humanos, normas laborales, corrupción y soborno, y salud pública.

Los indicadores de sostenibilidad miden cómo se logran los objetivos sostenibles de este producto financiero.

El grado y la forma en que estas incidencias se tuvieron en cuenta dependieron de factores como el contexto específico de la inversión que provoca la incidencia adversa o la disponibilidad de datos fiables.

El fondo invierte principalmente en deuda pública durante el período de referencia. En el caso de las inversiones en bonos no soberanos y de conformidad con la política de exclusión de Pictet Asset Management descrita en la Política de Inversión Responsable de la empresa (véase el cuadro anterior para consultar las actividades excluidas y los umbrales de exclusión aplicados), el fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se detalla a continuación:

Actividades controvertidas (media ponderada de ingresos de la empresa, en %)*:

| | Fondo (%) | Índice de referencia (%) |
|--|-----------|--------------------------|
| Combustibles fósiles y energía nuclear | 0,01 | 0,00 |
| Armas | 0,00 | 0,00 |
| Otras actividades controvertidas | 0,00 | 0,00 |
| No aplicable: | 96,80 | 100,00 |
| No cubierto: | 0,24 | 0,00 |

* Los combustibles fósiles y la energía nuclear incluyen la extracción de carbón térmico y la generación de electricidad, la producción y extracción de petróleo y gas, la extracción de energía de esquisto, la exploración de petróleo y gas en los mares del Ártico y la generación de energía nuclear. Las armas incluyen la contratación militar (servicios de armas y relacionadas con estas), clientes civiles de armas pequeñas (armas de asalto/no asalto), clientes militares/de las fuerzas y cuerpos de seguridad de armas pequeñas y componentes clave de pequeñas armas. Otras actividades controvertidas incluyen la producción de tabaco, la producción de entretenimiento para adultos, la explotación de juegos de azar, el desarrollo o crecimiento de organismos modificados genéticamente, la producción o venta al por menor de pesticidas. La exposición se basa en datos de terceros y puede no reflejar nuestro punto de vista interno. Pictet Asset Management tiene plena discreción sobre la aplicación de los criterios de exclusión y se reserva el derecho de apartarse de la información de terceros, según el caso, cuando se considere incorrecta o incompleta.

Fuente: Pictet Asset Management, Sustainalytics.

Además, el fondo excluyó a los emisores que tenían exposición a:

- (i) PIA 10: Incumplimientos de los principios del Pacto Mundial de las Naciones Unidas y las Directrices para Empresas Multinacionales de la Organización para la Cooperación y el Desarrollo Económicos (OCDE).
- (ii) PIA 14: Exposición a armas controvertidas (minas antipersonas, municiones en racimo, armas químicas y armas biológicas)

● ¿... y en comparación con períodos anteriores?

Esta cuestión se abordará en futuros informes anuales debido a la falta de historial.

● ¿De qué manera las inversiones sostenibles no han causado un perjuicio significativo a ningún objetivo medioambiental o social?

Para evitar que las inversiones sostenibles causen un perjuicio significativo a cualquier otro objetivo medioambiental o social, el fondo aplicó los siguientes criterios de selección sobre la base del mejor esfuerzo:

- (i) Exclusiones de emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente (véase la descripción del marco de exclusión de IR).
- (ii) Los emisores asociados a controversias elevadas y graves se excluyeron.

La información se obtuvo de proveedores terceros y/o de análisis interno. La información ASG de terceros proveedores de datos puede haber sido incompleta, inexacta o no estar disponible. Como consecuencia de ello, existía el riesgo de que el Gestor de inversiones evaluara incorrectamente un valor o emisor, dando lugar a la inclusión o exclusión incorrecta de un valor en el fondo. Los datos ASG incompletos, inexactos o no disponibles también pueden actuar como una limitación metodológica a una estrategia de inversión no financiera (como la aplicación de criterios ASG o similares). En los casos identificados, el Gestor de inversiones trató de mitigar este riesgo

mediante su propia evaluación. En caso de que las características ASG de un valor mantenido por el fondo cambiaren, dando lugar a la venta del valor, el Gestor de inversiones no acepta responsabilidad alguna en relación con dicho cambio.

- *¿Cómo se han tenido en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?*

Pictet Asset Management realiza un seguimiento de todos los indicadores obligatorios de principales incidencias adversas (incluidos en el Anexo 1 del Reglamento Delegado (UE) 22 / 1288 de la Comisión) cuando disponemos de datos sólidos. Se espera que la calidad y la disponibilidad de los datos mejoren con el tiempo.

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas de sus inversiones en la sociedad y el medioambiente que se consideran importantes para la estrategia de inversión, mediante un conjunto de decisiones de gestión de cartera, actividades de propiedad activa y exclusión de emisores asociados a conductas o actividades controvertidas.

Más información en el informe de PIA de la entidad, disponible en:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&sla=es&bl=PAM>

- *¿Se han ajustado las inversiones sostenibles a las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios rectores de las Naciones Unidas sobre las empresas y los derechos humanos?*

El fondo invierte principalmente en deuda pública durante el período de referencia.

En el caso de las inversiones en bonos no soberanos, nos aseguramos de que las inversiones sostenibles no causaran un perjuicio significativo a ningún objetivo de inversión sostenible, el fondo excluyó a las empresas con infracciones elevadas y graves de (i) los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción o (ii) las Líneas Directrices de la OCDE para Empresas Multinacionales, incluidos los asuntos sociales y laborales graves.

¿Cómo tiene en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas que se consideran importantes para la estrategia de inversión. Estas incidencias adversas se abordaron mediante una combinación de:

(i) decisiones de gestión de carteras

El equipo de inversión puntuó las posiciones según una evaluación de los riesgos medioambientales como parte del marco de puntuación del fondo. Los gestores de inversiones determinan las puntuaciones sobre una base cuantitativa fundamentada en datos de emisiones y una base cualitativa, basándose en el análisis fundamental y en datos cuantitativos ASG, principalmente emisiones de carbono, incluidos los datos sobre la Principal incidencia adversa, los datos ASG facilitados por las empresas y los datos proporcionados por terceros proveedores de datos ASG. El proceso de puntuación del equipo de inversión fue un componente clave del proceso de construcción de la cartera del compartimento, determinando las ponderaciones objetivo en la cartera.

(ii) exclusión de emisores asociados a conductas o actividades controvertidas

El fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se definen en la Política de Inversión responsable de la Pictet Asset Management y/o (ii) empresas que infringieron gravemente los principios del Pacto Mundial de la ONU sobre derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción y las armas controvertidas, o (iii) países sujetos a sanciones internacionales; véase también la información detallada sobre las exclusiones que figura en la Política de Inversión responsable de Pictet Asset Management.

¿Cuáles han sido las inversiones principales de este producto financiero?

| INVERSIONES DE MAYOR VOLUMEN | SECTOR | % DE ACTIVOS | PAÍS |

¿Cuál ha sido la proporción de inversiones relacionadas con la sostenibilidad?

93,44%

La asignación de activos describe el porcentaje de inversiones en activos específicos.

● ¿Cuál ha sido la asignación de activos?

El fondo asignó el 93,44% de sus activos a inversiones sostenibles (n.º 1 Sostenibles) y el 6,56% a Inversiones no sostenibles (n.º 2 No sostenibles). El 93,44% de sus activos se han asignado a objetivos medioambientales y el 0,00% a objetivos sociales.

Notas:

- Las inversiones «n.º 1A Sostenibles» y «Otras medioambientales» se calcularon sobre una base de aprobado/suspenso. Incluyen bonos certificados (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.
- Las inversiones ajustadas a la taxonomía verde de la UE se calculan ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a la mitigación del cambio climático y la adaptación al mismo) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.

Fuente: Pictet Asset Management.

● ¿En qué sectores económicos se han realizado las inversiones?

Fuente: Pictet Asset Management, Merrill Lynch.

Estamos evaluando la disponibilidad y la calidad de los datos que nos permitirían divulgar información más granular en futuros informes sobre los sectores y subsectores de la economía que obtienen ingresos a partir de la exploración, la minería, la extracción, la producción, el procesamiento, el almacenamiento, el refinado o la distribución, incluidos el transporte, el almacenamiento y el comercio, de combustibles fósiles, según se definen en el artículo 2, punto (62), del Reglamento (UE) 2018/1999 del Parlamento Europeo y del Consejo.

¿En qué medida se ajustaban las inversiones sostenibles con un objetivo medioambiental a la taxonomía de la UE?

El fondo realizó inversiones en actividades económicas que contribuyeron a los dos primeros objetivos medioambientales (mitigación del cambio climático y adaptación a este), según lo establecido en el artículo 9 del Reglamento (UE) 2020/852.

Las inversiones ajustadas a la taxonomía de la UE se calcularon ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a objetivos medioambientales relevantes) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.

Los datos de ajuste a la Taxonomía verde de la UE proceden de informes públicos. Los cálculos también pueden incluir estimaciones en un número limitado de casos en los que no se disponía de datos sobre la alineación con la Taxonomía verde de la UE. Las estimaciones se realizaron sobre la base del mejor esfuerzo y siguiendo un planteamiento conservador para obtener un resultado prudente.

Los procedimientos de control se han aplicado para verificar en todo momento el cumplimiento del artículo 3 del Reglamento sobre taxonomía de la UE.

Los datos facilitados no han sido verificados por un auditor externo ni revisados por un tercero independiente.

● ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil o la energía nuclear que cumplían con la taxonomía de la UE¹?

Sí:

En gas fósil En energía nuclear

No

La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permite ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

Para ajustarse a la taxonomía de la UE, los criterios correspondientes al **gas fósil** incluyen limitaciones de emisiones y el paso a la energía renovable o combustibles bajos en carbono de aquí al fin de 2035. Por lo que

¹ Las actividades relacionadas con el gas fósil o la energía nuclear solo cumplirán la taxonomía de la UE cuando contribuyan a limitar el cambio climático («mitigación del cambio climático») y no perjudiquen significativamente ningún objetivo de la taxonomía de la UE (véase la nota explicativa en el margen izquierdo). Los criterios completos correspondientes a las actividades económicas del gas fósil y la energía nuclear que se ajustan a la taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

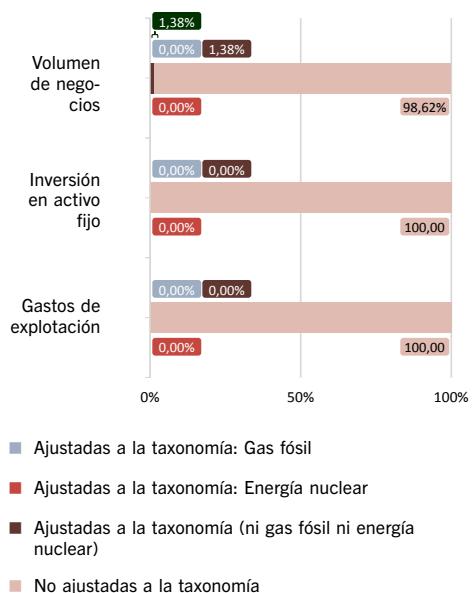

respecta a la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las actividades que se ajustan a la taxonomía se expresan como un porcentaje de:

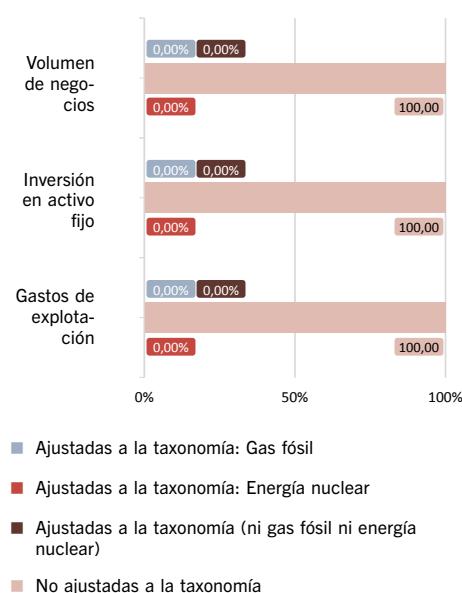

- **El volumen de negocios**, que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas en las que se invierte.
- **La inversión en activo fijo**, que muestra las inversiones ecológicas realizadas por las empresas en las que se invierte, por ejemplo, para la transición a una economía verde.
- **Los gastos de explotación**, que reflejan las actividades operativas ecológicas de las empresas en las que se invierte.

Los gráficos que figuran a continuación muestran en verde el porcentaje de inversiones que se ajustaban a la taxonomía de la UE. Dado que no existe una metodología adecuada para determinar la adaptación a la taxonomía de los bonos soberanos, el primer gráfico muestra la adaptación a la taxonomía correspondiente para todas las inversiones del producto financiero, incluidos los bonos soberanos, mientras que el segundo gráfico muestra la adaptación a la taxonomía solo en relación con las inversiones del producto financiero distintas de los bonos soberanos.*

1. Ajuste a la taxonomía de las inversiones incluidos los bonos soberanos*

2. Ajuste a la taxonomía de las inversiones excluidos los bonos soberanos*

Este gráfico representa el 3,78% de las inversiones totales.

* A efectos de estos gráficos, los «bonos soberanos» incluyen todas las exposiciones soberanas

Nota:

Utilizamos los ingresos como medida clave para establecer la asignación de objetivos y el ajuste real con la taxonomía de la UE debido a la disponibilidad limitada y a la falta de datos fiables para los gastos de explotación y la inversión en activo fijo.

Fuente: Pictet Asset Management.

● ¿Cuál ha sido la proporción de las inversiones realizadas en actividades de transición y facilitadoras?

La proporción de inversiones realizadas en:

- Actividades de transición: No aplicable*
- Actividades de facilitadoras: No aplicable*

* La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permiten ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

● ¿Qué porcentaje de inversiones se han ajustado a la taxonomía de la UE en comparación con los períodos de referencia anteriores?

No aplicable.

¿Cuál ha sido la proporción de inversiones sostenibles con un objetivo medioambiental no ajustadas a la taxonomía de la UE?

93,44%

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta los criterios para las actividades económicas medioambientalmente sostenibles con arreglo a la taxonomía de la UE.

Estas inversiones sostenibles no se ajustan a la Taxonomía de la UE porque sus actividades económicas o bien (i) no están cubiertas por la Taxonomía de la UE, o bien (ii) no cumplen los criterios técnicos de selección para lograr una contribución sustancial en el sentido de la Taxonomía de la UE.

¿Cuál ha sido la proporción de inversiones socialmente sostenibles?

0%

¿Qué inversiones se han incluido en «No sostenibles» y cuál ha sido su propósito? ¿Ha habido garantías medioambientales o sociales mínimas?

Las «otras» inversiones del fondo incluían posiciones de tesorería mantenidas principalmente para satisfacer los objetivos diarios de liquidez y gestión de riesgos permitidos y previstos por la política de inversión del fondo. Cuando sea preciso, se aplicarán salvaguardias medioambientales o sociales mínimas a los valores subyacentes.

¿Qué medidas se han adoptado para lograr el objetivo de inversión sostenible durante el período de referencia?

Durante el período de referencia, se alcanzó el objetivo de inversión sostenible siguiendo la estrategia de inversión y respetando los elementos vinculantes.

Los elementos vinculantes del fondo son:

- inversiones en bonos y otros valores de deuda:
- de países que están reduciendo sus emisiones de gases de efecto invernadero y su intensidad de carbono (sin tener en cuenta la gestión del suelo y los bosques) o
- de países que, en opinión del gestor, están en proceso de aplicar políticas que pueden conducir a una mejora significativa de la reducción de las emisiones de CO₂, por ejemplo, un país que está legislando sobre sus políticas de carbono pero cuyos datos aún no lo reflejan.
- Exclusión de emisores que:
- están relacionados con armas nucleares de países que no han firmado el Tratado sobre la No Proliferación de Armas Nucleares (TNP) y otras armas controvertidas
- obtienen una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, como la extracción de carbón térmico y la generación de electricidad, la exploración y producción no convencional de petróleo y gas, la producción de petróleo y gas convencional, la generación de energía nuclear, las armas convencionales y armas pequeñas, la contratación militar de armas y productos y servicios relacionados con las armas, la producción de tabaco, la producción de entretenimiento para adultos, las actividades del juego, el desarrollo y crecimiento de organismos modificados genéticamente, la producción y comercialización de pesticidas. Para más detalles sobre los umbrales de exclusión aplicables a las actividades anteriores, consulte la Política de Inversión responsable de Pictet Asset Management.
- incumplen gravemente normas internacionales, incluidos los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción
- exclusiones de países sujetos a sanciones internacionales
- análisis de criterios ASG de los valores admisibles que abarca al menos el 90% del patrimonio neto o el número de emisores incluidos en la cartera

Además, el fondo se implicó con ciertos emisores soberanos sobre cuestiones ASG durante el período de referencia.

¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No se ha designado ningún índice de referencia con el fin de lograr el objetivo de inversión sostenible.

Los índices de referencia de sostenibilidad son índices que miden si el producto financiero logra el objetivo de sostenibilidad.

● ¿Cómo difería el índice de referencia de un índice general de mercado?

No aplicable.

● ¿Cómo se ha comportado este producto financiero con respecto a los indicadores de sostenibilidad para determinar la conformidad del índice de referencia con las características medioambientales o sociales que promueve?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice general de mercado?

No aplicable.

Plantilla de información periódica de los productos financieros a que se refiere el artículo 8, apartados 1, 2 y 2 bis, del Reglamento (UE) 2019/2088 y el artículo 6, párrafo primero, del Reglamento (UE) 2020/852

Nombre del producto: **Pictet - Family**

Identificador de entidad jurídica: **549300M1TOB2573YHT17**

CARACTERÍSTICAS MEDIOAMBIENTALES O SOCIALES

Inversión sostenible
significa una inversión en una actividad económica que contribuye a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo a ningún objetivo medioambiental o social y que las empresas en las que se invierte sigan prácticas de buena gobernanza.

La **taxonomía de la UE** es un sistema de clasificación previsto en el Reglamento (UE) 2020/852 por el que se establece una lista de **actividades económicas medioambientalmente sostenibles**. Dicho Reglamento no prevé una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental pueden ajustarse, o no, a la taxonomía.

| ¿ESTE PRODUCTO FINANCIERO TENÍA UN OBJETIVO DE INVERSIÓN SOSTENIBLE? | | | |
|---|-------------------------------------|---|---|
| <input checked="" type="radio"/> Si | <input type="radio"/> No | <input checked="" type="radio"/> Promovió características medioambientales o sociales y, aunque no tenía como objetivo una inversión sostenible, tuvo un porcentaje del 48,83% de inversiones sostenibles | <input checked="" type="radio"/> con un objetivo medioambiental en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> Realizó inversiones sostenibles con un objetivo medioambiental: ____% | <input checked="" type="checkbox"/> | <input checked="" type="checkbox"/> con un objetivo medioambiental en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> con un objetivo medioambiental en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | | | <input checked="" type="checkbox"/> con un objetivo social |
| <input type="checkbox"/> en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | | | |
| <input type="checkbox"/> Realizó inversiones sostenibles con un objetivo social: ____% | <input type="checkbox"/> | <input type="checkbox"/> Ha promovido características medioambientales o sociales, pero no ha realizado ninguna inversión sostenible | |

Nota: Las inversiones sostenibles se calcularon sobre una base de aprobado/suspenso, incluyendo bonos con etiqueta (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% (medida por ingresos, EBIT, valor de empresa o indicadores similares) a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.

¿En qué grado se han cumplido las características medioambientales o sociales que promueve este producto financiero?

Las características medioambientales y sociales de este producto financiero se promovieron utilizando:

- Inclinación positiva:

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos y, como resultado, tuvo un perfil medioambiental, social y de gobernanza (ASG) mejor que el del índice de referencia. El índice MSCI AC World se utilizó para medir la inclinación positiva; sin embargo, no se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

- Exclusiones basadas en normas y valores:

El fondo excluyó los emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente o que incumplen de forma grave las normas internacionales, según se detalla a continuación:

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

Actividad

Umbrales de ingresos

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

| | |
|---|------------------------------------|
| Combustibles fósiles y energía nuclear | |
| Extracción de carbón térmico | > 25% |
| Generación de energía térmica de carbón | > 25% |
| Extracción de arenas bituminosas | > 25% |
| Extracción de energía de esquisto | > 25% |
| Exploración de petróleo y gas en el Ártico | > 10% |
| Armas | |
| Producción de armas controvertidas ^[1] | > 0% |
| Armas de contratación militar | > 10% |

| Componentes clave de armas pequeñas | > 25% |
| Otras actividades controvertidas | |
| Producción de entretenimiento para adultos | > 10% |
| Operaciones de juego | > 10% |
| Producción de productos de tabaco | > 10% |
| Exclusiones de empresas por incumplimiento de normas internacionales | Excluidas |
| Empresas que incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción | Sí |
| Exclusiones de países | Excluidas |
| Países (i) incluidos en la lista de Estados patrocinadores del terrorismo, según la definición de la Oficina de Control de Activos Extranjeros de EE. UU. ^[2] o (ii) sujetos a sanciones financieras de la UE contra bancos centrales y/o empresas de propiedad estatal. | Sí |
| Países (i) clasificados como de muy alto o alto riesgo en el Índice de Estados Frágiles o (ii) afectados por conflictos violentos según la definición del Banco Mundial. | Sí |
| Países (i) incluidos en la lista de «alerta» del Índice de Estados Frágiles o (ii) sujetos a sanciones relacionadas con la exportación por parte de la UE. | Lista de vigilancia ^[3] |

^[1] Entre las armas controvertidas se encuentran las minas antipersona, las municiones de racimo, las armas biológicas y químicas (incluido el fósforo blanco) y las armas nucleares procedentes de países no firmantes del Tratado de No Proliferación de Armas Nucleares (TNP).

^[2] «Estado patrocinador del terrorismo» es una designación aplicada por el Departamento de Estado de Estados Unidos a países que repetidamente han prestado apoyo a actos de terrorismo internacional.

^[3] Además de las exclusiones estrictas, Pictet Asset Management mantiene una lista de vigilancia que incluye países que requieren una diligencia debida adicional por parte de los equipos de inversión antes de invertir.

Para más detalles, consulte la Política de Inversión responsable de Pictet Asset Management (Anexo B).

- Titularidad activa:

El fondo ejerció de forma metódica sus derechos de voto y se implicó con la dirección de las empresas sobre cuestiones ASG importantes.

● **¿Cómo se han comportado los indicadores de sostenibilidad?**

Durante el periodo de información, los indicadores de sostenibilidad se comportaron según se indica a continuación:

- **Perfil ASG global**

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos.

Como resultado, el fondo ha conseguido un perfil ambiental, social y de gobernanza (ASG) mejor que el del índice de referencia.

● **Principal incidencia adversa (PIA)**

El fondo utiliza una combinación de enfoques para considerar y, en la medida de lo posible, mitigar las incidencias adversas materiales de nuestras inversiones en la sociedad y el medioambiente, como emisiones de GEI, contaminación atmosférica, pérdida de biodiversidad, emisiones al agua, residuos peligrosos/radioactivos, derechos humanos, normas laborales, corrupción y soborno, y salud pública.

El grado y la forma en que estas incidencias se tuvieron en cuenta dependieron de factores como el contexto específico de la inversión que provoca la incidencia adversa o la disponibilidad de datos fiables.

De conformidad con la política de exclusión de Pictet Asset Management descrita en la Política de Inversión responsable de la empresa (véase el cuadro anterior para consultar las actividades excluidas y los umbrales de exclusión aplicados), el fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente:

Actividades controvertidas (media ponderada de ingresos de la empresa, en %)*:

| | Fondo (%) | Índice de referencia (%) |
|--|-----------|--------------------------|
| Combustibles fósiles y energía nuclear | 0,21 | 4,15 |
| Armas | 0,07 | 0,99 |
| Otras actividades controvertidas | 0,01 | 1,02 |
| No aplicable: | 1,68 | 0,00 |
| No cubierto: | 0,00 | 0,02 |

* Los combustibles fósiles y la energía nuclear incluyen la extracción de carbón térmico y la generación de electricidad, la producción y extracción de petróleo y gas, la extracción de energía de esquisto, la exploración de petróleo y gas en los mares del Ártico y la generación de energía nuclear. Las armas incluyen la contratación militar (servicios de armas y relacionadas con estas), clientes civiles de armas pequeñas (armas de asalto/no asalto), clientes militares/de las fuerzas y cuerpos de seguridad de armas pequeñas y componentes clave de pequeñas armas. Otras actividades controvertidas incluyen la producción de tabaco, la producción de entretenimiento para adultos, la explotación de juegos de azar, el desarrollo o crecimiento de organismos modificados genéticamente, la producción o venta al por menor de pesticidas. La exposición se basa en datos de terceros y puede no reflejar nuestro punto de vista interno. Pictet Asset Management tiene plena discreción sobre la aplicación de los criterios de exclusión y se reserva el derecho de apartarse de la información de terceros, según el caso, cuando se considere incorrecta o incompleta.

Fuente: Pictet Asset Management, Sustainalytics.

Además, el fondo excluyó a los emisores que tenían exposición a:

(i) PIA 10: Incumplimientos de los principios del Pacto Mundial de las Naciones Unidas y las Directrices para Empresas Multinacionales de la Organización para la Cooperación y el Desarrollo Económicos (OCDE).

(ii) PIA 14: Exposición a armas controvertidas (minas antipersonas, municiones en racimo, armas químicas y armas biológicas)

● **Derechos de voto**

Durante el periodo de referencia, el fondo votó en 47 juntas generales de 48 juntas en las que se podía votar (97,92%). Votamos «en contra» (incluidas «abstenciones» o «retenciones») en al menos una resolución en el 79,17% de las juntas.

De las 614 resoluciones de la dirección, votamos en contra de la dirección en 107 puntos (17,43%) y nos abstuvimos en 51 puntos (8,31%).

Apoyamos 41 (73,21%) resoluciones de accionistas de un total de 56 propuestas.

Por lo que respecta a las cuestiones medioambientales y/o sociales, votamos a favor de 1 de las 1 resoluciones de la dirección y a favor de 32 de las 42 resoluciones de accionistas.

Fuente: Pictet Asset Management, ISS ESG.

● Interacción

El fondo se implicó con 10 empresas sobre cuestiones ASG (datos a 30.09.2023). Esto incluye diálogos internos, iniciativas de colaboración entre inversores y servicios de implicación de terceros. Para que se considere implicación, el diálogo con una empresa objetivo debe tener un objetivo claro y mensurable en un horizonte temporal predefinido. Es importante señalar que no todas las interacciones rutinarias o de supervisión, aunque impliquen a la alta dirección o al Consejo de administración, se consideran implicaciones en nuestra evaluación.

Fuente: Pictet Asset Management, Sustainalytics.

● ¿... y en comparación con períodos anteriores?

Esta cuestión se abordará en futuros informes anuales debido a la falta de historial.

● ¿Cuáles han sido los objetivos de las inversiones sostenibles que ha realizado en parte el producto financiero y de qué forma ha contribuido la inversión sostenible a dichos objetivos?

El fondo no se comprometió a un porcentaje mínimo de inversiones sostenibles.

Sin embargo, *a posteriori*, el fondo invirtió en valores que financiaban actividades económicas que contribuyeron sustancialmente a objetivos medioambientales y/o sociales como:

Medioambientales

- mitigación del cambio climático o adaptación al mismo
- suso sostenible y protección de los recursos hídricos y marinos
- transición hacia una economía circular
- prevención y control de la contaminación o
- protección y recuperación de la biodiversidad y los ecosistemas

Sociales

- comunidades inclusivas y sostenibles
- nivel de vida adecuado y bienestar para los usuarios finales o
- trabajo digno

Pictet Asset Management utilizó un marco de referencia propio, así como los objetivos de la Taxonomía de la UE, para definir las inversiones sostenibles.

● ¿De qué manera las inversiones sostenibles que el producto financiero ha realizado en parte, no han causado un perjuicio significativo a ningún objetivo de inversión sostenible medioambiental o social?

Para evitar que las inversiones sostenibles causen un perjuicio significativo a cualquier otro objetivo medioambiental o social, el fondo aplicó los siguientes criterios de selección sobre la base del mejor esfuerzo:

- (i) Exclusiones de emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente (véase la descripción del marco de exclusión de IR).
- (ii) Los emisores asociados a controversias elevadas y graves no se contabilizaron como inversiones sostenibles.

La información se obtuvo de proveedores terceros y/o de análisis interno. La información ASG de terceros proveedores de datos puede haber sido incompleta, inexacta o no estar disponible. Como consecuencia de ello, existía el riesgo de que el Gestor de inversiones evaluara incorrectamente un valor o emisor, dando lugar a la inclusión o exclusión incorrecta de un valor en el fondo. Los datos ASG incompletos, inexactos o no disponibles también pueden actuar como una limitación metodológica a una estrategia de inversión no financiera (como la aplicación de criterios ASG o similares). En los casos identificados, el Gestor de inversiones trató de mitigar este riesgo mediante su propia evaluación. En caso de que las características ASG de un valor mantenido por el fondo cambiaran, dando lugar a la venta del valor, el Gestor de inversiones no acepta responsabilidad alguna en relación con dicho cambio.

● ¿Cómo se han tenido en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?

Pictet Asset Management realiza un seguimiento de todos los indicadores obligatorios de principales incidencias adversas (incluidos en el Anexo 1 del Reglamento Delegado (UE) 22 / 1288 de la Comisión) cuando disponemos de datos sólidos. Se espera que la calidad de los datos disponibles mejore con el tiempo.

Las principales incidencias adversas son las incidencias negativas más importantes de las decisiones de inversión sobre los factores de sostenibilidad en relación con asuntos

medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas de sus inversiones en la sociedad y el medioambiente que se consideran importantes para la estrategia de inversión, mediante un conjunto de decisiones de gestión de cartera, actividades de propiedad activa y exclusión de emisores asociados a conductas o actividades controvertidas. Más información en el informe de PIA de la entidad, disponible en:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=es&bl=PAM>

- *¿Se han ajustado las inversiones sostenibles a las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios rectores de las Naciones Unidas sobre las empresas y los derechos humanos?*

Para garantizar que la inversión sostenible no causara un perjuicio significativo a ningún objetivo de inversión sostenible, el fondo excluyó a las empresas con infracciones elevadas y graves de (i) los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción o (ii) las Líneas Directrices de la OCDE para Empresas Multinacionales, incluidos los asuntos sociales y laborales graves.

La taxonomía de la UE establece el principio de «no causar un perjuicio significativo», según el cual las inversiones que se ajusten a la taxonomía no deben perjudicar significativamente a los objetivos de la taxonomía de la UE, e incluye criterios específicos de la Unión.

El principio de «no perjudicar de forma significativa» se aplica únicamente a las inversiones subyacentes del producto financiero que contemplan los criterios de la UE relativos a actividades económicas sostenibles desde una perspectiva medioambiental. Las inversiones subyacentes al resto del producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas medioambientalmente sostenibles.

Cualquier otra inversión sostenible tampoco debe perjudicar significativamente a ningún objetivo medioambiental o social.

¿Cómo tiene en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas que se consideran importantes para la estrategia de inversión. Entre las incidencias adversas se incluyeron, entre otras, las emisiones de gases de efecto invernadero (GEI), la contaminación atmosférica, la pérdida de biodiversidad, las emisiones al agua, los residuos peligrosos/radioactivos, las cuestiones sociales y laborales, y la corrupción y el soborno, que se abordaron mediante una combinación de:

(i) decisiones de gestión de carteras

El equipo de inversión puntuó las posiciones según una evaluación de los riesgos medioambientales, sociales y de gobernanza como parte del marco de puntuación del fondo. Los gestores de inversiones determinan las puntuaciones sobre una base cualitativa, basándose en el análisis fundamental y en datos cuantitativos ASG, incluidos los datos sobre la Principal incidencia adversa, los datos ASG facilitados por las empresas y los datos proporcionados por terceros proveedores de datos ASG. El proceso de puntuación del equipo de inversión fue un componente clave del proceso de construcción de la cartera del compartimento, determinando las ponderaciones objetivo en la cartera.

(ii) voto por delegación

El fondo se atuvo a las directrices de voto de Pictet Asset Management, que están diseñadas para apoyar una cultura de gobierno corporativo sólida, una gestión eficaz de las cuestiones medioambientales y sociales, y la publicación de información exhaustiva de acuerdo con normas creíbles. Dichas directrices también pretenden apoyar a los órganos de gobierno mundiales reconocidos que promueven prácticas empresariales sostenibles que abogan por la gestión del medio ambiente, las prácticas laborales justas, la no discriminación y la protección de los derechos humanos. Todas las actividades de voto del fondo se registraron y pueden compartirse previa solicitud.

(iii) implicación

La interacción con los emisores se realizó mediante conversaciones individuales, reuniones de accionistas/bonistas, giras de inversores y/o conferencias telefónicas. Los objetivos de estas interacciones fueron evaluar una organización, supervisar que su estrategia se estaba aplicando conforme a nuestras expectativas y garantizar que los emisores iban camino de cumplir sus metas y objetivos.

Cuando corresponde, nos implicamos con las empresas en relación con cuestiones ASG importantes, como los objetivos de reducción de los GEI, las mejoras en la gobernanza y diversas controversias medioambientales, sociales y de gobernanza, para asegurarnos de que las entendieran y las abordaran

eficazmente a corto, medio y largo plazo. Nuestras actividades de implicación combinaron debates dirigidos a nivel interno, iniciativas de colaboración con inversores institucionales y servicios de implicación externos.

(iv) exclusión de emisores asociados a conductas o actividades controvertidas

El fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se definen en la Política de Inversión responsable de la Pictet Asset Management y/o (ii) empresas que infringieron gravemente los principios del Pacto Mundial de la ONU sobre derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción y las armas controvertidas.

¿Cuáles han sido las inversiones principales de este producto financiero?

La lista incluye las inversiones que constituyen la mayor parte de las inversiones del producto financiero durante el período de referencia, que es: 01.10.2022 - 30.09.2023

| INVERSIONES DE MAYOR VOLUMEN | SECTOR | % DE ACTIVOS | PAÍS |
|------------------------------|------------------------------|--------------|----------------|
| HERMES INTERNATIONAL | Consumo discrecional | 5,0 | Francia |
| BERKSHIRE HATHAWAY INC-CL B | Financiero | 4,8 | Estados Unidos |

¿Cuál ha sido la proporción de inversiones relacionadas con la sostenibilidad?

48,83%

La asignación de activos describe el porcentaje de inversiones en activos específicos.

¿Cuál ha sido la asignación de activos?

El fondo se ajustó en un 98,32% con características medioambientales o sociales (n.º 1 Ajustadas a características medioambientales o sociales) y tuvo hasta un 1,68% invertido en la categoría Otras (n.º 2 Otras). El 48,83% se asignó a inversiones sostenibles (n.º 1A Sostenibles) y el resto se invirtió en inversiones ajustadas a otras características medioambientales o sociales (n.º 1B Otras características medioambientales o sociales).

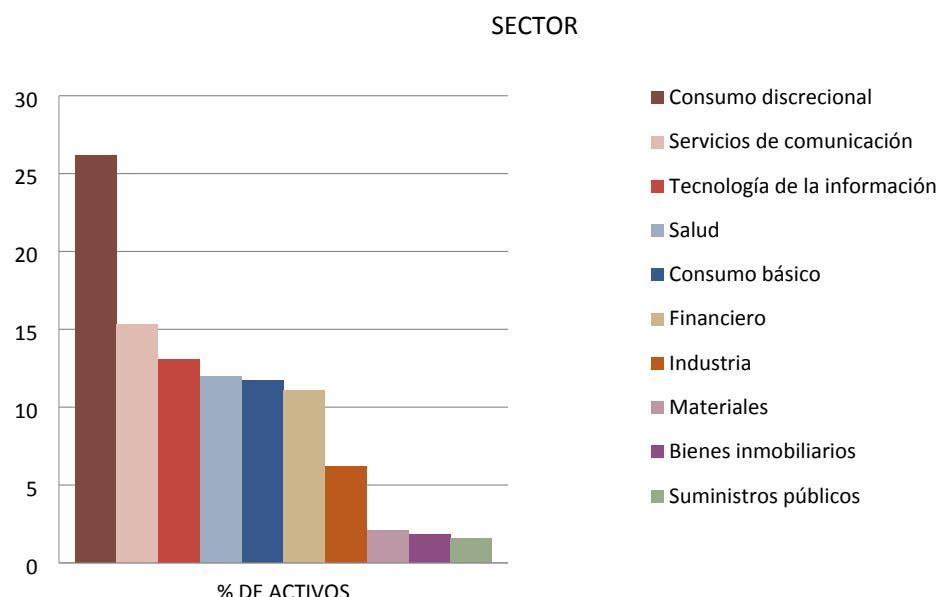

Notas:

- Las inversiones «n.º 1A Sostenibles», «Otras medioambientales» y «Sociales» se calcularon sobre una base de aprobado/suspenso. Incluyen bonos certificados (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.
- Las inversiones ajustadas a la taxonomía verde de la UE se calculan ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a la mitigación del cambio climático y la adaptación al mismo) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.
- A falta de una taxonomía social de la UE, Pictet ha desarrollado un marco de taxonomía social propio. El marco se basa en basado en el Informe sobre taxonomía social publicado por la Plataforma de Finanzas Sostenibles de la UE en 2022. Las actividades admisibles se definen como bienes y servicios beneficiosos desde el punto de vista social que contribuyen sustancialmente a uno de los tres objetivos sociales siguientes: (1) comunidades inclusivas y sostenibles, (2) nivel de vida adecuado y bienestar para los usuarios finales y (3) trabajo digno.

Fuente: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RB/CS.

● ¿En qué sectores económicos se han realizado las inversiones?

Fuente: Pictet Asset Management, GICS/MSCI.

Estamos evaluando la disponibilidad y la calidad de los datos que nos permitirían divulgar información más granular en futuros informes sobre los sectores y subsectores de la economía que obtienen ingresos a partir de la exploración, la minería, la extracción, la producción, el procesamiento, el almacenamiento, el refinado o la distribución, incluidos el transporte, el almacenamiento y el comercio, de combustibles fósiles, según se definen en el artículo 2, punto (62), del Reglamento (UE) 2018/1999 del Parlamento Europeo y del Consejo.

¿En qué medida se ajustaban las inversiones sostenibles con un objetivo medioambiental a la taxonomía de la UE?

El fondo realizó inversiones en actividades económicas que contribuyeron a los dos primeros objetivos medioambientales (mitigación del cambio climático y adaptación a este), según lo establecido en el artículo 9 del Reglamento (UE) 2020/852.

Las inversiones ajustadas a la taxonomía de la UE se calcularon ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a objetivos medioambientales relevantes) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.

Los datos de ajuste a la Taxonomía verde de la UE proceden de informes públicos. Los cálculos también pueden incluir estimaciones en un número limitado de casos en los que no se disponía de datos sobre la alineación con la Taxonomía verde de la UE. Las estimaciones se realizaron sobre la base del mejor esfuerzo y siguiendo un planteamiento conservador para obtener un resultado prudente.

Los procedimientos de control se han aplicado para verificar en todo momento el cumplimiento del artículo 3 del Reglamento sobre taxonomía de la UE.

Los datos facilitados no han sido verificados por un auditor externo ni revisados por un tercero independiente.

● ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil o la energía nuclear que cumplían con la taxonomía de la UE¹?

Sí:

En gas fósil En energía nuclear

No

La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permite ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

Para ajustarse a la taxonomía de la UE, los criterios correspondientes al **gas fósil** incluyen limitaciones de emisiones y el paso a la energía renovable o combustibles bajos en carbono de aquí al fin de 2035. Por lo que respecta a la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

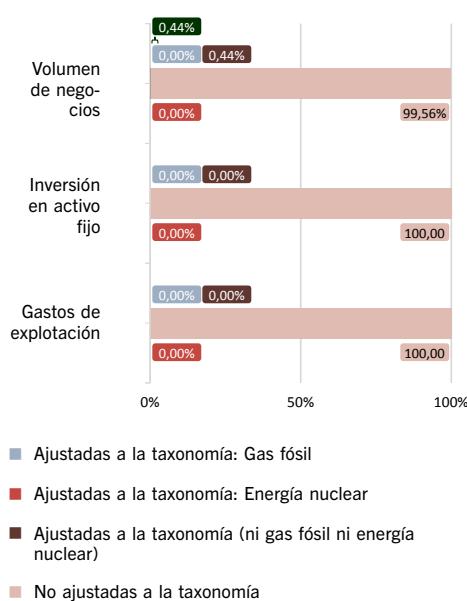

¹ Las actividades relacionadas con el gas fósil o la energía nuclear solo cumplirán la taxonomía de la UE cuando contribuyan a limitar el cambio climático («mitigación del cambio climático») y no perjudiquen significativamente ningún objetivo de la taxonomía de la UE (véase la nota explicativa en el margen izquierdo). Los criterios completos correspondientes a las actividades económicas del gas fósil y la energía nuclear que se ajustan a la taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

Las actividades que se ajustan a la taxonomía se expresan como un porcentaje de:

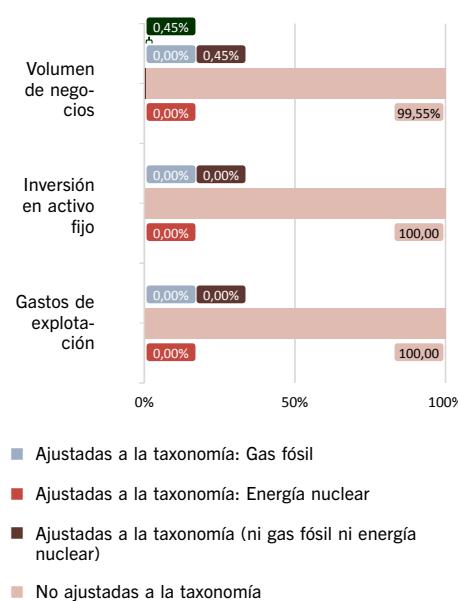

- el **volumen de negocios**, que refleja el «carácter ecológico» de las empresas en las que se invierte en la actualidad;
- la **inversión en activo fijo**, que muestra las inversiones ecológicas realizadas por las empresas en las que se invierte, pertinentes para la transición a una economía verde;
- los **gastos de explotación**, que reflejan las actividades operativas ecológicas de las empresas en las que se invierte.

Los gráficos que figuran a continuación muestran en verde el porcentaje de inversiones que se ajustaban a la taxonomía de la UE. Dado que no existe una metodología adecuada para determinar la adaptación a la taxonomía de los bonos soberanos*, el primer gráfico muestra la adaptación a la taxonomía correspondiente para todas las inversiones del producto financiero, incluidos los bonos soberanos, mientras que el segundo gráfico muestra la adaptación a la taxonomía solo en relación con las inversiones del producto financiero distintas de los bonos soberanos.

1. Ajuste a la taxonomía de las inversiones incluidos los bonos soberanos*

2. Ajuste a la taxonomía de las inversiones excluidos los bonos soberanos*

Este gráfico representa el 98,32% de las inversiones totales.

* A efectos de estos gráficos, los «bonos soberanos» incluyen todas las exposiciones soberanas

Nota:

Utilizamos los ingresos como medida clave para establecer la asignación de objetivos y el ajuste real con la taxonomía de la UE debido a la disponibilidad limitada y a la falta de datos fiables para los gastos de explotación y la inversión en activo fijo.

Fuente: Pictet Asset Management.

● ¿Cuál ha sido la proporción de las inversiones realizadas en actividades de transición y facilitadoras?

La proporción de inversiones realizadas en:

- Actividades de transición: No aplicable*
- Actividades de facilitadoras: No aplicable*

* La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permiten ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

● ¿Qué porcentaje de inversiones se han ajustado a la taxonomía de la UE en comparación con los períodos de referencia anteriores?

No aplicable.

¿Cuál ha sido la proporción de inversiones sostenibles con un objetivo medioambiental no ajustadas a la taxonomía de la UE?

3,48%

Estas inversiones sostenibles no se ajustan a la Taxonomía de la UE porque sus actividades económicas o bien (i) no están cubiertas por la Taxonomía de la UE, o bien (ii) no cumplen los criterios técnicos de selección para lograr una contribución sustancial en el sentido de la Taxonomía de la UE.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta

¿Cuál ha sido la proporción de inversiones socialmente sostenibles?

45,35%

¿Qué inversiones se han incluido en «otras» y cuál ha sido su propósito? ¿ha habido garantías medioambientales o sociales mínimas?

Las «otras» inversiones del fondo incluían posiciones de tesorería mantenidas principalmente para satisfacer los objetivos diarios de liquidez y gestión de riesgos permitidos y previstos por la política de inversión del fondo. Cuando sea preciso, se aplicarán salvaguardias medioambientales o sociales mínimas a los valores subyacentes.

¿Qué medidas se han adoptado para cumplir las características medioambientales o sociales durante el período de referencia?

Durante el periodo de referencia, se alcanzó el objetivo de inversión sostenible siguiendo la estrategia de inversión y respetando los elementos vinculantes.

Los elementos vinculantes del fondo son:

- Exclusión de emisores que:
 - están relacionados con armas nucleares de países que no han firmado el Tratado sobre la No Proliferación de Armas Nucleares (TNP) y otras armas controvertidas
 - obtienen una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, como la extracción de carbón térmico y la generación de electricidad, la exploración y producción no convencional de petróleo y gas, las armas convencionales y armas pequeñas, las armas de contratación militar, la producción de tabaco, la producción de entretenimiento para adultos y las actividades del juego. Para más detalles sobre los umbrales de exclusión aplicables a las actividades anteriores, consulte la Política de Inversión responsable de Pictet Asset Management.
 - incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción
- un perfil ASG mejor que el del índice de referencia
- análisis de criterios ASG de los valores admisibles que abarca al menos el 90% del patrimonio neto o el número de emisores incluidos en la cartera

Además, el fondo se implicó con 10 empresas a 30.09.2023.

¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

● ¿Cómo difería el índice de referencia de un índice general de mercado?

No aplicable.

- **¿Cómo se ha comportado este producto financiero con respecto a los indicadores de sostenibilidad para determinar la conformidad del índice de referencia con las características medioambientales o sociales que promueve?**
No aplicable.
- **¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?**
No aplicable.
- **¿Cómo se ha comportado este producto financiero en comparación con el índice general de mercado?**
No aplicable.

CARACTERÍSTICAS MEDIOAMBIENTALES O SOCIALES

Inversión sostenible significa una inversión en una actividad económica que contribuye a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo a ningún objetivo medioambiental o social y que las empresas en las que se invierte sigan prácticas de buena gobernanza.

La **taxonomía de la UE** es un sistema de clasificación previsto en el Reglamento (UE) 2020/852 por el que se establece una lista de **actividades económicas medioambientalmente sostenibles**. Dicho Reglamento no prevé una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental pueden ajustarse, o no, a la taxonomía.

| ¿ESTE PRODUCTO FINANCIERO TENÍA UN OBJETIVO DE INVERSIÓN SOSTENIBLE? | | | |
|--|---|--|--|
| ● ● <input type="checkbox"/> Si | | ● ● <input checked="" type="checkbox"/> No | |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo medioambiental: ____% | <input checked="" type="checkbox"/> | Promovió características medioambientales o sociales y, aunque no tenía como objetivo una inversión sostenible, tuvo un porcentaje del 34,56% de inversiones sostenibles |
| | <input type="checkbox"/> en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input type="checkbox"/> | con un objetivo medioambiental en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| | <input type="checkbox"/> en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> | con un objetivo medioambiental en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| | | <input checked="" type="checkbox"/> | con un objetivo social |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo social: ____% | <input type="checkbox"/> | Ha promovido características medioambientales o sociales, pero no ha realizado ninguna inversión sostenible |

Nota: Las inversiones sostenibles se calcularon sobre una base de aprobado/suspenso, incluyendo bonos con etiqueta (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% (medida por ingresos, EBIT, valor de empresa o indicadores similares) a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.

¿En qué grado se han cumplido las características medioambientales o sociales que promueve este producto financiero?

Las características medioambientales y sociales de este producto financiero se promovieron utilizando:

- Inclinación positiva:

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos y, como resultado, tuvo un perfil medioambiental, social y de gobernanza (ASG) mejor que el del índice de referencia. El índice MSCI EM se utilizó para medir la inclinación positiva; sin embargo, no se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

- Exclusiones basadas en normas y valores:

El fondo excluyó los emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente o que incumplen de forma grave las normas internacionales, según se detalla a continuación:

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

Actividad

Umbrales de ingresos

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

| | |
|---|------------------------------------|
| Combustibles fósiles y energía nuclear | |
| Extracción de carbón térmico | > 25% |
| Generación de energía térmica de carbón | > 25% |
| Extracción de arenas bituminosas | > 25% |
| Extracción de energía de esquisto | > 25% |
| Exploración de petróleo y gas en el Ártico | > 10% |
| Armas | |
| Producción de armas controvertidas ^[1] | > 0% |
| Armas de contratación militar | > 10% |
| Clientes civiles de armas pequeñas (armas de asalto) | > 10% |
| Clientes civiles de armas pequeñas (armas de no asalto) | > 10% |
| Clientes militares/de fuerzas del orden de armas pequeñas | > 25% |
| Componentes clave de armas pequeñas | > 25% |
| Otras actividades controvertidas | |
| Producción de entretenimiento para adultos | > 10% |
| Operaciones de juego | > 10% |
| Producción de productos de tabaco | > 10% |
| Exclusiones de empresas por incumplimiento de normas internacionales | Excluidas |
| Empresas que incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción | Sí |
| Exclusiones de países | Excluidas |
| Países (i) incluidos en la lista de Estados patrocinadores del terrorismo, según la definición de la Oficina de Control de Activos Extranjeros de EE. UU. ^[2] o (ii) sujetos a sanciones financieras de la UE contra bancos centrales y/o empresas de propiedad estatal. | Sí |
| Países (i) clasificados como de muy alto o alto riesgo en el Índice de Estados Frágiles o (ii) afectados por conflictos violentos según la definición del Banco Mundial. | Sí |
| Países (i) incluidos en la lista de «alerta» del Índice de Estados Frágiles o (ii) sujetos a sanciones relacionadas con la exportación por parte de la UE. | Lista de vigilancia ^[3] |

^[1] Entre las armas controvertidas se encuentran las minas antipersona, las municiones de racimo, las armas biológicas y químicas (incluido el fósforo blanco) y las armas nucleares procedentes de países no firmantes del Tratado de No Proliferación de Armas Nucleares (TNP).

^[2] «Estado patrocinador del terrorismo» es una designación aplicada por el Departamento de Estado de Estados Unidos a países que repetidamente han prestado apoyo a actos de terrorismo internacional.

^[3] Además de las exclusiones estrictas, Pictet Asset Management mantiene una lista de vigilancia que incluye países que requieren una diligencia debida adicional por parte de los equipos de inversión antes de invertir.

Para más detalles, consulte la Política de Inversión responsable de Pictet Asset Management (Anexo B).

- Titularidad activa:

El fondo ejerció de forma metódica sus derechos de voto y se implicó con la dirección de las empresas sobre cuestiones ASG importantes.

● ¿Cómo se han comportado los indicadores de sostenibilidad?

Durante el periodo de información, los indicadores de sostenibilidad se comportaron según se indica a continuación:

- Perfil ASG global

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos.

Como resultado, el fondo ha conseguido un perfil ambiental, social y de gobernanza (ASG) mejor que el del índice de referencia.

● **Principal incidencia adversa (PIA)**

El fondo utiliza una combinación de enfoques para considerar y, en la medida de lo posible, mitigar las incidencias adversas materiales de nuestras inversiones en la sociedad y el medioambiente, como emisiones de GEI, contaminación atmosférica, pérdida de biodiversidad, emisiones al agua, residuos peligrosos/radioactivos, derechos humanos, normas laborales, corrupción y soborno, y salud pública.

El grado y la forma en que estas incidencias se tuvieron en cuenta dependieron de factores como el contexto específico de la inversión que provoca la incidencia adversa o la disponibilidad de datos fiables.

De conformidad con la política de exclusión de Pictet Asset Management descrita en la Política de Inversión responsable de la empresa (véase el cuadro anterior para consultar las actividades excluidas y los umbrales de exclusión aplicados), el fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente:

Actividades controvertidas (media ponderada de ingresos de la empresa, en %)*:

| | Fondo (%) | Índice de referencia (%) |
|--|-----------|--------------------------|
| Combustibles fósiles y energía nuclear | 1,53 | 0,00 |
| Armas | 0,01 | 0,00 |
| Otras actividades controvertidas | 0,03 | 0,00 |
| No aplicable: | 1,85 | 0,00 |
| No cubierto: | 1,62 | 0,00 |

* Los combustibles fósiles y la energía nuclear incluyen la extracción de carbón térmico y la generación de electricidad, la producción y extracción de petróleo y gas, la extracción de energía de esquisto, la exploración de petróleo y gas en los mares del Ártico y la generación de energía nuclear. Las armas incluyen la contratación militar (servicios de armas y relacionadas con estas), clientes civiles de armas pequeñas (armas de asalto/no asalto), clientes militares/de las fuerzas y cuerpos de seguridad de armas pequeñas y componentes clave de pequeñas armas. Otras actividades controvertidas incluyen la producción de tabaco, la producción de entretenimiento para adultos, la explotación de juegos de azar, el desarrollo o crecimiento de organismos modificados genéticamente, la producción o venta al por menor de pesticidas. La exposición se basa en datos de terceros y puede no reflejar nuestro punto de vista interno. Pictet Asset Management tiene plena discreción sobre la aplicación de los criterios de exclusión y se reserva el derecho de apartarse de la información de terceros, según el caso, cuando se considere incorrecta o incompleta.

Fuente: Pictet Asset Management, Sustainalytics.

Además, el fondo excluyó a los emisores que tenían exposición a:

(i) PIA 10: Incumplimientos de los principios del Pacto Mundial de las Naciones Unidas y las Directrices para Empresas Multinacionales de la Organización para la Cooperación y el Desarrollo Económicos (OCDE).

(ii) PIA 14: Exposición a armas controvertidas (minas antipersonas, municiones en racimo, armas químicas y armas biológicas)

● **Derechos de voto**

Durante el periodo de referencia, el fondo votó en 78 juntas generales de 80 juntas en las que se podía votar (97,50%). Votamos «en contra» (incluidas «abstenciones» o «retenciones») en al menos una resolución en el 42,50% de las juntas.

De las 658 resoluciones de la dirección, votamos en contra de la dirección en 73 puntos (11,09%) y nos abstuvimos en 4 puntos (0,61%).

Apoyamos 3 (100,00%) resoluciones de accionistas de un total de 3 propuestas.

Por lo que respecta a las cuestiones medioambientales y/o sociales, votamos a favor de 0 de las 0 resoluciones de la dirección y a favor de 0 de las 0 resoluciones de accionistas.

Fuente: Pictet Asset Management, ISS ESG.

● Interacción

El fondo se implicó con 22 empresas sobre cuestiones ASG (datos a 30.09.2023). Esto incluye diálogos internos, iniciativas de colaboración entre inversores y servicios de implicación de terceros. Para que se considere implicación, el diálogo con una empresa objetivo debe tener un objetivo claro y mensurable en un horizonte temporal predefinido. Es importante señalar que no todas las interacciones rutinarias o de supervisión, aunque impliquen a la alta dirección o al Consejo de administración, se consideran implicaciones en nuestra evaluación.

Fuente: Pictet Asset Management, Sustainalytics.

● ¿... y en comparación con períodos anteriores?

Esta cuestión se abordará en futuros informes anuales debido a la falta de historial.

● ¿Cuáles han sido los objetivos de las inversiones sostenibles que ha realizado en parte el producto financiero y de qué forma ha contribuido la inversión sostenible a dichos objetivos?

El fondo no se comprometió a un porcentaje mínimo de inversiones sostenibles.

Sin embargo, *a posteriori*, el fondo invirtió en valores que financiaban actividades económicas que contribuyeron sustancialmente a objetivos medioambientales y/o sociales como:

Medioambientales

- mitigación del cambio climático o adaptación al mismo
- suso sostenible y protección de los recursos hídricos y marinos
- transición hacia una economía circular
- prevención y control de la contaminación o
- protección y recuperación de la biodiversidad y los ecosistemas

Sociales

- comunidades inclusivas y sostenibles
- nivel de vida adecuado y bienestar para los usuarios finales o
- trabajo digno

Pictet Asset Management utilizó un marco de referencia propio, así como los objetivos de la Taxonomía de la UE, para definir las inversiones sostenibles.

● ¿De qué manera las inversiones sostenibles que el producto financiero ha realizado en parte, no han causado un perjuicio significativo a ningún objetivo de inversión sostenible medioambiental o social?

Para evitar que las inversiones sostenibles causen un perjuicio significativo a cualquier otro objetivo medioambiental o social, el fondo aplicó los siguientes criterios de selección sobre la base del mejor esfuerzo:

- (i) Exclusiones de emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente (véase la descripción del marco de exclusión de IR).
- (ii) Los emisores asociados a controversias elevadas y graves no se contabilizaron como inversiones sostenibles.

La información se obtuvo de proveedores terceros y/o de análisis interno. La información ASG de terceros proveedores de datos puede haber sido incompleta, inexacta o no estar disponible. Como consecuencia de ello, existía el riesgo de que el Gestor de inversiones evaluara incorrectamente un valor o emisor, dando lugar a la inclusión o exclusión incorrecta de un valor en el fondo. Los datos ASG incompletos, inexactos o no disponibles también pueden actuar como una limitación metodológica a una estrategia de inversión no financiera (como la aplicación de criterios ASG o similares). En los casos identificados, el Gestor de inversiones trató de mitigar este riesgo mediante su propia evaluación. En caso de que las características ASG de un valor mantenido por el fondo cambiaran, dando lugar a la venta del valor, el Gestor de inversiones no acepta responsabilidad alguna en relación con dicho cambio.

● ¿Cómo se han tenido en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?

Pictet Asset Management realiza un seguimiento de todos los indicadores obligatorios de principales incidencias adversas (incluidos en el Anexo 1 del Reglamento Delegado (UE) 22 / 1288 de la Comisión) cuando disponemos de datos sólidos. Se espera que la calidad de los datos disponibles mejore con el tiempo.

Las principales incidencias adversas son las incidencias negativas más importantes de las decisiones de inversión sobre los factores de sostenibilidad en relación con asuntos

medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas de sus inversiones en la sociedad y el medioambiente que se consideran importantes para la estrategia de inversión, mediante un conjunto de decisiones de gestión de cartera, actividades de propiedad activa y exclusión de emisores asociados a conductas o actividades controvertidas. Más información en el informe de PIA de la entidad, disponible en:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=es&bl=PAM>

- *¿Se han ajustado las inversiones sostenibles a las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios rectores de las Naciones Unidas sobre las empresas y los derechos humanos?*

Para garantizar que la inversión sostenible no causara un perjuicio significativo a ningún objetivo de inversión sostenible, el fondo excluyó a las empresas con infracciones elevadas y graves de (i) los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción o (ii) las Líneas Directrices de la OCDE para Empresas Multinacionales, incluidos los asuntos sociales y laborales graves.

La taxonomía de la UE establece el principio de «no causar un perjuicio significativo», según el cual las inversiones que se ajusten a la taxonomía no deben perjudicar significativamente a los objetivos de la taxonomía de la UE, e incluye criterios específicos de la Unión.

El principio de «no perjudicar de forma significativa» se aplica únicamente a las inversiones subyacentes del producto financiero que contemplan los criterios de la UE relativos a actividades económicas sostenibles desde una perspectiva medioambiental. Las inversiones subyacentes al resto del producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas medioambientalmente sostenibles.

Cualquier otra inversión sostenible tampoco debe perjudicar significativamente a ningún objetivo medioambiental o social.

¿Cómo tiene en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas que se consideran importantes para la estrategia de inversión. Entre las incidencias adversas se incluyeron, entre otras, las emisiones de gases de efecto invernadero (GEI), la contaminación atmosférica, la pérdida de biodiversidad, las emisiones al agua, los residuos peligrosos/radioactivos, las cuestiones sociales y laborales, y la corrupción y el soborno, que se abordaron mediante una combinación de:

(i) decisiones de gestión de carteras

El equipo de inversión puntuó las posiciones según una evaluación de los riesgos medioambientales, sociales y de gobernanza como parte del marco de puntuación del fondo. Los gestores de inversiones determinan las puntuaciones sobre una base cualitativa, basándose en el análisis fundamental y en datos cuantitativos ASG, incluidos los datos sobre la Principal incidencia adversa, los datos ASG facilitados por las empresas y los datos proporcionados por terceros proveedores de datos ASG. El proceso de puntuación del equipo de inversión fue un componente clave del proceso de construcción de la cartera del compartimento, determinando las ponderaciones objetivo en la cartera.

(ii) voto por delegación

El fondo se atuvo a las directrices de voto de Pictet Asset Management, que están diseñadas para apoyar una cultura de gobierno corporativo sólida, una gestión eficaz de las cuestiones medioambientales y sociales, y la publicación de información exhaustiva de acuerdo con normas creíbles. Dichas directrices también pretenden apoyar a los órganos de gobierno mundiales reconocidos que promueven prácticas empresariales sostenibles que abogan por la gestión del medio ambiente, las prácticas laborales justas, la no discriminación y la protección de los derechos humanos. Todas las actividades de voto del fondo se registraron y pueden compartirse previa solicitud.

(iii) implicación

La interacción con los emisores se realizó mediante conversaciones individuales, reuniones de accionistas/bonistas, giras de inversores y/o conferencias telefónicas. Los objetivos de estas interacciones fueron evaluar una organización, supervisar que su estrategia se estaba aplicando conforme a nuestras expectativas y garantizar que los emisores iban camino de cumplir sus metas y objetivos.

Cuando corresponde, nos implicamos con las empresas en relación con cuestiones ASG importantes, como los objetivos de reducción de los GEI, las mejoras en la gobernanza y diversas controversias medioambientales, sociales y de gobernanza, para asegurarnos de que las entendieran y las abordaran

eficazmente a corto, medio y largo plazo. Nuestras actividades de implicación combinaron debates dirigidos a nivel interno, iniciativas de colaboración con inversores institucionales y servicios de implicación externos.

(iv) exclusión de emisores asociados a conductas o actividades controvertidas

El fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se definen en la Política de Inversión responsable de la Pictet Asset Management y/o (ii) empresas que infringieron gravemente los principios del Pacto Mundial de la ONU sobre derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción y las armas controvertidas.

¿Cuáles han sido las inversiones principales de este producto financiero?

La lista incluye las inversiones que constituyen la mayor parte de las inversiones del producto financiero durante el período de referencia, que es: 01.10.2022 - 30.09.2023

| INVERSIONES DE MAYOR VOLUMEN | SECTOR | % DE ACTIVOS | PAÍS |
|------------------------------|------------------------------|--------------|------------------------|
| TAIWAN SEMICONDUCTOR MANUFAC | Tecnología de la información | 8,4 | Taiwán |
| TENCENT HOLDINGS LTD | Servicios de comunicación | 5,7 | China |
| ALIBABA GROUP HOLDING LTD | Consumo discrecional | 4,1 | China |
| SAMSUNG ELECTRONICS CO LTD | Tecnología de la información | 3,3 | Corea (Rep.) |
| HDFC BANK LIMITED | Financiero | 2,8 | India |
| MEITUAN-CLASS B | Consumo discrecional | 2,3 | China |
| BANK RAKYAT INDONESIA PERSER | Financiero | 2,2 | Indonesia |

| LG CHEM LTD | Materiales | 2,1 | Corea (Rep.) |
| SAMSUNG ELECTRONICS-PREF | Tecnología de la información | 2,1 | Corea (Rep.) |
| SK HYNIX INC | Tecnología de la información | 2,1 | Corea (Rep.) |
| TRIP.COM GROUP LTD | Consumo discrecional | 1,8 | China |

Fuente: Pictet Asset Management, GICS/MSCI.

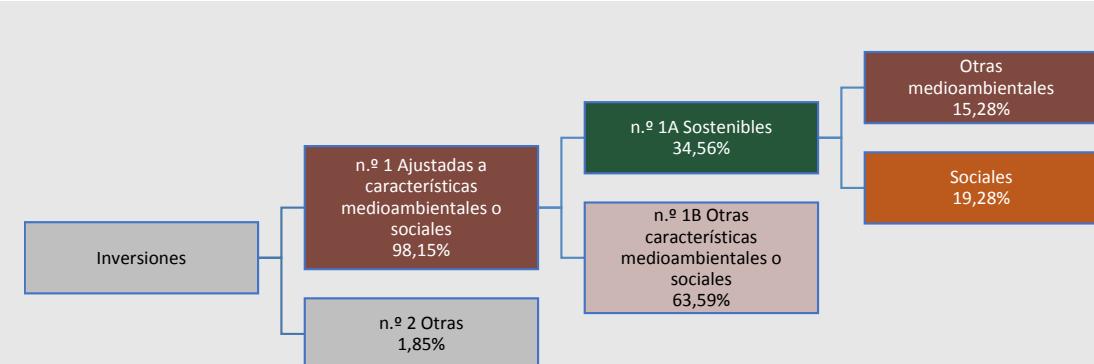

¿Cuál ha sido la proporción de inversiones relacionadas con la sostenibilidad?

34,56%

La asignación de activos describe el porcentaje de inversiones en activos específicos.

¿Cuál ha sido la asignación de activos?

El fondo se ajustó en un 98,15% con características medioambientales o sociales (n.º 1 Ajustadas a características medioambientales o sociales) y tuvo hasta un 1,85% invertido en la categoría Otras (n.º 2 Otras). El 34,56% se asignó a inversiones sostenibles (n.º 1A Sostenibles) y el resto se invirtió en inversiones ajustadas a otras características medioambientales o sociales (n.º 1B Otras características medioambientales o sociales).

n.º 1 Ajustadas a características medioambientales o sociales incluye las inversiones del producto financiero utilizadas para lograr las características medioambientales o sociales que promueve el producto financiero.

n.º 2 Otras incluye el resto de inversiones del producto financiero que ni se ajustan a las características medioambientales o sociales ni pueden considerarse inversiones sostenibles.

La categoría **n.º 1 Ajustadas a características medioambientales o sociales** abarca:

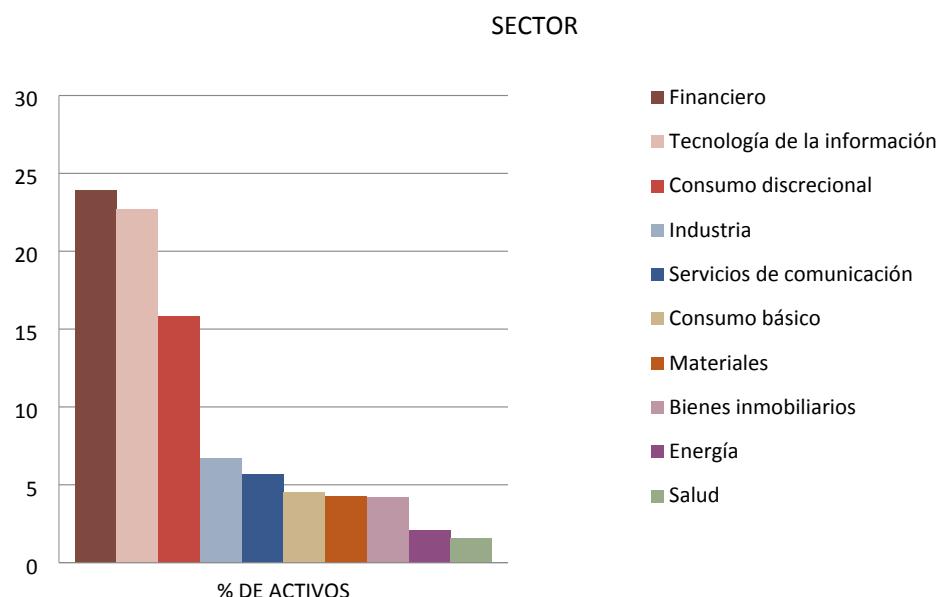

- la subcategoría **n.º 1A Sostenibles**, que abarca las inversiones sostenibles con objetivos medioambientales o sociales.
- la subcategoría **n.º 1B Otras características medioambientales o sociales**, que abarca inversiones ajustadas a las características medioambientales o sociales que no pueden considerarse inversiones sostenibles.

Notas:

- Las inversiones «n.º 1A Sostenibles», «Otras medioambientales» y «Sociales» se calcularon sobre una base de aprobado/suspenso. Incluyen bonos certificados (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.
- A falta de una taxonomía social de la UE, Pictet ha desarrollado un marco de taxonomía social propio. El marco se basa en basado en el Informe sobre taxonomía social publicado por la Plataforma de Finanzas Sostenibles de la UE en 2022. Las actividades admisibles se definen como bienes y servicios beneficiosos desde el punto de vista social que contribuyen sustancialmente a uno de los tres objetivos sociales siguientes: (1) comunidades inclusivas y sostenibles, (2) nivel de vida adecuado y bienestar para los usuarios finales y (3) trabajo digno.

Fuente: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RBICS.

● ¿En qué sectores económicos se han realizado las inversiones?

Fuente: Pictet Asset Management, GICS/MSCI.

Estamos evaluando la disponibilidad y la calidad de los datos que nos permitirían divulgar información más granular en futuros informes sobre los sectores y subsectores de la economía que obtienen ingresos a partir de la exploración, la minería, la extracción, la producción, el

procesamiento, el almacenamiento, el refinado o la distribución, incluidos el transporte, el almacenamiento y el comercio, de combustibles fósiles, según se definen en el artículo 2, punto (62), del Reglamento (UE) 2018/1999 del Parlamento Europeo y del Consejo.

¿En qué medida se ajustaban las inversiones sostenibles con un objetivo medioambiental a la taxonomía de la UE?

No aplicable.

● ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil o la energía nuclear que cumplían con la taxonomía de la UE¹?

Sí:

En gas fósil En energía nuclear

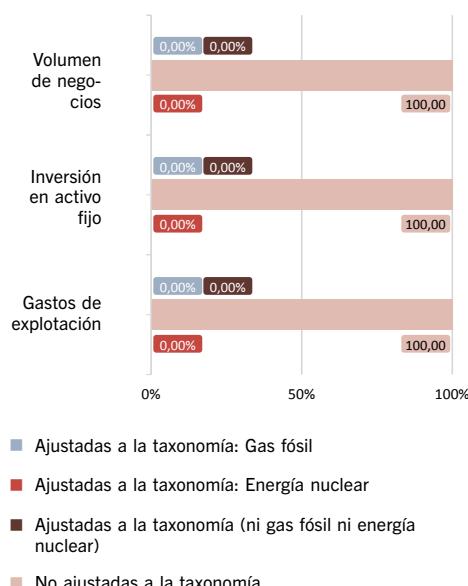

No

Para ajustarse a la taxonomía de la UE, los criterios correspondientes al **gas fósil** incluyen limitaciones de emisiones y el paso a la energía renovable o combustibles bajos en carbono de aquí al fin de 2035. Por lo que respecta a la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

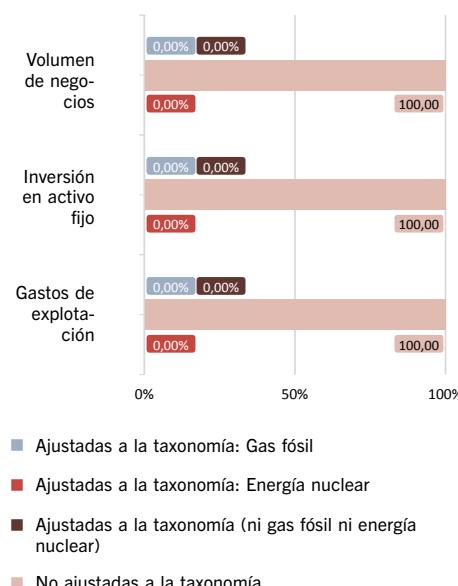

Las actividades que se ajustan a la taxonomía se expresan como un porcentaje de:
- el **volumen de negocios**, que refleja el «carácter ecológico» de las empresas en las que se invierte en la actualidad;
- la **inversión en activo fijo**, que muestra las inversiones ecológicas realizadas por las empresas en las que se invierte, pertinentes para la transición a una economía verde;
- los **gastos de explotación**, que reflejan las actividades operativas ecológicas de las empresas en las que se invierte.

Los gráficos que figuran a continuación muestran en verde el porcentaje de inversiones que se ajustaban a la taxonomía de la UE. Dado que no existe una metodología adecuada para determinar la adaptación a la taxonomía de los bonos soberanos*, el primer gráfico muestra la adaptación a la taxonomía correspondiente para todas las inversiones del producto financiero, incluidos los bonos soberanos, mientras que el segundo gráfico muestra la adaptación a la taxonomía solo en relación con las inversiones del producto financiero distintas de los bonos soberanos.

1. Ajuste a la taxonomía de las inversiones incluidos los bonos soberanos*

2. Ajuste a la taxonomía de las inversiones excluidos los bonos soberanos*

Este gráfico representa el 98,15% de las inversiones totales.

* A efectos de estos gráficos, los «bonos soberanos» incluyen todas las exposiciones soberanas

● ¿Cuál ha sido la proporción de las inversiones realizadas en actividades de transición y facilitadoras?

No aplicable.

¹ Las actividades relacionadas con el gas fósil o la energía nuclear solo cumplirán la taxonomía de la UE cuando contribuyan a limitar el cambio climático («mitigación del cambio climático») y no perjudiquen significativamente ningún objetivo de la taxonomía de la UE (véase la nota explicativa en el margen izquierdo). Los criterios completos correspondientes a las actividades económicas del gas fósil y la energía nuclear que se ajustan a la taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

- **¿Qué porcentaje de inversiones se han ajustado a la taxonomía de la UE en comparación con los períodos de referencia anteriores?**

No aplicable.

¿Cuál ha sido la proporción de inversiones sostenibles con un objetivo medioambiental no ajustadas a la taxonomía de la UE?

15,28%

Estas inversiones sostenibles no se ajustan a la Taxonomía de la UE porque sus actividades económicas o bien (i) no están cubiertas por la Taxonomía de la UE, o bien (ii) no cumplen los criterios técnicos de selección para lograr una contribución sustancial en el sentido de la Taxonomía de la UE.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta los criterios para las actividades económicas medioambientalmente sostenibles con arreglo al Reglamento (UE) 2020/852.

¿Cuál ha sido la proporción de inversiones socialmente sostenibles?

19,28%

¿Qué inversiones se han incluido en «otras» y cuál ha sido su propósito? ¿ha habido garantías medioambientales o sociales mínimas?

Las «otras» inversiones del fondo incluían posiciones de tesorería mantenidas principalmente para satisfacer los objetivos diarios de liquidez y gestión de riesgos permitidos y previstos por la política de inversión del fondo. Cuando sea preciso, se aplicarán salvaguardias medioambientales o sociales mínimas a los valores subyacentes.

¿Qué medidas se han adoptado para cumplir las características medioambientales o sociales durante el período de referencia?

Durante el periodo de referencia, se alcanzó el objetivo de inversión sostenible siguiendo la estrategia de inversión y respetando los elementos vinculantes.

Los elementos vinculantes del fondo son:

- Exclusión de emisores que:
 - están relacionados con armas nucleares de países que no han firmado el Tratado sobre la No Proliferación de Armas Nucleares (TNP) y otras armas controvertidas
 - obtienen una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, como la extracción de carbón térmico y la generación de electricidad, la exploración y producción no convencional de petróleo y gas, las armas convencionales y armas pequeñas, las armas de contratación militar, la producción de tabaco, la producción de entretenimiento para adultos y las actividades del juego. Para más detalles sobre los umbrales de exclusión aplicables a las actividades anteriores, consulte la Política de Inversión responsable de Pictet Asset Management.
 - incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción
- un perfil ASG mejor que el del índice de referencia
- análisis de criterios ASG de los valores admisibles que abarca al menos el 90% del patrimonio neto o el número de emisores incluidos en la cartera

Además, el fondo se implicó con 22 empresas a 30.09.2023.

¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

Los índices de referencia son índices para medir si el producto financiero logra las características medioambientales o sociales que promueve.

● ¿Cómo difería el índice de referencia de un índice general de mercado?

No aplicable.

● ¿Cómo se ha comportado este producto financiero con respecto a los indicadores de sostenibilidad para determinar la conformidad del índice de referencia con las características medioambientales o sociales que promueve?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice general de mercado?

No aplicable.

CARACTERÍSTICAS MEDIOAMBIENTALES O SOCIALES

Inversión sostenible
significa una inversión en una actividad económica que contribuye a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo a ningún objetivo medioambiental o social y que las empresas en las que se invierte sigan prácticas de buena gobernanza.

La **taxonomía de la UE** es un sistema de clasificación previsto en el Reglamento (UE) 2020/852 por el que se establece una lista de **actividades económicas medioambientalmente sostenibles**. Dicho Reglamento no prevé una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental pueden ajustarse, o no, a la taxonomía.

| ¿ESTE PRODUCTO FINANCIERO TENÍA UN OBJETIVO DE INVERSIÓN SOSTENIBLE? | | | |
|--|--|--|--|
| ● ● <input type="checkbox"/> Si | | ● ● <input checked="" type="checkbox"/> No | |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo medioambiental: ____% | <input checked="" type="checkbox"/> | Promovió características medioambientales o sociales y, aunque no tenía como objetivo una inversión sostenible, tuvo un porcentaje del 41,49% de inversiones sostenibles |
| <input type="checkbox"/> | en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> | con un objetivo medioambiental en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> | en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> | con un objetivo medioambiental en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo social: ____% | <input type="checkbox"/> | con un objetivo social |
| <input type="checkbox"/> | | <input type="checkbox"/> | Ha promovido características medioambientales o sociales, pero no ha realizado ninguna inversión sostenible |

Nota: Las inversiones sostenibles se calcularon sobre una base de aprobado/suspenso, incluyendo bonos con etiqueta (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% (medida por ingresos, EBIT, valor de empresa o indicadores similares) a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.

¿En qué grado se han cumplido las características medioambientales o sociales que promueve este producto financiero?

Las características medioambientales y sociales de este producto financiero se promovieron utilizando:

- Best-in-class:

El fondo invirtió en valores de emisores con riesgos de sostenibilidad bajos, a la vez que evitó aquellos con riesgos de sostenibilidad altos, reduciendo el universo de inversión en al menos un 20%. El índice MSCI Europe se utilizó para medir la reducción del universo; sin embargo, no se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

- Intensidad de carbono:

El fondo ha pretendido tener una intensidad de carbono inferior a la del universo de inversión.

- Exclusiones basadas en normas y valores:

El fondo excluyó los emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente o que incumplen de forma grave las normas internacionales, según se detalla a continuación:

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

| Actividad | Umbrales de ingresos |
|---|----------------------|
| Combustibles fósiles y energía nuclear | |
| Extracción de carbón térmico | > 25% |
| Generación de energía térmica de carbón | > 25% |
| Producción de petróleo y gas | > 25% |
| Extracción de arenas bituminosas | > 10% |
| Extracción de energía de esquisto | > 10% |
| Exploración de petróleo y gas en el Ártico | > 10% |
| Generación de energía nuclear | > 50% |
| Armas | |
| Producción de armas controvertidas[1] | > 0% |
| Armas de contratación militar | > 10% |
| Productos y/o servicios relacionados con armas de contratación militar | > 50% |
| Clientes civiles de armas pequeñas (armas de asalto) | > 10% |
| Clientes civiles de armas pequeñas (armas de no asalto) | > 10% |
| Clientes militares/de fuerzas del orden de armas pequeñas | > 25% |
| Componentes clave de armas pequeñas | > 25% |
| Otras actividades controvertidas | |
| Producción de entretenimiento para adultos | > 10% |
| Operaciones de juego | > 10% |
| Desarrollo de plantas y semillas modificadas genéticamente | > 25% |
| Cultivo de plantas y semillas modificadas genéticamente | > 25% |
| Producción de plaguicidas | > 10% |
| Venta al por menor de plaguicidas | > 10% |
| Producción de productos de tabaco | > 10% |
| Exclusiones de empresas por incumplimiento de normas internacionales | Excluidas |
| Empresas que incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción | Sí |
| Exclusiones de países | Excluidas |
| Países (i) incluidos en la lista de Estados patrocinadores del terrorismo, según la definición de la Oficina de Control de Activos Extranjeros de EE. UU.[2] o (ii) sujetos a sanciones financieras de la UE contra bancos centrales y/o empresas de propiedad estatal. | Sí |
| Países (i) clasificados como de muy alto o alto riesgo en el Índice de Estados Frágiles o (ii) afectados por conflictos violentos según la definición del Banco Mundial. | Sí |

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

Países (i) incluidos en la lista de «alerta» del Índice de Estados Frágiles o (ii) sujetos a sanciones relacionadas con la exportación por parte de la UE. Lista de vigilancia[3]

[1] Entre las armas controvertidas se encuentran las minas antipersona, las municiones de racimo, las armas biológicas y químicas (incluido el fósforo blanco) y las armas nucleares procedentes de países no firmantes del Tratado de No Proliferación de Armas Nucleares (TNP).

[2] «Estado patrocinador del terrorismo» es una designación aplicada por el Departamento de Estado de Estados Unidos a países que repetidamente han prestado apoyo a actos de terrorismo internacional.

[3] Además de las exclusiones estrictas, Pictet Asset Management mantiene una lista de vigilancia que incluye países que requieren una diligencia debida adicional por parte de los equipos de inversión antes de invertir.

Para más detalles, consulte la Política de Inversión responsable de Pictet Asset Management (Anexo B).

- Titularidad activa:

El fondo ejerció de forma metódica sus derechos de voto y se implicó con la dirección de las empresas sobre cuestiones ASG importantes.

● ¿Cómo se han comportado los indicadores de sostenibilidad?

Durante el periodo de información, los indicadores de sostenibilidad se comportaron según se indica a continuación:

- Exposición a empresas que obtienen una parte significativa de sus ingresos, EBIT, valor de empresa o parámetros similares de actividades económicas que contribuyen a los objetivos medioambientales o sociales, y bonos con etiqueta cuando sea relevante para la clase de activos (inversiones sostenibles):

41,49%

En el informe del próximo año se facilitará información adicional sobre objetivos medioambientales y/o sociales específicos.

- Reducción del universo de inversión por factores ASG

El fondo reduce su universo de inversión eliminando al menos el 20% de los emisores con los mayores riesgos de sostenibilidad.

Los riesgos de sostenibilidad son acontecimientos o condiciones de riesgo ASG que podrían tener una incidencia negativa importante en el valor de las inversiones si se produjeran. Los riesgos de sostenibilidad incluían, entre otros, los siguientes: riesgo de transición climática, riesgo físico climático, riesgo medioambiental, riesgo social y riesgo de gobernanza. Se realizan revisiones periódicas y controles de riesgo para supervisar la aplicación.

Las principales incidencias adversas («PIA») son efectos negativos, materiales o posiblemente materiales, sobre factores de sostenibilidad causados, agravados o directamente vinculados con las decisiones y el asesoramiento. Entre las principales incidencias adversas se incluyen, entre otras, las emisiones de gases de efecto invernadero (GEI), la contaminación atmosférica, la pérdida de biodiversidad, las emisiones al agua, los residuos peligrosos/radioactivos, las cuestiones sociales y laborales, y la corrupción y el soborno.

- Principal incidencia adversa (PIA)

El fondo utiliza una combinación de enfoques para considerar y, en la medida de lo posible, mitigar las incidencias adversas materiales de nuestras inversiones en la sociedad y el medioambiente, como emisiones de GEI, contaminación atmosférica, pérdida de biodiversidad, emisiones al agua, residuos peligrosos/radioactivos, derechos humanos, normas laborales, corrupción y soborno, y salud pública.

El grado y la forma en que estas incidencias se tuvieron en cuenta dependieron de factores como el contexto específico de la inversión que provoca la incidencia adversa o la disponibilidad de datos fiables.

Los indicadores de sostenibilidad miden cómo se alcanzan las características medioambientales o sociales que promueve el producto financiero.

De conformidad con la política de exclusión de Pictet Asset Management descrita en la Política de Inversión responsable de la empresa (véase el cuadro anterior para consultar las actividades excluidas y los umbrales de exclusión aplicados), el fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente:

Actividades controvertidas (media ponderada de ingresos de la empresa, en %)*:

| | Fondo (%) | Índice de referencia (%) |
|--|-----------|--------------------------|
| Combustibles fósiles y energía nuclear | 0,00 | 4,60 |
| Armas | 0,02 | 0,98 |
| Otras actividades controvertidas | 0,01 | 1,89 |
| No aplicable: | 0,34 | 0,00 |
| No cubierto: | 0,00 | 0,03 |

* Los combustibles fósiles y la energía nuclear incluyen la extracción de carbón térmico y la generación de electricidad, la producción y extracción de petróleo y gas, la extracción de energía de esquisto, la exploración de petróleo y gas en los mares del Ártico y la generación de energía nuclear. Las armas incluyen la contratación militar (servicios de armas y relacionadas con estas), clientes civiles de armas pequeñas (armas de asalto/no asalto), clientes militares/de las fuerzas y cuerpos de seguridad de armas pequeñas y componentes clave de pequeñas armas. Otras actividades controvertidas incluyen la producción de tabaco, la producción de entretenimiento para adultos, la explotación de juegos de azar, el desarrollo o crecimiento de organismos modificados genéticamente, la producción o venta al por menor de pesticidas. La exposición se basa en datos de terceros y puede no reflejar nuestro punto de vista interno. Pictet Asset Management tiene plena discreción sobre la aplicación de los criterios de exclusión y se reserva el derecho de apartarse de la información de terceros, según el caso, cuando se considere incorrecta o incompleta.

Fuente: Pictet Asset Management, Sustainalytics.

Además, el fondo excluyó a los emisores que tenían exposición a:

- (i) PIA 10: Incumplimientos de los principios del Pacto Mundial de las Naciones Unidas y las Directrices para Empresas Multinacionales de la Organización para la Cooperación y el Desarrollo Económicos (OCDE).
- (ii) PIA 14: Exposición a armas controvertidas (minas antipersonas, municiones en racimo, armas químicas y armas biológicas)

● Derechos de voto

Durante el periodo de referencia, el fondo votó en 60 juntas generales de 61 juntas en las que se podía votar (98,36%). Votamos «en contra» (incluidas «abstenciones» o «retenciones») en al menos una resolución en el 36,07% de las juntas.

De las 1.203 resoluciones de la dirección, votamos en contra de la dirección en 42 puntos (3,49%) y nos abstuvimos en 6 puntos (0,50%).

Apoyamos 5 (35,71%) resoluciones de accionistas de un total de 14 propuestas.

Por lo que respecta a las cuestiones medioambientales y/o sociales, votamos a favor de 18 de las 18 resoluciones de la dirección y a favor de 1 de las 6 resoluciones de accionistas.

Fuente: Pictet Asset Management, ISS ESG.

● Interacción

El fondo se implicó con 19 empresas sobre cuestiones ASG (datos a 30.09.2023). Esto incluye diálogos internos, iniciativas de colaboración entre inversores y servicios de implicación de terceros. Para que se considere implicación, el diálogo con una empresa objetivo debe tener un objetivo claro y mensurable en un horizonte temporal predefinido. Es importante señalar que no todas las interacciones rutinarias o de supervisión, aunque impliquen a la alta dirección o al Consejo de administración, se consideran implicaciones en nuestra evaluación.

Fuente: Pictet Asset Management, Sustainalytics.

● ¿... y en comparación con períodos anteriores?

Esta cuestión se abordará en futuros informes anuales debido a la falta de historial.

● **¿Cuáles han sido los objetivos de las inversiones sostenibles que ha realizado en parte el producto financiero y de qué forma ha contribuido la inversión sostenible a dichos objetivos?**

Pictet Asset Management utilizó marcos de referencia propios, así como los objetivos de la Taxonomía de la UE, para definir las inversiones sostenibles.

El fondo invirtió en valores que financiaban actividades económicas que contribuyeron sustancialmente a objetivos medioambientales y/o sociales como:

Medioambientales

- mitigación del cambio climático o adaptación al mismo
- uso sostenible y protección de los recursos hídricos y marinos
- transición hacia una economía circular
- prevención y control de la contaminación o
- protección y recuperación de la biodiversidad y los ecosistemas

Sociales

- comunidades inclusivas y sostenibles
- nivel de vida adecuado y bienestar para los usuarios finales o
- trabajo digno

● **¿De qué manera las inversiones sostenibles que el producto financiero ha realizado en parte, no han causado un perjuicio significativo a ningún objetivo de inversión sostenible medioambiental o social?**

Para evitar que las inversiones sostenibles causen un perjuicio significativo a cualquier otro objetivo medioambiental o social, el fondo aplicó los siguientes criterios de selección sobre la base del mejor esfuerzo:

(i) Exclusiones de emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente (véase la descripción del marco de exclusión de IR).

(ii) Los emisores asociados a controversias elevadas y graves no se contabilizaron como inversiones sostenibles.

La información se obtuvo de proveedores terceros y/o de análisis interno. La información ASG de terceros proveedores de datos puede haber sido incompleta, inexacta o no estar disponible. Como consecuencia de ello, existía el riesgo de que el Gestor de inversiones evaluara incorrectamente un valor o emisor, dando lugar a la inclusión o exclusión incorrecta de un valor en el fondo. Los datos ASG incompletos, inexactos o no disponibles también pueden actuar como una limitación metodológica a una estrategia de inversión no financiera (como la aplicación de criterios ASG o similares). En los casos identificados, el Gestor de inversiones trató de mitigar este riesgo mediante su propia evaluación. En caso de que las características ASG de un valor mantenido por el fondo cambiaran, dando lugar a la venta del valor, el Gestor de inversiones no acepta responsabilidad alguna en relación con dicho cambio.

● **¿Cómo se han tenido en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?**

Pictet Asset Management realiza un seguimiento de todos los indicadores obligatorios de principales incidencias adversas (incluidos en el Anexo 1 del Reglamento Delegado (UE) 22 / 1288 de la Comisión) cuando disponemos de datos sólidos. Se espera que la calidad de los datos disponibles mejore con el tiempo.

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas de sus inversiones en la sociedad y el medioambiente que se consideran importantes para la estrategia de inversión, mediante un conjunto de decisiones de gestión de cartera, actividades de propiedad activa y exclusión de emisores asociados a conductas o actividades controvertidas. Más información en el informe de PIA de la entidad, disponible en:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=es&bl=PAM>

● **¿Se han ajustado las inversiones sostenibles a las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios rectores de las Naciones Unidas sobre las empresas y los derechos humanos?**

Para garantizar que la inversión sostenible no causara un perjuicio significativo a ningún objetivo de inversión sostenible, el fondo excluyó a las empresas con infracciones elevadas y graves de (i) los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos,

Las principales incidencias adversas
son las incidencias negativas más importantes de las decisiones de inversión sobre los factores de sostenibilidad en relación con asuntos medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

normas laborales, protección del medioambiente y lucha contra la corrupción o (ii) las Líneas Directrices de la OCDE para Empresas Multinacionales, incluidos los asuntos sociales y laborales graves.

La taxonomía de la UE establece el principio de «no causar un perjuicio significativo», según el cual las inversiones que se ajusten a la taxonomía no deben perjudicar significativamente a los objetivos de la taxonomía de la UE, e incluye criterios específicos de la Unión.

El principio de «no perjudicar de forma significativa» se aplica únicamente a las inversiones subyacentes del producto financiero que contemplan los criterios de la UE relativos a actividades económicas sostenibles desde una perspectiva medioambiental. Las inversiones subyacentes al resto del producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas medioambientalmente sostenibles.

Cualquier otra inversión sostenible tampoco debe perjudicar significativamente a ningún objetivo medioambiental o social.

¿Cómo tiene en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas que se consideran importantes para la estrategia de inversión. Entre las incidencias adversas se incluyeron, entre otras, las emisiones de gases de efecto invernadero (GEI), la contaminación atmosférica, la pérdida de biodiversidad, las emisiones al agua, los residuos peligrosos/radioactivos, las cuestiones sociales y laborales, y la corrupción y el soborno, que se abordaron mediante una combinación de:

(i) decisiones de gestión de carteras

El equipo de inversión puntuó las posiciones según una evaluación de los riesgos medioambientales, sociales y de gobernanza como parte del marco de puntuación del fondo. Los gestores de inversiones determinan las puntuaciones sobre una base cualitativa, basándose en el análisis fundamental y en datos cuantitativos ASG, incluidos los datos sobre la Principal incidencia adversa, los datos ASG facilitados por las empresas y los datos proporcionados por terceros proveedores de datos ASG. El proceso de puntuación del equipo de inversión fue un componente clave del proceso de construcción de la cartera del comportamiento, determinando las ponderaciones objetivo en la cartera.

(ii) voto por delegación

El fondo se atuvió a las directrices de voto de Pictet Asset Management, que están diseñadas para apoyar una cultura de gobierno corporativo sólida, una gestión eficaz de las cuestiones medioambientales y sociales, y la publicación de información exhaustiva de acuerdo con normas creíbles. Dichas directrices también pretenden apoyar a los órganos de gobierno mundiales reconocidos que promueven prácticas empresariales sostenibles que abogan por la gestión del medio ambiente, las prácticas laborales justas, la no discriminación y la protección de los derechos humanos. Todas las actividades de voto del fondo se registraron y pueden compartirse previa solicitud.

(iii) implicación

La interacción con los emisores se realizó mediante conversaciones individuales, reuniones de accionistas/bonistas, giras de inversores y/o conferencias telefónicas. Los objetivos de estas interacciones fueron evaluar una organización, supervisar que su estrategia se estaba aplicando conforme a nuestras expectativas y garantizar que los emisores iban camino de cumplir sus metas y objetivos.

Cuando corresponde, nos implicamos con las empresas en relación con cuestiones ASG importantes, como los objetivos de reducción de los GEI, las mejoras en la gobernanza y diversas controversias medioambientales, sociales y de gobernanza, para asegurarnos de que las entendieran y las abordaran eficazmente a corto, medio y largo plazo. Nuestras actividades de implicación combinaron debates dirigidos a nivel interno, iniciativas de colaboración con inversores institucionales y servicios de implicación externos.

(iv) exclusión de emisores asociados a conductas o actividades controvertidas

El fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se definen en la Política de Inversión responsable de la Pictet Asset Management y/o (ii) empresas que infringieron gravemente los principios del Pacto Mundial de la ONU sobre derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción y las armas controvertidas.

¿Cuáles han sido las inversiones principales de este producto financiero?

La lista incluye las inversiones que constituyen la **mayor parte de las inversiones** del producto financiero durante el período de referencia, que es: 01.10.2022 - 30.09.2023

| INVERSIONES DE MAYOR VOLUMEN | SECTOR | % DE ACTIVOS | PAÍS |
|------------------------------|----------------------|--------------|--------------|
| NOVARTIS AG-REG | Salud | 4,6 | Suiza |
| ROCHE HOLDING AG-GENUSSCHEIN | Salud | 4,4 | Suiza |
| SANOFI | Salud | 3,7 | Francia |
| L'OREAL | Consumo básico | 3,5 | Francia |
| ALLIANZ SE-REG | Financiero | 3,3 | Alemania |
| RELX PLC | Industria | 3,2 | Reino Unido |
| ZURICH INSURANCE GROUP AG | Financiero | 3,1 | Suiza |
| INDUSTRIA DE DISEÑO TEXTIL | Consumo discrecional | 3,0 | España |
| NOVO NORDISK A/S-B | Salud | 2,9 | Dinamarca |
| KONINKLIJKE AHOLD DELHAIZE N | Consumo básico | 2,8 | Países Bajos |

| TESCO PLC | Consumo básico | 2,7 | Reino Unido |
| NESTLE SA-REG | Consumo básico | 2,6 | Suiza |
| HENKEL AG & CO KGAA VOR-PREF | Consumo básico | 2,6 | Alemania |

Fuente: Pictet Asset Management, GICS/MSCI.

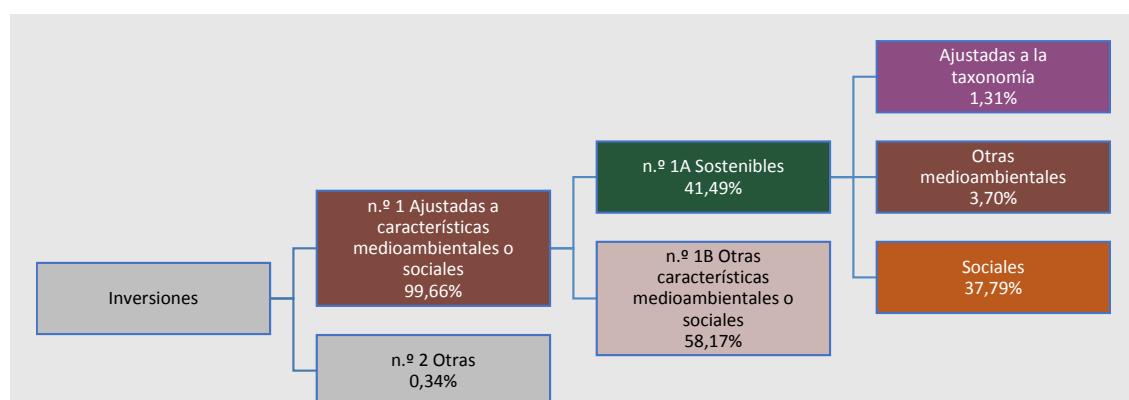

¿Cuál ha sido la proporción de inversiones relacionadas con la sostenibilidad?

41,49%

La asignación de activos describe el porcentaje de inversiones en activos específicos.

● ¿Cuál ha sido la asignación de activos?

El fondo se ajustó en un 99,66% con características medioambientales o sociales (n.º 1 Ajustadas a características medioambientales o sociales) y tuvo hasta un 0,34% invertido en la categoría Otras (n.º 2 Otras). El 41,49% se asignó a inversiones sostenibles (n.º 1A Sostenibles) y el resto se invirtió en inversiones ajustadas a otras características medioambientales o sociales (n.º 1B Otras características medioambientales o sociales).

n.º 1 Ajustadas a características medioambientales o sociales incluye las inversiones del producto financiero utilizadas para lograr las características medioambientales o sociales que promueve el producto financiero.

n.º 2 Otras incluye el resto de inversiones del producto financiero que ni se ajustan a las características medioambientales o sociales ni pueden considerarse inversiones sostenibles.

La categoría n.º 1 Ajustadas a características medioambientales o sociales abarca:

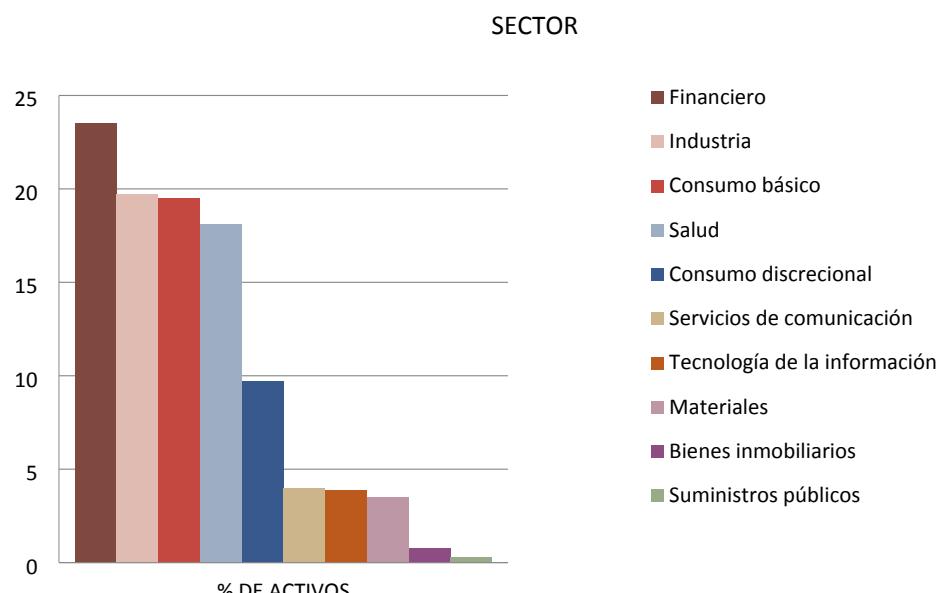

- la subcategoría n.º 1A Sostenibles, que abarca las inversiones sostenibles con objetivos medioambientales o sociales.
- la subcategoría n.º 1B Otras características medioambientales o sociales, que abarca inversiones ajustadas a las características medioambientales o sociales que no pueden considerarse inversiones sostenibles.

Notas:

- Las inversiones «n.º 1A Sostenibles», «Otras medioambientales» y «Sociales» se calcularon sobre una base de aprobado/suspenso. Incluyen bonos certificados (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.
- Las inversiones ajustadas a la taxonomía verde de la UE se calculan ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a la mitigación del cambio climático y la adaptación al mismo) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.
- A falta de una taxonomía social de la UE, Pictet ha desarrollado un marco de taxonomía social propio. El marco se basa en basado en el Informe sobre taxonomía social publicado por la Plataforma de Finanzas Sostenibles de la UE en 2022. Las actividades admisibles se definen como bienes y servicios beneficiosos desde el punto de vista social que contribuyen sustancialmente a uno de los tres objetivos sociales siguientes: (1) comunidades inclusivas y sostenibles, (2) nivel de vida adecuado y bienestar para los usuarios finales y (3) trabajo digno.

Fuente: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RB/CS.

● ¿En qué sectores económicos se han realizado las inversiones?

Fuente: Pictet Asset Management, GICS/MSCI.

Estamos evaluando la disponibilidad y la calidad de los datos que nos permitirían divulgar información más granular en futuros informes sobre los sectores y subsectores de la economía que obtienen ingresos a partir de la exploración, la minería, la extracción, la producción, el procesamiento, el almacenamiento, el refinado o la distribución, incluidos el transporte, el almacenamiento y el comercio, de combustibles fósiles, según se definen en el artículo 2, punto (62), del Reglamento (UE) 2018/1999 del Parlamento Europeo y del Consejo.

¿En qué medida se ajustaban las inversiones sostenibles con un objetivo medioambiental a la taxonomía de la UE?

El fondo realizó inversiones en actividades económicas que contribuyeron a los dos primeros objetivos medioambientales (mitigación del cambio climático y adaptación a este), según lo establecido en el artículo 9 del Reglamento (UE) 2020/852.

Las inversiones ajustadas a la taxonomía de la UE se calcularon ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a objetivos medioambientales relevantes) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.

Los datos de ajuste a la Taxonomía verde de la UE proceden de informes públicos. Los cálculos también pueden incluir estimaciones en un número limitado de casos en los que no se disponía de datos sobre la alineación con la Taxonomía verde de la UE. Las estimaciones se realizaron sobre la base del mejor esfuerzo y siguiendo un planteamiento conservador para obtener un resultado prudente.

Los procedimientos de control se han aplicado para verificar en todo momento el cumplimiento del artículo 3 del Reglamento sobre taxonomía de la UE.

Los datos facilitados no han sido verificados por un auditor externo ni revisados por un tercero independiente.

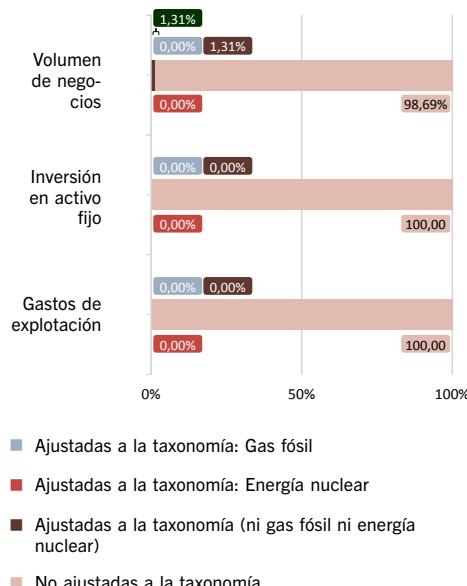

Para ajustarse a la taxonomía de la UE, los criterios correspondientes al **gas fósil** incluyen limitaciones de emisiones y el paso a la energía renovable o combustibles bajos en carbono de aquí al fin de 2035. Por lo que respecta a la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las actividades que se ajustan a la taxonomía se expresan como un porcentaje de:

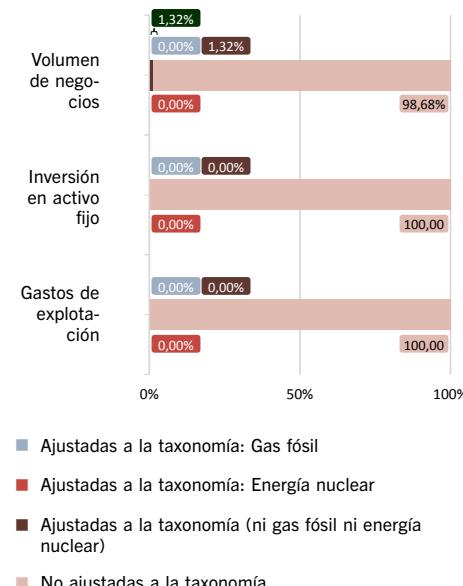

- el **volumen de negocios**, que refleja el «carácter ecológico» de las empresas en las que se invierte en la actualidad;
- la **inversión en activo fijo**, que muestra las inversiones ecológicas realizadas por las empresas en las que se invierte, pertinentes para la transición a una economía verde;
- los **gastos de explotación**, que reflejan las actividades operativas ecológicas de las empresas en las que se invierte.

Los gráficos que figuran a continuación muestran en verde el porcentaje de inversiones que se ajustaban a la taxonomía de la UE. Dado que no existe una metodología adecuada para determinar la adaptación a la taxonomía de los bonos soberanos*, el primer gráfico muestra la adaptación a la taxonomía correspondiente para todas las inversiones del producto financiero, incluidos los bonos soberanos, mientras que el segundo gráfico muestra la adaptación a la taxonomía solo en relación con las inversiones del producto financiero distintas de los bonos soberanos.

1. Ajuste a la taxonomía de las inversiones incluidos los bonos soberanos*

2. Ajuste a la taxonomía de las inversiones excluidos los bonos soberanos*

Este gráfico representa el 99,66% de las inversiones totales.

* A efectos de estos gráficos, los «bonos soberanos» incluyen todas las exposiciones soberanas

¹ Las actividades relacionadas con el gas fósil o la energía nuclear solo cumplirán la taxonomía de la UE cuando contribuyan a limitar el cambio climático («mitigación del cambio climático») y no perjudiquen significativamente ningún objetivo de la taxonomía de la UE (véase la nota explicativa en el margen izquierdo). Los criterios completos correspondientes a las actividades económicas del gas fósil y la energía nuclear que se ajustan a la taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

Nota:

Utilizamos los ingresos como medida clave para establecer la asignación de objetivos y el ajuste real con la taxonomía de la UE debido a la disponibilidad limitada y a la falta de datos fiables para los gastos de explotación y la inversión en activo fijo.

Fuente: Pictet Asset Management.

● **¿Cuál ha sido la proporción de las inversiones realizadas en actividades de transición y facilitadoras?**

La proporción de inversiones realizadas en:

- Actividades de transición: No aplicable*
- Actividades de facilitadoras: No aplicable*

* La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permiten ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

● **¿Qué porcentaje de inversiones se han ajustado a la taxonomía de la UE en comparación con los períodos de referencia anteriores?**

No aplicable.

¿Cuál ha sido la proporción de inversiones sostenibles con un objetivo medioambiental no ajustadas a la taxonomía de la UE?

3,70%

Estas inversiones sostenibles no se ajustan a la Taxonomía de la UE porque sus actividades económicas o bien (i) no están cubiertas por la Taxonomía de la UE, o bien (ii) no cumplen los criterios técnicos de selección para lograr una contribución sustancial en el sentido de la Taxonomía de la UE.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta los criterios para las actividades económicas medioambientalmente sostenibles con arreglo al Reglamento (UE) 2020/852.

¿Cuál ha sido la proporción de inversiones socialmente sostenibles?

37,79%

¿Qué inversiones se han incluido en «otras» y cuál ha sido su propósito? ¿ha habido garantías medioambientales o sociales mínimas?

Las «otras» inversiones del fondo incluían posiciones de tesorería mantenidas principalmente para satisfacer los objetivos diarios de liquidez y gestión de riesgos permitidos y previstos por la política de inversión del fondo. Cuando sea preciso, se aplicarán salvaguardias medioambientales o sociales mínimas a los valores subyacentes.

¿Qué medidas se han adoptado para cumplir las características medioambientales o sociales durante el período de referencia?

Durante el periodo de referencia, se alcanzó el objetivo de inversión sostenible siguiendo la estrategia de inversión y respetando los elementos vinculantes.

Los elementos vinculantes del fondo son:

- Exclusión de emisores que:
 - están relacionados con armas nucleares de países que no han firmado el Tratado sobre la No Proliferación de Armas Nucleares (TNP) y otras armas controvertidas
 - obtienen una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, como la extracción de carbón térmico y la generación de electricidad, la exploración y producción no convencional de petróleo y gas, la producción de petróleo y gas

convencional, la generación de energía nuclear, las armas convencionales y armas pequeñas, la contratación militar de armas y productos y servicios relacionados con las armas, la producción de tabaco, la producción de entretenimiento para adultos, las actividades del juego, el desarrollo y crecimiento de organismos modificados genéticamente, la producción y comercialización de pesticidas. Para más detalles sobre los umbrales de exclusión aplicables a las actividades anteriores, consulte la Política de Inversión responsable de Pictet Asset Management.

- incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción
- análisis de criterios ASG de los valores admisibles que abarca al menos el 90% del patrimonio neto o el número de emisores incluidos en la cartera

Además, el fondo se implicó con 19 empresas a 30.09.2023.

¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

Los índices de referencia son índices para medir si el producto financiero logra las características medioambientales o sociales que promueve.

● ¿Cómo difería el índice de referencia de un índice general de mercado?

No aplicable.

● ¿Cómo se ha comportado este producto financiero con respecto a los indicadores de sostenibilidad para determinar la conformidad del índice de referencia con las características medioambientales o sociales que promueve?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice general de mercado?

No aplicable.

CARACTERÍSTICAS MEDIOAMBIENTALES O SOCIALES

Inversión sostenible
significa una inversión en una actividad económica que contribuye a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo a ningún objetivo medioambiental o social y que las empresas en las que se invierte sigan prácticas de buena gobernanza.

La **taxonomía de la UE** es un sistema de clasificación previsto en el Reglamento (UE) 2020/852 por el que se establece una lista de **actividades económicas medioambientalmente sostenibles**. Dicho Reglamento no prevé una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental pueden ajustarse, o no, a la taxonomía.

| ¿ESTE PRODUCTO FINANCIERO TENÍA UN OBJETIVO DE INVERSIÓN SOSTENIBLE? | | | |
|--|--|-------------------------------------|--|
| | <input type="checkbox"/> Si | | <input checked="" type="checkbox"/> No |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo medioambiental: ____% | <input checked="" type="checkbox"/> | Promovió características medioambientales o sociales y, aunque no tenía como objetivo una inversión sostenible, tuvo un porcentaje del 40,17% de inversiones sostenibles |
| <input type="checkbox"/> | en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> | con un objetivo medioambiental en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> | en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> | con un objetivo medioambiental en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo social: ____% | <input type="checkbox"/> | con un objetivo social |
| <input type="checkbox"/> | | <input type="checkbox"/> | Ha promovido características medioambientales o sociales, pero no ha realizado ninguna inversión sostenible |

Nota: Las inversiones sostenibles se calcularon sobre una base de aprobado/suspenso, incluyendo bonos con etiqueta (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% (medida por ingresos, EBIT, valor de empresa o indicadores similares) a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.

¿En qué grado se han cumplido las características medioambientales o sociales que promueve este producto financiero?

Las características medioambientales y sociales de este producto financiero se promovieron utilizando:

- Inclinación positiva:

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos y, como resultado, tuvo un perfil medioambiental, social y de gobernanza (ASG) mejor que el del índice de referencia. El índice MSCI AC World se utilizó para medir la inclinación positiva; sin embargo, no se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

- Exclusiones basadas en normas y valores:

El fondo excluyó los emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente o que incumplen de forma grave las normas internacionales, según se detalla a continuación:

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

Actividad

Umbrales de ingresos

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

| | |
|---|------------------------|
| Combustibles fósiles y energía nuclear | |
| Extracción de carbón térmico | > 25% |
| Generación de energía térmica de carbón | > 25% |

| Otras actividades controvertidas | |
| Producción de entretenimiento para adultos | > 10% |
| Operaciones de juego | > 10% |
| Desarrollo de plantas y semillas modificadas genéticamente | > 25% |
| Cultivo de plantas y semillas modificadas genéticamente | > 25% |
| Producción de plaguicidas | > 10% |
| Venta al por menor de plaguicidas | > 10% |
| Producción de productos de tabaco | > 10% |
| Exclusiones de empresas por incumplimiento de normas internacionales | Excluidas |
| Empresas que incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción | Sí |
| Exclusiones de países | Excluidas |
| Países (i) incluidos en la lista de Estados patrocinadores del terrorismo, según la definición de la Oficina de Control de Activos Extranjeros de EE. UU.[2] o (ii) sujetos a sanciones financieras de la UE contra bancos centrales y/o empresas de propiedad estatal. | Sí |
| Países (i) clasificados como de muy alto o alto riesgo en el Índice de Estados Frágiles o (ii) afectados por conflictos violentos según la definición del Banco Mundial. | Sí |
| Países (i) incluidos en la lista de «alerta» del Índice de Estados Frágiles o (ii) sujetos a sanciones relacionadas con la exportación por parte de la UE. | Lista de vigilancia[3] |

[1] Entre las armas controvertidas se encuentran las minas antipersona, las municiones de racimo, las armas biológicas y químicas (incluido el fósforo blanco) y las armas nucleares procedentes de países no firmantes del Tratado de No Proliferación de Armas Nucleares (TNP).

[2] «Estado patrocinador del terrorismo» es una designación aplicada por el Departamento de Estado de Estados Unidos a países que repetidamente han prestado apoyo a actos de terrorismo internacional.

[3] Además de las exclusiones estrictas, Pictet Asset Management mantiene una lista de vigilancia que incluye países que requieren una diligencia debida adicional por parte de los equipos de inversión antes de invertir.

Para más detalles, consulte la Política de Inversión responsable de Pictet Asset Management (Anexo B).

Además de las exclusiones mencionadas, basadas en la Política de Inversión responsable de Pictet Asset Management, la estrategia aplicó límites de exclusión más estrictos basados en directrices internas.

- Titularidad activa:

El fondo ejerció de forma metódica sus derechos de voto y se implicó con la dirección de las empresas sobre cuestiones ASG importantes.

Los indicadores de sostenibilidad miden cómo se alcanzan las características medioambientales o sociales que promueve el producto financiero.

- ¿Cómo se han comportado los indicadores de sostenibilidad?

Durante el periodo de información, los indicadores de sostenibilidad se comportaron según se indica a continuación:

- Perfil ASG global

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos.

Como resultado, el fondo ha conseguido un perfil ambiental, social y de gobernanza (ASG) mejor que el del índice de referencia.

- Principal incidencia adversa (PIA)

El fondo utiliza una combinación de enfoques para considerar y, en la medida de lo posible, mitigar las incidencias adversas materiales de nuestras inversiones en la sociedad y el medioambiente, como emisiones de GEI, contaminación atmosférica, pérdida de biodiversidad, emisiones al agua, residuos peligrosos/radioactivos, derechos humanos, normas laborales, corrupción y soborno, y salud pública.

El grado y la forma en que estas incidencias se tuvieron en cuenta dependieron de factores como el contexto específico de la inversión que provoca la incidencia adversa o la disponibilidad de datos fiables.

De conformidad con la política de exclusión de Pictet Asset Management descrita en la Política de Inversión responsable de la empresa (véase el cuadro anterior para consultar las actividades excluidas y los umbrales de exclusión aplicados), el fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente:

Actividades controvertidas (media ponderada de ingresos de la empresa, en %)*:

| | Fondo (%) | Índice de referencia (%) |
|--|-----------|--------------------------|
| Combustibles fósiles y energía nuclear | 0,00 | 4,15 |
| Armas | 0,05 | 0,99 |
| Otras actividades controvertidas | 0,00 | 1,02 |
| No aplicable: | 0,88 | 0,00 |
| No cubierto: | 0,04 | 0,02 |

* Los combustibles fósiles y la energía nuclear incluyen la extracción de carbón térmico y la generación de electricidad, la producción y extracción de petróleo y gas, la extracción de energía de esquisto, la exploración de petróleo y gas en los mares del Ártico y la generación de energía nuclear. Las armas incluyen la contratación militar (servicios de armas y relacionadas con estas), clientes civiles de armas pequeñas (armas de asalto/no asalto), clientes militares/de las fuerzas y cuerpos de seguridad de armas pequeñas y componentes clave de pequeñas armas. Otras actividades controvertidas incluyen la producción de tabaco, la producción de entretenimiento para adultos, la explotación de juegos de azar, el desarrollo o crecimiento de organismos modificados genéticamente, la producción o venta al por menor de pesticidas. La exposición se basa en datos de terceros y puede no reflejar nuestro punto de vista interno. Pictet Asset Management tiene plena discreción sobre la aplicación de los criterios de exclusión y se reserva el derecho de apartarse de la información de terceros, según el caso, cuando se considere incorrecta o incompleta.

Fuente: Pictet Asset Management, Sustainalytics.

Además, el fondo excluyó a los emisores que tenían exposición a:

(i) PIA 10: Incumplimientos de los principios del Pacto Mundial de las Naciones Unidas y las Directrices para Empresas Multinacionales de la Organización para la Cooperación y el Desarrollo Económicos (OCDE).

(ii) PIA 14: Exposición a armas controvertidas (minas antipersonas, municiones en racimo, armas químicas y armas biológicas)

- **Derechos de voto**

Durante el periodo de referencia, el fondo votó en 36 juntas generales de 36 juntas en las que se podía votar (100,00%). Votamos «en contra» (incluidas «abstenciones» o «retenciones») en al menos una resolución en el 69,44% de las juntas.

De las 361 resoluciones de la dirección, votamos en contra de la dirección en 45 puntos (12,47%) y nos abstuvimos en 24 puntos (6,65%).

Apoyamos 50 (69,44%) resoluciones de accionistas de un total de 72 propuestas.

Por lo que respecta a las cuestiones medioambientales y/o sociales, votamos a favor de 0 de las 0 resoluciones de la dirección y a favor de 43 de las 56 resoluciones de accionistas.

Fuente: *Pictet Asset Management, ISS ESG*.

- **Interacción**

El fondo se implicó con 13 empresas sobre cuestiones ASG (datos a 30.09.2023). Esto incluye diálogos internos, iniciativas de colaboración entre inversores y servicios de implicación de terceros. Para que se considere implicación, el diálogo con una empresa objetivo debe tener un objetivo claro y mensurable en un horizonte temporal predefinido. Es importante señalar que no todas las interacciones rutinarias o de supervisión, aunque impliquen a la alta dirección o al Consejo de administración, se consideran implicaciones en nuestra evaluación.

Fuente: *Pictet Asset Management, Sustainalytics*.

- **¿... y en comparación con períodos anteriores?**

Esta cuestión se abordará en futuros informes anuales debido a la falta de historial.

- **¿Cuáles han sido los objetivos de las inversiones sostenibles que ha realizado en parte el producto financiero y de qué forma ha contribuido la inversión sostenible a dichos objetivos?**

El fondo no se comprometió a un porcentaje mínimo de inversiones sostenibles.

Sin embargo, *a posteriori*, el fondo invirtió en valores que financian actividades económicas que contribuyeron sustancialmente a objetivos medioambientales y/o sociales como:

Medioambientales

- mitigación del cambio climático o adaptación al mismo
- uso sostenible y protección de los recursos hídricos y marinos
- transición hacia una economía circular
- prevención y control de la contaminación o
- protección y recuperación de la biodiversidad y los ecosistemas

Sociales

- comunidades inclusivas y sostenibles
- nivel de vida adecuado y bienestar para los usuarios finales o
- trabajo digno

Pictet Asset Management utilizó un marco de referencia propio, así como los objetivos de la Taxonomía de la UE, para definir las inversiones sostenibles.

- **¿De qué manera las inversiones sostenibles que el producto financiero ha realizado en parte, no han causado un perjuicio significativo a ningún objetivo de inversión sostenible medioambiental o social?**

Para evitar que las inversiones sostenibles causen un perjuicio significativo a cualquier otro objetivo medioambiental o social, el fondo aplicó los siguientes criterios de selección sobre la base del mejor esfuerzo:

(i) Exclusiones de emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente (véase la descripción del marco de exclusión de IR).

(ii) Los emisores asociados a controversias elevadas y graves no se contabilizaron como inversiones sostenibles.

La información se obtuvo de proveedores terceros y/o de análisis interno. La información ASG de terceros proveedores de datos puede haber sido incompleta, inexacta o no estar disponible. Como consecuencia de ello, existía el riesgo de que el Gestor de inversiones evaluará incorrectamente un valor o emisor, dando lugar a la inclusión o exclusión incorrecta de un valor en el fondo. Los datos ASG incompletos, inexactos o no disponibles también pueden actuar como una limitación

metodológica a una estrategia de inversión no financiera (como la aplicación de criterios ASG o similares). En los casos identificados, el Gestor de inversiones trató de mitigar este riesgo mediante su propia evaluación. En caso de que las características ASG de un valor mantenido por el fondo cambiaran, dando lugar a la venta del valor, el Gestor de inversiones no acepta responsabilidad alguna en relación con dicho cambio.

● *¿Cómo se han tenido en cuenta los indicadores adversas sobre los factores de sostenibilidad?*

Pictet Asset Management realiza un seguimiento de todos los indicadores obligatorios de principales incidencias adversas (incluidos en el Anexo 1 del Reglamento Delegado (UE) 22 / 1288 de la Comisión) cuando disponemos de datos sólidos. Se espera que la calidad de los datos disponibles mejore con el tiempo.

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas de sus inversiones en la sociedad y el medioambiente que se consideran importantes para la estrategia de inversión, mediante un conjunto de decisiones de gestión de cartera, actividades de propiedad activa y exclusión de emisores asociados a conductas o actividades controvertidas. Más información en el informe de PIA de la entidad, disponible en:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=es&bl=PAM>

● *¿Se han ajustado las inversiones sostenibles a las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios rectores de las Naciones Unidas sobre las empresas y los derechos humanos?*

Para garantizar que la inversión sostenible no causara un perjuicio significativo a ningún objetivo de inversión sostenible, el fondo excluyó a las empresas con infracciones elevadas y graves de (i) los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción o (ii) las Líneas Directrices de la OCDE para Empresas Multinacionales, incluidos los asuntos sociales y laborales graves.

La taxonomía de la UE establece el principio de «no causar un perjuicio significativo», según el cual las inversiones que se ajusten a la taxonomía no deben perjudicar significativamente a los objetivos de la taxonomía de la UE, e incluye criterios específicos de la Unión.

El principio de «no perjudicar de forma significativa» se aplica únicamente a las inversiones subyacentes del producto financiero que contemplan los criterios de la UE relativos a actividades económicas sostenibles desde una perspectiva medioambiental. Las inversiones subyacentes al resto del producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas medioambientalmente sostenibles.

Cualquier otra inversión sostenible tampoco debe perjudicar significativamente a ningún objetivo medioambiental o social.

 **¿Cómo tiene en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?**

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas que se consideran importantes para la estrategia de inversión. Entre las incidencias adversas se incluyeron, entre otras, las emisiones de gases de efecto invernadero (GEI), la contaminación atmosférica, la pérdida de biodiversidad, las emisiones al agua, los residuos peligrosos/radioactivos, las cuestiones sociales y laborales, y la corrupción y el soborno, que se abordaron mediante una combinación de:

(i) decisiones de gestión de carteras

El equipo de inversión puntuó las posiciones según una evaluación de los riesgos y oportunidades medioambientales, sociales y de gobernanza como parte del marco de puntuación del fondo. Las puntuaciones se determinan de forma cualitativa por los gestores de inversión, basándose en estudios fundamentales y datos cuantitativos ASG, incluidos los datos sobre el Principio de Impacto Negativo, los datos ASG facilitados por las empresas y los datos proporcionados por terceros proveedores de datos ASG. El proceso de puntuación del equipo de inversión fue un componente clave del proceso de construcción de la cartera del compartimento, determinando las ponderaciones objetivo en la cartera.

(ii) voto por delegación

El fondo se atuvo a las directrices de voto de Pictet Asset Management, que están diseñadas para apoyar una cultura de gobierno corporativo sólida, una gestión eficaz de las cuestiones medioambientales y sociales, y la publicación de información exhaustiva de acuerdo con normas creíbles. Dichas directrices también pretenden apoyar a los órganos de gobierno mundiales reconocidos

que promueven prácticas empresariales sostenibles que abogan por la gestión del medio ambiente, las prácticas laborales justas, la no discriminación y la protección de los derechos humanos. Todas las actividades de voto del fondo se registraron y pueden compartirse previa solicitud.

(iii) implicación

La interacción con los emisores se realizó mediante conversaciones individuales, reuniones de accionistas/bonistas, giras de inversores y/o conferencias telefónicas. Los objetivos de estas interacciones fueron evaluar una organización, supervisar que su estrategia se estaba aplicando conforme a nuestras expectativas y garantizar que los emisores iban camino de cumplir sus metas y objetivos.

Cuando corresponde, nos implicamos con las empresas en relación con cuestiones ASG importantes, como los objetivos de reducción de los GEI, las mejoras en la gobernanza y diversas controversias medioambientales, sociales y de gobernanza, para asegurarnos de que las entendieran y las abordaran eficazmente a corto, medio y largo plazo. Nuestras actividades de implicación combinaron debates dirigidos a nivel interno, iniciativas de colaboración con inversores institucionales y servicios de implicación externos.

(iv) exclusión de emisores asociados a conductas o actividades controvertidas

El fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se definen en la Política de Inversión responsable de la Pictet Asset Management y/o (ii) empresas que infringieron gravemente los principios del Pacto Mundial de la ONU sobre derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción y las armas controvertidas.

¿Cuáles han sido las inversiones principales de este producto financiero?

La lista incluye las inversiones que constituyen la **mayor parte de las inversiones** del producto financiero durante el período de referencia, que es: 01.10.2022 - 30.09.2023

| INVERSIONES DE MAYOR VOLUMEN | SECTOR | % DE ACTIVOS | PAÍS |
|------------------------------|------------------------------|--------------|----------------|
| META PLATFORMS INC-CLASS A | Servicios de comunicación | 6,3 | Estados Unidos |

¿Cuál ha sido la proporción de inversiones relacionadas con la sostenibilidad?

40,17%

La asignación de activos describe el porcentaje de inversiones en activos específicos.

● ¿Cuál ha sido la asignación de activos?

El fondo se ajustó en un 96,84% con características medioambientales o sociales (n.º 1 Ajustadas a características medioambientales o sociales) y tuvo hasta un 3,16% invertido en la categoría Otras (n.º 2 Otras). El 40,17% se asignó a inversiones sostenibles (n.º 1A Sostenibles) y el resto se invirtió en inversiones ajustadas a otras características medioambientales o sociales (n.º 1B Otras características medioambientales o sociales).

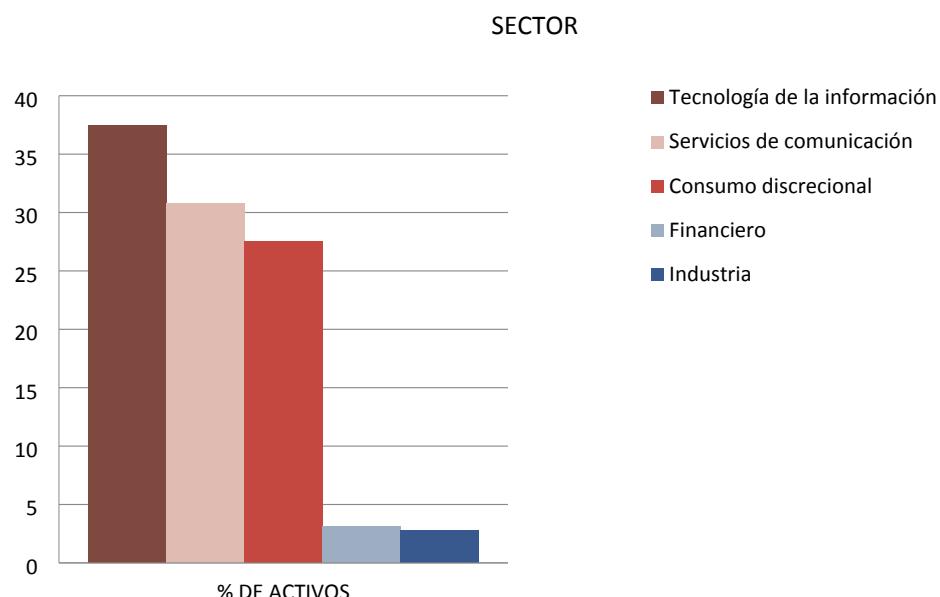

Notas:

- Las inversiones «n.º 1A Sostenibles», «Otras medioambientales» y «Sociales» se calcularon sobre una base de aprobado/suspenso. Incluyen bonos certificados (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.
- Las inversiones ajustadas a la taxonomía verde de la UE se calculan ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a la mitigación del cambio climático y la adaptación al mismo) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.
- A falta de una taxonomía social de la UE, Pictet ha desarrollado un marco de taxonomía social propio. El marco se basa en basado en el Informe sobre taxonomía social publicado por la Plataforma de Finanzas Sostenibles de la UE en 2022. Las actividades admisibles se definen como bienes y servicios beneficiosos desde el punto de vista social que contribuyen sustancialmente a uno de los tres objetivos sociales siguientes: (1) comunidades inclusivas y sostenibles, (2) nivel de vida adecuado y bienestar para los usuarios finales y (3) trabajo digno.

Fuente: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RB/CS.

● ¿En qué sectores económicos se han realizado las inversiones?

Fuente: Pictet Asset Management, GICS/MSCI.

Estamos evaluando la disponibilidad y la calidad de los datos que nos permitirían divulgar información más granular en futuros informes sobre los sectores y subsectores de la economía que obtienen ingresos a partir de la exploración, la minería, la extracción, la producción, el procesamiento, el almacenamiento, el refinado o la distribución, incluidos el transporte, el almacenamiento y el comercio, de combustibles fósiles, según se definen en el artículo 2, punto (62), del Reglamento (UE) 2018/1999 del Parlamento Europeo y del Consejo.

¿En qué medida se ajustaban las inversiones sostenibles con un objetivo medioambiental a la taxonomía de la UE?

El fondo realizó inversiones en actividades económicas que contribuyeron a los dos primeros objetivos medioambientales (mitigación del cambio climático y adaptación a este), según lo establecido en el artículo 9 del Reglamento (UE) 2020/852.

Las inversiones ajustadas a la taxonomía de la UE se calcularon ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a objetivos medioambientales relevantes) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.

Los datos de ajuste a la Taxonomía verde de la UE proceden de informes públicos. Los cálculos también pueden incluir estimaciones en un número limitado de casos en los que no se disponía de datos sobre la alineación con la Taxonomía verde de la UE. Las estimaciones se realizaron sobre la base del mejor esfuerzo y siguiendo un planteamiento conservador para obtener un resultado prudente.

Los procedimientos de control se han aplicado para verificar en todo momento el cumplimiento del artículo 3 del Reglamento sobre taxonomía de la UE.

Los datos facilitados no han sido verificados por un auditor externo ni revisados por un tercero independiente.

● ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil o la energía nuclear que cumplían con la taxonomía de la UE¹?

Sí:

En gas fósil En energía nuclear

No

La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permite ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

Para ajustarse a la taxonomía de la UE, los criterios correspondientes al **gas fósil** incluyen limitaciones de emisiones y el paso a la energía renovable o combustibles bajos en carbono de aquí al fin de 2035. Por lo que respecta a la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

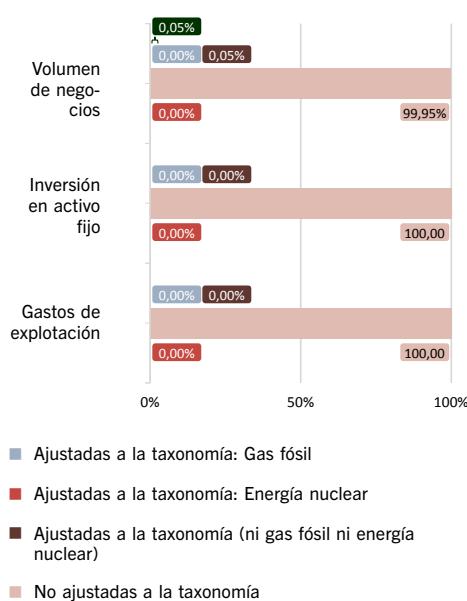

¹ Las actividades relacionadas con el gas fósil o la energía nuclear solo cumplirán la taxonomía de la UE cuando contribuyan a limitar el cambio climático («mitigación del cambio climático») y no perjudiquen significativamente ningún objetivo de la taxonomía de la UE (véase la nota explicativa en el margen izquierdo). Los criterios completos correspondientes a las actividades económicas del gas fósil y la energía nuclear que se ajustan a la taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

Las actividades que se ajustan a la taxonomía se expresan como un porcentaje de:

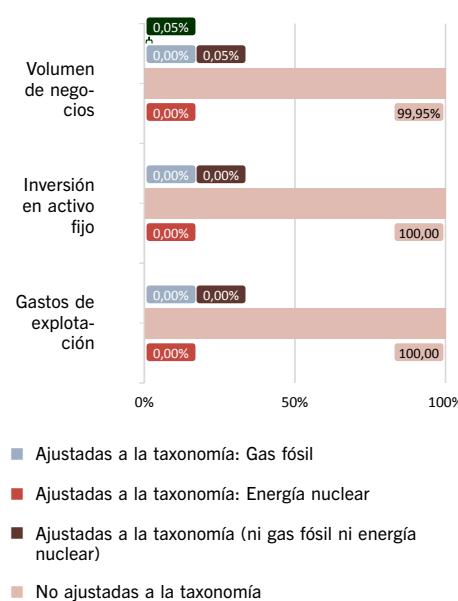

- el **volumen de negocios**, que refleja el «carácter ecológico» de las empresas en las que se invierte en la actualidad;
- la **inversión en activo fijo**, que muestra las inversiones ecológicas realizadas por las empresas en las que se invierte, pertinentes para la transición a una economía verde;
- los **gastos de explotación**, que reflejan las actividades operativas ecológicas de las empresas en las que se invierte.

Los gráficos que figuran a continuación muestran en verde el porcentaje de inversiones que se ajustaban a la taxonomía de la UE. Dado que no existe una metodología adecuada para determinar la adaptación a la taxonomía de los bonos soberanos*, el primer gráfico muestra la adaptación a la taxonomía correspondiente para todas las inversiones del producto financiero, incluidos los bonos soberanos, mientras que el segundo gráfico muestra la adaptación a la taxonomía solo en relación con las inversiones del producto financiero distintas de los bonos soberanos.

1. Ajuste a la taxonomía de las inversiones incluidos los bonos soberanos*

2. Ajuste a la taxonomía de las inversiones excluidos los bonos soberanos*

Este gráfico representa el 96,84% de las inversiones totales.

* A efectos de estos gráficos, los «bonos soberanos» incluyen todas las exposiciones soberanas

Nota:

Utilizamos los ingresos como medida clave para establecer la asignación de objetivos y el ajuste real con la taxonomía de la UE debido a la disponibilidad limitada y a la falta de datos fiables para los gastos de explotación y la inversión en activo fijo.

Fuente: Pictet Asset Management.

● ¿Cuál ha sido la proporción de las inversiones realizadas en actividades de transición y facilitadoras?

La proporción de inversiones realizadas en:

- Actividades de transición: No aplicable*
- Actividades de facilitadoras: No aplicable*

* La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permiten ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

● ¿Qué porcentaje de inversiones se han ajustado a la taxonomía de la UE en comparación con los períodos de referencia anteriores?

No aplicable.

¿Cuál ha sido la proporción de inversiones sostenibles con un objetivo medioambiental no ajustadas a la taxonomía de la UE?

11,14%

Estas inversiones sostenibles no se ajustan a la Taxonomía de la UE porque sus actividades económicas o bien (i) no están cubiertas por la Taxonomía de la UE, o bien (ii) no cumplen los criterios técnicos de selección para lograr una contribución sustancial en el sentido de la Taxonomía de la UE.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta

¿Cuál ha sido la proporción de inversiones socialmente sostenibles?

29,02%

¿Qué inversiones se han incluido en «otras» y cuál ha sido su propósito? ¿ha habido garantías medioambientales o sociales mínimas?

Las «otras» inversiones del fondo incluían posiciones de tesorería mantenidas principalmente para satisfacer los objetivos diarios de liquidez y gestión de riesgos permitidos y previstos por la política de inversión del fondo. Cuando sea preciso, se aplicarán salvaguardias medioambientales o sociales mínimas a los valores subyacentes.

¿Qué medidas se han adoptado para cumplir las características medioambientales o sociales durante el período de referencia?

Durante el periodo de referencia, se alcanzó el objetivo de inversión sostenible siguiendo la estrategia de inversión y respetando los elementos vinculantes.

Los elementos vinculantes del fondo son:

- Exclusión de emisores que:
 - participan en la producción de armas controvertidas, incluidas minas antipersona, municiones de racimo, armas biológicas y químicas, armas nucleares y uranio empobrecido
 - obtienen una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, como la extracción de carbón térmico y la generación de electricidad, la exploración y producción no convencional de petróleo y gas, la producción de petróleo y gas convencional, la generación de energía nuclear, las armas convencionales y armas pequeñas, la contratación militar de armas y productos y servicios relacionados con las armas, la producción de tabaco, la producción de entretenimiento para adultos, las actividades del juego, el desarrollo y crecimiento de organismos modificados genéticamente, la producción y comercialización de pesticidas. Para más detalles sobre los umbrales de exclusión aplicables a las actividades anteriores, consulte la Política de Inversión responsable de Pictet Asset Management.
 - incumplen gravemente normas internacionales, incluidos los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción
- un perfil ASG mejor que el del índice de referencia
- análisis de criterios ASG de los valores admisibles que abarca al menos el 90% del patrimonio neto o el número de emisores incluidos en la cartera

Además, el fondo se implicó con 13 empresas a 30.09.2023.

¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

● ¿Cómo difería el índice de referencia de un índice general de mercado?

No aplicable.

- **¿Cómo se ha comportado este producto financiero con respecto a los indicadores de sostenibilidad para determinar la conformidad del índice de referencia con las características medioambientales o sociales que promueve?**
No aplicable.
- **¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?**
No aplicable.
- **¿Cómo se ha comportado este producto financiero en comparación con el índice general de mercado?**
No aplicable.

OBJETIVO DE INVERSIÓN SOSTENIBLE

Inversión sostenible significa una inversión en una actividad económica que contribuye a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo a ningún objetivo medioambiental o social y que las empresas en las que se invierte sigan prácticas de buena gobernanza.

La **taxonomía de la UE** es un sistema de clasificación previsto en el Reglamento (UE) 2020/852 por el que se establece una lista de **actividades económicas medioambientalmente sostenibles**. Dicho Reglamento no prevé una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental pueden ajustarse, o no, a la taxonomía.

| ¿ESTE PRODUCTO FINANCIERO TENÍA UN OBJETIVO DE INVERSIÓN SOSTENIBLE? | | | |
|---|--|---|--|
| <input checked="" type="checkbox"/> Si | | <input type="checkbox"/> No | |
| <input type="checkbox"/> Realizó inversiones sostenibles con un objetivo medioambiental : ____% | | | |
| <input type="checkbox"/> en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | | <input type="checkbox"/> Promovió características medioambientales o sociales y, aunque no tenía como objetivo una inversión sostenible, tuvo un porcentaje del ____% de inversiones sostenibles | |
| <input type="checkbox"/> en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | | <input type="checkbox"/> con un objetivo medioambiental en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | |
| | | <input type="checkbox"/> con un objetivo medioambiental en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | |
| | | <input type="checkbox"/> con un objetivo social | |
| <input checked="" type="checkbox"/> Ha realizado inversiones sostenibles con un objetivo social : 97,93% | | <input type="checkbox"/> Ha promovido características medioambientales o sociales , pero no ha realizado ninguna inversión sostenible | |

Nota: Las inversiones sostenibles se calcularon sobre una base de aprobado/suspenso, incluyendo bonos con etiqueta (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% (medida por ingresos, EBIT, valor de empresa o indicadores similares) a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.

¿En qué grado se ha cumplido el objetivo de inversión sostenible de este producto financiero?

Principales maneras por las que el fondo logró su objetivo de sostenibilidad:

• Impacto positivo:

El fondo logró un impacto social positivo, invirtiendo al menos dos terceras partes de sus activos totales/ su patrimonio total en empresas que contribuyen a la salud de las personas con una alta capacidad de innovación. Unas mejores terapias pueden ofrecer valor real tanto a los pacientes como a los sistemas sanitarios. Estas empresas responden a importantes necesidades médicas no atendidas y reducen la presión sobre los presupuestos sanitarios, al disminuir los ingresos hospitalarios o el control de los síntomas.

No se ha designado ningún índice de referencia con el fin de lograr el objetivo de inversión sostenible.

El fondo invirtió principalmente en empresas cuyas actividades están relacionadas en gran medida con nuevos mecanismos de acción que ofrecen posibles curas o control de enfermedades que antes eran difíciles de tratar, plataformas tecnológicas, herramientas y servicios de análisis en la cadena de valor biotecnológica, así como la mejora de terapias o medicamentos, y otras actividades económicas relevantes.

Los valores admisibles incluyeron acciones emitidas por empresas con una proporción significativa de actividades (medida por ingresos, ebit, valor de empresa o parámetros similares) derivadas de dichas actividades económicas.

- Exclusiones basadas en normas y valores:

El fondo excluyó los emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente o que incumplen de forma grave las normas internacionales, según se detalla a continuación:

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

| Actividad | Umbrales de ingresos |
|---|----------------------|
| Combustibles fósiles y energía nuclear | |
| Extracción de carbón térmico | > 25% |
| Generación de energía térmica de carbón | > 25% |
| Producción de petróleo y gas | > 25% |
| Extracción de arenas bituminosas | > 10% |
| Extracción de energía de esquisto | > 10% |
| Exploración de petróleo y gas en el Ártico | > 10% |
| Generación de energía nuclear | > 50% |
| Armas | |
| Producción de armas controvertidas[1] | > 0% |
| Armas de contratación militar | > 10% |
| Productos y/o servicios relacionados con armas de contratación militar | > 50% |
| Clientes civiles de armas pequeñas (armas de asalto) | > 10% |
| Clientes civiles de armas pequeñas (armas de no asalto) | > 10% |
| Clientes militares/de fuerzas del orden de armas pequeñas | > 25% |
| Componentes clave de armas pequeñas | > 25% |
| Otras actividades controvertidas | |
| Producción de entretenimiento para adultos | > 10% |
| Operaciones de juego | > 10% |
| Desarrollo de plantas y semillas modificadas genéticamente | > 25% |
| Cultivo de plantas y semillas modificadas genéticamente | > 25% |
| Producción de plaguicidas | > 10% |
| Venta al por menor de plaguicidas | > 10% |
| Producción de productos de tabaco | > 10% |
| Exclusiones de empresas por incumplimiento de normas internacionales | Excluidas |
| Empresas que incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción | Sí |
| Exclusiones de países | Excluidas |
| Países (i) incluidos en la lista de Estados patrocinadores del terrorismo, según la definición de la Oficina de Control de Activos Extranjeros de EE. UU.[2] o (ii) sujetos a sanciones financieras de la UE contra bancos centrales y/o empresas de propiedad estatal. | Sí |
| Países (i) clasificados como de muy alto o alto riesgo en el Índice de Estados Frágiles o (ii) afectados por conflictos violentos según la definición del Banco Mundial. | Sí |

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

Países (i) incluidos en la lista de «alerta» del Índice de Estados Frágiles o (ii) sujetos a sanciones relacionadas con la exportación por parte de la UE. Lista de vigilancia[3]

[1] Entre las armas controvertidas se encuentran las minas antipersona, las municiones de racimo, las armas biológicas y químicas (incluido el fósforo blanco) y las armas nucleares procedentes de países no firmantes del Tratado de No Proliferación de Armas Nucleares (TNP).

[2] «Estado patrocinador del terrorismo» es una designación aplicada por el Departamento de Estado de Estados Unidos a países que repetidamente han prestado apoyo a actos de terrorismo internacional.

[3] Además de las exclusiones estrictas, Pictet Asset Management mantiene una lista de vigilancia que incluye países que requieren una diligencia debida adicional por parte de los equipos de inversión antes de invertir.

Para más detalles, consulte la Política de Inversión responsable de Pictet Asset Management (Anexo B).

Además de las exclusiones mencionadas, basadas en la Política de Inversión responsable de Pictet Asset Management, la estrategia aplicó límites de exclusión más estrictos basados en directrices internas.

- Titularidad activa:

El fondo ejerció sus derechos de voto de forma metódica. El fondo también se implicó con la dirección de las empresas sobre cuestiones ASG importantes.

- Inversiones sostenibles:

Pictet Asset Management utilizó un marco propio, así como los objetivos de la Taxonomía de la UE, para definir las inversiones sostenibles.

El fondo invirtió en valores que financian actividades económicas que contribuyeron sustancialmente a objetivos sociales como:

- comunidades inclusivas y sostenibles
- nivel de vida adecuado y bienestar para los usuarios finales o
- trabajo digno

- ¿Cómo se han comportado los indicadores de sostenibilidad?

Durante el periodo de información, los indicadores de sostenibilidad se comportaron según se indica a continuación:

- Exposición a empresas que obtienen una parte significativa de sus ingresos, EBIT, valor de empresa o parámetros similares de actividades económicas que contribuyen a los objetivos medioambientales o sociales, y bonos con etiqueta cuando sea relevante para la clase de activos (inversiones sostenibles):

97,93%

- Exposición a ingresos de actividades económicas que contribuyen a la mitigación del cambio climático y/o a la adaptación al mismo (inversiones ajustadas a la taxonomía de la UE):

0,00%

En el informe del próximo año se facilitará información adicional sobre objetivos sociales específicos.

- Perfil ASG global

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos.

- Principal incidencia adversa (PIA)

El fondo utiliza una combinación de enfoques para considerar y, en la medida de lo posible, mitigar las incidencias adversas materiales de sus inversiones en la sociedad y el medioambiente, como emisiones de GEI, contaminación atmosférica, pérdida de biodiversidad, emisiones al agua, residuos peligrosos/radioactivos, derechos humanos, normas laborales, corrupción y soborno, y salud pública.

El grado y la forma en que estas incidencias se tuvieron en cuenta dependieron de factores como el contexto específico de la inversión que provoca la incidencia adversa o la disponibilidad de datos fiables.

Los indicadores de sostenibilidad miden cómo se logran los objetivos sostenibles de este producto financiero.

De conformidad con la política de exclusión de Pictet Asset Management descrita en la Política de Inversión responsable de la empresa (véase el cuadro anterior para consultar las actividades excluidas y los umbrales de exclusión aplicados), el fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se detalla a continuación:

Actividades controvertidas (media ponderada de ingresos de la empresa, en %)*:

| | Fondo (%) | Índice de referencia (%) |
|--|-----------|--------------------------|
| Combustibles fósiles y energía nuclear | 0,00 | 4,15 |
| Armas | 0,00 | 0,99 |
| Otras actividades controvertidas | 0,00 | 1,02 |
| No aplicable: | 0,51 | 0,00 |
| No cubierto: | 2,41 | 0,02 |

* Los combustibles fósiles y la energía nuclear incluyen la extracción de carbón térmico y la generación de electricidad, la producción y extracción de petróleo y gas, la extracción de energía de esquisto, la exploración de petróleo y gas en los mares del Ártico y la generación de energía nuclear. Las armas incluyen la contratación militar (servicios de armas y relacionadas con estas), clientes civiles de armas pequeñas (armas de asalto/no asalto), clientes militares/de las fuerzas y cuerpos de seguridad de armas pequeñas y componentes clave de pequeñas armas. Otras actividades controvertidas incluyen la producción de tabaco, la producción de entretenimiento para adultos, la explotación de juegos de azar, el desarrollo o crecimiento de organismos modificados genéticamente, la producción o venta al por menor de pesticidas. La exposición se basa en datos de terceros y puede no reflejar nuestro punto de vista interno. Pictet Asset Management tiene plena discreción sobre la aplicación de los criterios de exclusión y se reserva el derecho de apartarse de la información de terceros, según el caso, cuando se considere incorrecta o incompleta.

Fuente: Pictet Asset Management, Sustainalytics.

Además, el fondo excluyó a los emisores que tenían exposición a:

- (i) PIA 10: Incumplimientos de los principios del Pacto Mundial de las Naciones Unidas y las Directrices para Empresas Multinacionales de la Organización para la Cooperación y el Desarrollo Económicos (OCDE).
- (ii) PIA 14: Exposición a armas controvertidas (minas antipersonas, municiones en racimo, armas químicas y armas biológicas)

• Derechos de voto

Durante el periodo de referencia, el fondo votó en 62 juntas generales de 62 juntas en las que se podía votar (100,00%). Votamos «en contra» (incluidas «abstenciones» o «retenciones») en al menos una resolución en el 66,13% de las juntas.

De las 451 resoluciones de la dirección, votamos en contra de la dirección en 39 puntos (8,65%) y nos abstuvimos en 49 puntos (10,86%).

Apoyamos 4 (50,00%) resoluciones de accionistas de un total de 8 propuestas.

Por lo que respecta a las cuestiones medioambientales y/o sociales, votamos a favor de 1 de las 1 resoluciones de la dirección y a favor de 3 de las 3 resoluciones de accionistas.

Fuente: Pictet Asset Management, ISS ESG.

• Interacción

El fondo se implicó con 16 empresas sobre cuestiones ASG (datos a 30.09.2023). Esto incluye diálogos internos, iniciativas de colaboración entre inversores y servicios de implicación de terceros. Para que se considere implicación, el diálogo con una empresa objetivo debe tener un objetivo claro y mensurable en un horizonte temporal predefinido. Es importante señalar que no todas las interacciones rutinarias o de supervisión, aunque impliquen a la alta dirección o al Consejo de administración, se consideran implicaciones en nuestra evaluación.

Fuente: Pictet Asset Management, Sustainalytics.

• ¿... y en comparación con períodos anteriores?

Esta cuestión se abordará en futuros informes anuales debido a la falta de historial.

● **¿De qué manera las inversiones sostenibles no han causado un perjuicio significativo a ningún objetivo medioambiental o social?**

Para evitar que las inversiones sostenibles causen un perjuicio significativo a cualquier otro objetivo medioambiental o social, el fondo aplicó los siguientes criterios de selección sobre la base del mejor esfuerzo:

(i) Exclusiones de emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente (véase la descripción del marco de exclusión de IR).

(ii) Los emisores asociados a controversias elevadas y graves se excluyeron.

La información se obtuvo de proveedores terceros y/o de análisis interno. La información ASG de terceros proveedores de datos puede haber sido incompleta, inexacta o no estar disponible. Como consecuencia de ello, existía el riesgo de que el Gestor de inversiones evaluara incorrectamente un valor o emisor, dando lugar a la inclusión o exclusión incorrecta de un valor en el fondo. Los datos ASG incompletos, inexactos o no disponibles también pueden actuar como una limitación metodológica a una estrategia de inversión no financiera (como la aplicación de criterios ASG o similares). En los casos identificados, el Gestor de inversiones trató de mitigar este riesgo mediante su propia evaluación. En caso de que las características ASG de un valor mantenido por el fondo cambiaran, dando lugar a la venta del valor, el Gestor de inversiones no acepta responsabilidad alguna en relación con dicho cambio.

● **¿Cómo se han tenido en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?**

Pictet Asset Management realiza un seguimiento de todos los indicadores obligatorios de principales incidencias adversas (incluidos en el Anexo 1 del Reglamento Delegado (UE) 22 / 1288 de la Comisión) cuando disponemos de datos sólidos. Se espera que la calidad y la disponibilidad de los datos mejoren con el tiempo.

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas de sus inversiones en la sociedad y el medioambiente que se consideran importantes para la estrategia de inversión, mediante un conjunto de decisiones de gestión de cartera, actividades de propiedad activa y exclusión de emisores asociados a conductas o actividades controvertidas.

Más información en el informe de PIA de la entidad, disponible en:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dia=es&bl=PAM>

● **¿Se han ajustado las inversiones sostenibles a las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios rectores de las Naciones Unidas sobre las empresas y los derechos humanos?**

Para garantizar que la inversión sostenible no causara un perjuicio significativo a ningún objetivo de inversión sostenible, el fondo excluyó a las empresas con infracciones elevadas y graves de (i) los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción o (ii) las Líneas Directrices de la OCDE para Empresas Multinacionales, incluidos los asuntos sociales y laborales graves.

¿Cómo tiene en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas que se consideran importantes para la estrategia de inversión. Entre las incidencias adversas se incluyeron, entre otras, las emisiones de gases de efecto invernadero (GEI), la contaminación atmosférica, la pérdida de biodiversidad, las emisiones al agua, los residuos peligrosos/radioactivos, las cuestiones sociales y laborales, y la corrupción y el soborno, que se abordaron mediante una combinación de:

(i) decisiones de gestión de carteras

El equipo de inversión puntuó las posiciones según una evaluación de los riesgos y oportunidades medioambientales, sociales y de gobernanza, así como la exposición a inversiones sostenibles, como parte del marco de puntuación del fondo. Las puntuaciones se determinan de forma cualitativa por los gestores de inversión, basándose en estudios fundamentales y datos cuantitativos ASG, incluidos los datos sobre el Principio de Impacto Negativo, los datos ASG facilitados por las empresas y los datos proporcionados por terceros proveedores de datos ASG. El proceso de puntuación del equipo de inversión fue un componente clave del proceso de construcción de la cartera del comportamiento, determinando las ponderaciones objetivo en la cartera.

(ii) voto por delegación

El fondo se atuvo a las directrices de voto de Pictet Asset Management, que están diseñadas para apoyar una cultura de gobierno corporativo sólida, una gestión eficaz de las cuestiones medioambientales y sociales, y la publicación de información exhaustiva de acuerdo con normas creíbles. Dichas directrices también pretenden apoyar a los órganos de gobierno mundiales reconocidos que promueven prácticas empresariales sostenibles que abogan por la gestión del medio ambiente, las prácticas laborales justas, la no discriminación y la protección de los derechos humanos. Todas las actividades de voto del fondo se registraron y pueden compartirse previa solicitud.

(iii) implicación

La interacción con los emisores se realizó mediante conversaciones individuales, reuniones de accionistas/bonistas, giras de inversores y/o conferencias telefónicas. Los objetivos de estas interacciones fueron evaluar una organización, supervisar que su estrategia se estaba aplicando conforme a nuestras expectativas y garantizar que los emisores iban camino de cumplir sus metas y objetivos.

Cuando correspondió, nos implicamos con los emisores para abordar preocupaciones importantes en materia de ASG, mejorar las prácticas de sostenibilidad de las empresas o implicarnos en temas de impacto positivo para asegurarnos de que las entendían plenamente y las abordaban eficazmente a corto, medio y largo plazo. Nuestras actividades de implicación combinaron debates dirigidos a nivel interno, iniciativas de colaboración con inversores institucionales y servicios de implicación externos.

(iv) exclusión de emisores asociados a conductas o actividades controvertidas

El fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se definen en la Política de Inversión responsable de la Pictet Asset Management y/o (ii) empresas que infringieron gravemente los principios del Pacto Mundial de la ONU sobre derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción y las armas controvertidas.

¿Cuáles han sido las inversiones principales de este producto financiero?

La lista incluye las inversiones que constituyen la mayor parte de las inversiones del producto financiero durante el período de referencia, que es: 01.10.2022 - 30.09.2023

| INVERSIONES DE MAYOR VOLUMEN | SECTOR | % DE ACTIVOS | PAÍS |
|------------------------------|--------|--------------|----------------|
| VERTEX PHARMACEUTICALS INC | Salud | 5,7 | Estados Unidos |
| ARGENX SE - ADR | Salud | 5,4 | Países Bajos |
| BIOGEN INC | Salud | 5,3 | Estados Unidos |
| BIOMARIN PHARMACEUTICAL INC | Salud | 4,4 | Estados Unidos |
| REGENERON PHARMACEUTICALS | Salud | 3,5 | Estados Unidos |
| SEAGEN INC | Salud | 3,1 | Estados Unidos |
| XENON PHARMACEUTICALS INC | Salud | 2,9 | Canadá |
| GILEAD SCIENCES INC | Salud | 2,8 | Estados Unidos |
| AMICUS THERAPEUTICS INC | Salud | 2,7 | Estados Unidos |
| SAREPTA THERAPEUTICS INC | Salud | 2,7 | Estados Unidos |
| AMGEN INC | Salud | 2,5 | Estados Unidos |
| ALNYLAM PHARMACEUTICALS INC | Salud | 2,5 | Estados Unidos |
| INSMED INC | Salud | 2,4 | Estados Unidos |
| INTRA-CELLULAR THERAPIES INC | Salud | 2,4 | Estados Unidos |
| GENMAB A/S | Salud | 2,4 | Dinamarca |

Fuente: Pictet Asset Management, GICS/MSCI.

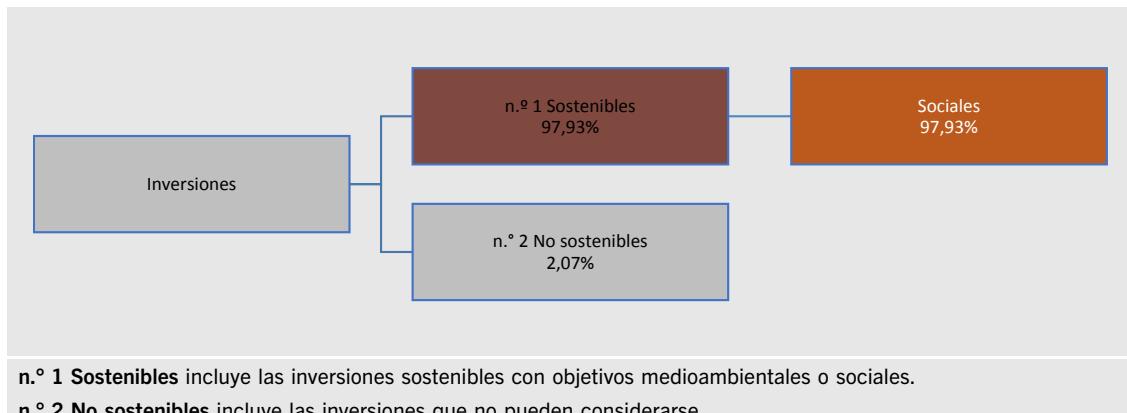

¿Cuál ha sido la proporción de inversiones relacionadas con la sostenibilidad?

97,93%

La asignación de activos describe el porcentaje de inversiones en activos específicos.

● ¿Cuál ha sido la asignación de activos?

El fondo asignó el 97,93% de sus activos a inversiones sostenibles (n.º 1 Sostenibles) y el 2,07% a Inversiones no sostenibles (n.º 2 No sostenibles). El 0,00% de sus activos se han asignado a objetivos medioambientales y el 97,93% a objetivos sociales.

n.º 1 Sostenibles incluye las inversiones sostenibles con objetivos medioambientales o sociales.

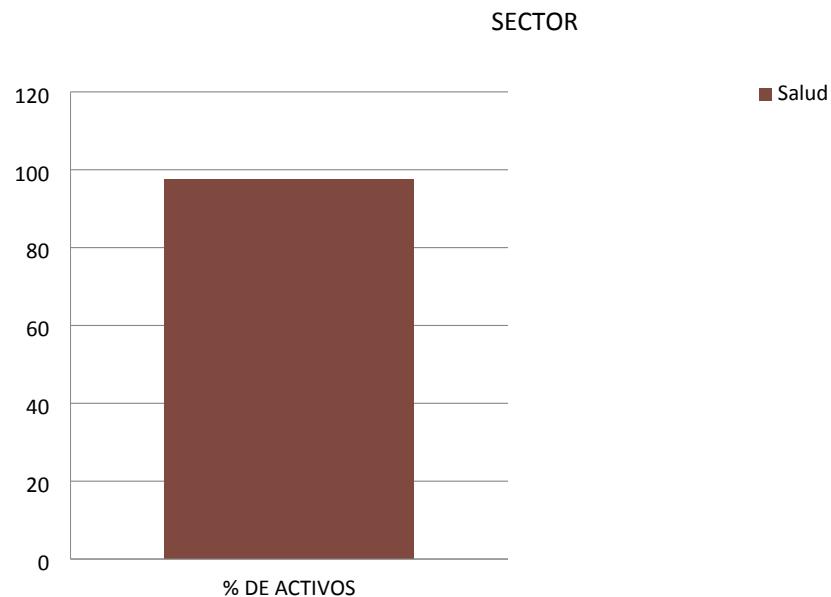

n.º 2 No sostenibles incluye las inversiones que no pueden considerarse

Notas:

- Las inversiones «n.º 1A Sostenibles» y «Sociales» se calcularon sobre una base de aprobado/suspenso. Incluyen bonos certificados (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.
- A falta de una taxonomía social de la UE, Pictet ha desarrollado un marco de taxonomía social propio, basado en el Informe sobre taxonomía social publicado por la Plataforma de Finanzas Sostenibles de la UE en 2022. Las actividades admisibles se definen como bienes y servicios que contribuyen sustancialmente a uno de los tres objetivos siguientes: (1) comunidades inclusivas y sostenibles, (2) nivel de vida adecuado y bienestar para los usuarios finales y (3) trabajo digno.

Fuente: Pictet Asset Management, FTSE Green revenues, Factset RBICS.

● ¿En qué sectores económicos se han realizado las inversiones?

Fuente: Pictet Asset Management, GICS/MSCI.

Estamos evaluando la disponibilidad y la calidad de los datos que nos permitirían divulgar información más granular en futuros informes sobre los sectores y subsectores de la economía que obtienen ingresos a partir de la exploración, la minería, la extracción, la producción, el procesamiento, el almacenamiento, el refinado o la distribución, incluidos el transporte, el almacenamiento y el comercio, de combustibles fósiles, según se definen en el artículo 2, punto (62), del Reglamento (UE) 2018/1999 del Parlamento Europeo y del Consejo.

¿En qué medida se ajustaban las inversiones sostenibles con un objetivo medioambiental a la taxonomía de la UE?

No aplicable.

Para ajustarse a la taxonomía de la UE, los criterios correspondientes al **gas fósil** incluyen limitaciones de emisiones y el paso a la energía renovable o combustibles bajos en carbono de aquí al fin de 2035. Por lo que respecta a la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las actividades que se ajustan a la taxonomía se expresan como un porcentaje de:

- **El volumen de negocios**, que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas en las que se invierte.
- **La inversión en activo fijo**, que muestra las inversiones ecológicas realizadas por las empresas en las que se invierte, por ejemplo, para la transición a una economía verde.
- **Los gastos de explotación**, que reflejan las actividades operativas ecológicas de las empresas en las que se invierte.

● ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil o la energía nuclear que cumplían con la taxonomía de la UE¹?

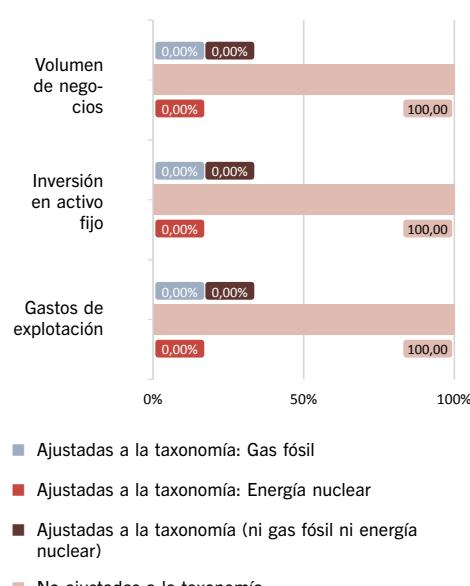

Sí:

En gas fósil En energía nuclear

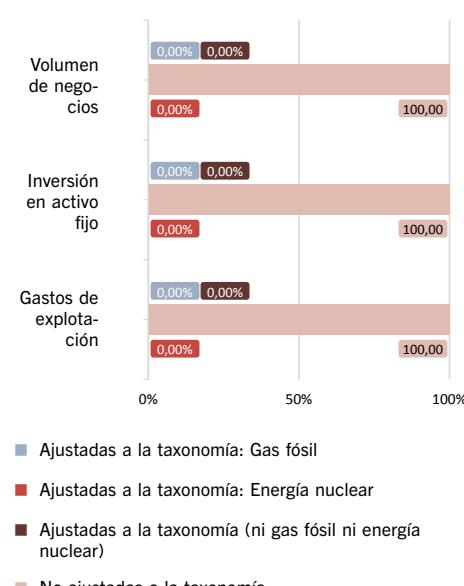

No

Los gráficos que figuran a continuación muestran en verde el porcentaje de inversiones que se ajustaban a la taxonomía de la UE. Dado que no existe una metodología adecuada para determinar la adaptación a la taxonomía de los bonos soberanos*, el primer gráfico muestra la adaptación a la taxonomía correspondiente para todas las inversiones del producto financiero, incluidos los bonos soberanos, mientras que el segundo gráfico muestra la adaptación a la taxonomía solo en relación con las inversiones del producto financiero distintas de los bonos soberanos.

1. Ajuste a la taxonomía de las inversiones incluidos los bonos soberanos*

2. Ajuste a la taxonomía de las inversiones excluidos los bonos soberanos*

Este gráfico representa el 97,93% de las inversiones totales.

* A efectos de estos gráficos, los «bonos soberanos» incluyen todas las exposiciones soberanas

● ¿Cuál ha sido la proporción de las inversiones realizadas en actividades de transición y facilitadoras?

No aplicable.

¹ Las actividades relacionadas con el gas fósil o la energía nuclear solo cumplirán la taxonomía de la UE cuando contribuyan a limitar el cambio climático («mitigación del cambio climático») y no perjudiquen significativamente ningún objetivo de la taxonomía de la UE (véase la nota explicativa en el margen izquierdo). Los criterios completos correspondientes a las actividades económicas del gas fósil y la energía nuclear que se ajustan a la taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

- ¿Qué porcentaje de inversiones se han ajustado a la taxonomía de la UE en comparación con los períodos de referencia anteriores?

No aplicable.

¿Cuál ha sido la proporción de inversiones sostenibles con un objetivo medioambiental no ajustadas a la taxonomía de la UE?

0,00%

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta los criterios para las actividades económicas medioambientalmente sostenibles con arreglo a la taxonomía de la UE.

¿Cuál ha sido la proporción de inversiones socialmente sostenibles?

97,93%

¿Qué inversiones se han incluido en «No sostenibles» y cuál ha sido su propósito? ¿Ha habido garantías medioambientales o sociales mínimas?

Las «otras» inversiones del fondo incluían posiciones de tesorería mantenidas principalmente para satisfacer los objetivos diarios de liquidez y gestión de riesgos permitidos y previstos por la política de inversión del fondo. Cuando sea preciso, se aplicarán salvaguardias medioambientales o sociales mínimas a los valores subyacentes.

¿Qué medidas se han adoptado para lograr el objetivo de inversión sostenible durante el período de referencia?

Durante el periodo de referencia, se alcanzó el objetivo de inversión sostenible siguiendo la estrategia de inversión y respetando los elementos vinculantes.

Los elementos vinculantes del fondo son:

- al menos el 80% de las inversiones sostenibles, es decir, inversiones en empresas que tienen una exposición importante a actividades como nuevos mecanismos de acción que ofrecen posibles curas o control de enfermedades que antes eran difíciles de tratar, plataformas tecnológicas, herramientas y servicios de análisis en la cadena de valor biotecnológica, así como la mejora de terapias o medicamentos, y otras actividades económicas relevantes (según los ingresos, el valor de empresa, los beneficios antes de intereses e impuestos o similares)
- Exclusión de emisores que:
 - participan en la producción de armas controvertidas, incluidas minas antipersona, municiones de racimo, armas biológicas y químicas, armas nucleares y uranio empobrecido
 - obtienen una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, como la extracción de carbón térmico y la generación de electricidad, la exploración y producción no convencional de petróleo y gas, la producción de petróleo y gas convencional, la generación de energía nuclear, las armas convencionales y armas pequeñas, la contratación militar de armas y productos y servicios relacionados con las armas, la producción de tabaco, la producción de entretenimiento para adultos, las actividades del juego, el desarrollo y crecimiento de organismos modificados genéticamente, la producción y comercialización de pesticidas. Para más detalles sobre los umbrales de exclusión aplicables a las actividades anteriores, consulte la Política de Inversión responsable de Pictet Asset Management.
 - incumplen gravemente normas internacionales, incluidos los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción

- un perfil ASG mejor que el del índice de referencia
 - análisis de criterios ASG de los valores admisibles que abarca al menos el 90% del patrimonio neto o el número de emisores incluidos en la cartera
- Además, el fondo se implicó con 16 empresas a 30.09.2023.

¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No se ha designado ningún índice de referencia con el fin de lograr el objetivo de inversión sostenible.

● ¿Cómo difería el índice de referencia de un índice general de mercado?

No aplicable.

● ¿Cómo se ha comportado este producto financiero con respecto a los indicadores de sostenibilidad para determinar la conformidad del índice de referencia con las características medioambientales o sociales que promueve?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice general de mercado?

No aplicable.

01.10.2022 - 30.09.2023

Plantilla de información periódica de los productos financieros a que se refiere el artículo 8, apartados 1, 2 y 2 bis, del Reglamento (UE) 2019/2088 y el artículo 6, párrafo primero, del Reglamento (UE) 2020/852

Nombre del producto: **Pictet - Premium Brands**

Identificador de entidad jurídica: **54930083TCJNE9IFFU75**

CARACTERÍSTICAS MEDIOAMBIENTALES O SOCIALES

Inversión sostenible
significa una inversión en una actividad económica que contribuye a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo a ningún objetivo medioambiental o social y que las empresas en las que se invierte sigan prácticas de buena gobernanza.

La **taxonomía de la UE** es un sistema de clasificación previsto en el Reglamento (UE) 2020/852 por el que se establece una lista de **actividades económicas medioambientalmente sostenibles**. Dicho Reglamento no prevé una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental pueden ajustarse, o no, a la taxonomía.

| ¿ESTE PRODUCTO FINANCIERO TENÍA UN OBJETIVO DE INVERSIÓN SOSTENIBLE? | | | |
|---|-------------------------------------|---|--|
| <input checked="" type="radio"/> Si | <input type="radio"/> No | <input checked="" type="radio"/> Promovió características medioambientales o sociales y, aunque no tenía como objetivo una inversión sostenible, tuvo un porcentaje del 24,93% de inversiones sostenibles | <input type="radio"/> con un objetivo medioambiental en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> Realizó inversiones sostenibles con un objetivo medioambiental: ____% | <input checked="" type="checkbox"/> | <input type="checkbox"/> con un objetivo medioambiental en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> con un objetivo social |
| <input type="checkbox"/> en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input type="checkbox"/> | <input type="checkbox"/> con un objetivo medioambiental en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | |
| <input type="checkbox"/> en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> | <input type="checkbox"/> con un objetivo social | |
| <input type="checkbox"/> Realizó inversiones sostenibles con un objetivo social: ____% | <input type="checkbox"/> | <input type="checkbox"/> Ha promovido características medioambientales o sociales, pero no ha realizado ninguna inversión sostenible | |

Nota: Las inversiones sostenibles se calcularon sobre una base de aprobado/suspenso, incluyendo bonos con etiqueta (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% (medida por ingresos, EBIT, valor de empresa o indicadores similares) a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.

¿En qué grado se han cumplido las características medioambientales o sociales que promueve este producto financiero?

Las características medioambientales y sociales de este producto financiero se promovieron utilizando:

- Inclinación positiva:

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos y, como resultado, tuvo un perfil medioambiental, social y de gobernanza (ASG) mejor que el del índice de referencia. El índice MSCI AC World se utilizó para medir la inclinación positiva; sin embargo, no se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

- Exclusiones basadas en normas y valores:

El fondo excluyó los emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente o que incumplen de forma grave las normas internacionales, según se detalla a continuación:

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

Actividad

Exclusiones de empresas por incumplimiento de normas internacionales Excluidas

| | |
|---|----|
| Empresas que incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción | Sí |
|---|----|

Exclusiones de países Excluidas

| | |
|---|------------------------|
| Países (i) incluidos en la lista de Estados patrocinadores del terrorismo, según la definición de la Oficina de Control de Activos Extranjeros de EE. UU.[2] o (ii) sujetos a sanciones financieras de la UE contra bancos centrales y/o empresas de propiedad estatal. | Sí |
| Países (i) clasificados como de muy alto o alto riesgo en el Índice de Estados Frágiles o (ii) afectados por conflictos violentos según la definición del Banco Mundial. | Sí |
| Países (i) incluidos en la lista de «alerta» del Índice de Estados Frágiles o (ii) sujetos a sanciones relacionadas con la exportación por parte de la UE. | Lista de vigilancia[3] |

[1] Entre las armas controvertidas se encuentran las minas antipersona, las municiones de racimo, las armas biológicas y químicas (incluido el fósforo blanco) y las armas nucleares procedentes de países no firmantes del Tratado de No Proliferación de Armas Nucleares (TNP).

[2] «Estado patrocinador del terrorismo» es una designación aplicada por el Departamento de Estado de Estados Unidos a países que repetidamente han prestado apoyo a actos de terrorismo internacional.

[3] Además de las exclusiones estrictas, Pictet Asset Management mantiene una lista de vigilancia que incluye países que requieren una diligencia debida adicional por parte de los equipos de inversión antes de invertir.

Para más detalles, consulte la Política de Inversión responsable de Pictet Asset Management (Anexo B).

Además de las exclusiones mencionadas, basadas en la Política de Inversión responsable de Pictet Asset Management, la estrategia aplicó límites de exclusión más estrictos basados en directrices internas.

- Titularidad activa:

El fondo ejerció de forma metódica sus derechos de voto y se implicó con la dirección de las empresas sobre cuestiones ASG importantes.

Los indicadores de sostenibilidad miden cómo se alcanzan las características medioambientales o sociales que promueve el producto financiero.

- ¿Cómo se han comportado los indicadores de sostenibilidad?

Durante el periodo de información, los indicadores de sostenibilidad se comportaron según se indica a continuación:

- Perfil ASG global

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos.

Como resultado, el fondo ha conseguido un perfil ambiental, social y de gobernanza (ASG) mejor que el del índice de referencia.

- Principal incidencia adversa (PIA)

El fondo utiliza una combinación de enfoques para considerar y, en la medida de lo posible, mitigar las incidencias adversas materiales de nuestras inversiones en la sociedad y el medioambiente, como emisiones de GEI, contaminación atmosférica, pérdida de biodiversidad, emisiones al agua, residuos peligrosos/radioactivos, derechos humanos, normas laborales, corrupción y soborno, y salud pública.

El grado y la forma en que estas incidencias se tuvieron en cuenta dependieron de factores como el contexto específico de la inversión que provoca la incidencia adversa o la disponibilidad de datos fiables.

De conformidad con la política de exclusión de Pictet Asset Management descrita en la Política de Inversión responsable de la empresa (véase el cuadro anterior para consultar las actividades excluidas y los umbrales de exclusión aplicados), el fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente:

Actividades controvertidas (media ponderada de ingresos de la empresa, en %)*:

| | Fondo (%) | Índice de referencia (%) |
|--|-----------|--------------------------|
| Combustibles fósiles y energía nuclear | 0,00 | 4,15 |
| Armas | 0,05 | 0,99 |
| Otras actividades controvertidas | 0,17 | 1,02 |
| No aplicable: | 0,60 | 0,00 |
| No cubierto: | 0,05 | 0,02 |

* Los combustibles fósiles y la energía nuclear incluyen la extracción de carbón térmico y la generación de electricidad, la producción y extracción de petróleo y gas, la extracción de energía de esquisto, la exploración de petróleo y gas en los mares del Ártico y la generación de energía nuclear. Las armas incluyen la contratación militar (servicios de armas y relacionadas con estas), clientes civiles de armas pequeñas (armas de asalto/no asalto), clientes militares/de las fuerzas y cuerpos de seguridad de armas pequeñas y componentes clave de pequeñas armas. Otras actividades controvertidas incluyen la producción de tabaco, la producción de entretenimiento para adultos, la explotación de juegos de azar, el desarrollo o crecimiento de organismos modificados genéticamente, la producción o venta al por menor de pesticidas. La exposición se basa en datos de terceros y puede no reflejar nuestro punto de vista interno. Pictet Asset Management tiene plena discreción sobre la aplicación de los criterios de exclusión y se reserva el derecho de apartarse de la información de terceros, según el caso, cuando se considere incorrecta o incompleta.

Fuente: Pictet Asset Management, Sustainalytics.

Además, el fondo excluyó a los emisores que tenían exposición a:

(i) PIA 10: Incumplimientos de los principios del Pacto Mundial de las Naciones Unidas y las Directrices para Empresas Multinacionales de la Organización para la Cooperación y el Desarrollo Económicos (OCDE).

(ii) PIA 14: Exposición a armas controvertidas (minas antipersonas, municiones en racimo, armas químicas y armas biológicas)

- **Derechos de voto**

Durante el periodo de referencia, el fondo votó en 37 juntas generales de 38 juntas en las que se podía votar (97,37%). Votamos «en contra» (incluidas «abstenciones» o «retenciones») en al menos una resolución en el 55,26% de las juntas.

De las 532 resoluciones de la dirección, votamos en contra de la dirección en 64 puntos (12,03%) y nos abstuvimos en 4 puntos (0,75%).

Apoyamos 20 (62,50%) resoluciones de accionistas de un total de 32 propuestas.

Por lo que respecta a las cuestiones medioambientales y/o sociales, votamos a favor de 4 de las 4 resoluciones de la dirección y a favor de 6 de las 12 resoluciones de accionistas.

Fuente: *Pictet Asset Management, ISS ESG*.

- **Interacción**

El fondo se implicó con 10 empresas sobre cuestiones ASG (datos a 30.09.2023). Esto incluye diálogos internos, iniciativas de colaboración entre inversores y servicios de implicación de terceros. Para que se considere implicación, el diálogo con una empresa objetivo debe tener un objetivo claro y mensurable en un horizonte temporal predefinido. Es importante señalar que no todas las interacciones rutinarias o de supervisión, aunque impliquen a la alta dirección o al Consejo de administración, se consideran implicaciones en nuestra evaluación.

Fuente: *Pictet Asset Management, Sustainalytics*.

- **¿... y en comparación con períodos anteriores?**

Esta cuestión se abordará en futuros informes anuales debido a la falta de historial.

- **¿Cuáles han sido los objetivos de las inversiones sostenibles que ha realizado en parte el producto financiero y de qué forma ha contribuido la inversión sostenible a dichos objetivos?**

El fondo no se comprometió a un porcentaje mínimo de inversiones sostenibles.

Sin embargo, *a posteriori*, el fondo invirtió en valores que financian actividades económicas que contribuyeron sustancialmente a objetivos medioambientales y/o sociales como:

Medioambientales

- mitigación del cambio climático o adaptación al mismo
- suso sostenible y protección de los recursos hídricos y marinos
- transición hacia una economía circular
- prevención y control de la contaminación o
- protección y recuperación de la biodiversidad y los ecosistemas

Sociales

- comunidades inclusivas y sostenibles
- nivel de vida adecuado y bienestar para los usuarios finales o
- trabajo digno

Pictet Asset Management utilizó un marco de referencia propio, así como los objetivos de la Taxonomía de la UE, para definir las inversiones sostenibles.

- **¿De qué manera las inversiones sostenibles que el producto financiero ha realizado en parte, no han causado un perjuicio significativo a ningún objetivo de inversión sostenible medioambiental o social?**

Para evitar que las inversiones sostenibles causen un perjuicio significativo a cualquier otro objetivo medioambiental o social, el fondo aplicó los siguientes criterios de selección sobre la base del mejor esfuerzo:

(i) Exclusiones de emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente (véase la descripción del marco de exclusión de IR).

(ii) Los emisores asociados a controversias elevadas y graves no se contabilizaron como inversiones sostenibles.

La información se obtuvo de proveedores tercero y/o de análisis interno. La información ASG de terceros proveedores de datos puede haber sido incompleta, inexacta o no estar disponible. Como consecuencia de ello, existía el riesgo de que el Gestor de inversiones evaluará incorrectamente un valor o emisor, dando lugar a la inclusión o exclusión incorrecta de un valor en el fondo. Los datos ASG incompletos, inexactos o no disponibles también pueden actuar como una limitación

metodológica a una estrategia de inversión no financiera (como la aplicación de criterios ASG o similares). En los casos identificados, el Gestor de inversiones trató de mitigar este riesgo mediante su propia evaluación. En caso de que las características ASG de un valor mantenido por el fondo cambiaran, dando lugar a la venta del valor, el Gestor de inversiones no acepta responsabilidad alguna en relación con dicho cambio.

● *¿Cómo se han tenido en cuenta los indicadores adversas sobre los factores de sostenibilidad?*

Pictet Asset Management realiza un seguimiento de todos los indicadores obligatorios de principales incidencias adversas (incluidos en el Anexo 1 del Reglamento Delegado (UE) 22 / 1288 de la Comisión) cuando disponemos de datos sólidos. Se espera que la calidad de los datos disponibles mejore con el tiempo.

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas de sus inversiones en la sociedad y el medioambiente que se consideran importantes para la estrategia de inversión, mediante un conjunto de decisiones de gestión de cartera, actividades de propiedad activa y exclusión de emisores asociados a conductas o actividades controvertidas. Más información en el informe de PIA de la entidad, disponible en:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=es&bl=PAM>

● *¿Se han ajustado las inversiones sostenibles a las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios rectores de las Naciones Unidas sobre las empresas y los derechos humanos?*

Para garantizar que la inversión sostenible no causara un perjuicio significativo a ningún objetivo de inversión sostenible, el fondo excluyó a las empresas con infracciones elevadas y graves de (i) los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción o (ii) las Líneas Directrices de la OCDE para Empresas Multinacionales, incluidos los asuntos sociales y laborales graves.

La taxonomía de la UE establece el principio de «no causar un perjuicio significativo», según el cual las inversiones que se ajusten a la taxonomía no deben perjudicar significativamente a los objetivos de la taxonomía de la UE, e incluye criterios específicos de la Unión.

El principio de «no perjudicar de forma significativa» se aplica únicamente a las inversiones subyacentes del producto financiero que contemplan los criterios de la UE relativos a actividades económicas sostenibles desde una perspectiva medioambiental. Las inversiones subyacentes al resto del producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas medioambientalmente sostenibles.

Cualquier otra inversión sostenible tampoco debe perjudicar significativamente a ningún objetivo medioambiental o social.

¿Cómo tiene en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas que se consideran importantes para la estrategia de inversión. Entre las incidencias adversas se incluyeron, entre otras, las emisiones de gases de efecto invernadero (GEI), la contaminación atmosférica, la pérdida de biodiversidad, las emisiones al agua, los residuos peligrosos/radioactivos, las cuestiones sociales y laborales, y la corrupción y el soborno, que se abordaron mediante una combinación de:

(i) decisiones de gestión de carteras

El equipo de inversión puntuó las posiciones según una evaluación de los riesgos y oportunidades medioambientales, sociales y de gobernanza como parte del marco de puntuación del fondo. Las puntuaciones se determinan de forma cualitativa por los gestores de inversión, basándose en estudios fundamentales y datos cuantitativos ASG, incluidos los datos sobre el Principio de Impacto Negativo, los datos ASG facilitados por las empresas y los datos proporcionados por terceros proveedores de datos ASG. El proceso de puntuación del equipo de inversión fue un componente clave del proceso de construcción de la cartera del compartimento, determinando las ponderaciones objetivo en la cartera.

(ii) voto por delegación

El fondo se atuvo a las directrices de voto de Pictet Asset Management, que están diseñadas para apoyar una cultura de gobierno corporativo sólida, una gestión eficaz de las cuestiones medioambientales y sociales, y la publicación de información exhaustiva de acuerdo con normas creíbles. Dichas directrices también pretenden apoyar a los órganos de gobierno mundiales reconocidos

que promueven prácticas empresariales sostenibles que abogan por la gestión del medio ambiente, las prácticas laborales justas, la no discriminación y la protección de los derechos humanos. Todas las actividades de voto del fondo se registraron y pueden compartirse previa solicitud.

(iii) implicación

La interacción con los emisores se realizó mediante conversaciones individuales, reuniones de accionistas/bonistas, giras de inversores y/o conferencias telefónicas. Los objetivos de estas interacciones fueron evaluar una organización, supervisar que su estrategia se estaba aplicando conforme a nuestras expectativas y garantizar que los emisores iban camino de cumplir sus metas y objetivos.

Cuando corresponde, nos implicamos con las empresas en relación con cuestiones ASG importantes, como los objetivos de reducción de los GEI, las mejoras en la gobernanza y diversas controversias medioambientales, sociales y de gobernanza, para asegurarnos de que las entendieran y las abordaran eficazmente a corto, medio y largo plazo. Nuestras actividades de implicación combinaron debates dirigidos a nivel interno, iniciativas de colaboración con inversores institucionales y servicios de implicación externos.

(iv) exclusión de emisores asociados a conductas o actividades controvertidas

El fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se definen en la Política de Inversión responsable de la Pictet Asset Management y/o (ii) empresas que infringieron gravemente los principios del Pacto Mundial de la ONU sobre derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción y las armas controvertidas.

¿Cuáles han sido las inversiones principales de este producto financiero?

| INVERSIONES DE MAYOR VOLUMEN | SECTOR | % DE ACTIVOS | PAÍS |
|------------------------------|----------------------|--------------|----------------|
| VISA INC-CLASS A SHARES | Financiero | 4,8 | Estados Unidos |
| MARRIOTT INTERNATIONAL -CL A | Consumo discrecional | 4,7 | Estados Unidos |
| FERRARI NV | Consumo discrecional | 4,5 | Italia |
| CIE FINANCIERE RICHEMONT-REG | Consumo discrecional | 4,5 | Suiza |
| L'OREAL | Consumo básico | 4,5 | Francia |

| LULULEMON ATHLETICA INC | Consumo discrecional | 3,8 | Canadá |
| HERMES INTERNATIONAL | Consumo discrecional | 3,5 | Francia |

Fuente: Pictet Asset Management, GICS/MSCI.

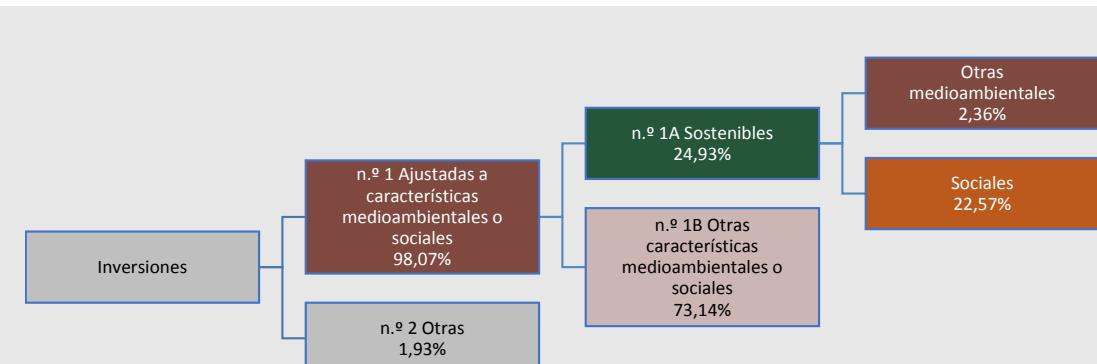

¿Cuál ha sido la proporción de inversiones relacionadas con la sostenibilidad?

24,93%

● ¿Cuál ha sido la asignación de activos?

El fondo se ajustó en un 98,07% con características medioambientales o sociales (n.º 1 Ajustadas a características medioambientales o sociales) y tuvo hasta un 1,93% invertido en la categoría Otras (n.º 2 Otras). El 24,93% se asignó a inversiones sostenibles (n.º 1A Sostenibles) y el resto se invirtió en inversiones ajustadas a otras características medioambientales o sociales (n.º 1B Otras características medioambientales o sociales).

La asignación de activos describe el porcentaje de inversiones en activos específicos.

n.º 1 Ajustadas a características medioambientales o sociales incluye las inversiones del producto financiero utilizadas para lograr las características medioambientales o sociales que promueve el producto financiero.

n.º 2 Otras incluye el resto de inversiones del producto financiero que ni se ajustan a las características medioambientales o sociales ni pueden considerarse inversiones sostenibles.

La categoría **n.º 1 Ajustadas a características medioambientales o sociales** abarca:

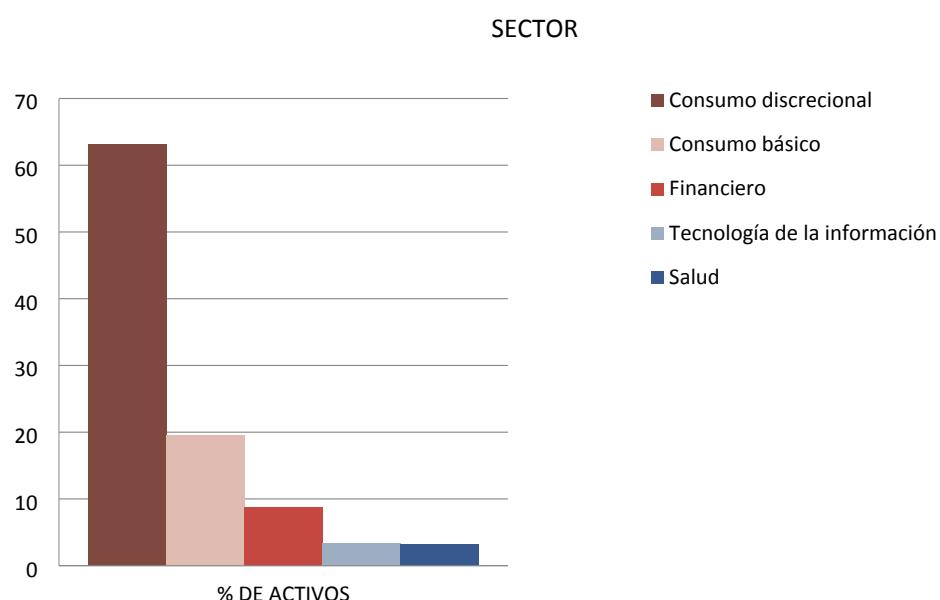

- la subcategoría **n.º 1A Sostenibles**, que abarca las inversiones sostenibles con objetivos medioambientales o sociales.
- la subcategoría **n.º 1B Otras características medioambientales o sociales**, que abarca inversiones ajustadas a las características medioambientales o sociales que no pueden considerarse inversiones sostenibles.

Notas:

- Las inversiones «n.º 1A Sostenibles», «Otras medioambientales» y «Sociales» se calcularon sobre una base de aprobado/suspenso. Incluyen bonos certificados (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.
- A falta de una taxonomía social de la UE, Pictet ha desarrollado un marco de taxonomía social propio. El marco se basa en basado en el Informe sobre taxonomía social publicado por la Plataforma de Finanzas Sostenibles de la UE en 2022. Las actividades admisibles se definen como bienes y servicios beneficiosos desde el punto de vista social que contribuyen sustancialmente a uno de los tres objetivos sociales siguientes: (1) comunidades inclusivas y sostenibles, (2) nivel de vida adecuado y bienestar para los usuarios finales y (3) trabajo digno.

Fuente: Pictet Asset Management, Sustainanalytics, FTSE Green Revenues, Factset RBICS.

● ¿En qué sectores económicos se han realizado las inversiones?

Fuente: Pictet Asset Management, GICS/MSCI.

Estamos evaluando la disponibilidad y la calidad de los datos que nos permitirían divulgar información más granular en futuros informes sobre los sectores y subsectores de la economía que obtienen ingresos a partir de la exploración, la minería, la extracción, la producción, el

procesamiento, el almacenamiento, el refinado o la distribución, incluidos el transporte, el almacenamiento y el comercio, de combustibles fósiles, según se definen en el artículo 2, punto (62), del Reglamento (UE) 2018/1999 del Parlamento Europeo y del Consejo.

¿En qué medida se ajustaban las inversiones sostenibles con un objetivo medioambiental a la taxonomía de la UE?

No aplicable.

● ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil o la energía nuclear que cumplían con la taxonomía de la UE¹?

Sí:

En gas fósil En energía nuclear

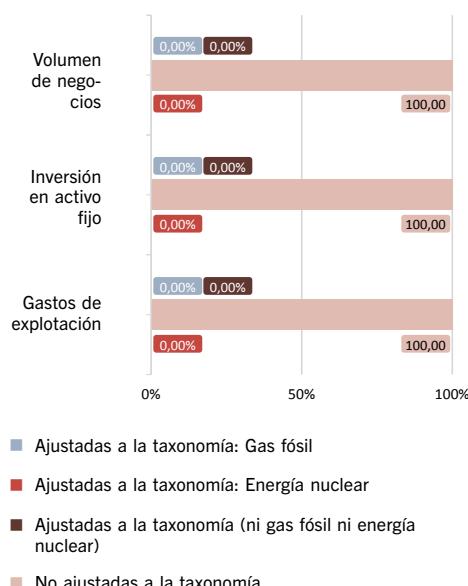

No

Para ajustarse a la taxonomía de la UE, los criterios correspondientes al **gas fósil** incluyen limitaciones de emisiones y el paso a la energía renovable o combustibles bajos en carbono de aquí al fin de 2035. Por lo que respecta a la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

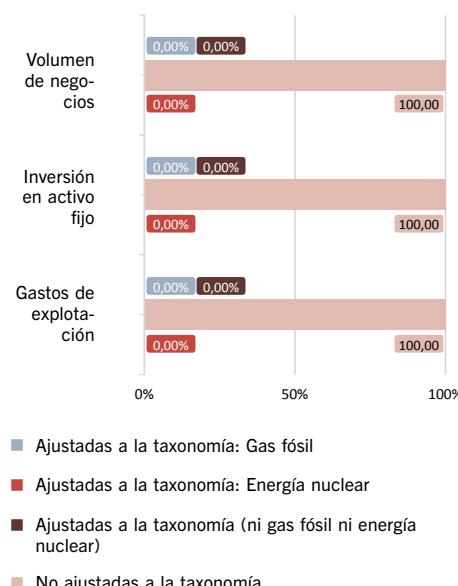

Las actividades que se ajustan a la taxonomía se expresan como un porcentaje de:
- el **volumen de negocios**, que refleja el «carácter ecológico» de las empresas en las que se invierte en la actualidad;
- la **inversión en activo fijo**, que muestra las inversiones ecológicas realizadas por las empresas en las que se invierte, pertinentes para la transición a una economía verde;
- los **gastos de explotación**, que reflejan las actividades operativas ecológicas de las empresas en las que se invierte.

Los gráficos que figuran a continuación muestran en verde el porcentaje de inversiones que se ajustaban a la taxonomía de la UE. Dado que no existe una metodología adecuada para determinar la adaptación a la taxonomía de los bonos soberanos*, el primer gráfico muestra la adaptación a la taxonomía correspondiente para todas las inversiones del producto financiero, incluidos los bonos soberanos, mientras que el segundo gráfico muestra la adaptación a la taxonomía solo en relación con las inversiones del producto financiero distintas de los bonos soberanos.

1. Ajuste a la taxonomía de las inversiones incluidos los bonos soberanos*

2. Ajuste a la taxonomía de las inversiones excluidos los bonos soberanos*

Este gráfico representa el 98,07% de las inversiones totales.

* A efectos de estos gráficos, los «bonos soberanos» incluyen todas las exposiciones soberanas

● ¿Cuál ha sido la proporción de las inversiones realizadas en actividades de transición y facilitadoras?

No aplicable.

¹ Las actividades relacionadas con el gas fósil o la energía nuclear solo cumplirán la taxonomía de la UE cuando contribuyan a limitar el cambio climático («mitigación del cambio climático») y no perjudiquen significativamente ningún objetivo de la taxonomía de la UE (véase la nota explicativa en el margen izquierdo). Los criterios completos correspondientes a las actividades económicas del gas fósil y la energía nuclear que se ajustan a la taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

- ¿Qué porcentaje de inversiones se han ajustado a la taxonomía de la UE en comparación con los períodos de referencia anteriores?

No aplicable.

¿Cuál ha sido la proporción de inversiones sostenibles con un objetivo medioambiental no ajustadas a la taxonomía de la UE?

2,36%

Estas inversiones sostenibles no se ajustan a la Taxonomía de la UE porque sus actividades económicas o bien (i) no están cubiertas por la Taxonomía de la UE, o bien (ii) no cumplen los criterios técnicos de selección para lograr una contribución sustancial en el sentido de la Taxonomía de la UE.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta los criterios para las actividades económicas medioambientalmente sostenibles con arreglo al Reglamento (UE) 2020/852.

¿Cuál ha sido la proporción de inversiones socialmente sostenibles?

22,57%

¿Qué inversiones se han incluido en «otras» y cuál ha sido su propósito? ¿ha habido garantías medioambientales o sociales mínimas?

Las «otras» inversiones del fondo incluían posiciones de tesorería mantenidas principalmente para satisfacer los objetivos diarios de liquidez y gestión de riesgos permitidos y previstos por la política de inversión del fondo. Cuando sea preciso, se aplicarán salvaguardias medioambientales o sociales mínimas a los valores subyacentes.

¿Qué medidas se han adoptado para cumplir las características medioambientales o sociales durante el período de referencia?

Durante el periodo de referencia, se alcanzó el objetivo de inversión sostenible siguiendo la estrategia de inversión y respetando los elementos vinculantes.

Los elementos vinculantes del fondo son:

- Exclusión de emisores que:
 - participan en la producción de armas controvertidas, incluidas minas antipersona, municiones de racimo, armas biológicas y químicas, armas nucleares y uranio empobrecido
 - obtienen una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, como la extracción de carbón térmico y la generación de electricidad, la exploración y producción no convencional de petróleo y gas, la producción de petróleo y gas convencional, la generación de energía nuclear, las armas convencionales y armas pequeñas, la contratación militar de armas y productos y servicios relacionados con las armas, la producción de tabaco, la producción de entretenimiento para adultos, las actividades del juego, el desarrollo y crecimiento de organismos modificados genéticamente, la producción y comercialización de pesticidas. Para más detalles sobre los umbrales de exclusión aplicables a las actividades anteriores, consulte la Política de Inversión responsable de Pictet Asset Management.
 - incumplen gravemente normas internacionales, incluidos los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción
- un perfil ASG mejor que el del índice de referencia
- análisis de criterios ASG de los valores admisibles que abarca al menos el 90% del patrimonio neto o el número de emisores incluidos en la cartera

Además, el fondo se implicó con 10 empresas a 30.09.2023.

¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

Los índices de referencia son índices para medir si el producto financiero logra las características medioambientales o sociales que promueve.

● ¿Cómo difería el índice de referencia de un índice general de mercado?

No aplicable.

● ¿Cómo se ha comportado este producto financiero con respecto a los indicadores de sostenibilidad para determinar la conformidad del índice de referencia con las características medioambientales o sociales que promueve?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice general de mercado?

No aplicable.

OBJETIVO DE INVERSIÓN SOSTENIBLE

Inversión sostenible significa una inversión en una actividad económica que contribuye a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo a ningún objetivo medioambiental o social y que las empresas en las que se invierte sigan prácticas de buena gobernanza.

La **taxonomía de la UE** es un sistema de clasificación previsto en el Reglamento (UE) 2020/852 por el que se establece una lista de **actividades económicas medioambientalmente sostenibles**. Dicho Reglamento no prevé una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental pueden ajustarse, o no, a la taxonomía.

| ¿ESTE PRODUCTO FINANCIERO TENÍA UN OBJETIVO DE INVERSIÓN SOSTENIBLE? | | | |
|--|--------------------------|---|--|
| <input checked="" type="radio"/> Si | <input type="radio"/> No | | |
| <input checked="" type="checkbox"/> Ha realizado inversiones sostenibles con un objetivo medioambiental: 26,72% | <input type="checkbox"/> | Promovió características medioambientales o sociales y, aunque no tenía como objetivo una inversión sostenible, tuvo un porcentaje del ___% de inversiones sostenibles | |
| <input checked="" type="checkbox"/> en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input type="checkbox"/> | con un objetivo medioambiental en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | |
| <input checked="" type="checkbox"/> en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input type="checkbox"/> | con un objetivo medioambiental en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | |
| | <input type="checkbox"/> | con un objetivo social | |
| <input checked="" type="checkbox"/> Ha realizado inversiones sostenibles con un objetivo social: 71,90% | <input type="checkbox"/> | Ha promovido características medioambientales o sociales , pero no ha realizado ninguna inversión sostenible | |

Nota: Las inversiones sostenibles se calcularon sobre una base de aprobado/suspenso, incluyendo bonos con etiqueta (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% (medida por ingresos, EBIT, valor de empresa o indicadores similares) a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.

¿En qué grado se ha cumplido el objetivo de inversión sostenible de este producto financiero?

Principales maneras por las que el fondo logró su objetivo de sostenibilidad:

- Impacto positivo:

El fondo logró un impacto medioambiental y/o social positivo, invirtiendo al menos dos terceras partes de sus activos totales/su patrimonio total en empresas del sector del agua y que aportan soluciones a las problemas del agua a escala global. El fondo se enfocó en empresas que proporcionan tecnologías para mejorar la calidad del agua, maximizar la eficiencia del agua o incrementar el número de hogares conectados a servicios de agua.

No se ha designado ningún índice de referencia con el fin de lograr el objetivo de inversión sostenible. El fondo invirtió principalmente en empresas cuyas actividades están relacionadas en gran medida con, entre otras cosas, la producción de agua, el tratamiento y la desalinización del agua, los proveedores de agua, el transporte y la distribución, la recogida y el tratamiento de aguas residuales, alcantarillados y residuos sólidos, líquidos y químicos, plantas de tratamientos de aguas residuales y la provisión de equipos y servicios de consultoría e ingeniería hidráulicos, y otras actividades económicas relevantes.

Entre las sociedades que se buscan en el sector del aire estarán aquellas encargadas del control de la calidad del aire, sociedades que proporcionan los equipos necesarios para la filtración del aire y sociedades que fabrican catalizadores para vehículos.

Los valores admisibles incluyeron acciones emitidas por empresas con una proporción significativa de actividades (medida por ingresos, EBIT, valor de empresa o parámetros similares) derivadas de dichas actividades económicas.

- Exclusiones basadas en normas y valores:

El fondo excluyó los emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente o que incumplen de forma grave las normas internacionales, según se detalla a continuación:

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

| Actividad | Umbrales de ingresos |
|---|----------------------|
| Combustibles fósiles y energía nuclear | |
| Extracción de carbón térmico | > 25% |
| Generación de energía térmica de carbón | > 25% |
| Producción de petróleo y gas | > 25% |
| Extracción de arenas bituminosas | > 10% |
| Extracción de energía de esquisto | > 10% |
| Exploración de petróleo y gas en el Ártico | > 10% |
| Generación de energía nuclear | > 50% |
| Armas | |
| Producción de armas controvertidas[1] | > 0% |
| Armas de contratación militar | > 10% |
| Productos y/o servicios relacionados con armas de contratación militar | > 50% |

| Exclusiones de países | Excluidas |
| Países (i) incluidos en la lista de Estados patrocinadores del terrorismo, según la definición de la Oficina de Control de Activos Extranjeros de EE. UU.[2] o (ii) sujetos a sanciones financieras de la UE contra bancos centrales y/o empresas de propiedad estatal. | Sí |
| Países (i) clasificados como de muy alto o alto riesgo en el Índice de Estados Frágiles o (ii) afectados por conflictos violentos según la definición del Banco Mundial. | Sí |

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

Países (i) incluidos en la lista de «alerta» del Índice de Estados Frágiles o (ii) sujetos a sanciones relacionadas con la exportación por parte de la UE. Lista de vigilancia[3]

[1] Entre las armas controvertidas se encuentran las minas antipersona, las municiones de racimo, las armas biológicas y químicas (incluido el fósforo blanco) y las armas nucleares procedentes de países no firmantes del Tratado de No Proliferación de Armas Nucleares (TNP).

[2] «Estado patrocinador del terrorismo» es una designación aplicada por el Departamento de Estado de Estados Unidos a países que repetidamente han prestado apoyo a actos de terrorismo internacional.

[3] Además de las exclusiones estrictas, Pictet Asset Management mantiene una lista de vigilancia que incluye países que requieren una diligencia debida adicional por parte de los equipos de inversión antes de invertir.

Para más detalles, consulte la Política de Inversión responsable de Pictet Asset Management (Anexo B).

Además de las exclusiones mencionadas, basadas en la Política de Inversión responsable de Pictet Asset Management, la estrategia aplicó límites de exclusión más estrictos basados en directrices internas.

- Titularidad activa:

El fondo ejerció sus derechos de voto de forma metódica. El fondo también se implicó con la dirección de las empresas sobre cuestiones ASG importantes.

- Inversiones sostenibles:

Pictet Asset Management utilizó un marco propio, así como los objetivos de la Taxonomía de la UE, para definir las inversiones sostenibles.

El fondo invirtió en valores que financiaban actividades económicas que contribuyeron sustancialmente a objetivos medioambientales y/o sociales como:

Medioambientales

- mitigación del cambio climático o adaptación al mismo
- suso sostenible y protección de los recursos hídricos y marinos
- transición hacia una economía circular
- prevención y control de la contaminación o
- protección y recuperación de la biodiversidad y el ecosistema

Sociales

- comunidades inclusivas y sostenibles
- nivel de vida adecuado y bienestar para los usuarios finales o
- trabajo digno

- **¿Cómo se han comportado los indicadores de sostenibilidad?**

Durante el periodo de información, los indicadores de sostenibilidad se comportaron según se indica a continuación:

- **Exposición a empresas que obtienen una parte significativa de sus ingresos, EBIT, valor de empresa o parámetros similares de actividades económicas que contribuyen a los objetivos medioambientales o sociales, y bonos con etiqueta cuando sea relevante para la clase de activos (inversiones sostenibles):**

98,61%

- **Exposición a ingresos de actividades económicas que contribuyen a la mitigación del cambio climático y/o a la adaptación al mismo (inversiones ajustadas a la taxonomía de la UE):**

3,31%

En el informe del próximo año se facilitará información adicional sobre objetivos medioambientales y/o sociales específicos.

- **Perfil ASG global**

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos.

Como resultado, el fondo ha conseguido un perfil medioambiental, social y de gobernanza (ASG) mejor que el del índice de referencia, tras eliminar el 20% inferior de emisores con las características ASG más bajas.

- **Principal incidencia adversa (PIA)**

Los indicadores de sostenibilidad miden cómo se logran los objetivos sostenibles de este producto financiero.

El fondo utiliza una combinación de enfoques para considerar y, en la medida de lo posible, mitigar las incidencias adversas materiales de sus inversiones en la sociedad y el medioambiente, como emisiones de GEI, contaminación atmosférica, pérdida de biodiversidad, emisiones al agua, residuos peligrosos/radioactivos, derechos humanos, normas laborales, corrupción y soborno, y salud pública.

El grado y la forma en que estas incidencias se tuvieron en cuenta dependieron de factores como el contexto específico de la inversión que provoca la incidencia adversa o la disponibilidad de datos fiables.

De conformidad con la política de exclusión de Pictet Asset Management descrita en la Política de Inversión responsable de la empresa (véase el cuadro anterior para consultar las actividades excluidas y los umbrales de exclusión aplicados), el fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se detalla a continuación:

Actividades controvertidas (media ponderada de ingresos de la empresa, en %)*:

| | Fondo (%) | Índice de referencia (%) |
|--|-----------|--------------------------|
| Combustibles fósiles y energía nuclear | 0,08 | 4,15 |
| Armas | 0,12 | 0,99 |
| Otras actividades controvertidas | 0,02 | 1,02 |
| No aplicable: | 0,55 | 0,00 |
| No cubierto: | 0,03 | 0,02 |

* Los combustibles fósiles y la energía nuclear incluyen la extracción de carbón térmico y la generación de electricidad, la producción y extracción de petróleo y gas, la extracción de energía de esquisto, la exploración de petróleo y gas en los mares del Ártico y la generación de energía nuclear. Las armas incluyen la contratación militar (servicios de armas y relacionadas con estas), clientes civiles de armas pequeñas (armas de asalto/no asalto), clientes militares/de las fuerzas y cuerpos de seguridad de armas pequeñas y componentes clave de pequeñas armas. Otras actividades controvertidas incluyen la producción de tabaco, la producción de entretenimiento para adultos, la explotación de juegos de azar, el desarrollo o crecimiento de organismos modificados genéticamente, la producción o venta al por menor de pesticidas. La exposición se basa en datos de terceros y puede no reflejar nuestro punto de vista interno. Pictet Asset Management tiene plena discreción sobre la aplicación de los criterios de exclusión y se reserva el derecho de apartarse de la información de terceros, según el caso, cuando se considere incorrecta o incompleta.

Fuente: Pictet Asset Management, Sustainalytics.

Además, el fondo excluyó a los emisores que tenían exposición a:

(i) PIA 10: Incumplimientos de los principios del Pacto Mundial de las Naciones Unidas y las Directrices para Empresas Multinacionales de la Organización para la Cooperación y el Desarrollo Económicos (OCDE).

(ii) PIA 14: Exposición a armas controvertidas (minas antipersonas, municiones en racimo, armas químicas y armas biológicas)

● Derechos de voto

Durante el periodo de referencia, el fondo votó en 58 juntas generales de 60 juntas en las que se podía votar (96,67%). Votamos «en contra» (incluidas «abstenciones» o «retenciones») en al menos una resolución en el 33,33% de las juntas.

De las 681 resoluciones de la dirección, votamos en contra de la dirección en 32 puntos (4,70%) y nos abstuvimos en 23 puntos (3,38%).

Apoyamos 9 (56,25%) resoluciones de accionistas de un total de 16 propuestas.

Por lo que respecta a las cuestiones medioambientales y/o sociales, votamos a favor de 6 de las 6 resoluciones de la dirección y a favor de 5 de las 7 resoluciones de accionistas.

Fuente: Pictet Asset Management, ISS ESG.

● Interacción

El fondo se implicó con 26 empresas sobre cuestiones ASG (datos a 30.09.2023). Esto incluye diálogos internos, iniciativas de colaboración entre inversores y servicios de implicación de terceros. Para que se considere implicación, el diálogo con una empresa objetivo debe tener un

objetivo claro y mensurable en un horizonte temporal predefinido. Es importante señalar que no todas las interacciones rutinarias o de supervisión, aunque impliquen a la alta dirección o al Consejo de administración, se consideran implicaciones en nuestra evaluación.

Fuente: Pictet Asset Management, Sustainalytics.

● **¿... y en comparación con períodos anteriores?**

Esta cuestión se abordará en futuros informes anuales debido a la falta de historial.

● **¿De qué manera las inversiones sostenibles no han causado un perjuicio significativo a ningún objetivo medioambiental o social?**

Para evitar que las inversiones sostenibles causen un perjuicio significativo a cualquier otro objetivo medioambiental o social, el fondo aplicó los siguientes criterios de selección sobre la base del mejor esfuerzo:

(i) Exclusiones de emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente (véase la descripción del marco de exclusión de IR).

(ii) Los emisores asociados a controversias elevadas y graves se excluyeron.

La información se obtuvo de proveedores terceros y/o de análisis interno. La información ASG de terceros proveedores de datos puede haber sido incompleta, inexacta o no estar disponible. Como consecuencia de ello, existía el riesgo de que el Gestor de inversiones evaluara incorrectamente un valor o emisor, dando lugar a la inclusión o exclusión incorrecta de un valor en el fondo. Los datos ASG incompletos, inexactos o no disponibles también pueden actuar como una limitación metodológica a una estrategia de inversión no financiera (como la aplicación de criterios ASG o similares). En los casos identificados, el Gestor de inversiones trató de mitigar este riesgo mediante su propia evaluación. En caso de que las características ASG de un valor mantenido por el fondo cambiaran, dando lugar a la venta del valor, el Gestor de inversiones no acepta responsabilidad alguna en relación con dicho cambio.

● **¿Cómo se han tenido en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?**

Pictet Asset Management realiza un seguimiento de todos los indicadores obligatorios de principales incidencias adversas (incluidos en el Anexo 1 del Reglamento Delegado (UE) 22 / 1288 de la Comisión) cuando disponemos de datos sólidos. Se espera que la calidad y la disponibilidad de los datos mejoren con el tiempo.

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas de sus inversiones en la sociedad y el medioambiente que se consideran importantes para la estrategia de inversión, mediante un conjunto de decisiones de gestión de cartera, actividades de propiedad activa y exclusión de emisores asociados a conductas o actividades controvertidas.

Más información en el informe de PIA de la entidad, disponible en:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=es&bl=PAM>

● **¿Se han ajustado las inversiones sostenibles a las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios rectores de las Naciones Unidas sobre las empresas y los derechos humanos?**

Para garantizar que la inversión sostenible no causara un perjuicio significativo a ningún objetivo de inversión sostenible, el fondo excluyó a las empresas con infracciones elevadas y graves de (i) los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción o (ii) las Líneas Directrices de la OCDE para Empresas Multinacionales, incluidos los asuntos sociales y laborales graves.

¿Cómo tiene en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas que se consideran importantes para la estrategia de inversión. Entre las incidencias adversas se incluyeron, entre otras, las emisiones de gases de efecto invernadero (GEI), la contaminación atmosférica, la pérdida de biodiversidad, las emisiones al agua, los residuos peligrosos/radioactivos, las cuestiones sociales y laborales, y la corrupción y el soborno, que se abordaron mediante una combinación de:

(i) decisiones de gestión de carteras

El equipo de inversión puntuó las posiciones según una evaluación de los riesgos y oportunidades medioambientales, sociales y de gobernanza, así como la exposición a inversiones sostenibles, como parte del marco de puntuación del fondo. Las puntuaciones se determinan de forma cualitativa por los gestores de inversión, basándose en estudios fundamentales y datos cuantitativos ASG, incluidos los datos sobre el Principio de Impacto Negativo, los datos ASG facilitados por las empresas y los datos proporcionados por terceros proveedores de datos ASG. El proceso de puntuación del equipo de inversión fue un componente clave del proceso de construcción de la cartera del compartimento, determinando las ponderaciones objetivo en la cartera.

(ii) voto por delegación

El fondo se atuvo a las directrices de voto de Pictet Asset Management, que están diseñadas para apoyar una cultura de gobierno corporativo sólida, una gestión eficaz de las cuestiones medioambientales y sociales, y la publicación de información exhaustiva de acuerdo con normas creíbles. Dichas directrices también pretenden apoyar a los órganos de gobierno mundiales reconocidos que promueven prácticas empresariales sostenibles que abogan por la gestión del medio ambiente, las prácticas laborales justas, la no discriminación y la protección de los derechos humanos. Todas las actividades de voto del fondo se registraron y pueden compartirse previa solicitud.

(iii) implicación

La interacción con los emisores se realizó mediante conversaciones individuales, reuniones de accionistas/bonistas, giras de inversores y/o conferencias telefónicas. Los objetivos de estas interacciones fueron evaluar una organización, supervisar que su estrategia se estaba aplicando conforme a nuestras expectativas y garantizar que los emisores iban camino de cumplir sus metas y objetivos.

Cuando correspondió, nos implicamos con los emisores para abordar preocupaciones importantes en materia de ASG, mejorar las prácticas de sostenibilidad de las empresas o implicarnos en temas de impacto positivo para asegurarnos de que las entendían plenamente y las abordaban eficazmente a corto, medio y largo plazo. Nuestras actividades de implicación combinaron debates dirigidos a nivel interno, iniciativas de colaboración con inversores institucionales y servicios de implicación externos.

(iv) exclusión de emisores asociados a conductas o actividades controvertidas

El fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se definen en la Política de Inversión responsable de la Pictet Asset Management y/o (ii) empresas que infringieron gravemente los principios del Pacto Mundial de la ONU sobre derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción y las armas controvertidas.

¿Cuáles han sido las inversiones principales de este producto financiero?

La lista incluye las inversiones que constituyen la mayor parte de las inversiones del producto financiero durante el período de referencia, que es: 01.10.2022 - 30.09.2023

| INVERSIONES DE MAYOR VOLUMEN | SECTOR | % DE ACTIVOS | PAÍS |
|------------------------------|----------------------|--------------|----------------|
| REPUBLIC SERVICES INC | Industria | 4,6 | Estados Unidos |
| THERMO FISHER SCIENTIFIC INC | Salud | 4,4 | Estados Unidos |
| FERGUSON PLC | Industria | 4,3 | Reino Unido |
| AMERICAN WATER WORKS CO INC | Suministros públicos | 4,3 | Estados Unidos |
| WASTE MANAGEMENT INC | Industria | 4,3 | Estados Unidos |
| VEOLIA ENVIRONNEMENT | Suministros públicos | 4,1 | Francia |
| WASTE CONNECTIONS INC | Industria | 4,0 | Canadá |
| XYLEM INC | Industria | 3,7 | Estados Unidos |
| DANAHER CORP | Salud | 3,5 | Estados Unidos |
| ECOLAB INC | Materiales | 3,1 | Estados Unidos |
| IDEX CORP | Industria | 3,0 | Estados Unidos |
| SEVERN TRENT PLC | Suministros públicos | 2,9 | Reino Unido |
| AGILENT TECHNOLOGIES INC | Salud | 2,7 | Estados Unidos |
| GEBERIT AG-REG | Industria | 2,4 | Suiza |

Fuente: Pictet Asset Management, GICS/MSCI.

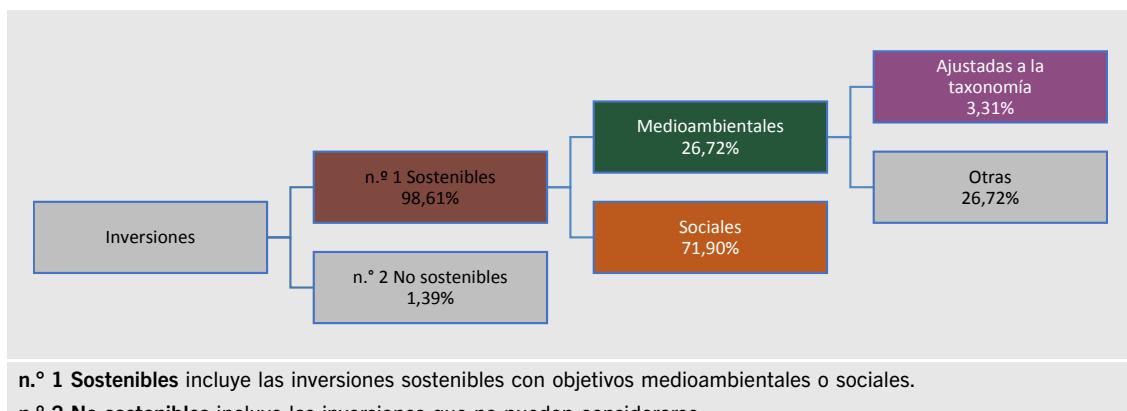

¿Cuál ha sido la proporción de inversiones relacionadas con la sostenibilidad?

98,61%

La asignación de activos describe el porcentaje de inversiones en activos específicos.

● ¿Cuál ha sido la asignación de activos?

El fondo asignó el 98,61% de sus activos a inversiones sostenibles (n.º 1 Sostenibles) y el 1,39% a Inversiones no sostenibles (n.º 2 No sostenibles). El 26,72% de sus activos se han asignado a objetivos medioambientales y el 71,90% a objetivos sociales.

n.º 1 Sostenibles incluye las inversiones sostenibles con objetivos medioambientales o sociales.

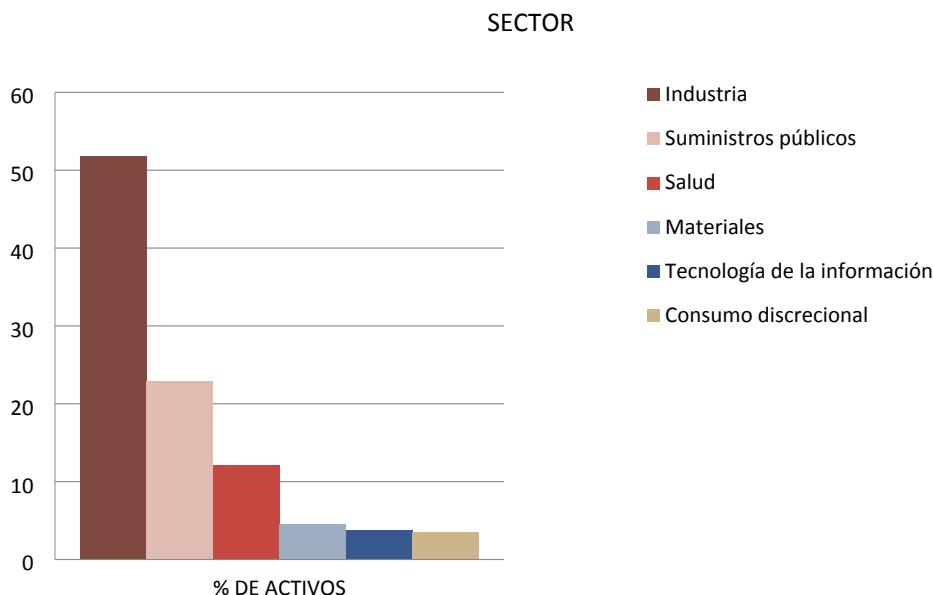

n.º 2 No sostenibles incluye las inversiones que no pueden considerarse

Notas:

- Las inversiones «n.º 1A Sostenibles», «Otras medioambientales» y «Sociales» se calcularon sobre una base de aprobado/suspenso. Incluyen bonos certificados (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.
- Las inversiones ajustadas a la taxonomía verde de la UE se calculan ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a la mitigación del cambio climático y la adaptación al mismo) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.
- A falta de una taxonomía social de la UE, Pictet ha desarrollado un marco de taxonomía social propio, basado en el Informe sobre taxonomía social publicado por la Plataforma de Finanzas Sostenibles de la UE en 2022. Las actividades admisibles se definen como bienes y servicios que contribuyen sustancialmente a uno de los tres objetivos siguientes: (1) comunidades inclusivas y sostenibles, (2) nivel de vida adecuado y bienestar para los usuarios finales y (3) trabajo digno.

Fuente: Pictet Asset Management, FTSE Green revenues, Factset RBICS.

● ¿En qué sectores económicos se han realizado las inversiones?

Fuente: Pictet Asset Management, GICS/MSCI.

Estamos evaluando la disponibilidad y la calidad de los datos que nos permitirían divulgar información más granular en futuros informes sobre los sectores y subsectores de la economía que obtienen ingresos a partir de la exploración, la minería, la extracción, la producción, el procesamiento, el almacenamiento, el refinado o la distribución, incluidos el transporte, el almacenamiento y el comercio, de combustibles fósiles, según se definen en el artículo 2, punto (62), del Reglamento (UE) 2018/1999 del Parlamento Europeo y del Consejo.

¿En qué medida se ajustaban las inversiones sostenibles con un objetivo medioambiental a la taxonomía de la UE?

El fondo realizó inversiones en actividades económicas que contribuyeron a los dos primeros objetivos medioambientales (mitigación del cambio climático y adaptación a este), según lo establecido en el artículo 9 del Reglamento (UE) 2020/852.

Las inversiones ajustadas a la taxonomía de la UE se calcularon ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a objetivos medioambientales relevantes) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.

Los datos de ajuste a la Taxonomía verde de la UE proceden de informes públicos. Los cálculos también pueden incluir estimaciones en un número limitado de casos en los que no se disponía de datos sobre la alineación con la Taxonomía verde de la UE. Las estimaciones se realizaron sobre la base del mejor esfuerzo y siguiendo un planteamiento conservador para obtener un resultado prudente.

Los procedimientos de control se han aplicado para verificar en todo momento el cumplimiento del artículo 3 del Reglamento sobre taxonomía de la UE.

Los datos facilitados no han sido verificados por un auditor externo ni revisados por un tercero independiente.

● ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil o la energía nuclear que cumplían con la taxonomía de la UE¹?

Sí:

En gas fósil En energía nuclear

No

La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permite ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

Para ajustarse a la taxonomía de la UE, los criterios correspondientes al **gas fósil** incluyen limitaciones de emisiones y el paso a la energía renovable o combustibles bajos en carbono de aquí al fin de 2035. Por lo que

¹ Las actividades relacionadas con el gas fósil o la energía nuclear solo cumplirán la taxonomía de la UE cuando contribuyan a limitar el cambio climático («mitigación del cambio climático») y no perjudiquen significativamente ningún objetivo de la taxonomía de la UE (véase la nota explicativa en el margen izquierdo). Los criterios completos correspondientes a las actividades económicas del gas fósil y la energía nuclear que se ajustan a la taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

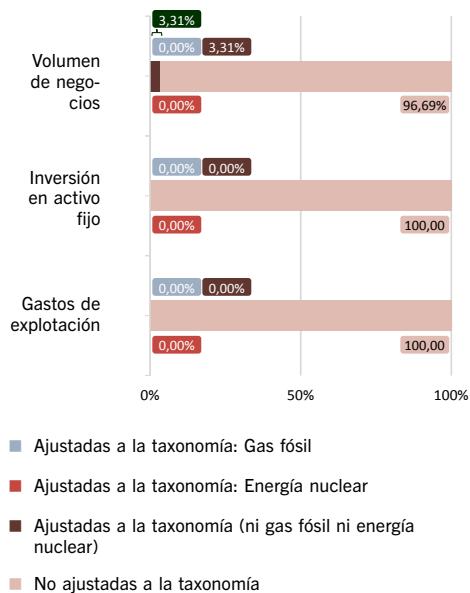

respecta a la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las actividades que se ajustan a la taxonomía se expresan como un porcentaje de:

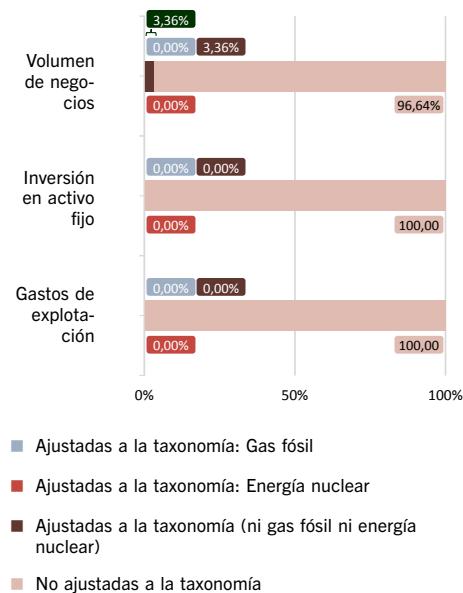

- **El volumen de negocios**, que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas en las que se invierte.
- **La inversión en activo fijo**, que muestra las inversiones ecológicas realizadas por las empresas en las que se invierte, por ejemplo, para la transición a una economía verde.
- **Los gastos de explotación**, que reflejan las actividades operativas ecológicas de las empresas en las que se invierte.

Los gráficos que figuran a continuación muestran en verde el porcentaje de inversiones que se ajustaban a la taxonomía de la UE. Dado que no existe una metodología adecuada para determinar la adaptación a la taxonomía de los bonos soberanos, el primer gráfico muestra la adaptación a la taxonomía correspondiente para todas las inversiones del producto financiero, incluidos los bonos soberanos, mientras que el segundo gráfico muestra la adaptación a la taxonomía solo en relación con las inversiones del producto financiero distintas de los bonos soberanos.*

1. Ajuste a la taxonomía de las inversiones incluidos los bonos soberanos*

2. Ajuste a la taxonomía de las inversiones excluidos los bonos soberanos*

Este gráfico representa el 98,61% de las inversiones totales.

* A efectos de estos gráficos, los «bonos soberanos» incluyen todas las exposiciones soberanas

Nota:

Utilizamos los ingresos como medida clave para establecer la asignación de objetivos y el ajuste real con la taxonomía de la UE debido a la disponibilidad limitada y a la falta de datos fiables para los gastos de explotación y la inversión en activo fijo.

Fuente: Pictet Asset Management.

● ¿Cuál ha sido la proporción de las inversiones realizadas en actividades de transición y facilitadoras?

La proporción de inversiones realizadas en:

- Actividades de transición: No aplicable*
- Actividades de facilitadoras: No aplicable*

* La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permiten ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

● ¿Qué porcentaje de inversiones se han ajustado a la taxonomía de la UE en comparación con los períodos de referencia anteriores?

No aplicable.

¿Cuál ha sido la proporción de inversiones sostenibles con un objetivo medioambiental no ajustadas a la taxonomía de la UE?

26,72%

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta los criterios para las actividades económicas medioambientalmente sostenibles con arreglo a la taxonomía de la UE.

Estas inversiones sostenibles no se ajustan a la Taxonomía de la UE porque sus actividades económicas o bien (i) no están cubiertas por la Taxonomía de la UE, o bien (ii) no cumplen los criterios técnicos de selección para lograr una contribución sustancial en el sentido de la Taxonomía de la UE.

¿Cuál ha sido la proporción de inversiones socialmente sostenibles?

71,9%

¿Qué inversiones se han incluido en «No sostenibles» y cuál ha sido su propósito? ¿Ha habido garantías medioambientales o sociales mínimas?

Las «otras» inversiones del fondo incluían posiciones de tesorería mantenidas principalmente para satisfacer los objetivos diarios de liquidez y gestión de riesgos permitidos y previstos por la política de inversión del fondo. Cuando sea preciso, se aplicarán salvaguardias medioambientales o sociales mínimas a los valores subyacentes.

¿Qué medidas se han adoptado para lograr el objetivo de inversión sostenible durante el período de referencia?

Durante el periodo de referencia, se alcanzó el objetivo de inversión sostenible siguiendo la estrategia de inversión y respetando los elementos vinculantes.

Los elementos vinculantes del fondo son:

- al menos el 80% de inversiones sostenibles, es decir, inversiones en empresas que tienen una exposición importante a actividades como la producción de agua, el tratamiento y la desalinización del agua, los proveedores de agua, el transporte y la distribución, el tratamiento de aguas residuales, alcantarillados y residuos sólidos, líquidos y químicos, plantas de tratamientos de aguas residuales y la provisión de equipos y servicios de consultoría e ingeniería hidráulicos, y otras actividades económicas relevantes (según los ingresos, el valor de empresa, los beneficios antes de intereses e impuestos o similares)
- Exclusión de emisores que:
 - participan en la producción de armas controvertidas, incluidas minas antipersona, municiones de racimo, armas biológicas y químicas, armas nucleares y uranio empobrecido
 - obtienen una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, como la extracción de carbón térmico y la generación de electricidad, la exploración y producción no convencional de petróleo y gas, la producción de petróleo y gas convencional, la generación de energía nuclear, las armas convencionales y armas pequeñas, la contratación militar de armas y productos y servicios relacionados con las armas, la producción de tabaco, la producción de entretenimiento para adultos, las actividades del juego, el desarrollo y crecimiento de organismos modificados genéticamente, la producción y comercialización de pesticidas. Para más detalles sobre los umbrales de exclusión aplicables a las actividades anteriores, consulte la Política de Inversión responsable de Pictet Asset Management.
 - incumplen gravemente normas internacionales, incluidos los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción
- un perfil ASG mejor que el del índice de referencia, tras eliminar el 20% inferior de emisores con las características ASG más bajas
- análisis de criterios ASG de los valores admisibles que abarca al menos el 90% del patrimonio neto o el número de emisores incluidos en la cartera

Además, el fondo se implicó con 26 empresas a 30.09.2023.

¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No se ha designado ningún índice de referencia con el fin de lograr el objetivo de inversión sostenible.

Los índices de referencia de sostenibilidad son índices que miden si el producto financiero logra el objetivo de sostenibilidad.

● ¿Cómo difería el índice de referencia de un índice general de mercado?

No aplicable.

● ¿Cómo se ha comportado este producto financiero con respecto a los indicadores de sostenibilidad para determinar la conformidad del índice de referencia con las características medioambientales o sociales que promueve?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice general de mercado?

No aplicable.

Nombre del producto: **Pictet - Japanese Equity Opportunities**

Identificador de entidad jurídica: **549300P01KPUTAFHD235**

CARACTERÍSTICAS MEDIOAMBIENTALES O SOCIALES

Inversión sostenible
significa una inversión en una actividad económica que contribuye a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo a ningún objetivo medioambiental o social y que las empresas en las que se invierte sigan prácticas de buena gobernanza.

La **taxonomía de la UE** es un sistema de clasificación previsto en el Reglamento (UE) 2020/852 por el que se establece una lista de **actividades económicas medioambientalmente sostenibles**. Dicho Reglamento no prevé una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental pueden ajustarse, o no, a la taxonomía.

| ¿ESTE PRODUCTO FINANCIERO TENÍA UN OBJETIVO DE INVERSIÓN SOSTENIBLE? | | | |
|--|--|-------------------------------------|--|
| <input checked="" type="radio"/> Si | | <input checked="" type="radio"/> No | |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo medioambiental: ____% | <input checked="" type="checkbox"/> | Promovió características medioambientales o sociales y, aunque no tenía como objetivo una inversión sostenible, tuvo un porcentaje del 38,35% de inversiones sostenibles |
| <input type="checkbox"/> | en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input type="checkbox"/> | con un objetivo medioambiental en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> | en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> | con un objetivo medioambiental en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo social: ____% | <input type="checkbox"/> | <input checked="" type="checkbox"/> con un objetivo social |
| <input type="checkbox"/> | | <input type="checkbox"/> | Ha promovido características medioambientales o sociales, pero no ha realizado ninguna inversión sostenible |

Nota: Las inversiones sostenibles se calcularon sobre una base de aprobado/suspenso, incluyendo bonos con etiqueta (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% (medida por ingresos, EBIT, valor de empresa o indicadores similares) a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.

¿En qué grado se han cumplido las características medioambientales o sociales que promueve este producto financiero?

Las características medioambientales y sociales de este producto financiero se promovieron utilizando:

- Inclinación positiva:

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos y, como resultado, tuvo un perfil medioambiental, social y de gobernanza (ASG) mejor que el del índice de referencia. El índice Topix se utilizó para medir la inclinación positiva; sin embargo, no se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

- Exclusiones basadas en normas y valores:

El fondo excluyó los emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente o que incumplen de forma grave las normas internacionales, según se detalla a continuación:

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

Actividad

Umbrales de ingresos

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

| | |
|---|------------------------------------|
| Combustibles fósiles y energía nuclear | |
| Extracción de carbón térmico | > 25% |
| Generación de energía térmica de carbón | > 25% |
| Extracción de arenas bituminosas | > 25% |
| Extracción de energía de esquisto | > 25% |
| Exploración de petróleo y gas en el Ártico | > 10% |
| Armas | |
| Producción de armas controvertidas ^[1] | > 0% |
| Armas de contratación militar | > 10% |
| Clientes civiles de armas pequeñas (armas de asalto) | > 10% |
| Clientes civiles de armas pequeñas (armas de no asalto) | > 10% |
| Clientes militares/de fuerzas del orden de armas pequeñas | > 25% |
| Componentes clave de armas pequeñas | > 25% |
| Otras actividades controvertidas | |
| Producción de entretenimiento para adultos | > 10% |
| Operaciones de juego | > 10% |
| Producción de productos de tabaco | > 10% |
| Exclusiones de empresas por incumplimiento de normas internacionales | Excluidas |
| Empresas que incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción | Sí |
| Exclusiones de países | Excluidas |
| Países (i) incluidos en la lista de Estados patrocinadores del terrorismo, según la definición de la Oficina de Control de Activos Extranjeros de EE. UU. ^[2] o (ii) sujetos a sanciones financieras de la UE contra bancos centrales y/o empresas de propiedad estatal. | Sí |
| Países (i) clasificados como de muy alto o alto riesgo en el Índice de Estados Frágiles o (ii) afectados por conflictos violentos según la definición del Banco Mundial. | Sí |
| Países (i) incluidos en la lista de «alerta» del Índice de Estados Frágiles o (ii) sujetos a sanciones relacionadas con la exportación por parte de la UE. | Lista de vigilancia ^[3] |

^[1] Entre las armas controvertidas se encuentran las minas antipersona, las municiones de racimo, las armas biológicas y químicas (incluido el fósforo blanco) y las armas nucleares procedentes de países no firmantes del Tratado de No Proliferación de Armas Nucleares (TNP).

^[2] «Estado patrocinador del terrorismo» es una designación aplicada por el Departamento de Estado de Estados Unidos a países que repetidamente han prestado apoyo a actos de terrorismo internacional.

^[3] Además de las exclusiones estrictas, Pictet Asset Management mantiene una lista de vigilancia que incluye países que requieren una diligencia debida adicional por parte de los equipos de inversión antes de invertir.

Para más detalles, consulte la Política de Inversión responsable de Pictet Asset Management (Anexo B).

- Titularidad activa:

El fondo ejerció de forma metódica sus derechos de voto y se implicó con la dirección de las empresas sobre cuestiones ASG importantes.

● **¿Cómo se han comportado los indicadores de sostenibilidad?**

Durante el periodo de información, los indicadores de sostenibilidad se comportaron según se indica a continuación:

- **Perfil ASG global**

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos.

Como resultado, el fondo ha conseguido un perfil ambiental, social y de gobernanza (ASG) mejor que el del índice de referencia.

● **Principal incidencia adversa (PIA)**

El fondo utiliza una combinación de enfoques para considerar y, en la medida de lo posible, mitigar las incidencias adversas materiales de nuestras inversiones en la sociedad y el medioambiente, como emisiones de GEI, contaminación atmosférica, pérdida de biodiversidad, emisiones al agua, residuos peligrosos/radioactivos, derechos humanos, normas laborales, corrupción y soborno, y salud pública.

El grado y la forma en que estas incidencias se tuvieron en cuenta dependieron de factores como el contexto específico de la inversión que provoca la incidencia adversa o la disponibilidad de datos fiables.

De conformidad con la política de exclusión de Pictet Asset Management descrita en la Política de Inversión responsable de la empresa (véase el cuadro anterior para consultar las actividades excluidas y los umbrales de exclusión aplicados), el fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente:

Actividades controvertidas (media ponderada de ingresos de la empresa, en %)*:

| | Fondo (%) | Índice de referencia (%) |
|--|-----------|--------------------------|
| Combustibles fósiles y energía nuclear | 0,02 | 1,24 |
| Armas | 0,12 | 0,15 |
| Otras actividades controvertidas | 0,09 | 0,68 |
| No aplicable: | 0,77 | 0,00 |
| No cubierto: | 0,00 | 1,06 |

* Los combustibles fósiles y la energía nuclear incluyen la extracción de carbón térmico y la generación de electricidad, la producción y extracción de petróleo y gas, la extracción de energía de esquisto, la exploración de petróleo y gas en los mares del Ártico y la generación de energía nuclear. Las armas incluyen la contratación militar (servicios de armas y relacionadas con estas), clientes civiles de armas pequeñas (armas de asalto/no asalto), clientes militares/de las fuerzas y cuerpos de seguridad de armas pequeñas y componentes clave de pequeñas armas. Otras actividades controvertidas incluyen la producción de tabaco, la producción de entretenimiento para adultos, la explotación de juegos de azar, el desarrollo o crecimiento de organismos modificados genéticamente, la producción o venta al por menor de pesticidas. La exposición se basa en datos de terceros y puede no reflejar nuestro punto de vista interno. Pictet Asset Management tiene plena discreción sobre la aplicación de los criterios de exclusión y se reserva el derecho de apartarse de la información de terceros, según el caso, cuando se considere incorrecta o incompleta.

Fuente: Pictet Asset Management, Sustainalytics.

Además, el fondo excluyó a los emisores que tenían exposición a:

(i) PIA 10: Incumplimientos de los principios del Pacto Mundial de las Naciones Unidas y las Directrices para Empresas Multinacionales de la Organización para la Cooperación y el Desarrollo Económicos (OCDE).

(ii) PIA 14: Exposición a armas controvertidas (minas antipersonas, municiones en racimo, armas químicas y armas biológicas)

● **Derechos de voto**

Durante el periodo de referencia, el fondo votó en 70 juntas generales de 70 juntas en las que se podía votar (100,00%). Votamos «en contra» (incluidas «abstenciones» o «retenciones») en al menos una resolución en el 20,00% de las juntas.

De las 803 resoluciones de la dirección, votamos en contra de la dirección en 22 puntos (2,74%) y nos abstuvimos en 0 puntos (0,00%).

Apoyamos 5 (83,33%) resoluciones de accionistas de un total de 6 propuestas.

Por lo que respecta a las cuestiones medioambientales y/o sociales, votamos a favor de 0 de las 0 resoluciones de la dirección y a favor de 1 de 1 resolución de accionistas.

Fuente: Pictet Asset Management, ISS ESG.

● Interacción

El fondo se implicó con 15 empresas sobre cuestiones ASG (datos a 30.09.2023). Esto incluye diálogos internos, iniciativas de colaboración entre inversores y servicios de implicación de terceros. Para que se considere implicación, el diálogo con una empresa objetivo debe tener un objetivo claro y mensurable en un horizonte temporal predefinido. Es importante señalar que no todas las interacciones rutinarias o de supervisión, aunque impliquen a la alta dirección o al Consejo de administración, se consideran implicaciones en nuestra evaluación.

Fuente: Pictet Asset Management, Sustainalytics.

● ¿... y en comparación con períodos anteriores?

Esta cuestión se abordará en futuros informes anuales debido a la falta de historial.

● ¿Cuáles han sido los objetivos de las inversiones sostenibles que ha realizado en parte el producto financiero y de qué forma ha contribuido la inversión sostenible a dichos objetivos?

El fondo no se comprometió a un porcentaje mínimo de inversiones sostenibles.

Sin embargo, *a posteriori*, el fondo invirtió en valores que financiaban actividades económicas que contribuyeron sustancialmente a objetivos medioambientales y/o sociales como:

Medioambientales

- mitigación del cambio climático o adaptación al mismo
- suso sostenible y protección de los recursos hídricos y marinos
- transición hacia una economía circular
- prevención y control de la contaminación o
- protección y recuperación de la biodiversidad y los ecosistemas

Sociales

- comunidades inclusivas y sostenibles
- nivel de vida adecuado y bienestar para los usuarios finales o
- trabajo digno

Pictet Asset Management utilizó un marco de referencia propio, así como los objetivos de la Taxonomía de la UE, para definir las inversiones sostenibles.

● ¿De qué manera las inversiones sostenibles que el producto financiero ha realizado en parte, no han causado un perjuicio significativo a ningún objetivo de inversión sostenible medioambiental o social?

Para evitar que las inversiones sostenibles causen un perjuicio significativo a cualquier otro objetivo medioambiental o social, el fondo aplicó los siguientes criterios de selección sobre la base del mejor esfuerzo:

- (i) Exclusiones de emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente (véase la descripción del marco de exclusión de IR).
- (ii) Los emisores asociados a controversias elevadas y graves no se contabilizaron como inversiones sostenibles.

La información se obtuvo de proveedores terceros y/o de análisis interno. La información ASG de terceros proveedores de datos puede haber sido incompleta, inexacta o no estar disponible. Como consecuencia de ello, existía el riesgo de que el Gestor de inversiones evaluara incorrectamente un valor o emisor, dando lugar a la inclusión o exclusión incorrecta de un valor en el fondo. Los datos ASG incompletos, inexactos o no disponibles también pueden actuar como una limitación metodológica a una estrategia de inversión no financiera (como la aplicación de criterios ASG o similares). En los casos identificados, el Gestor de inversiones trató de mitigar este riesgo mediante su propia evaluación. En caso de que las características ASG de un valor mantenido por el fondo cambiaran, dando lugar a la venta del valor, el Gestor de inversiones no acepta responsabilidad alguna en relación con dicho cambio.

● ¿Cómo se han tenido en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?

Pictet Asset Management realiza un seguimiento de todos los indicadores obligatorios de principales incidencias adversas (incluidos en el Anexo 1 del Reglamento Delegado (UE) 22 / 1288 de la Comisión) cuando disponemos de datos sólidos. Se espera que la calidad de los datos disponibles mejore con el tiempo.

Las principales incidencias adversas son las incidencias negativas más importantes de las decisiones de inversión sobre los factores de sostenibilidad en relación con asuntos

medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas de sus inversiones en la sociedad y el medioambiente que se consideran importantes para la estrategia de inversión, mediante un conjunto de decisiones de gestión de cartera, actividades de propiedad activa y exclusión de emisores asociados a conductas o actividades controvertidas. Más información en el informe de PIA de la entidad, disponible en:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=es&bl=PAM>

- *¿Se han ajustado las inversiones sostenibles a las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios rectores de las Naciones Unidas sobre las empresas y los derechos humanos?*

Para garantizar que la inversión sostenible no causara un perjuicio significativo a ningún objetivo de inversión sostenible, el fondo excluyó a las empresas con infracciones elevadas y graves de (i) los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción o (ii) las Líneas Directrices de la OCDE para Empresas Multinacionales, incluidos los asuntos sociales y laborales graves.

La taxonomía de la UE establece el principio de «no causar un perjuicio significativo», según el cual las inversiones que se ajusten a la taxonomía no deben perjudicar significativamente a los objetivos de la taxonomía de la UE, e incluye criterios específicos de la Unión.

El principio de «no perjudicar de forma significativa» se aplica únicamente a las inversiones subyacentes del producto financiero que contemplan los criterios de la UE relativos a actividades económicas sostenibles desde una perspectiva medioambiental. Las inversiones subyacentes al resto del producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas medioambientalmente sostenibles.

Cualquier otra inversión sostenible tampoco debe perjudicar significativamente a ningún objetivo medioambiental o social.

¿Cómo tiene en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas que se consideran importantes para la estrategia de inversión. Entre las incidencias adversas se incluyeron, entre otras, las emisiones de gases de efecto invernadero (GEI), la contaminación atmosférica, la pérdida de biodiversidad, las emisiones al agua, los residuos peligrosos/radioactivos, las cuestiones sociales y laborales, y la corrupción y el soborno, que se abordaron mediante una combinación de:

(i) decisiones de gestión de carteras

El equipo de inversión puntuó las posiciones según una evaluación de los riesgos medioambientales, sociales y de gobernanza como parte del marco de puntuación del fondo. Los gestores de inversiones determinan las puntuaciones sobre una base cualitativa, basándose en el análisis fundamental y en datos cuantitativos ASG, incluidos los datos sobre la Principal incidencia adversa, los datos ASG facilitados por las empresas y los datos proporcionados por terceros proveedores de datos ASG. El proceso de puntuación del equipo de inversión fue un componente clave del proceso de construcción de la cartera del compartimento, determinando las ponderaciones objetivo en la cartera.

(ii) voto por delegación

El fondo se atuvo a las directrices de voto de Pictet Asset Management, que están diseñadas para apoyar una cultura de gobierno corporativo sólida, una gestión eficaz de las cuestiones medioambientales y sociales, y la publicación de información exhaustiva de acuerdo con normas creíbles. Dichas directrices también pretenden apoyar a los órganos de gobierno mundiales reconocidos que promueven prácticas empresariales sostenibles que abogan por la gestión del medio ambiente, las prácticas laborales justas, la no discriminación y la protección de los derechos humanos. Todas las actividades de voto del fondo se registraron y pueden compartirse previa solicitud.

(iii) implicación

La interacción con los emisores se realizó mediante conversaciones individuales, reuniones de accionistas/bonistas, giras de inversores y/o conferencias telefónicas. Los objetivos de estas interacciones fueron evaluar una organización, supervisar que su estrategia se estaba aplicando conforme a nuestras expectativas y garantizar que los emisores iban camino de cumplir sus metas y objetivos.

Cuando corresponde, nos implicamos con las empresas en relación con cuestiones ASG importantes, como los objetivos de reducción de los GEI, las mejoras en la gobernanza y diversas controversias medioambientales, sociales y de gobernanza, para asegurarnos de que las entendieran y las abordaran

eficazmente a corto, medio y largo plazo. Nuestras actividades de implicación combinaron debates dirigidos a nivel interno, iniciativas de colaboración con inversores institucionales y servicios de implicación externos.

(iv) exclusión de emisores asociados a conductas o actividades controvertidas

El fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se definen en la Política de Inversión responsable de la Pictet Asset Management y/o (ii) empresas que infringieron gravemente los principios del Pacto Mundial de la ONU sobre derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción y las armas controvertidas.

¿Cuáles han sido las inversiones principales de este producto financiero?

La lista incluye las inversiones que constituyen la mayor parte de las inversiones del producto financiero durante el período de referencia, que es: 01.10.2022 - 30.09.2023

| INVERSIONES DE MAYOR VOLUMEN | SECTOR | % DE ACTIVOS | PAÍS |
|------------------------------|------------------------------|--------------|-------|
| TOYOTA MOTOR CORP | Consumo discrecional | 3,4 | Japón |
| SONY GROUP CORP | Consumo discrecional | 3,3 | Japón |
| HITACHI LTD | Industria | 3,1 | Japón |
| KEYENCE CORP | Tecnología de la información | 3,1 | Japón |
| SHIN-ETSU CHEMICAL CO LTD | Materiales | 3,1 | Japón |
| MITSUBISHI UFJ FINANCIAL GRO | Financiero | 2,8 | Japón |
| NIPPON TELEGRAPH & TELEPHONE | Consumo discrecional | 2,7 | Japón |
| ORIX CORP | Financiero | 2,4 | Japón |
| RECRUIT HOLDINGS CO LTD | Industria | 2,4 | Japón |
| NINTENDO CO LTD | Consumo discrecional | 2,3 | Japón |
| FUJITSU LIMITED | Tecnología de la información | 2,3 | Japón |
| SUZUKI MOTOR CORP | Consumo discrecional | 2,3 | Japón |
| DENSO CORP | Consumo discrecional | 2,3 | Japón |
| RENESAS ELECTRONICS CORP | Tecnología de la información | 2,2 | Japón |
| OLYMPUS CORP | Salud | 2,2 | Japón |

¿Cuál ha sido la proporción de inversiones relacionadas con la sostenibilidad?

38,35%

La asignación de activos describe el porcentaje de inversiones en activos específicos.

¿Cuál ha sido la asignación de activos?

El fondo se ajustó en un 99,23% con características medioambientales o sociales (n.º 1 Ajustadas a características medioambientales o sociales) y tuvo hasta un 0,77% invertido en la categoría Otras (n.º 2 Otras). El 38,35% se asignó a inversiones sostenibles (n.º 1A Sostenibles) y el resto se invirtió en inversiones ajustadas a otras características medioambientales o sociales (n.º 1B Otras características medioambientales o sociales).

n.º 1 Ajustadas a características medioambientales o sociales incluye las inversiones del producto financiero utilizadas para lograr las características medioambientales o sociales que promueve el producto financiero.

n.º 2 Otras incluye el resto de inversiones del producto financiero que ni se ajustan a las características medioambientales o sociales ni pueden considerarse inversiones sostenibles.

La categoría **n.º 1 Ajustadas a características medioambientales o sociales** abarca:

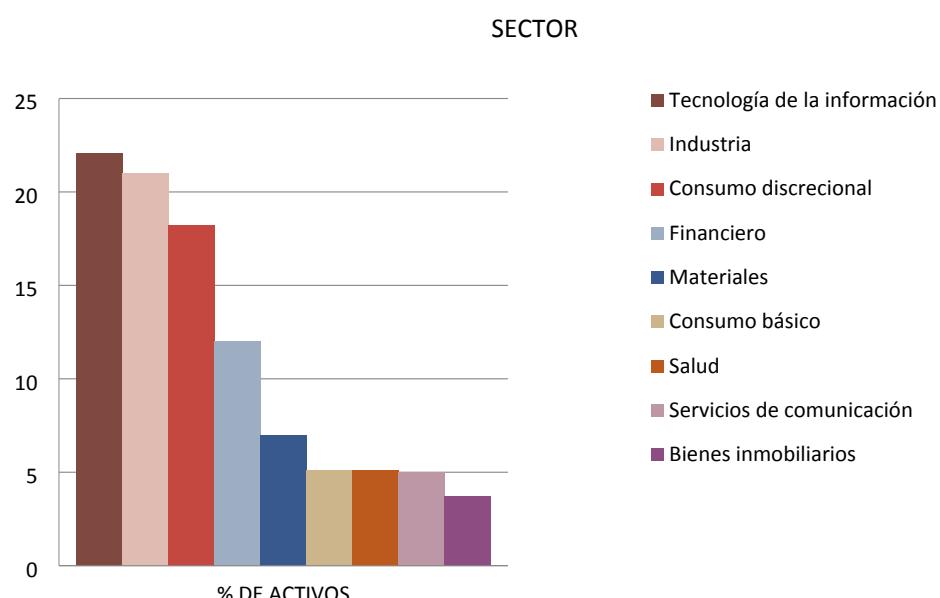

- la subcategoría **n.º 1A Sostenibles**, que abarca las inversiones sostenibles con objetivos medioambientales o sociales.
- la subcategoría **n.º 1B Otras características medioambientales o sociales**, que abarca inversiones ajustadas a las características medioambientales o sociales que no pueden considerarse inversiones sostenibles.

Notas:

- Las inversiones «n.º 1A Sostenibles», «Otras medioambientales» y «Sociales» se calcularon sobre una base de aprobado/suspenso. Incluyen bonos certificados (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.
- A falta de una taxonomía social de la UE, Pictet ha desarrollado un marco de taxonomía social propio. El marco se basa en basado en el Informe sobre taxonomía social publicado por la Plataforma de Finanzas Sostenibles de la UE en 2022. Las actividades admisibles se definen como bienes y servicios beneficiosos desde el punto de vista social que contribuyen sustancialmente a uno de los tres objetivos sociales siguientes: (1) comunidades inclusivas y sostenibles, (2) nivel de vida adecuado y bienestar para los usuarios finales y (3) trabajo digno.

Fuente: Pictet Asset Management, Sustainanalytics, FTSE Green Revenues, Factset RBICS.

● ¿En qué sectores económicos se han realizado las inversiones?

Fuente: Pictet Asset Management, GICS/MSCI.

Estamos evaluando la disponibilidad y la calidad de los datos que nos permitirían divulgar información más granular en futuros informes sobre los sectores y subsectores de la economía que obtienen ingresos a partir de la exploración, la minería, la extracción, la producción, el

procesamiento, el almacenamiento, el refinado o la distribución, incluidos el transporte, el almacenamiento y el comercio, de combustibles fósiles, según se definen en el artículo 2, punto (62), del Reglamento (UE) 2018/1999 del Parlamento Europeo y del Consejo.

¿En qué medida se ajustaban las inversiones sostenibles con un objetivo medioambiental a la taxonomía de la UE?

No aplicable.

● ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil o la energía nuclear que cumplían con la taxonomía de la UE¹?

Sí:

En gas fósil En energía nuclear

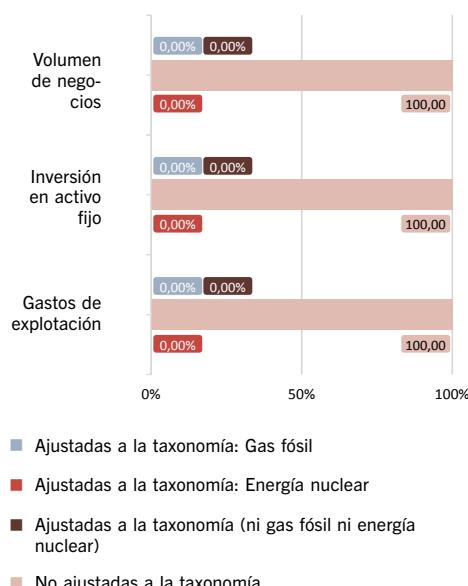

No

Para ajustarse a la taxonomía de la UE, los criterios correspondientes al **gas fósil** incluyen limitaciones de emisiones y el paso a la energía renovable o combustibles bajos en carbono de aquí al fin de 2035. Por lo que respecta a la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

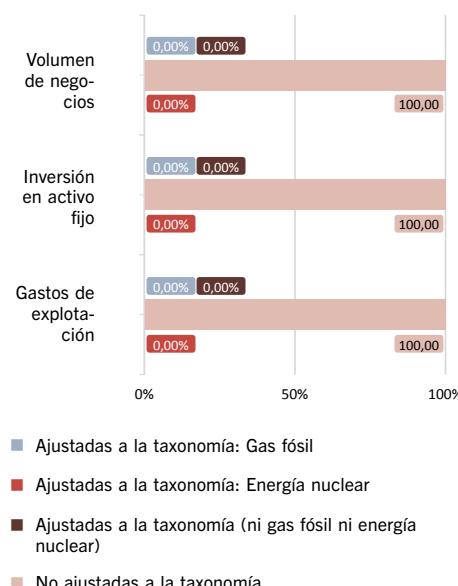

Las actividades que se ajustan a la taxonomía se expresan como un porcentaje de:
- el **volumen de negocios**, que refleja el «carácter ecológico» de las empresas en las que se invierte en la actualidad;
- la **inversión en activo fijo**, que muestra las inversiones ecológicas realizadas por las empresas en las que se invierte, pertinentes para la transición a una economía verde;
- los **gastos de explotación**, que reflejan las actividades operativas ecológicas de las empresas en las que se invierte.

Los gráficos que figuran a continuación muestran en verde el porcentaje de inversiones que se ajustaban a la taxonomía de la UE. Dado que no existe una metodología adecuada para determinar la adaptación a la taxonomía de los bonos soberanos*, el primer gráfico muestra la adaptación a la taxonomía correspondiente para todas las inversiones del producto financiero, incluidos los bonos soberanos, mientras que el segundo gráfico muestra la adaptación a la taxonomía solo en relación con las inversiones del producto financiero distintas de los bonos soberanos.

1. Ajuste a la taxonomía de las inversiones incluidos los bonos soberanos*

2. Ajuste a la taxonomía de las inversiones excluidos los bonos soberanos*

Este gráfico representa el 99,23% de las inversiones totales.

* A efectos de estos gráficos, los «bonos soberanos» incluyen todas las exposiciones soberanas

● ¿Cuál ha sido la proporción de las inversiones realizadas en actividades de transición y facilitadoras?

No aplicable.

¹ Las actividades relacionadas con el gas fósil o la energía nuclear solo cumplirán la taxonomía de la UE cuando contribuyan a limitar el cambio climático («mitigación del cambio climático») y no perjudiquen significativamente ningún objetivo de la taxonomía de la UE (véase la nota explicativa en el margen izquierdo). Los criterios completos correspondientes a las actividades económicas del gas fósil y la energía nuclear que se ajustan a la taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

- ¿Qué porcentaje de inversiones se han ajustado a la taxonomía de la UE en comparación con los períodos de referencia anteriores?

No aplicable.

¿Cuál ha sido la proporción de inversiones sostenibles con un objetivo medioambiental no ajustadas a la taxonomía de la UE?

14,25%

Estas inversiones sostenibles no se ajustan a la Taxonomía de la UE porque sus actividades económicas o bien (i) no están cubiertas por la Taxonomía de la UE, o bien (ii) no cumplen los criterios técnicos de selección para lograr una contribución sustancial en el sentido de la Taxonomía de la UE.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta los criterios para las actividades económicas medioambientalmente sostenibles con arreglo al Reglamento (UE) 2020/852.

¿Cuál ha sido la proporción de inversiones socialmente sostenibles?

24,1%

¿Qué inversiones se han incluido en «otras» y cuál ha sido su propósito? ¿ha habido garantías medioambientales o sociales mínimas?

Las «otras» inversiones del fondo incluían posiciones de tesorería mantenidas principalmente para satisfacer los objetivos diarios de liquidez y gestión de riesgos permitidos y previstos por la política de inversión del fondo. Cuando sea preciso, se aplicarán salvaguardias medioambientales o sociales mínimas a los valores subyacentes.

¿Qué medidas se han adoptado para cumplir las características medioambientales o sociales durante el período de referencia?

Durante el periodo de referencia, se alcanzó el objetivo de inversión sostenible siguiendo la estrategia de inversión y respetando los elementos vinculantes.

Los elementos vinculantes del fondo son:

- Exclusión de emisores que:
 - están relacionados con armas nucleares de países que no han firmado el Tratado sobre la No Proliferación de Armas Nucleares (TNP) y otras armas controvertidas
 - obtienen una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, como la extracción de carbón térmico y la generación de electricidad, la exploración y producción no convencional de petróleo y gas, las armas convencionales y armas pequeñas, las armas de contratación militar, la producción de tabaco, la producción de entretenimiento para adultos y las actividades del juego. Para más detalles sobre los umbrales de exclusión aplicables a las actividades anteriores, consulte la Política de Inversión responsable de Pictet Asset Management.
 - incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción
- un perfil ASG mejor que el del índice de referencia
- análisis de criterios ASG de los valores admisibles que abarca al menos el 90% del patrimonio neto o el número de emisores incluidos en la cartera

Además, el fondo se implicó con 15 empresas a 30.09.2023.

¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

Los índices de referencia son índices para medir si el producto financiero logra las características medioambientales o sociales que promueve.

● ¿Cómo difería el índice de referencia de un índice general de mercado?

No aplicable.

● ¿Cómo se ha comportado este producto financiero con respecto a los indicadores de sostenibilidad para determinar la conformidad del índice de referencia con las características medioambientales o sociales que promueve?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice general de mercado?

No aplicable.

CARACTERÍSTICAS MEDIOAMBIENTALES O SOCIALES

Inversión sostenible
significa una inversión en una actividad económica que contribuye a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo a ningún objetivo medioambiental o social y que las empresas en las que se invierte sigan prácticas de buena gobernanza.

La **taxonomía de la UE** es un sistema de clasificación previsto en el Reglamento (UE) 2020/852 por el que se establece una lista de **actividades económicas medioambientalmente sostenibles**. Dicho Reglamento no prevé una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental pueden ajustarse, o no, a la taxonomía.

| ¿ESTE PRODUCTO FINANCIERO TENÍA UN OBJETIVO DE INVERSIÓN SOSTENIBLE? | | | |
|---|-------------------------------------|---|--|
| <input checked="" type="radio"/> Si | <input type="radio"/> No | <input checked="" type="radio"/> Promovió características medioambientales o sociales y, aunque no tenía como objetivo una inversión sostenible, tuvo un porcentaje del 41,52% de inversiones sostenibles | <input type="radio"/> con un objetivo medioambiental en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> Realizó inversiones sostenibles con un objetivo medioambiental: ____% | <input checked="" type="checkbox"/> | <input checked="" type="checkbox"/> con un objetivo medioambiental en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input type="checkbox"/> con un objetivo social |
| <input type="checkbox"/> en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | | | |
| <input type="checkbox"/> en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | | | |
| <input type="checkbox"/> Realizó inversiones sostenibles con un objetivo social: ____% | <input type="checkbox"/> | <input type="checkbox"/> Ha promovido características medioambientales o sociales, pero no ha realizado ninguna inversión sostenible | |
| | | | |

Nota: Las inversiones sostenibles se calcularon sobre una base de aprobado/suspenso, incluyendo bonos con etiqueta (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% (medida por ingresos, EBIT, valor de empresa o indicadores similares) a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.

¿En qué grado se han cumplido las características medioambientales o sociales que promueve este producto financiero?

Las características medioambientales y sociales de este producto financiero se promovieron utilizando:

- Inclinación positiva:

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos y, como resultado, tuvo un perfil medioambiental, social y de gobernanza (ASG) mejor que el del índice de referencia. El índice MSCI AC Asia ex-Japan se utilizó para medir la inclinación positiva; sin embargo, no se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

- Exclusiones basadas en normas y valores:

El fondo excluyó los emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente o que incumplen de forma grave las normas internacionales, según se detalla a continuación:

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

Actividad

Umbrales de ingresos

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

| | |
|---|------------------------------------|
| Combustibles fósiles y energía nuclear | |
| Extracción de carbón térmico | > 25% |
| Generación de energía térmica de carbón | > 25% |
| Extracción de arenas bituminosas | > 25% |
| Extracción de energía de esquisto | > 25% |
| Exploración de petróleo y gas en el Ártico | > 10% |
| Armas | |
| Producción de armas controvertidas ^[1] | > 0% |
| Armas de contratación militar | > 10% |

| Exclusiones de empresas por incumplimiento de normas internacionales | Excluidas |
| Empresas que incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción | Sí |
| Exclusiones de países | Excluidas |
| Países (i) incluidos en la lista de Estados patrocinadores del terrorismo, según la definición de la Oficina de Control de Activos Extranjeros de EE. UU. ^[2] o (ii) sujetos a sanciones financieras de la UE contra bancos centrales y/o empresas de propiedad estatal. | Sí |
| Países (i) clasificados como de muy alto o alto riesgo en el Índice de Estados Frágiles o (ii) afectados por conflictos violentos según la definición del Banco Mundial. | Sí |
| Países (i) incluidos en la lista de «alerta» del Índice de Estados Frágiles o (ii) sujetos a sanciones relacionadas con la exportación por parte de la UE. | Lista de vigilancia ^[3] |

^[1] Entre las armas controvertidas se encuentran las minas antipersona, las municiones de racimo, las armas biológicas y químicas (incluido el fósforo blanco) y las armas nucleares procedentes de países no firmantes del Tratado de No Proliferación de Armas Nucleares (TNP).

^[2] «Estado patrocinador del terrorismo» es una designación aplicada por el Departamento de Estado de Estados Unidos a países que repetidamente han prestado apoyo a actos de terrorismo internacional.

^[3] Además de las exclusiones estrictas, Pictet Asset Management mantiene una lista de vigilancia que incluye países que requieren una diligencia debida adicional por parte de los equipos de inversión antes de invertir.

Para más detalles, consulte la Política de Inversión responsable de Pictet Asset Management (Anexo B).

- Titularidad activa:

El fondo ejerció de forma metódica sus derechos de voto y se implicó con la dirección de las empresas sobre cuestiones ASG importantes.

● ¿Cómo se han comportado los indicadores de sostenibilidad?

Durante el periodo de información, los indicadores de sostenibilidad se comportaron según se indica a continuación:

- Perfil ASG global

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos.

Como resultado, el fondo ha conseguido un perfil ambiental, social y de gobernanza (ASG) mejor que el del índice de referencia.

● **Principal incidencia adversa (PIA)**

El fondo utiliza una combinación de enfoques para considerar y, en la medida de lo posible, mitigar las incidencias adversas materiales de nuestras inversiones en la sociedad y el medioambiente, como emisiones de GEI, contaminación atmosférica, pérdida de biodiversidad, emisiones al agua, residuos peligrosos/radioactivos, derechos humanos, normas laborales, corrupción y soborno, y salud pública.

El grado y la forma en que estas incidencias se tuvieron en cuenta dependieron de factores como el contexto específico de la inversión que provoca la incidencia adversa o la disponibilidad de datos fiables.

De conformidad con la política de exclusión de Pictet Asset Management descrita en la Política de Inversión responsable de la empresa (véase el cuadro anterior para consultar las actividades excluidas y los umbrales de exclusión aplicados), el fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente:

Actividades controvertidas (media ponderada de ingresos de la empresa, en %)*:

| | Fondo (%) | Índice de referencia (%) |
|--|-----------|--------------------------|
| Combustibles fósiles y energía nuclear | 1,12 | 2,71 |
| Armas | 0,02 | 0,22 |
| Otras actividades controvertidas | 0,02 | 0,69 |
| No aplicable: | 2,98 | 0,00 |
| No cubierto: | 2,12 | 0,10 |

* Los combustibles fósiles y la energía nuclear incluyen la extracción de carbón térmico y la generación de electricidad, la producción y extracción de petróleo y gas, la extracción de energía de esquisto, la exploración de petróleo y gas en los mares del Ártico y la generación de energía nuclear. Las armas incluyen la contratación militar (servicios de armas y relacionadas con estas), clientes civiles de armas pequeñas (armas de asalto/no asalto), clientes militares/de las fuerzas y cuerpos de seguridad de armas pequeñas y componentes clave de pequeñas armas. Otras actividades controvertidas incluyen la producción de tabaco, la producción de entretenimiento para adultos, la explotación de juegos de azar, el desarrollo o crecimiento de organismos modificados genéticamente, la producción o venta al por menor de pesticidas. La exposición se basa en datos de terceros y puede no reflejar nuestro punto de vista interno. Pictet Asset Management tiene plena discreción sobre la aplicación de los criterios de exclusión y se reserva el derecho de apartarse de la información de terceros, según el caso, cuando se considere incorrecta o incompleta.

Fuente: Pictet Asset Management, Sustainalytics.

Además, el fondo excluyó a los emisores que tenían exposición a:

(i) PIA 10: Incumplimientos de los principios del Pacto Mundial de las Naciones Unidas y las Directrices para Empresas Multinacionales de la Organización para la Cooperación y el Desarrollo Económicos (OCDE).

(ii) PIA 14: Exposición a armas controvertidas (minas antipersonas, municiones en racimo, armas químicas y armas biológicas)

● **Derechos de voto**

Durante el periodo de referencia, el fondo votó en 60 juntas generales de 60 juntas en las que se podía votar (100,00%). Votamos «en contra» (incluidas «abstenciones» o «retenciones») en al menos una resolución en el 41,67% de las juntas.

De las 475 resoluciones de la dirección, votamos en contra de la dirección en 66 puntos (13,89%) y nos abstuvimos en 0 puntos (0,00%).

Apoyamos 2 (100,00%) resoluciones de accionistas de un total de 2 propuestas.

Por lo que respecta a las cuestiones medioambientales y/o sociales, votamos a favor de 0 de las 0 resoluciones de la dirección y a favor de 0 de las 0 resoluciones de accionistas.

Fuente: Pictet Asset Management, ISS ESG.

● Interacción

El fondo se implicó con 13 empresas sobre cuestiones ASG (datos a 30.09.2023). Esto incluye diálogos internos, iniciativas de colaboración entre inversores y servicios de implicación de terceros. Para que se considere implicación, el diálogo con una empresa objetivo debe tener un objetivo claro y mensurable en un horizonte temporal predefinido. Es importante señalar que no todas las interacciones rutinarias o de supervisión, aunque impliquen a la alta dirección o al Consejo de administración, se consideran implicaciones en nuestra evaluación.

Fuente: Pictet Asset Management, Sustainalytics.

● ¿... y en comparación con períodos anteriores?

Esta cuestión se abordará en futuros informes anuales debido a la falta de historial.

● ¿Cuáles han sido los objetivos de las inversiones sostenibles que ha realizado en parte el producto financiero y de qué forma ha contribuido la inversión sostenible a dichos objetivos?

El fondo no se comprometió a un porcentaje mínimo de inversiones sostenibles.

Sin embargo, *a posteriori*, el fondo invirtió en valores que financiaban actividades económicas que contribuyeron sustancialmente a objetivos medioambientales y/o sociales como:

Medioambientales

- mitigación del cambio climático o adaptación al mismo
- suso sostenible y protección de los recursos hídricos y marinos
- transición hacia una economía circular
- prevención y control de la contaminación o
- protección y recuperación de la biodiversidad y los ecosistemas

Sociales

- comunidades inclusivas y sostenibles
- nivel de vida adecuado y bienestar para los usuarios finales o
- trabajo digno

Pictet Asset Management utilizó un marco de referencia propio, así como los objetivos de la Taxonomía de la UE, para definir las inversiones sostenibles.

● ¿De qué manera las inversiones sostenibles que el producto financiero ha realizado en parte, no han causado un perjuicio significativo a ningún objetivo de inversión sostenible medioambiental o social?

Para evitar que las inversiones sostenibles causen un perjuicio significativo a cualquier otro objetivo medioambiental o social, el fondo aplicó los siguientes criterios de selección sobre la base del mejor esfuerzo:

- (i) Exclusiones de emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente (véase la descripción del marco de exclusión de IR).
- (ii) Los emisores asociados a controversias elevadas y graves no se contabilizaron como inversiones sostenibles.

La información se obtuvo de proveedores terceros y/o de análisis interno. La información ASG de terceros proveedores de datos puede haber sido incompleta, inexacta o no estar disponible. Como consecuencia de ello, existía el riesgo de que el Gestor de inversiones evaluara incorrectamente un valor o emisor, dando lugar a la inclusión o exclusión incorrecta de un valor en el fondo. Los datos ASG incompletos, inexactos o no disponibles también pueden actuar como una limitación metodológica a una estrategia de inversión no financiera (como la aplicación de criterios ASG o similares). En los casos identificados, el Gestor de inversiones trató de mitigar este riesgo mediante su propia evaluación. En caso de que las características ASG de un valor mantenido por el fondo cambiaran, dando lugar a la venta del valor, el Gestor de inversiones no acepta responsabilidad alguna en relación con dicho cambio.

● ¿Cómo se han tenido en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?

Pictet Asset Management realiza un seguimiento de todos los indicadores obligatorios de principales incidencias adversas (incluidos en el Anexo 1 del Reglamento Delegado (UE) 22 / 1288 de la Comisión) cuando disponemos de datos sólidos. Se espera que la calidad de los datos disponibles mejore con el tiempo.

Las principales incidencias adversas son las incidencias negativas más importantes de las decisiones de inversión sobre los factores de sostenibilidad en relación con asuntos

medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas de sus inversiones en la sociedad y el medioambiente que se consideran importantes para la estrategia de inversión, mediante un conjunto de decisiones de gestión de cartera, actividades de propiedad activa y exclusión de emisores asociados a conductas o actividades controvertidas. Más información en el informe de PIA de la entidad, disponible en:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=es&bl=PAM>

- *¿Se han ajustado las inversiones sostenibles a las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios rectores de las Naciones Unidas sobre las empresas y los derechos humanos?*

Para garantizar que la inversión sostenible no causara un perjuicio significativo a ningún objetivo de inversión sostenible, el fondo excluyó a las empresas con infracciones elevadas y graves de (i) los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción o (ii) las Líneas Directrices de la OCDE para Empresas Multinacionales, incluidos los asuntos sociales y laborales graves.

La taxonomía de la UE establece el principio de «no causar un perjuicio significativo», según el cual las inversiones que se ajusten a la taxonomía no deben perjudicar significativamente a los objetivos de la taxonomía de la UE, e incluye criterios específicos de la Unión.

El principio de «no perjudicar de forma significativa» se aplica únicamente a las inversiones subyacentes del producto financiero que contemplan los criterios de la UE relativos a actividades económicas sostenibles desde una perspectiva medioambiental. Las inversiones subyacentes al resto del producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas medioambientalmente sostenibles.

Cualquier otra inversión sostenible tampoco debe perjudicar significativamente a ningún objetivo medioambiental o social.

¿Cómo tiene en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas que se consideran importantes para la estrategia de inversión. Entre las incidencias adversas se incluyeron, entre otras, las emisiones de gases de efecto invernadero (GEI), la contaminación atmosférica, la pérdida de biodiversidad, las emisiones al agua, los residuos peligrosos/radioactivos, las cuestiones sociales y laborales, y la corrupción y el soborno, que se abordaron mediante una combinación de:

(i) decisiones de gestión de carteras

El equipo de inversión puntuó las posiciones según una evaluación de los riesgos medioambientales, sociales y de gobernanza como parte del marco de puntuación del fondo. Los gestores de inversiones determinan las puntuaciones sobre una base cualitativa, basándose en el análisis fundamental y en datos cuantitativos ASG, incluidos los datos sobre la Principal incidencia adversa, los datos ASG facilitados por las empresas y los datos proporcionados por terceros proveedores de datos ASG. El proceso de puntuación del equipo de inversión fue un componente clave del proceso de construcción de la cartera del compartimento, determinando las ponderaciones objetivo en la cartera.

(ii) voto por delegación

El fondo se atuvo a las directrices de voto de Pictet Asset Management, que están diseñadas para apoyar una cultura de gobierno corporativo sólida, una gestión eficaz de las cuestiones medioambientales y sociales, y la publicación de información exhaustiva de acuerdo con normas creíbles. Dichas directrices también pretenden apoyar a los órganos de gobierno mundiales reconocidos que promueven prácticas empresariales sostenibles que abogan por la gestión del medio ambiente, las prácticas laborales justas, la no discriminación y la protección de los derechos humanos. Todas las actividades de voto del fondo se registraron y pueden compartirse previa solicitud.

(iii) implicación

La interacción con los emisores se realizó mediante conversaciones individuales, reuniones de accionistas/bonistas, giras de inversores y/o conferencias telefónicas. Los objetivos de estas interacciones fueron evaluar una organización, supervisar que su estrategia se estaba aplicando conforme a nuestras expectativas y garantizar que los emisores iban camino de cumplir sus metas y objetivos.

Cuando corresponde, nos implicamos con las empresas en relación con cuestiones ASG importantes, como los objetivos de reducción de los GEI, las mejoras en la gobernanza y diversas controversias medioambientales, sociales y de gobernanza, para asegurarnos de que las entendieran y las abordaran

eficazmente a corto, medio y largo plazo. Nuestras actividades de implicación combinaron debates dirigidos a nivel interno, iniciativas de colaboración con inversores institucionales y servicios de implicación externos.

(iv) exclusión de emisores asociados a conductas o actividades controvertidas

El fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se definen en la Política de Inversión responsable de la Pictet Asset Management y/o (ii) empresas que infringieron gravemente los principios del Pacto Mundial de la ONU sobre derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción y las armas controvertidas.

¿Cuáles han sido las inversiones principales de este producto financiero?

La lista incluye las inversiones que constituyen la mayor parte de las inversiones del producto financiero durante el período de referencia, que es: 01.10.2022 - 30.09.2023

| INVERSIONES DE MAYOR VOLUMEN | SECTOR | % DE ACTIVOS | PAÍS |
|------------------------------|------------------------------|--------------|--------------|
| TAIWAN SEMICONDUCTOR MANUFAC | Tecnología de la información | 9,2 | Taiwán |

¿Cuál ha sido la proporción de inversiones relacionadas con la sostenibilidad?

41,52%

La asignación de activos describe el porcentaje de inversiones en activos específicos.

● ¿Cuál ha sido la asignación de activos?

El fondo se ajustó en un 97,02% con características medioambientales o sociales (n.º 1 Ajustadas a características medioambientales o sociales) y tuvo hasta un 2,98% invertido en la categoría Otras (n.º 2 Otras). El 41,52% se asignó a inversiones sostenibles (n.º 1A Sostenibles) y el resto se invirtió en inversiones ajustadas a otras características medioambientales o sociales (n.º 1B Otras características medioambientales o sociales).

n.º 1 Ajustadas a características medioambientales o sociales incluye las inversiones del producto financiero utilizadas para lograr las características medioambientales o sociales que promueve el producto financiero.

n.º 2 Otras incluye el resto de inversiones del producto financiero que ni se ajustan a las características medioambientales o sociales ni pueden considerarse inversiones sostenibles.

La categoría n.º 1 Ajustadas a características medioambientales o sociales abarca:

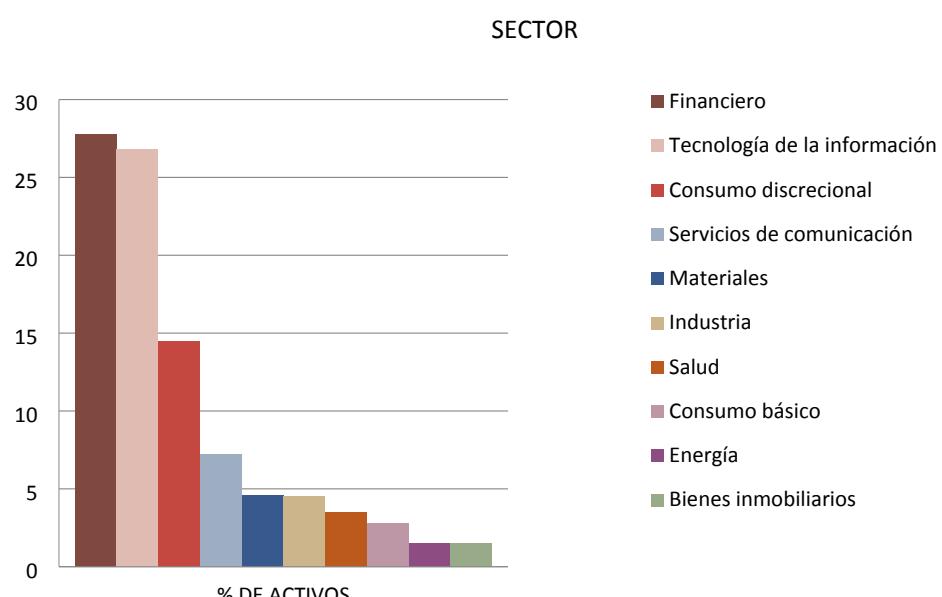

- la subcategoría n.º 1A Sostenibles, que abarca las inversiones sostenibles con objetivos medioambientales o sociales.
- la subcategoría n.º 1B Otras características medioambientales o sociales, que abarca inversiones ajustadas a las características medioambientales o sociales que no pueden considerarse inversiones sostenibles.

Notas:

- Las inversiones «n.º 1A Sostenibles», «Otras medioambientales» y «Sociales» se calcularon sobre una base de aprobado/suspenso. Incluyen bonos certificados (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.
- A falta de una taxonomía social de la UE, Pictet ha desarrollado un marco de taxonomía social propio. El marco se basa en basado en el Informe sobre taxonomía social publicado por la Plataforma de Finanzas Sostenibles de la UE en 2022. Las actividades admisibles se definen como bienes y servicios beneficiosos desde el punto de vista social que contribuyen sustancialmente a uno de los tres objetivos sociales siguientes: (1) comunidades inclusivas y sostenibles, (2) nivel de vida adecuado y bienestar para los usuarios finales y (3) trabajo digno.

Fuente: Pictet Asset Management, Sustainanalytics, FTSE Green Revenues, Factset RBICS.

● ¿En qué sectores económicos se han realizado las inversiones?

Fuente: Pictet Asset Management, GICS/MSCI.

Estamos evaluando la disponibilidad y la calidad de los datos que nos permitirían divulgar información más granular en futuros informes sobre los sectores y subsectores de la economía que obtienen ingresos a partir de la exploración, la minería, la extracción, la producción, el procesamiento, el almacenamiento, el refinado o la distribución, incluidos el transporte, el almacenamiento y el comercio, de combustibles fósiles, según se definen en el artículo 2, punto (62), del Reglamento (UE) 2018/1999 del Parlamento Europeo y del Consejo.

¿En qué medida se ajustaban las inversiones sostenibles con un objetivo medioambiental a la taxonomía de la UE?

No aplicable.

Para ajustarse a la taxonomía de la UE, los criterios correspondientes al **gas fósil** incluyen limitaciones de emisiones y el paso a la energía renovable o combustibles bajos en carbono de aquí al fin de 2035. Por lo que respecta a la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

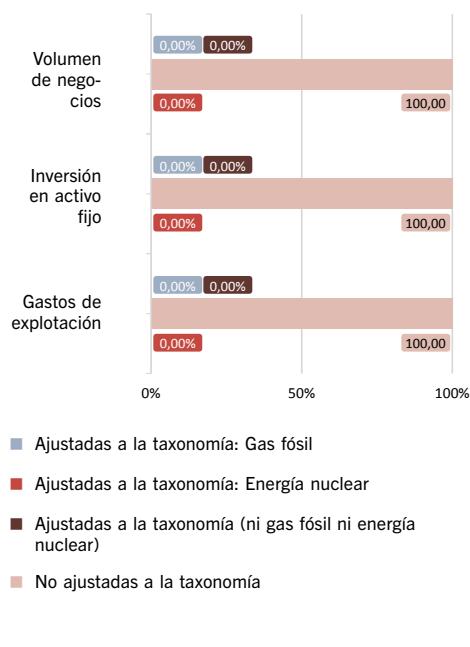

Las actividades que se ajustan a la taxonomía se expresan como un porcentaje de:

- **el volumen de negocios**, que refleja el «carácter ecológico» de las empresas en las que se invierte en la actualidad;
- **la inversión en activo fijo**, que muestra las inversiones ecológicas realizadas por las empresas en las que se invierte, pertinentes para la transición a una economía verde;
- **los gastos de explotación**, que reflejan las actividades operativas ecológicas de las empresas en las que se invierte.

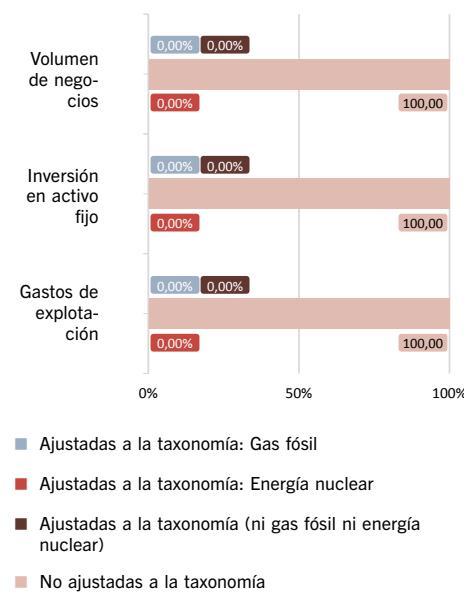

- ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil o la energía nuclear que cumplían con la taxonomía de la UE¹?.
- Sí:
 En gas fósil En energía nuclear
 No

Los gráficos que figuran a continuación muestran en verde el porcentaje de inversiones que se ajustaban a la taxonomía de la UE. Dado que no existe una metodología adecuada para determinar la adaptación a la taxonomía de los bonos soberanos*, el primer gráfico muestra la adaptación a la taxonomía correspondiente para todas las inversiones del producto financiero, incluidos los bonos soberanos, mientras que el segundo gráfico muestra la adaptación a la taxonomía solo en relación con las inversiones del producto financiero distintas de los bonos soberanos.

1. Ajuste a la taxonomía de las inversiones incluidos los bonos soberanos*

2. Ajuste a la taxonomía de las inversiones excluidos los bonos soberanos*

Este gráfico representa el 97,02% de las inversiones totales.

* A efectos de estos gráficos, los «bonos soberanos» incluyen todas las exposiciones soberanas

- ¿Cuál ha sido la proporción de las inversiones realizadas en actividades de transición y facilitadoras?

No aplicable.

- ¿Qué porcentaje de inversiones se han ajustado a la taxonomía de la UE en comparación con los períodos de referencia anteriores?

No aplicable.

¿Cuál ha sido la proporción de inversiones sostenibles con un objetivo medioambiental no

¹ Las actividades relacionadas con el gas fósil o la energía nuclear solo cumplirán la taxonomía de la UE cuando contribuyan a limitar el cambio climático («mitigación del cambio climático») y no perjudiquen significativamente ningún objetivo de la taxonomía de la UE (véase la nota explicativa en el margen izquierdo). Los criterios completos correspondientes a las actividades económicas del gas fósil y la energía nuclear que se ajustan a la taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

ajustadas a la taxonomía de la UE?

16,29%

Estas inversiones sostenibles no se ajustan a la Taxonomía de la UE porque sus actividades económicas o bien (i) no están cubiertas por la Taxonomía de la UE, o bien (ii) no cumplen los criterios técnicos de selección para lograr una contribución sustancial en el sentido de la Taxonomía de la UE.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta los criterios para las actividades económicas medioambientalmente sostenibles con arreglo al Reglamento (UE) 2020/852.

¿Cuál ha sido la proporción de inversiones socialmente sostenibles?

25,23%

¿Qué inversiones se han incluido en «otras» y cuál ha sido su propósito? ¿ha habido garantías medioambientales o sociales mínimas?

Las «otras» inversiones del fondo incluían posiciones de tesorería mantenidas principalmente para satisfacer los objetivos diarios de liquidez y gestión de riesgos permitidos y previstos por la política de inversión del fondo. Cuando sea preciso, se aplicarán salvaguardias medioambientales o sociales mínimas a los valores subyacentes.

¿Qué medidas se han adoptado para cumplir las características medioambientales o sociales durante el período de referencia?

Durante el periodo de referencia, se alcanzó el objetivo de inversión sostenible siguiendo la estrategia de inversión y respetando los elementos vinculantes.

Los elementos vinculantes del fondo son:

- Exclusión de emisores que:
 - están relacionados con armas nucleares de países que no han firmado el Tratado sobre la No Proliferación de Armas Nucleares (TNP) y otras armas controvertidas
 - obtienen una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, como la extracción de carbón térmico y la generación de electricidad, la exploración y producción no convencional de petróleo y gas, las armas convencionales y armas pequeñas, las armas de contratación militar, la producción de tabaco, la producción de entretenimiento para adultos y las actividades del juego. Para más detalles sobre los umbrales de exclusión aplicables a las actividades anteriores, consulte la Política de Inversión responsable de Pictet Asset Management.
 - incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción
- un perfil ASG mejor que el del índice de referencia
- análisis de criterios ASG de los valores admisibles que abarca al menos el 90% del patrimonio neto o el número de emisores incluidos en la cartera

Además, el fondo se implicó con 13 empresas a 30.09.2023.

¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

● ¿Cómo difería el índice de referencia de un índice general de mercado?

No aplicable.

Los índices de referencia son índices para medir si el

- **¿Cómo se ha comportado este producto financiero con respecto a los indicadores de sostenibilidad para determinar la conformidad del índice de referencia con las características medioambientales o sociales que promueve?**
No aplicable.
- **¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?**
No aplicable.
- **¿Cómo se ha comportado este producto financiero en comparación con el índice general de mercado?**
No aplicable.

CARACTERÍSTICAS MEDIOAMBIENTALES O SOCIALES

Inversión sostenible
significa una inversión en una actividad económica que contribuye a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo a ningún objetivo medioambiental o social y que las empresas en las que se invierte sigan prácticas de buena gobernanza.

La **taxonomía de la UE** es un sistema de clasificación previsto en el Reglamento (UE) 2020/852 por el que se establece una lista de **actividades económicas medioambientalmente sostenibles**. Dicho Reglamento no prevé una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental pueden ajustarse, o no, a la taxonomía.

| ¿ESTE PRODUCTO FINANCIERO TENÍA UN OBJETIVO DE INVERSIÓN SOSTENIBLE? | | | |
|---|-------------------------------------|---|--|
| <input checked="" type="radio"/> Si | <input type="radio"/> No | <input checked="" type="radio"/> Promovió características medioambientales o sociales y, aunque no tenía como objetivo una inversión sostenible, tuvo un porcentaje del 36,52% de inversiones sostenibles | <input type="radio"/> con un objetivo medioambiental en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> Realizó inversiones sostenibles con un objetivo medioambiental: ____% | <input checked="" type="checkbox"/> | <input type="checkbox"/> con un objetivo medioambiental en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> con un objetivo social |
| <input type="checkbox"/> en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input type="checkbox"/> | <input type="checkbox"/> con un objetivo medioambiental en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | |
| <input type="checkbox"/> en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> | <input type="checkbox"/> con un objetivo social | |
| <input type="checkbox"/> Realizó inversiones sostenibles con un objetivo social: ____% | <input type="checkbox"/> | <input type="checkbox"/> Ha promovido características medioambientales o sociales, pero no ha realizado ninguna inversión sostenible | |

Nota: Las inversiones sostenibles se calcularon sobre una base de aprobado/suspenso, incluyendo bonos con etiqueta (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% (medida por ingresos, EBIT, valor de empresa o indicadores similares) a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.

¿En qué grado se han cumplido las características medioambientales o sociales que promueve este producto financiero?

Las características medioambientales y sociales de este producto financiero se promovieron utilizando:

- Inclinación positiva:

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos y, como resultado, tuvo un perfil medioambiental, social y de gobernanza (ASG) mejor que el del índice de referencia. El índice MSCI China 10/40 se utilizó para medir la inclinación positiva; sin embargo, no se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

- Exclusiones basadas en normas y valores:

El fondo excluyó los emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente o que incumplen de forma grave las normas internacionales, según se detalla a continuación:

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

Actividad

Umbrales de ingresos

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

| | |
|---|------------------------------------|
| Combustibles fósiles y energía nuclear | |
| Extracción de carbón térmico | > 25% |
| Generación de energía térmica de carbón | > 25% |
| Extracción de arenas bituminosas | > 25% |
| Extracción de energía de esquisto | > 25% |
| Exploración de petróleo y gas en el Ártico | > 10% |

| Exclusiones de empresas por incumplimiento de normas internacionales | Excluidas |
| Empresas que incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción | Sí |
| Exclusiones de países | Excluidas |
| Países (i) incluidos en la lista de Estados patrocinadores del terrorismo, según la definición de la Oficina de Control de Activos Extranjeros de EE. UU. ^[2] o (ii) sujetos a sanciones financieras de la UE contra bancos centrales y/o empresas de propiedad estatal. | Sí |
| Países (i) clasificados como de muy alto o alto riesgo en el Índice de Estados Frágiles o (ii) afectados por conflictos violentos según la definición del Banco Mundial. | Sí |
| Países (i) incluidos en la lista de «alerta» del Índice de Estados Frágiles o (ii) sujetos a sanciones relacionadas con la exportación por parte de la UE. | Lista de vigilancia ^[3] |

^[1] Entre las armas controvertidas se encuentran las minas antipersona, las municiones de racimo, las armas biológicas y químicas (incluido el fósforo blanco) y las armas nucleares procedentes de países no firmantes del Tratado de No Proliferación de Armas Nucleares (TNP).

^[2] «Estado patrocinador del terrorismo» es una designación aplicada por el Departamento de Estado de Estados Unidos a países que repetidamente han prestado apoyo a actos de terrorismo internacional.

^[3] Además de las exclusiones estrictas, Pictet Asset Management mantiene una lista de vigilancia que incluye países que requieren una diligencia debida adicional por parte de los equipos de inversión antes de invertir.

Para más detalles, consulte la Política de Inversión responsable de Pictet Asset Management (Anexo B).

- Titularidad activa:

El fondo ejerció de forma metódica sus derechos de voto y se implicó con la dirección de las empresas sobre cuestiones ASG importantes.

● **¿Cómo se han comportado los indicadores de sostenibilidad?**

Durante el periodo de información, los indicadores de sostenibilidad se comportaron según se indica a continuación:

- **Perfil ASG global**

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos.

Como resultado, el fondo ha conseguido un perfil ambiental, social y de gobernanza (ASG) mejor que el del índice de referencia.

● **Principal incidencia adversa (PIA)**

El fondo utiliza una combinación de enfoques para considerar y, en la medida de lo posible, mitigar las incidencias adversas materiales de nuestras inversiones en la sociedad y el medioambiente, como emisiones de GEI, contaminación atmosférica, pérdida de biodiversidad, emisiones al agua, residuos peligrosos/radioactivos, derechos humanos, normas laborales, corrupción y soborno, y salud pública.

El grado y la forma en que estas incidencias se tuvieron en cuenta dependieron de factores como el contexto específico de la inversión que provoca la incidencia adversa o la disponibilidad de datos fiables.

De conformidad con la política de exclusión de Pictet Asset Management descrita en la Política de Inversión responsable de la empresa (véase el cuadro anterior para consultar las actividades excluidas y los umbrales de exclusión aplicados), el fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente:

Actividades controvertidas (media ponderada de ingresos de la empresa, en %)*:

| | Fondo (%) | Índice de referencia (%) |
|--|-----------|--------------------------|
| Combustibles fósiles y energía nuclear | 0,01 | 2,48 |
| Armas | 0,00 | 0,04 |
| Otras actividades controvertidas | 0,01 | 0,04 |
| No aplicable: | 1,14 | 0,00 |
| No cubierto: | 0,00 | 0,12 |

* Los combustibles fósiles y la energía nuclear incluyen la extracción de carbón térmico y la generación de electricidad, la producción y extracción de petróleo y gas, la extracción de energía de esquisto, la exploración de petróleo y gas en los mares del Ártico y la generación de energía nuclear. Las armas incluyen la contratación militar (servicios de armas y relacionadas con estas), clientes civiles de armas pequeñas (armas de asalto/no asalto), clientes militares/de las fuerzas y cuerpos de seguridad de armas pequeñas y componentes clave de pequeñas armas. Otras actividades controvertidas incluyen la producción de tabaco, la producción de entretenimiento para adultos, la explotación de juegos de azar, el desarrollo o crecimiento de organismos modificados genéticamente, la producción o venta al por menor de pesticidas. La exposición se basa en datos de terceros y puede no reflejar nuestro punto de vista interno. Pictet Asset Management tiene plena discreción sobre la aplicación de los criterios de exclusión y se reserva el derecho de apartarse de la información de terceros, según el caso, cuando se considere incorrecta o incompleta.

Fuente: Pictet Asset Management, Sustainalytics.

Además, el fondo excluyó a los emisores que tenían exposición a:

(i) PIA 10: Incumplimientos de los principios del Pacto Mundial de las Naciones Unidas y las Directrices para Empresas Multinacionales de la Organización para la Cooperación y el Desarrollo Económicos (OCDE).

(ii) PIA 14: Exposición a armas controvertidas (minas antipersonas, municiones en racimo, armas químicas y armas biológicas)

● **Derechos de voto**

Durante el periodo de referencia, el fondo votó en 68 juntas generales de 68 juntas en las que se podía votar (100,00%). Votamos «en contra» (incluidas «abstenciones» o «retenciones») en al menos una resolución en el 45,59% de las juntas.

De las 579 resoluciones de la dirección, votamos en contra de la dirección en 94 puntos (16,23%) y nos abstuvimos en 0 puntos (0,00%).

Apoyamos 4 (100,00%) resoluciones de accionistas de un total de 4 propuestas.

Por lo que respecta a las cuestiones medioambientales y/o sociales, votamos a favor de 0 de 1 resolución de la dirección y a favor de 0 de las 0 resoluciones de accionistas.

Fuente: Pictet Asset Management, ISS ESG.

● Interacción

El fondo se implicó con 7 empresas sobre cuestiones ASG (datos a 30.09.2023). Esto incluye diálogos internos, iniciativas de colaboración entre inversores y servicios de implicación de terceros. Para que se considere implicación, el diálogo con una empresa objetivo debe tener un objetivo claro y mensurable en un horizonte temporal predefinido. Es importante señalar que no todas las interacciones rutinarias o de supervisión, aunque impliquen a la alta dirección o al Consejo de administración, se consideran implicaciones en nuestra evaluación.

Fuente: Pictet Asset Management, Sustainalytics.

● ¿... y en comparación con períodos anteriores?

Esta cuestión se abordará en futuros informes anuales debido a la falta de historial.

● ¿Cuáles han sido los objetivos de las inversiones sostenibles que ha realizado en parte el producto financiero y de qué forma ha contribuido la inversión sostenible a dichos objetivos?

El fondo no se comprometió a un porcentaje mínimo de inversiones sostenibles.

Sin embargo, *a posteriori*, el fondo invirtió en valores que financiaban actividades económicas que contribuyeron sustancialmente a objetivos medioambientales y/o sociales como:

Medioambientales

- mitigación del cambio climático o adaptación al mismo
- suso sostenible y protección de los recursos hídricos y marinos
- transición hacia una economía circular
- prevención y control de la contaminación o
- protección y recuperación de la biodiversidad y los ecosistemas

Sociales

- comunidades inclusivas y sostenibles
- nivel de vida adecuado y bienestar para los usuarios finales o
- trabajo digno

Pictet Asset Management utilizó un marco de referencia propio, así como los objetivos de la Taxonomía de la UE, para definir las inversiones sostenibles.

● ¿De qué manera las inversiones sostenibles que el producto financiero ha realizado en parte, no han causado un perjuicio significativo a ningún objetivo de inversión sostenible medioambiental o social?

Para evitar que las inversiones sostenibles causen un perjuicio significativo a cualquier otro objetivo medioambiental o social, el fondo aplicó los siguientes criterios de selección sobre la base del mejor esfuerzo:

- (i) Exclusiones de emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente (véase la descripción del marco de exclusión de IR).
- (ii) Los emisores asociados a controversias elevadas y graves no se contabilizaron como inversiones sostenibles.

La información se obtuvo de proveedores terceros y/o de análisis interno. La información ASG de terceros proveedores de datos puede haber sido incompleta, inexacta o no estar disponible. Como consecuencia de ello, existía el riesgo de que el Gestor de inversiones evaluara incorrectamente un valor o emisor, dando lugar a la inclusión o exclusión incorrecta de un valor en el fondo. Los datos ASG incompletos, inexactos o no disponibles también pueden actuar como una limitación metodológica a una estrategia de inversión no financiera (como la aplicación de criterios ASG o similares). En los casos identificados, el Gestor de inversiones trató de mitigar este riesgo mediante su propia evaluación. En caso de que las características ASG de un valor mantenido por el fondo cambiaran, dando lugar a la venta del valor, el Gestor de inversiones no acepta responsabilidad alguna en relación con dicho cambio.

● ¿Cómo se han tenido en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?

Pictet Asset Management realiza un seguimiento de todos los indicadores obligatorios de principales incidencias adversas (incluidos en el Anexo 1 del Reglamento Delegado (UE) 22 / 1288 de la Comisión) cuando disponemos de datos sólidos. Se espera que la calidad de los datos disponibles mejore con el tiempo.

Las principales incidencias adversas son las incidencias negativas más importantes de las decisiones de inversión sobre los factores de sostenibilidad en relación con asuntos

medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas de sus inversiones en la sociedad y el medioambiente que se consideran importantes para la estrategia de inversión, mediante un conjunto de decisiones de gestión de cartera, actividades de propiedad activa y exclusión de emisores asociados a conductas o actividades controvertidas. Más información en el informe de PIA de la entidad, disponible en:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=es&bl=PAM>

- *¿Se han ajustado las inversiones sostenibles a las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios rectores de las Naciones Unidas sobre las empresas y los derechos humanos?*

Para garantizar que la inversión sostenible no causara un perjuicio significativo a ningún objetivo de inversión sostenible, el fondo excluyó a las empresas con infracciones elevadas y graves de (i) los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción o (ii) las Líneas Directrices de la OCDE para Empresas Multinacionales, incluidos los asuntos sociales y laborales graves.

La taxonomía de la UE establece el principio de «no causar un perjuicio significativo», según el cual las inversiones que se ajusten a la taxonomía no deben perjudicar significativamente a los objetivos de la taxonomía de la UE, e incluye criterios específicos de la Unión.

El principio de «no perjudicar de forma significativa» se aplica únicamente a las inversiones subyacentes del producto financiero que contemplan los criterios de la UE relativos a actividades económicas sostenibles desde una perspectiva medioambiental. Las inversiones subyacentes al resto del producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas medioambientalmente sostenibles.

Cualquier otra inversión sostenible tampoco debe perjudicar significativamente a ningún objetivo medioambiental o social.

¿Cómo tiene en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas que se consideran importantes para la estrategia de inversión. Entre las incidencias adversas se incluyeron, entre otras, las emisiones de gases de efecto invernadero (GEI), la contaminación atmosférica, la pérdida de biodiversidad, las emisiones al agua, los residuos peligrosos/radioactivos, las cuestiones sociales y laborales, y la corrupción y el soborno, que se abordaron mediante una combinación de:

(i) decisiones de gestión de carteras

El equipo de inversión puntuó las posiciones según una evaluación de los riesgos medioambientales, sociales y de gobernanza como parte del marco de puntuación del fondo. Los gestores de inversiones determinan las puntuaciones sobre una base cualitativa, basándose en el análisis fundamental y en datos cuantitativos ASG, incluidos los datos sobre la Principal incidencia adversa, los datos ASG facilitados por las empresas y los datos proporcionados por terceros proveedores de datos ASG. El proceso de puntuación del equipo de inversión fue un componente clave del proceso de construcción de la cartera del compartimento, determinando las ponderaciones objetivo en la cartera.

(ii) voto por delegación

El fondo se atuvo a las directrices de voto de Pictet Asset Management, que están diseñadas para apoyar una cultura de gobierno corporativo sólida, una gestión eficaz de las cuestiones medioambientales y sociales, y la publicación de información exhaustiva de acuerdo con normas creíbles. Dichas directrices también pretenden apoyar a los órganos de gobierno mundiales reconocidos que promueven prácticas empresariales sostenibles que abogan por la gestión del medio ambiente, las prácticas laborales justas, la no discriminación y la protección de los derechos humanos. Todas las actividades de voto del fondo se registraron y pueden compartirse previa solicitud.

(iii) implicación

La interacción con los emisores se realizó mediante conversaciones individuales, reuniones de accionistas/bonistas, giras de inversores y/o conferencias telefónicas. Los objetivos de estas interacciones fueron evaluar una organización, supervisar que su estrategia se estaba aplicando conforme a nuestras expectativas y garantizar que los emisores iban camino de cumplir sus metas y objetivos.

Cuando corresponde, nos implicamos con las empresas en relación con cuestiones ASG importantes, como los objetivos de reducción de los GEI, las mejoras en la gobernanza y diversas controversias medioambientales, sociales y de gobernanza, para asegurarnos de que las entendieran y las abordaran

eficazmente a corto, medio y largo plazo. Nuestras actividades de implicación combinaron debates dirigidos a nivel interno, iniciativas de colaboración con inversores institucionales y servicios de implicación externos.

(iv) exclusión de emisores asociados a conductas o actividades controvertidas

El fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se definen en la Política de Inversión responsable de la Pictet Asset Management y/o (ii) empresas que infringieron gravemente los principios del Pacto Mundial de la ONU sobre derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción y las armas controvertidas.

¿Cuáles han sido las inversiones principales de este producto financiero?

La lista incluye las inversiones que constituyen la mayor parte de las inversiones del producto financiero durante el período de referencia, que es: 01.10.2022 - 30.09.2023

| INVERSIONES DE MAYOR VOLUMEN | SECTOR | % DE ACTIVOS | PAÍS |
|------------------------------|---------------------------|--------------|-------|
| TENCENT HOLDINGS LTD | Servicios de comunicación | 9,6 | China |
| ALIBABA GROUP HOLDING LTD | Consumo discrecional | 9,4 | China |
| MEITUAN-CLASS B | Consumo discrecional | 6,0 | China |
| PDD HOLDINGS INC | Consumo discrecional | 4,4 | China |
| NETEASE INC | Consumo discrecional | 3,9 | China |
| PING AN INSURANCE GROUP CO-H | Financiero | 3,9 | China |
| KWEICHOW MOUTAI CO LTD-A | Consumo básico | 2,9 | China |
| CHINA MERCHANTS BANK-H | Financiero | 2,6 | China |
| HUAZHU GROUP LTD | Consumo discrecional | 2,5 | China |
| TRIP.COM GROUP LTD | Consumo discrecional | 2,5 | China |
| CHINA RESOURCES MIXC LIFESTY | Bienes inmobiliarios | 2,2 | China |
| MIDEA GROUP CO LTD-A | Consumo discrecional | 2,1 | China |

Fuente: Pictet Asset Management, GICS/MSCI.

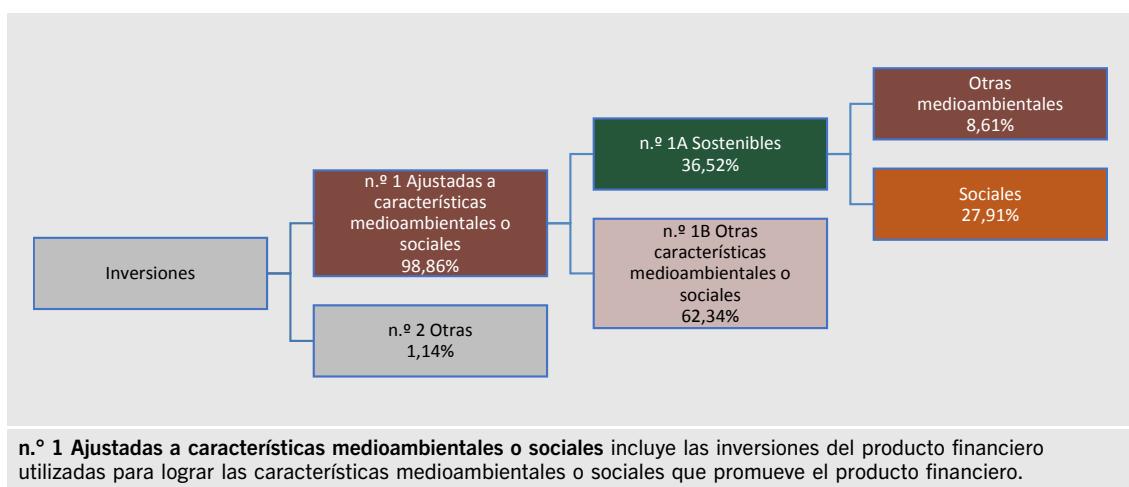

¿Cuál ha sido la proporción de inversiones relacionadas con la sostenibilidad?

36,52%

¿Cuál ha sido la asignación de activos?

El fondo se ajustó en un 98,86% con características medioambientales o sociales (n.º 1 Ajustadas a características medioambientales o sociales) y tuvo hasta un 1,14% invertido en la categoría Otras (n.º 2 Otras). El 36,52% se asignó a inversiones sostenibles (n.º 1A Sostenibles) y el resto se invirtió en inversiones ajustadas a otras características medioambientales o sociales (n.º 1B Otras características medioambientales o sociales).

n.º 2 Otras incluye el resto de inversiones del producto financiero que ni se ajustan a las características medioambientales o sociales ni pueden considerarse inversiones sostenibles.

La categoría **n.º 1 Ajustadas a características medioambientales o sociales** abarca:

- la subcategoría **n.º 1A Sostenibles**, que abarca las inversiones sostenibles con objetivos medioambientales o sociales.

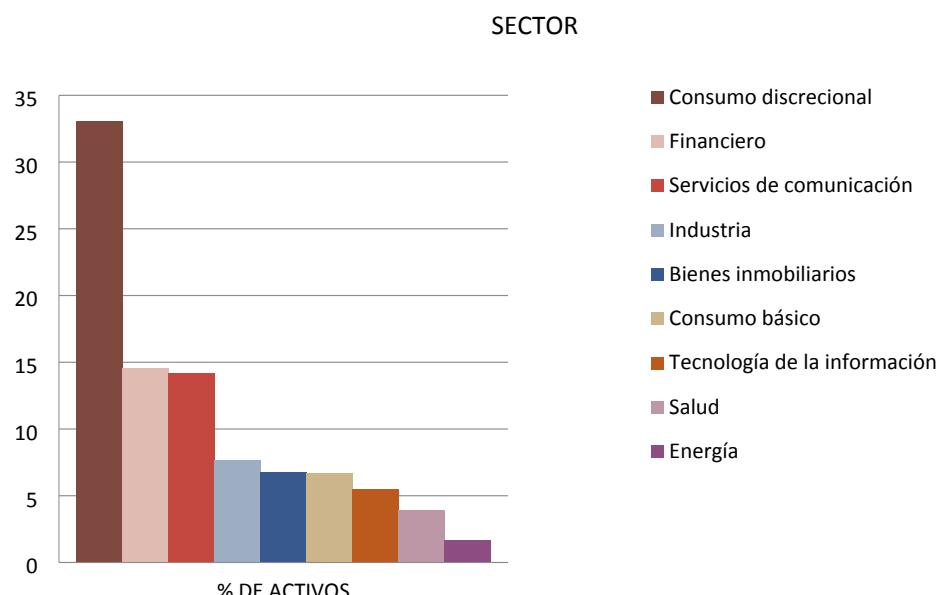

- la subcategoría **n.º 1B Otras características medioambientales o sociales**, que abarca inversiones ajustadas a las características medioambientales o sociales que no pueden considerarse inversiones sostenibles.

Notas:

- Las inversiones «n.º 1A Sostenibles», «Otras medioambientales» y «Sociales» se calcularon sobre una base de aprobado/suspenso. Incluyen bonos certificados (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.
- A falta de una taxonomía social de la UE, Pictet ha desarrollado un marco de taxonomía social propio. El marco se basa en basado en el Informe sobre taxonomía social publicado por la Plataforma de Finanzas Sostenibles de la UE en 2022. Las actividades admisibles se definen como bienes y servicios beneficiosos desde el punto de vista social que contribuyen sustancialmente a uno de los tres objetivos sociales siguientes: (1) comunidades inclusivas y sostenibles, (2) nivel de vida adecuado y bienestar para los usuarios finales y (3) trabajo digno.

Fuente: Pictet Asset Management, Sustainanalytics, FTSE Green Revenues, Factset RB/ICS.

● ¿En qué sectores económicos se han realizado las inversiones?

Fuente: Pictet Asset Management, GICS/MSCI.

Estamos evaluando la disponibilidad y la calidad de los datos que nos permitirían divulgar información más granular en futuros informes sobre los sectores y subsectores de la economía que obtienen ingresos a partir de la exploración, la minería, la extracción, la producción, el procesamiento, el almacenamiento, el refinado o la distribución, incluidos el transporte, el almacenamiento y el comercio, de combustibles fósiles, según se definen en el artículo 2, punto (62), del Reglamento (UE) 2018/1999 del Parlamento Europeo y del Consejo.

¿En qué medida se ajustaban las inversiones sostenibles con un objetivo medioambiental a la taxonomía de la UE?

No aplicable.

● ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil o la energía nuclear que cumplían con la taxonomía de la UE¹?

Sí:

En gas fósil En energía nuclear

Para ajustarse a la taxonomía de la UE, los criterios correspondientes al gas fósil incluyen

¹ Las actividades relacionadas con el gas fósil o la energía nuclear solo cumplirán la taxonomía de la UE cuando contribuyan a limitar el cambio climático («mitigación del cambio climático») y no perjudiquen significativamente ningún objetivo de la taxonomía de la UE (véase la nota explicativa en el margen izquierdo). Los criterios completos correspondientes a las actividades económicas del gas fósil y la energía nuclear que se ajustan a la taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

limitaciones de emisiones y el paso a la energía renovable o combustibles bajos en carbono de aquí al fin de 2035. Por lo que respecta a la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

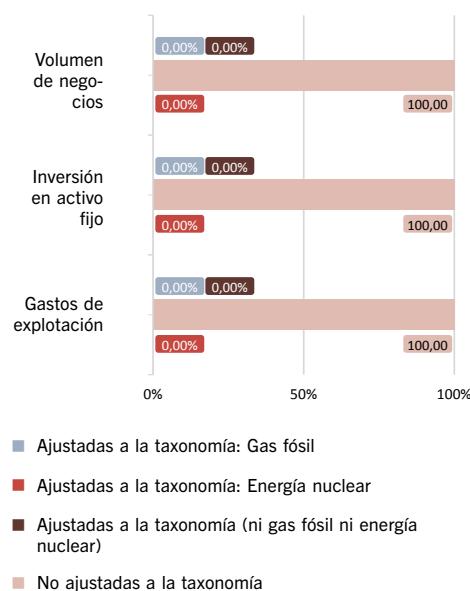

Las actividades que se ajustan a la taxonomía se expresan como un porcentaje de:

- el **volumen de negocios**, que refleja el «carácter ecológico» de las empresas en las que se invierte en la actualidad;
- la **inversión en activo fijo**, que muestra las inversiones ecológicas realizadas por las empresas en las que se invierte, pertinentes para la transición a una economía verde;
- los **gastos de explotación**, que reflejan las actividades operativas ecológicas de las empresas en las que se invierte.

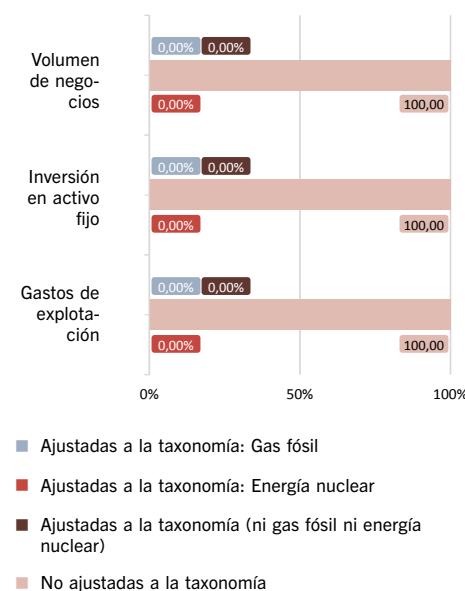

No

Los gráficos que figuran a continuación muestran en verde el porcentaje de inversiones que se ajustaban a la taxonomía de la UE. Dado que no existe una metodología adecuada para determinar la adaptación a la taxonomía de los bonos soberanos*, el primer gráfico muestra la adaptación a la taxonomía correspondiente para todas las inversiones del producto financiero, incluidos los bonos soberanos, mientras que el segundo gráfico muestra la adaptación a la taxonomía solo en relación con las inversiones del producto financiero distintas de los bonos soberanos.

1. Ajuste a la taxonomía de las inversiones incluidos los bonos soberanos*

2. Ajuste a la taxonomía de las inversiones excluidos los bonos soberanos*

Este gráfico representa el 98,86% de las inversiones totales.

* A efectos de estos gráficos, los «bonos soberanos» incluyen todas las exposiciones soberanas

● ¿Cuál ha sido la proporción de las inversiones realizadas en actividades de transición y facilitadoras?

No aplicable.

● ¿Qué porcentaje de inversiones se han ajustado a la taxonomía de la UE en comparación con los períodos de referencia anteriores?

No aplicable.

¿Cuál ha sido la proporción de inversiones sostenibles con un objetivo medioambiental no ajustadas a la taxonomía de la UE?

8,61%

Estas inversiones sostenibles no se ajustan a la Taxonomía de la UE porque sus actividades económicas o bien (i) no están cubiertas por la Taxonomía de la UE, o bien (ii) no cumplen los criterios técnicos de selección para lograr una contribución sustancial en el sentido de la Taxonomía de la UE.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta

¿Cuál ha sido la proporción de inversiones socialmente sostenibles?

27,91%

¿Qué inversiones se han incluido en «otras» y cuál ha sido su propósito? ¿ha habido garantías medioambientales o sociales mínimas?

Las «otras» inversiones del fondo incluían posiciones de tesorería mantenidas principalmente para satisfacer los objetivos diarios de liquidez y gestión de riesgos permitidos y previstos por la política de inversión del fondo. Cuando sea preciso, se aplicarán salvaguardias medioambientales o sociales mínimas a los valores subyacentes.

¿Qué medidas se han adoptado para cumplir las características medioambientales o sociales durante el período de referencia?

Durante el periodo de referencia, se alcanzó el objetivo de inversión sostenible siguiendo la estrategia de inversión y respetando los elementos vinculantes.

Los elementos vinculantes del fondo son:

- Exclusión de emisores que:
 - están relacionados con armas nucleares de países que no han firmado el Tratado sobre la No Proliferación de Armas Nucleares (TNP) y otras armas controvertidas
 - obtienen una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, como la extracción de carbón térmico y la generación de electricidad, la exploración y producción no convencional de petróleo y gas, las armas convencionales y armas pequeñas, las armas de contratación militar, la producción de tabaco, la producción de entretenimiento para adultos y las actividades del juego. Para más detalles sobre los umbrales de exclusión aplicables a las actividades anteriores, consulte la Política de Inversión responsable de Pictet Asset Management.
 - incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción
- un perfil ASG mejor que el del índice de referencia
- análisis de criterios ASG de los valores admisibles que abarca al menos el 90% del patrimonio neto o el número de emisores incluidos en la cartera

Además, el fondo se implicó con 7 empresas a 30.09.2023.

¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

● ¿Cómo difería el índice de referencia de un índice general de mercado?

No aplicable.

- **¿Cómo se ha comportado este producto financiero con respecto a los indicadores de sostenibilidad para determinar la conformidad del índice de referencia con las características medioambientales o sociales que promueve?**
No aplicable.
- **¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?**
No aplicable.
- **¿Cómo se ha comportado este producto financiero en comparación con el índice general de mercado?**
No aplicable.

CARACTERÍSTICAS MEDIOAMBIENTALES O SOCIALES

Inversión sostenible
significa una inversión en una actividad económica que contribuye a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo a ningún objetivo medioambiental o social y que las empresas en las que se invierte sigan prácticas de buena gobernanza.

La **taxonomía de la UE** es un sistema de clasificación previsto en el Reglamento (UE) 2020/852 por el que se establece una lista de **actividades económicas medioambientalmente sostenibles**. Dicho Reglamento no prevé una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental pueden ajustarse, o no, a la taxonomía.

| ¿ESTE PRODUCTO FINANCIERO TENÍA UN OBJETIVO DE INVERSIÓN SOSTENIBLE? | | | |
|--|--|-------------------------------------|--|
| <input checked="" type="radio"/> Si | | <input checked="" type="radio"/> No | |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo medioambiental: ____% | <input checked="" type="checkbox"/> | Promovió características medioambientales o sociales y, aunque no tenía como objetivo una inversión sostenible, tuvo un porcentaje del 35,06% de inversiones sostenibles |
| <input type="checkbox"/> | en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input type="checkbox"/> | con un objetivo medioambiental en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> | en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> | con un objetivo medioambiental en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo social: ____% | <input type="checkbox"/> | <input checked="" type="checkbox"/> con un objetivo social |
| <input type="checkbox"/> | | <input type="checkbox"/> | Ha promovido características medioambientales o sociales, pero no ha realizado ninguna inversión sostenible |

Nota: Las inversiones sostenibles se calcularon sobre una base de aprobado/suspenso, incluyendo bonos con etiqueta (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% (medida por ingresos, EBIT, valor de empresa o indicadores similares) a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.

¿En qué grado se han cumplido las características medioambientales o sociales que promueve este producto financiero?

Las características medioambientales y sociales de este producto financiero se promovieron utilizando:

- Inclinación positiva:

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos y, como resultado, tuvo un perfil medioambiental, social y de gobernanza (ASG) mejor que el del índice de referencia. El índice MSCI Japan se utilizó para medir la inclinación positiva; sin embargo, no se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

- Exclusiones basadas en normas y valores:

El fondo excluyó los emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente o que incumplen de forma grave las normas internacionales, según se detalla a continuación:

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

Actividad

Umbrales de ingresos

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

| | |
|---|------------------------------------|
| Combustibles fósiles y energía nuclear | |
| Extracción de carbón térmico | > 25% |
| Generación de energía térmica de carbón | > 25% |
| Extracción de arenas bituminosas | > 25% |
| Extracción de energía de esquisto | > 25% |
| Exploración de petróleo y gas en el Ártico | > 10% |
| Armas | |
| Producción de armas controvertidas ^[1] | > 0% |

| Exclusiones de países | Excluidas |
| Países (i) incluidos en la lista de Estados patrocinadores del terrorismo, según la definición de la Oficina de Control de Activos Extranjeros de EE. UU. ^[2] o (ii) sujetos a sanciones financieras de la UE contra bancos centrales y/o empresas de propiedad estatal. | Sí |
| Países (i) clasificados como de muy alto o alto riesgo en el Índice de Estados Frágiles o (ii) afectados por conflictos violentos según la definición del Banco Mundial. | Sí |
| Países (i) incluidos en la lista de «alerta» del Índice de Estados Frágiles o (ii) sujetos a sanciones relacionadas con la exportación por parte de la UE. | Lista de vigilancia ^[3] |

^[1] Entre las armas controvertidas se encuentran las minas antipersona, las municiones de racimo, las armas biológicas y químicas (incluido el fósforo blanco) y las armas nucleares procedentes de países no firmantes del Tratado de No Proliferación de Armas Nucleares (TNP).

^[2] «Estado patrocinador del terrorismo» es una designación aplicada por el Departamento de Estado de Estados Unidos a países que repetidamente han prestado apoyo a actos de terrorismo internacional.

^[3] Además de las exclusiones estrictas, Pictet Asset Management mantiene una lista de vigilancia que incluye países que requieren una diligencia debida adicional por parte de los equipos de inversión antes de invertir.

Para más detalles, consulte la Política de Inversión responsable de Pictet Asset Management (Anexo B).

- Titularidad activa:

El fondo ejerció de forma metódica sus derechos de voto y se implicó con la dirección de las empresas sobre cuestiones ASG importantes.

● ¿Cómo se han comportado los indicadores de sostenibilidad?

Durante el periodo de información, los indicadores de sostenibilidad se comportaron según se indica a continuación:

- Perfil ASG global

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos.

Como resultado, el fondo ha conseguido un perfil ambiental, social y de gobernanza (ASG) mejor que el del índice de referencia.

● **Principal incidencia adversa (PIA)**

El fondo utiliza una combinación de enfoques para considerar y, en la medida de lo posible, mitigar las incidencias adversas materiales de nuestras inversiones en la sociedad y el medioambiente, como emisiones de GEI, contaminación atmosférica, pérdida de biodiversidad, emisiones al agua, residuos peligrosos/radioactivos, derechos humanos, normas laborales, corrupción y soborno, y salud pública.

El grado y la forma en que estas incidencias se tuvieron en cuenta dependieron de factores como el contexto específico de la inversión que provoca la incidencia adversa o la disponibilidad de datos fiables.

De conformidad con la política de exclusión de Pictet Asset Management descrita en la Política de Inversión responsable de la empresa (véase el cuadro anterior para consultar las actividades excluidas y los umbrales de exclusión aplicados), el fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente:

Actividades controvertidas (media ponderada de ingresos de la empresa, en %)*:

| | Fondo (%) | Índice de referencia (%) |
|--|-----------|--------------------------|
| Combustibles fósiles y energía nuclear | 0,03 | 0,00 |
| Armas | 0,12 | 0,00 |
| Otras actividades controvertidas | 0,15 | 0,00 |
| No aplicable: | 0,71 | 0,00 |
| No cubierto: | 0,00 | 0,00 |

* Los combustibles fósiles y la energía nuclear incluyen la extracción de carbón térmico y la generación de electricidad, la producción y extracción de petróleo y gas, la extracción de energía de esquisto, la exploración de petróleo y gas en los mares del Ártico y la generación de energía nuclear. Las armas incluyen la contratación militar (servicios de armas y relacionadas con estas), clientes civiles de armas pequeñas (armas de asalto/no asalto), clientes militares/de las fuerzas y cuerpos de seguridad de armas pequeñas y componentes clave de pequeñas armas. Otras actividades controvertidas incluyen la producción de tabaco, la producción de entretenimiento para adultos, la explotación de juegos de azar, el desarrollo o crecimiento de organismos modificados genéticamente, la producción o venta al por menor de pesticidas. La exposición se basa en datos de terceros y puede no reflejar nuestro punto de vista interno. Pictet Asset Management tiene plena discreción sobre la aplicación de los criterios de exclusión y se reserva el derecho de apartarse de la información de terceros, según el caso, cuando se considere incorrecta o incompleta.

Fuente: Pictet Asset Management, Sustainalytics.

Además, el fondo excluyó a los emisores que tenían exposición a:

(i) PIA 10: Incumplimientos de los principios del Pacto Mundial de las Naciones Unidas y las Directrices para Empresas Multinacionales de la Organización para la Cooperación y el Desarrollo Económicos (OCDE).

(ii) PIA 14: Exposición a armas controvertidas (minas antipersonas, municiones en racimo, armas químicas y armas biológicas)

● **Derechos de voto**

Durante el periodo de referencia, el fondo votó en 36 juntas generales de 36 juntas en las que se podía votar (100,00%). Votamos «en contra» (incluidas «abstenciones» o «retenciones») en al menos una resolución en el 27,78% de las juntas.

De las 417 resoluciones de la dirección, votamos en contra de la dirección en 17 puntos (4,08%) y nos abstuvimos en 0 puntos (0,00%).

Apoyamos 6 (60,00%) resoluciones de accionistas de un total de 10 propuestas.

Por lo que respecta a las cuestiones medioambientales y/o sociales, votamos a favor de 0 de las 0 resoluciones de la dirección y a favor de 2 de las 2 resoluciones de accionistas.

Fuente: Pictet Asset Management, ISS ESG.

● Interacción

El fondo se implicó con 12 empresas sobre cuestiones ASG (datos a 30.09.2023). Esto incluye diálogos internos, iniciativas de colaboración entre inversores y servicios de implicación de terceros. Para que se considere implicación, el diálogo con una empresa objetivo debe tener un objetivo claro y mensurable en un horizonte temporal predefinido. Es importante señalar que no todas las interacciones rutinarias o de supervisión, aunque impliquen a la alta dirección o al Consejo de administración, se consideran implicaciones en nuestra evaluación.

Fuente: Pictet Asset Management, Sustainalytics.

● ¿... y en comparación con períodos anteriores?

Esta cuestión se abordará en futuros informes anuales debido a la falta de historial.

● ¿Cuáles han sido los objetivos de las inversiones sostenibles que ha realizado en parte el producto financiero y de qué forma ha contribuido la inversión sostenible a dichos objetivos?

El fondo no se comprometió a un porcentaje mínimo de inversiones sostenibles.

Sin embargo, *a posteriori*, el fondo invirtió en valores que financiaban actividades económicas que contribuyeron sustancialmente a objetivos medioambientales y/o sociales como:

Medioambientales

- mitigación del cambio climático o adaptación al mismo
- suso sostenible y protección de los recursos hídricos y marinos
- transición hacia una economía circular
- prevención y control de la contaminación o
- protección y recuperación de la biodiversidad y los ecosistemas

Sociales

- comunidades inclusivas y sostenibles
- nivel de vida adecuado y bienestar para los usuarios finales o
- trabajo digno

Pictet Asset Management utilizó un marco de referencia propio, así como los objetivos de la Taxonomía de la UE, para definir las inversiones sostenibles.

● ¿De qué manera las inversiones sostenibles que el producto financiero ha realizado en parte, no han causado un perjuicio significativo a ningún objetivo de inversión sostenible medioambiental o social?

Para evitar que las inversiones sostenibles causen un perjuicio significativo a cualquier otro objetivo medioambiental o social, el fondo aplicó los siguientes criterios de selección sobre la base del mejor esfuerzo:

- (i) Exclusiones de emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente (véase la descripción del marco de exclusión de IR).
- (ii) Los emisores asociados a controversias elevadas y graves no se contabilizaron como inversiones sostenibles.

La información se obtuvo de proveedores terceros y/o de análisis interno. La información ASG de terceros proveedores de datos puede haber sido incompleta, inexacta o no estar disponible. Como consecuencia de ello, existía el riesgo de que el Gestor de inversiones evaluara incorrectamente un valor o emisor, dando lugar a la inclusión o exclusión incorrecta de un valor en el fondo. Los datos ASG incompletos, inexactos o no disponibles también pueden actuar como una limitación metodológica a una estrategia de inversión no financiera (como la aplicación de criterios ASG o similares). En los casos identificados, el Gestor de inversiones trató de mitigar este riesgo mediante su propia evaluación. En caso de que las características ASG de un valor mantenido por el fondo cambiaran, dando lugar a la venta del valor, el Gestor de inversiones no acepta responsabilidad alguna en relación con dicho cambio.

● ¿Cómo se han tenido en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?

Pictet Asset Management realiza un seguimiento de todos los indicadores obligatorios de principales incidencias adversas (incluidos en el Anexo 1 del Reglamento Delegado (UE) 22 / 1288 de la Comisión) cuando disponemos de datos sólidos. Se espera que la calidad de los datos disponibles mejore con el tiempo.

Las principales incidencias adversas son las incidencias negativas más importantes de las decisiones de inversión sobre los factores de sostenibilidad en relación con asuntos

medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas de sus inversiones en la sociedad y el medioambiente que se consideran importantes para la estrategia de inversión, mediante un conjunto de decisiones de gestión de cartera, actividades de propiedad activa y exclusión de emisores asociados a conductas o actividades controvertidas. Más información en el informe de PIA de la entidad, disponible en:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=es&bl=PAM>

- *¿Se han ajustado las inversiones sostenibles a las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios rectores de las Naciones Unidas sobre las empresas y los derechos humanos?*

Para garantizar que la inversión sostenible no causara un perjuicio significativo a ningún objetivo de inversión sostenible, el fondo excluyó a las empresas con infracciones elevadas y graves de (i) los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción o (ii) las Líneas Directrices de la OCDE para Empresas Multinacionales, incluidos los asuntos sociales y laborales graves.

La taxonomía de la UE establece el principio de «no causar un perjuicio significativo», según el cual las inversiones que se ajusten a la taxonomía no deben perjudicar significativamente a los objetivos de la taxonomía de la UE, e incluye criterios específicos de la Unión.

El principio de «no perjudicar de forma significativa» se aplica únicamente a las inversiones subyacentes del producto financiero que contemplan los criterios de la UE relativos a actividades económicas sostenibles desde una perspectiva medioambiental. Las inversiones subyacentes al resto del producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas medioambientalmente sostenibles.

Cualquier otra inversión sostenible tampoco debe perjudicar significativamente a ningún objetivo medioambiental o social.

¿Cómo tiene en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas que se consideran importantes para la estrategia de inversión. Entre las incidencias adversas se incluyeron, entre otras, las emisiones de gases de efecto invernadero (GEI), la contaminación atmosférica, la pérdida de biodiversidad, las emisiones al agua, los residuos peligrosos/radioactivos, las cuestiones sociales y laborales, y la corrupción y el soborno, que se abordaron mediante una combinación de:

(i) decisiones de gestión de carteras

El equipo de inversión puntuó las posiciones según una evaluación de los riesgos medioambientales, sociales y de gobernanza como parte del marco de puntuación del fondo. Los gestores de inversiones determinan las puntuaciones sobre una base cualitativa, basándose en el análisis fundamental y en datos cuantitativos ASG, incluidos los datos sobre la Principal incidencia adversa, los datos ASG facilitados por las empresas y los datos proporcionados por terceros proveedores de datos ASG. El proceso de puntuación del equipo de inversión fue un componente clave del proceso de construcción de la cartera del compartimento, determinando las ponderaciones objetivo en la cartera.

(ii) voto por delegación

El fondo se atuvo a las directrices de voto de Pictet Asset Management, que están diseñadas para apoyar una cultura de gobierno corporativo sólida, una gestión eficaz de las cuestiones medioambientales y sociales, y la publicación de información exhaustiva de acuerdo con normas creíbles. Dichas directrices también pretenden apoyar a los órganos de gobierno mundiales reconocidos que promueven prácticas empresariales sostenibles que abogan por la gestión del medio ambiente, las prácticas laborales justas, la no discriminación y la protección de los derechos humanos. Todas las actividades de voto del fondo se registraron y pueden compartirse previa solicitud.

(iii) implicación

La interacción con los emisores se realizó mediante conversaciones individuales, reuniones de accionistas/bonistas, giras de inversores y/o conferencias telefónicas. Los objetivos de estas interacciones fueron evaluar una organización, supervisar que su estrategia se estaba aplicando conforme a nuestras expectativas y garantizar que los emisores iban camino de cumplir sus metas y objetivos.

Cuando corresponde, nos implicamos con las empresas en relación con cuestiones ASG importantes, como los objetivos de reducción de los GEI, las mejoras en la gobernanza y diversas controversias medioambientales, sociales y de gobernanza, para asegurarnos de que las entendieran y las abordaran

eficazmente a corto, medio y largo plazo. Nuestras actividades de implicación combinaron debates dirigidos a nivel interno, iniciativas de colaboración con inversores institucionales y servicios de implicación externos.

(iv) exclusión de emisores asociados a conductas o actividades controvertidas

El fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se definen en la Política de Inversión responsable de la Pictet Asset Management y/o (ii) empresas que infringieron gravemente los principios del Pacto Mundial de la ONU sobre derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción y las armas controvertidas.

¿Cuáles han sido las inversiones principales de este producto financiero?

La lista incluye las inversiones que constituyen la mayor parte de las inversiones del producto financiero durante el período de referencia, que es: 01.10.2022 - 30.09.2023

| INVERSIONES DE MAYOR VOLUMEN | SECTOR | % DE ACTIVOS | PAÍS |
|------------------------------|------------------------------|--------------|-------|
| TOYOTA MOTOR CORP | Consumo discrecional | 4,3 | Japón |
| SONY GROUP CORP | Consumo discrecional | 4,0 | Japón |
| SHIN-ETSU CHEMICAL CO LTD | Materiales | 3,8 | Japón |
| HITACHI LTD | Industria | 3,6 | Japón |
| KEYENCE CORP | Tecnología de la información | 3,3 | Japón |
| DENSO CORP | Consumo discrecional | 3,1 | Japón |
| SUZUKI MOTOR CORP | Consumo discrecional | 3,1 | Japón |
| MITSUI FUDOSAN CO LTD | Bienes inmobiliarios | 3,0 | Japón |
| RENESAS ELECTRONICS CORP | Tecnología de la información | 3,0 | Japón |
| NIPPON TELEGRAPH & TELEPHONE | Consumo discrecional | 3,0 | Japón |
| RECRUIT HOLDINGS CO LTD | Industria | 3,0 | Japón |
| FANUC CORP | Industria | 2,9 | Japón |
| BANDAI NAMCO HOLDINGS INC | Consumo discrecional | 2,8 | Japón |
| MITSUBISHI UFJ FINANCIAL GRO | Financiero | 2,8 | Japón |
| SEVEN & I HOLDINGS CO LTD | Consumo básico | 2,8 | Japón |

¿Cuál ha sido la proporción de inversiones relacionadas con la sostenibilidad?

35,06%

La asignación de activos describe el porcentaje de inversiones en activos específicos.

● ¿Cuál ha sido la asignación de activos?

El fondo se ajustó en un 99,29% con características medioambientales o sociales (n.º 1 Ajustadas a características medioambientales o sociales) y tuvo hasta un 0,71% invertido en la categoría Otras (n.º 2 Otras). El 35,06% se asignó a inversiones sostenibles (n.º 1A Sostenibles) y el resto se invirtió en inversiones ajustadas a otras características medioambientales o sociales (n.º 1B Otras características medioambientales o sociales).

n.º 1 Ajustadas a características medioambientales o sociales incluye las inversiones del producto financiero utilizadas para lograr las características medioambientales o sociales que promueve el producto financiero.

n.º 2 Otras incluye el resto de inversiones del producto financiero que ni se ajustan a las características medioambientales o sociales ni pueden considerarse inversiones sostenibles.

La categoría **n.º 1 Ajustadas a características medioambientales o sociales** abarca:

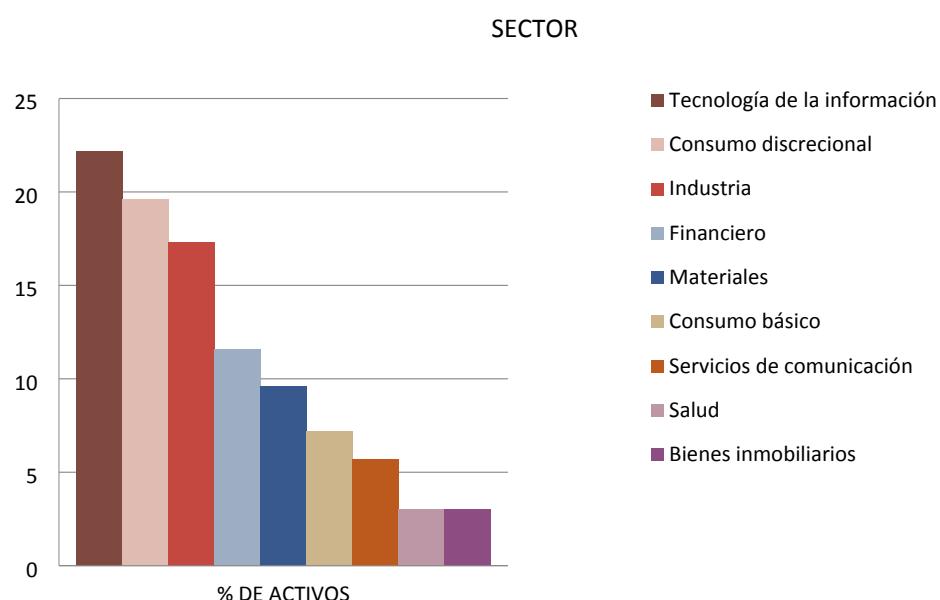

- la subcategoría **n.º 1A Sostenibles**, que abarca las inversiones sostenibles con objetivos medioambientales o sociales.
- la subcategoría **n.º 1B Otras características medioambientales o sociales**, que abarca inversiones ajustadas a las características medioambientales o sociales que no pueden considerarse inversiones sostenibles.

Notas:

- Las inversiones «n.º 1A Sostenibles», «Otras medioambientales» y «Sociales» se calcularon sobre una base de aprobado/suspenso. Incluyen bonos certificados (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.
- A falta de una taxonomía social de la UE, Pictet ha desarrollado un marco de taxonomía social propio. El marco se basa en basado en el Informe sobre taxonomía social publicado por la Plataforma de Finanzas Sostenibles de la UE en 2022. Las actividades admisibles se definen como bienes y servicios beneficiosos desde el punto de vista social que contribuyen sustancialmente a uno de los tres objetivos sociales siguientes: (1) comunidades inclusivas y sostenibles, (2) nivel de vida adecuado y bienestar para los usuarios finales y (3) trabajo digno.

Fuente: Pictet Asset Management, Sustainanalytics, FTSE Green Revenues, Factset RBICS.

● ¿En qué sectores económicos se han realizado las inversiones?

Fuente: Pictet Asset Management, GICS/MSCI.

Estamos evaluando la disponibilidad y la calidad de los datos que nos permitirían divulgar información más granular en futuros informes sobre los sectores y subsectores de la economía que obtienen ingresos a partir de la exploración, la minería, la extracción, la producción, el

procesamiento, el almacenamiento, el refinado o la distribución, incluidos el transporte, el almacenamiento y el comercio, de combustibles fósiles, según se definen en el artículo 2, punto (62), del Reglamento (UE) 2018/1999 del Parlamento Europeo y del Consejo.

¿En qué medida se ajustaban las inversiones sostenibles con un objetivo medioambiental a la taxonomía de la UE?

No aplicable.

● ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil o la energía nuclear que cumplían con la taxonomía de la UE¹?

Sí:

En gas fósil En energía nuclear

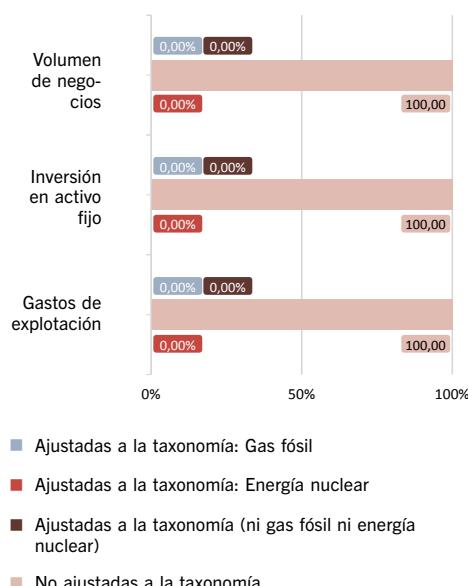

No

Para ajustarse a la taxonomía de la UE, los criterios correspondientes al **gas fósil** incluyen limitaciones de emisiones y el paso a la energía renovable o combustibles bajos en carbono de aquí al fin de 2035. Por lo que respecta a la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

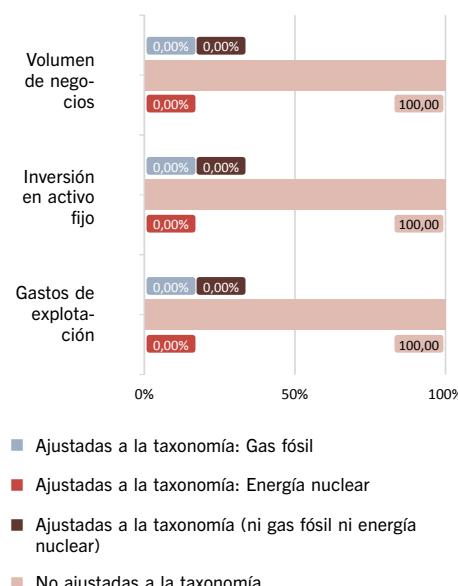

Las actividades que se ajustan a la taxonomía se expresan como un porcentaje de:
- el **volumen de negocios**, que refleja el «carácter ecológico» de las empresas en las que se invierte en la actualidad;
- la **inversión en activo fijo**, que muestra las inversiones ecológicas realizadas por las empresas en las que se invierte, pertinentes para la transición a una economía verde;
- los **gastos de explotación**, que reflejan las actividades operativas ecológicas de las empresas en las que se invierte.

Los gráficos que figuran a continuación muestran en verde el porcentaje de inversiones que se ajustaban a la taxonomía de la UE. Dado que no existe una metodología adecuada para determinar la adaptación a la taxonomía de los bonos soberanos*, el primer gráfico muestra la adaptación a la taxonomía correspondiente para todas las inversiones del producto financiero, incluidos los bonos soberanos, mientras que el segundo gráfico muestra la adaptación a la taxonomía solo en relación con las inversiones del producto financiero distintas de los bonos soberanos.

1. Ajuste a la taxonomía de las inversiones incluidos los bonos soberanos*

2. Ajuste a la taxonomía de las inversiones excluidos los bonos soberanos*

Este gráfico representa el 99,29% de las inversiones totales.

* A efectos de estos gráficos, los «bonos soberanos» incluyen todas las exposiciones soberanas

● ¿Cuál ha sido la proporción de las inversiones realizadas en actividades de transición y facilitadoras?

No aplicable.

¹ Las actividades relacionadas con el gas fósil o la energía nuclear solo cumplirán la taxonomía de la UE cuando contribuyan a limitar el cambio climático («mitigación del cambio climático») y no perjudiquen significativamente ningún objetivo de la taxonomía de la UE (véase la nota explicativa en el margen izquierdo). Los criterios completos correspondientes a las actividades económicas del gas fósil y la energía nuclear que se ajustan a la taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

- ¿Qué porcentaje de inversiones se han ajustado a la taxonomía de la UE en comparación con los períodos de referencia anteriores?

No aplicable.

¿Cuál ha sido la proporción de inversiones sostenibles con un objetivo medioambiental no ajustadas a la taxonomía de la UE?

14,68%

Estas inversiones sostenibles no se ajustan a la Taxonomía de la UE porque sus actividades económicas o bien (i) no están cubiertas por la Taxonomía de la UE, o bien (ii) no cumplen los criterios técnicos de selección para lograr una contribución sustancial en el sentido de la Taxonomía de la UE.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta los criterios para las actividades económicas medioambientalmente sostenibles con arreglo al Reglamento (UE) 2020/852.

¿Cuál ha sido la proporción de inversiones socialmente sostenibles?

20,37%

¿Qué inversiones se han incluido en «otras» y cuál ha sido su propósito? ¿ha habido garantías medioambientales o sociales mínimas?

Las «otras» inversiones del fondo incluían posiciones de tesorería mantenidas principalmente para satisfacer los objetivos diarios de liquidez y gestión de riesgos permitidos y previstos por la política de inversión del fondo. Cuando sea preciso, se aplicarán salvaguardias medioambientales o sociales mínimas a los valores subyacentes.

¿Qué medidas se han adoptado para cumplir las características medioambientales o sociales durante el período de referencia?

Durante el periodo de referencia, se alcanzó el objetivo de inversión sostenible siguiendo la estrategia de inversión y respetando los elementos vinculantes.

Los elementos vinculantes del fondo son:

- Exclusión de emisores que:
 - están relacionados con armas nucleares de países que no han firmado el Tratado sobre la No Proliferación de Armas Nucleares (TNP) y otras armas controvertidas
 - obtienen una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, como la extracción de carbón térmico y la generación de electricidad, la exploración y producción no convencional de petróleo y gas, las armas convencionales y armas pequeñas, las armas de contratación militar, la producción de tabaco, la producción de entretenimiento para adultos y las actividades del juego. Para más detalles sobre los umbrales de exclusión aplicables a las actividades anteriores, consulte la Política de Inversión responsable de Pictet Asset Management.
 - incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción
- un perfil ASG mejor que el del índice de referencia
- análisis de criterios ASG de los valores admisibles que abarca al menos el 90% del patrimonio neto o el número de emisores incluidos en la cartera

Además, el fondo se implicó con 12 empresas a 30.09.2023.

¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

Los índices de referencia son índices para medir si el producto financiero logra las características medioambientales o sociales que promueve.

● ¿Cómo difería el índice de referencia de un índice general de mercado?

No aplicable.

● ¿Cómo se ha comportado este producto financiero con respecto a los indicadores de sostenibilidad para determinar la conformidad del índice de referencia con las características medioambientales o sociales que promueve?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice general de mercado?

No aplicable.

OBJETIVO DE INVERSIÓN SOSTENIBLE

Inversión sostenible significa una inversión en una actividad económica que contribuye a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo a ningún objetivo medioambiental o social y que las empresas en las que se invierte sigan prácticas de buena gobernanza.

La **taxonomía de la UE** es un sistema de clasificación previsto en el Reglamento (UE) 2020/852 por el que se establece una lista de **actividades económicas medioambientalmente sostenibles**. Dicho Reglamento no prevé una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental pueden ajustarse, o no, a la taxonomía.

| ¿ESTE PRODUCTO FINANCIERO TENÍA UN OBJETIVO DE INVERSIÓN SOSTENIBLE? | |
|--|---|
| <input checked="" type="radio"/> Si | <input type="radio"/> No |
| <input checked="" type="checkbox"/> Ha realizado inversiones sostenibles con un objetivo medioambiental: 3,66% | <input type="checkbox"/> Promovió características medioambientales o sociales y, aunque no tenía como objetivo una inversión sostenible, tuvo un porcentaje del __% de inversiones sostenibles |
| <input type="checkbox"/> en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input type="checkbox"/> con un objetivo medioambiental en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input checked="" type="checkbox"/> en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input type="checkbox"/> con un objetivo medioambiental en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| | <input type="checkbox"/> con un objetivo social |
| <input checked="" type="checkbox"/> Ha realizado inversiones sostenibles con un objetivo social: 93,38% | <input type="checkbox"/> Ha promovido características medioambientales o sociales , pero no ha realizado ninguna inversión sostenible |

Nota: Las inversiones sostenibles se calcularon sobre una base de aprobado/suspenso, incluyendo bonos con etiqueta (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% (medida por ingresos, EBIT, valor de empresa o indicadores similares) a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.

¿En qué grado se ha cumplido el objetivo de inversión sostenible de este producto financiero?

Principales maneras por las que el fondo logró su objetivo de sostenibilidad:

- Impacto positivo:

El fondo logró un impacto social positivo, invirtiendo principalmente en empresas que contribuyen a la salud de las personas. Para salvaguardar el futuro de los servicios sanitarios mundiales, se requieren una mejor prevención y unos tratamientos más eficaces. Estas empresas pueden ayudar a frenar el crecimiento de los costes sanitarios y a maximizar la productividad.

No se ha designado ningún índice de referencia con el fin de lograr el objetivo de inversión sostenible.

El fondo invirtió principalmente en empresas cuyas actividades están relacionadas en gran medida con el aumento del ciclo sano de las personas (el tiempo que una persona disfruta de buena salud en general), la preservación de la salud de las personas mediante la promoción de una vida activa y entornos saludables, la recuperación de la salud o la mejora de la calidad de vida, la financiación de la salud y las ayudas para mejorar la eficiencia del sistema sanitario, y otras actividades económicas relevantes.

Los valores admisibles incluyeron acciones emitidas por empresas con una proporción significativa de actividades (medida por ingresos, EBIT, valor de empresa o parámetros similares) derivadas de dichas actividades económicas.

- Exclusiones basadas en normas y valores:

El fondo excluyó los emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente o que incumplen de forma grave las normas internacionales, según se detalla a continuación:

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

| Actividad | Umbrales de ingresos |
|---|----------------------|
| Combustibles fósiles y energía nuclear | |
| Extracción de carbón térmico | > 25% |
| Generación de energía térmica de carbón | > 25% |
| Producción de petróleo y gas | > 25% |
| Extracción de arenas bituminosas | > 10% |
| Extracción de energía de esquisto | > 10% |
| Exploración de petróleo y gas en el Ártico | > 10% |
| Generación de energía nuclear | > 50% |
| Armas | |
| Producción de armas controvertidas[1] | > 0% |
| Armas de contratación militar | > 10% |
| Productos y/o servicios relacionados con armas de contratación militar | > 50% |
| Clientes civiles de armas pequeñas (armas de asalto) | > 10% |
| Clientes civiles de armas pequeñas (armas de no asalto) | > 10% |
| Clientes militares/de fuerzas del orden de armas pequeñas | > 25% |
| Componentes clave de armas pequeñas | > 25% |
| Otras actividades controvertidas | |
| Producción de entretenimiento para adultos | > 10% |
| Operaciones de juego | > 10% |
| Desarrollo de plantas y semillas modificadas genéticamente | > 25% |
| Cultivo de plantas y semillas modificadas genéticamente | > 25% |
| Producción de plaguicidas | > 10% |
| Venta al por menor de plaguicidas | > 10% |
| Producción de productos de tabaco | > 10% |
| Exclusiones de empresas por incumplimiento de normas internacionales | Excluidas |
| Empresas que incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción | Sí |
| Exclusiones de países | Excluidas |
| Países (i) incluidos en la lista de Estados patrocinadores del terrorismo, según la definición de la Oficina de Control de Activos Extranjeros de EE. UU.[2] o (ii) sujetos a sanciones financieras de la UE contra bancos centrales y/o empresas de propiedad estatal. | Sí |
| Países (i) clasificados como de muy alto o alto riesgo en el Índice de Estados Frágiles o (ii) afectados por conflictos violentos según la definición del Banco Mundial. | Sí |

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

Países (i) incluidos en la lista de «alerta» del Índice de Estados Frágiles o (ii) sujetos a sanciones relacionadas con la exportación por parte de la UE. Lista de vigilancia[3]

[1] Entre las armas controvertidas se encuentran las minas antipersona, las municiones de racimo, las armas biológicas y químicas (incluido el fósforo blanco) y las armas nucleares procedentes de países no firmantes del Tratado de No Proliferación de Armas Nucleares (TNP).

[2] «Estado patrocinador del terrorismo» es una designación aplicada por el Departamento de Estado de Estados Unidos a países que repetidamente han prestado apoyo a actos de terrorismo internacional.

[3] Además de las exclusiones estrictas, Pictet Asset Management mantiene una lista de vigilancia que incluye países que requieren una diligencia debida adicional por parte de los equipos de inversión antes de invertir.

Para más detalles, consulte la Política de Inversión responsable de Pictet Asset Management (Anexo B).

Además de las exclusiones mencionadas, basadas en la Política de Inversión responsable de Pictet Asset Management, la estrategia aplicó límites de exclusión más estrictos basados en directrices internas.

- Titularidad activa:

El fondo ejerció sus derechos de voto de forma metódica. El fondo también se implicó con la dirección de las empresas sobre cuestiones ASG importantes.

- Inversiones sostenibles:

Pictet Asset Management utilizó un marco propio, así como los objetivos de la Taxonomía de la UE, para definir las inversiones sostenibles.

El fondo invirtió en valores que financiaban actividades económicas que contribuyeron sustancialmente a objetivos medioambientales y/o sociales como:

Medioambientales

- mitigación del cambio climático o adaptación al mismo
- suso sostenible y protección de los recursos hídricos y marinos
- transición hacia una economía circular
- prevención y control de la contaminación o
- protección y recuperación de la biodiversidad y el ecosistema

Sociales

- comunidades inclusivas y sostenibles
- nivel de vida adecuado y bienestar para los usuarios finales o
- trabajo digno

● **¿Cómo se han comportado los indicadores de sostenibilidad?**

Durante el periodo de información, los indicadores de sostenibilidad se comportaron según se indica a continuación:

- **Exposición a empresas que obtienen una parte significativa de sus ingresos, EBIT, valor de empresa o parámetros similares de actividades económicas que contribuyen a los objetivos medioambientales o sociales, y bonos con etiqueta cuando sea relevante para la clase de activos (inversiones sostenibles):**

97,04%

- **Exposición a ingresos de actividades económicas que contribuyen a la mitigación del cambio climático y/o a la adaptación al mismo (inversiones ajustadas a la taxonomía de la UE):**

0,00%

En el informe del próximo año se facilitará información adicional sobre objetivos sociales específicos.

- **Perfil ASG global**

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos.

- **Principal incidencia adversa (PIA)**

El fondo utiliza una combinación de enfoques para considerar y, en la medida de lo posible, mitigar las incidencias adversas materiales de sus inversiones en la sociedad y el medioambiente, como emisiones de GEI, contaminación atmosférica, pérdida de biodiversidad, emisiones al agua, residuos peligrosos/radioactivos, derechos humanos, normas laborales, corrupción y soborno, y salud pública.

Los indicadores de sostenibilidad miden cómo se logran los objetivos sostenibles de este producto financiero.

El grado y la forma en que estas incidencias se tuvieron en cuenta dependieron de factores como el contexto específico de la inversión que provoca la incidencia adversa o la disponibilidad de datos fiables.

De conformidad con la política de exclusión de Pictet Asset Management descrita en la Política de Inversión responsable de la empresa (véase el cuadro anterior para consultar las actividades excluidas y los umbrales de exclusión aplicados), el fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se detalla a continuación:

Actividades controvertidas (media ponderada de ingresos de la empresa, en %)*:

| | Fondo (%) | Índice de referencia (%) |
|--|-----------|--------------------------|
| Combustibles fósiles y energía nuclear | 0,00 | 4,15 |
| Armas | 0,00 | 0,99 |
| Otras actividades controvertidas | 0,12 | 1,02 |
| No aplicable: | 1,04 | 0,00 |
| No cubierto: | 1,39 | 0,02 |

* Los combustibles fósiles y la energía nuclear incluyen la extracción de carbón térmico y la generación de electricidad, la producción y extracción de petróleo y gas, la extracción de energía de esquisto, la exploración de petróleo y gas en los mares del Ártico y la generación de energía nuclear. Las armas incluyen la contratación militar (servicios de armas y relacionadas con estas), clientes civiles de armas pequeñas (armas de asalto/no asalto), clientes militares/de las fuerzas y cuerpos de seguridad de armas pequeñas y componentes clave de pequeñas armas. Otras actividades controvertidas incluyen la producción de tabaco, la producción de entretenimiento para adultos, la explotación de juegos de azar, el desarrollo o crecimiento de organismos modificados genéticamente, la producción o venta al por menor de pesticidas. La exposición se basa en datos de terceros y puede no reflejar nuestro punto de vista interno. Pictet Asset Management tiene plena discreción sobre la aplicación de los criterios de exclusión y se reserva el derecho de apartarse de la información de terceros, según el caso, cuando se considere incorrecta o incompleta.

Fuente: Pictet Asset Management, Sustainalytics.

Además, el fondo excluyó a los emisores que tenían exposición a:

(i) PIA 10: Incumplimientos de los principios del Pacto Mundial de las Naciones Unidas y las Directrices para Empresas Multinacionales de la Organización para la Cooperación y el Desarrollo Económicos (OCDE).

(ii) PIA 14: Exposición a armas controvertidas (minas antipersonas, municiones en racimo, armas químicas y armas biológicas)

• Derechos de voto

Durante el periodo de referencia, el fondo votó en 46 juntas generales de 46 juntas en las que se podía votar (100,00%). Votamos «en contra» (incluidas «abstenciones» o «retenciones») en al menos una resolución en el 32,61% de las juntas.

De las 618 resoluciones de la dirección, votamos en contra de la dirección en 28 puntos (4,53%) y nos abstuvimos en 8 puntos (1,29%).

Apoyamos 17 (77,27%) resoluciones de accionistas de un total de 22 propuestas.

Por lo que respecta a las cuestiones medioambientales y/o sociales, votamos a favor de 4 de las 4 resoluciones de la dirección y a favor de 11 de las 13 resoluciones de accionistas.

Fuente: Pictet Asset Management, ISS ESG.

• Interacción

El fondo se implicó con 19 empresas sobre cuestiones ASG (datos a 30.09.2023). Esto incluye diálogos internos, iniciativas de colaboración entre inversores y servicios de implicación de terceros. Para que se considere implicación, el diálogo con una empresa objetivo debe tener un objetivo claro y mensurable en un horizonte temporal predefinido. Es importante señalar que no todas las interacciones rutinarias o de supervisión, aunque impliquen a la alta dirección o al Consejo de administración, se consideran implicaciones en nuestra evaluación.

Fuente: Pictet Asset Management, Sustainalytics.

- ¿... y en comparación con períodos anteriores?**
Esta cuestión se abordará en futuros informes anuales debido a la falta de historial.
- ¿De qué manera las inversiones sostenibles no han causado un perjuicio significativo a ningún objetivo medioambiental o social?**
Para evitar que las inversiones sostenibles causen un perjuicio significativo a cualquier otro objetivo medioambiental o social, el fondo aplicó los siguientes criterios de selección sobre la base del mejor esfuerzo:
- (i) Exclusiones de emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente (véase la descripción del marco de exclusión de IR).
 - (ii) Los emisores asociados a controversias elevadas y graves se excluyeron.
- La información se obtuvo de proveedores terceros y/o de análisis interno. La información ASG de terceros proveedores de datos puede haber sido incompleta, inexacta o no estar disponible. Como consecuencia de ello, existía el riesgo de que el Gestor de inversiones evaluara incorrectamente un valor o emisor, dando lugar a la inclusión o exclusión incorrecta de un valor en el fondo. Los datos ASG incompletos, inexactos o no disponibles también pueden actuar como una limitación metodológica a una estrategia de inversión no financiera (como la aplicación de criterios ASG o similares). En los casos identificados, el Gestor de inversiones trató de mitigar este riesgo mediante su propia evaluación. En caso de que las características ASG de un valor mantenido por el fondo cambiaran, dando lugar a la venta del valor, el Gestor de inversiones no acepta responsabilidad alguna en relación con dicho cambio.
- ¿Cómo se han tenido en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?**
Pictet Asset Management realiza un seguimiento de todos los indicadores obligatorios de principales incidencias adversas (incluidos en el Anexo 1 del Reglamento Delegado (UE) 22 / 1288 de la Comisión) cuando disponemos de datos sólidos. Se espera que la calidad y la disponibilidad de los datos mejoren con el tiempo.
El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas de sus inversiones en la sociedad y el medioambiente que se consideran importantes para la estrategia de inversión, mediante un conjunto de decisiones de gestión de cartera, actividades de propiedad activa y exclusión de emisores asociados a conductas o actividades controvertidas.
Más información en el informe de PIA de la entidad, disponible en:
<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=es&bl=PAM>
- ¿Se han ajustado las inversiones sostenibles a las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios rectores de las Naciones Unidas sobre las empresas y los derechos humanos?**
Para garantizar que la inversión sostenible no causara un perjuicio significativo a ningún objetivo de inversión sostenible, el fondo excluyó a las empresas con infracciones elevadas y graves de (i) los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción o (ii) las Líneas Directrices de la OCDE para Empresas Multinacionales, incluidos los asuntos sociales y laborales graves.
-  **¿Cómo tiene en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?**
- El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas que se consideran importantes para la estrategia de inversión. Entre las incidencias adversas se incluyeron, entre otras, las emisiones de gases de efecto invernadero (GEI), la contaminación atmosférica, la pérdida de biodiversidad, las emisiones al agua, los residuos peligrosos/radioactivos, las cuestiones sociales y laborales, y la corrupción y el soborno, que se abordaron mediante una combinación de:
- (i) decisiones de gestión de carteras
- El equipo de inversión puntuó las posiciones según una evaluación de los riesgos y oportunidades medioambientales, sociales y de gobernanza, así como la exposición a inversiones sostenibles, como parte del marco de puntuación del fondo. Las puntuaciones se determinan de forma cualitativa por los gestores de inversión, basándose en estudios fundamentales y datos cuantitativos ASG, incluidos los datos sobre el Principio de Impacto Negativo, los datos ASG facilitados por las empresas y los datos

proporcionados por terceros proveedores de datos ASG. El proceso de puntuación del equipo de inversión fue un componente clave del proceso de construcción de la cartera del compartimento, determinando las ponderaciones objetivo en la cartera.

(ii) voto por delegación

El fondo se atuvió a las directrices de voto de Pictet Asset Management, que están diseñadas para apoyar una cultura de gobierno corporativo sólida, una gestión eficaz de las cuestiones medioambientales y sociales, y la publicación de información exhaustiva de acuerdo con normas creíbles. Dichas directrices también pretenden apoyar a los órganos de gobierno mundiales reconocidos que promueven prácticas empresariales sostenibles que abogan por la gestión del medio ambiente, las prácticas laborales justas, la no discriminación y la protección de los derechos humanos. Todas las actividades de voto del fondo se registraron y pueden compartirse previa solicitud.

(iii) implicación

La interacción con los emisores se realizó mediante conversaciones individuales, reuniones de accionistas/bonistas, giras de inversores y/o conferencias telefónicas. Los objetivos de estas interacciones fueron evaluar una organización, supervisar que su estrategia se estaba aplicando conforme a nuestras expectativas y garantizar que los emisores iban camino de cumplir sus metas y objetivos.

Cuando correspondió, nos implicamos con los emisores para abordar preocupaciones importantes en materia de ASG, mejorar las prácticas de sostenibilidad de las empresas o implicarnos en temas de impacto positivo para asegurarnos de que las entendían plenamente y las abordaban eficazmente a corto, medio y largo plazo. Nuestras actividades de implicación combinaron debates dirigidos a nivel interno, iniciativas de colaboración con inversores institucionales y servicios de implicación externos.

(iv) exclusión de emisores asociados a conductas o actividades controvertidas

El fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se definen en la Política de Inversión responsable de la Pictet Asset Management y/o (ii) empresas que infringieron gravemente los principios del Pacto Mundial de la ONU sobre derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción y las armas controvertidas.

¿Cuáles han sido las inversiones principales de este producto financiero?

La lista incluye las inversiones que constituyen la mayor parte de las inversiones del producto financiero durante el período de referencia, que es: 01.10.2022 - 30.09.2023

| INVERSIONES DE MAYOR VOLUMEN | SECTOR | % DE ACTIVOS | PAÍS |
|------------------------------|----------------------|--------------|----------------|
| THERMO FISHER SCIENTIFIC INC | Salud | 5,4 | Estados Unidos |
| UNITEDHEALTH GROUP INC | Salud | 4,9 | Estados Unidos |
| NOVO NORDISK A/S-B | Salud | 4,3 | Dinamarca |
| BOSTON SCIENTIFIC CORP | Salud | 3,8 | Estados Unidos |
| ELI LILLY & CO | Salud | 3,6 | Estados Unidos |
| HUMANA INC | Salud | 3,5 | Estados Unidos |
| RECKITT BENCKISER GROUP PLC | Consumo básico | 3,5 | Reino Unido |
| LULULEMON ATHLETICA INC | Consumo discrecional | 3,3 | Canadá |
| STERIS PLC | Salud | 3,1 | Estados Unidos |
| GARMIN LTD | Consumo discrecional | 3,1 | Suiza |
| ASTRAZENECA PLC | Salud | 3,0 | Reino Unido |
| QUEST DIAGNOSTICS INC | Salud | 2,8 | Estados Unidos |
| AFLAC INC | Financiero | 2,7 | Estados Unidos |
| AGILENT TECHNOLOGIES INC | Salud | 2,7 | Estados Unidos |
| DEXCOM INC | Salud | 2,5 | Estados Unidos |

Fuente: Pictet Asset Management, GICS/MSCI.

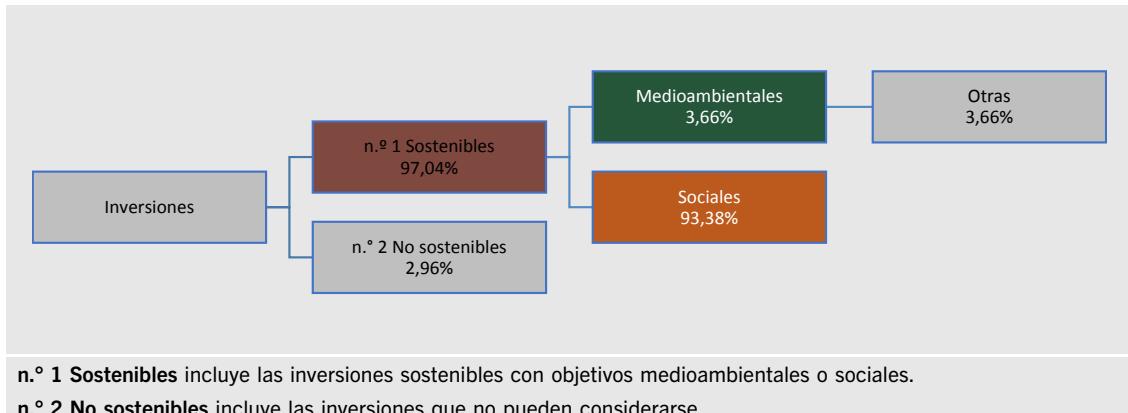

¿Cuál ha sido la proporción de inversiones relacionadas con la sostenibilidad?

97,04%

La asignación de activos describe el porcentaje de inversiones en activos específicos.

● ¿Cuál ha sido la asignación de activos?

El fondo asignó el 97,04% de sus activos a inversiones sostenibles (n.º 1 Sostenibles) y el 2,96% a Inversiones no sostenibles (n.º 2 No sostenibles). El 3,66% de sus activos se han asignado a objetivos medioambientales y el 93,38% a objetivos sociales.

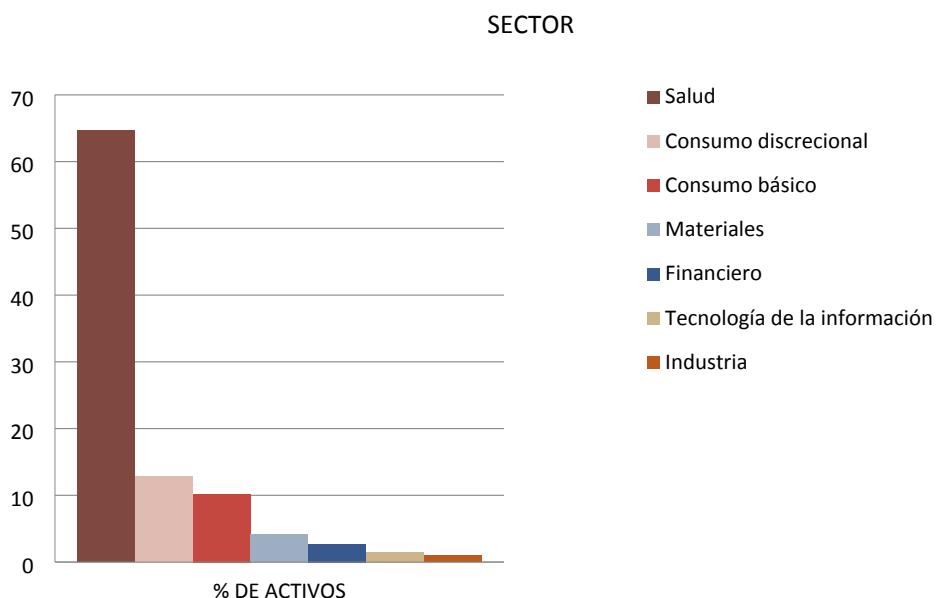

Notas:

- Las inversiones «n.º 1A Sostenibles», «Otras medioambientales» y «Sociales» se calcularon sobre una base de aprobado/suspenso. Incluyen bonos certificados (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.
- A falta de una taxonomía social de la UE, Pictet ha desarrollado un marco de taxonomía social propio, basado en el Informe sobre taxonomía social publicado por la Plataforma de Finanzas Sostenibles de la UE en 2022. Las actividades admisibles se definen como bienes y servicios que contribuyen sustancialmente a uno de los tres objetivos siguientes: (1) comunidades inclusivas y sostenibles, (2) nivel de vida adecuado y bienestar para los usuarios finales y (3) trabajo digno.

Fuente: Pictet Asset Management, FTSE Green revenues, Factset RBICS.

● ¿En qué sectores económicos se han realizado las inversiones?

Fuente: Pictet Asset Management, GICS/MSCI.

Estamos evaluando la disponibilidad y la calidad de los datos que nos permitirían divulgar información más granular en futuros informes sobre los sectores y subsectores de la economía que obtienen ingresos a partir de la exploración, la minería, la extracción, la producción, el procesamiento, el almacenamiento, el refinado o la distribución, incluidos el transporte, el almacenamiento y el comercio, de combustibles fósiles, según se definen en el artículo 2, punto (62), del Reglamento (UE) 2018/1999 del Parlamento Europeo y del Consejo.

¿En qué medida se ajustaban las inversiones sostenibles con un objetivo medioambiental a la taxonomía de la UE?

No aplicable.

Para ajustarse a la taxonomía de la UE, los criterios correspondientes al **gas fósil** incluyen limitaciones de emisiones y el paso a la energía renovable o combustibles bajos en carbono de aquí al fin de 2035. Por lo que respecta a la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las actividades que se ajustan a la taxonomía se expresan como un porcentaje de:

- **El volumen de negocios**, que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas en las que se invierte.
- **La inversión en activo fijo**, que muestra las inversiones ecológicas realizadas por las empresas en las que se invierte, por ejemplo, para la transición a una economía verde.
- **Los gastos de explotación**, que reflejan las actividades operativas ecológicas de las empresas en las que se invierte.

● ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil o la energía nuclear que cumplían con la taxonomía de la UE¹?

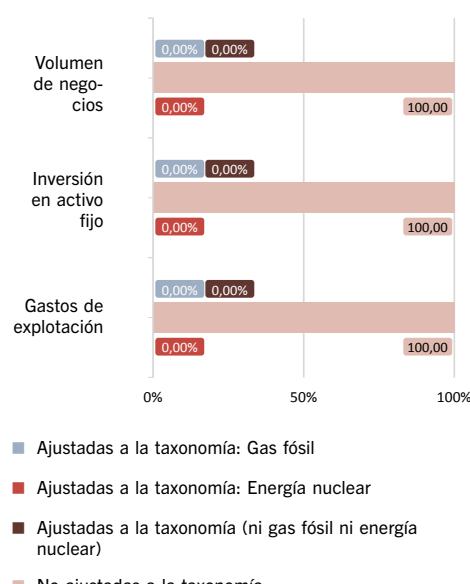

Sí:

En gas fósil En energía nuclear

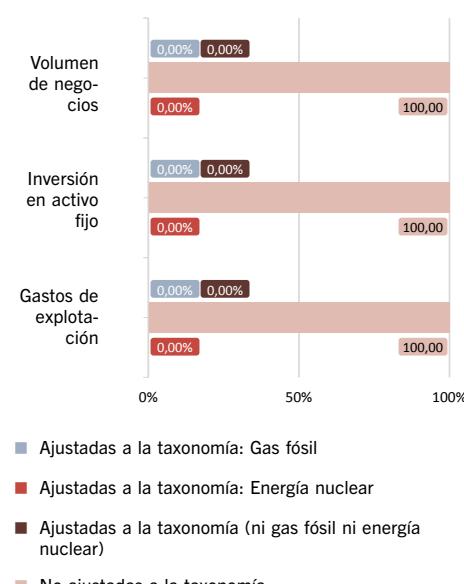

No

Los gráficos que figuran a continuación muestran en verde el porcentaje de inversiones que se ajustaban a la taxonomía de la UE. Dado que no existe una metodología adecuada para determinar la adaptación a la taxonomía de los bonos soberanos*, el primer gráfico muestra la adaptación a la taxonomía correspondiente para todas las inversiones del producto financiero, incluidos los bonos soberanos, mientras que el segundo gráfico muestra la adaptación a la taxonomía solo en relación con las inversiones del producto financiero distintas de los bonos soberanos.

1. Ajuste a la taxonomía de las inversiones incluidos los bonos soberanos*

2. Ajuste a la taxonomía de las inversiones excluidos los bonos soberanos*

Este gráfico representa el 97,04% de las inversiones totales.

* A efectos de estos gráficos, los «bonos soberanos» incluyen todas las exposiciones soberanas

● ¿Cuál ha sido la proporción de las inversiones realizadas en actividades de transición y facilitadoras?

No aplicable.

¹ Las actividades relacionadas con el gas fósil o la energía nuclear solo cumplirán la taxonomía de la UE cuando contribuyan a limitar el cambio climático («mitigación del cambio climático») y no perjudiquen significativamente ningún objetivo de la taxonomía de la UE (véase la nota explicativa en el margen izquierdo). Los criterios completos correspondientes a las actividades económicas del gas fósil y la energía nuclear que se ajustan a la taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

- **¿Qué porcentaje de inversiones se han ajustado a la taxonomía de la UE en comparación con los períodos de referencia anteriores?**

No aplicable.

¿Cuál ha sido la proporción de inversiones sostenibles con un objetivo medioambiental no ajustadas a la taxonomía de la UE?

3,66%

Estas inversiones sostenibles no se ajustan a la Taxonomía de la UE porque sus actividades económicas o bien (i) no están cubiertas por la Taxonomía de la UE, o bien (ii) no cumplen los criterios técnicos de selección para lograr una contribución sustancial en el sentido de la Taxonomía de la UE.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta los criterios para las actividades económicas medioambientalmente sostenibles con arreglo a la taxonomía de la UE.

¿Cuál ha sido la proporción de inversiones socialmente sostenibles?

93,38%

¿Qué inversiones se han incluido en «No sostenibles» y cuál ha sido su propósito? ¿Ha habido garantías medioambientales o sociales mínimas?

Las «otras» inversiones del fondo incluían posiciones de tesorería mantenidas principalmente para satisfacer los objetivos diarios de liquidez y gestión de riesgos permitidos y previstos por la política de inversión del fondo. Cuando sea preciso, se aplicarán salvaguardias medioambientales o sociales mínimas a los valores subyacentes.

¿Qué medidas se han adoptado para lograr el objetivo de inversión sostenible durante el período de referencia?

Durante el periodo de referencia, se alcanzó el objetivo de inversión sostenible siguiendo la estrategia de inversión y respetando los elementos vinculantes.

Los elementos vinculantes del fondo son:

- al menos el 80% de las inversiones sostenibles, es decir, inversiones en empresas que tienen una exposición importante a actividades como el aumento del ciclo sano de las personas (el tiempo que una persona disfruta de buena salud en general), la preservación de la salud de las personas mediante la promoción de una vida activa y entornos saludables, la recuperación de la salud o la mejora de la calidad de vida, la financiación de la salud y las ayudas para mejorar la eficiencia del sistema sanitario, y otras actividades económicas relevantes (según los ingresos, el valor de empresa, los beneficios antes de intereses e impuestos o similares)
- Exclusión de emisores que:
 - participan en la producción de armas controvertidas, incluidas minas antipersona, municiones de racimo, armas biológicas y químicas, armas nucleares y uranio empobrecido
 - obtienen una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, como la extracción de carbón térmico y la generación de electricidad, la exploración y producción no convencional de petróleo y gas, la producción de petróleo y gas convencional, la generación de energía nuclear, las armas convencionales y armas pequeñas, la contratación militar de armas y productos y servicios relacionados con las armas, la producción de tabaco, la producción de entretenimiento para adultos, las actividades del juego, el desarrollo y crecimiento de organismos modificados genéticamente, la producción y comercialización de pesticidas. Para más detalles sobre los umbrales de exclusión aplicables a las actividades anteriores, consulte la Política de Inversión responsable de Pictet Asset Management.

- incumplen gravemente normas internacionales, incluidos los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción
- un perfil ASG mejor que el del índice de referencia
- análisis de criterios ASG de los valores admisibles que abarca al menos el 90% del patrimonio neto o el número de emisores incluidos en la cartera

Además, el fondo se implicó con 19 empresas a 30.09.2023.

¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No se ha designado ningún índice de referencia con el fin de lograr el objetivo de inversión sostenible.

Los índices de referencia de sostenibilidad son índices que miden si el producto financiero logra el objetivo de sostenibilidad.

● ¿Cómo difería el índice de referencia de un índice general de mercado?

No aplicable.

● ¿Cómo se ha comportado este producto financiero con respecto a los indicadores de sostenibilidad para determinar la conformidad del índice de referencia con las características medioambientales o sociales que promueve?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice general de mercado?

No aplicable.

CARACTERÍSTICAS MEDIOAMBIENTALES O SOCIALES

Inversión sostenible
significa una inversión en una actividad económica que contribuye a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo a ningún objetivo medioambiental o social y que las empresas en las que se invierte sigan prácticas de buena gobernanza.

La **taxonomía de la UE** es un sistema de clasificación previsto en el Reglamento (UE) 2020/852 por el que se establece una lista de **actividades económicas medioambientalmente sostenibles**. Dicho Reglamento no prevé una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental pueden ajustarse, o no, a la taxonomía.

| ¿ESTE PRODUCTO FINANCIERO TENÍA UN OBJETIVO DE INVERSIÓN SOSTENIBLE? | | | |
|---|-------------------------------------|---|---|
| <input checked="" type="radio"/> Si | <input type="radio"/> No | <input checked="" type="radio"/> Promovió características medioambientales o sociales y, aunque no tenía como objetivo una inversión sostenible, tuvo un porcentaje del 93,88% de inversiones sostenibles | <input checked="" type="radio"/> con un objetivo medioambiental en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> Realizó inversiones sostenibles con un objetivo medioambiental: ____% | <input checked="" type="checkbox"/> | <input checked="" type="checkbox"/> con un objetivo medioambiental en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> con un objetivo social |
| <input type="checkbox"/> en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | | | |
| <input type="checkbox"/> en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | | | |
| <input type="checkbox"/> Realizó inversiones sostenibles con un objetivo social: ____% | <input type="checkbox"/> | <input type="checkbox"/> Ha promovido características medioambientales o sociales, pero no ha realizado ninguna inversión sostenible | |
| | | | |

Nota: Las inversiones sostenibles se calcularon sobre una base de aprobado/suspenso, incluyendo bonos con etiqueta (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% (medida por ingresos, EBIT, valor de empresa o indicadores similares) a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.

¿En qué grado se han cumplido las características medioambientales o sociales que promueve este producto financiero?

Las características medioambientales y sociales de este producto financiero se promovieron utilizando:

- Inclinación positiva:

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos y, como resultado, tuvo un perfil medioambiental, social y de gobernanza (ASG) mejor que el del índice de referencia. El índice MSCI AC World se utilizó para medir la inclinación positiva; sin embargo, no se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

- Exclusiones basadas en normas y valores:

El fondo excluyó los emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente o que incumplen de forma grave las normas internacionales, según se detalla a continuación:

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

Actividad

Umbrales de ingresos

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

| | |
|---|------------------------|
| Combustibles fósiles y energía nuclear | |
| Extracción de carbón térmico | > 25% |
| Generación de energía térmica de carbón | > 25% |

| Países (i) incluidos en la lista de Estados patrocinadores del terrorismo, según la definición de la Oficina de Control de Activos Extranjeros de EE. UU.[2] o (ii) sujetos a sanciones financieras de la UE contra bancos centrales y/o empresas de propiedad estatal. | Sí |
| Países (i) clasificados como de muy alto o alto riesgo en el Índice de Estados Frágiles o (ii) afectados por conflictos violentos según la definición del Banco Mundial. | Sí |
| Países (i) incluidos en la lista de «alerta» del Índice de Estados Frágiles o (ii) sujetos a sanciones relacionadas con la exportación por parte de la UE. | Lista de vigilancia[3] |

[1] Entre las armas controvertidas se encuentran las minas antipersona, las municiones de racimo, las armas biológicas y químicas (incluido el fósforo blanco) y las armas nucleares procedentes de países no firmantes del Tratado de No Proliferación de Armas Nucleares (TNP).

[2] «Estado patrocinador del terrorismo» es una designación aplicada por el Departamento de Estado de Estados Unidos a países que repetidamente han prestado apoyo a actos de terrorismo internacional.

[3] Además de las exclusiones estrictas, Pictet Asset Management mantiene una lista de vigilancia que incluye países que requieren una diligencia debida adicional por parte de los equipos de inversión antes de invertir.

Para más detalles, consulte la Política de Inversión responsable de Pictet Asset Management (Anexo B).

Además de las exclusiones mencionadas, basadas en la Política de Inversión responsable de Pictet Asset Management, la estrategia aplicó límites de exclusión más estrictos basados en directrices internas.

- Titularidad activa:

El fondo ejerció de forma metódica sus derechos de voto y se implicó con la dirección de las empresas sobre cuestiones ASG importantes.

Los indicadores de sostenibilidad miden cómo se alcanzan las características medioambientales o sociales que promueve el producto financiero.

- ¿Cómo se han comportado los indicadores de sostenibilidad?

Durante el periodo de información, los indicadores de sostenibilidad se comportaron según se indica a continuación:

- Perfil ASG global

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos.

Como resultado, el fondo ha conseguido un perfil ambiental, social y de gobernanza (ASG) mejor que el del índice de referencia.

- Principal incidencia adversa (PIA)

El fondo utiliza una combinación de enfoques para considerar y, en la medida de lo posible, mitigar las incidencias adversas materiales de nuestras inversiones en la sociedad y el medioambiente, como emisiones de GEI, contaminación atmosférica, pérdida de biodiversidad, emisiones al agua, residuos peligrosos/radioactivos, derechos humanos, normas laborales, corrupción y soborno, y salud pública.

El grado y la forma en que estas incidencias se tuvieron en cuenta dependieron de factores como el contexto específico de la inversión que provoca la incidencia adversa o la disponibilidad de datos fiables.

De conformidad con la política de exclusión de Pictet Asset Management descrita en la Política de Inversión responsable de la empresa (véase el cuadro anterior para consultar las actividades excluidas y los umbrales de exclusión aplicados), el fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente:

Actividades controvertidas (media ponderada de ingresos de la empresa, en %)*:

| | Fondo (%) | Índice de referencia (%) |
|--|-----------|--------------------------|
| Combustibles fósiles y energía nuclear | 0,00 | 4,15 |
| Armas | 0,03 | 0,99 |
| Otras actividades controvertidas | 0,07 | 1,02 |
| No aplicable: | 0,43 | 0,00 |
| No cubierto: | 0,05 | 0,02 |

* Los combustibles fósiles y la energía nuclear incluyen la extracción de carbón térmico y la generación de electricidad, la producción y extracción de petróleo y gas, la extracción de energía de esquisto, la exploración de petróleo y gas en los mares del Ártico y la generación de energía nuclear. Las armas incluyen la contratación militar (servicios de armas y relacionadas con estas), clientes civiles de armas pequeñas (armas de asalto/no asalto), clientes militares/de las fuerzas y cuerpos de seguridad de armas pequeñas y componentes clave de pequeñas armas. Otras actividades controvertidas incluyen la producción de tabaco, la producción de entretenimiento para adultos, la explotación de juegos de azar, el desarrollo o crecimiento de organismos modificados genéticamente, la producción o venta al por menor de pesticidas. La exposición se basa en datos de terceros y puede no reflejar nuestro punto de vista interno. Pictet Asset Management tiene plena discreción sobre la aplicación de los criterios de exclusión y se reserva el derecho de apartarse de la información de terceros, según el caso, cuando se considere incorrecta o incompleta.

Fuente: Pictet Asset Management, Sustainalytics.

Además, el fondo excluyó a los emisores que tenían exposición a:

(i) PIA 10: Incumplimientos de los principios del Pacto Mundial de las Naciones Unidas y las Directrices para Empresas Multinacionales de la Organización para la Cooperación y el Desarrollo Económicos (OCDE).

(ii) PIA 14: Exposición a armas controvertidas (minas antipersonas, municiones en racimo, armas químicas y armas biológicas)

- **Derechos de voto**

Durante el periodo de referencia, el fondo votó en 52 juntas generales de 52 juntas en las que se podía votar (100,00%). Votamos «en contra» (incluidas «abstenciones» o «retenciones») en al menos una resolución en el 21,15% de las juntas.

De las 676 resoluciones de la dirección, votamos en contra de la dirección en 6 puntos (0,89%) y nos abstuvimos en 10 puntos (1,48%).

Apoyamos 10 (66,67%) resoluciones de accionistas de un total de 15 propuestas.

Por lo que respecta a las cuestiones medioambientales y/o sociales, votamos a favor de 2 de las 2 resoluciones de la dirección y a favor de 6 de las 8 resoluciones de accionistas.

Fuente: *Pictet Asset Management, ISS ESG*.

- **Interacción**

El fondo se implicó con 14 empresas sobre cuestiones ASG (datos a 30.09.2023). Esto incluye diálogos internos, iniciativas de colaboración entre inversores y servicios de implicación de terceros. Para que se considere implicación, el diálogo con una empresa objetivo debe tener un objetivo claro y mensurable en un horizonte temporal predefinido. Es importante señalar que no todas las interacciones rutinarias o de supervisión, aunque impliquen a la alta dirección o al Consejo de administración, se consideran implicaciones en nuestra evaluación.

Fuente: *Pictet Asset Management, Sustainalytics*.

- **¿... y en comparación con períodos anteriores?**

Esta cuestión se abordará en futuros informes anuales debido a la falta de historial.

- **¿Cuáles han sido los objetivos de las inversiones sostenibles que ha realizado en parte el producto financiero y de qué forma ha contribuido la inversión sostenible a dichos objetivos?**

El fondo no se comprometió a un porcentaje mínimo de inversiones sostenibles.

Sin embargo, *a posteriori*, el fondo invirtió en valores que financian actividades económicas que contribuyeron sustancialmente a objetivos medioambientales y/o sociales como:

Medioambientales

- mitigación del cambio climático o adaptación al mismo
- uso sostenible y protección de los recursos hídricos y marinos
- transición hacia una economía circular
- prevención y control de la contaminación o
- protección y recuperación de la biodiversidad y los ecosistemas

Sociales

- comunidades inclusivas y sostenibles
- nivel de vida adecuado y bienestar para los usuarios finales o
- trabajo digno

Pictet Asset Management utilizó un marco de referencia propio, así como los objetivos de la Taxonomía de la UE, para definir las inversiones sostenibles.

- **¿De qué manera las inversiones sostenibles que el producto financiero ha realizado en parte, no han causado un perjuicio significativo a ningún objetivo de inversión sostenible medioambiental o social?**

Para evitar que las inversiones sostenibles causen un perjuicio significativo a cualquier otro objetivo medioambiental o social, el fondo aplicó los siguientes criterios de selección sobre la base del mejor esfuerzo:

(i) Exclusiones de emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente (véase la descripción del marco de exclusión de IR).

(ii) Los emisores asociados a controversias elevadas y graves no se contabilizaron como inversiones sostenibles.

La información se obtuvo de proveedores tercero y/o de análisis interno. La información ASG de terceros proveedores de datos puede haber sido incompleta, inexacta o no estar disponible. Como consecuencia de ello, existía el riesgo de que el Gestor de inversiones evaluará incorrectamente un valor o emisor, dando lugar a la inclusión o exclusión incorrecta de un valor en el fondo. Los datos ASG incompletos, inexactos o no disponibles también pueden actuar como una limitación

metodológica a una estrategia de inversión no financiera (como la aplicación de criterios ASG o similares). En los casos identificados, el Gestor de inversiones trató de mitigar este riesgo mediante su propia evaluación. En caso de que las características ASG de un valor mantenido por el fondo cambiaran, dando lugar a la venta del valor, el Gestor de inversiones no acepta responsabilidad alguna en relación con dicho cambio.

● *¿Cómo se han tenido en cuenta los indicadores adversas sobre los factores de sostenibilidad?*

Pictet Asset Management realiza un seguimiento de todos los indicadores obligatorios de principales incidencias adversas (incluidos en el Anexo 1 del Reglamento Delegado (UE) 22 / 1288 de la Comisión) cuando disponemos de datos sólidos. Se espera que la calidad de los datos disponibles mejore con el tiempo.

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas de sus inversiones en la sociedad y el medioambiente que se consideran importantes para la estrategia de inversión, mediante un conjunto de decisiones de gestión de cartera, actividades de propiedad activa y exclusión de emisores asociados a conductas o actividades controvertidas. Más información en el informe de PIA de la entidad, disponible en:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=es&bl=PAM>

● *¿Se han ajustado las inversiones sostenibles a las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios rectores de las Naciones Unidas sobre las empresas y los derechos humanos?*

Para garantizar que la inversión sostenible no causara un perjuicio significativo a ningún objetivo de inversión sostenible, el fondo excluyó a las empresas con infracciones elevadas y graves de (i) los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción o (ii) las Líneas Directrices de la OCDE para Empresas Multinacionales, incluidos los asuntos sociales y laborales graves.

La taxonomía de la UE establece el principio de «no causar un perjuicio significativo», según el cual las inversiones que se ajusten a la taxonomía no deben perjudicar significativamente a los objetivos de la taxonomía de la UE, e incluye criterios específicos de la Unión.

El principio de «no perjudicar de forma significativa» se aplica únicamente a las inversiones subyacentes del producto financiero que contemplan los criterios de la UE relativos a actividades económicas sostenibles desde una perspectiva medioambiental. Las inversiones subyacentes al resto del producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas medioambientalmente sostenibles.

Cualquier otra inversión sostenible tampoco debe perjudicar significativamente a ningún objetivo medioambiental o social.

¿Cómo tiene en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas que se consideran importantes para la estrategia de inversión. Entre las incidencias adversas se incluyeron, entre otras, las emisiones de gases de efecto invernadero (GEI), la contaminación atmosférica, la pérdida de biodiversidad, las emisiones al agua, los residuos peligrosos/radioactivos, las cuestiones sociales y laborales, y la corrupción y el soborno, que se abordaron mediante una combinación de:

(i) decisiones de gestión de carteras

El equipo de inversión puntuó las posiciones según una evaluación de los riesgos y oportunidades medioambientales, sociales y de gobernanza como parte del marco de puntuación del fondo. Las puntuaciones se determinan de forma cualitativa por los gestores de inversión, basándose en estudios fundamentales y datos cuantitativos ASG, incluidos los datos sobre el Principio de Impacto Negativo, los datos ASG facilitados por las empresas y los datos proporcionados por terceros proveedores de datos ASG. El proceso de puntuación del equipo de inversión fue un componente clave del proceso de construcción de la cartera del compartimento, determinando las ponderaciones objetivo en la cartera.

(ii) voto por delegación

El fondo se atuvo a las directrices de voto de Pictet Asset Management, que están diseñadas para apoyar una cultura de gobierno corporativo sólida, una gestión eficaz de las cuestiones medioambientales y sociales, y la publicación de información exhaustiva de acuerdo con normas creíbles. Dichas directrices también pretenden apoyar a los órganos de gobierno mundiales reconocidos

que promueven prácticas empresariales sostenibles que abogan por la gestión del medio ambiente, las prácticas laborales justas, la no discriminación y la protección de los derechos humanos. Todas las actividades de voto del fondo se registraron y pueden compartirse previa solicitud.

(iii) implicación

La interacción con los emisores se realizó mediante conversaciones individuales, reuniones de accionistas/bonistas, giras de inversores y/o conferencias telefónicas. Los objetivos de estas interacciones fueron evaluar una organización, supervisar que su estrategia se estaba aplicando conforme a nuestras expectativas y garantizar que los emisores iban camino de cumplir sus metas y objetivos.

Cuando corresponde, nos implicamos con las empresas en relación con cuestiones ASG importantes, como los objetivos de reducción de los GEI, las mejoras en la gobernanza y diversas controversias medioambientales, sociales y de gobernanza, para asegurarnos de que las entendieran y las abordaran eficazmente a corto, medio y largo plazo. Nuestras actividades de implicación combinaron debates dirigidos a nivel interno, iniciativas de colaboración con inversores institucionales y servicios de implicación externos.

(iv) exclusión de emisores asociados a conductas o actividades controvertidas

El fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se definen en la Política de Inversión responsable de la Pictet Asset Management y/o (ii) empresas que infringieron gravemente los principios del Pacto Mundial de la ONU sobre derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción y las armas controvertidas.

¿Cuáles han sido las inversiones principales de este producto financiero?

La lista incluye las inversiones que constituyen la **mayor parte de las inversiones** del producto financiero durante el período de referencia, que es: 01.10.2022 - 30.09.2023

| INVERSIONES DE MAYOR VOLUMEN | SECTOR | % DE ACTIVOS | PAÍS |
|--------------------------------|------------------------------|--------------|----------------|
| THERMO FISHER SCIENTIFIC INC | Salud | 4,3 | Estados Unidos |
| EQUINIX INC | Bienes inmobiliarios | 4,2 | Estados Unidos |
| JOHNSON CONTROLS INTERNATIONAL | Industria | 4,1 | Estados Unidos |
| PALO ALTO NETWORKS INC | Tecnología de la información | 4,1 | Estados Unidos |
| KLA CORP | Tecnología de la información | 3,7 | Estados Unidos |
| CINTAS CORP | Industria | 3,2 | Estados Unidos |
| STERIS PLC | Salud | 3,2 | Estados Unidos |
| REVVITY INC | Salud | 3,2 | Estados Unidos |
| FISERV INC | Financiero | 3,2 | Estados Unidos |
| APTIV PLC | Consumo discrecional | 3,2 | Irlanda |
| SPLUNK INC | Tecnología de la información | 3,1 | Estados Unidos |
| FORTINET INC | Tecnología de la información | 2,9 | Estados Unidos |
| RENTOKIL INITIAL PLC | Industria | 2,8 | Reino Unido |
| ROPER TECHNOLOGIES INC | Tecnología de la información | 2,7 | Estados Unidos |
| NXP SEMICONDUCTORS NV | Tecnología de la información | 2,6 | Países Bajos |

Fuente: Pictet Asset Management, GICS/MSCI.

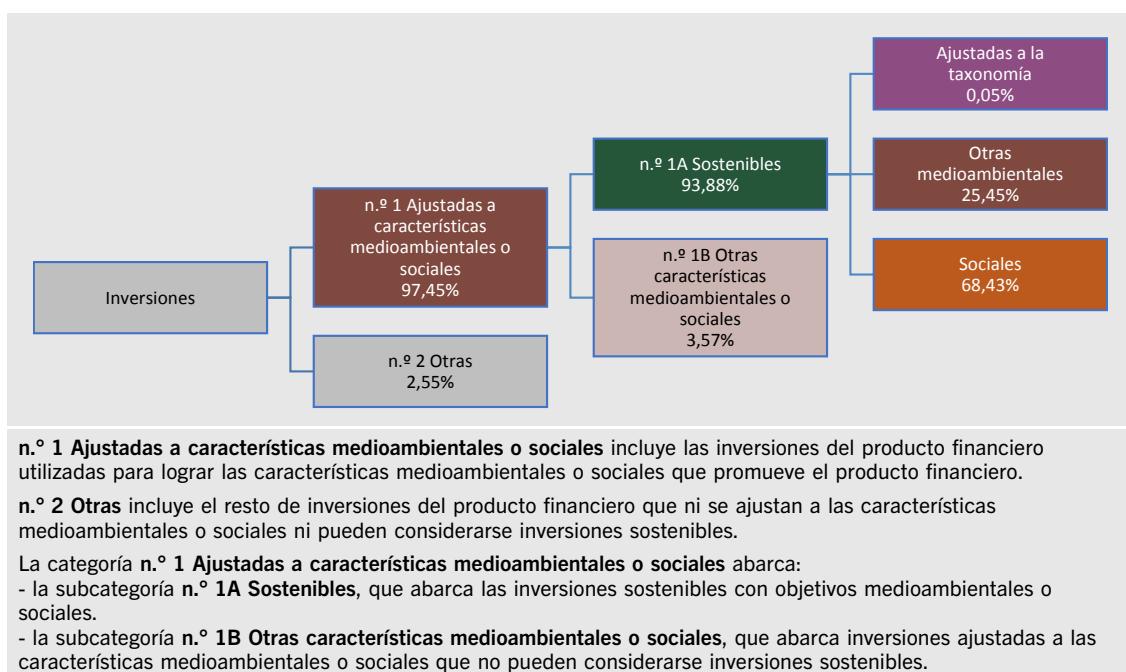

¿Cuál ha sido la proporción de inversiones relacionadas con la sostenibilidad?

93,88%

● ¿Cuál ha sido la asignación de activos?

El fondo se ajustó en un 97,45% con características medioambientales o sociales (n.º 1 Ajustadas a características medioambientales o sociales) y tuvo hasta un 2,55% invertido en la categoría Otras (n.º 2 Otras). El 93,88% se asignó a inversiones sostenibles (n.º 1A Sostenibles) y el resto se invirtió en inversiones ajustadas a otras características medioambientales o sociales (n.º 1B Otras características medioambientales o sociales).

La **asignación de activos** describe el porcentaje de inversiones en activos específicos.

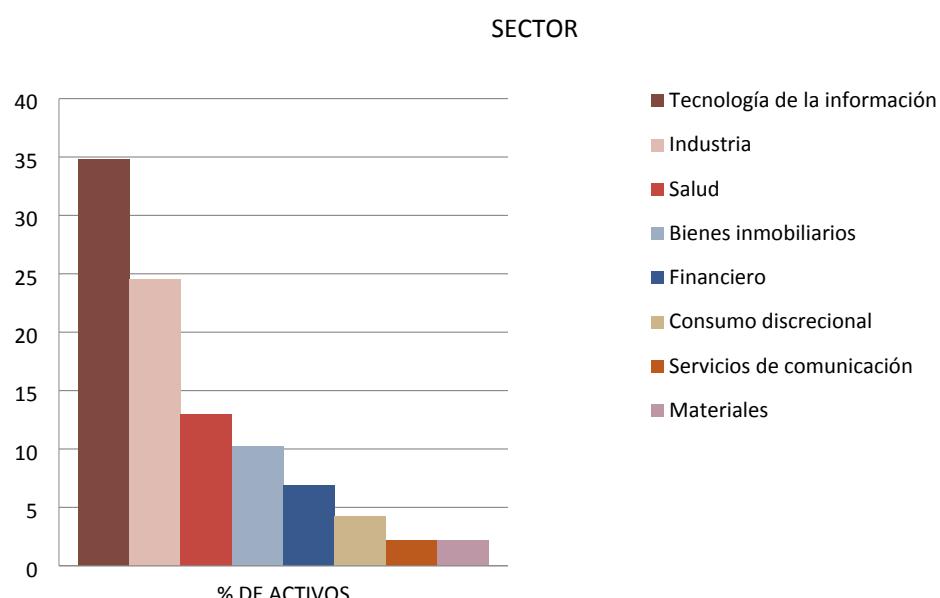

Notas:

- Las inversiones «n.º 1A Sostenibles», «Otras medioambientales» y «Sociales» se calcularon sobre una base de aprobado/suspensión. Incluyen bonos certificados (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.
- Las inversiones ajustadas a la taxonomía verde de la UE se calculan ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a la mitigación del cambio climático y la adaptación al mismo) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspensión.
- A falta de una taxonomía social de la UE, Pictet ha desarrollado un marco de taxonomía social propio. El marco se basa en el Informe sobre taxonomía social publicado por la Plataforma de Finanzas Sostenibles de la UE en 2022. Las actividades admisibles se definen como bienes y servicios beneficiosos desde el punto de vista social que contribuyen sustancialmente a uno de los tres objetivos sociales siguientes: (1) comunidades inclusivas y sostenibles, (2) nivel de vida adecuado y bienestar para los usuarios finales y (3) trabajo digno.

Fuente: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RB/CS.

● ¿En qué sectores económicos se han realizado las inversiones?

Fuente: Pictet Asset Management, GICS/MSCI.

Estamos evaluando la disponibilidad y la calidad de los datos que nos permitirían divulgar información más granular en futuros informes sobre los sectores y subsectores de la economía que obtienen ingresos a partir de la exploración, la minería, la extracción, la producción, el procesamiento, el almacenamiento, el refinado o la distribución, incluidos el transporte, el almacenamiento y el comercio, de combustibles fósiles, según se definen en el artículo 2, punto (62), del Reglamento (UE) 2018/1999 del Parlamento Europeo y del Consejo.

¿En qué medida se ajustaban las inversiones sostenibles con un objetivo medioambiental a la taxonomía de la UE?

El fondo realizó inversiones en actividades económicas que contribuyeron a los dos primeros objetivos medioambientales (mitigación del cambio climático y adaptación a este), según lo establecido en el artículo 9 del Reglamento (UE) 2020/852.

Las inversiones ajustadas a la taxonomía de la UE se calcularon ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a objetivos medioambientales relevantes) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.

Los datos de ajuste a la Taxonomía verde de la UE proceden de informes públicos. Los cálculos también pueden incluir estimaciones en un número limitado de casos en los que no se disponía de datos sobre la alineación con la Taxonomía verde de la UE. Las estimaciones se realizaron sobre la base del mejor esfuerzo y siguiendo un planteamiento conservador para obtener un resultado prudente.

Los procedimientos de control se han aplicado para verificar en todo momento el cumplimiento del artículo 3 del Reglamento sobre taxonomía de la UE.

Los datos facilitados no han sido verificados por un auditor externo ni revisados por un tercero independiente.

● ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil o la energía nuclear que cumplían con la taxonomía de la UE¹?

Sí:

En gas fósil En energía nuclear

No

La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permite ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

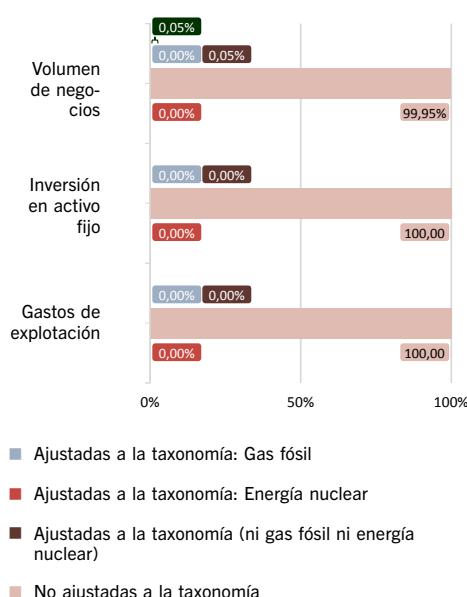

Para ajustarse a la taxonomía de la UE, los criterios correspondientes al **gas fósil** incluyen limitaciones de emisiones y el paso a la energía renovable o combustibles bajos en carbono de aquí al fin de 2035. Por lo que respecta a la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

¹ Las actividades relacionadas con el gas fósil o la energía nuclear solo cumplirán la taxonomía de la UE cuando contribuyan a limitar el cambio climático («mitigación del cambio climático») y no perjudiquen significativamente ningún objetivo de la taxonomía de la UE (véase la nota explicativa en el margen izquierdo). Los criterios completos correspondientes a las actividades económicas del gas fósil y la energía nuclear que se ajustan a la taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

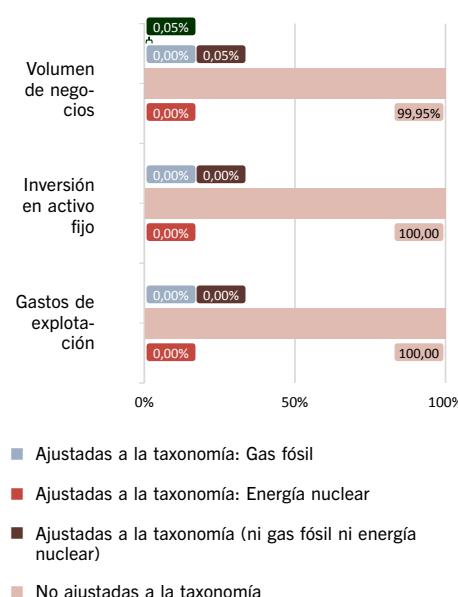

Las actividades que se ajustan a la taxonomía se expresan como un porcentaje de:
 - el **volumen de negocios**, que refleja el «carácter ecológico» de las empresas en las que se invierte en la actualidad;
 - la **inversión en activo fijo**, que muestra las inversiones ecológicas realizadas por las empresas en las que se invierte, pertinentes para la transición a una economía verde;
 - los **gastos de explotación**, que reflejan las actividades operativas ecológicas de las empresas en las que se invierte.

Los gráficos que figuran a continuación muestran en verde el porcentaje de inversiones que se ajustaban a la taxonomía de la UE. Dado que no existe una metodología adecuada para determinar la adaptación a la taxonomía de los bonos soberanos*, el primer gráfico muestra la adaptación a la taxonomía correspondiente para todas las inversiones del producto financiero, incluidos los bonos soberanos, mientras que el segundo gráfico muestra la adaptación a la taxonomía solo en relación con las inversiones del producto financiero distintas de los bonos soberanos.

1. Ajuste a la taxonomía de las inversiones incluidos los bonos soberanos*

2. Ajuste a la taxonomía de las inversiones excluidos los bonos soberanos*

Este gráfico representa el 97,45% de las inversiones totales.

* A efectos de estos gráficos, los «bonos soberanos» incluyen todas las exposiciones soberanas

Nota:

Utilizamos los ingresos como medida clave para establecer la asignación de objetivos y el ajuste real con la taxonomía de la UE debido a la disponibilidad limitada y a la falta de datos fiables para los gastos de explotación y la inversión en activo fijo.

Fuente: Pictet Asset Management.

● ¿Cuál ha sido la proporción de las inversiones realizadas en actividades de transición y facilitadoras?

La proporción de inversiones realizadas en:

- Actividades de transición: No aplicable*
- Actividades de facilitadoras: No aplicable*

* La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permiten ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

● ¿Qué porcentaje de inversiones se han ajustado a la taxonomía de la UE en comparación con los períodos de referencia anteriores?

No aplicable.

¿Cuál ha sido la proporción de inversiones sostenibles con un objetivo medioambiental no ajustadas a la taxonomía de la UE?

25,45%

Estas inversiones sostenibles no se ajustan a la Taxonomía de la UE porque sus actividades económicas o bien (i) no están cubiertas por la Taxonomía de la UE, o bien (ii) no cumplen los criterios técnicos de selección para lograr una contribución sustancial en el sentido de la Taxonomía de la UE.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta

¿Cuál ha sido la proporción de inversiones socialmente sostenibles?

68,43%

¿Qué inversiones se han incluido en «otras» y cuál ha sido su propósito? ¿ha habido garantías medioambientales o sociales mínimas?

Las «otras» inversiones del fondo incluían posiciones de tesorería mantenidas principalmente para satisfacer los objetivos diarios de liquidez y gestión de riesgos permitidos y previstos por la política de inversión del fondo. Cuando sea preciso, se aplicarán salvaguardias medioambientales o sociales mínimas a los valores subyacentes.

¿Qué medidas se han adoptado para cumplir las características medioambientales o sociales durante el período de referencia?

Durante el periodo de referencia, se alcanzó el objetivo de inversión sostenible siguiendo la estrategia de inversión y respetando los elementos vinculantes.

Los elementos vinculantes del fondo son:

- Exclusión de emisores que:
 - participan en la producción de armas controvertidas, incluidas minas antipersona, municiones de racimo, armas biológicas y químicas, armas nucleares y uranio empobrecido
 - obtienen una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, como la extracción de carbón térmico y la generación de electricidad, la exploración y producción no convencional de petróleo y gas, la producción de petróleo y gas convencional, la generación de energía nuclear, las armas convencionales y armas pequeñas, la contratación militar de armas y productos y servicios relacionados con las armas, la producción de tabaco, la producción de entretenimiento para adultos, las actividades del juego, el desarrollo y crecimiento de organismos modificados genéticamente, la producción y comercialización de pesticidas. Para más detalles sobre los umbrales de exclusión aplicables a las actividades anteriores, consulte la Política de Inversión responsable de Pictet Asset Management.
 - incumplen gravemente normas internacionales, incluidos los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción
- un perfil ASG mejor que el del índice de referencia
- análisis de criterios ASG de los valores admisibles que abarca al menos el 90% del patrimonio neto o el número de emisores incluidos en la cartera

Además, el fondo se implicó con 14 empresas a 30.09.2023.

¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

● ¿Cómo difería el índice de referencia de un índice general de mercado?

No aplicable.

- **¿Cómo se ha comportado este producto financiero con respecto a los indicadores de sostenibilidad para determinar la conformidad del índice de referencia con las características medioambientales o sociales que promueve?**
No aplicable.
- **¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?**
No aplicable.
- **¿Cómo se ha comportado este producto financiero en comparación con el índice general de mercado?**
No aplicable.

OBJETIVO DE INVERSIÓN SOSTENIBLE

Inversión sostenible significa una inversión en una actividad económica que contribuye a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo a ningún objetivo medioambiental o social y que las empresas en las que se invierte sigan prácticas de buena gobernanza.

La **taxonomía de la UE** es un sistema de clasificación previsto en el Reglamento (UE) 2020/852 por el que se establece una lista de **actividades económicas medioambientalmente sostenibles**. Dicho Reglamento no prevé una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental pueden ajustarse, o no, a la taxonomía.

| ¿ESTE PRODUCTO FINANCIERO TENÍA UN OBJETIVO DE INVERSIÓN SOSTENIBLE? | |
|--|--|
| <input checked="" type="radio"/> Si | <input type="radio"/> No |
| <input checked="" type="checkbox"/> Ha realizado inversiones sostenibles con un objetivo medioambiental: 88,08% | <input type="checkbox"/> Promovió características medioambientales o sociales y, aunque no tenía como objetivo una inversión sostenible, tuvo un porcentaje del ___% de inversiones sostenibles |
| <input checked="" type="checkbox"/> en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input type="checkbox"/> con un objetivo medioambiental en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input checked="" type="checkbox"/> en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input type="checkbox"/> con un objetivo medioambiental en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| | <input type="checkbox"/> con un objetivo social |
| <input checked="" type="checkbox"/> Ha realizado inversiones sostenibles con un objetivo social: 10,46% | <input type="checkbox"/> Ha promovido características medioambientales o sociales, pero no ha realizado ninguna inversión sostenible |

Nota: Las inversiones sostenibles se calcularon sobre una base de aprobado/suspenso, incluyendo bonos con etiqueta (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% (medida por ingresos, EBIT, valor de empresa o indicadores similares) a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.

¿En qué grado se ha cumplido el objetivo de inversión sostenible de este producto financiero?

Principales maneras por las que el fondo logró su objetivo de sostenibilidad:

- **Impacto positivo:**

El fondo logró un impacto medioambiental positivo, invirtiendo al menos dos terceras partes de sus activos totales/su patrimonio total en acciones emitidas por empresas que contribuyen al cambio estructural hacia una economía sostenible con bajas emisiones de carbono, ayudando a reducir las emisiones de gases de efecto invernadero y la contaminación del aire.

No se ha designado ningún índice de referencia con el fin de lograr el objetivo de inversión sostenible.

El fondo invirtió principalmente en empresas cuyas actividades están relacionadas en gran medida con, entre otras cosas, la energía renovable, las tecnologías que reducen las emisiones de CO₂ o el consumo de energía en ámbitos como la industria, los edificios o el transporte, y las tecnologías e infraestructuras instrumentales que son requisitos fundamentales para la transición hacia una economía con bajas emisiones de carbono, como el almacenamiento de la energía, los semiconductores de potencia, las inversiones en la red eléctrica y otras actividades económicas relevantes.

Los valores admisibles incluyeron acciones emitidas por empresas con una proporción significativa de actividades (medida por ingresos, EBIT, valor de empresa o parámetros similares) derivadas de dichas actividades económicas.

- Exclusiones basadas en normas y valores:

El fondo excluyó los emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente o que incumplen de forma grave las normas internacionales, según se detalla a continuación:

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

| Actividad | Umbrales de ingresos |
|---|----------------------|
| Combustibles fósiles y energía nuclear | |
| Extracción de carbón térmico | > 25% |
| Generación de energía térmica de carbón | > 25% |
| Producción de petróleo y gas | > 25% |
| Extracción de arenas bituminosas | > 10% |
| Extracción de energía de esquisto | > 10% |
| Exploración de petróleo y gas en el Ártico | > 10% |
| Generación de energía nuclear | > 50% |
| Armas | |
| Producción de armas controvertidas[1] | > 0% |
| Armas de contratación militar | > 10% |
| Productos y/o servicios relacionados con armas de contratación militar | > 50% |
| Clientes civiles de armas pequeñas (armas de asalto) | > 10% |
| Clientes civiles de armas pequeñas (armas de no asalto) | > 10% |
| Clientes militares/de fuerzas del orden de armas pequeñas | > 25% |

| Exclusiones de empresas por incumplimiento de normas internacionales | Excluidas |
| Empresas que incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción | Sí |
| Exclusiones de países | Excluidas |
| Países (i) incluidos en la lista de Estados patrocinadores del terrorismo, según la definición de la Oficina de Control de Activos Extranjeros de EE. UU.[2] o (ii) sujetos a sanciones financieras de la UE contra bancos centrales y/o empresas de propiedad estatal. | Sí |
| Países (i) clasificados como de muy alto o alto riesgo en el Índice de Estados Frágiles o (ii) afectados por conflictos violentos según la definición del Banco Mundial. | Sí |

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

Países (i) incluidos en la lista de «alerta» del Índice de Estados Frágiles o (ii) sujetos a sanciones relacionadas con la exportación por parte de la UE. Lista de vigilancia[3]

[1] Entre las armas controvertidas se encuentran las minas antipersona, las municiones de racimo, las armas biológicas y químicas (incluido el fósforo blanco) y las armas nucleares procedentes de países no firmantes del Tratado de No Proliferación de Armas Nucleares (TNP).

[2] «Estado patrocinador del terrorismo» es una designación aplicada por el Departamento de Estado de Estados Unidos a países que repetidamente han prestado apoyo a actos de terrorismo internacional.

[3] Además de las exclusiones estrictas, Pictet Asset Management mantiene una lista de vigilancia que incluye países que requieren una diligencia debida adicional por parte de los equipos de inversión antes de invertir.

Para más detalles, consulte la Política de Inversión responsable de Pictet Asset Management (Anexo B).

Además de las exclusiones mencionadas, basadas en la Política de Inversión responsable de Pictet Asset Management, la estrategia aplicó límites de exclusión más estrictos basados en directrices internas.

- Titularidad activa:

El fondo ejerció sus derechos de voto de forma metódica. El fondo también se implicó con la dirección de las empresas sobre cuestiones ASG importantes.

- Inversiones sostenibles:

Pictet Asset Management utilizó un marco propio, así como los objetivos de la Taxonomía de la UE, para definir las inversiones sostenibles.

El fondo invirtió en valores que financiaban actividades económicas que contribuyeron sustancialmente a objetivos medioambientales y/o sociales como:

Medioambientales

- mitigación del cambio climático o adaptación al mismo
- suso sostenible y protección de los recursos hídricos y marinos
- transición hacia una economía circular
- prevención y control de la contaminación o
- protección y recuperación de la biodiversidad y el ecosistema

Sociales

- comunidades inclusivas y sostenibles
- nivel de vida adecuado y bienestar para los usuarios finales o
- trabajo digno

● **¿Cómo se han comportado los indicadores de sostenibilidad?**

Durante el periodo de información, los indicadores de sostenibilidad se comportaron según se indica a continuación:

- **Exposición a empresas que obtienen una parte significativa de sus ingresos, EBIT, valor de empresa o parámetros similares de actividades económicas que contribuyen a los objetivos medioambientales o sociales, y bonos con etiqueta cuando sea relevante para la clase de activos (inversiones sostenibles):**

98,54%

- **Exposición a ingresos de actividades económicas que contribuyen a la mitigación del cambio climático y/o a la adaptación al mismo (inversiones ajustadas a la taxonomía de la UE):**

9,27%

En el informe del próximo año se ofrecerá información adicional sobre objetivos sociales específicos.

- **Perfil ASG global**

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos.

Como resultado, el fondo ha conseguido un perfil medioambiental, social y de gobernanza (ASG) mejor que el del índice de referencia, tras eliminar el 20% inferior de emisores con las características ASG más bajas.

- **Principal incidencia adversa (PIA)**

Los indicadores de sostenibilidad miden cómo se logran los objetivos sostenibles de este producto financiero.

El fondo utiliza una combinación de enfoques para considerar y, en la medida de lo posible, mitigar las incidencias adversas materiales de sus inversiones en la sociedad y el medioambiente, como emisiones de GEI, contaminación atmosférica, pérdida de biodiversidad, emisiones al agua, residuos peligrosos/radioactivos, derechos humanos, normas laborales, corrupción y soborno, y salud pública.

El grado y la forma en que estas incidencias se tuvieron en cuenta dependieron de factores como el contexto específico de la inversión que provoca la incidencia adversa o la disponibilidad de datos fiables.

De conformidad con la política de exclusión de Pictet Asset Management descrita en la Política de Inversión responsable de la empresa (véase el cuadro anterior para consultar las actividades excluidas y los umbrales de exclusión aplicados), el fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se detalla a continuación:

Actividades controvertidas (media ponderada de ingresos de la empresa, en %)*:

| | Fondo (%) | Índice de referencia (%) |
|--|-----------|--------------------------|
| Combustibles fósiles y energía nuclear | 1,99 | 4,15 |
| Armas | 0,45 | 0,99 |
| Otras actividades controvertidas | 0,01 | 1,02 |
| No aplicable: | 0,32 | 0,00 |
| No cubierto: | 0,03 | 0,02 |

* Los combustibles fósiles y la energía nuclear incluyen la extracción de carbón térmico y la generación de electricidad, la producción y extracción de petróleo y gas, la extracción de energía de esquisto, la exploración de petróleo y gas en los mares del Ártico y la generación de energía nuclear. Las armas incluyen la contratación militar (servicios de armas y relacionadas con estas), clientes civiles de armas pequeñas (armas de asalto/no asalto), clientes militares/de las fuerzas y cuerpos de seguridad de armas pequeñas y componentes clave de pequeñas armas. Otras actividades controvertidas incluyen la producción de tabaco, la producción de entretenimiento para adultos, la explotación de juegos de azar, el desarrollo o crecimiento de organismos modificados genéticamente, la producción o venta al por menor de pesticidas. La exposición se basa en datos de terceros y puede no reflejar nuestro punto de vista interno. Pictet Asset Management tiene plena discreción sobre la aplicación de los criterios de exclusión y se reserva el derecho de apartarse de la información de terceros, según el caso, cuando se considere incorrecta o incompleta.

Fuente: Pictet Asset Management, Sustainalytics.

Además, el fondo excluyó a los emisores que tenían exposición a:

(i) PIA 10: Incumplimientos de los principios del Pacto Mundial de las Naciones Unidas y las Directrices para Empresas Multinacionales de la Organización para la Cooperación y el Desarrollo Económicos (OCDE).

(ii) PIA 14: Exposición a armas controvertidas (minas antipersonas, municiones en racimo, armas químicas y armas biológicas)

● Derechos de voto

Durante el periodo de referencia, el fondo votó en 50 juntas generales de 50 juntas en las que se podía votar (100,00%). Votamos «en contra» (incluidas «abstenciones» o «retenciones») en al menos una resolución en el 30,00% de las juntas.

De las 688 resoluciones de la dirección, votamos en contra de la dirección en 26 puntos (3,78%) y nos abstuvimos en 20 puntos (2,91%).

Apoyamos 7 (46,67%) resoluciones de accionistas de un total de 15 propuestas.

Por lo que respecta a las cuestiones medioambientales y/o sociales, votamos a favor de 3 de las 3 resoluciones de la dirección y a favor de 0 de las 2 resoluciones de accionistas.

Fuente: Pictet Asset Management, ISS ESG.

● Interacción

El fondo se implicó con 17 empresas sobre cuestiones ASG (datos a 30.09.2023). Esto incluye diálogos internos, iniciativas de colaboración entre inversores y servicios de implicación de terceros. Para que se considere implicación, el diálogo con una empresa objetivo debe tener un

objetivo claro y mensurable en un horizonte temporal predefinido. Es importante señalar que no todas las interacciones rutinarias o de supervisión, aunque impliquen a la alta dirección o al Consejo de administración, se consideran implicaciones en nuestra evaluación.

Fuente: Pictet Asset Management, Sustainalytics.

● **¿... y en comparación con períodos anteriores?**

Esta cuestión se abordará en futuros informes anuales debido a la falta de historial.

● **¿De qué manera las inversiones sostenibles no han causado un perjuicio significativo a ningún objetivo medioambiental o social?**

Para evitar que las inversiones sostenibles causen un perjuicio significativo a cualquier otro objetivo medioambiental o social, el fondo aplicó los siguientes criterios de selección sobre la base del mejor esfuerzo:

(i) Exclusiones de emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente (véase la descripción del marco de exclusión de IR).

(ii) Los emisores asociados a controversias elevadas y graves se excluyeron.

La información se obtuvo de proveedores terceros y/o de análisis interno. La información ASG de terceros proveedores de datos puede haber sido incompleta, inexacta o no estar disponible. Como consecuencia de ello, existía el riesgo de que el Gestor de inversiones evaluara incorrectamente un valor o emisor, dando lugar a la inclusión o exclusión incorrecta de un valor en el fondo. Los datos ASG incompletos, inexactos o no disponibles también pueden actuar como una limitación metodológica a una estrategia de inversión no financiera (como la aplicación de criterios ASG o similares). En los casos identificados, el Gestor de inversiones trató de mitigar este riesgo mediante su propia evaluación. En caso de que las características ASG de un valor mantenido por el fondo cambiaran, dando lugar a la venta del valor, el Gestor de inversiones no acepta responsabilidad alguna en relación con dicho cambio.

● **¿Cómo se han tenido en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?**

Pictet Asset Management realiza un seguimiento de todos los indicadores obligatorios de principales incidencias adversas (incluidos en el Anexo 1 del Reglamento Delegado (UE) 22 / 1288 de la Comisión) cuando disponemos de datos sólidos. Se espera que la calidad y la disponibilidad de los datos mejoren con el tiempo.

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas de sus inversiones en la sociedad y el medioambiente que se consideran importantes para la estrategia de inversión, mediante un conjunto de decisiones de gestión de cartera, actividades de propiedad activa y exclusión de emisores asociados a conductas o actividades controvertidas.

Más información en el informe de PIA de la entidad, disponible en:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=es&bl=PAM>

● **¿Se han ajustado las inversiones sostenibles a las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios rectores de las Naciones Unidas sobre las empresas y los derechos humanos?**

Para garantizar que la inversión sostenible no causara un perjuicio significativo a ningún objetivo de inversión sostenible, el fondo excluyó a las empresas con infracciones elevadas y graves de (i) los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción o (ii) las Líneas Directrices de la OCDE para Empresas Multinacionales, incluidos los asuntos sociales y laborales graves.

¿Cómo tiene en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas que se consideran importantes para la estrategia de inversión. Entre las incidencias adversas se incluyeron, entre otras, las emisiones de gases de efecto invernadero (GEI), la contaminación atmosférica, la pérdida de biodiversidad, las emisiones al agua, los residuos peligrosos/radioactivos, las cuestiones sociales y laborales, y la corrupción y el soborno, que se abordaron mediante una combinación de:

(i) decisiones de gestión de carteras

El equipo de inversión puntuó las posiciones según una evaluación de los riesgos y oportunidades medioambientales, sociales y de gobernanza, así como la exposición a inversiones sostenibles, como parte del marco de puntuación del fondo. Las puntuaciones se determinan de forma cualitativa por los gestores de inversión, basándose en estudios fundamentales y datos cuantitativos ASG, incluidos los datos sobre el Principio de Impacto Negativo, los datos ASG facilitados por las empresas y los datos proporcionados por terceros proveedores de datos ASG. El proceso de puntuación del equipo de inversión fue un componente clave del proceso de construcción de la cartera del compartimento, determinando las ponderaciones objetivo en la cartera.

(ii) voto por delegación

El fondo se atuvo a las directrices de voto de Pictet Asset Management, que están diseñadas para apoyar una cultura de gobierno corporativo sólida, una gestión eficaz de las cuestiones medioambientales y sociales, y la publicación de información exhaustiva de acuerdo con normas creíbles. Dichas directrices también pretenden apoyar a los órganos de gobierno mundiales reconocidos que promueven prácticas empresariales sostenibles que abogan por la gestión del medio ambiente, las prácticas laborales justas, la no discriminación y la protección de los derechos humanos. Todas las actividades de voto del fondo se registraron y pueden compartirse previa solicitud.

(iii) implicación

La interacción con los emisores se realizó mediante conversaciones individuales, reuniones de accionistas/bonistas, giras de inversores y/o conferencias telefónicas. Los objetivos de estas interacciones fueron evaluar una organización, supervisar que su estrategia se estaba aplicando conforme a nuestras expectativas y garantizar que los emisores iban camino de cumplir sus metas y objetivos.

Cuando correspondió, nos implicamos con los emisores para abordar preocupaciones importantes en materia de ASG, mejorar las prácticas de sostenibilidad de las empresas o implicarnos en temas de impacto positivo para asegurarnos de que las entendían plenamente y las abordaban eficazmente a corto, medio y largo plazo. Nuestras actividades de implicación combinaron debates dirigidos a nivel interno, iniciativas de colaboración con inversores institucionales y servicios de implicación externos.

(iv) exclusión de emisores asociados a conductas o actividades controvertidas

El fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se definen en la Política de Inversión responsable de la Pictet Asset Management y/o (ii) empresas que infringieron gravemente los principios del Pacto Mundial de la ONU sobre derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción y las armas controvertidas.

¿Cuáles han sido las inversiones principales de este producto financiero?

La lista incluye las inversiones que constituyen la mayor parte de las inversiones del producto financiero durante el período de referencia, que es: 01.10.2022 - 30.09.2023

| INVERSIONES DE MAYOR VOLUMEN | SECTOR | % DE ACTIVOS | PAÍS |
|------------------------------|------------------------------|--------------|----------------|
| NEXTERA ENERGY INC | Suministros públicos | 5,0 | Estados Unidos |
| ON SEMICONDUCTOR | Tecnología de la información | 4,8 | Estados Unidos |
| APPLIED MATERIALS INC | Tecnología de la información | 4,5 | Estados Unidos |
| SYNOPSYS INC | Tecnología de la información | 4,4 | Estados Unidos |
| NXP SEMICONDUCTORS NV | Tecnología de la información | 4,1 | Países Bajos |
| ANALOG DEVICES INC | Tecnología de la información | 4,0 | Estados Unidos |
| ASML HOLDING NV | Tecnología de la información | 3,9 | Países Bajos |
| RWE AG | Suministros públicos | 3,8 | Alemania |
| MARVELL TECHNOLOGY INC | Tecnología de la información | 3,8 | Estados Unidos |
| TOPBUILD CORP | Consumo discrecional | 3,7 | Estados Unidos |
| LINDE PLC | Materiales | 3,5 | Reino Unido |
| IBERDROLA SA | Suministros públicos | 3,4 | España |
| ALBEMARLE CORP | Materiales | 3,1 | Estados Unidos |

¿Cuál ha sido la proporción de inversiones relacionadas con la sostenibilidad?

98,54%

La asignación de activos describe el porcentaje de inversiones en activos específicos.

● ¿Cuál ha sido la asignación de activos?

El fondo asignó el 98,54% de sus activos a inversiones sostenibles (n.º 1 Sostenibles) y el 1,46% a Inversiones no sostenibles (n.º 2 No sostenibles). El 88,08% de sus activos se han asignado a objetivos medioambientales y el 10,46% a objetivos sociales.

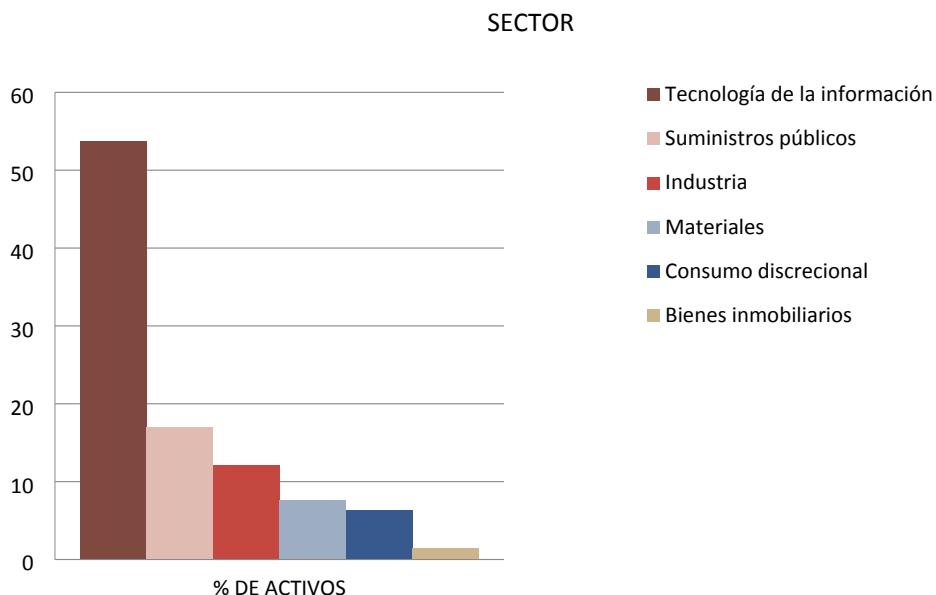

Notas:

- Las inversiones «n.º 1A Sostenibles», «Otras medioambientales» y «Sociales» se calcularon sobre una base de aprobado/suspenso. Incluyen bonos certificados (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.
- Las inversiones ajustadas a la taxonomía verde de la UE se calculan ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a la mitigación del cambio climático y la adaptación al mismo) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.
- A falta de una taxonomía social de la UE, Pictet ha desarrollado un marco de taxonomía social propio, basado en el Informe sobre taxonomía social publicado por la Plataforma de Finanzas Sostenibles de la UE en 2022. Las actividades admisibles se definen como bienes y servicios que contribuyen sustancialmente a uno de los tres objetivos siguientes: (1) comunidades inclusivas y sostenibles, (2) nivel de vida adecuado y bienestar para los usuarios finales y (3) trabajo digno.

Fuente: Pictet Asset Management, FTSE Green revenues, Factset RBICS.

● ¿En qué sectores económicos se han realizado las inversiones?

Fuente: Pictet Asset Management, GICS/MSCI.

Estamos evaluando la disponibilidad y la calidad de los datos que nos permitirían divulgar información más granular en futuros informes sobre los sectores y subsectores de la economía que obtienen ingresos a partir de la exploración, la minería, la extracción, la producción, el procesamiento, el almacenamiento, el refinado o la distribución, incluidos el transporte, el almacenamiento y el comercio, de combustibles fósiles, según se definen en el artículo 2, punto (62), del Reglamento (UE) 2018/1999 del Parlamento Europeo y del Consejo.

¿En qué medida se ajustaban las inversiones sostenibles con un objetivo medioambiental a la taxonomía de la UE?

El fondo realizó inversiones en actividades económicas que contribuyeron a los dos primeros objetivos medioambientales (mitigación del cambio climático y adaptación a este), según lo establecido en el artículo 9 del Reglamento (UE) 2020/852.

Las inversiones ajustadas a la taxonomía de la UE se calcularon ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a objetivos medioambientales relevantes) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.

Los datos de ajuste a la Taxonomía verde de la UE proceden de informes públicos. Los cálculos también pueden incluir estimaciones en un número limitado de casos en los que no se disponía de datos sobre la alineación con la Taxonomía verde de la UE. Las estimaciones se realizaron sobre la base del mejor esfuerzo y siguiendo un planteamiento conservador para obtener un resultado prudente.

Los procedimientos de control se han aplicado para verificar en todo momento el cumplimiento del artículo 3 del Reglamento sobre taxonomía de la UE.

Los datos facilitados no han sido verificados por un auditor externo ni revisados por un tercero independiente.

● ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil o la energía nuclear que cumplían con la taxonomía de la UE¹?

Sí:

En gas fósil En energía nuclear

No

La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permite ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

Para ajustarse a la taxonomía de la UE, los criterios correspondientes al **gas fósil** incluyen limitaciones de emisiones y el paso a la energía renovable o combustibles bajos en carbono de aquí al fin de 2035. Por lo que

¹ Las actividades relacionadas con el gas fósil o la energía nuclear solo cumplirán la taxonomía de la UE cuando contribuyan a limitar el cambio climático («mitigación del cambio climático») y no perjudiquen significativamente ningún objetivo de la taxonomía de la UE (véase la nota explicativa en el margen izquierdo). Los criterios completos correspondientes a las actividades económicas del gas fósil y la energía nuclear que se ajustan a la taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

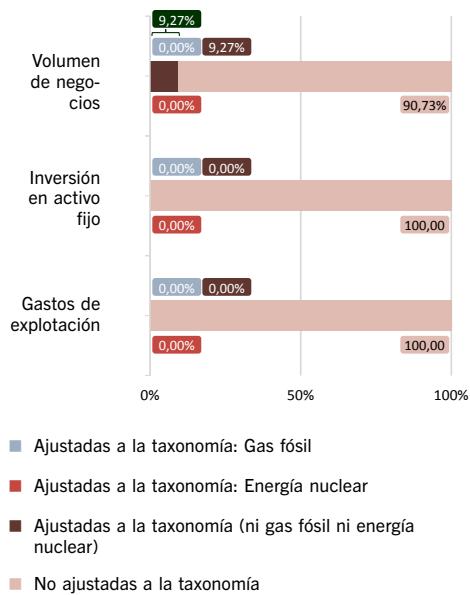

respecta a la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las actividades que se ajustan a la taxonomía se expresan como un porcentaje de:

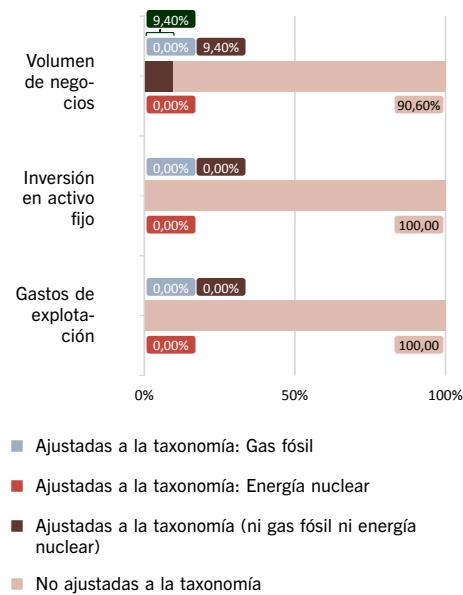

- **El volumen de negocios**, que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas en las que se invierte.
- **La inversión en activo fijo**, que muestra las inversiones ecológicas realizadas por las empresas en las que se invierte, por ejemplo, para la transición a una economía verde.
- **Los gastos de explotación**, que reflejan las actividades operativas ecológicas de las empresas en las que se invierte.

Los gráficos que figuran a continuación muestran en verde el porcentaje de inversiones que se ajustaban a la taxonomía de la UE. Dado que no existe una metodología adecuada para determinar la adaptación a la taxonomía de los bonos soberanos, el primer gráfico muestra la adaptación a la taxonomía correspondiente para todas las inversiones del producto financiero, incluidos los bonos soberanos, mientras que el segundo gráfico muestra la adaptación a la taxonomía solo en relación con las inversiones del producto financiero distintas de los bonos soberanos.*

1. Ajuste a la taxonomía de las inversiones incluidos los bonos soberanos*

2. Ajuste a la taxonomía de las inversiones excluidos los bonos soberanos*

Este gráfico representa el 98,54% de las inversiones totales.

* A efectos de estos gráficos, los «bonos soberanos» incluyen todas las exposiciones soberanas

Nota:

Utilizamos los ingresos como medida clave para establecer la asignación de objetivos y el ajuste real con la taxonomía de la UE debido a la disponibilidad limitada y a la falta de datos fiables para los gastos de explotación y la inversión en activo fijo.

Fuente: Pictet Asset Management.

● ¿Cuál ha sido la proporción de las inversiones realizadas en actividades de transición y facilitadoras?

La proporción de inversiones realizadas en:

- Actividades de transición: No aplicable*
- Actividades de facilitadoras: No aplicable*

* La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permiten ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

● ¿Qué porcentaje de inversiones se han ajustado a la taxonomía de la UE en comparación con los períodos de referencia anteriores?

No aplicable.

¿Cuál ha sido la proporción de inversiones sostenibles con un objetivo medioambiental no ajustadas a la taxonomía de la UE?

88,08%

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta los criterios para las actividades económicas medioambientalmente sostenibles con arreglo a la taxonomía de la UE.

Estas inversiones sostenibles no se ajustan a la Taxonomía de la UE porque sus actividades económicas o bien (i) no están cubiertas por la Taxonomía de la UE, o bien (ii) no cumplen los criterios técnicos de selección para lograr una contribución sustancial en el sentido de la Taxonomía de la UE.

¿Cuál ha sido la proporción de inversiones socialmente sostenibles?

10,46%

¿Qué inversiones se han incluido en «No sostenibles» y cuál ha sido su propósito? ¿Ha habido garantías medioambientales o sociales mínimas?

Las «otras» inversiones del fondo incluían posiciones de tesorería mantenidas principalmente para satisfacer los objetivos diarios de liquidez y gestión de riesgos permitidos y previstos por la política de inversión del fondo. Cuando sea preciso, se aplicarán salvaguardias medioambientales o sociales mínimas a los valores subyacentes.

¿Qué medidas se han adoptado para lograr el objetivo de inversión sostenible durante el período de referencia?

Durante el periodo de referencia, se alcanzó el objetivo de inversión sostenible siguiendo la estrategia de inversión y respetando los elementos vinculantes.

Los elementos vinculantes del fondo son:

- al menos el 80% de inversiones sostenibles, es decir, inversiones en empresas que tienen una exposición importante a actividades como la energía renovable, las tecnologías que reducen las emisiones de CO₂ o el consumo de energía en ámbitos como la industria, los edificios o el transporte, y las tecnologías e infraestructuras instrumentales que son prerequisitos fundamentales para la transición hacia una economía con bajas emisiones de carbono, como el almacenamiento de la energía, los semiconductores de potencia, las inversiones en la red eléctrica y otras actividades económicas relevantes (según los ingresos, el valor de empresa, los beneficios antes de intereses e impuestos o similares)
- Exclusión de emisores que:
 - participan en la producción de armas controvertidas, incluidas minas antipersona, municiones de racimo, armas biológicas y químicas, armas nucleares y uranio empobrecido
 - obtienen una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, como la extracción de carbón térmico y la generación de electricidad, la exploración y producción no convencional de petróleo y gas, la producción de petróleo y gas convencional, la generación de energía nuclear, las armas convencionales y armas pequeñas, la contratación militar de armas y productos y servicios relacionados con las armas, la producción de tabaco, la producción de entretenimiento para adultos, las actividades del juego, el desarrollo y crecimiento de organismos modificados genéticamente, la producción y comercialización de pesticidas. Para más detalles sobre los umbrales de exclusión aplicables a las actividades anteriores, consulte la Política de Inversión responsable de Pictet Asset Management.
 - incumplen gravemente normas internacionales, incluidos los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción
- un perfil ASG mejor que el del índice de referencia, tras eliminar el 20% inferior de emisores con las características ASG más bajas
- análisis de criterios ASG de los valores admisibles que abarca al menos el 90% del patrimonio neto o el número de emisores incluidos en la cartera

Además, el fondo se implicó con 17 empresas a 30.09.2023.

¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No se ha designado ningún índice de referencia con el fin de lograr el objetivo de inversión sostenible.

Los índices de referencia de sostenibilidad son índices que miden si el producto financiero logra el objetivo de sostenibilidad.

● ¿Cómo difería el índice de referencia de un índice general de mercado?

No aplicable.

● ¿Cómo se ha comportado este producto financiero con respecto a los indicadores de sostenibilidad para determinar la conformidad del índice de referencia con las características medioambientales o sociales que promueve?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice general de mercado?

No aplicable.

Plantilla de información periódica de los productos financieros a que se refiere el artículo 9, apartados 1 a 4 bis, del Reglamento (UE) 2019/2088 y el artículo 5, párrafo primero, del Reglamento (UE) 2020/852

Nombre del producto: **Pictet - Timber**

Identificador de entidad jurídica: **5493007Y7JCK1EBOLJ63**

OBJETIVO DE INVERSIÓN SOSTENIBLE

Inversión sostenible significa una inversión en una actividad económica que contribuye a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo a ningún objetivo medioambiental o social y que las empresas en las que se invierte sigan prácticas de buena gobernanza.

La **taxonomía de la UE** es un sistema de clasificación previsto en el Reglamento (UE) 2020/852 por el que se establece una lista de **actividades económicas medioambientalmente sostenibles**. Dicho Reglamento no prevé una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental pueden ajustarse, o no, a la taxonomía.

| ¿ESTE PRODUCTO FINANCIERO TENÍA UN OBJETIVO DE INVERSIÓN SOSTENIBLE? | | | |
|--|--|--|---|
| | <input checked="" type="checkbox"/> Si | <input checked="" type="checkbox"/> No | |
| <input checked="" type="checkbox"/> | Ha realizado inversiones sostenibles con un objetivo medioambiental: 69,36% | <input type="checkbox"/> | Promovió características medioambientales o sociales y, aunque no tenía como objetivo una inversión sostenible, tuvo un porcentaje del ___% de inversiones sostenibles |
| | <input checked="" type="checkbox"/> en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input type="checkbox"/> con un objetivo medioambiental en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | |
| | <input checked="" type="checkbox"/> en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input type="checkbox"/> con un objetivo medioambiental en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | |
| | | <input type="checkbox"/> con un objetivo social | |
| <input checked="" type="checkbox"/> | Ha realizado inversiones sostenibles con un objetivo social: 27,95% | <input type="checkbox"/> | Ha promovido características medioambientales o sociales, pero no ha realizado ninguna inversión sostenible |

Nota: Las inversiones sostenibles se calcularon sobre una base de aprobado/suspenso, incluyendo bonos con etiqueta (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% (medida por ingresos, EBIT, valor de empresa o indicadores similares) a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.

¿En qué grado se ha cumplido el objetivo de inversión sostenible de este producto financiero?

Principales maneras por las que el fondo logró su objetivo de sostenibilidad:

- **Impacto positivo:**

El fondo logró un impacto medioambiental y/o social positivo, invirtiendo al menos dos terceras partes de sus activos totales/su patrimonio total en empresas que contribuyen a solucionar los desafíos medioambientales mediante una gestión sostenible de los bosques y materiales de madera. La gestión sostenible de los bosques y la cadena de valor de la fibra de madera son fundamentales para la captación de carbono atmosférico (CO₂). Los bosques gestionados de manera sostenible son también reservas de biodiversidad y ayudan a salvaguardar el suelo y los recursos hídricos. La madera es una materia prima para una variedad cada vez mayor de materiales de base biológica que pueden sustituir a los plásticos y a otros materiales no biodegradables, y que son esenciales en un modelo de economía circular.

No se ha designado ningún índice de referencia con el fin de lograr el objetivo de inversión sostenible.

El fondo invirtió en empresas cuyas actividades están relacionadas en gran medida con, entre otras cosas, la financiación, la plantación y la gestión de bosques y zonas boscosas y/o el tratamiento, la producción y la distribución de materiales de base de madera y fibra de madera, productos y otros servicios relacionados de toda la cadena de valor forestal, y otras actividades económicas relevantes.

Los valores admisibles incluyeron acciones emitidas por empresas con una proporción significativa de actividades (medida por ingresos, EBIT, valor de empresa o parámetros similares) derivadas de dichas actividades económicas.

- Exclusiones basadas en normas y valores:

El fondo excluyó los emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente o que incumplen de forma grave las normas internacionales, según se detalla a continuación:

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

| Actividad | Umbrales de ingresos |
|---|----------------------|
| Combustibles fósiles y energía nuclear | |
| Extracción de carbón térmico | > 25% |
| Generación de energía térmica de carbón | > 25% |
| Producción de petróleo y gas | > 25% |
| Extracción de arenas bituminosas | > 10% |
| Extracción de energía de esquisto | > 10% |
| Exploración de petróleo y gas en el Ártico | > 10% |
| Generación de energía nuclear | > 50% |
| Armas | |
| Producción de armas controvertidas[1] | > 0% |
| Armas de contratación militar | > 10% |
| Productos y/o servicios relacionados con armas de contratación militar | > 50% |
| Clientes civiles de armas pequeñas (armas de asalto) | > 10% |
| Clientes civiles de armas pequeñas (armas de no asalto) | > 10% |
| Clientes militares/de fuerzas del orden de armas pequeñas | > 25% |
| Componentes clave de armas pequeñas | > 25% |
| Otras actividades controvertidas | |
| Producción de entretenimiento para adultos | > 10% |
| Operaciones de juego | > 10% |
| Desarrollo de plantas y semillas modificadas genéticamente | > 25% |
| Cultivo de plantas y semillas modificadas genéticamente | > 25% |
| Producción de plaguicidas | > 10% |
| Venta al por menor de plaguicidas | > 10% |
| Producción de productos de tabaco | > 10% |
| Exclusiones de empresas por incumplimiento de normas internacionales | Excluidas |
| Empresas que incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción | Sí |
| Exclusiones de países | Excluidas |
| Países (i) incluidos en la lista de Estados patrocinadores del terrorismo, según la definición de la Oficina de Control de Activos Extranjeros de EE. UU.[2] o (ii) sujetos a sanciones financieras de la UE contra bancos centrales y/o empresas de propiedad estatal. | Sí |
| Países (i) clasificados como de muy alto o alto riesgo en el Índice de Estados Frágiles o (ii) afectados por conflictos violentos según la definición del Banco Mundial. | Sí |

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

Países (i) incluidos en la lista de «alerta» del Índice de Estados Frágiles o (ii) sujetos a sanciones relacionadas con la exportación por parte de la UE. Lista de vigilancia[3]

[1] Entre las armas controvertidas se encuentran las minas antipersona, las municiones de racimo, las armas biológicas y químicas (incluido el fósforo blanco) y las armas nucleares procedentes de países no firmantes del Tratado de No Proliferación de Armas Nucleares (TNP).

[2] «Estado patrocinador del terrorismo» es una designación aplicada por el Departamento de Estado de Estados Unidos a países que repetidamente han prestado apoyo a actos de terrorismo internacional.

[3] Además de las exclusiones estrictas, Pictet Asset Management mantiene una lista de vigilancia que incluye países que requieren una diligencia debida adicional por parte de los equipos de inversión antes de invertir.

Para más detalles, consulte la Política de Inversión responsable de Pictet Asset Management (Anexo B).

Además de las exclusiones mencionadas, basadas en la Política de Inversión responsable de Pictet Asset Management, la estrategia aplicó límites de exclusión más estrictos basados en directrices internas.

- Titularidad activa:

El fondo ejerció sus derechos de voto de forma metódica. El fondo también se implicó con la dirección de las empresas sobre cuestiones ASG importantes.

- Inversiones sostenibles:

Pictet Asset Management utilizó un marco propio, así como los objetivos de la Taxonomía de la UE, para definir las inversiones sostenibles.

El fondo invirtió en valores que financiaban actividades económicas que contribuyeron sustancialmente a objetivos medioambientales y/o sociales como:

Medioambientales

- mitigación del cambio climático o adaptación al mismo
- suso sostenible y protección de los recursos hídricos y marinos
- transición hacia una economía circular
- prevención y control de la contaminación o
- protección y recuperación de la biodiversidad y el ecosistema

Sociales

- comunidades inclusivas y sostenibles
- nivel de vida adecuado y bienestar para los usuarios finales o
- trabajo digno

● **¿Cómo se han comportado los indicadores de sostenibilidad?**

Durante el periodo de información, los indicadores de sostenibilidad se comportaron según se indica a continuación:

- **Exposición a empresas que obtienen una parte significativa de sus ingresos, EBIT, valor de empresa o parámetros similares de actividades económicas que contribuyen a los objetivos medioambientales o sociales, y bonos con etiqueta cuando sea relevante para la clase de activos (inversiones sostenibles):**

97,30%

- **Exposición a ingresos de actividades económicas que contribuyen a la mitigación del cambio climático y/o a la adaptación al mismo (inversiones ajustadas a la taxonomía de la UE):**

1,11%

En el informe del próximo año se facilitará información adicional sobre objetivos medioambientales y/o sociales específicos.

- **Perfil ASG global**

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos.

Como resultado, el fondo ha conseguido un perfil medioambiental, social y de gobernanza (ASG) mejor que el del índice de referencia, tras eliminar el 20% inferior de emisores con las características ASG más bajas.

- **Principal incidencia adversa (PIA)**

Los indicadores de sostenibilidad miden cómo se logran los objetivos sostenibles de este producto financiero.

El fondo utiliza una combinación de enfoques para considerar y, en la medida de lo posible, mitigar las incidencias adversas materiales de sus inversiones en la sociedad y el medioambiente, como emisiones de GEI, contaminación atmosférica, pérdida de biodiversidad, emisiones al agua, residuos peligrosos/radioactivos, derechos humanos, normas laborales, corrupción y soborno, y salud pública.

El grado y la forma en que estas incidencias se tuvieron en cuenta dependieron de factores como el contexto específico de la inversión que provoca la incidencia adversa o la disponibilidad de datos fiables.

De conformidad con la política de exclusión de Pictet Asset Management descrita en la Política de Inversión responsable de la empresa (véase el cuadro anterior para consultar las actividades excluidas y los umbrales de exclusión aplicados), el fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se detalla a continuación:

Actividades controvertidas (media ponderada de ingresos de la empresa, en %)*:

| | Fondo (%) | Índice de referencia (%) |
|--|-----------|--------------------------|
| Combustibles fósiles y energía nuclear | 0,12 | 4,15 |
| Armas | 0,00 | 0,99 |
| Otras actividades controvertidas | 0,06 | 1,02 |
| No aplicable: | 0,86 | 0,00 |
| No cubierto: | 0,74 | 0,02 |

* Los combustibles fósiles y la energía nuclear incluyen la extracción de carbón térmico y la generación de electricidad, la producción y extracción de petróleo y gas, la extracción de energía de esquisto, la exploración de petróleo y gas en los mares del Ártico y la generación de energía nuclear. Las armas incluyen la contratación militar (servicios de armas y relacionadas con estas), clientes civiles de armas pequeñas (armas de asalto/no asalto), clientes militares/de las fuerzas y cuerpos de seguridad de armas pequeñas y componentes clave de pequeñas armas. Otras actividades controvertidas incluyen la producción de tabaco, la producción de entretenimiento para adultos, la explotación de juegos de azar, el desarrollo o crecimiento de organismos modificados genéticamente, la producción o venta al por menor de pesticidas. La exposición se basa en datos de terceros y puede no reflejar nuestro punto de vista interno. Pictet Asset Management tiene plena discreción sobre la aplicación de los criterios de exclusión y se reserva el derecho de apartarse de la información de terceros, según el caso, cuando se considere incorrecta o incompleta.

Fuente: Pictet Asset Management, Sustainalytics.

Además, el fondo excluyó a los emisores que tenían exposición a:

(i) PIA 10: Incumplimientos de los principios del Pacto Mundial de las Naciones Unidas y las Directrices para Empresas Multinacionales de la Organización para la Cooperación y el Desarrollo Económicos (OCDE).

(ii) PIA 14: Exposición a armas controvertidas (minas antipersonas, municiones en racimo, armas químicas y armas biológicas)

● Derechos de voto

Durante el periodo de referencia, el fondo votó en 61 juntas generales de 66 juntas en las que se podía votar (92,42%). Votamos «en contra» (incluidas «abstenciones» o «retenciones») en al menos una resolución en el 37,88% de las juntas.

De las 860 resoluciones de la dirección, votamos en contra de la dirección en 49 puntos (5,70%) y nos abstuvimos en 16 puntos (1,86%).

Apoyamos 11 (42,31%) resoluciones de accionistas de un total de 26 propuestas.

Por lo que respecta a las cuestiones medioambientales y/o sociales, votamos a favor de 1 de las 1 resoluciones de la dirección y a favor de 1 de las 4 resoluciones de accionistas.

Fuente: Pictet Asset Management, ISS ESG.

● Interacción

El fondo se implicó con 11 empresas sobre cuestiones ASG (datos a 30.09.2023). Esto incluye diálogos internos, iniciativas de colaboración entre inversores y servicios de implicación de terceros. Para que se considere implicación, el diálogo con una empresa objetivo debe tener un

objetivo claro y mensurable en un horizonte temporal predefinido. Es importante señalar que no todas las interacciones rutinarias o de supervisión, aunque impliquen a la alta dirección o al Consejo de administración, se consideran implicaciones en nuestra evaluación.

Fuente: Pictet Asset Management, Sustainalytics.

● **¿... y en comparación con períodos anteriores?**

Esta cuestión se abordará en futuros informes anuales debido a la falta de historial.

● **¿De qué manera las inversiones sostenibles no han causado un perjuicio significativo a ningún objetivo medioambiental o social?**

Para evitar que las inversiones sostenibles causen un perjuicio significativo a cualquier otro objetivo medioambiental o social, el fondo aplicó los siguientes criterios de selección sobre la base del mejor esfuerzo:

(i) Exclusiones de emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente (véase la descripción del marco de exclusión de IR).

(ii) Los emisores asociados a controversias elevadas y graves se excluyeron.

La información se obtuvo de proveedores terceros y/o de análisis interno. La información ASG de terceros proveedores de datos puede haber sido incompleta, inexacta o no estar disponible. Como consecuencia de ello, existía el riesgo de que el Gestor de inversiones evaluara incorrectamente un valor o emisor, dando lugar a la inclusión o exclusión incorrecta de un valor en el fondo. Los datos ASG incompletos, inexactos o no disponibles también pueden actuar como una limitación metodológica a una estrategia de inversión no financiera (como la aplicación de criterios ASG o similares). En los casos identificados, el Gestor de inversiones trató de mitigar este riesgo mediante su propia evaluación. En caso de que las características ASG de un valor mantenido por el fondo cambiaran, dando lugar a la venta del valor, el Gestor de inversiones no acepta responsabilidad alguna en relación con dicho cambio.

● **¿Cómo se han tenido en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?**

Pictet Asset Management realiza un seguimiento de todos los indicadores obligatorios de principales incidencias adversas (incluidos en el Anexo 1 del Reglamento Delegado (UE) 22 / 1288 de la Comisión) cuando disponemos de datos sólidos. Se espera que la calidad y la disponibilidad de los datos mejoren con el tiempo.

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas de sus inversiones en la sociedad y el medioambiente que se consideran importantes para la estrategia de inversión, mediante un conjunto de decisiones de gestión de cartera, actividades de propiedad activa y exclusión de emisores asociados a conductas o actividades controvertidas.

Más información en el informe de PIA de la entidad, disponible en:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=es&bl=PAM>

● **¿Se han ajustado las inversiones sostenibles a las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios rectores de las Naciones Unidas sobre las empresas y los derechos humanos?**

Para garantizar que la inversión sostenible no causara un perjuicio significativo a ningún objetivo de inversión sostenible, el fondo excluyó a las empresas con infracciones elevadas y graves de (i) los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción o (ii) las Líneas Directrices de la OCDE para Empresas Multinacionales, incluidos los asuntos sociales y laborales graves.

¿Cómo tiene en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas que se consideran importantes para la estrategia de inversión. Entre las incidencias adversas se incluyeron, entre otras, las emisiones de gases de efecto invernadero (GEI), la contaminación atmosférica, la pérdida de biodiversidad, las emisiones al agua, los residuos peligrosos/radioactivos, las cuestiones sociales y laborales, y la corrupción y el soborno, que se abordaron mediante una combinación de:

(i) decisiones de gestión de carteras

El equipo de inversión puntuó las posiciones según una evaluación de los riesgos y oportunidades medioambientales, sociales y de gobernanza, así como la exposición a inversiones sostenibles, como parte del marco de puntuación del fondo. Las puntuaciones se determinan de forma cualitativa por los gestores de inversión, basándose en estudios fundamentales y datos cuantitativos ASG, incluidos los datos sobre el Principio de Impacto Negativo, los datos ASG facilitados por las empresas y los datos proporcionados por terceros proveedores de datos ASG. El proceso de puntuación del equipo de inversión fue un componente clave del proceso de construcción de la cartera del compartimento, determinando las ponderaciones objetivo en la cartera.

(ii) voto por delegación

El fondo se atuvo a las directrices de voto de Pictet Asset Management, que están diseñadas para apoyar una cultura de gobierno corporativo sólida, una gestión eficaz de las cuestiones medioambientales y sociales, y la publicación de información exhaustiva de acuerdo con normas creíbles. Dichas directrices también pretenden apoyar a los órganos de gobierno mundiales reconocidos que promueven prácticas empresariales sostenibles que abogan por la gestión del medio ambiente, las prácticas laborales justas, la no discriminación y la protección de los derechos humanos. Todas las actividades de voto del fondo se registraron y pueden compartirse previa solicitud.

(iii) implicación

La interacción con los emisores se realizó mediante conversaciones individuales, reuniones de accionistas/bonistas, giras de inversores y/o conferencias telefónicas. Los objetivos de estas interacciones fueron evaluar una organización, supervisar que su estrategia se estaba aplicando conforme a nuestras expectativas y garantizar que los emisores iban camino de cumplir sus metas y objetivos.

Cuando correspondió, nos implicamos con los emisores para abordar preocupaciones importantes en materia de ASG, mejorar las prácticas de sostenibilidad de las empresas o implicarnos en temas de impacto positivo para asegurarnos de que las entendían plenamente y las abordaban eficazmente a corto, medio y largo plazo. Nuestras actividades de implicación combinaron debates dirigidos a nivel interno, iniciativas de colaboración con inversores institucionales y servicios de implicación externos.

(iv) exclusión de emisores asociados a conductas o actividades controvertidas

El fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se definen en la Política de Inversión responsable de la Pictet Asset Management y/o (ii) empresas que infringieron gravemente los principios del Pacto Mundial de la ONU sobre derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción y las armas controvertidas.

¿Cuáles han sido las inversiones principales de este producto financiero?

La lista incluye las inversiones que constituyen la mayor parte de las inversiones del producto financiero durante el período de referencia, que es: 01.10.2022 - 30.09.2023

| INVERSIONES DE MAYOR VOLUMEN | SECTOR | % DE ACTIVOS | PAÍS |
|------------------------------|----------------------|--------------|----------------|
| POTLATCHDELTIC CORP | Bienes inmobiliarios | 6,4 | Estados Unidos |
| WEYERHAEUSER CO | Bienes inmobiliarios | 6,0 | Estados Unidos |
| RAYONIER INC | Bienes inmobiliarios | 5,7 | Estados Unidos |
| WEST FRASER TIMBER CO LTD | Materiales | 4,0 | Canadá |
| SVENSKA CELLULOSA AB SCA-B | Materiales | 3,3 | Suecia |
| SUZANO PAPEL E CELULOSE SA | Materiales | 3,2 | Brasil |
| STORA ENSO OYJ-R SHS | Materiales | 2,7 | Finlandia |
| GRAPHIC PACKAGING HOLDING CO | Materiales | 2,6 | Estados Unidos |
| PACKAGING CORP OF AMERICA | Materiales | 2,4 | Estados Unidos |
| UFP INDUSTRIES INC | Industria | 2,4 | Estados Unidos |
| SONOCO PRODUCTS CO | Materiales | 2,4 | Estados Unidos |
| KIMBERLY-CLARK CORP | Consumo básico | 2,3 | Estados Unidos |
| UPM-KYMMENE OYJ | Materiales | 2,2 | Finlandia |
| ESSITY AKTIEBOLAG-B | Consumo básico | 2,1 | Suecia |
| UNICHARM CORP | Consumo básico | 2,1 | Japón |

¿Cuál ha sido la proporción de inversiones relacionadas con la sostenibilidad?

97,3%

La asignación de activos describe el porcentaje de inversiones en activos específicos.

● ¿Cuál ha sido la asignación de activos?

El fondo asignó el 97,30% de sus activos a inversiones sostenibles (n.º 1 Sostenibles) y el 2,70% a Inversiones no sostenibles (n.º 2 No sostenibles). El 69,36% de sus activos se han asignado a objetivos medioambientales y el 27,95% a objetivos sociales.

n.º 1 Sostenibles incluye las inversiones sostenibles con objetivos medioambientales o sociales.

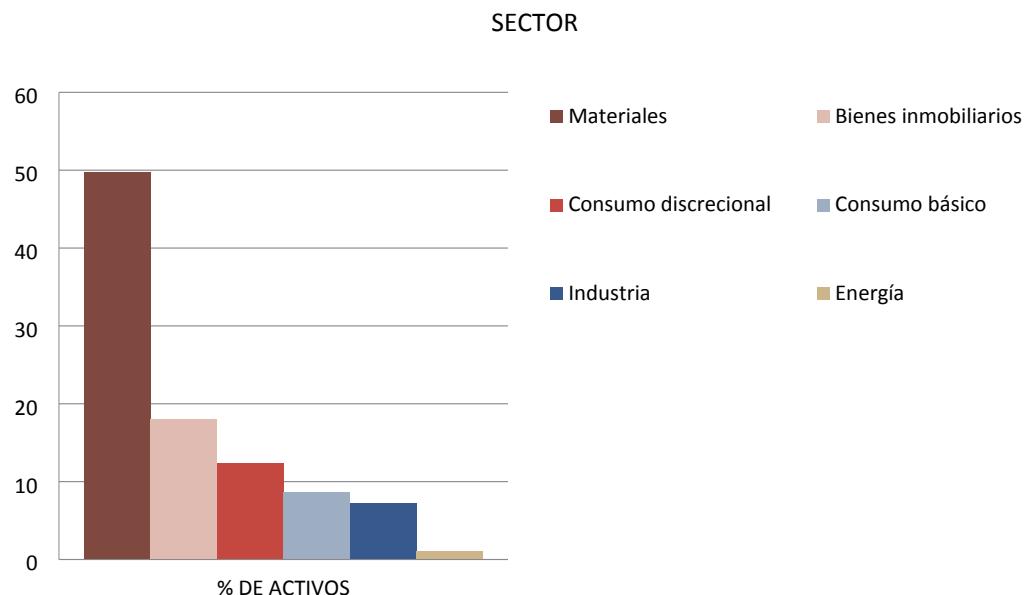

n.º 2 No sostenibles incluye las inversiones que no pueden considerarse

Notas:

- Las inversiones «n.º 1A Sostenibles», «Otras medioambientales» y «Sociales» se calcularon sobre una base de aprobado/suspenso. Incluyen bonos certificados (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.
- Las inversiones ajustadas a la taxonomía verde de la UE se calculan ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a la mitigación del cambio climático y la adaptación al mismo) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.
- A falta de una taxonomía social de la UE, Pictet ha desarrollado un marco de taxonomía social propio, basado en el Informe sobre taxonomía social publicado por la Plataforma de Finanzas Sostenibles de la UE en 2022. Las actividades admisibles se definen como bienes y servicios que contribuyen sustancialmente a uno de los tres objetivos siguientes: (1) comunidades inclusivas y sostenibles, (2) nivel de vida adecuado y bienestar para los usuarios finales y (3) trabajo digno.

Fuente: Pictet Asset Management, FTSE Green revenues, Factset RBICS.

● ¿En qué sectores económicos se han realizado las inversiones?

Fuente: Pictet Asset Management, GICS/MSCI.

Estamos evaluando la disponibilidad y la calidad de los datos que nos permitirían divulgar información más granular en futuros informes sobre los sectores y subsectores de la economía que obtienen ingresos a partir de la exploración, la minería, la extracción, la producción, el procesamiento, el almacenamiento, el refinado o la distribución, incluidos el transporte, el almacenamiento y el comercio, de combustibles fósiles, según se definen en el artículo 2, punto (62), del Reglamento (UE) 2018/1999 del Parlamento Europeo y del Consejo.

¿En qué medida se ajustaban las inversiones sostenibles con un objetivo medioambiental a la taxonomía de la UE?

El fondo realizó inversiones en actividades económicas que contribuyeron a los dos primeros objetivos medioambientales (mitigación del cambio climático y adaptación a este), según lo establecido en el artículo 9 del Reglamento (UE) 2020/852.

Las inversiones ajustadas a la taxonomía de la UE se calcularon ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a objetivos medioambientales relevantes) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.

Los datos de ajuste a la Taxonomía verde de la UE proceden de informes públicos. Los cálculos también pueden incluir estimaciones en un número limitado de casos en los que no se disponía de datos sobre la alineación con la Taxonomía verde de la UE. Las estimaciones se realizaron sobre la base del mejor esfuerzo y siguiendo un planteamiento conservador para obtener un resultado prudente.

Los procedimientos de control se han aplicado para verificar en todo momento el cumplimiento del artículo 3 del Reglamento sobre taxonomía de la UE.

Los datos facilitados no han sido verificados por un auditor externo ni revisados por un tercero independiente.

● ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil o la energía nuclear que cumplían con la taxonomía de la UE¹?

Sí:

En gas fósil En energía nuclear

No

La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permite ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

Para ajustarse a la taxonomía de la UE, los criterios correspondientes al **gas fósil** incluyen limitaciones de emisiones y el paso a la energía renovable o combustibles bajos en carbono de aquí al fin de 2035. Por lo que

¹ Las actividades relacionadas con el gas fósil o la energía nuclear solo cumplirán la taxonomía de la UE cuando contribuyan a limitar el cambio climático («mitigación del cambio climático») y no perjudiquen significativamente ningún objetivo de la taxonomía de la UE (véase la nota explicativa en el margen izquierdo). Los criterios completos correspondientes a las actividades económicas del gas fósil y la energía nuclear que se ajustan a la taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

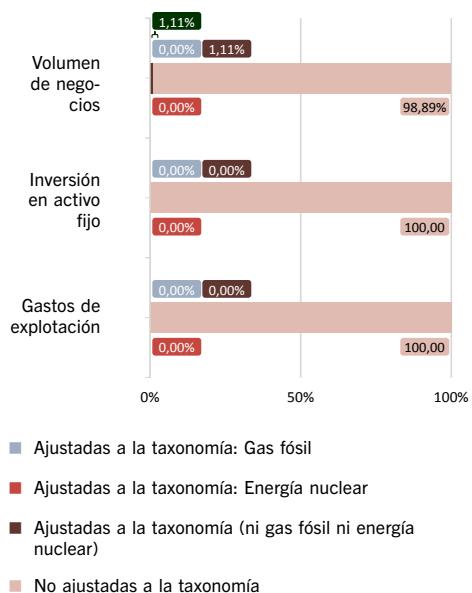

respecta a la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las actividades que se ajustan a la taxonomía se expresan como un porcentaje de:

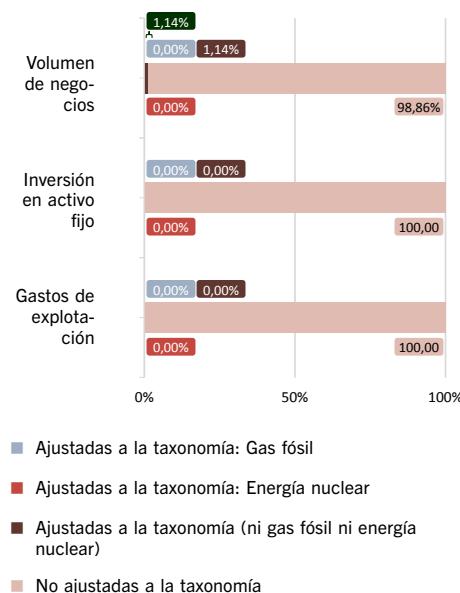

- **El volumen de negocios**, que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas en las que se invierte.
- **La inversión en activo fijo**, que muestra las inversiones ecológicas realizadas por las empresas en las que se invierte, por ejemplo, para la transición a una economía verde.
- **Los gastos de explotación**, que reflejan las actividades operativas ecológicas de las empresas en las que se invierte.

Los gráficos que figuran a continuación muestran en verde el porcentaje de inversiones que se ajustaban a la taxonomía de la UE. Dado que no existe una metodología adecuada para determinar la adaptación a la taxonomía de los bonos soberanos, el primer gráfico muestra la adaptación a la taxonomía correspondiente para todas las inversiones del producto financiero, incluidos los bonos soberanos, mientras que el segundo gráfico muestra la adaptación a la taxonomía solo en relación con las inversiones del producto financiero distintas de los bonos soberanos.*

1. Ajuste a la taxonomía de las inversiones incluidos los bonos soberanos*

2. Ajuste a la taxonomía de las inversiones excluidos los bonos soberanos*

Este gráfico representa el 97,3% de las inversiones totales.

* A efectos de estos gráficos, los «bonos soberanos» incluyen todas las exposiciones soberanas

Nota:

Utilizamos los ingresos como medida clave para establecer la asignación de objetivos y el ajuste real con la taxonomía de la UE debido a la disponibilidad limitada y a la falta de datos fiables para los gastos de explotación y la inversión en activo fijo.

Fuente: Pictet Asset Management.

● ¿Cuál ha sido la proporción de las inversiones realizadas en actividades de transición y facilitadoras?

La proporción de inversiones realizadas en:

- Actividades de transición: No aplicable*
- Actividades de facilitadoras: No aplicable*

* La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permiten ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

● ¿Qué porcentaje de inversiones se han ajustado a la taxonomía de la UE en comparación con los períodos de referencia anteriores?

No aplicable.

¿Cuál ha sido la proporción de inversiones sostenibles con un objetivo medioambiental no ajustadas a la taxonomía de la UE?

69,36%

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta los criterios para las actividades económicas medioambientalmente sostenibles con arreglo a la taxonomía de la UE.

Estas inversiones sostenibles no se ajustan a la Taxonomía de la UE porque sus actividades económicas o bien (i) no están cubiertas por la Taxonomía de la UE, o bien (ii) no cumplen los criterios técnicos de selección para lograr una contribución sustancial en el sentido de la Taxonomía de la UE.

¿Cuál ha sido la proporción de inversiones socialmente sostenibles?

27,95%

¿Qué inversiones se han incluido en «No sostenibles» y cuál ha sido su propósito? ¿Ha habido garantías medioambientales o sociales mínimas?

Las «otras» inversiones del fondo incluían posiciones de tesorería mantenidas principalmente para satisfacer los objetivos diarios de liquidez y gestión de riesgos permitidos y previstos por la política de inversión del fondo. Cuando sea preciso, se aplicarán salvaguardias medioambientales o sociales mínimas a los valores subyacentes.

¿Qué medidas se han adoptado para lograr el objetivo de inversión sostenible durante el período de referencia?

Durante el periodo de referencia, se alcanzó el objetivo de inversión sostenible siguiendo la estrategia de inversión y respetando los elementos vinculantes.

Los elementos vinculantes del fondo son:

- al menos el 80% de inversiones sostenibles, es decir, inversiones en empresas que tienen una exposición importante a actividades como la financiación, la plantación y la gestión de bosques y zonas boscosas y/o el tratamiento, la producción y la distribución de materiales de base de madera y fibra de madera, productos y otros servicios relacionados de toda la cadena de valor forestal, y otras actividades económicas relevantes (según los ingresos, el valor de empresa, los beneficios antes de intereses e impuestos o similares)
- Exclusión de emisores que:
 - participan en la producción de armas controvertidas, incluidas minas antipersona, municiones de racimo, armas biológicas y químicas, armas nucleares y uranio empobrecido
 - obtienen una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, como la extracción de carbón térmico y la generación de electricidad, la exploración y producción no convencional de petróleo y gas, la producción de petróleo y gas convencional, la generación de energía nuclear, las armas convencionales y armas pequeñas, la contratación militar de armas y productos y servicios relacionados con las armas, la producción de tabaco, la producción de entretenimiento para adultos, las actividades del juego, el desarrollo y crecimiento de organismos modificados genéticamente, la producción y comercialización de pesticidas. Para más detalles sobre los umbrales de exclusión aplicables a las actividades anteriores, consulte la Política de Inversión responsable de Pictet Asset Management.
 - incumplen gravemente normas internacionales, incluidos los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción
- un perfil ASG mejor que el del índice de referencia, tras eliminar el 20% inferior de emisores con las características ASG más bajas
- análisis de criterios ASG de los valores admisibles que abarca al menos el 90% del patrimonio neto o el número de emisores incluidos en la cartera

Además, el fondo se implicó con 11 empresas a 30.09.2023.

¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No se ha designado ningún índice de referencia con el fin de lograr el objetivo de inversión sostenible.

Los índices de referencia de sostenibilidad son índices que miden si el producto financiero logra el objetivo de sostenibilidad.

● ¿Cómo difería el índice de referencia de un índice general de mercado?

No aplicable.

● ¿Cómo se ha comportado este producto financiero con respecto a los indicadores de sostenibilidad para determinar la conformidad del índice de referencia con las características medioambientales o sociales que promueve?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice general de mercado?

No aplicable.

Identificador de entidad jurídica: **549300MD1R2NMU6B8J09**

OBJETIVO DE INVERSIÓN SOSTENIBLE

Inversión sostenible significa una inversión en una actividad económica que contribuye a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo a ningún objetivo medioambiental o social y que las empresas en las que se invierte sigan prácticas de buena gobernanza.

La **taxonomía de la UE** es un sistema de clasificación previsto en el Reglamento (UE) 2020/852 por el que se establece una lista de **actividades económicas medioambientalmente sostenibles**. Dicho Reglamento no prevé una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental pueden ajustarse, o no, a la taxonomía.

| ¿ESTE PRODUCTO FINANCIERO TENÍA UN OBJETIVO DE INVERSIÓN SOSTENIBLE? | | | |
|--|--|--------------------------|--|
| <input checked="" type="radio"/> Si | | <input type="radio"/> No | |
| <input checked="" type="checkbox"/> | Ha realizado inversiones sostenibles con un objetivo medioambiental: 42,83% | <input type="checkbox"/> | Promovió características medioambientales o sociales y, aunque no tenía como objetivo una inversión sostenible, tuvo un porcentaje del __% de inversiones sostenibles |
| <input checked="" type="checkbox"/> | en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input type="checkbox"/> | con un objetivo medioambiental en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input checked="" type="checkbox"/> | en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input type="checkbox"/> | con un objetivo medioambiental en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input checked="" type="checkbox"/> | Ha realizado inversiones sostenibles con un objetivo social: 55,34% | <input type="checkbox"/> | con un objetivo social |
| <input checked="" type="checkbox"/> | Ha promovido características medioambientales o sociales , pero no ha realizado ninguna inversión sostenible | | |

Nota: Las inversiones sostenibles se calcularon sobre una base de aprobado/suspenso, incluyendo bonos con etiqueta (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% (medida por ingresos, EBIT, valor de empresa o indicadores similares) a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.

¿En qué grado se ha cumplido el objetivo de inversión sostenible de este producto financiero?

Principales maneras por las que el fondo logró su objetivo de sostenibilidad:

- Impacto positivo:

El fondo logró un impacto medioambiental y/o social positivo, invirtiendo principalmente en empresas que contribuyen y/o se benefician de la cadena de valor alimentaria, en particular, la calidad de los alimentos, el acceso a la alimentación y la sostenibilidad de la producción de alimentos. Estas empresas ayudan a garantizar los suministros de alimentos y a mejorar la salud humana y del planeta, al contribuir a cambios positivos en la dieta y a la seguridad de los alimentos a escala global. También ayudan a reducir los efectos medioambientales negativos, comparados con la agricultura tradicional, así como a reducir los residuos de madera.

No se ha designado ningún índice de referencia con el fin de lograr el objetivo de inversión sostenible.

El fondo invirtió principalmente en empresas cuyas actividades están relacionadas en gran medida con la tecnología agrícola, la agricultura o acuicultura sostenibles, los productos, ingredientes y suplementos alimentarios, la logística de la alimentación como la distribución, las soluciones para el desperdicio de alimentos, la seguridad alimentaria y otras actividades económicas relevantes.

Los valores admisibles incluyeron acciones emitidas por empresas con una proporción significativa de actividades (medida por ingresos, EBIT, valor de empresa o parámetros similares) derivadas de dichas actividades económicas.

- Exclusiones basadas en normas y valores:

El fondo excluyó los emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente o que incumplen de forma grave las normas internacionales, según se detalla a continuación:

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

| Actividad | Umbrales de ingresos |
|---|----------------------|
| Combustibles fósiles y energía nuclear | |
| Extracción de carbón térmico | > 25% |
| Generación de energía térmica de carbón | > 25% |
| Producción de petróleo y gas | > 25% |
| Extracción de arenas bituminosas | > 10% |
| Extracción de energía de esquisto | > 10% |
| Exploración de petróleo y gas en el Ártico | > 10% |
| Generación de energía nuclear | > 50% |
| Armas | |
| Producción de armas controvertidas[1] | > 0% |
| Armas de contratación militar | > 10% |
| Productos y/o servicios relacionados con armas de contratación militar | > 50% |
| Clientes civiles de armas pequeñas (armas de asalto) | > 10% |
| Clientes civiles de armas pequeñas (armas de no asalto) | > 10% |
| Clientes militares/de fuerzas del orden de armas pequeñas | > 25% |
| Componentes clave de armas pequeñas | > 25% |
| Otras actividades controvertidas | |
| Producción de entretenimiento para adultos | > 10% |
| Operaciones de juego | > 10% |
| Desarrollo de plantas y semillas modificadas genéticamente | > 25% |
| Cultivo de plantas y semillas modificadas genéticamente | > 25% |
| Producción de plaguicidas | > 10% |
| Venta al por menor de plaguicidas | > 10% |
| Producción de productos de tabaco | > 10% |
| Exclusiones de empresas por incumplimiento de normas internacionales | Excluidas |
| Empresas que incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción | Sí |
| Exclusiones de países | Excluidas |
| Países (i) incluidos en la lista de Estados patrocinadores del terrorismo, según la definición de la Oficina de Control de Activos Extranjeros de EE. UU.[2] o (ii) sujetos a sanciones financieras de la UE contra bancos centrales y/o empresas de propiedad estatal. | Sí |
| Países (i) clasificados como de muy alto o alto riesgo en el Índice de Estados Frágiles o (ii) afectados por conflictos violentos según la definición del Banco Mundial. | Sí |

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

Países (i) incluidos en la lista de «alerta» del Índice de Estados Frágiles o (ii) sujetos a sanciones relacionadas con la exportación por parte de la UE. Lista de vigilancia[3]

[1] Entre las armas controvertidas se encuentran las minas antipersona, las municiones de racimo, las armas biológicas y químicas (incluido el fósforo blanco) y las armas nucleares procedentes de países no firmantes del Tratado de No Proliferación de Armas Nucleares (TNP).

[2] «Estado patrocinador del terrorismo» es una designación aplicada por el Departamento de Estado de Estados Unidos a países que repetidamente han prestado apoyo a actos de terrorismo internacional.

[3] Además de las exclusiones estrictas, Pictet Asset Management mantiene una lista de vigilancia que incluye países que requieren una diligencia debida adicional por parte de los equipos de inversión antes de invertir.

Para más detalles, consulte la Política de Inversión responsable de Pictet Asset Management (Anexo B).

Además de las exclusiones mencionadas, basadas en la Política de Inversión responsable de Pictet Asset Management, la estrategia aplicó límites de exclusión más estrictos basados en directrices internas.

- Titularidad activa:

El fondo ejerció sus derechos de voto de forma metódica. El fondo también se implicó con la dirección de las empresas sobre cuestiones ASG importantes.

- Inversiones sostenibles:

Pictet Asset Management utilizó un marco propio, así como los objetivos de la Taxonomía de la UE, para definir las inversiones sostenibles.

El fondo invirtió en valores que financiaban actividades económicas que contribuyeron sustancialmente a objetivos medioambientales y/o sociales como:

Medioambientales

- mitigación del cambio climático o adaptación al mismo
- suso sostenible y protección de los recursos hídricos y marinos
- transición hacia una economía circular
- prevención y control de la contaminación o
- protección y recuperación de la biodiversidad y el ecosistema

Sociales

- comunidades inclusivas y sostenibles
- nivel de vida adecuado y bienestar para los usuarios finales o
- trabajo digno

● **¿Cómo se han comportado los indicadores de sostenibilidad?**

Durante el periodo de información, los indicadores de sostenibilidad se comportaron según se indica a continuación:

- **Exposición a empresas que obtienen una parte significativa de sus ingresos, EBIT, valor de empresa o parámetros similares de actividades económicas que contribuyen a los objetivos medioambientales o sociales, y bonos con etiqueta cuando sea relevante para la clase de activos (inversiones sostenibles):**

98,18%

- **Exposición a ingresos de actividades económicas que contribuyen a la mitigación del cambio climático y/o a la adaptación al mismo (inversiones ajustadas a la taxonomía de la UE):**

1,37%

En el informe del próximo año se facilitará información adicional sobre objetivos medioambientales y/o sociales específicos.

- **Perfil ASG global**

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos.

Como resultado, el fondo ha conseguido un perfil medioambiental, social y de gobernanza (ASG) mejor que el del índice de referencia, tras eliminar el 20% inferior de emisores con las características ASG más bajas.

- **Principal incidencia adversa (PIA)**

Los indicadores de sostenibilidad miden cómo se logran los objetivos sostenibles de este producto financiero.

El fondo utiliza una combinación de enfoques para considerar y, en la medida de lo posible, mitigar las incidencias adversas materiales de sus inversiones en la sociedad y el medioambiente, como emisiones de GEI, contaminación atmosférica, pérdida de biodiversidad, emisiones al agua, residuos peligrosos/radioactivos, derechos humanos, normas laborales, corrupción y soborno, y salud pública.

El grado y la forma en que estas incidencias se tuvieron en cuenta dependieron de factores como el contexto específico de la inversión que provoca la incidencia adversa o la disponibilidad de datos fiables.

De conformidad con la política de exclusión de Pictet Asset Management descrita en la Política de Inversión responsable de la empresa (véase el cuadro anterior para consultar las actividades excluidas y los umbrales de exclusión aplicados), el fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se detalla a continuación:

Actividades controvertidas (media ponderada de ingresos de la empresa, en %)*:

| | Fondo (%) | Índice de referencia (%) |
|--|-----------|--------------------------|
| Combustibles fósiles y energía nuclear | 0,00 | 4,15 |
| Armas | 0,00 | 0,99 |
| Otras actividades controvertidas | 0,25 | 1,02 |
| No aplicable: | 0,62 | 0,00 |
| No cubierto: | 0,05 | 0,02 |

* Los combustibles fósiles y la energía nuclear incluyen la extracción de carbón térmico y la generación de electricidad, la producción y extracción de petróleo y gas, la extracción de energía de esquisto, la exploración de petróleo y gas en los mares del Ártico y la generación de energía nuclear. Las armas incluyen la contratación militar (servicios de armas y relacionadas con estas), clientes civiles de armas pequeñas (armas de asalto/no asalto), clientes militares/de las fuerzas y cuerpos de seguridad de armas pequeñas y componentes clave de pequeñas armas. Otras actividades controvertidas incluyen la producción de tabaco, la producción de entretenimiento para adultos, la explotación de juegos de azar, el desarrollo o crecimiento de organismos modificados genéticamente, la producción o venta al por menor de pesticidas. La exposición se basa en datos de terceros y puede no reflejar nuestro punto de vista interno. Pictet Asset Management tiene plena discreción sobre la aplicación de los criterios de exclusión y se reserva el derecho de apartarse de la información de terceros, según el caso, cuando se considere incorrecta o incompleta.

Fuente: Pictet Asset Management, Sustainalytics.

Además, el fondo excluyó a los emisores que tenían exposición a:

(i) PIA 10: Incumplimientos de los principios del Pacto Mundial de las Naciones Unidas y las Directrices para Empresas Multinacionales de la Organización para la Cooperación y el Desarrollo Económicos (OCDE).

(ii) PIA 14: Exposición a armas controvertidas (minas antipersonas, municiones en racimo, armas químicas y armas biológicas)

● Derechos de voto

Durante el periodo de referencia, el fondo votó en 45 juntas generales de 45 juntas en las que se podía votar (100,00%). Votamos «en contra» (incluidas «abstenciones» o «retenciones») en al menos una resolución en el 33,33% de las juntas.

De las 657 resoluciones de la dirección, votamos en contra de la dirección en 22 puntos (3,35%) y nos abstuvimos en 4 puntos (0,61%).

Apoyamos 6 (100,00%) resoluciones de accionistas de un total de 6 propuestas.

Por lo que respecta a las cuestiones medioambientales y/o sociales, votamos a favor de 3 de las 3 resoluciones de la dirección y a favor de 3 de las 3 resoluciones de accionistas.

Fuente: Pictet Asset Management, ISS ESG.

● Interacción

El fondo se implicó con 17 empresas sobre cuestiones ASG (datos a 30.09.2023). Esto incluye diálogos internos, iniciativas de colaboración entre inversores y servicios de implicación de terceros. Para que se considere implicación, el diálogo con una empresa objetivo debe tener un

objetivo claro y mensurable en un horizonte temporal predefinido. Es importante señalar que no todas las interacciones rutinarias o de supervisión, aunque impliquen a la alta dirección o al Consejo de administración, se consideran implicaciones en nuestra evaluación.

Fuente: Pictet Asset Management, Sustainalytics.

● **¿... y en comparación con períodos anteriores?**

Esta cuestión se abordará en futuros informes anuales debido a la falta de historial.

● **¿De qué manera las inversiones sostenibles no han causado un perjuicio significativo a ningún objetivo medioambiental o social?**

Para evitar que las inversiones sostenibles causen un perjuicio significativo a cualquier otro objetivo medioambiental o social, el fondo aplicó los siguientes criterios de selección sobre la base del mejor esfuerzo:

(i) Exclusiones de emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente (véase la descripción del marco de exclusión de IR).

(ii) Los emisores asociados a controversias elevadas y graves se excluyeron.

La información se obtuvo de proveedores terceros y/o de análisis interno. La información ASG de terceros proveedores de datos puede haber sido incompleta, inexacta o no estar disponible. Como consecuencia de ello, existía el riesgo de que el Gestor de inversiones evaluara incorrectamente un valor o emisor, dando lugar a la inclusión o exclusión incorrecta de un valor en el fondo. Los datos ASG incompletos, inexactos o no disponibles también pueden actuar como una limitación metodológica a una estrategia de inversión no financiera (como la aplicación de criterios ASG o similares). En los casos identificados, el Gestor de inversiones trató de mitigar este riesgo mediante su propia evaluación. En caso de que las características ASG de un valor mantenido por el fondo cambiaran, dando lugar a la venta del valor, el Gestor de inversiones no acepta responsabilidad alguna en relación con dicho cambio.

● **¿Cómo se han tenido en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?**

Pictet Asset Management realiza un seguimiento de todos los indicadores obligatorios de principales incidencias adversas (incluidos en el Anexo 1 del Reglamento Delegado (UE) 22 / 1288 de la Comisión) cuando disponemos de datos sólidos. Se espera que la calidad y la disponibilidad de los datos mejoren con el tiempo.

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas de sus inversiones en la sociedad y el medioambiente que se consideran importantes para la estrategia de inversión, mediante un conjunto de decisiones de gestión de cartera, actividades de propiedad activa y exclusión de emisores asociados a conductas o actividades controvertidas.

Más información en el informe de PIA de la entidad, disponible en:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=es&bl=PAM>

● **¿Se han ajustado las inversiones sostenibles a las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios rectores de las Naciones Unidas sobre las empresas y los derechos humanos?**

Para garantizar que la inversión sostenible no causara un perjuicio significativo a ningún objetivo de inversión sostenible, el fondo excluyó a las empresas con infracciones elevadas y graves de (i) los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción o (ii) las Líneas Directrices de la OCDE para Empresas Multinacionales, incluidos los asuntos sociales y laborales graves.

¿Cómo tiene en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas que se consideran importantes para la estrategia de inversión. Entre las incidencias adversas se incluyeron, entre otras, las emisiones de gases de efecto invernadero (GEI), la contaminación atmosférica, la pérdida de biodiversidad, las emisiones al agua, los residuos peligrosos/radioactivos, las cuestiones sociales y laborales, y la corrupción y el soborno, que se abordaron mediante una combinación de:

(i) decisiones de gestión de carteras

El equipo de inversión puntuó las posiciones según una evaluación de los riesgos y oportunidades medioambientales, sociales y de gobernanza, así como la exposición a inversiones sostenibles, como parte del marco de puntuación del fondo. Las puntuaciones se determinan de forma cualitativa por los gestores de inversión, basándose en estudios fundamentales y datos cuantitativos ASG, incluidos los datos sobre el Principio de Impacto Negativo, los datos ASG facilitados por las empresas y los datos proporcionados por terceros proveedores de datos ASG. El proceso de puntuación del equipo de inversión fue un componente clave del proceso de construcción de la cartera del compartimento, determinando las ponderaciones objetivo en la cartera.

(ii) voto por delegación

El fondo se atuvo a las directrices de voto de Pictet Asset Management, que están diseñadas para apoyar una cultura de gobierno corporativo sólida, una gestión eficaz de las cuestiones medioambientales y sociales, y la publicación de información exhaustiva de acuerdo con normas creíbles. Dichas directrices también pretenden apoyar a los órganos de gobierno mundiales reconocidos que promueven prácticas empresariales sostenibles que abogan por la gestión del medio ambiente, las prácticas laborales justas, la no discriminación y la protección de los derechos humanos. Todas las actividades de voto del fondo se registraron y pueden compartirse previa solicitud.

(iii) implicación

La interacción con los emisores se realizó mediante conversaciones individuales, reuniones de accionistas/bonistas, giras de inversores y/o conferencias telefónicas. Los objetivos de estas interacciones fueron evaluar una organización, supervisar que su estrategia se estaba aplicando conforme a nuestras expectativas y garantizar que los emisores iban camino de cumplir sus metas y objetivos.

Cuando correspondió, nos implicamos con los emisores para abordar preocupaciones importantes en materia de ASG, mejorar las prácticas de sostenibilidad de las empresas o implicarnos en temas de impacto positivo para asegurarnos de que las entendían plenamente y las abordaban eficazmente a corto, medio y largo plazo. Nuestras actividades de implicación combinaron debates dirigidos a nivel interno, iniciativas de colaboración con inversores institucionales y servicios de implicación externos.

(iv) exclusión de emisores asociados a conductas o actividades controvertidas

El fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se definen en la Política de Inversión responsable de la Pictet Asset Management y/o (ii) empresas que infringieron gravemente los principios del Pacto Mundial de la ONU sobre derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción y las armas controvertidas.

¿Cuáles han sido las inversiones principales de este producto financiero?

La lista incluye las inversiones que constituyen la mayor parte de las inversiones del producto financiero durante el período de referencia, que es: 01.10.2022 - 30.09.2023

| INVERSIONES DE MAYOR VOLUMEN | SECTOR | % DE ACTIVOS | PAÍS |
|------------------------------|----------------------|--------------|----------------|
| COMPASS GROUP PLC | Consumo discrecional | 4,9 | Reino Unido |
| DANONE | Consumo básico | 4,9 | Francia |
| CHINA MENGNIU DAIRY CO | Consumo básico | 4,4 | China |
| KERRY GROUP PLC-A | Consumo básico | 4,1 | Irlanda |
| YAKULT HONSHA CO LTD | Consumo básico | 4,0 | Japón |
| ZOETIS INC | Salud | 3,9 | Estados Unidos |
| INTL FLAVORS & FRAGRANCES | Materiales | 3,9 | Estados Unidos |
| ECOLAB INC | Materiales | 3,8 | Estados Unidos |
| EDENRED | Financiero | 3,6 | Francia |
| GIVAUDAN-REG | Materiales | 3,5 | Suiza |
| DARLING INGREDIENTS INC | Consumo básico | 3,4 | Estados Unidos |
| NESTLE SA-REG | Consumo básico | 3,4 | Suiza |
| MOWI ASA | Consumo básico | 3,3 | Noruega |

Fuente: Pictet Asset Management, GICS/MSCI.

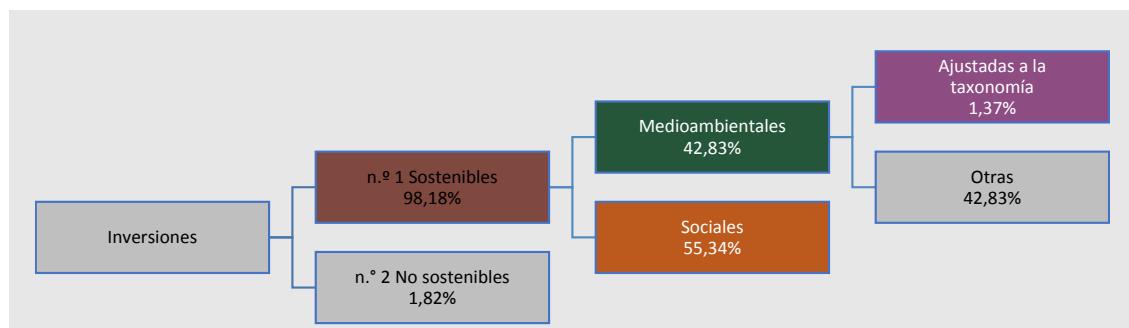

¿Cuál ha sido la proporción de inversiones relacionadas con la sostenibilidad?

98,18%

La asignación de activos describe el porcentaje de inversiones en activos específicos.

● ¿Cuál ha sido la asignación de activos?

El fondo asignó el 98,18% de sus activos a inversiones sostenibles (n.º 1 Sostenibles) y el 1,82% a Inversiones no sostenibles (n.º 2 No sostenibles). El 42,83% de sus activos se han asignado a objetivos medioambientales y el 55,34% a objetivos sociales.

n.º 1 Sostenibles incluye las inversiones sostenibles con objetivos medioambientales o sociales.

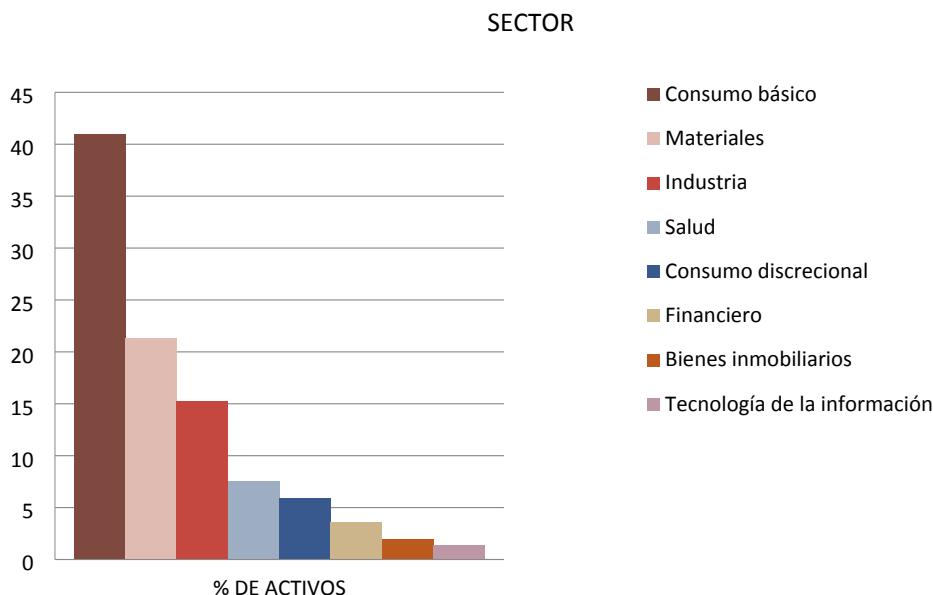

n.º 2 No sostenibles incluye las inversiones que no pueden considerarse

Notas:

- Las inversiones «n.º 1A Sostenibles», «Otras medioambientales» y «Sociales» se calcularon sobre una base de aprobado/suspenso. Incluyen bonos certificados (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.
- Las inversiones ajustadas a la taxonomía verde de la UE se calculan ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a la mitigación del cambio climático y la adaptación al mismo) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.
- A falta de una taxonomía social de la UE, Pictet ha desarrollado un marco de taxonomía social propio, basado en el Informe sobre taxonomía social publicado por la Plataforma de Finanzas Sostenibles de la UE en 2022. Las actividades admisibles se definen como bienes y servicios que contribuyen sustancialmente a uno de los tres objetivos siguientes: (1) comunidades inclusivas y sostenibles, (2) nivel de vida adecuado y bienestar para los usuarios finales y (3) trabajo digno.

Fuente: Pictet Asset Management, FTSE Green revenues, Factset RBICS.

● ¿En qué sectores económicos se han realizado las inversiones?

Fuente: Pictet Asset Management, GICS/MSCI.

Estamos evaluando la disponibilidad y la calidad de los datos que nos permitirían divulgar información más granular en futuros informes sobre los sectores y subsectores de la economía que obtienen ingresos a partir de la exploración, la minería, la extracción, la producción, el procesamiento, el almacenamiento, el refinado o la distribución, incluidos el transporte, el almacenamiento y el comercio, de combustibles fósiles, según se definen en el artículo 2, punto (62), del Reglamento (UE) 2018/1999 del Parlamento Europeo y del Consejo.

¿En qué medida se ajustaban las inversiones sostenibles con un objetivo medioambiental a la taxonomía de la UE?

El fondo realizó inversiones en actividades económicas que contribuyeron a los dos primeros objetivos medioambientales (mitigación del cambio climático y adaptación a este), según lo establecido en el artículo 9 del Reglamento (UE) 2020/852.

Las inversiones ajustadas a la taxonomía de la UE se calcularon ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a objetivos medioambientales relevantes) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.

Los datos de ajuste a la Taxonomía verde de la UE proceden de informes públicos. Los cálculos también pueden incluir estimaciones en un número limitado de casos en los que no se disponía de datos sobre la alineación con la Taxonomía verde de la UE. Las estimaciones se realizaron sobre la base del mejor esfuerzo y siguiendo un planteamiento conservador para obtener un resultado prudente.

Los procedimientos de control se han aplicado para verificar en todo momento el cumplimiento del artículo 3 del Reglamento sobre taxonomía de la UE.

Los datos facilitados no han sido verificados por un auditor externo ni revisados por un tercero independiente.

● ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil o la energía nuclear que cumplían con la taxonomía de la UE¹?

Sí:

En gas fósil En energía nuclear

No

La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permite ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

Para ajustarse a la taxonomía de la UE, los criterios correspondientes al **gas fósil** incluyen limitaciones de emisiones y el paso a la energía renovable o combustibles bajos en carbono de aquí al fin de 2035. Por lo que

¹ Las actividades relacionadas con el gas fósil o la energía nuclear solo cumplirán la taxonomía de la UE cuando contribuyan a limitar el cambio climático («mitigación del cambio climático») y no perjudiquen significativamente ningún objetivo de la taxonomía de la UE (véase la nota explicativa en el margen izquierdo). Los criterios completos correspondientes a las actividades económicas del gas fósil y la energía nuclear que se ajustan a la taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

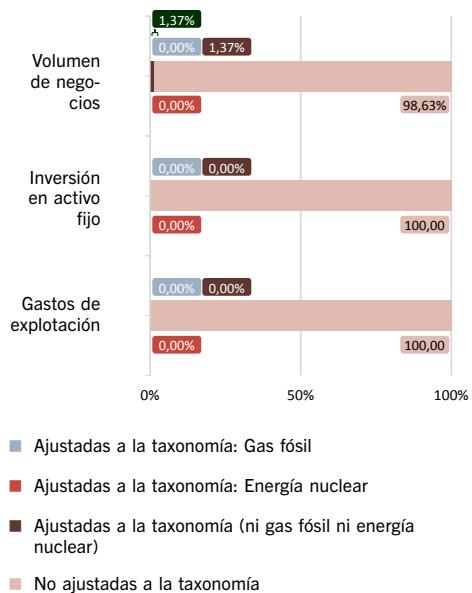

respecta a la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las actividades que se ajustan a la taxonomía se expresan como un porcentaje de:

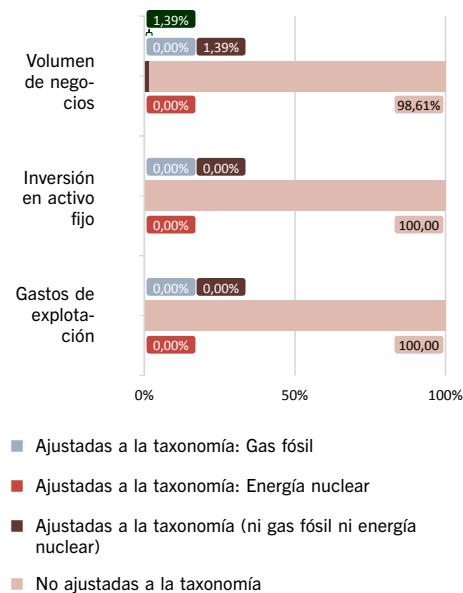

- **El volumen de negocios**, que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas en las que se invierte.
- **La inversión en activo fijo**, que muestra las inversiones ecológicas realizadas por las empresas en las que se invierte, por ejemplo, para la transición a una economía verde.
- **Los gastos de explotación**, que reflejan las actividades operativas ecológicas de las empresas en las que se invierte.

Los gráficos que figuran a continuación muestran en verde el porcentaje de inversiones que se ajustaban a la taxonomía de la UE. Dado que no existe una metodología adecuada para determinar la adaptación a la taxonomía de los bonos soberanos, el primer gráfico muestra la adaptación a la taxonomía correspondiente para todas las inversiones del producto financiero, incluidos los bonos soberanos, mientras que el segundo gráfico muestra la adaptación a la taxonomía solo en relación con las inversiones del producto financiero distintas de los bonos soberanos.*

1. Ajuste a la taxonomía de las inversiones incluidos los bonos soberanos*

2. Ajuste a la taxonomía de las inversiones excluidos los bonos soberanos*

Este gráfico representa el 98,18% de las inversiones totales.

* A efectos de estos gráficos, los «bonos soberanos» incluyen todas las exposiciones soberanas

Nota:

Utilizamos los ingresos como medida clave para establecer la asignación de objetivos y el ajuste real con la taxonomía de la UE debido a la disponibilidad limitada y a la falta de datos fiables para los gastos de explotación y la inversión en activo fijo.

Fuente: Pictet Asset Management.

● ¿Cuál ha sido la proporción de las inversiones realizadas en actividades de transición y facilitadoras?

La proporción de inversiones realizadas en:

- Actividades de transición: No aplicable*
- Actividades de facilitadoras: No aplicable*

* La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permiten ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

● ¿Qué porcentaje de inversiones se han ajustado a la taxonomía de la UE en comparación con los períodos de referencia anteriores?

No aplicable.

¿Cuál ha sido la proporción de inversiones sostenibles con un objetivo medioambiental no ajustadas a la taxonomía de la UE?

42,83%

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta los criterios para las actividades económicas medioambientalmente sostenibles con arreglo a la taxonomía de la UE.

Estas inversiones sostenibles no se ajustan a la Taxonomía de la UE porque sus actividades económicas o bien (i) no están cubiertas por la Taxonomía de la UE, o bien (ii) no cumplen los criterios técnicos de selección para lograr una contribución sustancial en el sentido de la Taxonomía de la UE.

¿Cuál ha sido la proporción de inversiones socialmente sostenibles?

55,34%

¿Qué inversiones se han incluido en «No sostenibles» y cuál ha sido su propósito? ¿Ha habido garantías medioambientales o sociales mínimas?

Las «otras» inversiones del fondo incluían posiciones de tesorería mantenidas principalmente para satisfacer los objetivos diarios de liquidez y gestión de riesgos permitidos y previstos por la política de inversión del fondo. Cuando sea preciso, se aplicarán salvaguardias medioambientales o sociales mínimas a los valores subyacentes.

¿Qué medidas se han adoptado para lograr el objetivo de inversión sostenible durante el período de referencia?

Durante el periodo de referencia, se alcanzó el objetivo de inversión sostenible siguiendo la estrategia de inversión y respetando los elementos vinculantes.

Los elementos vinculantes del fondo son:

- al menos el 80% de las inversiones sostenibles, es decir, inversiones en empresas que tienen una exposición importante a actividades como la tecnología agrícola, la agricultura o acuicultura sostenibles, los productos, ingredientes y suplementos alimentarios, la logística de la alimentación como la distribución, las soluciones para el desperdicio de alimentos, la seguridad alimentaria y otras actividades económicas relevantes (según los ingresos, el valor de empresa, los beneficios antes de intereses e impuestos o similares)
- Exclusión de emisores que:
 - participan en la producción de armas controvertidas, incluidas minas antipersona, municiones de racimo, armas biológicas y químicas, armas nucleares y uranio empobrecido
 - obtienen una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, como la extracción de carbón térmico y la generación de electricidad, la exploración y producción no convencional de petróleo y gas, la producción de petróleo y gas convencional, la generación de energía nuclear, las armas convencionales y armas pequeñas, la contratación militar de armas y productos y servicios relacionados con las armas, la producción de tabaco, la producción de entretenimiento para adultos, las actividades del juego, el desarrollo y crecimiento de organismos modificados genéticamente, la producción y comercialización de pesticidas. Para más detalles sobre los umbrales de exclusión aplicables a las actividades anteriores, consulte la Política de Inversión responsable de Pictet Asset Management.
 - incumplen gravemente normas internacionales, incluidos los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción
- un perfil ASG mejor que el del índice de referencia, tras eliminar el 20% inferior de emisores con las características ASG más bajas
- análisis de criterios ASG de los valores admisibles que abarca al menos el 90% del patrimonio neto o el número de emisores incluidos en la cartera

Además, el fondo se implicó con 17 empresas a 30.09.2023.

¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No se ha designado ningún índice de referencia con el fin de lograr el objetivo de inversión sostenible.

Los índices de referencia de sostenibilidad son índices que miden si el producto financiero logra el objetivo de sostenibilidad.

● ¿Cómo difería el índice de referencia de un índice general de mercado?

No aplicable.

● ¿Cómo se ha comportado este producto financiero con respecto a los indicadores de sostenibilidad para determinar la conformidad del índice de referencia con las características medioambientales o sociales que promueve?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice general de mercado?

No aplicable.

01.10.2022 - 30.09.2023

Plantilla de información periódica de los productos financieros a que se refiere el artículo 8, apartados 1, 2 y 2 bis, del Reglamento (UE) 2019/2088 y el artículo 6, párrafo primero, del Reglamento (UE) 2020/852

Nombre del producto: **Pictet - Global Megatrend Selection**

Identificador de entidad jurídica: **549300HMJRYVBYQOZ025**

CARACTERÍSTICAS MEDIOAMBIENTALES O SOCIALES

Inversión sostenible
significa una inversión en una actividad económica que contribuye a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo a ningún objetivo medioambiental o social y que las empresas en las que se invierte sigan prácticas de buena gobernanza.

La **taxonomía de la UE** es un sistema de clasificación previsto en el Reglamento (UE) 2020/852 por el que se establece una lista de **actividades económicas medioambientalmente sostenibles**. Dicho Reglamento no prevé una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental pueden ajustarse, o no, a la taxonomía.

| ¿ESTE PRODUCTO FINANCIERO TENÍA UN OBJETIVO DE INVERSIÓN SOSTENIBLE? | | | |
|--|--|-------------------------------------|--|
| <input checked="" type="radio"/> Si | | <input checked="" type="radio"/> No | |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo medioambiental: ____% | <input checked="" type="checkbox"/> | Promovió características medioambientales o sociales y, aunque no tenía como objetivo una inversión sostenible, tuvo un porcentaje del 84,19% de inversiones sostenibles |
| <input type="checkbox"/> | en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> | con un objetivo medioambiental en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> | en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> | con un objetivo medioambiental en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo social: ____% | <input type="checkbox"/> | con un objetivo social |
| <input type="checkbox"/> | | <input type="checkbox"/> | Ha promovido características medioambientales o sociales, pero no ha realizado ninguna inversión sostenible |

Nota: Las inversiones sostenibles se calcularon sobre una base de aprobado/suspenso, incluyendo bonos con etiqueta (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% (medida por ingresos, EBIT, valor de empresa o indicadores similares) a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.

¿En qué grado se han cumplido las características medioambientales o sociales que promueve este producto financiero?

Las características medioambientales y sociales de este producto financiero se promovieron utilizando:

- Impacto positivo:

El fondo logró un impacto medioambiental y/o social positivo, invirtiendo al menos dos tercios de sus activos totales en valores que pueden beneficiarse de las megatendencias globales, es decir, tendencias del mercado a largo plazo resultantes de cambios seculares en factores económicos, sociales y medioambientales, como la demografía, el estilo de vida o la normativa.

El fondo invirtió principalmente en empresas cuyas actividades están relacionadas en gran medida con los productos y servicios que contribuyen a la transición energética, la economía circular, la eficiencia energética, la calidad y el suministro del agua, los bosques sostenibles, las ciudades sostenibles, la alimentación, la salud y las terapias humanas, y la autorrealización y seguridad personal, y otras actividades económicas relevantes.

No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

- Exclusiones basadas en normas y valores:

El fondo excluyó los emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente o que incumplen de forma grave las normas internacionales, según se detalla a continuación:

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

| Actividad | Umbrales de ingresos |
|---|----------------------|
| Combustibles fósiles y energía nuclear | |
| Extracción de carbón térmico | > 25% |
| Generación de energía térmica de carbón | > 25% |
| Producción de petróleo y gas | > 25% |
| Extracción de arenas bituminosas | > 10% |
| Extracción de energía de esquisto | > 10% |
| Exploración de petróleo y gas en el Ártico | > 10% |
| Generación de energía nuclear | > 50% |
| Armas | |
| Producción de armas controvertidas[1] | > 0% |
| Armas de contratación militar | > 10% |
| Productos y/o servicios relacionados con armas de contratación militar | > 50% |
| Clientes civiles de armas pequeñas (armas de asalto) | > 10% |
| Clientes civiles de armas pequeñas (armas de no asalto) | > 10% |
| Clientes militares/de fuerzas del orden de armas pequeñas | > 25% |
| Componentes clave de armas pequeñas | > 25% |
| Otras actividades controvertidas | |
| Producción de entretenimiento para adultos | > 10% |
| Operaciones de juego | > 10% |
| Desarrollo de plantas y semillas modificadas genéticamente | > 25% |
| Cultivo de plantas y semillas modificadas genéticamente | > 25% |
| Producción de plaguicidas | > 10% |
| Venta al por menor de plaguicidas | > 10% |
| Producción de productos de tabaco | > 10% |
| Exclusiones de empresas por incumplimiento de normas internacionales | Excluidas |
| Empresas que incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción | Sí |
| Exclusiones de países | Excluidas |
| Países (i) incluidos en la lista de Estados patrocinadores del terrorismo, según la definición de la Oficina de Control de Activos Extranjeros de EE. UU.[2] o (ii) sujetos a sanciones financieras de la UE contra bancos centrales y/o empresas de propiedad estatal. | Sí |
| Países (i) clasificados como de muy alto o alto riesgo en el Índice de Estados Frágiles o (ii) afectados por conflictos violentos según la definición del Banco Mundial. | Sí |

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

Países (i) incluidos en la lista de «alerta» del Índice de Estados Frágiles o (ii) sujetos a sanciones relacionadas con la exportación por parte de la UE. Lista de vigilancia[3]

[1] Entre las armas controvertidas se encuentran las minas antipersona, las municiones de racimo, las armas biológicas y químicas (incluido el fósforo blanco) y las armas nucleares procedentes de países no firmantes del Tratado de No Proliferación de Armas Nucleares (TNP).

[2] «Estado patrocinador del terrorismo» es una designación aplicada por el Departamento de Estado de Estados Unidos a países que repetidamente han prestado apoyo a actos de terrorismo internacional.

[3] Además de las exclusiones estrictas, Pictet Asset Management mantiene una lista de vigilancia que incluye países que requieren una diligencia debida adicional por parte de los equipos de inversión antes de invertir.

Para más detalles, consulte la Política de Inversión responsable de Pictet Asset Management (Anexo B).

Además de las exclusiones mencionadas, basadas en la Política de Inversión responsable de Pictet Asset Management, la estrategia aplicó límites de exclusión más estrictos basados en directrices internas.

- Titularidad activa:

El fondo ejerció de forma metódica sus derechos de voto y se implicó con la dirección de las empresas sobre cuestiones ASG importantes.

● ¿Cómo se han comportado los indicadores de sostenibilidad?

Durante el periodo de información, los indicadores de sostenibilidad se comportaron según se indica a continuación:

- Exposición a empresas que obtienen una parte significativa de sus ingresos, EBIT, valor de empresa o parámetros similares de actividades económicas que contribuyen a los objetivos medioambientales o sociales, y bonos con etiqueta cuando sea relevante para la clase de activos (inversiones sostenibles):

84,19%

- Exposición a ingresos de actividades económicas que contribuyen a la mitigación del cambio climático y/o a la adaptación al mismo (inversiones ajustadas a la taxonomía de la UE):

1,66%

En el informe del próximo año se facilitará información adicional sobre objetivos medioambientales y/o sociales específicos.

- Perfil ASG global

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos.

Como resultado, el fondo ha conseguido un perfil ambiental, social y de gobernanza (ASG) mejor que el del índice de referencia.

- Principal incidencia adversa (PIA)

El fondo utiliza una combinación de enfoques para considerar y, en la medida de lo posible, mitigar las incidencias adversas materiales de nuestras inversiones en la sociedad y el medioambiente, como emisiones de GEI, contaminación atmosférica, pérdida de biodiversidad, emisiones al agua, residuos peligrosos/radioactivos, derechos humanos, normas laborales, corrupción y soborno, y salud pública.

El grado y la forma en que estas incidencias se tuvieron en cuenta dependieron de factores como el contexto específico de la inversión que provoca la incidencia adversa o la disponibilidad de datos fiables.

Los indicadores de sostenibilidad miden cómo se alcanzan las características medioambientales o sociales que promueve el producto financiero.

De conformidad con la política de exclusión de Pictet Asset Management descrita en la Política de Inversión responsable de la empresa (véase el cuadro anterior para consultar las actividades excluidas y los umbrales de exclusión aplicados), el fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente:

Actividades controvertidas (media ponderada de ingresos de la empresa, en %)*:

| | Fondo (%) | Índice de referencia (%) |
|--|-----------|--------------------------|
| Combustibles fósiles y energía nuclear | 0,19 | 4,15 |
| Armas | 0,09 | 0,99 |
| Otras actividades controvertidas | 0,07 | 1,02 |
| No aplicable: | 0,88 | 0,00 |
| No cubierto: | 0,40 | 0,02 |

* Los combustibles fósiles y la energía nuclear incluyen la extracción de carbón térmico y la generación de electricidad, la producción y extracción de petróleo y gas, la extracción de energía de esquisto, la exploración de petróleo y gas en los mares del Ártico y la generación de energía nuclear. Las armas incluyen la contratación militar (servicios de armas y relacionadas con estas), clientes civiles de armas pequeñas (armas de asalto/no asalto), clientes militares/de las fuerzas y cuerpos de seguridad de armas pequeñas y componentes clave de pequeñas armas. Otras actividades controvertidas incluyen la producción de tabaco, la producción de entretenimiento para adultos, la explotación de juegos de azar, el desarrollo o crecimiento de organismos modificados genéticamente, la producción o venta al por menor de pesticidas. La exposición se basa en datos de terceros y puede no reflejar nuestro punto de vista interno. Pictet Asset Management tiene plena discreción sobre la aplicación de los criterios de exclusión y se reserva el derecho de apartarse de la información de terceros, según el caso, cuando se considere incorrecta o incompleta.

Fuente: Pictet Asset Management, Sustainalytics.

Además, el fondo excluyó a los emisores que tenían exposición a:

- (i) PIA 10: Incumplimientos de los principios del Pacto Mundial de las Naciones Unidas y las Directrices para Empresas Multinacionales de la Organización para la Cooperación y el Desarrollo Económicos (OCDE).
- (ii) PIA 14: Exposición a armas controvertidas (minas antipersonas, municiones en racimo, armas químicas y armas biológicas)

● Derechos de voto

Durante el periodo de referencia, el fondo votó en 465 juntas generales de 471 juntas en las que se podía votar (98,73%). Votamos «en contra» (incluidas «abstenciones» o «retenciones») en al menos una resolución en el 40,55% de las juntas.

De las 5.652 resoluciones de la dirección, votamos en contra de la dirección en 296 puntos (5,24%) y nos abstuvimos en 142 puntos (2,51%).

Apoyamos 120 (59,70%) resoluciones de accionistas de un total de 201 propuestas.

Por lo que respecta a las cuestiones medioambientales y/o sociales, votamos a favor de 24 de las 24 resoluciones de la dirección y a favor de 66 de las 98 resoluciones de accionistas.

Fuente: Pictet Asset Management, ISS ESG.

● Interacción

El fondo se implicó con 131 empresas sobre cuestiones ASG (datos a 30.09.2023). Esto incluye diálogos internos, iniciativas de colaboración entre inversores y servicios de implicación de terceros. Para que se considere implicación, el diálogo con una empresa objetivo debe tener un objetivo claro y mensurable en un horizonte temporal predefinido. Es importante señalar que no todas las interacciones rutinarias o de supervisión, aunque impliquen a la alta dirección o al Consejo de administración, se consideran implicaciones en nuestra evaluación.

Fuente: Pictet Asset Management, Sustainalytics.

● ¿... y en comparación con períodos anteriores?

Esta cuestión se abordará en futuros informes anuales debido a la falta de historial.

● **¿Cuáles han sido los objetivos de las inversiones sostenibles que ha realizado en parte el producto financiero y de qué forma ha contribuido la inversión sostenible a dichos objetivos?**

Pictet Asset Management utilizó marcos de referencia propios, así como los objetivos de la Taxonomía de la UE, para definir las inversiones sostenibles.

El fondo invirtió en valores que financiaban actividades económicas que contribuyeron sustancialmente a objetivos medioambientales y/o sociales como:

Medioambientales

- mitigación del cambio climático o adaptación al mismo
- uso sostenible y protección de los recursos hídricos y marinos
- transición hacia una economía circular
- prevención y control de la contaminación o
- protección y recuperación de la biodiversidad y los ecosistemas

Sociales

- comunidades inclusivas y sostenibles
- nivel de vida adecuado y bienestar para los usuarios finales o
- trabajo digno

● **¿De qué manera las inversiones sostenibles que el producto financiero ha realizado en parte, no han causado un perjuicio significativo a ningún objetivo de inversión sostenible medioambiental o social?**

Para evitar que las inversiones sostenibles causen un perjuicio significativo a cualquier otro objetivo medioambiental o social, el fondo aplicó los siguientes criterios de selección sobre la base del mejor esfuerzo:

(i) Exclusiones de emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente (véase la descripción del marco de exclusión de IR).

(ii) Los emisores asociados a controversias elevadas y graves no se contabilizaron como inversiones sostenibles.

La información se obtuvo de proveedores terceros y/o de análisis interno. La información ASG de terceros proveedores de datos puede haber sido incompleta, inexacta o no estar disponible. Como consecuencia de ello, existía el riesgo de que el Gestor de inversiones evaluara incorrectamente un valor o emisor, dando lugar a la inclusión o exclusión incorrecta de un valor en el fondo. Los datos ASG incompletos, inexactos o no disponibles también pueden actuar como una limitación metodológica a una estrategia de inversión no financiera (como la aplicación de criterios ASG o similares). En los casos identificados, el Gestor de inversiones trató de mitigar este riesgo mediante su propia evaluación. En caso de que las características ASG de un valor mantenido por el fondo cambiaron, dando lugar a la venta del valor, el Gestor de inversiones no acepta responsabilidad alguna en relación con dicho cambio.

● **¿Cómo se han tenido en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?**

Pictet Asset Management realiza un seguimiento de todos los indicadores obligatorios de principales incidencias adversas (incluidos en el Anexo 1 del Reglamento Delegado (UE) 22 / 1288 de la Comisión) cuando disponemos de datos sólidos. Se espera que la calidad de los datos disponibles mejore con el tiempo.

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas de sus inversiones en la sociedad y el medioambiente que se consideran importantes para la estrategia de inversión, mediante un conjunto de decisiones de gestión de cartera, actividades de propiedad activa y exclusión de emisores asociados a conductas o actividades controvertidas. Más información en el informe de PIA de la entidad, disponible en:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=es&bl=PAM>

● **¿Se han ajustado las inversiones sostenibles a las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios rectores de las Naciones Unidas sobre las empresas y los derechos humanos?**

Para garantizar que la inversión sostenible no causara un perjuicio significativo a ningún objetivo de inversión sostenible, el fondo excluyó a las empresas con infracciones elevadas y graves de (i) los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos,

Las principales incidencias adversas
son las incidencias negativas más importantes de las decisiones de inversión sobre los factores de sostenibilidad en relación con asuntos medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

normas laborales, protección del medioambiente y lucha contra la corrupción o (ii) las Líneas Directrices de la OCDE para Empresas Multinacionales, incluidos los asuntos sociales y laborales graves.

La taxonomía de la UE establece el principio de «no causar un perjuicio significativo», según el cual las inversiones que se ajusten a la taxonomía no deben perjudicar significativamente a los objetivos de la taxonomía de la UE, e incluye criterios específicos de la Unión.

El principio de «no perjudicar de forma significativa» se aplica únicamente a las inversiones subyacentes del producto financiero que contemplan los criterios de la UE relativos a actividades económicas sostenibles desde una perspectiva medioambiental. Las inversiones subyacentes al resto del producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas medioambientalmente sostenibles.

Cualquier otra inversión sostenible tampoco debe perjudicar significativamente a ningún objetivo medioambiental o social.

¿Cómo tiene en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas que se consideran importantes para la estrategia de inversión. Entre las incidencias adversas se incluyeron, entre otras, las emisiones de gases de efecto invernadero (GEI), la contaminación atmosférica, la pérdida de biodiversidad, las emisiones al agua, los residuos peligrosos/radioactivos, las cuestiones sociales y laborales, y la corrupción y el soborno, que se abordaron mediante una combinación de:

(i) decisiones de gestión de carteras

El equipo de inversión puntuó las posiciones según una evaluación de los riesgos y oportunidades medioambientales, sociales y de gobernanza como parte del marco de puntuación del fondo. Las puntuaciones se determinan de forma cualitativa por los gestores de inversión, basándose en estudios fundamentales y datos cuantitativos ASG, incluidos los datos sobre el Principio de Impacto Negativo, los datos ASG facilitados por las empresas y los datos proporcionados por terceros proveedores de datos ASG. El proceso de puntuación del equipo de inversión fue un componente clave del proceso de construcción de la cartera del comportamiento, determinando las ponderaciones objetivo en la cartera.

(ii) voto por delegación

El fondo se atuvió a las directrices de voto de Pictet Asset Management, que están diseñadas para apoyar una cultura de gobierno corporativo sólida, una gestión eficaz de las cuestiones medioambientales y sociales, y la publicación de información exhaustiva de acuerdo con normas creíbles. Dichas directrices también pretenden apoyar a los órganos de gobierno mundiales reconocidos que promueven prácticas empresariales sostenibles que abogan por la gestión del medio ambiente, las prácticas laborales justas, la no discriminación y la protección de los derechos humanos. Todas las actividades de voto del fondo se registraron y pueden compartirse previa solicitud.

(iii) implicación

La interacción con los emisores se realizó mediante conversaciones individuales, reuniones de accionistas/bonistas, giras de inversores y/o conferencias telefónicas. Los objetivos de estas interacciones fueron evaluar una organización, supervisar que su estrategia se estaba aplicando conforme a nuestras expectativas y garantizar que los emisores iban camino de cumplir sus metas y objetivos.

Cuando corresponde, nos implicamos con las empresas en relación con cuestiones ASG importantes, como los objetivos de reducción de los GEI, las mejoras en la gobernanza y diversas controversias medioambientales, sociales y de gobernanza, para asegurarnos de que las entendieran y las abordaran eficazmente a corto, medio y largo plazo. Nuestras actividades de implicación combinaron debates dirigidos a nivel interno, iniciativas de colaboración con inversores institucionales y servicios de implicación externos.

(iv) exclusión de emisores asociados a conductas o actividades controvertidas

El fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se definen en la Política de Inversión responsable de la Pictet Asset Management y/o (ii) empresas que infringieron gravemente los principios del Pacto Mundial de la ONU sobre derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción y las armas controvertidas.

¿Cuáles han sido las inversiones principales de este producto financiero?

La lista incluye las inversiones que constituyen la **mayor parte de las inversiones** del producto financiero durante el período de referencia, que es: 01.10.2022 - 30.09.2023

| INVERSIONES DE MAYOR VOLUMEN | SECTOR | % DE ACTIVOS | PAÍS |
|------------------------------|------------------------------|--------------|----------------|
| THERMO FISHER SCIENTIFIC INC | Salud | 1,2 | Estados Unidos |
| VISA INC-CLASS A SHARES | Financiero | 1,0 | Estados Unidos |
| WASTE MANAGEMENT INC | Industria | 0,9 | Estados Unidos |
| COMPASS GROUP PLC | Consumo discrecional | 0,9 | Reino Unido |
| WASTE CONNECTIONS INC | Industria | 0,9 | Canadá |
| ECOLAB INC | Materiales | 0,9 | Estados Unidos |
| NXP SEMICONDUCTORS NV | Tecnología de la información | 0,9 | Países Bajos |
| SALESFORCE INC | Tecnología de la información | 0,8 | Estados Unidos |
| UNITEDHEALTH GROUP INC | Salud | 0,8 | Estados Unidos |
| SPLUNK INC | Tecnología de la información | 0,8 | Estados Unidos |
| REPUBLIC SERVICES INC | Industria | 0,8 | Estados Unidos |
| SYNOPSYS INC | Tecnología de la información | 0,8 | Estados Unidos |
| EQUINIX INC | Bienes inmobiliarios | 0,8 | Estados Unidos |
| BOOKING HOLDINGS INC | Consumo discrecional | 0,7 | Estados Unidos |
| NETFLIX INC | Servicios de comunicación | 0,7 | Estados Unidos |

Fuente: Pictet Asset Management, GICS/MSCI.

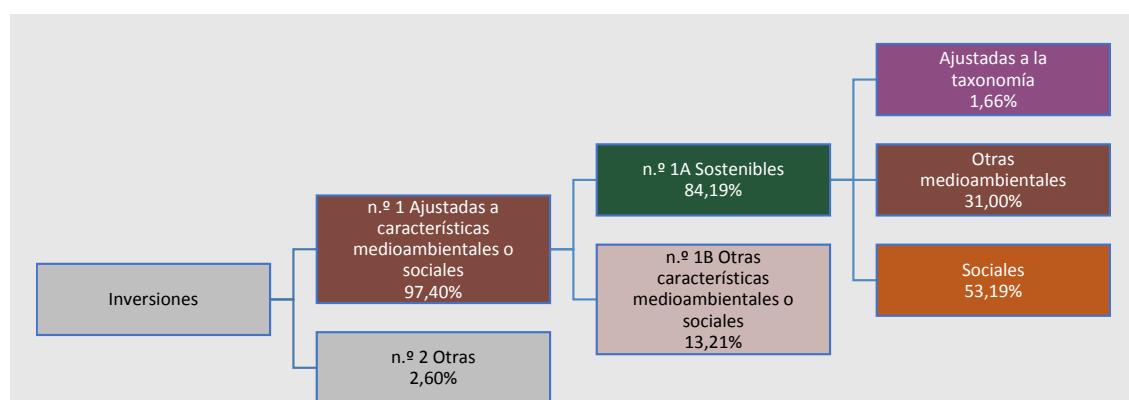

¿Cuál ha sido la proporción de inversiones relacionadas con la sostenibilidad?

84,19%

La asignación de activos describe el porcentaje de inversiones en activos específicos.

● ¿Cuál ha sido la asignación de activos?

El fondo se ajustó en un 97,40% con características medioambientales o sociales (n.º 1 Ajustadas a características medioambientales o sociales) y tuvo hasta un 2,60% invertido en la categoría Otras (n.º 2 Otras). El 84,19% se asignó a inversiones sostenibles (n.º 1A Sostenibles) y el resto se invirtió en inversiones ajustadas a otras características medioambientales o sociales (n.º 1B Otras características medioambientales o sociales).

n.º 1 Ajustadas a características medioambientales o sociales incluye las inversiones del producto financiero utilizadas para lograr las características medioambientales o sociales que promueve el producto financiero.

n.º 2 Otras incluye el resto de inversiones del producto financiero que ni se ajustan a las características medioambientales o sociales ni pueden considerarse inversiones sostenibles.

La categoría n.º 1 Ajustadas a características medioambientales o sociales abarca:

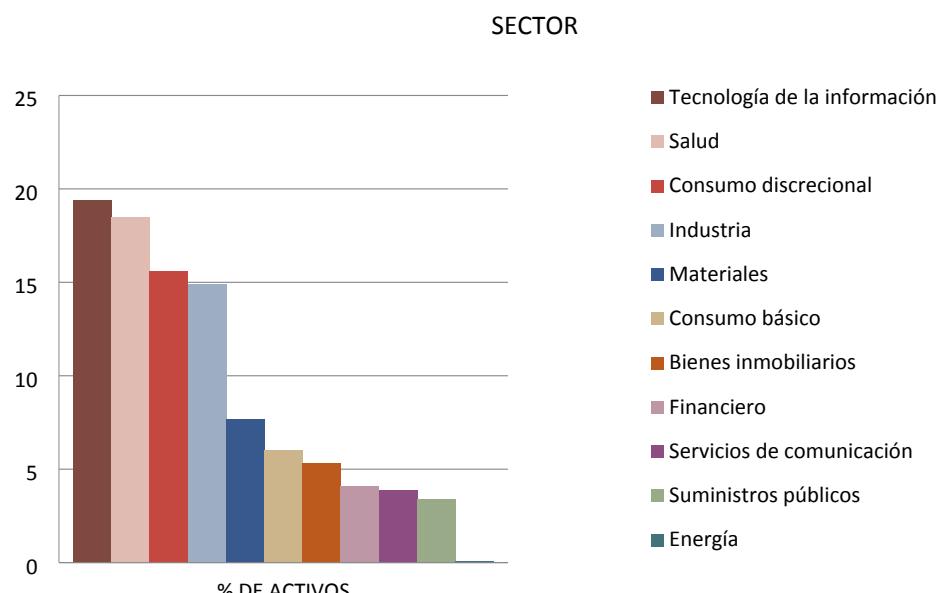

- la subcategoría n.º 1A Sostenibles, que abarca las inversiones sostenibles con objetivos medioambientales o sociales.
- la subcategoría n.º 1B Otras características medioambientales o sociales, que abarca inversiones ajustadas a las características medioambientales o sociales que no pueden considerarse inversiones sostenibles.

Notas:

- Las inversiones «n.º 1A Sostenibles», «Otras medioambientales» y «Sociales» se calcularon sobre una base de aprobado/suspenso. Incluyen bonos certificados (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.
- Las inversiones ajustadas a la taxonomía verde de la UE se calculan ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a la mitigación del cambio climático y la adaptación al mismo) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.
- A falta de una taxonomía social de la UE, Pictet ha desarrollado un marco de taxonomía social propio. El marco se basa en basado en el Informe sobre taxonomía social publicado por la Plataforma de Finanzas Sostenibles de la UE en 2022. Las actividades admisibles se definen como bienes y servicios beneficiosos desde el punto de vista social que contribuyen sustancialmente a uno de los tres objetivos sociales siguientes: (1) comunidades inclusivas y sostenibles, (2) nivel de vida adecuado y bienestar para los usuarios finales y (3) trabajo digno.

Fuente: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RB/CS.

● ¿En qué sectores económicos se han realizado las inversiones?

Fuente: Pictet Asset Management, GICS/MSCI.

Estamos evaluando la disponibilidad y la calidad de los datos que nos permitirían divulgar información más granular en futuros informes sobre los sectores y subsectores de la economía que obtienen ingresos a partir de la exploración, la minería, la extracción, la producción, el procesamiento, el almacenamiento, el refinado o la distribución, incluidos el transporte, el almacenamiento y el comercio, de combustibles fósiles, según se definen en el artículo 2, punto (62), del Reglamento (UE) 2018/1999 del Parlamento Europeo y del Consejo.

¿En qué medida se ajustaban las inversiones sostenibles con un objetivo medioambiental a la taxonomía de la UE?

El fondo realizó inversiones en actividades económicas que contribuyeron a los dos primeros objetivos medioambientales (mitigación del cambio climático y adaptación a este), según lo establecido en el artículo 9 del Reglamento (UE) 2020/852.

Las inversiones ajustadas a la taxonomía de la UE se calcularon ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a objetivos medioambientales relevantes) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.

Los datos de ajuste a la Taxonomía verde de la UE proceden de informes públicos. Los cálculos también pueden incluir estimaciones en un número limitado de casos en los que no se disponía de datos sobre la alineación con la Taxonomía verde de la UE. Las estimaciones se realizaron sobre la base del mejor esfuerzo y siguiendo un planteamiento conservador para obtener un resultado prudente.

Los procedimientos de control se han aplicado para verificar en todo momento el cumplimiento del artículo 3 del Reglamento sobre taxonomía de la UE.

Los datos facilitados no han sido verificados por un auditor externo ni revisados por un tercero independiente.

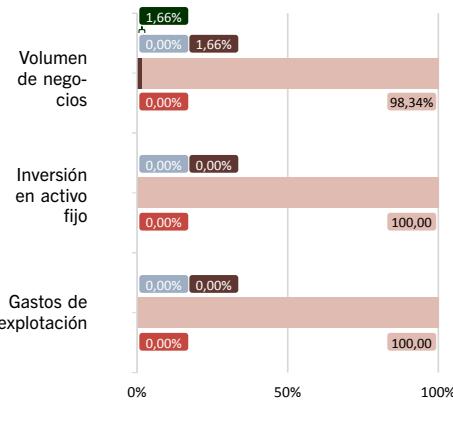

Para ajustarse a la taxonomía de la UE, los criterios correspondientes al **gas fósil** incluyen limitaciones de emisiones y el paso a la energía renovable o combustibles bajos en carbono de aquí al fin de 2035. Por lo que respecta a la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las actividades que se ajustan a la taxonomía se expresan como un porcentaje de:

- el **volumen de negocios**, que refleja el «carácter ecológico» de las empresas en las que se invierte en la actualidad;
- la **inversión en activo fijo**, que muestra las inversiones ecológicas realizadas por las empresas en las que se invierte, pertinentes para la transición a una economía verde;
- los **gastos de explotación**, que reflejan las actividades operativas ecológicas de las empresas en las que se invierte.

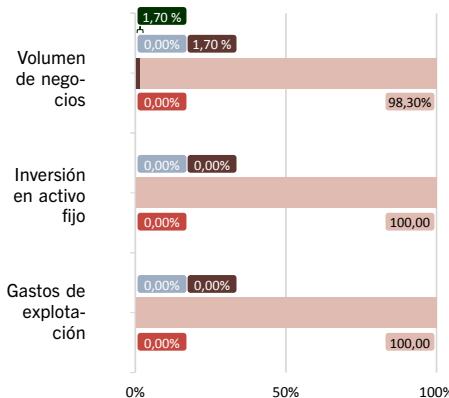

Los gráficos que figuran a continuación muestran en verde el porcentaje de inversiones que se ajustaban a la taxonomía de la UE. Dado que no existe una metodología adecuada para determinar la adaptación a la taxonomía de los bonos soberanos, el primer gráfico muestra la adaptación a la taxonomía correspondiente para todas las inversiones del producto financiero, incluidos los bonos soberanos, mientras que el segundo gráfico muestra la adaptación a la taxonomía solo en relación con las inversiones del producto financiero distintas de los bonos soberanos.*

1. Ajuste a la taxonomía de las inversiones incluidos los bonos soberanos*

- Ajustadas a la taxonomía: Gas fósil
- Ajustadas a la taxonomía: Energía nuclear
- Ajustadas a la taxonomía (ni gas fósil ni energía nuclear)
- No ajustadas a la taxonomía

2. Ajuste a la taxonomía de las inversiones excluidos los bonos soberanos*

- Ajustadas a la taxonomía: Gas fósil
- Ajustadas a la taxonomía: Energía nuclear
- Ajustadas a la taxonomía (ni gas fósil ni energía nuclear)
- No ajustadas a la taxonomía

Este gráfico representa el 97,4% de las inversiones totales.

* A efectos de estos gráficos, los «bonos soberanos» incluyen todas las exposiciones soberanas

¹ Las actividades relacionadas con el gas fósil o la energía nuclear solo cumplirán la taxonomía de la UE cuando contribuyan a limitar el cambio climático («mitigación del cambio climático») y no perjudiquen significativamente ningún objetivo de la taxonomía de la UE (véase la nota explicativa en el margen izquierdo). Los criterios completos correspondientes a las actividades económicas del gas fósil y la energía nuclear que se ajustan a la taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

Nota:

Utilizamos los ingresos como medida clave para establecer la asignación de objetivos y el ajuste real con la taxonomía de la UE debido a la disponibilidad limitada y a la falta de datos fiables para los gastos de explotación y la inversión en activo fijo.

Fuente: Pictet Asset Management.

● **¿Cuál ha sido la proporción de las inversiones realizadas en actividades de transición y facilitadoras?**

La proporción de inversiones realizadas en:

- Actividades de transición: No aplicable*
- Actividades de facilitadoras: No aplicable*

* La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permiten ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

● **¿Qué porcentaje de inversiones se han ajustado a la taxonomía de la UE en comparación con los períodos de referencia anteriores?**

No aplicable.

¿Cuál ha sido la proporción de inversiones sostenibles con un objetivo medioambiental no ajustadas a la taxonomía de la UE?

31,00%

Estas inversiones sostenibles no se ajustan a la Taxonomía de la UE porque sus actividades económicas o bien (i) no están cubiertas por la Taxonomía de la UE, o bien (ii) no cumplen los criterios técnicos de selección para lograr una contribución sustancial en el sentido de la Taxonomía de la UE.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta los criterios para las actividades económicas medioambientalmente sostenibles con arreglo al Reglamento (UE) 2020/852.

¿Cuál ha sido la proporción de inversiones socialmente sostenibles?

53,19%

¿Qué inversiones se han incluido en «otras» y cuál ha sido su propósito? ¿ha habido garantías medioambientales o sociales mínimas?

Las «otras» inversiones del fondo incluían posiciones de tesorería mantenidas principalmente para satisfacer los objetivos diarios de liquidez y gestión de riesgos permitidos y previstos por la política de inversión del fondo. Cuando sea preciso, se aplicarán salvaguardias medioambientales o sociales mínimas a los valores subyacentes.

¿Qué medidas se han adoptado para cumplir las características medioambientales o sociales durante el período de referencia?

Durante el periodo de referencia, se alcanzó el objetivo de inversión sostenible siguiendo la estrategia de inversión y respetando los elementos vinculantes.

Los elementos vinculantes del fondo son:

- al menos el 51% de las inversiones sostenibles, es decir, inversiones en empresas que tienen una exposición importante a actividades como los productos y servicios que apoyan la transición energética, la economía circular, la eficiencia energética, la calidad y el suministro del agua, los bosques sostenibles, las ciudades sostenibles, la alimentación, la salud y las terapias humanas, y la autorrealización y seguridad personal, y otras actividades económicas relevantes (según los ingresos, el valor de empresa, los beneficios antes de intereses e impuestos o similares)

- Exclusión de emisores que:
 - participan en la producción de armas controvertidas, incluidas minas antipersona, municiones de racimo, armas biológicas y químicas, armas nucleares y uranio empobrecido
 - obtienen una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, como la extracción de carbón térmico y la generación de electricidad, la exploración y producción no convencional de petróleo y gas, la producción de petróleo y gas convencional, la generación de energía nuclear, las armas convencionales y armas pequeñas, la contratación militar de armas y productos y servicios relacionados con las armas, la producción de tabaco, la producción de entretenimiento para adultos, las actividades del juego, el desarrollo y crecimiento de organismos modificados genéticamente, la producción y comercialización de pesticidas. Para más detalles sobre los umbrales de exclusión aplicables a las actividades anteriores, consulte la Política de Inversión responsable de Pictet Asset Management.
 - incumplen gravemente normas internacionales, incluidos los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción
- un perfil ASG mejor que el del índice de referencia
- análisis de criterios ASG de los valores admisibles que abarca al menos el 90% del patrimonio neto o el número de emisores incluidos en la cartera

Además, el fondo se implicó con 131 empresas a 30.09.2023.

¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

Los índices de referencia son índices para medir si el producto financiero logra las características medioambientales o sociales que promueve.

● ¿Cómo difería el índice de referencia de un índice general de mercado?

No aplicable.

● ¿Cómo se ha comportado este producto financiero con respecto a los indicadores de sostenibilidad para determinar la conformidad del índice de referencia con las características medioambientales o sociales que promueve?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice general de mercado?

No aplicable.

Nombre del producto: **Pictet - Global Environmental Opportunities**

Identificador de entidad jurídica: **549300NZP1SIONC13983**

OBJETIVO DE INVERSIÓN SOSTENIBLE

Inversión sostenible significa una inversión en una actividad económica que contribuye a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo a ningún objetivo medioambiental o social y que las empresas en las que se invierte sigan prácticas de buena gobernanza.

La **taxonomía de la UE** es un sistema de clasificación previsto en el Reglamento (UE) 2020/852 por el que se establece una lista de **actividades económicas medioambientalmente sostenibles**. Dicho Reglamento no prevé una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental pueden ajustarse, o no, a la taxonomía.

| ¿ESTE PRODUCTO FINANCIERO TENÍA UN OBJETIVO DE INVERSIÓN SOSTENIBLE? | |
|---|--|
| <input checked="" type="radio"/> Si | <input checked="" type="radio"/> No |
| <input checked="" type="checkbox"/> Ha realizado inversiones sostenibles con un objetivo medioambiental : 71,18% | <input type="checkbox"/> Promovió características medioambientales o sociales y, aunque no tenía como objetivo una inversión sostenible, tuvo un porcentaje del ___% de inversiones sostenibles <input type="checkbox"/> con un objetivo medioambiental en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE <input type="checkbox"/> con un objetivo medioambiental en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE <input type="checkbox"/> con un objetivo social |
| <input checked="" type="checkbox"/> Ha realizado inversiones sostenibles con un objetivo social : 26,53% | <input type="checkbox"/> Ha promovido características medioambientales o sociales , pero no ha realizado ninguna inversión sostenible |

Nota: Las inversiones sostenibles se calcularon sobre una base de aprobado/suspenso, incluyendo bonos con etiqueta (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% (medida por ingresos, EBIT, valor de empresa o indicadores similares) a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.

¿En qué grado se ha cumplido el objetivo de inversión sostenible de este producto financiero?

Principales maneras por las que el fondo logró su objetivo de sostenibilidad:

• Impacto positivo:

Este fondo trató de lograr un impacto medioambiental y/o social positivo, invirtiendo principalmente en empresas chinas con una huella medioambiental reducida que contribuyen a superar los desafíos medioambientales globales al ofrecer productos y servicios en la cadena de valor medioambiental. Dichos productos y servicios son necesarios para apoyar la transición hacia una economía con bajas emisiones de carbono, un modelo de economía circular, controlar y prevenir la contaminación o, por ejemplo, proteger los recursos escasos, como el agua.

No se ha designado ningún índice de referencia con el fin de lograr el objetivo de inversión sostenible.

El fondo invirtió principalmente en empresas cuyas actividades están relacionadas en gran medida con, entre otras cosas, la eficiencia energética, la energía renovable, el control de la contaminación, el suministro y la tecnología del agua, la gestión y el reciclaje de residuos, la agricultura y silvicultura sostenibles, la economía desmaterializada y otras actividades económicas relevantes.

Los valores admisibles incluyeron acciones emitidas por empresas con una proporción significativa de actividades (medida por ingresos, EBIT, valor de empresa o parámetros similares) derivadas de dichas actividades económicas.

- Exclusiones basadas en normas y valores:

El fondo excluyó los emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente o que incumplen de forma grave las normas internacionales, según se detalla a continuación:

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

| Actividad | Umbrales de ingresos |
|---|----------------------|
| Combustibles fósiles y energía nuclear | |
| Extracción de carbón térmico | > 25% |
| Generación de energía térmica de carbón | > 25% |
| Producción de petróleo y gas | > 25% |
| Extracción de arenas bituminosas | > 10% |
| Extracción de energía de esquisto | > 10% |
| Exploración de petróleo y gas en el Ártico | > 10% |
| Generación de energía nuclear | > 50% |
| Armas | |
| Producción de armas controvertidas[1] | > 0% |
| Armas de contratación militar | > 10% |
| Productos y/o servicios relacionados con armas de contratación militar | > 50% |
| Clientes civiles de armas pequeñas (armas de asalto) | > 10% |
| Clientes civiles de armas pequeñas (armas de no asalto) | > 10% |
| Clientes militares/de fuerzas del orden de armas pequeñas | > 25% |
| Componentes clave de armas pequeñas | > 25% |
| Otras actividades controvertidas | |
| Producción de entretenimiento para adultos | > 10% |
| Operaciones de juego | > 10% |
| Desarrollo de plantas y semillas modificadas genéticamente | > 25% |
| Cultivo de plantas y semillas modificadas genéticamente | > 25% |
| Producción de plaguicidas | > 10% |
| Venta al por menor de plaguicidas | > 10% |
| Producción de productos de tabaco | > 10% |
| Exclusiones de empresas por incumplimiento de normas internacionales | Excluidas |
| Empresas que incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción | Sí |
| Exclusiones de países | Excluidas |
| Países (i) incluidos en la lista de Estados patrocinadores del terrorismo, según la definición de la Oficina de Control de Activos Extranjeros de EE. UU.[2] o (ii) sujetos a sanciones financieras de la UE contra bancos centrales y/o empresas de propiedad estatal. | Sí |
| Países (i) clasificados como de muy alto o alto riesgo en el Índice de Estados Frágiles o (ii) afectados por conflictos violentos según la definición del Banco Mundial. | Sí |

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

Países (i) incluidos en la lista de «alerta» del Índice de Estados Frágiles o (ii) sujetos a sanciones relacionadas con la exportación por parte de la UE. Lista de vigilancia[3]

[1] Entre las armas controvertidas se encuentran las minas antipersona, las municiones de racimo, las armas biológicas y químicas (incluido el fósforo blanco) y las armas nucleares procedentes de países no firmantes del Tratado de No Proliferación de Armas Nucleares (TNP).

[2] «Estado patrocinador del terrorismo» es una designación aplicada por el Departamento de Estado de Estados Unidos a países que repetidamente han prestado apoyo a actos de terrorismo internacional.

[3] Además de las exclusiones estrictas, Pictet Asset Management mantiene una lista de vigilancia que incluye países que requieren una diligencia debida adicional por parte de los equipos de inversión antes de invertir.

Para más detalles, consulte la Política de Inversión responsable de Pictet Asset Management (Anexo B).

Además de las exclusiones mencionadas, basadas en la Política de Inversión responsable de Pictet Asset Management, la estrategia aplicó límites de exclusión más estrictos basados en directrices internas.

- Titularidad activa:

El fondo ejerció sus derechos de voto de forma metódica. El fondo también se implicó con la dirección de las empresas sobre cuestiones ASG importantes.

- Inversiones sostenibles:

Pictet Asset Management utilizó un marco propio, así como los objetivos de la Taxonomía de la UE, para definir las inversiones sostenibles.

El fondo invirtió en valores que financiaban actividades económicas que contribuyeron sustancialmente a objetivos medioambientales y/o sociales como:

Medioambientales

- mitigación del cambio climático o adaptación al mismo
- suso sostenible y protección de los recursos hídricos y marinos
- transición hacia una economía circular
- prevención y control de la contaminación o
- protección y recuperación de la biodiversidad y el ecosistema

Sociales

- comunidades inclusivas y sostenibles
- nivel de vida adecuado y bienestar para los usuarios finales o
- trabajo digno

● ¿Cómo se han comportado los indicadores de sostenibilidad?

Durante el periodo de información, los indicadores de sostenibilidad se comportaron según se indica a continuación:

- Exposición a empresas que obtienen una parte significativa de sus ingresos, EBIT, valor de empresa o parámetros similares de actividades económicas que contribuyen a los objetivos medioambientales o sociales, y bonos con etiqueta cuando sea relevante para la clase de activos (inversiones sostenibles):

97,71%

- Exposición a ingresos de actividades económicas que contribuyen a la mitigación del cambio climático y/o a la adaptación al mismo (inversiones ajustadas a la taxonomía de la UE):

3,08%

En el informe del próximo año se facilitará información adicional sobre objetivos medioambientales y/o sociales específicos.

- Perfil ASG global

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos.

Como resultado, el fondo ha conseguido un perfil medioambiental, social y de gobernanza (ASG) mejor que el del índice de referencia, tras eliminar el 20% inferior de emisores con las características ASG más bajas.

- Principal incidencia adversa (PIA)

Los indicadores de sostenibilidad miden cómo se logran los objetivos sostenibles de este producto financiero.

El fondo utiliza una combinación de enfoques para considerar y, en la medida de lo posible, mitigar las incidencias adversas materiales de sus inversiones en la sociedad y el medioambiente, como emisiones de GEI, contaminación atmosférica, pérdida de biodiversidad, emisiones al agua, residuos peligrosos/radioactivos, derechos humanos, normas laborales, corrupción y soborno, y salud pública.

El grado y la forma en que estas incidencias se tuvieron en cuenta dependieron de factores como el contexto específico de la inversión que provoca la incidencia adversa o la disponibilidad de datos fiables.

De conformidad con la política de exclusión de Pictet Asset Management descrita en la Política de Inversión responsable de la empresa (véase el cuadro anterior para consultar las actividades excluidas y los umbrales de exclusión aplicados), el fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se detalla a continuación:

Actividades controvertidas (media ponderada de ingresos de la empresa, en %)*:

| | Fondo (%) | Índice de referencia (%) |
|--|-----------|--------------------------|
| Combustibles fósiles y energía nuclear | 0,02 | 4,15 |
| Armas | 0,28 | 0,99 |
| Otras actividades controvertidas | 0,02 | 1,02 |
| No aplicable: | 0,54 | 0,00 |
| No cubierto: | 0,05 | 0,02 |

* Los combustibles fósiles y la energía nuclear incluyen la extracción de carbón térmico y la generación de electricidad, la producción y extracción de petróleo y gas, la extracción de energía de esquisto, la exploración de petróleo y gas en los mares del Ártico y la generación de energía nuclear. Las armas incluyen la contratación militar (servicios de armas y relacionadas con estas), clientes civiles de armas pequeñas (armas de asalto/no asalto), clientes militares/de las fuerzas y cuerpos de seguridad de armas pequeñas y componentes clave de pequeñas armas. Otras actividades controvertidas incluyen la producción de tabaco, la producción de entretenimiento para adultos, la explotación de juegos de azar, el desarrollo o crecimiento de organismos modificados genéticamente, la producción o venta al por menor de pesticidas. La exposición se basa en datos de terceros y puede no reflejar nuestro punto de vista interno. Pictet Asset Management tiene plena discreción sobre la aplicación de los criterios de exclusión y se reserva el derecho de apartarse de la información de terceros, según el caso, cuando se considere incorrecta o incompleta.

Fuente: Pictet Asset Management, Sustainalytics.

Además, el fondo excluyó a los emisores que tenían exposición a:

- (i) PIA 10: Incumplimientos de los principios del Pacto Mundial de las Naciones Unidas y las Directrices para Empresas Multinacionales de la Organización para la Cooperación y el Desarrollo Económicos (OCDE).
- (ii) PIA 14: Exposición a armas controvertidas (minas antipersonas, municiones en racimo, armas químicas y armas biológicas)

● Derechos de voto

Durante el periodo de referencia, el fondo votó en 43 juntas generales de 43 juntas en las que se podía votar (100,00%). Votamos «en contra» (incluidas «abstenciones» o «retenciones») en al menos una resolución en el 20,93% de las juntas.

De las 645 resoluciones de la dirección, votamos en contra de la dirección en 12 puntos (1,86%) y nos abstuvimos en 0 puntos (0,00%).

Apoyamos 4 (44,44%) resoluciones de accionistas de un total de 9 propuestas.

Por lo que respecta a las cuestiones medioambientales y/o sociales, votamos a favor de 1 de las 1 resoluciones de la dirección y a favor de 1 de las 3 resoluciones de accionistas.

Fuente: Pictet Asset Management, ISS ESG.

● Interacción

El fondo se implicó con 22 empresas sobre cuestiones ASG (datos a 30.09.2023). Esto incluye diálogos internos, iniciativas de colaboración entre inversores y servicios de implicación de terceros. Para que se considere implicación, el diálogo con una empresa objetivo debe tener un

objetivo claro y mensurable en un horizonte temporal predefinido. Es importante señalar que no todas las interacciones rutinarias o de supervisión, aunque impliquen a la alta dirección o al Consejo de administración, se consideran implicaciones en nuestra evaluación.

Fuente: Pictet Asset Management, Sustainalytics.

● **¿... y en comparación con períodos anteriores?**

Esta cuestión se abordará en futuros informes anuales debido a la falta de historial.

● **¿De qué manera las inversiones sostenibles no han causado un perjuicio significativo a ningún objetivo medioambiental o social?**

Para evitar que las inversiones sostenibles causen un perjuicio significativo a cualquier otro objetivo medioambiental o social, el fondo aplicó los siguientes criterios de selección sobre la base del mejor esfuerzo:

(i) Exclusiones de emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente (véase la descripción del marco de exclusión de IR).

(ii) Los emisores asociados a controversias elevadas y graves se excluyeron.

La información se obtuvo de proveedores terceros y/o de análisis interno. La información ASG de terceros proveedores de datos puede haber sido incompleta, inexacta o no estar disponible. Como consecuencia de ello, existía el riesgo de que el Gestor de inversiones evaluara incorrectamente un valor o emisor, dando lugar a la inclusión o exclusión incorrecta de un valor en el fondo. Los datos ASG incompletos, inexactos o no disponibles también pueden actuar como una limitación metodológica a una estrategia de inversión no financiera (como la aplicación de criterios ASG o similares). En los casos identificados, el Gestor de inversiones trató de mitigar este riesgo mediante su propia evaluación. En caso de que las características ASG de un valor mantenido por el fondo cambiaran, dando lugar a la venta del valor, el Gestor de inversiones no acepta responsabilidad alguna en relación con dicho cambio.

● **¿Cómo se han tenido en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?**

Pictet Asset Management realiza un seguimiento de todos los indicadores obligatorios de principales incidencias adversas (incluidos en el Anexo 1 del Reglamento Delegado (UE) 22 / 1288 de la Comisión) cuando disponemos de datos sólidos. Se espera que la calidad y la disponibilidad de los datos mejoren con el tiempo.

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas de sus inversiones en la sociedad y el medioambiente que se consideran importantes para la estrategia de inversión, mediante un conjunto de decisiones de gestión de cartera, actividades de propiedad activa y exclusión de emisores asociados a conductas o actividades controvertidas.

Más información en el informe de PIA de la entidad, disponible en:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=es&bl=PAM>

● **¿Se han ajustado las inversiones sostenibles a las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios rectores de las Naciones Unidas sobre las empresas y los derechos humanos?**

Para garantizar que la inversión sostenible no causara un perjuicio significativo a ningún objetivo de inversión sostenible, el fondo excluyó a las empresas con infracciones elevadas y graves de (i) los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción o (ii) las Líneas Directrices de la OCDE para Empresas Multinacionales, incluidos los asuntos sociales y laborales graves.

¿Cómo tiene en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas que se consideran importantes para la estrategia de inversión. Entre las incidencias adversas se incluyeron, entre otras, las emisiones de gases de efecto invernadero (GEI), la contaminación atmosférica, la pérdida de biodiversidad, las emisiones al agua, los residuos peligrosos/radioactivos, las cuestiones sociales y laborales, y la corrupción y el soborno, que se abordaron mediante una combinación de:

(i) decisiones de gestión de carteras

El equipo de inversión puntuó las posiciones según una evaluación de los riesgos y oportunidades medioambientales, sociales y de gobernanza, así como la exposición a inversiones sostenibles, como parte del marco de puntuación del fondo. Las puntuaciones se determinan de forma cualitativa por los gestores de inversión, basándose en estudios fundamentales y datos cuantitativos ASG, incluidos los datos sobre el Principio de Impacto Negativo, los datos ASG facilitados por las empresas y los datos proporcionados por terceros proveedores de datos ASG. El proceso de puntuación del equipo de inversión fue un componente clave del proceso de construcción de la cartera del compartimento, determinando las ponderaciones objetivo en la cartera.

(ii) voto por delegación

El fondo se atuvo a las directrices de voto de Pictet Asset Management, que están diseñadas para apoyar una cultura de gobierno corporativo sólida, una gestión eficaz de las cuestiones medioambientales y sociales, y la publicación de información exhaustiva de acuerdo con normas creíbles. Dichas directrices también pretenden apoyar a los órganos de gobierno mundiales reconocidos que promueven prácticas empresariales sostenibles que abogan por la gestión del medio ambiente, las prácticas laborales justas, la no discriminación y la protección de los derechos humanos. Todas las actividades de voto del fondo se registraron y pueden compartirse previa solicitud.

(iii) implicación

La interacción con los emisores se realizó mediante conversaciones individuales, reuniones de accionistas/bonistas, giras de inversores y/o conferencias telefónicas. Los objetivos de estas interacciones fueron evaluar una organización, supervisar que su estrategia se estaba aplicando conforme a nuestras expectativas y garantizar que los emisores iban camino de cumplir sus metas y objetivos.

Cuando correspondió, nos implicamos con los emisores para abordar preocupaciones importantes en materia de ASG, mejorar las prácticas de sostenibilidad de las empresas o implicarnos en temas de impacto positivo para asegurarnos de que las entendían plenamente y las abordaban eficazmente a corto, medio y largo plazo. Nuestras actividades de implicación combinaron debates dirigidos a nivel interno, iniciativas de colaboración con inversores institucionales y servicios de implicación externos.

(iv) exclusión de emisores asociados a conductas o actividades controvertidas

El fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se definen en la Política de Inversión responsable de la Pictet Asset Management y/o (ii) empresas que infringieron gravemente los principios del Pacto Mundial de la ONU sobre derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción y las armas controvertidas.

¿Cuáles han sido las inversiones principales de este producto financiero?

La lista incluye las inversiones que constituyen la mayor parte de las inversiones del producto financiero durante el período de referencia, que es: 01.10.2022 - 30.09.2023

| INVERSIONES DE MAYOR VOLUMEN | SECTOR | % DE ACTIVOS | PAÍS |
|------------------------------|------------------------------|--------------|----------------|
| AMERICAN WATER WORKS CO INC | Suministros públicos | 3,9 | Estados Unidos |
| REPUBLIC SERVICES INC | Industria | 3,7 | Estados Unidos |
| ANSYS INC | Tecnología de la información | 3,6 | Estados Unidos |
| EATON CORP PLC | Industria | 3,5 | Estados Unidos |
| SYNOPSYS INC | Tecnología de la información | 3,5 | Estados Unidos |
| AGILENT TECHNOLOGIES INC | Salud | 3,4 | Estados Unidos |
| THERMO FISHER SCIENTIFIC INC | Salud | 3,2 | Estados Unidos |
| CADENCE DESIGN SYS INC | Tecnología de la información | 3,2 | Estados Unidos |
| APPLIED MATERIALS INC | Tecnología de la información | 3,1 | Estados Unidos |
| TETRA TECH INC | Industria | 3,1 | Estados Unidos |
| AECOM | Industria | 3,0 | Estados Unidos |
| WASTE CONNECTIONS INC | Industria | 2,9 | Canadá |
| SCHNEIDER ELECTRIC SE | Industria | 2,9 | Francia |
| INFINEON TECHNOLOGIES AG | Tecnología de la información | 2,6 | Alemania |
| XYLEM INC | Industria | 2,6 | Estados Unidos |

Fuente: Pictet Asset Management, GICS/MSCI.

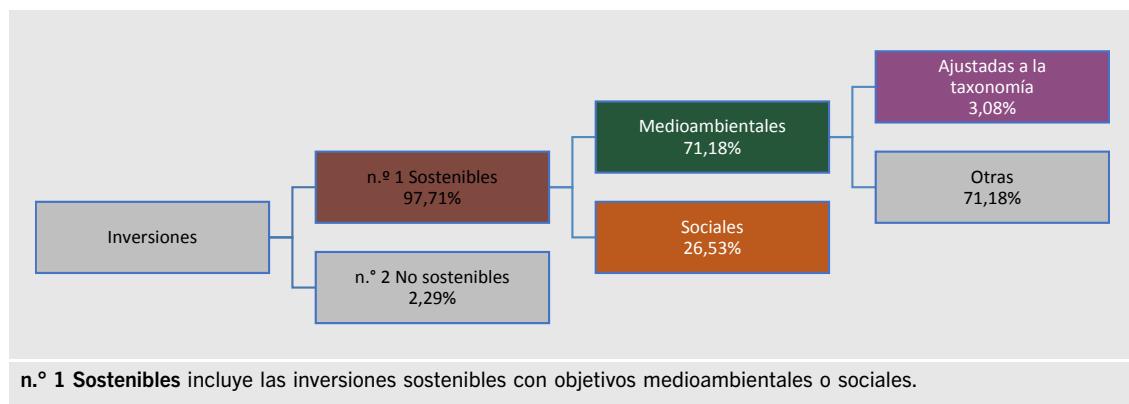

¿Cuál ha sido la proporción de inversiones relacionadas con la sostenibilidad?

97,71%

La asignación de activos describe el porcentaje de inversiones en activos específicos.

● ¿Cuál ha sido la asignación de activos?

El fondo asignó el 97,71% de sus activos a inversiones sostenibles (n.º 1 Sostenibles) y el 2,29% a Inversiones no sostenibles (n.º 2 No sostenibles). El 71,18% de sus activos se han asignado a objetivos medioambientales y el 26,53% a objetivos sociales.

n.º 1 Sostenibles incluye las inversiones sostenibles con objetivos medioambientales o sociales.

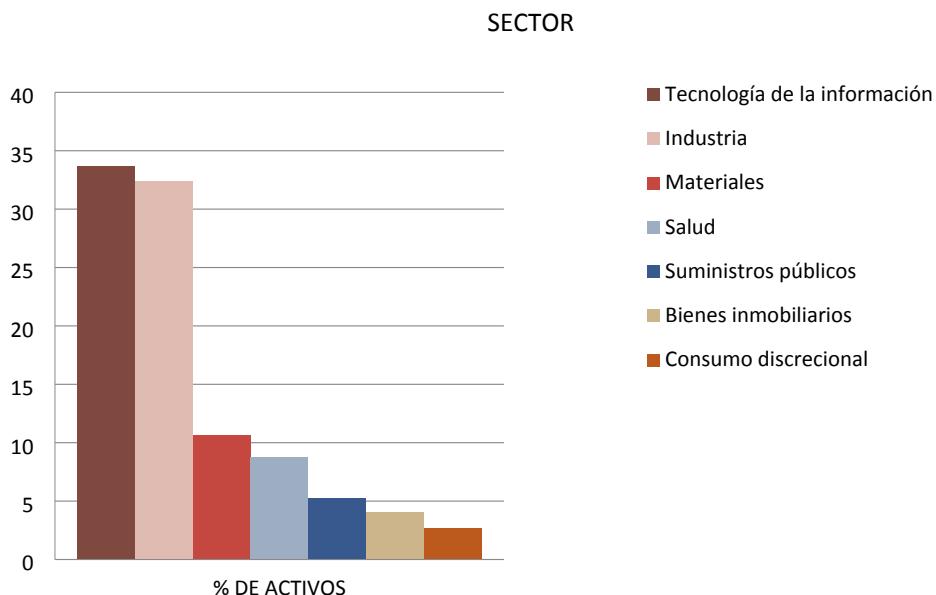

n.º 2 No sostenibles incluye las inversiones que no pueden considerarse

Notas:

- Las inversiones «n.º 1A Sostenibles», «Otras medioambientales» y «Sociales» se calcularon sobre una base de aprobado/suspenso. Incluyen bonos certificados (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.
- Las inversiones ajustadas a la taxonomía verde de la UE se calculan ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a la mitigación del cambio climático y la adaptación al mismo) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.
- A falta de una taxonomía social de la UE, Pictet ha desarrollado un marco de taxonomía social propio, basado en el Informe sobre taxonomía social publicado por la Plataforma de Finanzas Sostenibles de la UE en 2022. Las actividades admisibles se definen como bienes y servicios que contribuyen sustancialmente a uno de los tres objetivos siguientes: (1) comunidades inclusivas y sostenibles, (2) nivel de vida adecuado y bienestar para los usuarios finales y (3) trabajo digno.

Fuente: Pictet Asset Management, FTSE Green revenues, Factset RBICS.

● ¿En qué sectores económicos se han realizado las inversiones?

Fuente: Pictet Asset Management, GICS/MSCI.

Estamos evaluando la disponibilidad y la calidad de los datos que nos permitirían divulgar información más granular en futuros informes sobre los sectores y subsectores de la economía que obtienen ingresos a partir de la exploración, la minería, la extracción, la producción, el procesamiento, el almacenamiento, el refinado o la distribución, incluidos el transporte, el almacenamiento y el comercio, de combustibles fósiles, según se definen en el artículo 2, punto (62), del Reglamento (UE) 2018/1999 del Parlamento Europeo y del Consejo.

¿En qué medida se ajustaban las inversiones sostenibles con un objetivo medioambiental a la taxonomía de la UE?

El fondo realizó inversiones en actividades económicas que contribuyeron a los dos primeros objetivos medioambientales (mitigación del cambio climático y adaptación a este), según lo establecido en el artículo 9 del Reglamento (UE) 2020/852.

Las inversiones ajustadas a la taxonomía de la UE se calcularon ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a objetivos medioambientales relevantes) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.

Los datos de ajuste a la Taxonomía verde de la UE proceden de informes públicos. Los cálculos también pueden incluir estimaciones en un número limitado de casos en los que no se disponía de datos sobre la alineación con la Taxonomía verde de la UE. Las estimaciones se realizaron sobre la base del mejor esfuerzo y siguiendo un planteamiento conservador para obtener un resultado prudente.

Los procedimientos de control se han aplicado para verificar en todo momento el cumplimiento del artículo 3 del Reglamento sobre taxonomía de la UE.

Los datos facilitados no han sido verificados por un auditor externo ni revisados por un tercero independiente.

● ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil o la energía nuclear que cumplían con la taxonomía de la UE¹?

Sí:

En gas fósil En energía nuclear

No

La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permite ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

Para ajustarse a la taxonomía de la UE, los criterios correspondientes al **gas fósil** incluyen limitaciones de emisiones y el paso a la energía renovable o combustibles bajos en carbono de aquí al fin de 2035. Por lo que

¹ Las actividades relacionadas con el gas fósil o la energía nuclear solo cumplirán la taxonomía de la UE cuando contribuyan a limitar el cambio climático («mitigación del cambio climático») y no perjudiquen significativamente ningún objetivo de la taxonomía de la UE (véase la nota explicativa en el margen izquierdo). Los criterios completos correspondientes a las actividades económicas del gas fósil y la energía nuclear que se ajustan a la taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

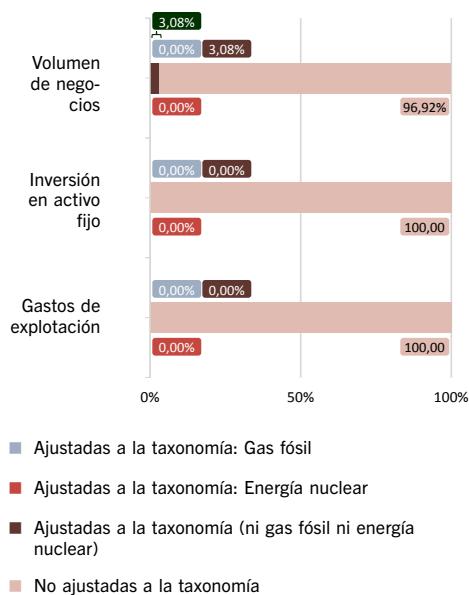

respecta a la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las actividades que se ajustan a la taxonomía se expresan como un porcentaje de:

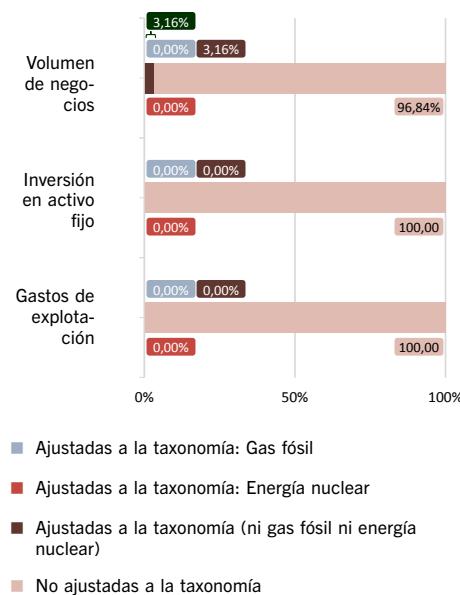

- **El volumen de negocios**, que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas en las que se invierte.
- **La inversión en activo fijo**, que muestra las inversiones ecológicas realizadas por las empresas en las que se invierte, por ejemplo, para la transición a una economía verde.
- **Los gastos de explotación**, que reflejan las actividades operativas ecológicas de las empresas en las que se invierte.

Los gráficos que figuran a continuación muestran en verde el porcentaje de inversiones que se ajustaban a la taxonomía de la UE. Dado que no existe una metodología adecuada para determinar la adaptación a la taxonomía de los bonos soberanos, el primer gráfico muestra la adaptación a la taxonomía correspondiente para todas las inversiones del producto financiero, incluidos los bonos soberanos, mientras que el segundo gráfico muestra la adaptación a la taxonomía solo en relación con las inversiones del producto financiero distintas de los bonos soberanos.*

1. Ajuste a la taxonomía de las inversiones incluidos los bonos soberanos*

2. Ajuste a la taxonomía de las inversiones excluidos los bonos soberanos*

Este gráfico representa el 97,72% de las inversiones totales.

* A efectos de estos gráficos, los «bonos soberanos» incluyen todas las exposiciones soberanas

Nota:

Utilizamos los ingresos como medida clave para establecer la asignación de objetivos y el ajuste real con la taxonomía de la UE debido a la disponibilidad limitada y a la falta de datos fiables para los gastos de explotación y la inversión en activo fijo.

Fuente: Pictet Asset Management.

● ¿Cuál ha sido la proporción de las inversiones realizadas en actividades de transición y facilitadoras?

La proporción de inversiones realizadas en:

- Actividades de transición: No aplicable*
- Actividades de facilitadoras: No aplicable*

* La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permiten ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

● ¿Qué porcentaje de inversiones se han ajustado a la taxonomía de la UE en comparación con los períodos de referencia anteriores?

No aplicable.

¿Cuál ha sido la proporción de inversiones sostenibles con un objetivo medioambiental no ajustadas a la taxonomía de la UE?

71,18%

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta los criterios para las actividades económicas medioambientalmente sostenibles con arreglo a la taxonomía de la UE.

Estas inversiones sostenibles no se ajustan a la Taxonomía de la UE porque sus actividades económicas o bien (i) no están cubiertas por la Taxonomía de la UE, o bien (ii) no cumplen los criterios técnicos de selección para lograr una contribución sustancial en el sentido de la Taxonomía de la UE.

¿Cuál ha sido la proporción de inversiones socialmente sostenibles?

26,53%

¿Qué inversiones se han incluido en «No sostenibles» y cuál ha sido su propósito? ¿Ha habido garantías medioambientales o sociales mínimas?

Las «otras» inversiones del fondo incluían posiciones de tesorería mantenidas principalmente para satisfacer los objetivos diarios de liquidez y gestión de riesgos permitidos y previstos por la política de inversión del fondo. Cuando sea preciso, se aplicarán salvaguardias medioambientales o sociales mínimas a los valores subyacentes.

¿Qué medidas se han adoptado para lograr el objetivo de inversión sostenible durante el período de referencia?

Durante el periodo de referencia, se alcanzó el objetivo de inversión sostenible siguiendo la estrategia de inversión y respetando los elementos vinculantes.

Los elementos vinculantes del fondo son:

- al menos el 80% de las inversiones sostenibles, es decir, inversiones en empresas que tienen una exposición importante a actividades que ofrecen soluciones a los desafíos medioambientales como la eficiencia energética, la energía renovable, el control de la contaminación, el suministro y la tecnología del agua, la gestión y el reciclaje de los residuos, la agricultura y silvicultura sostenibles, y otras actividades económicas relevantes (según los ingresos, el valor de empresa, los beneficios antes de intereses e impuestos o similares)
- Exclusión de emisores que:
 - participan en la producción de armas controvertidas, incluidas minas antipersona, municiones de racimo, armas biológicas y químicas, armas nucleares y uranio empobrecido
 - obtienen una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, como la extracción de carbón térmico y la generación de electricidad, la exploración y producción no convencional de petróleo y gas, la producción de petróleo y gas convencional, la generación de energía nuclear, las armas convencionales y armas pequeñas, la contratación militar de armas y productos y servicios relacionados con las armas, la producción de tabaco, la producción de entretenimiento para adultos, las actividades del juego, el desarrollo y crecimiento de organismos modificados genéticamente, la producción y comercialización de pesticidas. Para más detalles sobre los umbrales de exclusión aplicables a las actividades anteriores, consulte la Política de Inversión responsable de Pictet Asset Management.
 - incumplen gravemente normas internacionales, incluidos los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción
- un perfil ASG mejor que el del índice de referencia, tras eliminar el 20% inferior de emisores con las características ASG más bajas
- análisis de criterios ASG de los valores admisibles que abarca al menos el 90% del patrimonio neto o el número de emisores incluidos en la cartera

Además, el fondo se implicó con 22 empresas a 30.09.2023.

¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No se ha designado ningún índice de referencia con el fin de lograr el objetivo de inversión sostenible.

Los índices de referencia de sostenibilidad son índices que miden si el producto financiero logra el objetivo de sostenibilidad.

● ¿Cómo difería el índice de referencia de un índice general de mercado?

No aplicable.

● ¿Cómo se ha comportado este producto financiero con respecto a los indicadores de sostenibilidad para determinar la conformidad del índice de referencia con las características medioambientales o sociales que promueve?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice general de mercado?

No aplicable.

Plantilla de información periódica de los productos financieros a que se refiere el artículo 8, apartados 1, 2 y 2 bis, del Reglamento (UE) 2019/2088 y el artículo 6, párrafo primero, del Reglamento (UE) 2020/852

Nombre del producto: **Pictet - SmartCity**

Identificador de entidad jurídica: **549300H4DRA43I4QJI74**

CARACTERÍSTICAS MEDIOAMBIENTALES O SOCIALES

Inversión sostenible
significa una inversión en una actividad económica que contribuye a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo a ningún objetivo medioambiental o social y que las empresas en las que se invierte sigan prácticas de buena gobernanza.

La **taxonomía de la UE** es un sistema de clasificación previsto en el Reglamento (UE) 2020/852 por el que se establece una lista de **actividades económicas medioambientalmente sostenibles**. Dicho Reglamento no prevé una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental pueden ajustarse, o no, a la taxonomía.

| ¿ESTE PRODUCTO FINANCIERO TENÍA UN OBJETIVO DE INVERSIÓN SOSTENIBLE? | | | |
|--|--|-------------------------------------|--|
| <input checked="" type="radio"/> Si | | <input checked="" type="radio"/> No | |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo medioambiental: ____% | <input checked="" type="checkbox"/> | Promovió características medioambientales o sociales y, aunque no tenía como objetivo una inversión sostenible, tuvo un porcentaje del 99,28% de inversiones sostenibles |
| <input type="checkbox"/> | en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> | con un objetivo medioambiental en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> | en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> | con un objetivo medioambiental en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo social: ____% | <input type="checkbox"/> | con un objetivo social |
| <input type="checkbox"/> | | <input type="checkbox"/> | Ha promovido características medioambientales o sociales, pero no ha realizado ninguna inversión sostenible |

Nota: Las inversiones sostenibles se calcularon sobre una base de aprobado/suspenso, incluyendo bonos con etiqueta (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% (medida por ingresos, EBIT, valor de empresa o indicadores similares) a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.

¿En qué grado se han cumplido las características medioambientales o sociales que promueve este producto financiero?

Las características medioambientales y sociales de este producto financiero se promovieron utilizando:

- Impacto positivo:

El fondo logró un impacto medioambiental y/o social positivo, invirtiendo principalmente en empresas que ofrecen soluciones más inteligentes a los desafíos del proceso de urbanización y la mejora de la calidad de vida de los habitantes de las ciudades, especialmente en los ámbitos del medioambiente, la seguridad, la salud, la educación, el empleo, la comunidad o la movilidad.

El fondo invirtió principalmente en empresas cuyas actividades están relacionadas en gran medida con, entre otras cosas, la movilidad y el transporte, las infraestructuras, los bienes inmobiliarios, la gestión de los recursos sostenibles (como la eficiencia energética o la gestión de residuos) así como las tecnologías y servicios instrumentales que contribuyen al desarrollo de ciudades inteligentes y sostenibles, y otras actividades económicas relevantes.

No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

- Exclusiones basadas en normas y valores:

El fondo excluyó los emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente o que incumplen de forma grave las normas internacionales, según se detalla a continuación:

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

| Actividad | Umbrales de ingresos |
|---|----------------------|
| Combustibles fósiles y energía nuclear | |
| Extracción de carbón térmico | > 25% |
| Generación de energía térmica de carbón | > 25% |
| Producción de petróleo y gas | > 25% |
| Extracción de arenas bituminosas | > 10% |
| Extracción de energía de esquisto | > 10% |
| Exploración de petróleo y gas en el Ártico | > 10% |
| Generación de energía nuclear | > 50% |
| Armas | |
| Producción de armas controvertidas[1] | > 0% |
| Armas de contratación militar | > 10% |
| Productos y/o servicios relacionados con armas de contratación militar | > 50% |
| Clientes civiles de armas pequeñas (armas de asalto) | > 10% |
| Clientes civiles de armas pequeñas (armas de no asalto) | > 10% |
| Clientes militares/de fuerzas del orden de armas pequeñas | > 25% |
| Componentes clave de armas pequeñas | > 25% |
| Otras actividades controvertidas | |
| Producción de entretenimiento para adultos | > 10% |
| Operaciones de juego | > 10% |
| Desarrollo de plantas y semillas modificadas genéticamente | > 25% |
| Cultivo de plantas y semillas modificadas genéticamente | > 25% |
| Producción de plaguicidas | > 10% |
| Venta al por menor de plaguicidas | > 10% |
| Producción de productos de tabaco | > 10% |
| Exclusiones de empresas por incumplimiento de normas internacionales | Excluidas |
| Empresas que incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción | Sí |
| Exclusiones de países | Excluidas |
| Países (i) incluidos en la lista de Estados patrocinadores del terrorismo, según la definición de la Oficina de Control de Activos Extranjeros de EE. UU.[2] o (ii) sujetos a sanciones financieras de la UE contra bancos centrales y/o empresas de propiedad estatal. | Sí |
| Países (i) clasificados como de muy alto o alto riesgo en el Índice de Estados Frágiles o (ii) afectados por conflictos violentos según la definición del Banco Mundial. | Sí |

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

Países (i) incluidos en la lista de «alerta» del Índice de Estados Frágiles o (ii) sujetos a sanciones relacionadas con la exportación por parte de la UE. Lista de vigilancia[3]

[1] Entre las armas controvertidas se encuentran las minas antipersona, las municiones de racimo, las armas biológicas y químicas (incluido el fósforo blanco) y las armas nucleares procedentes de países no firmantes del Tratado de No Proliferación de Armas Nucleares (TNP).

[2] «Estado patrocinador del terrorismo» es una designación aplicada por el Departamento de Estado de Estados Unidos a países que repetidamente han prestado apoyo a actos de terrorismo internacional.

[3] Además de las exclusiones estrictas, Pictet Asset Management mantiene una lista de vigilancia que incluye países que requieren una diligencia debida adicional por parte de los equipos de inversión antes de invertir.

Para más detalles, consulte la Política de Inversión responsable de Pictet Asset Management (Anexo B).

Además de las exclusiones mencionadas, basadas en la Política de Inversión responsable de Pictet Asset Management, la estrategia aplicó límites de exclusión más estrictos basados en directrices internas.

- Titularidad activa:

El fondo ejerció de forma metódica sus derechos de voto y se implicó con la dirección de las empresas sobre cuestiones ASG importantes.

● ¿Cómo se han comportado los indicadores de sostenibilidad?

Durante el periodo de información, los indicadores de sostenibilidad se comportaron según se indica a continuación:

- Exposición a empresas que obtienen una parte significativa de sus ingresos, EBIT, valor de empresa o parámetros similares de actividades económicas que contribuyen a los objetivos medioambientales o sociales, y bonos con etiqueta cuando sea relevante para la clase de activos (inversiones sostenibles):

99,28%

- Exposición a ingresos de actividades económicas que contribuyen a la mitigación del cambio climático y/o a la adaptación al mismo (inversiones ajustadas a la taxonomía de la UE):

3,68%

En el informe del próximo año se facilitará información adicional sobre objetivos medioambientales y/o sociales específicos.

- Perfil ASG global

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos.

Como resultado, el fondo ha conseguido un perfil ambiental, social y de gobernanza (ASG) mejor que el del índice de referencia.

- Principal incidencia adversa (PIA)

El fondo utiliza una combinación de enfoques para considerar y, en la medida de lo posible, mitigar las incidencias adversas materiales de nuestras inversiones en la sociedad y el medioambiente, como emisiones de GEI, contaminación atmosférica, pérdida de biodiversidad, emisiones al agua, residuos peligrosos/radioactivos, derechos humanos, normas laborales, corrupción y soborno, y salud pública.

El grado y la forma en que estas incidencias se tuvieron en cuenta dependieron de factores como el contexto específico de la inversión que provoca la incidencia adversa o la disponibilidad de datos fiables.

Los indicadores de sostenibilidad miden cómo se alcanzan las características medioambientales o sociales que promueve el producto financiero.

De conformidad con la política de exclusión de Pictet Asset Management descrita en la Política de Inversión responsable de la empresa (véase el cuadro anterior para consultar las actividades excluidas y los umbrales de exclusión aplicados), el fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente:

Actividades controvertidas (media ponderada de ingresos de la empresa, en %)*:

| | Fondo (%) | Índice de referencia (%) |
|--|-----------|--------------------------|
| Combustibles fósiles y energía nuclear | 0,00 | 4,15 |
| Armas | 0,06 | 0,99 |
| Otras actividades controvertidas | 0,00 | 1,02 |
| No aplicable: | 0,24 | 0,00 |
| No cubierto: | 1,37 | 0,02 |

* Los combustibles fósiles y la energía nuclear incluyen la extracción de carbón térmico y la generación de electricidad, la producción y extracción de petróleo y gas, la extracción de energía de esquisto, la exploración de petróleo y gas en los mares del Ártico y la generación de energía nuclear. Las armas incluyen la contratación militar (servicios de armas y relacionadas con estas), clientes civiles de armas pequeñas (armas de asalto/no asalto), clientes militares/de las fuerzas y cuerpos de seguridad de armas pequeñas y componentes clave de pequeñas armas. Otras actividades controvertidas incluyen la producción de tabaco, la producción de entretenimiento para adultos, la explotación de juegos de azar, el desarrollo o crecimiento de organismos modificados genéticamente, la producción o venta al por menor de pesticidas. La exposición se basa en datos de terceros y puede no reflejar nuestro punto de vista interno. Pictet Asset Management tiene plena discreción sobre la aplicación de los criterios de exclusión y se reserva el derecho de apartarse de la información de terceros, según el caso, cuando se considere incorrecta o incompleta.

Fuente: Pictet Asset Management, Sustainalytics.

Además, el fondo excluyó a los emisores que tenían exposición a:

- (i) PIA 10: Incumplimientos de los principios del Pacto Mundial de las Naciones Unidas y las Directrices para Empresas Multinacionales de la Organización para la Cooperación y el Desarrollo Económicos (OCDE).
- (ii) PIA 14: Exposición a armas controvertidas (minas antipersonas, municiones en racimo, armas químicas y armas biológicas)

● Derechos de voto

Durante el periodo de referencia, el fondo votó en 54 juntas generales de 54 juntas en las que se podía votar (100,00%). Votamos «en contra» (incluidas «abstenciones» o «retenciones») en al menos una resolución en el 42,59% de las juntas.

De las 684 resoluciones de la dirección, votamos en contra de la dirección en 36 puntos (5,26%) y nos abstuvimos en 11 puntos (1,61%).

Apoyamos 13 (59,09%) resoluciones de accionistas de un total de 22 propuestas.

Por lo que respecta a las cuestiones medioambientales y/o sociales, votamos a favor de 4 de las 4 resoluciones de la dirección y a favor de 6 de las 12 resoluciones de accionistas.

Fuente: Pictet Asset Management, ISS ESG.

● Interacción

El fondo se implicó con 11 empresas sobre cuestiones ASG (datos a 30.09.2023). Esto incluye diálogos internos, iniciativas de colaboración entre inversores y servicios de implicación de terceros. Para que se considere implicación, el diálogo con una empresa objetivo debe tener un objetivo claro y mensurable en un horizonte temporal predefinido. Es importante señalar que no todas las interacciones rutinarias o de supervisión, aunque impliquen a la alta dirección o al Consejo de administración, se consideran implicaciones en nuestra evaluación.

Fuente: Pictet Asset Management, Sustainalytics.

● ¿... y en comparación con períodos anteriores?

Esta cuestión se abordará en futuros informes anuales debido a la falta de historial.

● **¿Cuáles han sido los objetivos de las inversiones sostenibles que ha realizado en parte el producto financiero y de qué forma ha contribuido la inversión sostenible a dichos objetivos?**

Pictet Asset Management utilizó marcos de referencia propios, así como los objetivos de la Taxonomía de la UE, para definir las inversiones sostenibles.

El fondo invirtió en valores que financiaban actividades económicas que contribuyeron sustancialmente a objetivos medioambientales y/o sociales como:

Medioambientales

- mitigación del cambio climático o adaptación al mismo
- uso sostenible y protección de los recursos hídricos y marinos
- transición hacia una economía circular
- prevención y control de la contaminación o
- protección y recuperación de la biodiversidad y los ecosistemas

Sociales

- comunidades inclusivas y sostenibles
- nivel de vida adecuado y bienestar para los usuarios finales o
- trabajo digno

● **¿De qué manera las inversiones sostenibles que el producto financiero ha realizado en parte, no han causado un perjuicio significativo a ningún objetivo de inversión sostenible medioambiental o social?**

Para evitar que las inversiones sostenibles causen un perjuicio significativo a cualquier otro objetivo medioambiental o social, el fondo aplicó los siguientes criterios de selección sobre la base del mejor esfuerzo:

(i) Exclusiones de emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente (véase la descripción del marco de exclusión de IR).

(ii) Los emisores asociados a controversias elevadas y graves no se contabilizaron como inversiones sostenibles.

La información se obtuvo de proveedores terceros y/o de análisis interno. La información ASG de terceros proveedores de datos puede haber sido incompleta, inexacta o no estar disponible. Como consecuencia de ello, existía el riesgo de que el Gestor de inversiones evaluara incorrectamente un valor o emisor, dando lugar a la inclusión o exclusión incorrecta de un valor en el fondo. Los datos ASG incompletos, inexactos o no disponibles también pueden actuar como una limitación metodológica a una estrategia de inversión no financiera (como la aplicación de criterios ASG o similares). En los casos identificados, el Gestor de inversiones trató de mitigar este riesgo mediante su propia evaluación. En caso de que las características ASG de un valor mantenido por el fondo cambiaran, dando lugar a la venta del valor, el Gestor de inversiones no acepta responsabilidad alguna en relación con dicho cambio.

● **¿Cómo se han tenido en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?**

Pictet Asset Management realiza un seguimiento de todos los indicadores obligatorios de principales incidencias adversas (incluidos en el Anexo 1 del Reglamento Delegado (UE) 22 / 1288 de la Comisión) cuando disponemos de datos sólidos. Se espera que la calidad de los datos disponibles mejore con el tiempo.

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas de sus inversiones en la sociedad y el medioambiente que se consideran importantes para la estrategia de inversión, mediante un conjunto de decisiones de gestión de cartera, actividades de propiedad activa y exclusión de emisores asociados a conductas o actividades controvertidas. Más información en el informe de PIA de la entidad, disponible en:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=es&bl=PAM>

● **¿Se han ajustado las inversiones sostenibles a las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios rectores de las Naciones Unidas sobre las empresas y los derechos humanos?**

Para garantizar que la inversión sostenible no causara un perjuicio significativo a ningún objetivo de inversión sostenible, el fondo excluyó a las empresas con infracciones elevadas y graves de (i) los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos,

Las principales incidencias adversas
son las incidencias negativas más importantes de las decisiones de inversión sobre los factores de sostenibilidad en relación con asuntos medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

normas laborales, protección del medioambiente y lucha contra la corrupción o (ii) las Líneas Directrices de la OCDE para Empresas Multinacionales, incluidos los asuntos sociales y laborales graves.

La taxonomía de la UE establece el principio de «no causar un perjuicio significativo», según el cual las inversiones que se ajusten a la taxonomía no deben perjudicar significativamente a los objetivos de la taxonomía de la UE, e incluye criterios específicos de la Unión.

El principio de «no perjudicar de forma significativa» se aplica únicamente a las inversiones subyacentes del producto financiero que contemplan los criterios de la UE relativos a actividades económicas sostenibles desde una perspectiva medioambiental. Las inversiones subyacentes al resto del producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas medioambientalmente sostenibles.

Cualquier otra inversión sostenible tampoco debe perjudicar significativamente a ningún objetivo medioambiental o social.

¿Cómo tiene en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas que se consideran importantes para la estrategia de inversión. Entre las incidencias adversas se incluyeron, entre otras, las emisiones de gases de efecto invernadero (GEI), la contaminación atmosférica, la pérdida de biodiversidad, las emisiones al agua, los residuos peligrosos/radioactivos, las cuestiones sociales y laborales, y la corrupción y el soborno, que se abordaron mediante una combinación de:

(i) decisiones de gestión de carteras

El equipo de inversión puntuó las posiciones según una evaluación de los riesgos y oportunidades medioambientales, sociales y de gobernanza como parte del marco de puntuación del fondo. Las puntuaciones se determinan de forma cualitativa por los gestores de inversión, basándose en estudios fundamentales y datos cuantitativos ASG, incluidos los datos sobre el Principio de Impacto Negativo, los datos ASG facilitados por las empresas y los datos proporcionados por terceros proveedores de datos ASG. El proceso de puntuación del equipo de inversión fue un componente clave del proceso de construcción de la cartera del comportamiento, determinando las ponderaciones objetivo en la cartera.

(ii) voto por delegación

El fondo se atuvió a las directrices de voto de Pictet Asset Management, que están diseñadas para apoyar una cultura de gobierno corporativo sólida, una gestión eficaz de las cuestiones medioambientales y sociales, y la publicación de información exhaustiva de acuerdo con normas creíbles. Dichas directrices también pretenden apoyar a los órganos de gobierno mundiales reconocidos que promueven prácticas empresariales sostenibles que abogan por la gestión del medio ambiente, las prácticas laborales justas, la no discriminación y la protección de los derechos humanos. Todas las actividades de voto del fondo se registraron y pueden compartirse previa solicitud.

(iii) implicación

La interacción con los emisores se realizó mediante conversaciones individuales, reuniones de accionistas/bonistas, giras de inversores y/o conferencias telefónicas. Los objetivos de estas interacciones fueron evaluar una organización, supervisar que su estrategia se estaba aplicando conforme a nuestras expectativas y garantizar que los emisores iban camino de cumplir sus metas y objetivos.

Cuando corresponde, nos implicamos con las empresas en relación con cuestiones ASG importantes, como los objetivos de reducción de los GEI, las mejoras en la gobernanza y diversas controversias medioambientales, sociales y de gobernanza, para asegurarnos de que las entendieran y las abordaran eficazmente a corto, medio y largo plazo. Nuestras actividades de implicación combinaron debates dirigidos a nivel interno, iniciativas de colaboración con inversores institucionales y servicios de implicación externos.

(iv) exclusión de emisores asociados a conductas o actividades controvertidas

El fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se definen en la Política de Inversión responsable de la Pictet Asset Management y/o (ii) empresas que infringieron gravemente los principios del Pacto Mundial de la ONU sobre derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción y las armas controvertidas.

¿Cuáles han sido las inversiones principales de este producto financiero?

La lista incluye las inversiones que constituyen la **mayor parte de las inversiones** del producto financiero durante el período de referencia, que es: 01.10.2022 - 30.09.2023

| INVERSIONES DE MAYOR VOLUMEN | SECTOR | % DE ACTIVOS | PAÍS |
|------------------------------|------------------------------|--------------|----------------|
| VISA INC-CLASS A SHARES | Financiero | 4,6 | Estados Unidos |
| PROLOGIS INC | Bienes inmobiliarios | 4,5 | Estados Unidos |
| SCHNEIDER ELECTRIC SE | Industria | 4,4 | Francia |
| MASTERCARD INC - A | Financiero | 4,0 | Estados Unidos |
| CISCO SYSTEMS INC | Tecnología de la información | 4,0 | Estados Unidos |
| LOWE'S COS INC | Consumo discrecional | 3,7 | Estados Unidos |
| EQUINIX INC | Bienes inmobiliarios | 3,6 | Estados Unidos |
| WASTE MANAGEMENT INC | Industria | 3,5 | Estados Unidos |
| SEGRO PLC | Bienes inmobiliarios | 3,4 | Reino Unido |
| AUTODESK INC | Tecnología de la información | 3,3 | Estados Unidos |
| HOME DEPOT INC | Consumo discrecional | 3,2 | Estados Unidos |
| CROWN CASTLE INTL CORP | Bienes inmobiliarios | 3,1 | Estados Unidos |
| WASTE CONNECTIONS INC | Industria | 3,1 | Canadá |
| OTIS WORLDWIDE CORP | Industria | 3,1 | Estados Unidos |

Fuente: Pictet Asset Management, GICS/MSCI.

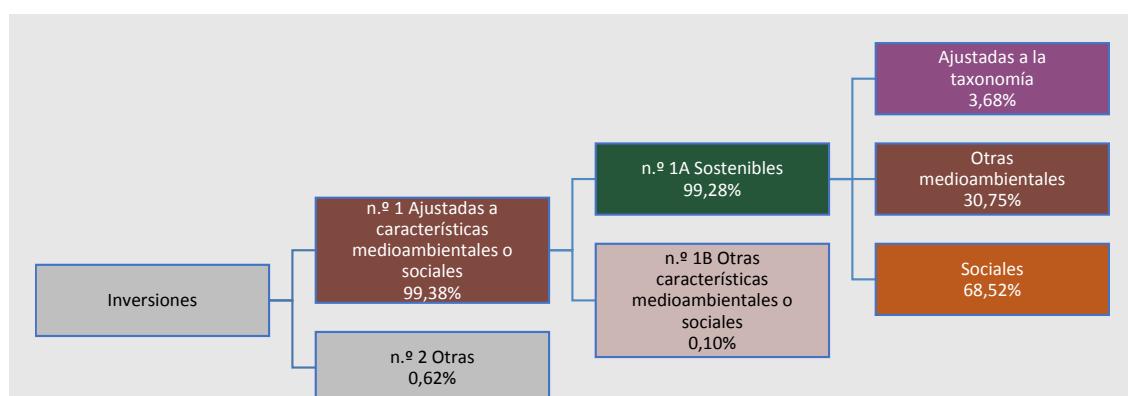

¿Cuál ha sido la proporción de inversiones relacionadas con la sostenibilidad?

99,28%

La asignación de activos describe el porcentaje de inversiones en activos específicos.

● ¿Cuál ha sido la asignación de activos?

El fondo se ajustó en un 99,38% con características medioambientales o sociales (n.º 1 Ajustadas a características medioambientales o sociales) y tuvo hasta un 0,62% invertido en la categoría Otras (n.º 2 Otras). El 99,28% se asignó a inversiones sostenibles (n.º 1A Sostenibles) y el resto se invirtió en inversiones ajustadas a otras características medioambientales o sociales (n.º 1B Otras características medioambientales o sociales).

n.º 1 Ajustadas a características medioambientales o sociales incluye las inversiones del producto financiero utilizadas para lograr las características medioambientales o sociales que promueve el producto financiero.

n.º 2 Otras incluye el resto de inversiones del producto financiero que ni se ajustan a las características medioambientales o sociales ni pueden considerarse inversiones sostenibles.

La categoría **n.º 1 Ajustadas a características medioambientales o sociales** abarca:

- la subcategoría **n.º 1A Sostenibles**, que abarca las inversiones sostenibles con objetivos medioambientales o sociales.

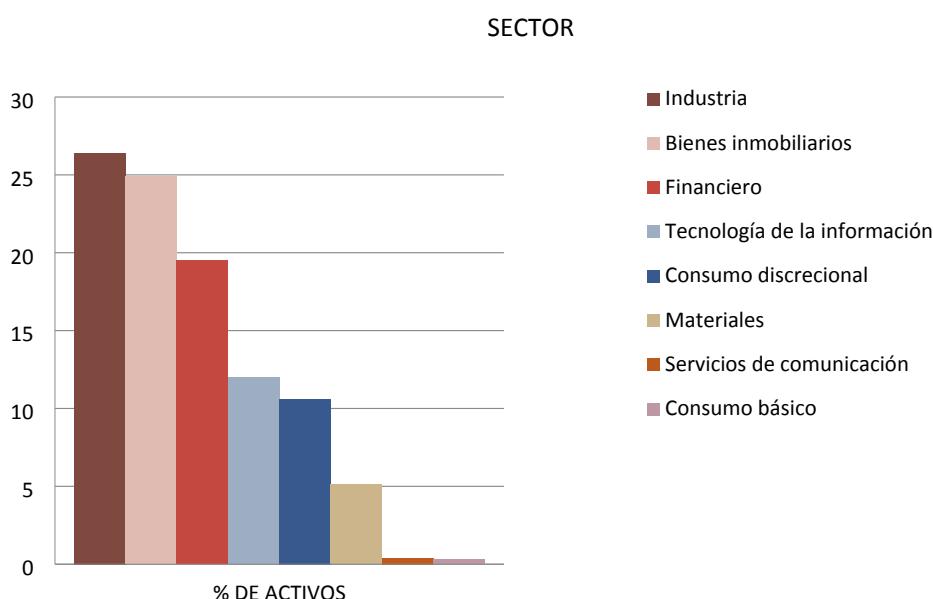

- la subcategoría **n.º 1B Otras características medioambientales o sociales**, que abarca inversiones ajustadas a las características medioambientales o sociales que no pueden considerarse inversiones sostenibles.

Notas:

- Las inversiones «n.º 1A Sostenibles», «Otras medioambientales» y «Sociales» se calcularon sobre una base de aprobado/suspenso. Incluyen bonos certificados (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.
- Las inversiones ajustadas a la taxonomía verde de la UE se calculan ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a la mitigación del cambio climático y la adaptación al mismo) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.
- A falta de una taxonomía social de la UE, Pictet ha desarrollado un marco de taxonomía social propio. El marco se basa en basado en el Informe sobre taxonomía social publicado por la Plataforma de Finanzas Sostenibles de la UE en 2022. Las actividades admisibles se definen como bienes y servicios beneficiosos desde el punto de vista social que contribuyen sustancialmente a uno de los tres objetivos sociales siguientes: (1) comunidades inclusivas y sostenibles, (2) nivel de vida adecuado y bienestar para los usuarios finales y (3) trabajo digno.

Fuente: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RBICS.

● ¿En qué sectores económicos se han realizado las inversiones?

Fuente: Pictet Asset Management, GICS/MSCI.

Estamos evaluando la disponibilidad y la calidad de los datos que nos permitirían divulgar información más granular en futuros informes sobre los sectores y subsectores de la economía que obtienen ingresos a partir de la exploración, la minería, la extracción, la producción, el procesamiento, el almacenamiento, el refinado o la distribución, incluidos el transporte, el almacenamiento y el comercio, de combustibles fósiles, según se definen en el artículo 2, punto (62), del Reglamento (UE) 2018/1999 del Parlamento Europeo y del Consejo.

¿En qué medida se ajustaban las inversiones sostenibles con un objetivo medioambiental a la taxonomía de la UE?

El fondo realizó inversiones en actividades económicas que contribuyeron a los dos primeros objetivos medioambientales (mitigación del cambio climático y adaptación a este), según lo establecido en el artículo 9 del Reglamento (UE) 2020/852.

Las inversiones ajustadas a la taxonomía de la UE se calcularon ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a objetivos medioambientales relevantes) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.

Los datos de ajuste a la Taxonomía verde de la UE proceden de informes públicos. Los cálculos también pueden incluir estimaciones en un número limitado de casos en los que no se disponía de datos sobre la alineación con la Taxonomía verde de la UE. Las estimaciones se realizaron sobre la base del mejor esfuerzo y siguiendo un planteamiento conservador para obtener un resultado prudente.

Los procedimientos de control se han aplicado para verificar en todo momento el cumplimiento del artículo 3 del Reglamento sobre taxonomía de la UE.

Los datos facilitados no han sido verificados por un auditor externo ni revisados por un tercero independiente.

● ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil o la energía nuclear que cumplían con la taxonomía de la UE¹?.

Sí:

En gas fósil En energía nuclear

No

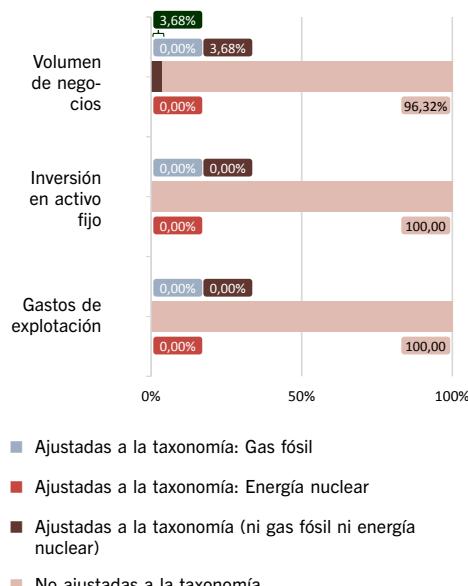

La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permite ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

Para ajustarse a la taxonomía de la UE, los criterios correspondientes al **gas fósil** incluyen limitaciones de emisiones y el paso a la energía renovable o combustibles bajos en carbono de aquí al fin de 2035. Por lo que respecta a la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

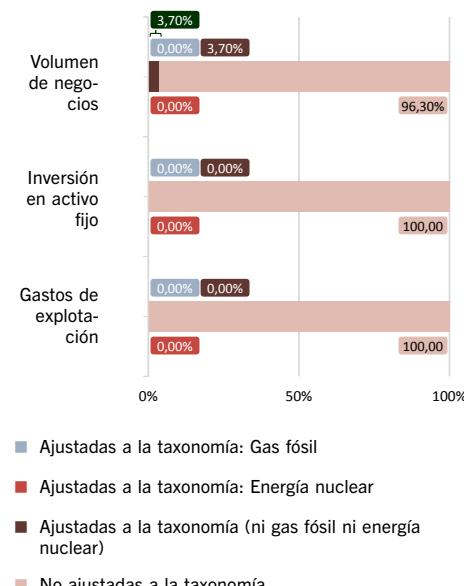

Las actividades que se ajustan a la taxonomía se expresan como un porcentaje de:
- el **volumen de negocios**, que refleja el «carácter ecológico» de las empresas en las que se invierte en la actualidad;
- la **inversión en activo fijo**, que muestra las inversiones ecológicas realizadas por las empresas en las que se invierte, pertinentes para la transición a una economía verde;
- los **gastos de explotación**, que reflejan las actividades operativas ecológicas de las empresas en las que se invierte.

Los gráficos que figuran a continuación muestran en verde el porcentaje de inversiones que se ajustaban a la taxonomía de la UE. Dado que no existe una metodología adecuada para determinar la adaptación a la taxonomía de los bonos soberanos*, el primer gráfico muestra la adaptación a la taxonomía correspondiente para todas las inversiones del producto financiero, incluidos los bonos soberanos, mientras que el segundo gráfico muestra la adaptación a la taxonomía solo en relación con las inversiones del producto financiero distintas de los bonos soberanos.

1. Ajuste a la taxonomía de las inversiones incluidos los bonos soberanos*

2. Ajuste a la taxonomía de las inversiones excluidos los bonos soberanos*

Este gráfico representa el 99,38% de las inversiones totales.

* A efectos de estos gráficos, los «bonos soberanos» incluyen todas las exposiciones soberanas

Nota:

Utilizamos los ingresos como medida clave para establecer la asignación de objetivos y el ajuste real con la taxonomía de la UE debido a la disponibilidad limitada y a la falta de datos fiables para los gastos de explotación y la inversión en activo fijo.

Fuente: Pictet Asset Management.

¹ Las actividades relacionadas con el gas fósil o la energía nuclear solo cumplirán la taxonomía de la UE cuando contribuyan a limitar el cambio climático («mitigación del cambio climático») y no perjudiquen significativamente ningún objetivo de la taxonomía de la UE (véase la nota explicativa en el margen izquierdo). Los criterios completos correspondientes a las actividades económicas del gas fósil y la energía nuclear que se ajustan a la taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

● **¿Cuál ha sido la proporción de las inversiones realizadas en actividades de transición y facilitadoras?**

La proporción de inversiones realizadas en:

- Actividades de transición: No aplicable*
- Actividades de facilitadoras: No aplicable*

* La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permiten ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

● **¿Qué porcentaje de inversiones se han ajustado a la taxonomía de la UE en comparación con los períodos de referencia anteriores?**

No aplicable.

¿Cuál ha sido la proporción de inversiones sostenibles con un objetivo medioambiental no ajustadas a la taxonomía de la UE?

30,75%

Estas inversiones sostenibles no se ajustan a la Taxonomía de la UE porque sus actividades económicas o bien (i) no están cubiertas por la Taxonomía de la UE, o bien (ii) no cumplen los criterios técnicos de selección para lograr una contribución sustancial en el sentido de la Taxonomía de la UE.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta los criterios para las actividades económicas medioambientalmente sostenibles con arreglo al Reglamento (UE) 2020/852.

¿Cuál ha sido la proporción de inversiones socialmente sostenibles?

68,52%

¿Qué inversiones se han incluido en «otras» y cuál ha sido su propósito? ¿ha habido garantías medioambientales o sociales mínimas?

Las «otras» inversiones del fondo incluían posiciones de tesorería mantenidas principalmente para satisfacer los objetivos diarios de liquidez y gestión de riesgos permitidos y previstos por la política de inversión del fondo. Cuando sea preciso, se aplicarán salvaguardias medioambientales o sociales mínimas a los valores subyacentes.

¿Qué medidas se han adoptado para cumplir las características medioambientales o sociales durante el período de referencia?

Durante el periodo de referencia, se alcanzó el objetivo de inversión sostenible siguiendo la estrategia de inversión y respetando los elementos vinculantes.

Los elementos vinculantes del fondo son:

- al menos el 51% de inversiones sostenibles, es decir, inversiones en empresas que tienen una exposición importante a actividades como soluciones más inteligentes a los desafíos del proceso de urbanización y la mejora de la calidad de vida de los habitantes de las ciudades, especialmente en los ámbitos del medioambiente, la seguridad, la salud, la educación, el empleo, la comunidad o la movilidad (según los ingresos, el valor de empresa, los beneficios antes de intereses e impuestos o similares)
- Exclusión de emisores que:
- participan en la producción de armas controvertidas, incluidas minas antipersona, municiones de racimo, armas biológicas y químicas, armas nucleares y uranio empobrecido

- obtienen una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, como la extracción de carbón térmico y la generación de electricidad, la exploración y producción no convencional de petróleo y gas, la producción de petróleo y gas convencional, la generación de energía nuclear, las armas convencionales y armas pequeñas, la contratación militar de armas y productos y servicios relacionados con las armas, la producción de tabaco, la producción de entretenimiento para adultos, las actividades del juego, el desarrollo y crecimiento de organismos modificados genéticamente, la producción y comercialización de pesticidas. Para más detalles sobre los umbrales de exclusión aplicables a las actividades anteriores, consulte la Política de Inversión responsable de Pictet Asset Management.
- incumplen gravemente normas internacionales, incluidos los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción
- un perfil ASG mejor que el del índice de referencia
- análisis de criterios ASG de los valores admisibles que abarca al menos el 90% del patrimonio neto o el número de emisores incluidos en la cartera

Además, el fondo se implicó con 11 empresas a 30.09.2023.

¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

Los índices de referencia son índices para medir si el producto financiero logra las características medioambientales o sociales que promueve.

● ¿Cómo difería el índice de referencia de un índice general de mercado?

No aplicable.

● ¿Cómo se ha comportado este producto financiero con respecto a los indicadores de sostenibilidad para determinar la conformidad del índice de referencia con las características medioambientales o sociales que promueve?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice general de mercado?

No aplicable.

CARACTERÍSTICAS MEDIOAMBIENTALES O SOCIALES

Inversión sostenible
significa una inversión en una actividad económica que contribuye a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo a ningún objetivo medioambiental o social y que las empresas en las que se invierte sigan prácticas de buena gobernanza.

La **taxonomía de la UE** es un sistema de clasificación previsto en el Reglamento (UE) 2020/852 por el que se establece una lista de **actividades económicas medioambientalmente sostenibles**. Dicho Reglamento no prevé una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental pueden ajustarse, o no, a la taxonomía.

| ¿ESTE PRODUCTO FINANCIERO TENÍA UN OBJETIVO DE INVERSIÓN SOSTENIBLE? | | | |
|--|--|--|---|
| <input checked="" type="checkbox"/> Si | | <input checked="" type="checkbox"/> No | |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo medioambiental: ____% | <input checked="" type="checkbox"/> | Promovió características medioambientales o sociales y, aunque no tenía como objetivo una inversión sostenible, tuvo un porcentaje del 44,23% de inversiones sostenibles |
| <input type="checkbox"/> | en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input type="checkbox"/> | con un objetivo medioambiental en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> | en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> | con un objetivo medioambiental en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo social: ____% | <input type="checkbox"/> | <input checked="" type="checkbox"/> con un objetivo social |
| <input type="checkbox"/> | | <input type="checkbox"/> | Ha promovido características medioambientales o sociales, pero no ha realizado ninguna inversión sostenible |

Nota: Las inversiones sostenibles se calcularon sobre una base de aprobado/suspenso, incluyendo bonos con etiqueta (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% (medida por ingresos, EBIT, valor de empresa o indicadores similares) a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.

¿En qué grado se han cumplido las características medioambientales o sociales que promueve este producto financiero?

Las características medioambientales y sociales de este producto financiero se promovieron utilizando:

- Best-in-class:

El fondo invirtió en valores de emisores con riesgos de sostenibilidad bajos, a la vez que evitó aquellos con riesgos de sostenibilidad altos, reduciendo el universo de inversión en al menos un 20%. El índice MSCI EM se utilizó para medir la reducción del universo; sin embargo, no se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

- Intensidad de carbono:

El fondo ha pretendido tener una intensidad de carbono inferior a la del universo de inversión.

- Exclusiones basadas en normas y valores:

El fondo excluyó los emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente o que incumplen de forma grave las normas internacionales, según se detalla a continuación:

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

| Actividad | Umbrales de ingresos |
|---|----------------------|
| Combustibles fósiles y energía nuclear | |
| Extracción de carbón térmico | > 25% |
| Generación de energía térmica de carbón | > 25% |
| Producción de petróleo y gas | > 25% |
| Extracción de arenas bituminosas | > 10% |
| Extracción de energía de esquisto | > 10% |
| Exploración de petróleo y gas en el Ártico | > 10% |
| Generación de energía nuclear | > 50% |
| Armas | |
| Producción de armas controvertidas[1] | > 0% |
| Armas de contratación militar | > 10% |
| Productos y/o servicios relacionados con armas de contratación militar | > 50% |
| Clientes civiles de armas pequeñas (armas de asalto) | > 10% |
| Clientes civiles de armas pequeñas (armas de no asalto) | > 10% |
| Clientes militares/de fuerzas del orden de armas pequeñas | > 25% |
| Componentes clave de armas pequeñas | > 25% |
| Otras actividades controvertidas | |
| Producción de entretenimiento para adultos | > 10% |
| Operaciones de juego | > 10% |
| Desarrollo de plantas y semillas modificadas genéticamente | > 25% |
| Cultivo de plantas y semillas modificadas genéticamente | > 25% |
| Producción de plaguicidas | > 10% |
| Venta al por menor de plaguicidas | > 10% |
| Producción de productos de tabaco | > 10% |
| Exclusiones de empresas por incumplimiento de normas internacionales | Excluidas |
| Empresas que incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción | Sí |
| Exclusiones de países | Excluidas |
| Países (i) incluidos en la lista de Estados patrocinadores del terrorismo, según la definición de la Oficina de Control de Activos Extranjeros de EE. UU.[2] o (ii) sujetos a sanciones financieras de la UE contra bancos centrales y/o empresas de propiedad estatal. | Sí |
| Países (i) clasificados como de muy alto o alto riesgo en el Índice de Estados Frágiles o (ii) afectados por conflictos violentos según la definición del Banco Mundial. | Sí |

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

Países (i) incluidos en la lista de «alerta» del Índice de Estados Frágiles o (ii) sujetos a sanciones relacionadas con la exportación por parte de la UE. Lista de vigilancia[3]

[1] Entre las armas controvertidas se encuentran las minas antipersona, las municiones de racimo, las armas biológicas y químicas (incluido el fósforo blanco) y las armas nucleares procedentes de países no firmantes del Tratado de No Proliferación de Armas Nucleares (TNP).

[2] «Estado patrocinador del terrorismo» es una designación aplicada por el Departamento de Estado de Estados Unidos a países que repetidamente han prestado apoyo a actos de terrorismo internacional.

[3] Además de las exclusiones estrictas, Pictet Asset Management mantiene una lista de vigilancia que incluye países que requieren una diligencia debida adicional por parte de los equipos de inversión antes de invertir.

Para más detalles, consulte la Política de Inversión responsable de Pictet Asset Management (Anexo B).

- Titularidad activa:

El fondo ejerció de forma metódica sus derechos de voto y se implicó con la dirección de las empresas sobre cuestiones ASG importantes.

● ¿Cómo se han comportado los indicadores de sostenibilidad?

Durante el periodo de información, los indicadores de sostenibilidad se comportaron según se indica a continuación:

- Exposición a empresas que obtienen una parte significativa de sus ingresos, EBIT, valor de empresa o parámetros similares de actividades económicas que contribuyen a los objetivos medioambientales o sociales, y bonos con etiqueta cuando sea relevante para la clase de activos (inversiones sostenibles):

44,23%

En el informe del próximo año se facilitará información adicional sobre objetivos medioambientales y/o sociales específicos.

- Reducción del universo de inversión por factores ASG

El fondo reduce su universo de inversión eliminando al menos el 20% de los emisores con los mayores riesgos de sostenibilidad.

Los riesgos de sostenibilidad son acontecimientos o condiciones de riesgo ASG que podrían tener una incidencia negativa importante en el valor de las inversiones si se produjeran. Los riesgos de sostenibilidad incluían, entre otros, los siguientes: riesgo de transición climática, riesgo físico climático, riesgo medioambiental, riesgo social y riesgo de gobernanza. Se realizan revisiones periódicas y controles de riesgo para supervisar la aplicación.

Las principales incidencias adversas («PIA») son efectos negativos, materiales o posiblemente materiales, sobre factores de sostenibilidad causados, agravados o directamente vinculados con las decisiones y el asesoramiento. Entre las principales incidencias adversas se incluyen, entre otras, las emisiones de gases de efecto invernadero (GEI), la contaminación atmosférica, la pérdida de biodiversidad, las emisiones al agua, los residuos peligrosos/radioactivos, las cuestiones sociales y laborales, y la corrupción y el soborno.

- Principal incidencia adversa (PIA)

El fondo utiliza una combinación de enfoques para considerar y, en la medida de lo posible, mitigar las incidencias adversas materiales de nuestras inversiones en la sociedad y el medioambiente, como emisiones de GEI, contaminación atmosférica, pérdida de biodiversidad, emisiones al agua, residuos peligrosos/radioactivos, derechos humanos, normas laborales, corrupción y soborno, y salud pública.

El grado y la forma en que estas incidencias se tuvieron en cuenta dependieron de factores como el contexto específico de la inversión que provoca la incidencia adversa o la disponibilidad de datos fiables.

Los indicadores de sostenibilidad miden cómo se alcanzan las características medioambientales o sociales que promueve el producto financiero.

De conformidad con la política de exclusión de Pictet Asset Management descrita en la Política de Inversión responsable de la empresa (véase el cuadro anterior para consultar las actividades excluidas y los umbrales de exclusión aplicados), el fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente:

Actividades controvertidas (media ponderada de ingresos de la empresa, en %)*:

| | Fondo (%) | Índice de referencia (%) |
|--|-----------|--------------------------|
| Combustibles fósiles y energía nuclear | 0,00 | 0,00 |
| Armas | 0,00 | 0,00 |
| Otras actividades controvertidas | 0,00 | 0,00 |
| No aplicable: | 0,71 | 0,00 |
| No cubierto: | 0,00 | 0,00 |

* Los combustibles fósiles y la energía nuclear incluyen la extracción de carbón térmico y la generación de electricidad, la producción y extracción de petróleo y gas, la extracción de energía de esquisto, la exploración de petróleo y gas en los mares del Ártico y la generación de energía nuclear. Las armas incluyen la contratación militar (servicios de armas y relacionadas con estas), clientes civiles de armas pequeñas (armas de asalto/no asalto), clientes militares/de las fuerzas y cuerpos de seguridad de armas pequeñas y componentes clave de pequeñas armas. Otras actividades controvertidas incluyen la producción de tabaco, la producción de entretenimiento para adultos, la explotación de juegos de azar, el desarrollo o crecimiento de organismos modificados genéticamente, la producción o venta al por menor de pesticidas. La exposición se basa en datos de terceros y puede no reflejar nuestro punto de vista interno. Pictet Asset Management tiene plena discreción sobre la aplicación de los criterios de exclusión y se reserva el derecho de apartarse de la información de terceros, según el caso, cuando se considere incorrecta o incompleta.

Fuente: Pictet Asset Management, Sustainalytics.

Además, el fondo excluyó a los emisores que tenían exposición a:

- (i) PIA 10: Incumplimientos de los principios del Pacto Mundial de las Naciones Unidas y las Directrices para Empresas Multinacionales de la Organización para la Cooperación y el Desarrollo Económicos (OCDE).
- (ii) PIA 14: Exposición a armas controvertidas (minas antipersonas, municiones en racimo, armas químicas y armas biológicas)

• Derechos de voto

Durante el periodo de referencia, el fondo votó en 147 juntas generales de 153 juntas en las que se podía votar (96,08%). Votamos «en contra» (incluidas «abstenciones» o «retenciones») en al menos una resolución en el 37,25% de las juntas.

De las 1.201 resoluciones de la dirección, votamos en contra de la dirección en 133 puntos (11,07%) y nos abstuvimos en 42 puntos (3,50%).

Apoyamos 16 (50,00%) resoluciones de accionistas de un total de 32 propuestas.

Por lo que respecta a las cuestiones medioambientales y/o sociales, votamos a favor de 6 de las 6 resoluciones de la dirección y a favor de 0 de las 0 resoluciones de accionistas.

Fuente: Pictet Asset Management, ISS ESG.

• Interacción

El fondo se implicó con 13 empresas sobre cuestiones ASG (datos a 30.09.2023). Esto incluye diálogos internos, iniciativas de colaboración entre inversores y servicios de implicación de terceros. Para que se considere implicación, el diálogo con una empresa objetivo debe tener un objetivo claro y mensurable en un horizonte temporal predefinido. Es importante señalar que no todas las interacciones rutinarias o de supervisión, aunque impliquen a la alta dirección o al Consejo de administración, se consideran implicaciones en nuestra evaluación.

Fuente: Pictet Asset Management, Sustainalytics.

• ¿... y en comparación con períodos anteriores?

Esta cuestión se abordará en futuros informes anuales debido a la falta de historial.

● **¿Cuáles han sido los objetivos de las inversiones sostenibles que ha realizado en parte el producto financiero y de qué forma ha contribuido la inversión sostenible a dichos objetivos?**

Pictet Asset Management utilizó marcos de referencia propios, así como los objetivos de la Taxonomía de la UE, para definir las inversiones sostenibles.

El fondo invirtió en valores que financiaban actividades económicas que contribuyeron sustancialmente a objetivos medioambientales y/o sociales como:

Medioambientales

- mitigación del cambio climático o adaptación al mismo
- uso sostenible y protección de los recursos hídricos y marinos
- transición hacia una economía circular
- prevención y control de la contaminación o
- protección y recuperación de la biodiversidad y los ecosistemas

Sociales

- comunidades inclusivas y sostenibles
- nivel de vida adecuado y bienestar para los usuarios finales o
- trabajo digno

● **¿De qué manera las inversiones sostenibles que el producto financiero ha realizado en parte, no han causado un perjuicio significativo a ningún objetivo de inversión sostenible medioambiental o social?**

Para evitar que las inversiones sostenibles causen un perjuicio significativo a cualquier otro objetivo medioambiental o social, el fondo aplicó los siguientes criterios de selección sobre la base del mejor esfuerzo:

(i) Exclusiones de emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente (véase la descripción del marco de exclusión de IR).

(ii) Los emisores asociados a controversias elevadas y graves no se contabilizaron como inversiones sostenibles.

La información se obtuvo de proveedores terceros y/o de análisis interno. La información ASG de terceros proveedores de datos puede haber sido incompleta, inexacta o no estar disponible. Como consecuencia de ello, existía el riesgo de que el Gestor de inversiones evaluara incorrectamente un valor o emisor, dando lugar a la inclusión o exclusión incorrecta de un valor en el fondo. Los datos ASG incompletos, inexactos o no disponibles también pueden actuar como una limitación metodológica a una estrategia de inversión no financiera (como la aplicación de criterios ASG o similares). En los casos identificados, el Gestor de inversiones trató de mitigar este riesgo mediante su propia evaluación. En caso de que las características ASG de un valor mantenido por el fondo cambiaran, dando lugar a la venta del valor, el Gestor de inversiones no acepta responsabilidad alguna en relación con dicho cambio.

● **¿Cómo se han tenido en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?**

Pictet Asset Management realiza un seguimiento de todos los indicadores obligatorios de principales incidencias adversas (incluidos en el Anexo 1 del Reglamento Delegado (UE) 22 / 1288 de la Comisión) cuando disponemos de datos sólidos. Se espera que la calidad de los datos disponibles mejore con el tiempo.

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas de sus inversiones en la sociedad y el medioambiente que se consideran importantes para la estrategia de inversión, mediante un conjunto de decisiones de gestión de cartera, actividades de propiedad activa y exclusión de emisores asociados a conductas o actividades controvertidas. Más información en el informe de PIA de la entidad, disponible en:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=es&bl=PAM>

● **¿Se han ajustado las inversiones sostenibles a las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios rectores de las Naciones Unidas sobre las empresas y los derechos humanos?**

Para garantizar que la inversión sostenible no causara un perjuicio significativo a ningún objetivo de inversión sostenible, el fondo excluyó a las empresas con infracciones elevadas y graves de (i) los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos,

Las principales incidencias adversas
son las incidencias negativas más importantes de las decisiones de inversión sobre los factores de sostenibilidad en relación con asuntos medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

normas laborales, protección del medioambiente y lucha contra la corrupción o (ii) las Líneas Directrices de la OCDE para Empresas Multinacionales, incluidos los asuntos sociales y laborales graves.

La taxonomía de la UE establece el principio de «no causar un perjuicio significativo», según el cual las inversiones que se ajusten a la taxonomía no deben perjudicar significativamente a los objetivos de la taxonomía de la UE, e incluye criterios específicos de la Unión.

El principio de «no perjudicar de forma significativa» se aplica únicamente a las inversiones subyacentes del producto financiero que contemplan los criterios de la UE relativos a actividades económicas sostenibles desde una perspectiva medioambiental. Las inversiones subyacentes al resto del producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas medioambientalmente sostenibles.

Cualquier otra inversión sostenible tampoco debe perjudicar significativamente a ningún objetivo medioambiental o social.

¿Cómo tiene en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas que se consideran importantes para la estrategia de inversión. Entre las incidencias adversas se incluyeron, entre otras, las emisiones de gases de efecto invernadero (GEI), la contaminación atmosférica, la pérdida de biodiversidad, las emisiones al agua, los residuos peligrosos/radioactivos, las cuestiones sociales y laborales, y la corrupción y el soborno, que se abordaron mediante una combinación de:

(i) decisiones de gestión de carteras

El equipo de inversión puntuó las posiciones según una evaluación de los riesgos medioambientales, sociales y de gobernanza como parte del marco de puntuación del fondo. Los gestores de inversiones determinan las puntuaciones sobre una base cualitativa, basándose en el análisis fundamental y en datos cuantitativos ASG, incluidos los datos sobre la Principal incidencia adversa, los datos ASG facilitados por las empresas y los datos proporcionados por terceros proveedores de datos ASG. El proceso de puntuación del equipo de inversión fue un componente clave del proceso de construcción de la cartera del comportamiento, determinando las ponderaciones objetivo en la cartera.

(ii) voto por delegación

El fondo se atuvió a las directrices de voto de Pictet Asset Management, que están diseñadas para apoyar una cultura de gobierno corporativo sólida, una gestión eficaz de las cuestiones medioambientales y sociales, y la publicación de información exhaustiva de acuerdo con normas creíbles. Dichas directrices también pretenden apoyar a los órganos de gobierno mundiales reconocidos que promueven prácticas empresariales sostenibles que abogan por la gestión del medio ambiente, las prácticas laborales justas, la no discriminación y la protección de los derechos humanos. Todas las actividades de voto del fondo se registraron y pueden compartirse previa solicitud.

(iii) implicación

La interacción con los emisores se realizó mediante conversaciones individuales, reuniones de accionistas/bonistas, giras de inversores y/o conferencias telefónicas. Los objetivos de estas interacciones fueron evaluar una organización, supervisar que su estrategia se estaba aplicando conforme a nuestras expectativas y garantizar que los emisores iban camino de cumplir sus metas y objetivos.

Cuando corresponde, nos implicamos con las empresas en relación con cuestiones ASG importantes, como los objetivos de reducción de los GEI, las mejoras en la gobernanza y diversas controversias medioambientales, sociales y de gobernanza, para asegurarnos de que las entendieran y las abordaran eficazmente a corto, medio y largo plazo. Nuestras actividades de implicación combinaron debates dirigidos a nivel interno, iniciativas de colaboración con inversores institucionales y servicios de implicación externos.

(iv) exclusión de emisores asociados a conductas o actividades controvertidas

El fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se definen en la Política de Inversión responsable de la Pictet Asset Management y/o (ii) empresas que infringieron gravemente los principios del Pacto Mundial de la ONU sobre derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción y las armas controvertidas.

¿Cuáles han sido las inversiones principales de este producto financiero?

La lista incluye las inversiones que constituyen la **mayor parte de las inversiones** del producto financiero durante el período de referencia, que es: 01.10.2022 - 30.09.2023

| INVERSIONES DE MAYOR VOLUMEN | SECTOR | % DE ACTIVOS | PAÍS |

¿Cuál ha sido la proporción de inversiones relacionadas con la sostenibilidad?

44,23%

La asignación de activos describe el porcentaje de inversiones en activos específicos.

● ¿Cuál ha sido la asignación de activos?

El fondo se ajustó en un 99,64% con características medioambientales o sociales (n.º 1 Ajustadas a características medioambientales o sociales) y tuvo hasta un 0,36% invertido en la categoría Otras (n.º 2 Otras). El 44,23% se asignó a inversiones sostenibles (n.º 1A Sostenibles) y el resto se invirtió en inversiones ajustadas a otras características medioambientales o sociales (n.º 1B Otras características medioambientales o sociales).

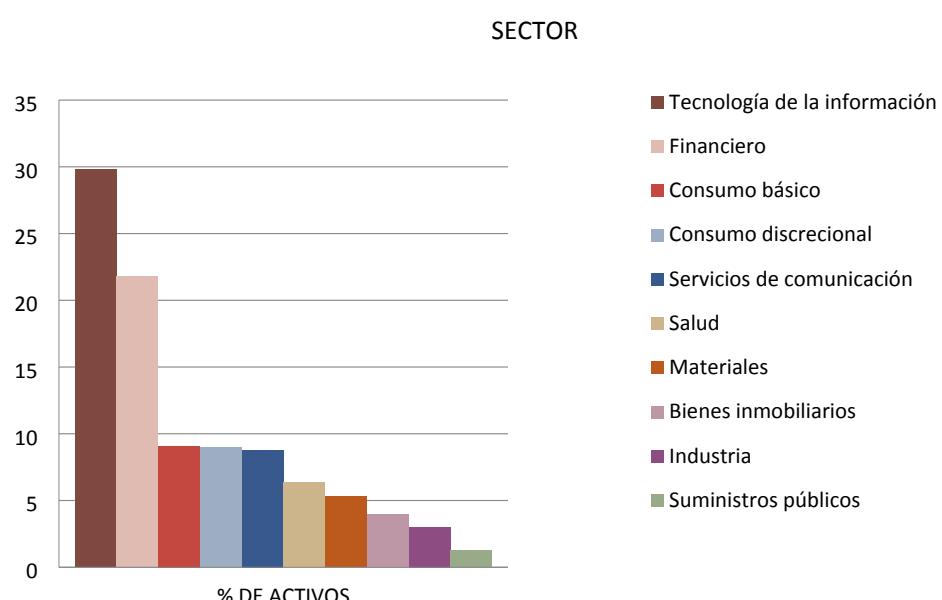

La categoría n.º 1 Ajustadas a características medioambientales o sociales abarca:
 - la subcategoría n.º 1A Sostenibles, que abarca las inversiones sostenibles con objetivos medioambientales o sociales.
 - la subcategoría n.º 1B Otras características medioambientales o sociales, que abarca inversiones ajustadas a las características medioambientales o sociales que no pueden considerarse inversiones sostenibles.

Notas:

- Las inversiones «n.º 1A Sostenibles», «Otras medioambientales» y «Sociales» se calcularon sobre una base de aprobado/suspenso. Incluyen bonos certificados (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.
- A falta de una taxonomía social de la UE, Pictet ha desarrollado un marco de taxonomía social propio. El marco se basa en basado en el Informe sobre taxonomía social publicado por la Plataforma de Finanzas Sostenibles de la UE en 2022. Las actividades admisibles se definen como bienes y servicios beneficiosos desde el punto de vista social que contribuyen sustancialmente a uno de los tres objetivos sociales siguientes: (1) comunidades inclusivas y sostenibles, (2) nivel de vida adecuado y bienestar para los usuarios finales y (3) trabajo digno.

Fuente: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RB/CS.

● ¿En qué sectores económicos se han realizado las inversiones?

Fuente: Pictet Asset Management, GICS/MSCI.

Estamos evaluando la disponibilidad y la calidad de los datos que nos permitirían divulgar información más granular en futuros informes sobre los sectores y subsectores de la economía que obtienen ingresos a partir de la exploración, la minería, la extracción, la producción, el procesamiento, el almacenamiento, el refinado o la distribución, incluidos el transporte, el almacenamiento y el comercio, de combustibles fósiles, según se definen en el artículo 2, punto (62), del Reglamento (UE) 2018/1999 del Parlamento Europeo y del Consejo.

¿En qué medida se ajustaban las inversiones sostenibles con un objetivo medioambiental a la taxonomía de la UE?

No aplicable.

● ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil o la energía nuclear que cumplían con la taxonomía de la UE¹?

Sí:

En gas fósil En energía nuclear

No

Para ajustarse a la taxonomía de la UE, los criterios correspondientes al **gas fósil** incluyen limitaciones de emisiones y el paso a la energía renovable o

¹ Las actividades relacionadas con el gas fósil o la energía nuclear solo cumplirán la taxonomía de la UE cuando contribuyan a limitar el cambio climático («mitigación del cambio climático») y no perjudiquen significativamente ningún objetivo de la taxonomía de la UE (véase la nota explicativa en el margen izquierdo). Los criterios completos correspondientes a las actividades económicas del gas fósil y la energía nuclear que se ajustan a la taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

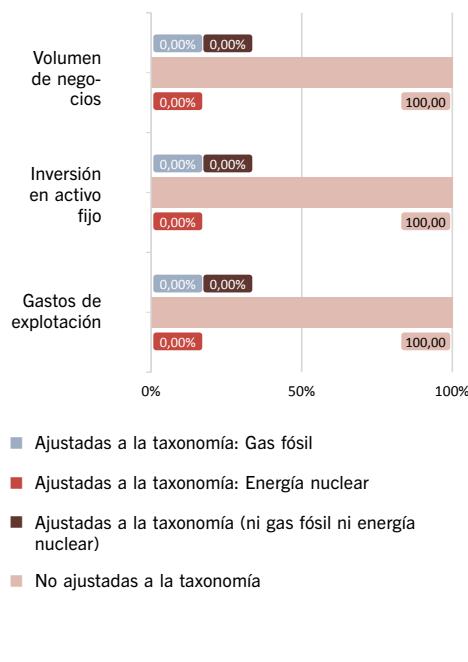

combustibles bajos en carbono de aquí al fin de 2035. Por lo que respecta a la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las actividades que se ajustan a la taxonomía se expresan como un porcentaje de:

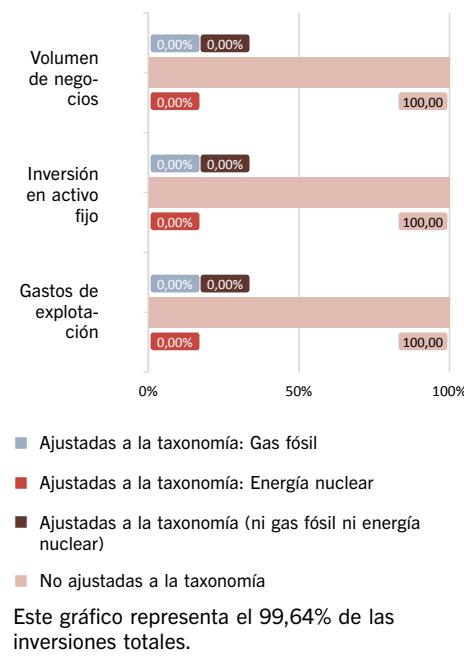

- el **volumen de negocios**, que refleja el «carácter ecológico» de las empresas en las que se invierte en la actualidad;
- la **inversión en activo fijo**, que muestra las inversiones ecológicas realizadas por las empresas en las que se invierte, pertinentes para la transición a una economía verde;
- los **gastos de explotación**, que reflejan las actividades operativas ecológicas de las empresas en las que se invierte.

Los gráficos que figuran a continuación muestran en verde el porcentaje de inversiones que se ajustaban a la taxonomía de la UE. Dado que no existe una metodología adecuada para determinar la adaptación a la taxonomía de los bonos soberanos*, el primer gráfico muestra la adaptación a la taxonomía correspondiente para todas las inversiones del producto financiero, incluidos los bonos soberanos, mientras que el segundo gráfico muestra la adaptación a la taxonomía solo en relación con las inversiones del producto financiero distintas de los bonos soberanos.

1. Ajuste a la taxonomía de las inversiones incluidos los bonos soberanos*

2. Ajuste a la taxonomía de las inversiones excluidos los bonos soberanos*

Este gráfico representa el 99,64% de las inversiones totales.

* A efectos de estos gráficos, los «bonos soberanos» incluyen todas las exposiciones soberanas

● ¿Cuál ha sido la proporción de las inversiones realizadas en actividades de transición y facilitadoras?

No aplicable.

● ¿Qué porcentaje de inversiones se han ajustado a la taxonomía de la UE en comparación con los períodos de referencia anteriores?

No aplicable.

¿Cuál ha sido la proporción de inversiones sostenibles con un objetivo medioambiental no ajustadas a la taxonomía de la UE?

13,13%

Estas inversiones sostenibles no se ajustan a la Taxonomía de la UE porque sus actividades económicas o bien (i) no están cubiertas por la Taxonomía de la UE, o bien (ii) no cumplen los criterios técnicos de selección para lograr una contribución sustancial en el sentido de la Taxonomía de la UE.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta los criterios para las actividades económicas

¿Cuál ha sido la proporción de inversiones socialmente sostenibles?

31,11%

¿Qué inversiones se han incluido en «otras» y cuál ha sido su propósito? ¿ha habido garantías medioambientales o sociales mínimas?

Las «otras» inversiones del fondo incluían posiciones de tesorería mantenidas principalmente para satisfacer los objetivos diarios de liquidez y gestión de riesgos permitidos y previstos por la política de inversión del fondo. Cuando sea preciso, se aplicarán salvaguardias medioambientales o sociales mínimas a los valores subyacentes.

¿Qué medidas se han adoptado para cumplir las características medioambientales o sociales durante el período de referencia?

Durante el periodo de referencia, se alcanzó el objetivo de inversión sostenible siguiendo la estrategia de inversión y respetando los elementos vinculantes.

Los elementos vinculantes del fondo son:

- Exclusión de emisores que:
 - están relacionados con armas nucleares de países que no han firmado el Tratado sobre la No Proliferación de Armas Nucleares (TNP) y otras armas controvertidas
 - obtienen una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, como la extracción de carbón térmico y la generación de electricidad, la exploración y producción no convencional de petróleo y gas, la producción de petróleo y gas convencional, la generación de energía nuclear, las armas convencionales y armas pequeñas, la contratación militar de armas y productos y servicios relacionados con las armas, la producción de tabaco, la producción de entretenimiento para adultos, las actividades del juego, el desarrollo y crecimiento de organismos modificados genéticamente, la producción y comercialización de pesticidas. Para más detalles sobre los umbrales de exclusión aplicables a las actividades anteriores, consulte la Política de Inversión responsable de Pictet Asset Management.
 - incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción
- análisis de criterios ASG de los valores admisibles que abarca al menos el 90% del patrimonio neto o el número de emisores incluidos en la cartera

Además, el fondo se implicó con 13 empresas a 30.09.2023.

¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

- ¿Cómo difería el índice de referencia de un índice general de mercado?
No aplicable.

Los índices de referencia son índices para medir si el producto financiero logra las características medioambientales o sociales que promueve.

- ¿Cómo se ha comportado este producto financiero con respecto a los indicadores de sostenibilidad para determinar la conformidad del índice de referencia con las características medioambientales o sociales que promueve?
No aplicable.

- **¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?**
No aplicable.
- **¿Cómo se ha comportado este producto financiero en comparación con el índice general de mercado?**
No aplicable.

CARACTERÍSTICAS MEDIOAMBIENTALES O SOCIALES

Inversión sostenible
significa una inversión en una actividad económica que contribuye a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo a ningún objetivo medioambiental o social y que las empresas en las que se invierte sigan prácticas de buena gobernanza.

La **taxonomía de la UE** es un sistema de clasificación previsto en el Reglamento (UE) 2020/852 por el que se establece una lista de **actividades económicas medioambientalmente sostenibles**. Dicho Reglamento no prevé una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental pueden ajustarse, o no, a la taxonomía.

| ¿ESTE PRODUCTO FINANCIERO TENÍA UN OBJETIVO DE INVERSIÓN SOSTENIBLE? | | | |
|--|--|-------------------------------------|--|
| <input checked="" type="radio"/> Si | | <input checked="" type="radio"/> No | |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo medioambiental: ____% | <input checked="" type="checkbox"/> | Promovió características medioambientales o sociales y, aunque no tenía como objetivo una inversión sostenible, tuvo un porcentaje del 52,53% de inversiones sostenibles |
| <input type="checkbox"/> | en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> | con un objetivo medioambiental en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> | en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> | con un objetivo medioambiental en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo social: ____% | <input type="checkbox"/> | con un objetivo social |
| <input type="checkbox"/> | | <input type="checkbox"/> | Ha promovido características medioambientales o sociales, pero no ha realizado ninguna inversión sostenible |

Nota: Las inversiones sostenibles se calcularon sobre una base de aprobado/suspenso, incluyendo bonos con etiqueta (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% (medida por ingresos, EBIT, valor de empresa o indicadores similares) a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.

¿En qué grado se han cumplido las características medioambientales o sociales que promueve este producto financiero?

Las características medioambientales y sociales de este producto financiero se promovieron utilizando:

- Best-in-class:

El fondo invirtió en valores de emisores con riesgos de sostenibilidad bajos, a la vez que evitó aquellos con riesgos de sostenibilidad altos, reduciendo el universo de inversión en al menos un 20%. El índice MSCI World se utilizó para medir la reducción del universo; sin embargo, no se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

- Intensidad de carbono:

El fondo ha pretendido tener una intensidad de carbono inferior a la del universo de inversión.

- Exclusiones basadas en normas y valores:

El fondo excluyó los emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente o que incumplen de forma grave las normas internacionales, según se detalla a continuación:

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

| Actividad | Umbrales de ingresos |
|---|----------------------|
| Combustibles fósiles y energía nuclear | |
| Extracción de carbón térmico | > 25% |
| Generación de energía térmica de carbón | > 25% |
| Producción de petróleo y gas | > 25% |
| Extracción de arenas bituminosas | > 10% |
| Extracción de energía de esquisto | > 10% |
| Exploración de petróleo y gas en el Ártico | > 10% |
| Generación de energía nuclear | > 50% |
| Armas | |
| Producción de armas controvertidas[1] | > 0% |
| Armas de contratación militar | > 10% |
| Productos y/o servicios relacionados con armas de contratación militar | > 50% |
| Clientes civiles de armas pequeñas (armas de asalto) | > 10% |
| Clientes civiles de armas pequeñas (armas de no asalto) | > 10% |
| Clientes militares/de fuerzas del orden de armas pequeñas | > 25% |
| Componentes clave de armas pequeñas | > 25% |
| Otras actividades controvertidas | |
| Producción de entretenimiento para adultos | > 10% |
| Operaciones de juego | > 10% |
| Desarrollo de plantas y semillas modificadas genéticamente | > 25% |
| Cultivo de plantas y semillas modificadas genéticamente | > 25% |
| Producción de plaguicidas | > 10% |
| Venta al por menor de plaguicidas | > 10% |
| Producción de productos de tabaco | > 10% |
| Exclusiones de empresas por incumplimiento de normas internacionales | Excluidas |
| Empresas que incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción | Sí |
| Exclusiones de países | Excluidas |
| Países (i) incluidos en la lista de Estados patrocinadores del terrorismo, según la definición de la Oficina de Control de Activos Extranjeros de EE. UU.[2] o (ii) sujetos a sanciones financieras de la UE contra bancos centrales y/o empresas de propiedad estatal. | Sí |
| Países (i) clasificados como de muy alto o alto riesgo en el Índice de Estados Frágiles o (ii) afectados por conflictos violentos según la definición del Banco Mundial. | Sí |

Países (i) incluidos en la lista de «alerta» del Índice de Estados Frágiles o (ii) sujetos a sanciones relacionadas con la exportación por parte de la UE. Lista de vigilancia[3]

[1] Entre las armas controvertidas se encuentran las minas antipersona, las municiones de racimo, las armas biológicas y químicas (incluido el fósforo blanco) y las armas nucleares procedentes de países no firmantes del Tratado de No Proliferación de Armas Nucleares (TNP).

[2] «Estado patrocinador del terrorismo» es una designación aplicada por el Departamento de Estado de Estados Unidos a países que repetidamente han prestado apoyo a actos de terrorismo internacional.

[3] Además de las exclusiones estrictas, Pictet Asset Management mantiene una lista de vigilancia que incluye países que requieren una diligencia debida adicional por parte de los equipos de inversión antes de invertir.

Para más detalles, consulte la Política de Inversión responsable de Pictet Asset Management (Anexo B).

- Titularidad activa:

El fondo ejerció de forma metódica sus derechos de voto y se implicó con la dirección de las empresas sobre cuestiones ASG importantes.

● ¿Cómo se han comportado los indicadores de sostenibilidad?

Durante el periodo de información, los indicadores de sostenibilidad se comportaron según se indica a continuación:

- Exposición a empresas que obtienen una parte significativa de sus ingresos, EBIT, valor de empresa o parámetros similares de actividades económicas que contribuyen a los objetivos medioambientales o sociales, y bonos con etiqueta cuando sea relevante para la clase de activos (inversiones sostenibles):

52,53%

En el informe del próximo año se facilitará información adicional sobre objetivos medioambientales y/o sociales específicos.

- Reducción del universo de inversión por factores ASG

El fondo reduce su universo de inversión eliminando al menos el 20% de los emisores con los mayores riesgos de sostenibilidad.

Los riesgos de sostenibilidad son acontecimientos o condiciones de riesgo ASG que podrían tener una incidencia negativa importante en el valor de las inversiones si se produjeran. Los riesgos de sostenibilidad incluían, entre otros, los siguientes: riesgo de transición climática, riesgo físico climático, riesgo medioambiental, riesgo social y riesgo de gobernanza. Se realizan revisiones periódicas y controles de riesgo para supervisar la aplicación.

Las principales incidencias adversas («PIA») son efectos negativos, materiales o posiblemente materiales, sobre factores de sostenibilidad causados, agravados o directamente vinculados con las decisiones y el asesoramiento. Entre las principales incidencias adversas se incluyen, entre otras, las emisiones de gases de efecto invernadero (GEI), la contaminación atmosférica, la pérdida de biodiversidad, las emisiones al agua, los residuos peligrosos/radioactivos, las cuestiones sociales y laborales, y la corrupción y el soborno.

- Principal incidencia adversa (PIA)

El fondo utiliza una combinación de enfoques para considerar y, en la medida de lo posible, mitigar las incidencias adversas materiales de nuestras inversiones en la sociedad y el medioambiente, como emisiones de GEI, contaminación atmosférica, pérdida de biodiversidad, emisiones al agua, residuos peligrosos/radioactivos, derechos humanos, normas laborales, corrupción y soborno, y salud pública.

El grado y la forma en que estas incidencias se tuvieron en cuenta dependieron de factores como el contexto específico de la inversión que provoca la incidencia adversa o la disponibilidad de datos fiables.

Los indicadores de sostenibilidad miden cómo se alcanzan las características medioambientales o sociales que promueve el producto financiero.

De conformidad con la política de exclusión de Pictet Asset Management descrita en la Política de Inversión responsable de la empresa (véase el cuadro anterior para consultar las actividades excluidas y los umbrales de exclusión aplicados), el fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente:

Actividades controvertidas (media ponderada de ingresos de la empresa, en %)*:

| | Fondo (%) | Índice de referencia (%) |
|--|-----------|--------------------------|
| Combustibles fósiles y energía nuclear | 0,02 | 4,23 |
| Armas | 0,08 | 1,08 |
| Otras actividades controvertidas | 0,02 | 1,10 |
| No aplicable: | 0,44 | 0,00 |
| No cubierto: | 0,00 | 0,01 |

* Los combustibles fósiles y la energía nuclear incluyen la extracción de carbón térmico y la generación de electricidad, la producción y extracción de petróleo y gas, la extracción de energía de esquisto, la exploración de petróleo y gas en los mares del Ártico y la generación de energía nuclear. Las armas incluyen la contratación militar (servicios de armas y relacionadas con estas), clientes civiles de armas pequeñas (armas de asalto/no asalto), clientes militares/de las fuerzas y cuerpos de seguridad de armas pequeñas y componentes clave de pequeñas armas. Otras actividades controvertidas incluyen la producción de tabaco, la producción de entretenimiento para adultos, la explotación de juegos de azar, el desarrollo o crecimiento de organismos modificados genéticamente, la producción o venta al por menor de pesticidas. La exposición se basa en datos de terceros y puede no reflejar nuestro punto de vista interno. Pictet Asset Management tiene plena discreción sobre la aplicación de los criterios de exclusión y se reserva el derecho de apartarse de la información de terceros, según el caso, cuando se considere incorrecta o incompleta.

Fuente: Pictet Asset Management, Sustainalytics.

Además, el fondo excluyó a los emisores que tenían exposición a:

- (i) PIA 10: Incumplimientos de los principios del Pacto Mundial de las Naciones Unidas y las Directrices para Empresas Multinacionales de la Organización para la Cooperación y el Desarrollo Económicos (OCDE).
- (ii) PIA 14: Exposición a armas controvertidas (minas antipersonas, municiones en racimo, armas químicas y armas biológicas)

• Derechos de voto

Durante el periodo de referencia, el fondo votó en 117 juntas generales de 118 juntas en las que se podía votar (99,15%). Votamos «en contra» (incluidas «abstenciones» o «retenciones») en al menos una resolución en el 31,36% de las juntas.

De las 1.689 resoluciones de la dirección, votamos en contra de la dirección en 43 puntos (2,55%) y nos abstuvimos en 18 puntos (1,07%).

Apoyamos 75 (70,09%) resoluciones de accionistas de un total de 107 propuestas.

Por lo que respecta a las cuestiones medioambientales y/o sociales, votamos a favor de 6 de las 6 resoluciones de la dirección y a favor de 50 de las 70 resoluciones de accionistas.

Fuente: Pictet Asset Management, ISS ESG.

• Interacción

El fondo se implicó con 24 empresas sobre cuestiones ASG (datos a 30.09.2023). Esto incluye diálogos internos, iniciativas de colaboración entre inversores y servicios de implicación de terceros. Para que se considere implicación, el diálogo con una empresa objetivo debe tener un objetivo claro y mensurable en un horizonte temporal predefinido. Es importante señalar que no todas las interacciones rutinarias o de supervisión, aunque impliquen a la alta dirección o al Consejo de administración, se consideran implicaciones en nuestra evaluación.

Fuente: Pictet Asset Management, Sustainalytics.

• ¿... y en comparación con períodos anteriores?

Esta cuestión se abordará en futuros informes anuales debido a la falta de historial.

● **¿Cuáles han sido los objetivos de las inversiones sostenibles que ha realizado en parte el producto financiero y de qué forma ha contribuido la inversión sostenible a dichos objetivos?**

Pictet Asset Management utilizó marcos de referencia propios, así como los objetivos de la Taxonomía de la UE, para definir las inversiones sostenibles.

El fondo invirtió en valores que financiaban actividades económicas que contribuyeron sustancialmente a objetivos medioambientales y/o sociales como:

Medioambientales

- mitigación del cambio climático o adaptación al mismo
- uso sostenible y protección de los recursos hídricos y marinos
- transición hacia una economía circular
- prevención y control de la contaminación o
- protección y recuperación de la biodiversidad y los ecosistemas

Sociales

- comunidades inclusivas y sostenibles
- nivel de vida adecuado y bienestar para los usuarios finales o
- trabajo digno

● **¿De qué manera las inversiones sostenibles que el producto financiero ha realizado en parte, no han causado un perjuicio significativo a ningún objetivo de inversión sostenible medioambiental o social?**

Para evitar que las inversiones sostenibles causen un perjuicio significativo a cualquier otro objetivo medioambiental o social, el fondo aplicó los siguientes criterios de selección sobre la base del mejor esfuerzo:

(i) Exclusiones de emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente (véase la descripción del marco de exclusión de IR).

(ii) Los emisores asociados a controversias elevadas y graves no se contabilizaron como inversiones sostenibles.

La información se obtuvo de proveedores terceros y/o de análisis interno. La información ASG de terceros proveedores de datos puede haber sido incompleta, inexacta o no estar disponible. Como consecuencia de ello, existía el riesgo de que el Gestor de inversiones evaluara incorrectamente un valor o emisor, dando lugar a la inclusión o exclusión incorrecta de un valor en el fondo. Los datos ASG incompletos, inexactos o no disponibles también pueden actuar como una limitación metodológica a una estrategia de inversión no financiera (como la aplicación de criterios ASG o similares). En los casos identificados, el Gestor de inversiones trató de mitigar este riesgo mediante su propia evaluación. En caso de que las características ASG de un valor mantenido por el fondo cambiaran, dando lugar a la venta del valor, el Gestor de inversiones no acepta responsabilidad alguna en relación con dicho cambio.

● **¿Cómo se han tenido en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?**

Pictet Asset Management realiza un seguimiento de todos los indicadores obligatorios de principales incidencias adversas (incluidos en el Anexo 1 del Reglamento Delegado (UE) 22 / 1288 de la Comisión) cuando disponemos de datos sólidos. Se espera que la calidad de los datos disponibles mejore con el tiempo.

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas de sus inversiones en la sociedad y el medioambiente que se consideran importantes para la estrategia de inversión, mediante un conjunto de decisiones de gestión de cartera, actividades de propiedad activa y exclusión de emisores asociados a conductas o actividades controvertidas. Más información en el informe de PIA de la entidad, disponible en:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=es&bl=PAM>

● **¿Se han ajustado las inversiones sostenibles a las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios rectores de las Naciones Unidas sobre las empresas y los derechos humanos?**

Para garantizar que la inversión sostenible no causara un perjuicio significativo a ningún objetivo de inversión sostenible, el fondo excluyó a las empresas con infracciones elevadas y graves de (i) los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos,

Las principales incidencias adversas
son las incidencias negativas más importantes de las decisiones de inversión sobre los factores de sostenibilidad en relación con asuntos medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

normas laborales, protección del medioambiente y lucha contra la corrupción o (ii) las Líneas Directrices de la OCDE para Empresas Multinacionales, incluidos los asuntos sociales y laborales graves.

La taxonomía de la UE establece el principio de «no causar un perjuicio significativo», según el cual las inversiones que se ajusten a la taxonomía no deben perjudicar significativamente a los objetivos de la taxonomía de la UE, e incluye criterios específicos de la Unión.

El principio de «no perjudicar de forma significativa» se aplica únicamente a las inversiones subyacentes del producto financiero que contemplan los criterios de la UE relativos a actividades económicas sostenibles desde una perspectiva medioambiental. Las inversiones subyacentes al resto del producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas medioambientalmente sostenibles.

Cualquier otra inversión sostenible tampoco debe perjudicar significativamente a ningún objetivo medioambiental o social.

¿Cómo tiene en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas que se consideran importantes para la estrategia de inversión. Entre las incidencias adversas se incluyeron, entre otras, las emisiones de gases de efecto invernadero (GEI), la contaminación atmosférica, la pérdida de biodiversidad, las emisiones al agua, los residuos peligrosos/radioactivos, las cuestiones sociales y laborales, y la corrupción y el soborno, que se abordaron mediante una combinación de:

(i) decisiones de gestión de carteras

El equipo de inversión puntuó las posiciones según una evaluación de los riesgos medioambientales, sociales y de gobernanza como parte del marco de puntuación del fondo. Los gestores de inversiones determinan las puntuaciones sobre una base cualitativa, basándose en el análisis fundamental y en datos cuantitativos ASG, incluidos los datos sobre la Principal incidencia adversa, los datos ASG facilitados por las empresas y los datos proporcionados por terceros proveedores de datos ASG. El proceso de puntuación del equipo de inversión fue un componente clave del proceso de construcción de la cartera del comportamiento, determinando las ponderaciones objetivo en la cartera.

(ii) voto por delegación

El fondo se atuvió a las directrices de voto de Pictet Asset Management, que están diseñadas para apoyar una cultura de gobierno corporativo sólida, una gestión eficaz de las cuestiones medioambientales y sociales, y la publicación de información exhaustiva de acuerdo con normas creíbles. Dichas directrices también pretenden apoyar a los órganos de gobierno mundiales reconocidos que promueven prácticas empresariales sostenibles que abogan por la gestión del medio ambiente, las prácticas laborales justas, la no discriminación y la protección de los derechos humanos. Todas las actividades de voto del fondo se registraron y pueden compartirse previa solicitud.

(iii) implicación

La interacción con los emisores se realizó mediante conversaciones individuales, reuniones de accionistas/bonistas, giras de inversores y/o conferencias telefónicas. Los objetivos de estas interacciones fueron evaluar una organización, supervisar que su estrategia se estaba aplicando conforme a nuestras expectativas y garantizar que los emisores iban camino de cumplir sus metas y objetivos.

Cuando corresponde, nos implicamos con las empresas en relación con cuestiones ASG importantes, como los objetivos de reducción de los GEI, las mejoras en la gobernanza y diversas controversias medioambientales, sociales y de gobernanza, para asegurarnos de que las entendieran y las abordaran eficazmente a corto, medio y largo plazo. Nuestras actividades de implicación combinaron debates dirigidos a nivel interno, iniciativas de colaboración con inversores institucionales y servicios de implicación externos.

(iv) exclusión de emisores asociados a conductas o actividades controvertidas

El fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se definen en la Política de Inversión responsable de la Pictet Asset Management y/o (ii) empresas que infringieron gravemente los principios del Pacto Mundial de la ONU sobre derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción y las armas controvertidas.

¿Cuáles han sido las inversiones principales de este producto financiero?

La lista incluye las inversiones que constituyen la **mayor parte de las inversiones** del producto financiero durante el período de referencia, que es: 01.10.2022 - 30.09.2023

| INVERSIONES DE MAYOR VOLUMEN | SECTOR | % DE ACTIVOS | PAÍS |
|------------------------------|------------------------------|--------------|----------------|
| APPLE INC | Tecnología de la información | 4,4 | Estados Unidos |
| MICROSOFT CORP | Tecnología de la información | 3,0 | Estados Unidos |
| VISA INC-CLASS A SHARES | Financiero | 2,6 | Estados Unidos |

¿Cuál ha sido la proporción de inversiones relacionadas con la sostenibilidad?

52,53%

La **asignación de activos** describe el porcentaje de inversiones en activos específicos.

¿Cuál ha sido la asignación de activos?

El fondo se ajustó en un 99,56% con características medioambientales o sociales (n.º 1 Ajustadas a características medioambientales o sociales) y tuvo hasta un 0,44% invertido en la categoría Otras (n.º 2 Otras). El 52,53% se asignó a inversiones sostenibles (n.º 1A Sostenibles) y el resto se invirtió en inversiones ajustadas a otras características medioambientales o sociales (n.º 1B Otras características medioambientales o sociales).

n.º 1 Ajustadas a características medioambientales o sociales incluye las inversiones del producto financiero utilizadas para lograr las características medioambientales o sociales que promueve el producto financiero.

n.º 2 Otras incluye el resto de inversiones del producto financiero que ni se ajustan a las características medioambientales o sociales ni pueden considerarse inversiones sostenibles.

La categoría n.º 1 Ajustadas a características medioambientales o sociales abarca:

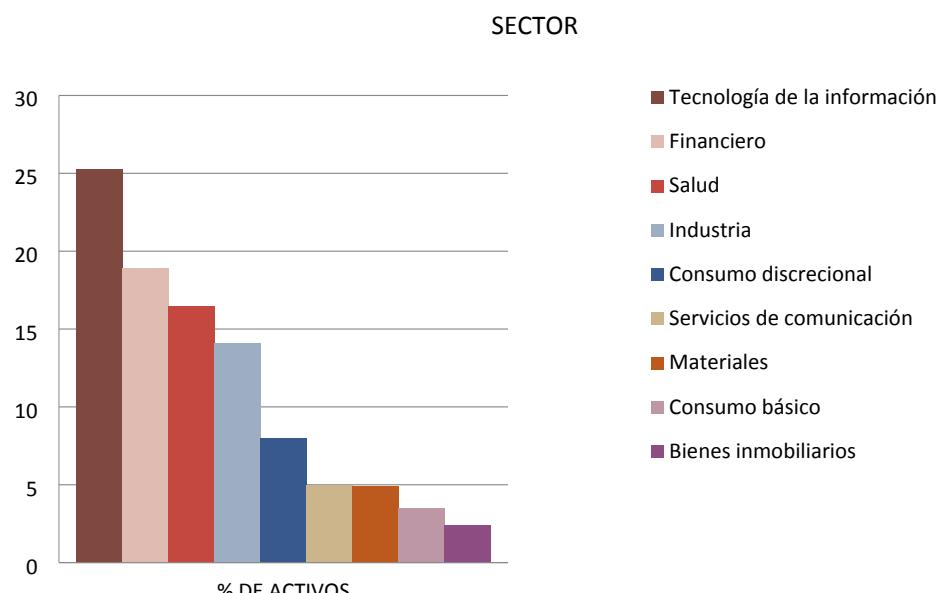

- la subcategoría n.º 1A Sostenibles, que abarca las inversiones sostenibles con objetivos medioambientales o sociales.
- la subcategoría n.º 1B Otras características medioambientales o sociales, que abarca inversiones ajustadas a las características medioambientales o sociales que no pueden considerarse inversiones sostenibles.

Notas:

- Las inversiones «n.º 1A Sostenibles», «Otras medioambientales» y «Sociales» se calcularon sobre una base de aprobado/suspenso. Incluyen bonos certificados (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.
- Las inversiones ajustadas a la taxonomía verde de la UE se calculan ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a la mitigación del cambio climático y la adaptación al mismo) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.
- A falta de una taxonomía social de la UE, Pictet ha desarrollado un marco de taxonomía social propio. El marco se basa en basado en el Informe sobre taxonomía social publicado por la Plataforma de Finanzas Sostenibles de la UE en 2022. Las actividades admisibles se definen como bienes y servicios beneficiosos desde el punto de vista social que contribuyen sustancialmente a uno de los tres objetivos sociales siguientes: (1) comunidades inclusivas y sostenibles, (2) nivel de vida adecuado y bienestar para los usuarios finales y (3) trabajo digno.

Fuente: Pictet Asset Management, Sustainanalytics, FTSE Green Revenues, Factset RB/ICS.

● ¿En qué sectores económicos se han realizado las inversiones?

Fuente: Pictet Asset Management, GICS/MSCI.

Estamos evaluando la disponibilidad y la calidad de los datos que nos permitirían divulgar información más granular en futuros informes sobre los sectores y subsectores de la economía que obtienen ingresos a partir de la exploración, la minería, la extracción, la producción, el procesamiento, el almacenamiento, el refinado o la distribución, incluidos el transporte, el almacenamiento y el comercio, de combustibles fósiles, según se definen en el artículo 2, punto (62), del Reglamento (UE) 2018/1999 del Parlamento Europeo y del Consejo.

¿En qué medida se ajustaban las inversiones sostenibles con un objetivo medioambiental a la taxonomía de la UE?

El fondo realizó inversiones en actividades económicas que contribuyeron a los dos primeros objetivos medioambientales (mitigación del cambio climático y adaptación a este), según lo establecido en el artículo 9 del Reglamento (UE) 2020/852.

Las inversiones ajustadas a la taxonomía de la UE se calcularon ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a objetivos medioambientales relevantes) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.

Los datos de ajuste a la Taxonomía verde de la UE proceden de informes públicos. Los cálculos también pueden incluir estimaciones en un número limitado de casos en los que no se disponía de datos sobre la alineación con la Taxonomía verde de la UE. Las estimaciones se realizaron sobre la base del mejor esfuerzo y siguiendo un planteamiento conservador para obtener un resultado prudente.

Los procedimientos de control se han aplicado para verificar en todo momento el cumplimiento del artículo 3 del Reglamento sobre taxonomía de la UE.

Los datos facilitados no han sido verificados por un auditor externo ni revisados por un tercero independiente.

Para ajustarse a la taxonomía de la UE, los criterios correspondientes al **gas fósil** incluyen limitaciones de emisiones y el paso a la energía renovable o combustibles bajos en carbono de aquí al fin de 2035. Por lo que respecta a la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las actividades que se ajustan a la taxonomía se expresan como un porcentaje de:

- el **volumen de negocios**, que refleja el «carácter ecológico» de las empresas en las que se invierte en la actualidad;
- la **inversión en activo fijo**, que muestra las inversiones ecológicas realizadas por las empresas en las que se invierte, pertinentes para la transición a una economía verde;
- los **gastos de explotación**, que reflejan las actividades operativas ecológicas de las empresas en las que se invierte.

● **¿Invirtió el producto financiero en actividades relacionadas con el gas fósil o la energía nuclear que cumplían con la taxonomía de la UE¹?**

Sí:

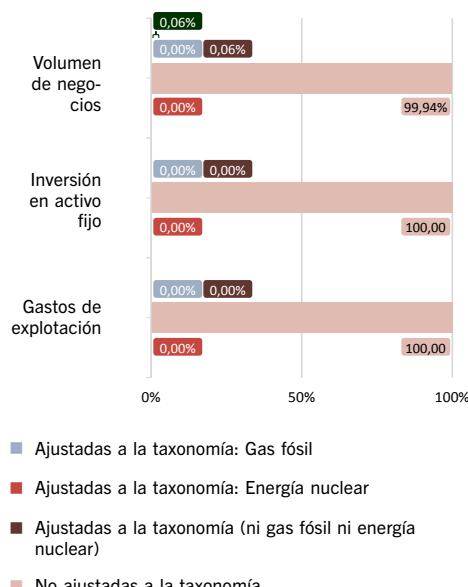

En gas fósil En energía nuclear

No

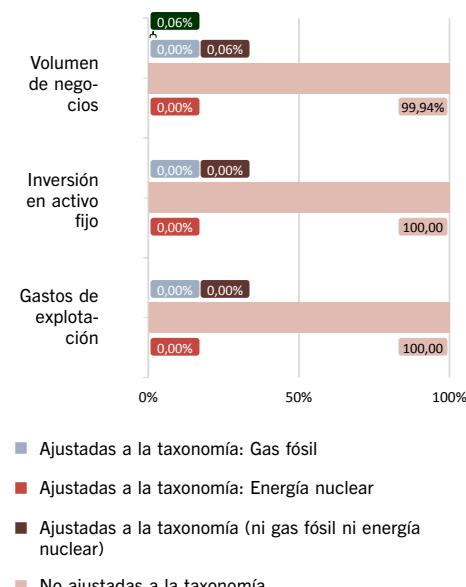

La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permite ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

Los gráficos que figuran a continuación muestran en verde el porcentaje de inversiones que se ajustaban a la taxonomía de la UE. Dado que no existe una metodología adecuada para determinar la adaptación a la taxonomía de los bonos soberanos*, el primer gráfico muestra la adaptación a la taxonomía correspondiente para todas las inversiones del producto financiero, incluidos los bonos soberanos, mientras que el segundo gráfico muestra la adaptación a la taxonomía solo en relación con las inversiones del producto financiero distintas de los bonos soberanos.

1. Ajuste a la taxonomía de las inversiones incluidos los bonos soberanos*

2. Ajuste a la taxonomía de las inversiones excluidos los bonos soberanos*

Este gráfico representa el 99,56% de las inversiones totales.

* A efectos de estos gráficos, los «bonos soberanos» incluyen todas las exposiciones soberanas

¹ Las actividades relacionadas con el gas fósil o la energía nuclear solo cumplirán la taxonomía de la UE cuando contribuyan a limitar el cambio climático («mitigación del cambio climático») y no perjudiquen significativamente ningún objetivo de la taxonomía de la UE (véase la nota explicativa en el margen izquierdo). Los criterios completos correspondientes a las actividades económicas del gas fósil y la energía nuclear que se ajustan a la taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

Nota:

Utilizamos los ingresos como medida clave para establecer la asignación de objetivos y el ajuste real con la taxonomía de la UE debido a la disponibilidad limitada y a la falta de datos fiables para los gastos de explotación y la inversión en activo fijo.

Fuente: Pictet Asset Management.

● **¿Cuál ha sido la proporción de las inversiones realizadas en actividades de transición y facilitadoras?**

La proporción de inversiones realizadas en:

- Actividades de transición: No aplicable*
- Actividades de facilitadoras: No aplicable*

* La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permiten ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

● **¿Qué porcentaje de inversiones se han ajustado a la taxonomía de la UE en comparación con los períodos de referencia anteriores?**

No aplicable.

¿Cuál ha sido la proporción de inversiones sostenibles con un objetivo medioambiental no ajustadas a la taxonomía de la UE?

7,76%

Estas inversiones sostenibles no se ajustan a la Taxonomía de la UE porque sus actividades económicas o bien (i) no están cubiertas por la Taxonomía de la UE, o bien (ii) no cumplen los criterios técnicos de selección para lograr una contribución sustancial en el sentido de la Taxonomía de la UE.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta los criterios para las actividades económicas medioambientalmente sostenibles con arreglo al Reglamento (UE) 2020/852.

¿Cuál ha sido la proporción de inversiones socialmente sostenibles?

44,77%

¿Qué inversiones se han incluido en «otras» y cuál ha sido su propósito? ¿ha habido garantías medioambientales o sociales mínimas?

Las «otras» inversiones del fondo incluían posiciones de tesorería mantenidas principalmente para satisfacer los objetivos diarios de liquidez y gestión de riesgos permitidos y previstos por la política de inversión del fondo. Cuando sea preciso, se aplicarán salvaguardias medioambientales o sociales mínimas a los valores subyacentes.

¿Qué medidas se han adoptado para cumplir las características medioambientales o sociales durante el período de referencia?

Durante el periodo de referencia, se alcanzó el objetivo de inversión sostenible siguiendo la estrategia de inversión y respetando los elementos vinculantes.

Los elementos vinculantes del fondo son:

- Exclusión de emisores que:
 - están relacionados con armas nucleares de países que no han firmado el Tratado sobre la No Proliferación de Armas Nucleares (TNP) y otras armas controvertidas
 - obtienen una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, como la extracción de carbón térmico y la generación de electricidad, la exploración y producción no convencional de petróleo y gas, la producción de petróleo y gas

convencional, la generación de energía nuclear, las armas convencionales y armas pequeñas, la contratación militar de armas y productos y servicios relacionados con las armas, la producción de tabaco, la producción de entretenimiento para adultos, las actividades del juego, el desarrollo y crecimiento de organismos modificados genéticamente, la producción y comercialización de pesticidas. Para más detalles sobre los umbrales de exclusión aplicables a las actividades anteriores, consulte la Política de Inversión responsable de Pictet Asset Management.

- incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción
- análisis de criterios ASG de los valores admisibles que abarca al menos el 90% del patrimonio neto o el número de emisores incluidos en la cartera

Además, el fondo se implicó con 24 empresas a 30.09.2023.

¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

Los índices de referencia son índices para medir si el producto financiero logra las características medioambientales o sociales que promueve.

● ¿Cómo difería el índice de referencia de un índice general de mercado?

No aplicable.

● ¿Cómo se ha comportado este producto financiero con respecto a los indicadores de sostenibilidad para determinar la conformidad del índice de referencia con las características medioambientales o sociales que promueve?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice general de mercado?

No aplicable.

CARACTERÍSTICAS MEDIOAMBIENTALES O SOCIALES

Inversión sostenible
significa una inversión en una actividad económica que contribuye a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo a ningún objetivo medioambiental o social y que las empresas en las que se invierte sigan prácticas de buena gobernanza.

La **taxonomía de la UE** es un sistema de clasificación previsto en el Reglamento (UE) 2020/852 por el que se establece una lista de **actividades económicas medioambientalmente sostenibles**. Dicho Reglamento no prevé una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental pueden ajustarse, o no, a la taxonomía.

| ¿ESTE PRODUCTO FINANCIERO TENÍA UN OBJETIVO DE INVERSIÓN SOSTENIBLE? | | | |
|---|-------------------------------------|---|--|
| <input checked="" type="radio"/> Si | <input type="radio"/> No | <input checked="" type="radio"/> Promovió características medioambientales o sociales y, aunque no tenía como objetivo una inversión sostenible, tuvo un porcentaje del 79,89% de inversiones sostenibles | <input type="radio"/> con un objetivo medioambiental en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> Realizó inversiones sostenibles con un objetivo medioambiental: ____% | <input checked="" type="checkbox"/> | <input checked="" type="checkbox"/> con un objetivo medioambiental en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input type="checkbox"/> con un objetivo social |
| <input type="checkbox"/> en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | | | |
| <input type="checkbox"/> en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | | | |
| <input type="checkbox"/> Realizó inversiones sostenibles con un objetivo social: ____% | <input type="checkbox"/> | <input type="checkbox"/> Ha promovido características medioambientales o sociales, pero no ha realizado ninguna inversión sostenible | |
| | | | |

Nota: Las inversiones sostenibles se calcularon sobre una base de aprobado/suspenso, incluyendo bonos con etiqueta (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% (medida por ingresos, EBIT, valor de empresa o indicadores similares) a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.

¿En qué grado se han cumplido las características medioambientales o sociales que promueve este producto financiero?

Las características medioambientales y sociales de este producto financiero se promovieron utilizando:

- Inclinación positiva:

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos y, como resultado, tuvo un perfil medioambiental, social y de gobernanza (ASG) mejor que el del índice de referencia. El índice MSCI AC World se utilizó para medir la inclinación positiva; sin embargo, no se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

- Exclusiones basadas en normas y valores:

El fondo excluyó los emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente o que incumplen de forma grave las normas internacionales, según se detalla a continuación:

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

Actividad

Umbrales de ingresos

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

| | |
|---|------------------------------------|
| Combustibles fósiles y energía nuclear | |
| Extracción de carbón térmico | > 25% |
| Generación de energía térmica de carbón | > 25% |
| Producción de petróleo y gas | > 25% |
| Extracción de arenas bituminosas | > 10% |
| Extracción de energía de esquisto | > 10% |
| Exploración de petróleo y gas en el Ártico | > 10% |
| Generación de energía nuclear | > 50% |
| Armas | |
| Producción de armas controvertidas ^[1] | > 0% |
| Armas de contratación militar | > 10% |
| Productos y/o servicios relacionados con armas de contratación militar | > 50% |
| Clientes civiles de armas pequeñas (armas de asalto) | > 10% |
| Clientes civiles de armas pequeñas (armas de no asalto) | > 10% |
| Clientes militares/de fuerzas del orden de armas pequeñas | > 25% |
| Componentes clave de armas pequeñas | > 25% |
| Otras actividades controvertidas | |
| Producción de entretenimiento para adultos | > 10% |
| Operaciones de juego | > 10% |
| Desarrollo de plantas y semillas modificadas genéticamente | > 25% |
| Cultivo de plantas y semillas modificadas genéticamente | > 25% |
| Producción de plaguicidas | > 10% |
| Venta al por menor de plaguicidas | > 10% |
| Producción de productos de tabaco | > 10% |
| Exclusiones de empresas por incumplimiento de normas internacionales | Excluidas |
| Empresas que incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción | Sí |
| Exclusiones de países | Excluidas |
| Países (i) incluidos en la lista de Estados patrocinadores del terrorismo, según la definición de la Oficina de Control de Activos Extranjeros de EE. UU. ^[2] o (ii) sujetos a sanciones financieras de la UE contra bancos centrales y/o empresas de propiedad estatal. | Sí |
| Países (i) clasificados como de muy alto o alto riesgo en el Índice de Estados Frágiles o (ii) afectados por conflictos violentos según la definición del Banco Mundial. | Sí |
| Países (i) incluidos en la lista de «alerta» del Índice de Estados Frágiles o (ii) sujetos a sanciones relacionadas con la exportación por parte de la UE. | Lista de vigilancia ^[3] |

[1] Entre las armas controvertidas se encuentran las minas antipersona, las municiones de racimo, las armas biológicas y químicas (incluido el fósforo blanco) y las armas nucleares procedentes de países no firmantes del Tratado de No Proliferación de Armas Nucleares (TNP).

[2] «Estado patrocinador del terrorismo» es una designación aplicada por el Departamento de Estado de Estados Unidos a países que repetidamente han prestado apoyo a actos de terrorismo internacional.

[3] Además de las exclusiones estrictas, Pictet Asset Management mantiene una lista de vigilancia que incluye países que requieren una diligencia debida adicional por parte de los equipos de inversión antes de invertir.

Para más detalles, consulte la Política de Inversión responsable de Pictet Asset Management (Anexo B).

Además de las exclusiones mencionadas, basadas en la Política de Inversión responsable de Pictet Asset Management, la estrategia aplicó límites de exclusión más estrictos basados en directrices internas.

- Titularidad activa:

El fondo ejerció de forma metódica sus derechos de voto y se implicó con la dirección de las empresas sobre cuestiones ASG importantes.

Los indicadores de sostenibilidad miden cómo se alcanzan las características medioambientales o sociales que promueve el producto financiero.

- ¿Cómo se han comportado los indicadores de sostenibilidad?

Durante el periodo de información, los indicadores de sostenibilidad se comportaron según se indica a continuación:

- Perfil ASG global

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos.

Como resultado, el fondo ha conseguido un perfil ambiental, social y de gobernanza (ASG) mejor que el del índice de referencia.

- Principal incidencia adversa (PIA)

El fondo utiliza una combinación de enfoques para considerar y, en la medida de lo posible, mitigar las incidencias adversas materiales de nuestras inversiones en la sociedad y el medioambiente, como emisiones de GEI, contaminación atmosférica, pérdida de biodiversidad, emisiones al agua, residuos peligrosos/radioactivos, derechos humanos, normas laborales, corrupción y soborno, y salud pública.

El grado y la forma en que estas incidencias se tuvieron en cuenta dependieron de factores como el contexto específico de la inversión que provoca la incidencia adversa o la disponibilidad de datos fiables.

De conformidad con la política de exclusión de Pictet Asset Management descrita en la Política de Inversión responsable de la empresa (véase el cuadro anterior para consultar las actividades excluidas y los umbrales de exclusión aplicados), el fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente:

Actividades controvertidas (media ponderada de ingresos de la empresa, en %)*:

| | Fondo (%) | Índice de referencia (%) |
|--|-----------|--------------------------|
| Combustibles fósiles y energía nuclear | 0,00 | 4,15 |
| Armas | 0,23 | 0,99 |
| Otras actividades controvertidas | 0,00 | 1,02 |
| No aplicable: | 0,66 | 0,00 |
| No cubierto: | 0,06 | 0,02 |

* Los combustibles fósiles y la energía nuclear incluyen la extracción de carbón térmico y la generación de electricidad, la producción y extracción de petróleo y gas, la extracción de energía de esquisto, la exploración de petróleo y gas en los mares del Ártico y la generación de energía nuclear. Las armas incluyen la contratación militar (servicios de armas y relacionadas con estas), clientes civiles de armas pequeñas (armas de asalto/no asalto), clientes militares/de las fuerzas y cuerpos de seguridad de armas pequeñas y componentes clave de pequeñas armas. Otras actividades controvertidas incluyen la producción de tabaco, la producción de entretenimiento para adultos, la explotación de juegos de azar, el desarrollo o crecimiento de organismos modificados genéticamente, la producción o venta al por menor de pesticidas. La exposición se basa en datos de terceros y puede no reflejar nuestro punto de vista interno. Pictet Asset Management tiene plena discreción sobre la aplicación de los criterios de exclusión y se reserva el derecho de apartarse de la información de terceros, según el caso, cuando se considere incorrecta o incompleta.

Fuente: Pictet Asset Management, Sustainalytics.

Además, el fondo excluyó a los emisores que tenían exposición a:

(i) PIA 10: Incumplimientos de los principios del Pacto Mundial de las Naciones Unidas y las Directrices para Empresas Multinacionales de la Organización para la Cooperación y el Desarrollo Económicos (OCDE).

(ii) PIA 14: Exposición a armas controvertidas (minas antipersonas, municiones en racimo, armas químicas y armas biológicas)

- **Derechos de voto**

Durante el periodo de referencia, el fondo votó en 37 juntas generales de 37 juntas en las que se podía votar (100,00%). Votamos «en contra» (incluidas «abstenciones» o «retenciones») en al menos una resolución en el 27,03% de las juntas.

De las 490 resoluciones de la dirección, votamos en contra de la dirección en 10 puntos (2,04%) y nos abstuvimos en 7 puntos (1,43%).

Apoyamos 4 (36,36%) resoluciones de accionistas de un total de 11 propuestas.

Por lo que respecta a las cuestiones medioambientales y/o sociales, votamos a favor de 1 de las 1 resoluciones de la dirección y a favor de 3 de las 4 resoluciones de accionistas.

Fuente: *Pictet Asset Management, ISS ESG*.

- **Interacción**

El fondo se implicó con 12 empresas sobre cuestiones ASG (datos a 30.09.2023). Esto incluye diálogos internos, iniciativas de colaboración entre inversores y servicios de implicación de terceros. Para que se considere implicación, el diálogo con una empresa objetivo debe tener un objetivo claro y mensurable en un horizonte temporal predefinido. Es importante señalar que no todas las interacciones rutinarias o de supervisión, aunque impliquen a la alta dirección o al Consejo de administración, se consideran implicaciones en nuestra evaluación.

Fuente: *Pictet Asset Management, Sustainalytics*.

- **¿... y en comparación con períodos anteriores?**

Esta cuestión se abordará en futuros informes anuales debido a la falta de historial.

- **¿Cuáles han sido los objetivos de las inversiones sostenibles que ha realizado en parte el producto financiero y de qué forma ha contribuido la inversión sostenible a dichos objetivos?**

El fondo no se comprometió a un porcentaje mínimo de inversiones sostenibles.

Sin embargo, *a posteriori*, el fondo invirtió en valores que financian actividades económicas que contribuyeron sustancialmente a objetivos medioambientales y/o sociales como:

Medioambientales

- mitigación del cambio climático o adaptación al mismo
- suso sostenible y protección de los recursos hídricos y marinos
- transición hacia una economía circular
- prevención y control de la contaminación o
- protección y recuperación de la biodiversidad y los ecosistemas

Sociales

- comunidades inclusivas y sostenibles
- nivel de vida adecuado y bienestar para los usuarios finales o
- trabajo digno

Pictet Asset Management utilizó un marco de referencia propio, así como los objetivos de la Taxonomía de la UE, para definir las inversiones sostenibles.

- **¿De qué manera las inversiones sostenibles que el producto financiero ha realizado en parte, no han causado un perjuicio significativo a ningún objetivo de inversión sostenible medioambiental o social?**

Para evitar que las inversiones sostenibles causen un perjuicio significativo a cualquier otro objetivo medioambiental o social, el fondo aplicó los siguientes criterios de selección sobre la base del mejor esfuerzo:

(i) Exclusiones de emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente (véase la descripción del marco de exclusión de IR).

(ii) Los emisores asociados a controversias elevadas y graves no se contabilizaron como inversiones sostenibles.

La información se obtuvo de proveedores tercero y/o de análisis interno. La información ASG de terceros proveedores de datos puede haber sido incompleta, inexacta o no estar disponible. Como consecuencia de ello, existía el riesgo de que el Gestor de inversiones evaluará incorrectamente un valor o emisor, dando lugar a la inclusión o exclusión incorrecta de un valor en el fondo. Los datos ASG incompletos, inexactos o no disponibles también pueden actuar como una limitación

metodológica a una estrategia de inversión no financiera (como la aplicación de criterios ASG o similares). En los casos identificados, el Gestor de inversiones trató de mitigar este riesgo mediante su propia evaluación. En caso de que las características ASG de un valor mantenido por el fondo cambiaran, dando lugar a la venta del valor, el Gestor de inversiones no acepta responsabilidad alguna en relación con dicho cambio.

● *¿Cómo se han tenido en cuenta los indicadores adversas sobre los factores de sostenibilidad?*

Pictet Asset Management realiza un seguimiento de todos los indicadores obligatorios de principales incidencias adversas (incluidos en el Anexo 1 del Reglamento Delegado (UE) 22 / 1288 de la Comisión) cuando disponemos de datos sólidos. Se espera que la calidad de los datos disponibles mejore con el tiempo.

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas de sus inversiones en la sociedad y el medioambiente que se consideran importantes para la estrategia de inversión, mediante un conjunto de decisiones de gestión de cartera, actividades de propiedad activa y exclusión de emisores asociados a conductas o actividades controvertidas. Más información en el informe de PIA de la entidad, disponible en:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=es&bl=PAM>

● *¿Se han ajustado las inversiones sostenibles a las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios rectores de las Naciones Unidas sobre las empresas y los derechos humanos?*

Para garantizar que la inversión sostenible no causara un perjuicio significativo a ningún objetivo de inversión sostenible, el fondo excluyó a las empresas con infracciones elevadas y graves de (i) los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción o (ii) las Líneas Directrices de la OCDE para Empresas Multinacionales, incluidos los asuntos sociales y laborales graves.

La taxonomía de la UE establece el principio de «no causar un perjuicio significativo», según el cual las inversiones que se ajusten a la taxonomía no deben perjudicar significativamente a los objetivos de la taxonomía de la UE, e incluye criterios específicos de la Unión.

El principio de «no perjudicar de forma significativa» se aplica únicamente a las inversiones subyacentes del producto financiero que contemplan los criterios de la UE relativos a actividades económicas sostenibles desde una perspectiva medioambiental. Las inversiones subyacentes al resto del producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas medioambientalmente sostenibles.

Cualquier otra inversión sostenible tampoco debe perjudicar significativamente a ningún objetivo medioambiental o social.

 **¿Cómo tiene en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?**

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas que se consideran importantes para la estrategia de inversión. Entre las incidencias adversas se incluyeron, entre otras, las emisiones de gases de efecto invernadero (GEI), la contaminación atmosférica, la pérdida de biodiversidad, las emisiones al agua, los residuos peligrosos/radioactivos, las cuestiones sociales y laborales, y la corrupción y el soborno, que se abordaron mediante una combinación de:

(i) decisiones de gestión de carteras

El equipo de inversión puntuó las posiciones según una evaluación de los riesgos y oportunidades medioambientales, sociales y de gobernanza como parte del marco de puntuación del fondo. Las puntuaciones se determinan de forma cualitativa por los gestores de inversión, basándose en estudios fundamentales y datos cuantitativos ASG, incluidos los datos sobre el Principio de Impacto Negativo, los datos ASG facilitados por las empresas y los datos proporcionados por terceros proveedores de datos ASG. El proceso de puntuación del equipo de inversión fue un componente clave del proceso de construcción de la cartera del compartimento, determinando las ponderaciones objetivo en la cartera.

(ii) voto por delegación

El fondo se atuvo a las directrices de voto de Pictet Asset Management, que están diseñadas para apoyar una cultura de gobierno corporativo sólida, una gestión eficaz de las cuestiones medioambientales y sociales, y la publicación de información exhaustiva de acuerdo con normas creíbles. Dichas directrices también pretenden apoyar a los órganos de gobierno mundiales reconocidos

que promueven prácticas empresariales sostenibles que abogan por la gestión del medio ambiente, las prácticas laborales justas, la no discriminación y la protección de los derechos humanos. Todas las actividades de voto del fondo se registraron y pueden compartirse previa solicitud.

(iii) implicación

La interacción con los emisores se realizó mediante conversaciones individuales, reuniones de accionistas/bonistas, giras de inversores y/o conferencias telefónicas. Los objetivos de estas interacciones fueron evaluar una organización, supervisar que su estrategia se estaba aplicando conforme a nuestras expectativas y garantizar que los emisores iban camino de cumplir sus metas y objetivos.

Cuando corresponde, nos implicamos con las empresas en relación con cuestiones ASG importantes, como los objetivos de reducción de los GEI, las mejoras en la gobernanza y diversas controversias medioambientales, sociales y de gobernanza, para asegurarnos de que las entendieran y las abordaran eficazmente a corto, medio y largo plazo. Nuestras actividades de implicación combinaron debates dirigidos a nivel interno, iniciativas de colaboración con inversores institucionales y servicios de implicación externos.

(iv) exclusión de emisores asociados a conductas o actividades controvertidas

El fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se definen en la Política de Inversión responsable de la Pictet Asset Management y/o (ii) empresas que infringieron gravemente los principios del Pacto Mundial de la ONU sobre derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción y las armas controvertidas.

¿Cuáles han sido las inversiones principales de este producto financiero?

| INVERSIONES DE MAYOR VOLUMEN | SECTOR | % DE ACTIVOS | PAÍS |
|------------------------------|------------------------------|--------------|----------------|
| SALESFORCE INC | Tecnología de la información | 6,1 | Estados Unidos |
| ALPHABET INC-CL C | Servicios de comunicación | 5,7 | Estados Unidos |
| SIEMENS AG-REG | Industria | 5,3 | Alemania |
| SYNOPSYS INC | Tecnología de la información | 4,3 | Estados Unidos |
| KLA CORP | Tecnología de la información | 4,0 | Estados Unidos |
| INFINEON TECHNOLOGIES AG | Tecnología de la información | 3,8 | Alemania |
| ASML HOLDING NV | Tecnología de la información | 3,7 | Países Bajos |
| MICROCHIP TECHNOLOGY INC | Tecnología de la información | 3,5 | Estados Unidos |
| NXP SEMICONDUCTORS NV | Tecnología de la información | 3,5 | Países Bajos |
| TAIWAN SEMICONDUCTOR MANUFAC | Tecnología de la información | 3,4 | Taiwán |
| SPLUNK INC | Tecnología de la información | 3,4 | Estados Unidos |
| ADVANCED MICRO DEVICES | Tecnología de la información | 3,4 | Estados Unidos |

Fuente: Pictet Asset Management, GICS/MSCI.

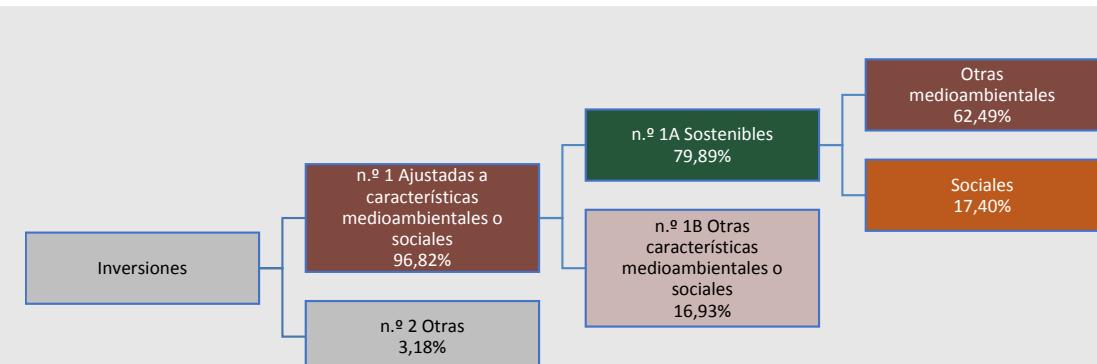

¿Cuál ha sido la proporción de inversiones relacionadas con la sostenibilidad?

79,89%

● ¿Cuál ha sido la asignación de activos?

El fondo se ajustó en un 96,82% con características medioambientales o sociales (n.º 1 Ajustadas a características medioambientales o sociales) y tuvo hasta un 3,18% invertido en la categoría Otras (n.º 2 Otras). El 79,89% se asignó a inversiones sostenibles (n.º 1A Sostenibles) y el resto se invirtió en inversiones ajustadas a otras características medioambientales o sociales (n.º 1B Otras características medioambientales o sociales).

La asignación de activos describe el porcentaje de inversiones en activos específicos.

n.º 1 Ajustadas a características medioambientales o sociales incluye las inversiones del producto financiero utilizadas para lograr las características medioambientales o sociales que promueve el producto financiero.

n.º 2 Otras incluye el resto de inversiones del producto financiero que ni se ajustan a las características medioambientales o sociales ni pueden considerarse inversiones sostenibles.

La categoría n.º 1 Ajustadas a características medioambientales o sociales abarca:

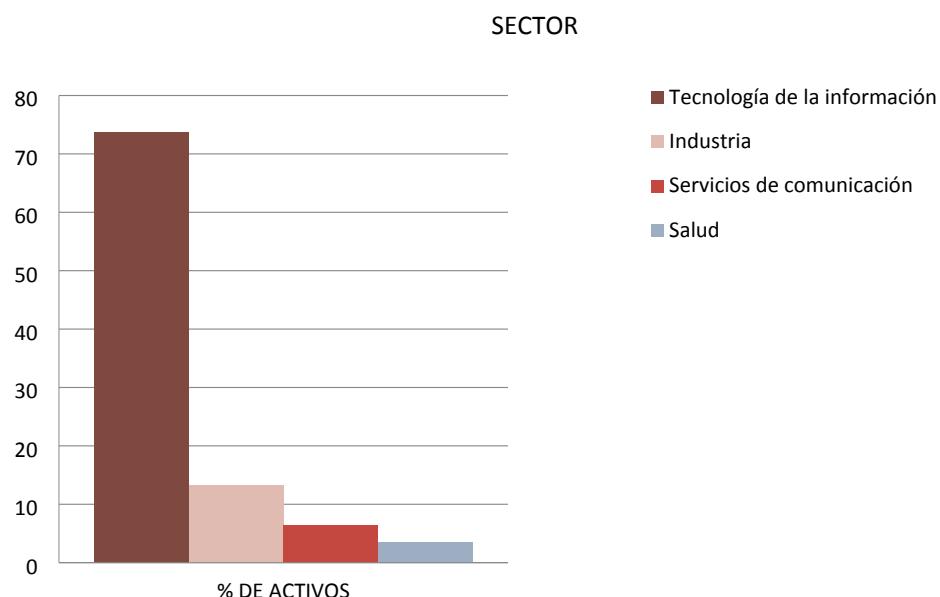

- la subcategoría n.º 1A Sostenibles, que abarca las inversiones sostenibles con objetivos medioambientales o sociales.
- la subcategoría n.º 1B Otras características medioambientales o sociales, que abarca inversiones ajustadas a las características medioambientales o sociales que no pueden considerarse inversiones sostenibles.

Notas:

- Las inversiones «n.º 1A Sostenibles», «Otras medioambientales» y «Sociales» se calcularon sobre una base de aprobado/suspenso. Incluyen bonos certificados (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.
- A falta de una taxonomía social de la UE, Pictet ha desarrollado un marco de taxonomía social propio. El marco se basa en basado en el Informe sobre taxonomía social publicado por la Plataforma de Finanzas Sostenibles de la UE en 2022. Las actividades admisibles se definen como bienes y servicios beneficiosos desde el punto de vista social que contribuyen sustancialmente a uno de los tres objetivos sociales siguientes: (1) comunidades inclusivas y sostenibles, (2) nivel de vida adecuado y bienestar para los usuarios finales y (3) trabajo digno.

Fuente: Pictet Asset Management, Sustainanalytics, FTSE Green Revenues, Factset RBICS.

● ¿En qué sectores económicos se han realizado las inversiones?

Fuente: Pictet Asset Management, GICS/MSCI.

Estamos evaluando la disponibilidad y la calidad de los datos que nos permitirían divulgar información más granular en futuros informes sobre los sectores y subsectores de la economía que obtienen ingresos a partir de la exploración, la minería, la extracción, la producción, el

procesamiento, el almacenamiento, el refinado o la distribución, incluidos el transporte, el almacenamiento y el comercio, de combustibles fósiles, según se definen en el artículo 2, punto (62), del Reglamento (UE) 2018/1999 del Parlamento Europeo y del Consejo.

¿En qué medida se ajustaban las inversiones sostenibles con un objetivo medioambiental a la taxonomía de la UE?

No aplicable.

● ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil o la energía nuclear que cumplían con la taxonomía de la UE¹?

Sí:

En gas fósil En energía nuclear

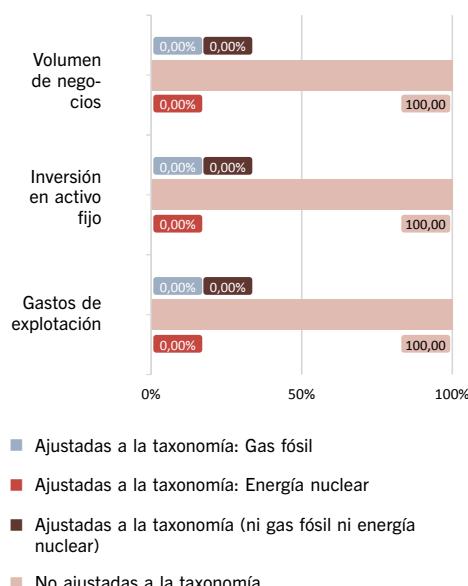

No

Para ajustarse a la taxonomía de la UE, los criterios correspondientes al **gas fósil** incluyen limitaciones de emisiones y el paso a la energía renovable o combustibles bajos en carbono de aquí al fin de 2035. Por lo que respecta a la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

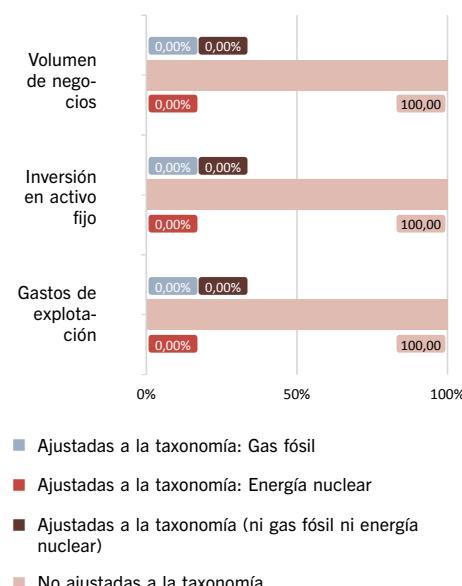

Las actividades que se ajustan a la taxonomía se expresan como un porcentaje de:
- el **volumen de negocios**, que refleja el «carácter ecológico» de las empresas en las que se invierte en la actualidad;
- la **inversión en activo fijo**, que muestra las inversiones ecológicas realizadas por las empresas en las que se invierte, pertinentes para la transición a una economía verde;
- los **gastos de explotación**, que reflejan las actividades operativas ecológicas de las empresas en las que se invierte.

Los gráficos que figuran a continuación muestran en verde el porcentaje de inversiones que se ajustaban a la taxonomía de la UE. Dado que no existe una metodología adecuada para determinar la adaptación a la taxonomía de los bonos soberanos*, el primer gráfico muestra la adaptación a la taxonomía correspondiente para todas las inversiones del producto financiero, incluidos los bonos soberanos, mientras que el segundo gráfico muestra la adaptación a la taxonomía solo en relación con las inversiones del producto financiero distintas de los bonos soberanos.

1. Ajuste a la taxonomía de las inversiones incluidos los bonos soberanos*

2. Ajuste a la taxonomía de las inversiones excluidos los bonos soberanos*

Este gráfico representa el 96,82% de las inversiones totales.

* A efectos de estos gráficos, los «bonos soberanos» incluyen todas las exposiciones soberanas

● ¿Cuál ha sido la proporción de las inversiones realizadas en actividades de transición y facilitadoras?

No aplicable.

¹ Las actividades relacionadas con el gas fósil o la energía nuclear solo cumplirán la taxonomía de la UE cuando contribuyan a limitar el cambio climático («mitigación del cambio climático») y no perjudiquen significativamente ningún objetivo de la taxonomía de la UE (véase la nota explicativa en el margen izquierdo). Los criterios completos correspondientes a las actividades económicas del gas fósil y la energía nuclear que se ajustan a la taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

- ¿Qué porcentaje de inversiones se han ajustado a la taxonomía de la UE en comparación con los períodos de referencia anteriores?

No aplicable.

¿Cuál ha sido la proporción de inversiones sostenibles con un objetivo medioambiental no ajustadas a la taxonomía de la UE?

62,49%

Estas inversiones sostenibles no se ajustan a la Taxonomía de la UE porque sus actividades económicas o bien (i) no están cubiertas por la Taxonomía de la UE, o bien (ii) no cumplen los criterios técnicos de selección para lograr una contribución sustancial en el sentido de la Taxonomía de la UE.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta los criterios para las actividades económicas medioambientalmente sostenibles con arreglo al Reglamento (UE) 2020/852.

¿Cuál ha sido la proporción de inversiones socialmente sostenibles?

17,4%

¿Qué inversiones se han incluido en «otras» y cuál ha sido su propósito? ¿ha habido garantías medioambientales o sociales mínimas?

Las «otras» inversiones del fondo incluían posiciones de tesorería mantenidas principalmente para satisfacer los objetivos diarios de liquidez y gestión de riesgos permitidos y previstos por la política de inversión del fondo. Cuando sea preciso, se aplicarán salvaguardias medioambientales o sociales mínimas a los valores subyacentes.

¿Qué medidas se han adoptado para cumplir las características medioambientales o sociales durante el período de referencia?

Durante el periodo de referencia, se alcanzó el objetivo de inversión sostenible siguiendo la estrategia de inversión y respetando los elementos vinculantes.

Los elementos vinculantes del fondo son:

- Exclusión de emisores que:
 - participan en la producción de armas controvertidas, incluidas minas antipersona, municiones de racimo, armas biológicas y químicas, armas nucleares y uranio empobrecido
 - obtienen una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, como la extracción de carbón térmico y la generación de electricidad, la exploración y producción no convencional de petróleo y gas, la producción de petróleo y gas convencional, la generación de energía nuclear, las armas convencionales y armas pequeñas, la contratación militar de armas y productos y servicios relacionados con las armas, la producción de tabaco, la producción de entretenimiento para adultos, las actividades del juego, el desarrollo y crecimiento de organismos modificados genéticamente, la producción y comercialización de pesticidas. Para más detalles sobre los umbrales de exclusión aplicables a las actividades anteriores, consulte la Política de Inversión responsable de Pictet Asset Management.
 - incumplen gravemente normas internacionales, incluidos los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción
- un perfil ASG mejor que el del índice de referencia
- análisis de criterios ASG de los valores admisibles que abarca al menos el 90% del patrimonio neto o el número de emisores incluidos en la cartera

Además, el fondo se implicó con 12 empresas a 30.09.2023.

¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

Los índices de referencia son índices para medir si el producto financiero logra las características medioambientales o sociales que promueve.

● ¿Cómo difería el índice de referencia de un índice general de mercado?

No aplicable.

● ¿Cómo se ha comportado este producto financiero con respecto a los indicadores de sostenibilidad para determinar la conformidad del índice de referencia con las características medioambientales o sociales que promueve?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice general de mercado?

No aplicable.

CARACTERÍSTICAS MEDIOAMBIENTALES O SOCIALES

Inversión sostenible
significa una inversión en una actividad económica que contribuye a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo a ningún objetivo medioambiental o social y que las empresas en las que se invierte sigan prácticas de buena gobernanza.

La **taxonomía de la UE** es un sistema de clasificación previsto en el Reglamento (UE) 2020/852 por el que se establece una lista de **actividades económicas medioambientalmente sostenibles**. Dicho Reglamento no prevé una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental pueden ajustarse, o no, a la taxonomía.

| ¿ESTE PRODUCTO FINANCIERO TENÍA UN OBJETIVO DE INVERSIÓN SOSTENIBLE? | | | |
|--|--|-------------------------------------|--|
| <input checked="" type="radio"/> Si | | <input checked="" type="radio"/> No | |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo medioambiental: ____% | <input checked="" type="checkbox"/> | Promovió características medioambientales o sociales y, aunque no tenía como objetivo una inversión sostenible, tuvo un porcentaje del 86,67% de inversiones sostenibles |
| <input type="checkbox"/> | en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> | con un objetivo medioambiental en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> | en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> | con un objetivo medioambiental en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo social: ____% | <input type="checkbox"/> | con un objetivo social |
| <input type="checkbox"/> | | <input type="checkbox"/> | Ha promovido características medioambientales o sociales, pero no ha realizado ninguna inversión sostenible |

Nota: Las inversiones sostenibles se calcularon sobre una base de aprobado/suspenso, incluyendo bonos con etiqueta (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% (medida por ingresos, EBIT, valor de empresa o indicadores similares) a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.

¿En qué grado se han cumplido las características medioambientales o sociales que promueve este producto financiero?

Las características medioambientales y sociales de este producto financiero se promovieron utilizando:

- Impacto positivo:

El fondo logró un impacto medioambiental y/o social positivo, invirtiendo principalmente en empresas que pueden beneficiarse de las temáticas globales a largo plazo resultantes de cambios seculares en factores económicos, sociales y medioambientales, como la demografía, el estilo de vida o la normativa.

El fondo invirtió principalmente en empresas cuyas actividades están relacionadas en gran medida con los productos y servicios que contribuyen a la transición energética, la economía circular, la eficiencia energética, la calidad y el suministro del agua, los bosques sostenibles, las ciudades sostenibles, la alimentación, la salud y las terapias humanas, y la autorrealización y seguridad personal, y otras actividades económicas relevantes.

No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

- Exclusiones basadas en normas y valores:

El fondo excluyó los emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente o que incumplen de forma grave las normas internacionales, según se detalla a continuación:

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

| Actividad | Umbrales de ingresos |
|---|----------------------|
| Combustibles fósiles y energía nuclear | |
| Extracción de carbón térmico | > 25% |
| Generación de energía térmica de carbón | > 25% |
| Producción de petróleo y gas | > 25% |
| Extracción de arenas bituminosas | > 10% |
| Extracción de energía de esquisto | > 10% |
| Exploración de petróleo y gas en el Ártico | > 10% |
| Generación de energía nuclear | > 50% |
| Armas | |
| Producción de armas controvertidas[1] | > 0% |
| Armas de contratación militar | > 10% |
| Productos y/o servicios relacionados con armas de contratación militar | > 50% |
| Clientes civiles de armas pequeñas (armas de asalto) | > 10% |
| Clientes civiles de armas pequeñas (armas de no asalto) | > 10% |
| Clientes militares/de fuerzas del orden de armas pequeñas | > 25% |
| Componentes clave de armas pequeñas | > 25% |
| Otras actividades controvertidas | |
| Producción de entretenimiento para adultos | > 10% |
| Operaciones de juego | > 10% |
| Desarrollo de plantas y semillas modificadas genéticamente | > 25% |
| Cultivo de plantas y semillas modificadas genéticamente | > 25% |
| Producción de plaguicidas | > 10% |
| Venta al por menor de plaguicidas | > 10% |
| Producción de productos de tabaco | > 10% |
| Exclusiones de empresas por incumplimiento de normas internacionales | Excluidas |
| Empresas que incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción | Sí |
| Exclusiones de países | Excluidas |
| Países (i) incluidos en la lista de Estados patrocinadores del terrorismo, según la definición de la Oficina de Control de Activos Extranjeros de EE. UU.[2] o (ii) sujetos a sanciones financieras de la UE contra bancos centrales y/o empresas de propiedad estatal. | Sí |
| Países (i) clasificados como de muy alto o alto riesgo en el Índice de Estados Frágiles o (ii) afectados por conflictos violentos según la definición del Banco Mundial. | Sí |

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

Países (i) incluidos en la lista de «alerta» del Índice de Estados Frágiles o (ii) sujetos a sanciones relacionadas con la exportación por parte de la UE. Lista de vigilancia[3]

[1] Entre las armas controvertidas se encuentran las minas antipersona, las municiones de racimo, las armas biológicas y químicas (incluido el fósforo blanco) y las armas nucleares procedentes de países no firmantes del Tratado de No Proliferación de Armas Nucleares (TNP).

[2] «Estado patrocinador del terrorismo» es una designación aplicada por el Departamento de Estado de Estados Unidos a países que repetidamente han prestado apoyo a actos de terrorismo internacional.

[3] Además de las exclusiones estrictas, Pictet Asset Management mantiene una lista de vigilancia que incluye países que requieren una diligencia debida adicional por parte de los equipos de inversión antes de invertir.

Para más detalles, consulte la Política de Inversión responsable de Pictet Asset Management (Anexo B).

Además de las exclusiones mencionadas, basadas en la Política de Inversión responsable de Pictet Asset Management, la estrategia aplicó límites de exclusión más estrictos basados en directrices internas.

- Titularidad activa:

El fondo ejerció de forma metódica sus derechos de voto y se implicó con la dirección de las empresas sobre cuestiones ASG importantes.

● ¿Cómo se han comportado los indicadores de sostenibilidad?

Durante el periodo de información, los indicadores de sostenibilidad se comportaron según se indica a continuación:

- Exposición a empresas que obtienen una parte significativa de sus ingresos, EBIT, valor de empresa o parámetros similares de actividades económicas que contribuyen a los objetivos medioambientales o sociales, y bonos con etiqueta cuando sea relevante para la clase de activos (inversiones sostenibles):

86,67%

- Exposición a ingresos de actividades económicas que contribuyen a la mitigación del cambio climático y/o a la adaptación al mismo (inversiones ajustadas a la taxonomía de la UE):

1,31%

En el informe del próximo año se facilitará información adicional sobre objetivos medioambientales y/o sociales específicos.

- Perfil ASG global

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos.

Como resultado, el fondo ha conseguido un perfil ambiental, social y de gobernanza (ASG) mejor que el del índice de referencia.

- Principal incidencia adversa (PIA)

El fondo utiliza una combinación de enfoques para considerar y, en la medida de lo posible, mitigar las incidencias adversas materiales de nuestras inversiones en la sociedad y el medioambiente, como emisiones de GEI, contaminación atmosférica, pérdida de biodiversidad, emisiones al agua, residuos peligrosos/radioactivos, derechos humanos, normas laborales, corrupción y soborno, y salud pública.

El grado y la forma en que estas incidencias se tuvieron en cuenta dependieron de factores como el contexto específico de la inversión que provoca la incidencia adversa o la disponibilidad de datos fiables.

Los indicadores de sostenibilidad miden cómo se alcanzan las características medioambientales o sociales que promueve el producto financiero.

De conformidad con la política de exclusión de Pictet Asset Management descrita en la Política de Inversión responsable de la empresa (véase el cuadro anterior para consultar las actividades excluidas y los umbrales de exclusión aplicados), el fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente:

Actividades controvertidas (media ponderada de ingresos de la empresa, en %)*:

| | Fondo (%) | Índice de referencia (%) |
|--|-----------|--------------------------|
| Combustibles fósiles y energía nuclear | 0,42 | 4,15 |
| Armas | 0,10 | 0,99 |
| Otras actividades controvertidas | 0,02 | 1,02 |
| No aplicable: | 0,65 | 0,00 |
| No cubierto: | 0,04 | 0,02 |

* Los combustibles fósiles y la energía nuclear incluyen la extracción de carbón térmico y la generación de electricidad, la producción y extracción de petróleo y gas, la extracción de energía de esquisto, la exploración de petróleo y gas en los mares del Ártico y la generación de energía nuclear. Las armas incluyen la contratación militar (servicios de armas y relacionadas con estas), clientes civiles de armas pequeñas (armas de asalto/no asalto), clientes militares/de las fuerzas y cuerpos de seguridad de armas pequeñas y componentes clave de pequeñas armas. Otras actividades controvertidas incluyen la producción de tabaco, la producción de entretenimiento para adultos, la explotación de juegos de azar, el desarrollo o crecimiento de organismos modificados genéticamente, la producción o venta al por menor de pesticidas. La exposición se basa en datos de terceros y puede no reflejar nuestro punto de vista interno. Pictet Asset Management tiene plena discreción sobre la aplicación de los criterios de exclusión y se reserva el derecho de apartarse de la información de terceros, según el caso, cuando se considere incorrecta o incompleta.

Fuente: Pictet Asset Management, Sustainalytics.

Además, el fondo excluyó a los emisores que tenían exposición a:

- (i) PIA 10: Incumplimientos de los principios del Pacto Mundial de las Naciones Unidas y las Directrices para Empresas Multinacionales de la Organización para la Cooperación y el Desarrollo Económicos (OCDE).
- (ii) PIA 14: Exposición a armas controvertidas (minas antipersonas, municiones en racimo, armas químicas y armas biológicas)

• Derechos de voto

Durante el periodo de referencia, el fondo votó en 54 juntas generales de 55 juntas en las que se podía votar (98,18%). Votamos «en contra» (incluidas «abstenciones» o «retenciones») en al menos una resolución en el 25,45% de las juntas.

De las 719 resoluciones de la dirección, votamos en contra de la dirección en 35 puntos (4,87%) y nos abstuvimos en 6 puntos (0,83%).

Apoyamos 21 (72,41%) resoluciones de accionistas de un total de 29 propuestas.

Por lo que respecta a las cuestiones medioambientales y/o sociales, votamos a favor de 2 de las 2 resoluciones de la dirección y a favor de 16 de las 21 resoluciones de accionistas.

Fuente: Pictet Asset Management, ISS ESG.

• Interacción

El fondo se implicó con 22 empresas sobre cuestiones ASG (datos a 30.09.2023). Esto incluye diálogos internos, iniciativas de colaboración entre inversores y servicios de implicación de terceros. Para que se considere implicación, el diálogo con una empresa objetivo debe tener un objetivo claro y mensurable en un horizonte temporal predefinido. Es importante señalar que no todas las interacciones rutinarias o de supervisión, aunque impliquen a la alta dirección o al Consejo de administración, se consideran implicaciones en nuestra evaluación.

Fuente: Pictet Asset Management, Sustainalytics.

• ¿... y en comparación con períodos anteriores?

Esta cuestión se abordará en futuros informes anuales debido a la falta de historial.

● **¿Cuáles han sido los objetivos de las inversiones sostenibles que ha realizado en parte el producto financiero y de qué forma ha contribuido la inversión sostenible a dichos objetivos?**

Pictet Asset Management utilizó marcos de referencia propios, así como los objetivos de la Taxonomía de la UE, para definir las inversiones sostenibles.

El fondo invirtió en valores que financiaban actividades económicas que contribuyeron sustancialmente a objetivos medioambientales y/o sociales como:

Medioambientales

- mitigación del cambio climático o adaptación al mismo
- uso sostenible y protección de los recursos hídricos y marinos
- transición hacia una economía circular
- prevención y control de la contaminación o
- protección y recuperación de la biodiversidad y los ecosistemas

Sociales

- comunidades inclusivas y sostenibles
- nivel de vida adecuado y bienestar para los usuarios finales o
- trabajo digno

● **¿De qué manera las inversiones sostenibles que el producto financiero ha realizado en parte, no han causado un perjuicio significativo a ningún objetivo de inversión sostenible medioambiental o social?**

Para evitar que las inversiones sostenibles causen un perjuicio significativo a cualquier otro objetivo medioambiental o social, el fondo aplicó los siguientes criterios de selección sobre la base del mejor esfuerzo:

(i) Exclusiones de emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente (véase la descripción del marco de exclusión de IR).

(ii) Los emisores asociados a controversias elevadas y graves no se contabilizaron como inversiones sostenibles.

La información se obtuvo de proveedores terceros y/o de análisis interno. La información ASG de terceros proveedores de datos puede haber sido incompleta, inexacta o no estar disponible. Como consecuencia de ello, existía el riesgo de que el Gestor de inversiones evaluara incorrectamente un valor o emisor, dando lugar a la inclusión o exclusión incorrecta de un valor en el fondo. Los datos ASG incompletos, inexactos o no disponibles también pueden actuar como una limitación metodológica a una estrategia de inversión no financiera (como la aplicación de criterios ASG o similares). En los casos identificados, el Gestor de inversiones trató de mitigar este riesgo mediante su propia evaluación. En caso de que las características ASG de un valor mantenido por el fondo cambiaran, dando lugar a la venta del valor, el Gestor de inversiones no acepta responsabilidad alguna en relación con dicho cambio.

● **¿Cómo se han tenido en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?**

Pictet Asset Management realiza un seguimiento de todos los indicadores obligatorios de principales incidencias adversas (incluidos en el Anexo 1 del Reglamento Delegado (UE) 22 / 1288 de la Comisión) cuando disponemos de datos sólidos. Se espera que la calidad de los datos disponibles mejore con el tiempo.

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas de sus inversiones en la sociedad y el medioambiente que se consideran importantes para la estrategia de inversión, mediante un conjunto de decisiones de gestión de cartera, actividades de propiedad activa y exclusión de emisores asociados a conductas o actividades controvertidas. Más información en el informe de PIA de la entidad, disponible en:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=es&bl=PAM>

● **¿Se han ajustado las inversiones sostenibles a las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios rectores de las Naciones Unidas sobre las empresas y los derechos humanos?**

Para garantizar que la inversión sostenible no causara un perjuicio significativo a ningún objetivo de inversión sostenible, el fondo excluyó a las empresas con infracciones elevadas y graves de (i) los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos,

Las principales incidencias adversas
son las incidencias negativas más importantes de las decisiones de inversión sobre los factores de sostenibilidad en relación con asuntos medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

normas laborales, protección del medioambiente y lucha contra la corrupción o (ii) las Líneas Directrices de la OCDE para Empresas Multinacionales, incluidos los asuntos sociales y laborales graves.

La taxonomía de la UE establece el principio de «no causar un perjuicio significativo», según el cual las inversiones que se ajusten a la taxonomía no deben perjudicar significativamente a los objetivos de la taxonomía de la UE, e incluye criterios específicos de la Unión.

El principio de «no perjudicar de forma significativa» se aplica únicamente a las inversiones subyacentes del producto financiero que contemplan los criterios de la UE relativos a actividades económicas sostenibles desde una perspectiva medioambiental. Las inversiones subyacentes al resto del producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas medioambientalmente sostenibles.

Cualquier otra inversión sostenible tampoco debe perjudicar significativamente a ningún objetivo medioambiental o social.

¿Cómo tiene en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas que se consideran importantes para la estrategia de inversión. Entre las incidencias adversas se incluyeron, entre otras, las emisiones de gases de efecto invernadero (GEI), la contaminación atmosférica, la pérdida de biodiversidad, las emisiones al agua, los residuos peligrosos/radioactivos, las cuestiones sociales y laborales, y la corrupción y el soborno, que se abordaron mediante una combinación de:

(i) decisiones de gestión de carteras

El equipo de inversión puntuó las posiciones según una evaluación de los riesgos y oportunidades medioambientales, sociales y de gobernanza como parte del marco de puntuación del fondo. Las puntuaciones se determinan de forma cualitativa por los gestores de inversión, basándose en estudios fundamentales y datos cuantitativos ASG, incluidos los datos sobre el Principio de Impacto Negativo, los datos ASG facilitados por las empresas y los datos proporcionados por terceros proveedores de datos ASG. El proceso de puntuación del equipo de inversión fue un componente clave del proceso de construcción de la cartera del comportamiento, determinando las ponderaciones objetivo en la cartera.

(ii) voto por delegación

El fondo se atuvió a las directrices de voto de Pictet Asset Management, que están diseñadas para apoyar una cultura de gobierno corporativo sólida, una gestión eficaz de las cuestiones medioambientales y sociales, y la publicación de información exhaustiva de acuerdo con normas creíbles. Dichas directrices también pretenden apoyar a los órganos de gobierno mundiales reconocidos que promueven prácticas empresariales sostenibles que abogan por la gestión del medio ambiente, las prácticas laborales justas, la no discriminación y la protección de los derechos humanos. Todas las actividades de voto del fondo se registraron y pueden compartirse previa solicitud.

(iii) implicación

La interacción con los emisores se realizó mediante conversaciones individuales, reuniones de accionistas/bonistas, giras de inversores y/o conferencias telefónicas. Los objetivos de estas interacciones fueron evaluar una organización, supervisar que su estrategia se estaba aplicando conforme a nuestras expectativas y garantizar que los emisores iban camino de cumplir sus metas y objetivos.

Cuando corresponde, nos implicamos con las empresas en relación con cuestiones ASG importantes, como los objetivos de reducción de los GEI, las mejoras en la gobernanza y diversas controversias medioambientales, sociales y de gobernanza, para asegurarnos de que las entendieran y las abordaran eficazmente a corto, medio y largo plazo. Nuestras actividades de implicación combinaron debates dirigidos a nivel interno, iniciativas de colaboración con inversores institucionales y servicios de implicación externos.

(iv) exclusión de emisores asociados a conductas o actividades controvertidas

El fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se definen en la Política de Inversión responsable de la Pictet Asset Management y/o (ii) empresas que infringieron gravemente los principios del Pacto Mundial de la ONU sobre derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción y las armas controvertidas.

¿Cuáles han sido las inversiones principales de este producto financiero?

La lista incluye las inversiones que constituyen la **mayor parte de las inversiones** del producto financiero durante el período de referencia, que es: 01.10.2022 - 30.09.2023

| INVERSIONES DE MAYOR VOLUMEN | SECTOR | % DE ACTIVOS | PAÍS |
|------------------------------|------------------------------|--------------|----------------|
| UNITEDHEALTH GROUP INC | Salud | 4,0 | Estados Unidos |
| VISA INC-CLASS A SHARES | Financiero | 3,9 | Estados Unidos |
| THERMO FISHER SCIENTIFIC INC | Salud | 3,8 | Estados Unidos |
| BOSTON SCIENTIFIC CORP | Salud | 2,7 | Estados Unidos |
| SCHNEIDER ELECTRIC SE | Industria | 2,6 | Francia |
| NOVO NORDISK A/S-B | Salud | 2,6 | Dinamarca |
| MICROSOFT CORP | Tecnología de la información | 2,6 | Estados Unidos |
| ALLEGION PLC | Industria | 2,5 | Irlanda |
| KLA CORP | Tecnología de la información | 2,4 | Estados Unidos |
| REPUBLIC SERVICES INC | Industria | 2,3 | Estados Unidos |
| NEXTERA ENERGY INC | Suministros públicos | 2,3 | Estados Unidos |
| SYNOPSYS INC | Tecnología de la información | 2,3 | Estados Unidos |
| NXP SEMICONDUCTORS NV | Tecnología de la información | 2,3 | Países Bajos |
| SIEMENS AG-REG | Industria | 2,2 | Alemania |
| ROPER TECHNOLOGIES INC | Tecnología de la información | 2,2 | Estados Unidos |

¿Cuál ha sido la proporción de inversiones relacionadas con la sostenibilidad?

86,67%

La asignación de activos describe el porcentaje de inversiones en activos específicos.

¿Cuál ha sido la asignación de activos?

El fondo se ajustó en un 97,56% con características medioambientales o sociales (n.º 1 Ajustadas a características medioambientales o sociales) y tuvo hasta un 2,44% invertido en la categoría Otras (n.º 2 Otras). El 86,67% se asignó a inversiones sostenibles (n.º 1A Sostenibles) y el resto se invirtió en inversiones ajustadas a otras características medioambientales o sociales (n.º 1B Otras características medioambientales o sociales).

n.º 1 Ajustadas a características medioambientales o sociales incluye las inversiones del producto financiero utilizadas para lograr las características medioambientales o sociales que promueve el producto financiero.

n.º 2 Otras incluye el resto de inversiones del producto financiero que ni se ajustan a las características medioambientales o sociales ni pueden considerarse inversiones sostenibles.

La categoría n.º 1 Ajustadas a características medioambientales o sociales abarca:

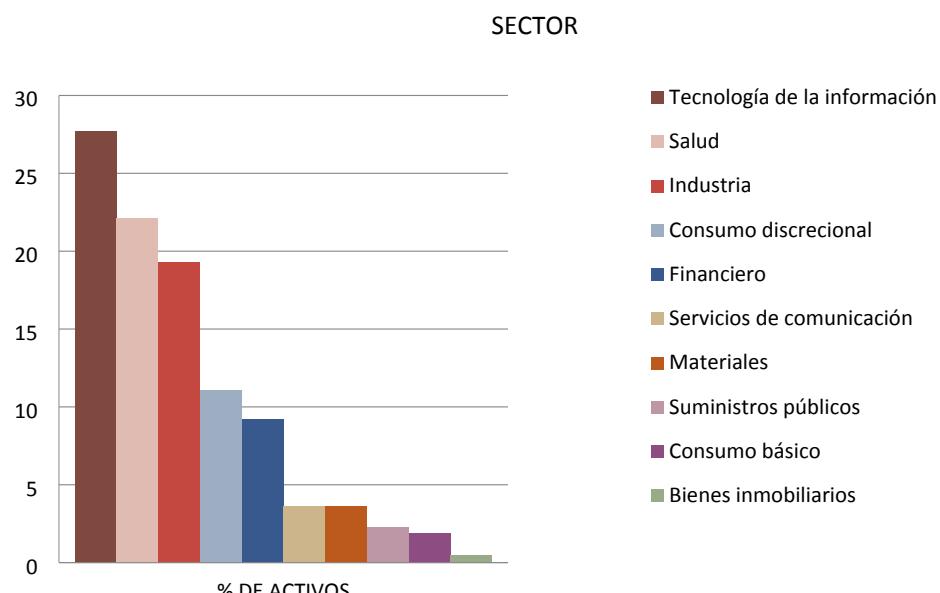

- la subcategoría n.º 1A Sostenibles, que abarca las inversiones sostenibles con objetivos medioambientales o sociales.
- la subcategoría n.º 1B Otras características medioambientales o sociales, que abarca inversiones ajustadas a las características medioambientales o sociales que no pueden considerarse inversiones sostenibles.

Notas:

- Las inversiones «n.º 1A Sostenibles», «Otras medioambientales» y «Sociales» se calcularon sobre una base de aprobado/suspenso. Incluyen bonos certificados (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.
- Las inversiones ajustadas a la taxonomía verde de la UE se calculan ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a la mitigación del cambio climático y la adaptación al mismo) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.
- A falta de una taxonomía social de la UE, Pictet ha desarrollado un marco de taxonomía social propio. El marco se basa en basado en el Informe sobre taxonomía social publicado por la Plataforma de Finanzas Sostenibles de la UE en 2022. Las actividades admisibles se definen como bienes y servicios beneficiosos desde el punto de vista social que contribuyen sustancialmente a uno de los tres objetivos sociales siguientes: (1) comunidades inclusivas y sostenibles, (2) nivel de vida adecuado y bienestar para los usuarios finales y (3) trabajo digno.

Fuente: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RB/CS.

● ¿En qué sectores económicos se han realizado las inversiones?

Fuente: Pictet Asset Management, GICS/MSCI.

Estamos evaluando la disponibilidad y la calidad de los datos que nos permitirían divulgar información más granular en futuros informes sobre los sectores y subsectores de la economía que obtienen ingresos a partir de la exploración, la minería, la extracción, la producción, el procesamiento, el almacenamiento, el refinado o la distribución, incluidos el transporte, el almacenamiento y el comercio, de combustibles fósiles, según se definen en el artículo 2, punto (62), del Reglamento (UE) 2018/1999 del Parlamento Europeo y del Consejo.

¿En qué medida se ajustaban las inversiones sostenibles con un objetivo medioambiental a la taxonomía de la UE?

El fondo realizó inversiones en actividades económicas que contribuyeron a los dos primeros objetivos medioambientales (mitigación del cambio climático y adaptación a este), según lo establecido en el artículo 9 del Reglamento (UE) 2020/852.

Las inversiones ajustadas a la taxonomía de la UE se calcularon ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a objetivos medioambientales relevantes) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.

Los datos de ajuste a la Taxonomía verde de la UE proceden de informes públicos. Los cálculos también pueden incluir estimaciones en un número limitado de casos en los que no se disponía de datos sobre la alineación con la Taxonomía verde de la UE. Las estimaciones se realizaron sobre la base del mejor esfuerzo y siguiendo un planteamiento conservador para obtener un resultado prudente.

Los procedimientos de control se han aplicado para verificar en todo momento el cumplimiento del artículo 3 del Reglamento sobre taxonomía de la UE.

Los datos facilitados no han sido verificados por un auditor externo ni revisados por un tercero independiente.

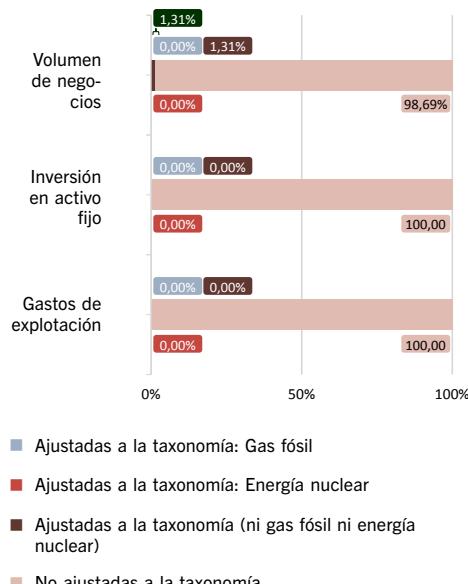

Para ajustarse a la taxonomía de la UE, los criterios correspondientes al **gas fósil** incluyen limitaciones de emisiones y el paso a la energía renovable o combustibles bajos en carbono de aquí al fin de 2035. Por lo que respecta a la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las actividades que se ajustan a la taxonomía se expresan como un porcentaje de:

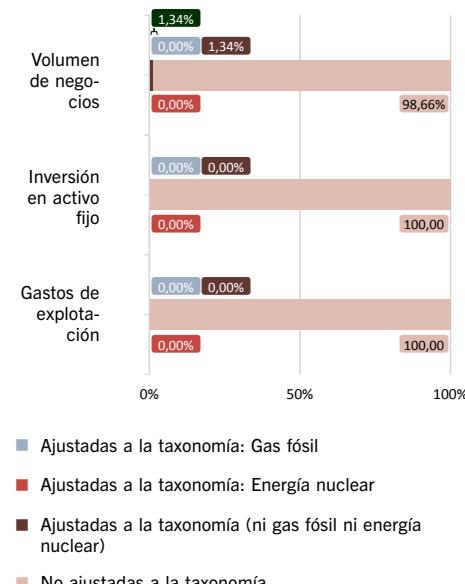

- el **volumen de negocios**, que refleja el «carácter ecológico» de las empresas en las que se invierte en la actualidad;
- la **inversión en activo fijo**, que muestra las inversiones ecológicas realizadas por las empresas en las que se invierte, pertinentes para la transición a una economía verde;
- los **gastos de explotación**, que reflejan las actividades operativas ecológicas de las empresas en las que se invierte.

Los gráficos que figuran a continuación muestran en verde el porcentaje de inversiones que se ajustaban a la taxonomía de la UE. Dado que no existe una metodología adecuada para determinar la adaptación a la taxonomía de los bonos soberanos, el primer gráfico muestra la adaptación a la taxonomía correspondiente para todas las inversiones del producto financiero, incluidos los bonos soberanos, mientras que el segundo gráfico muestra la adaptación a la taxonomía solo en relación con las inversiones del producto financiero distintas de los bonos soberanos.*

1. Ajuste a la taxonomía de las inversiones incluidos los bonos soberanos*

2. Ajuste a la taxonomía de las inversiones excluidos los bonos soberanos*

Este gráfico representa el 97,56% de las inversiones totales.

* A efectos de estos gráficos, los «bonos soberanos» incluyen todas las exposiciones soberanas

¹ Las actividades relacionadas con el gas fósil o la energía nuclear solo cumplirán la taxonomía de la UE cuando contribuyan a limitar el cambio climático («mitigación del cambio climático») y no perjudiquen significativamente ningún objetivo de la taxonomía de la UE (véase la nota explicativa en el margen izquierdo). Los criterios completos correspondientes a las actividades económicas del gas fósil y la energía nuclear que se ajustan a la taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

Nota:

Utilizamos los ingresos como medida clave para establecer la asignación de objetivos y el ajuste real con la taxonomía de la UE debido a la disponibilidad limitada y a la falta de datos fiables para los gastos de explotación y la inversión en activo fijo.

Fuente: Pictet Asset Management.

● **¿Cuál ha sido la proporción de las inversiones realizadas en actividades de transición y facilitadoras?**

La proporción de inversiones realizadas en:

- Actividades de transición: No aplicable*
- Actividades de facilitadoras: No aplicable*

* La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permiten ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

● **¿Qué porcentaje de inversiones se han ajustado a la taxonomía de la UE en comparación con los períodos de referencia anteriores?**

No aplicable.

¿Cuál ha sido la proporción de inversiones sostenibles con un objetivo medioambiental no ajustadas a la taxonomía de la UE?

33,33%

Estas inversiones sostenibles no se ajustan a la Taxonomía de la UE porque sus actividades económicas o bien (i) no están cubiertas por la Taxonomía de la UE, o bien (ii) no cumplen los criterios técnicos de selección para lograr una contribución sustancial en el sentido de la Taxonomía de la UE.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta los criterios para las actividades económicas medioambientalmente sostenibles con arreglo al Reglamento (UE) 2020/852.

¿Cuál ha sido la proporción de inversiones socialmente sostenibles?

53,34%

¿Qué inversiones se han incluido en «otras» y cuál ha sido su propósito? ¿ha habido garantías medioambientales o sociales mínimas?

Las «otras» inversiones del fondo incluían posiciones de tesorería mantenidas principalmente para satisfacer los objetivos diarios de liquidez y gestión de riesgos permitidos y previstos por la política de inversión del fondo. Cuando sea preciso, se aplicarán salvaguardias medioambientales o sociales mínimas a los valores subyacentes.

¿Qué medidas se han adoptado para cumplir las características medioambientales o sociales durante el período de referencia?

Durante el periodo de referencia, se alcanzó el objetivo de inversión sostenible siguiendo la estrategia de inversión y respetando los elementos vinculantes.

Los elementos vinculantes del fondo son:

- al menos el 51% de las inversiones sostenibles, es decir, inversiones en empresas que tienen una exposición importante a actividades como los productos y servicios que apoyan la transición energética, la economía circular, la eficiencia energética, la calidad y el suministro del agua, los bosques sostenibles, las ciudades sostenibles, la alimentación, la salud y las terapias humanas, y la autorrealización y seguridad personal, y otras actividades económicas relevantes (según los ingresos, el valor de empresa, los beneficios antes de intereses e impuestos o similares)

- Exclusión de emisores que:
 - participan en la producción de armas controvertidas, incluidas minas antipersona, municiones de racimo, armas biológicas y químicas, armas nucleares y uranio empobrecido
 - obtienen una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, como la extracción de carbón térmico y la generación de electricidad, la exploración y producción no convencional de petróleo y gas, la producción de petróleo y gas convencional, la generación de energía nuclear, las armas convencionales y armas pequeñas, la contratación militar de armas y productos y servicios relacionados con las armas, la producción de tabaco, la producción de entretenimiento para adultos, las actividades del juego, el desarrollo y crecimiento de organismos modificados genéticamente, la producción y comercialización de pesticidas. Para más detalles sobre los umbrales de exclusión aplicables a las actividades anteriores, consulte la Política de Inversión responsable de Pictet Asset Management.
 - incumplen gravemente normas internacionales, incluidos los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción
- un perfil ASG mejor que el del índice de referencia
- análisis de criterios ASG de los valores admisibles que abarca al menos el 90% del patrimonio neto o el número de emisores incluidos en la cartera

Además, el fondo se implicó con 22 empresas a 30.09.2023.

¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

Los índices de referencia son índices para medir si el producto financiero logra las características medioambientales o sociales que promueve.

● ¿Cómo difería el índice de referencia de un índice general de mercado?

No aplicable.

● ¿Cómo se ha comportado este producto financiero con respecto a los indicadores de sostenibilidad para determinar la conformidad del índice de referencia con las características medioambientales o sociales que promueve?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice general de mercado?

No aplicable.

CARACTERÍSTICAS MEDIOAMBIENTALES O SOCIALES

Inversión sostenible significa una inversión en una actividad económica que contribuye a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo a ningún objetivo medioambiental o social y que las empresas en las que se invierte sigan prácticas de buena gobernanza.

La **taxonomía de la UE** es un sistema de clasificación previsto en el Reglamento (UE) 2020/852 por el que se establece una lista de **actividades económicas medioambientalmente sostenibles**. Dicho Reglamento no prevé una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental pueden ajustarse, o no, a la taxonomía.

| ¿ESTE PRODUCTO FINANCIERO TENÍA UN OBJETIVO DE INVERSIÓN SOSTENIBLE? | | | |
|--|--|-------------------------------------|---|
| <input checked="" type="radio"/> Si | | <input checked="" type="radio"/> No | |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo medioambiental: ____% | <input checked="" type="checkbox"/> | Promovió características medioambientales o sociales y, aunque no tenía como objetivo una inversión sostenible, tuvo un porcentaje del 76,14% de inversiones sostenibles |
| <input type="checkbox"/> | en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input type="checkbox"/> | con un objetivo medioambiental en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> | en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> | con un objetivo medioambiental en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo social: ____% | <input type="checkbox"/> | <input checked="" type="checkbox"/> con un objetivo social |
| <input type="checkbox"/> | | <input type="checkbox"/> | Ha promovido características medioambientales o sociales, pero no ha realizado ninguna inversión sostenible |

Nota: Las inversiones sostenibles se calcularon sobre una base de aprobado/suspenso, incluyendo bonos con etiqueta (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% (medida por ingresos, EBIT, valor de empresa o indicadores similares) a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.

¿En qué grado se han cumplido las características medioambientales o sociales que promueve este producto financiero?

Las características medioambientales y sociales de este producto financiero se promovieron utilizando:

- Impacto positivo:

El fondo logró un impacto social positivo, invirtiendo principalmente en empresas que ayudan a las personas a adaptarse a los cambios demográficos y tecnológicos que han transformado vidas. Estas empresas ayudan a las personas a llevar una vida más plena, gracias a servicios que hacen posible el aprendizaje a lo largo de la vida, prestan servicios de atención y servicios de entretenimiento.

El fondo invirtió principalmente en empresas cuyas actividades están relacionadas en gran medida con los servicios de educación, el aprendizaje a distancia, el desarrollo profesional, los servicios de apoyo, las residencias de ancianos y otras actividades económicas relevantes.

No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

- Exclusiones basadas en normas y valores:

El fondo excluyó los emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente o que incumplen de forma grave las normas internacionales, según se detalla a continuación:

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

| Actividad | Umbrales de ingresos |
|---|----------------------|
| Combustibles fósiles y energía nuclear | |
| Extracción de carbón térmico | > 25% |
| Generación de energía térmica de carbón | > 25% |
| Producción de petróleo y gas | > 25% |
| Extracción de arenas bituminosas | > 10% |
| Extracción de energía de esquisto | > 10% |
| Exploración de petróleo y gas en el Ártico | > 10% |
| Generación de energía nuclear | > 50% |
| Armas | |
| Producción de armas controvertidas[1] | > 0% |
| Armas de contratación militar | > 10% |
| Productos y/o servicios relacionados con armas de contratación militar | > 50% |
| Clientes civiles de armas pequeñas (armas de asalto) | > 10% |
| Clientes civiles de armas pequeñas (armas de no asalto) | > 10% |
| Clientes militares/de fuerzas del orden de armas pequeñas | > 25% |
| Componentes clave de armas pequeñas | > 25% |
| Otras actividades controvertidas | |
| Producción de entretenimiento para adultos | > 10% |
| Operaciones de juego | > 10% |
| Desarrollo de plantas y semillas modificadas genéticamente | > 25% |
| Cultivo de plantas y semillas modificadas genéticamente | > 25% |
| Producción de plaguicidas | > 10% |
| Venta al por menor de plaguicidas | > 10% |
| Producción de productos de tabaco | > 10% |
| Exclusiones de empresas por incumplimiento de normas internacionales | Excluidas |
| Empresas que incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción | Sí |
| Exclusiones de países | Excluidas |
| Países (i) incluidos en la lista de Estados patrocinadores del terrorismo, según la definición de la Oficina de Control de Activos Extranjeros de EE. UU.[2] o (ii) sujetos a sanciones financieras de la UE contra bancos centrales y/o empresas de propiedad estatal. | Sí |
| Países (i) clasificados como de muy alto o alto riesgo en el Índice de Estados Frágiles o (ii) afectados por conflictos violentos según la definición del Banco Mundial. | Sí |

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

Países (i) incluidos en la lista de «alerta» del Índice de Estados Frágiles o (ii) sujetos a sanciones relacionadas con la exportación por parte de la UE. Lista de vigilancia[3]

[1] Entre las armas controvertidas se encuentran las minas antipersona, las municiones de racimo, las armas biológicas y químicas (incluido el fósforo blanco) y las armas nucleares procedentes de países no firmantes del Tratado de No Proliferación de Armas Nucleares (TNP).

[2] «Estado patrocinador del terrorismo» es una designación aplicada por el Departamento de Estado de Estados Unidos a países que repetidamente han prestado apoyo a actos de terrorismo internacional.

[3] Además de las exclusiones estrictas, Pictet Asset Management mantiene una lista de vigilancia que incluye países que requieren una diligencia debida adicional por parte de los equipos de inversión antes de invertir.

Para más detalles, consulte la Política de Inversión responsable de Pictet Asset Management (Anexo B).

Además de las exclusiones mencionadas, basadas en la Política de Inversión responsable de Pictet Asset Management, la estrategia aplicó límites de exclusión más estrictos basados en directrices internas.

- Titularidad activa:

El fondo ejerció de forma metódica sus derechos de voto y se implicó con la dirección de las empresas sobre cuestiones ASG importantes.

● ¿Cómo se han comportado los indicadores de sostenibilidad?

Durante el periodo de información, los indicadores de sostenibilidad se comportaron según se indica a continuación:

- Exposición a empresas que obtienen una parte significativa de sus ingresos, EBIT, valor de empresa o parámetros similares de actividades económicas que contribuyen a los objetivos medioambientales o sociales, y bonos con etiqueta cuando sea relevante para la clase de activos (inversiones sostenibles):

76,14%

En el informe del próximo año se facilitará información adicional sobre objetivos sociales específicos.

- Perfil ASG global

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos.

Como resultado, el fondo ha conseguido un perfil ambiental, social y de gobernanza (ASG) mejor que el del índice de referencia.

- Principal incidencia adversa (PIA)

El fondo utiliza una combinación de enfoques para considerar y, en la medida de lo posible, mitigar las incidencias adversas materiales de nuestras inversiones en la sociedad y el medioambiente, como emisiones de GEI, contaminación atmosférica, pérdida de biodiversidad, emisiones al agua, residuos peligrosos/radioactivos, derechos humanos, normas laborales, corrupción y soborno, y salud pública.

El grado y la forma en que estas incidencias se tuvieron en cuenta dependieron de factores como el contexto específico de la inversión que provoca la incidencia adversa o la disponibilidad de datos fiables.

De conformidad con la política de exclusión de Pictet Asset Management descrita en la Política de Inversión responsable de la empresa (véase el cuadro anterior para consultar las actividades excluidas y los umbrales de exclusión aplicados), el fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente:

Actividades controvertidas (media ponderada de ingresos de la empresa, en %)*:

| | Fondo (%) | Índice de referencia (%) |
|--|-----------|--------------------------|
| Combustibles fósiles y energía nuclear | 0,00 | 4,15 |
| Armas | 0,00 | 0,99 |
| Otras actividades controvertidas | 0,16 | 1,02 |
| No aplicable: | 0,77 | 0,00 |
| No cubierto: | 0,03 | 0,02 |

* Los combustibles fósiles y la energía nuclear incluyen la extracción de carbón térmico y la generación de electricidad, la producción y extracción de petróleo y gas, la extracción de energía de esquisto, la exploración de petróleo y gas en los mares del Ártico y la generación de energía nuclear. Las armas incluyen la contratación militar (servicios de armas y relacionadas con estas), clientes civiles de armas pequeñas (armas de asalto/no asalto), clientes militares/de las fuerzas y cuerpos de seguridad de armas pequeñas y componentes clave de pequeñas armas. Otras actividades controvertidas incluyen la producción de tabaco, la producción de entretenimiento para adultos, la explotación de juegos de azar, el desarrollo o crecimiento de organismos modificados genéticamente, la producción o venta al por menor de pesticidas. La exposición se basa en datos de terceros y puede no reflejar nuestro punto de vista interno. Pictet Asset Management tiene plena discreción sobre la aplicación de los criterios de exclusión y se reserva el derecho de apartarse de la información de terceros, según el caso, cuando se considere incorrecta o incompleta.

Fuente: Pictet Asset Management, Sustainalytics.

Además, el fondo excluyó a los emisores que tenían exposición a:

- (i) PIA 10: Incumplimientos de los principios del Pacto Mundial de las Naciones Unidas y las Directrices para Empresas Multinacionales de la Organización para la Cooperación y el Desarrollo Económicos (OCDE).
- (ii) PIA 14: Exposición a armas controvertidas (minas antipersonas, municiones en racimo, armas químicas y armas biológicas)

● Derechos de voto

Durante el periodo de referencia, el fondo votó en 41 juntas generales de 41 juntas en las que se podía votar (100,00%). Votamos «en contra» (incluidas «abstenciones» o «retenciones») en al menos una resolución en el 43,90% de las juntas.

De las 467 resoluciones de la dirección, votamos en contra de la dirección en 31 puntos (6,64%) y nos abstuvimos en 10 puntos (2,14%).

Apoyamos 11 (64,71%) resoluciones de accionistas de un total de 17 propuestas.

Por lo que respecta a las cuestiones medioambientales y/o sociales, votamos a favor de 2 de las 2 resoluciones de la dirección y a favor de 6 de las 10 resoluciones de accionistas.

Fuente: Pictet Asset Management, ISS ESG.

● Interacción

El fondo se implicó con 5 empresas sobre cuestiones ASG (datos a 30.09.2023). Esto incluye diálogos internos, iniciativas de colaboración entre inversores y servicios de implicación de terceros. Para que se considere implicación, el diálogo con una empresa objetivo debe tener un objetivo claro y mensurable en un horizonte temporal predefinido. Es importante señalar que no todas las interacciones rutinarias o de supervisión, aunque impliquen a la alta dirección o al Consejo de administración, se consideran implicaciones en nuestra evaluación.

Fuente: Pictet Asset Management, Sustainalytics.

● ¿... y en comparación con períodos anteriores?

Esta cuestión se abordará en futuros informes anuales debido a la falta de historial.

● ¿Cuáles han sido los objetivos de las inversiones sostenibles que ha realizado en parte el producto financiero y de qué forma ha contribuido la inversión sostenible a dichos objetivos?

Pictet Asset Management utilizó marcos de referencia propios, así como los objetivos de la Taxonomía de la UE, para definir las inversiones sostenibles.

El fondo invirtió en valores que financiaban actividades económicas que contribuyeron sustancialmente a objetivos medioambientales y/o sociales como:

Medioambientales

- mitigación del cambio climático o adaptación al mismo
- suso sostenible y protección de los recursos hídricos y marinos
- transición hacia una economía circular
- prevención y control de la contaminación o
- protección y recuperación de la biodiversidad y los ecosistemas

Sociales

- comunidades inclusivas y sostenibles

- nivel de vida adecuado y bienestar para los usuarios finales o
- trabajo digno

● **¿De qué manera las inversiones sostenibles que el producto financiero ha realizado en parte, no han causado un perjuicio significativo a ningún objetivo de inversión sostenible medioambiental o social?**

Para evitar que las inversiones sostenibles causen un perjuicio significativo a cualquier otro objetivo medioambiental o social, el fondo aplicó los siguientes criterios de selección sobre la base del mejor esfuerzo:

- (i) Exclusiones de emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente (véase la descripción del marco de exclusión de IR).
- (ii) Los emisores asociados a controversias elevadas y graves no se contabilizaron como inversiones sostenibles.

La información se obtuvo de proveedores terceros y/o de análisis interno. La información ASG de terceros proveedores de datos puede haber sido incompleta, inexacta o no estar disponible. Como consecuencia de ello, existía el riesgo de que el Gestor de inversiones evaluara incorrectamente un valor o emisor, dando lugar a la inclusión o exclusión incorrecta de un valor en el fondo. Los datos ASG incompletos, inexactos o no disponibles también pueden actuar como una limitación metodológica a una estrategia de inversión no financiera (como la aplicación de criterios ASG o similares). En los casos identificados, el Gestor de inversiones trató de mitigar este riesgo mediante su propia evaluación. En caso de que las características ASG de un valor mantenido por el fondo cambiaran, dando lugar a la venta del valor, el Gestor de inversiones no acepta responsabilidad alguna en relación con dicho cambio.

● **¿Cómo se han tenido en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?**

Pictet Asset Management realiza un seguimiento de todos los indicadores obligatorios de principales incidencias adversas (incluidos en el Anexo 1 del Reglamento Delegado (UE) 22 / 1288 de la Comisión) cuando disponemos de datos sólidos. Se espera que la calidad de los datos disponibles mejore con el tiempo.

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas de sus inversiones en la sociedad y el medioambiente que se consideran importantes para la estrategia de inversión, mediante un conjunto de decisiones de gestión de cartera, actividades de propiedad activa y exclusión de emisores asociados a conductas o actividades controvertidas. Más información en el informe de PIA de la entidad, disponible en:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=es&bl=PAM>

● **¿Se han ajustado las inversiones sostenibles a las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios rectores de las Naciones Unidas sobre las empresas y los derechos humanos?**

Para garantizar que la inversión sostenible no causara un perjuicio significativo a ningún objetivo de inversión sostenible, el fondo excluyó a las empresas con infracciones elevadas y graves de (i) los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción o (ii) las Líneas Directrices de la OCDE para Empresas Multinacionales, incluidos los asuntos sociales y laborales graves.

La taxonomía de la UE establece el principio de «no causar un perjuicio significativo», según el cual las inversiones que se ajusten a la taxonomía no deben perjudicar significativamente a los objetivos de la taxonomía de la UE, e incluye criterios específicos de la Unión.

El principio de «no perjudicar de forma significativa» se aplica únicamente a las inversiones subyacentes del producto financiero que contemplan los criterios de la UE relativos a actividades económicas sostenibles desde una perspectiva medioambiental. Las inversiones subyacentes al resto del producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas medioambientalmente sostenibles.

Cualquier otra inversión sostenible tampoco debe perjudicar significativamente a ningún objetivo medioambiental o social.

Las principales incidencias adversas
son las incidencias negativas más importantes de las decisiones de inversión sobre los factores de sostenibilidad en relación con asuntos medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

¿Cómo tiene en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas que se consideran importantes para la estrategia de inversión. Entre las incidencias adversas se incluyeron, entre otras, las emisiones de gases de efecto invernadero (GEI), la contaminación atmosférica, la pérdida de biodiversidad, las emisiones al agua, los residuos peligrosos/radioactivos, las cuestiones sociales y laborales, y la corrupción y el soborno, que se abordaron mediante una combinación de:

(i) decisiones de gestión de carteras

El equipo de inversión puntuó las posiciones según una evaluación de los riesgos y oportunidades medioambientales, sociales y de gobernanza como parte del marco de puntuación del fondo. Las puntuaciones se determinan de forma cualitativa por los gestores de inversión, basándose en estudios fundamentales y datos cuantitativos ASG, incluidos los datos sobre el Principio de Impacto Negativo, los datos ASG facilitados por las empresas y los datos proporcionados por terceros proveedores de datos ASG. El proceso de puntuación del equipo de inversión fue un componente clave del proceso de construcción de la cartera del comportamiento, determinando las ponderaciones objetivo en la cartera.

(ii) voto por delegación

El fondo se atuvió a las directrices de voto de Pictet Asset Management, que están diseñadas para apoyar una cultura de gobierno corporativo sólida, una gestión eficaz de las cuestiones medioambientales y sociales, y la publicación de información exhaustiva de acuerdo con normas creíbles. Dichas directrices también pretenden apoyar a los órganos de gobierno mundiales reconocidos que promueven prácticas empresariales sostenibles que abogan por la gestión del medio ambiente, las prácticas laborales justas, la no discriminación y la protección de los derechos humanos. Todas las actividades de voto del fondo se registraron y pueden compartirse previa solicitud.

(iii) implicación

La interacción con los emisores se realizó mediante conversaciones individuales, reuniones de accionistas/bonistas, giras de inversores y/o conferencias telefónicas. Los objetivos de estas interacciones fueron evaluar una organización, supervisar que su estrategia se estaba aplicando conforme a nuestras expectativas y garantizar que los emisores iban camino de cumplir sus metas y objetivos.

Cuando corresponde, nos implicamos con las empresas en relación con cuestiones ASG importantes, como los objetivos de reducción de los GEI, las mejoras en la gobernanza y diversas controversias medioambientales, sociales y de gobernanza, para asegurarnos de que las entendieran y las abordaran eficazmente a corto, medio y largo plazo. Nuestras actividades de implicación combinaron debates dirigidos a nivel interno, iniciativas de colaboración con inversores institucionales y servicios de implicación externos.

(iv) exclusión de emisores asociados a conductas o actividades controvertidas

El fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se definen en la Política de Inversión responsable de la Pictet Asset Management y/o (ii) empresas que infringieron gravemente los principios del Pacto Mundial de la ONU sobre derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción y las armas controvertidas.

¿Cuáles han sido las inversiones principales de este producto financiero?

La lista incluye las inversiones que constituyen la mayor parte de las inversiones del producto financiero durante el período de referencia, que es: 01.10.2022 - 30.09.2023

| INVERSIONES DE MAYOR VOLUMEN | SECTOR | % DE ACTIVOS | PAÍS |
|------------------------------|---------------------------|--------------|----------------|
| UNITEDHEALTH GROUP INC | Salud | 5,0 | Estados Unidos |
| RELX PLC | Industria | 4,6 | Reino Unido |
| NETFLIX INC | Servicios de comunicación | 4,3 | Estados Unidos |
| WELLTOWER INC | Bienes inmobiliarios | 4,3 | Estados Unidos |
| ZOETIS INC | Salud | 4,3 | Estados Unidos |
| BOOKING HOLDINGS INC | Consumo discrecional | 4,1 | Estados Unidos |
| WOLTERS KLUWER | Industria | 4,0 | Países Bajos |
| RECRUIT HOLDINGS CO LTD | Industria | 3,9 | Japón |
| IDEXX LABORATORIES INC | Salud | 3,8 | Estados Unidos |
| CHEMED CORP | Salud | 3,7 | Estados Unidos |

| INVERSIONES DE MAYOR VOLUMEN | SECTOR | % DE ACTIVOS | PAÍS |
|------------------------------|----------------------|--------------|----------------|
| UNIVERSAL MUSIC GROUP BV | Consumo discrecional | 3,5 | Países Bajos |
| VENTAS INC | Bienes inmobiliarios | 3,4 | Estados Unidos |
| COMPASS GROUP PLC | Consumo discrecional | 3,4 | Reino Unido |

Fuente: Pictet Asset Management, GICS/MSCI.

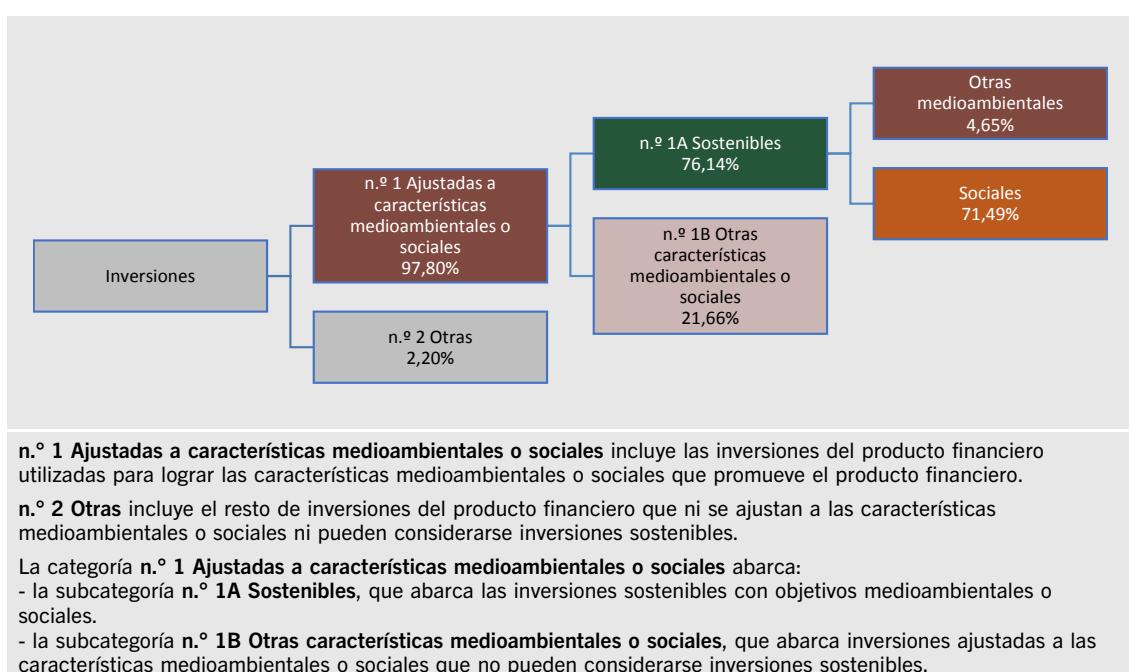

¿Cuál ha sido la proporción de inversiones relacionadas con la sostenibilidad?

76,14%

La asignación de activos describe el porcentaje de inversiones en activos específicos.

● ¿Cuál ha sido la asignación de activos?

El fondo se ajustó en un 97,80% con características medioambientales o sociales (n.º 1 Ajustadas a características medioambientales o sociales) y tuvo hasta un 2,20% invertido en la categoría Otras (n.º 2 Otras). El 76,14% se asignó a inversiones sostenibles (n.º 1A Sostenibles) y el resto se invirtió en inversiones ajustadas a otras características medioambientales o sociales (n.º 1B Otras características medioambientales o sociales).

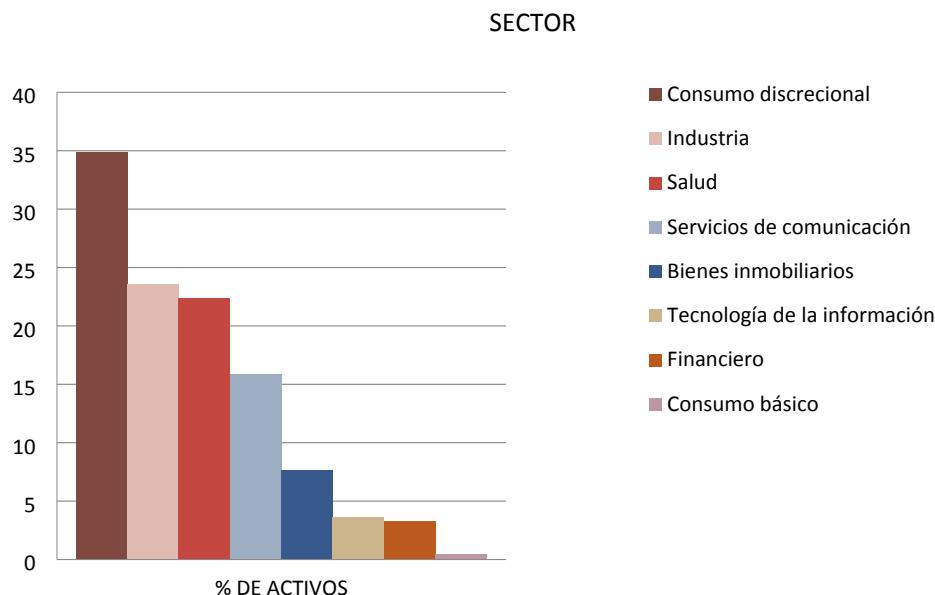

Notas:

- Las inversiones «n.º 1A Sostenibles», «Otras medioambientales» y «Sociales» se calcularon sobre una base de aprobado/suspenso. Incluyen bonos certificados (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.
- A falta de una taxonomía social de la UE, Pictet ha desarrollado un marco de taxonomía social propio. El marco se basa en basado en el Informe sobre taxonomía social publicado por la Plataforma de Finanzas Sostenibles de la UE en 2022. Las actividades admisibles se definen como bienes y servicios beneficiosos desde el punto de vista social que contribuyen sustancialmente a uno de los tres objetivos sociales siguientes: (1) comunidades inclusivas y sostenibles, (2) nivel de vida adecuado y bienestar para los usuarios finales y (3) trabajo digno.

Fuente: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RB/CS.

● ¿En qué sectores económicos se han realizado las inversiones?

Fuente: Pictet Asset Management, GICS/MSCI.

Estamos evaluando la disponibilidad y la calidad de los datos que nos permitirían divulgar información más granular en futuros informes sobre los sectores y subsectores de la economía que obtienen ingresos a partir de la exploración, la minería, la extracción, la producción, el procesamiento, el almacenamiento, el refinado o la distribución, incluidos el transporte, el almacenamiento y el comercio, de combustibles fósiles, según se definen en el artículo 2, punto (62), del Reglamento (UE) 2018/1999 del Parlamento Europeo y del Consejo.

¿En qué medida se ajustaban las inversiones sostenibles con un objetivo medioambiental a la taxonomía de la UE?

No aplicable.

● ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil o la energía nuclear que cumplían con la taxonomía de la UE¹?

Sí:

En gas fósil En energía nuclear

No

Para ajustarse a la taxonomía de la UE, los criterios correspondientes al **gas fósil** incluyen limitaciones de emisiones y el paso a la energía renovable o combustibles bajos en carbono de aquí al fin de 2035. Por lo que respecta a la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

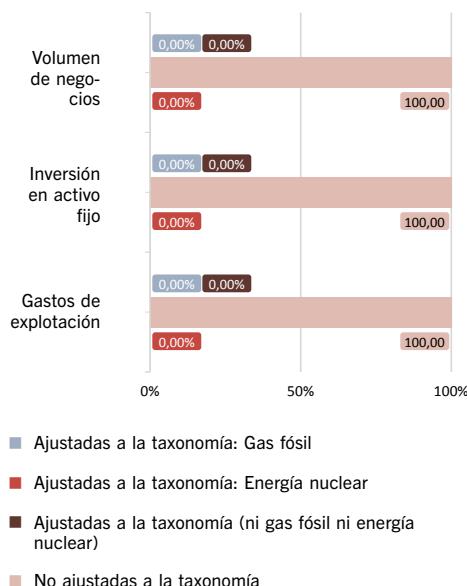

¹ Las actividades relacionadas con el gas fósil o la energía nuclear solo cumplirán la taxonomía de la UE cuando contribuyan a limitar el cambio climático («mitigación del cambio climático») y no perjudiquen significativamente ningún objetivo de la taxonomía de la UE (véase la nota explicativa en el margen izquierdo). Los criterios completos correspondientes a las actividades económicas del gas fósil y la energía nuclear que se ajustan a la taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

Las actividades que se ajustan a la taxonomía se expresan como un porcentaje de:

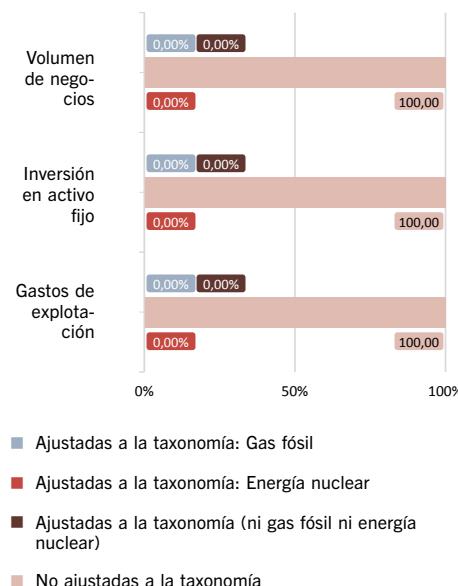

- el **volumen de negocios**, que refleja el «carácter ecológico» de las empresas en las que se invierte en la actualidad;
- la **inversión en activo fijo**, que muestra las inversiones ecológicas realizadas por las empresas en las que se invierte, pertinentes para la transición a una economía verde;
- los **gastos de explotación**, que reflejan las actividades operativas ecológicas de las empresas en las que se invierte.

Los gráficos que figuran a continuación muestran en verde el porcentaje de inversiones que se ajustaban a la taxonomía de la UE. Dado que no existe una metodología adecuada para determinar la adaptación a la taxonomía de los bonos soberanos*, el primer gráfico muestra la adaptación a la taxonomía correspondiente para todas las inversiones del producto financiero, incluidos los bonos soberanos, mientras que el segundo gráfico muestra la adaptación a la taxonomía solo en relación con las inversiones del producto financiero distintas de los bonos soberanos.

1. Ajuste a la taxonomía de las inversiones incluidos los bonos soberanos*

2. Ajuste a la taxonomía de las inversiones excluidos los bonos soberanos*

- Ajustadas a la taxonomía: Gas fósil
- Ajustadas a la taxonomía: Energía nuclear
- Ajustadas a la taxonomía (ni gas fósil ni energía nuclear)
- No ajustadas a la taxonomía

Este gráfico representa el 97,8% de las inversiones totales.

* A efectos de estos gráficos, los «bonos soberanos» incluyen todas las exposiciones soberanas

● ¿Cuál ha sido la proporción de las inversiones realizadas en actividades de transición y facilitadoras?

No aplicable.

● ¿Qué porcentaje de inversiones se han ajustado a la taxonomía de la UE en comparación con los períodos de referencia anteriores?

No aplicable.

¿Cuál ha sido la proporción de inversiones sostenibles con un objetivo medioambiental no ajustadas a la taxonomía de la UE?

4,65%

Estas inversiones sostenibles no se ajustan a la Taxonomía de la UE porque sus actividades económicas o bien (i) no están cubiertas por la Taxonomía de la UE, o bien (ii) no cumplen los criterios técnicos de selección para lograr una contribución sustancial en el sentido de la Taxonomía de la UE.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta los criterios para las actividades económicas medioambientalmente sostenibles con arreglo al Reglamento (UE) 2020/852.

¿Cuál ha sido la proporción de inversiones socialmente sostenibles?

71,49%

¿Qué inversiones se han incluido en «otras» y cuál ha sido su propósito? ¿ha habido garantías medioambientales o sociales mínimas?

Las «otras» inversiones del fondo incluían posiciones de tesorería mantenidas principalmente para satisfacer los objetivos diarios de liquidez y gestión de riesgos permitidos y previstos por la política de inversión del fondo. Cuando sea preciso, se aplicarán salvaguardias medioambientales o sociales mínimas a los valores subyacentes.

¿Qué medidas se han adoptado para cumplir las características medioambientales o sociales durante el período de referencia?

Durante el periodo de referencia, se alcanzó el objetivo de inversión sostenible siguiendo la estrategia de inversión y respetando los elementos vinculantes.

Los elementos vinculantes del fondo son:

- al menos el 51% de las inversiones sostenibles, es decir, inversiones en empresas que tienen una exposición importante a actividades como los servicios de educación, el aprendizaje a distancia, el desarrollo profesional, los servicios de apoyo, las residencias de ancianos y otras actividades económicas relevantes (según los ingresos, el valor de empresa, los beneficios antes de intereses e impuestos o similares)
- Exclusión de emisores que:
 - participan en la producción de armas controvertidas, incluidas minas antipersona, municiones de racimo, armas biológicas y químicas, armas nucleares y uranio empobrecido
 - obtienen una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, como la extracción de carbón térmico y la generación de electricidad, la exploración y producción no convencional de petróleo y gas, la producción de petróleo y gas convencional, la generación de energía nuclear, las armas convencionales y armas pequeñas, la contratación militar de armas y productos y servicios relacionados con las armas, la producción de tabaco, la producción de entretenimiento para adultos, las actividades del juego, el desarrollo y crecimiento de organismos modificados genéticamente, la producción y comercialización de pesticidas. Para más detalles sobre los umbrales de exclusión aplicables a las actividades anteriores, consulte la Política de Inversión responsable de Pictet Asset Management.
 - incumplen gravemente normas internacionales, incluidos los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción
- un perfil ASG mejor que el del índice de referencia
- análisis de criterios ASG de los valores admisibles que abarca al menos el 90% del patrimonio neto o el número de emisores incluidos en la cartera

Además, el fondo se implicó con 5 empresas a 30.09.2023.

¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

- ¿Cómo difería el índice de referencia de un índice general de mercado?
No aplicable.

Los índices de referencia son índices para medir si el producto financiero logra las características medioambientales o sociales que promueve.

- ¿Cómo se ha comportado este producto financiero con respecto a los indicadores de sostenibilidad para determinar la conformidad del índice de referencia con las características medioambientales o sociales que promueve?
No aplicable.

- **¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?**
No aplicable.
- **¿Cómo se ha comportado este producto financiero en comparación con el índice general de mercado?**
No aplicable.

CARACTERÍSTICAS MEDIOAMBIENTALES O SOCIALES

Inversión sostenible
significa una inversión en una actividad económica que contribuye a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo a ningún objetivo medioambiental o social y que las empresas en las que se invierte sigan prácticas de buena gobernanza.

La **taxonomía de la UE** es un sistema de clasificación previsto en el Reglamento (UE) 2020/852 por el que se establece una lista de **actividades económicas medioambientalmente sostenibles**. Dicho Reglamento no prevé una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental pueden ajustarse, o no, a la taxonomía.

| ¿ESTE PRODUCTO FINANCIERO TENÍA UN OBJETIVO DE INVERSIÓN SOSTENIBLE? | | | |
|--|--|-------------------------------------|--|
| <input checked="" type="radio"/> Si | | <input checked="" type="radio"/> No | |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo medioambiental: ____% | <input checked="" type="checkbox"/> | Promovió características medioambientales o sociales y, aunque no tenía como objetivo una inversión sostenible, tuvo un porcentaje del 46,59% de inversiones sostenibles |
| <input type="checkbox"/> | en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> | con un objetivo medioambiental en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> | en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> | con un objetivo medioambiental en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo social: ____% | <input type="checkbox"/> | con un objetivo social |
| <input type="checkbox"/> | | <input type="checkbox"/> | Ha promovido características medioambientales o sociales, pero no ha realizado ninguna inversión sostenible |

Nota: Las inversiones sostenibles se calcularon sobre una base de aprobado/suspenso, incluyendo bonos con etiqueta (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% (medida por ingresos, EBIT, valor de empresa o indicadores similares) a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.

¿En qué grado se han cumplido las características medioambientales o sociales que promueve este producto financiero?

Las características medioambientales y sociales de este producto financiero se promovieron utilizando:

- Best-in-class / best effort:

El fondo invirtió en valores de emisores con riesgos de sostenibilidad bajos y/o decrecientes, a la vez que evitó aquellos con riesgo de sostenibilidad alto y/o creciente, reduciendo el universo de inversión en al menos un 20%. El índice MSCI AC World se utilizó para medir la reducción del universo; sin embargo, no se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

- Mejora del impacto:

El fondo logró un impacto medioambiental y social positivo, mejorando el ajuste a los marcos o principios aceptados a escala global.

- Exclusiones basadas en normas y valores:

El fondo excluyó los emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente o que incumplen de forma grave las normas internacionales, según se detalla a continuación:

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

| Actividad | Umbrales de ingresos |
|---|----------------------|
| Combustibles fósiles y energía nuclear | |
| Extracción de carbón térmico | > 25% |
| Generación de energía térmica de carbón | > 25% |
| Producción de petróleo y gas | > 25% |
| Extracción de arenas bituminosas | > 10% |
| Extracción de energía de esquisto | > 10% |
| Exploración de petróleo y gas en el Ártico | > 10% |
| Generación de energía nuclear | > 50% |
| Armas | |
| Producción de armas controvertidas[1] | > 0% |
| Armas de contratación militar | > 10% |
| Productos y/o servicios relacionados con armas de contratación militar | > 50% |
| Clientes civiles de armas pequeñas (armas de asalto) | > 10% |
| Clientes civiles de armas pequeñas (armas de no asalto) | > 10% |
| Clientes militares/de fuerzas del orden de armas pequeñas | > 25% |
| Componentes clave de armas pequeñas | > 25% |
| Otras actividades controvertidas | |
| Producción de entretenimiento para adultos | > 10% |
| Operaciones de juego | > 10% |
| Desarrollo de plantas y semillas modificadas genéticamente | > 25% |
| Cultivo de plantas y semillas modificadas genéticamente | > 25% |
| Producción de plaguicidas | > 10% |
| Venta al por menor de plaguicidas | > 10% |
| Producción de productos de tabaco | > 10% |
| Exclusiones de empresas por incumplimiento de normas internacionales | Excluidas |
| Empresas que incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción | Sí |
| Exclusiones de países | Excluidas |
| Países (i) incluidos en la lista de Estados patrocinadores del terrorismo, según la definición de la Oficina de Control de Activos Extranjeros de EE. UU.[2] o (ii) sujetos a sanciones financieras de la UE contra bancos centrales y/o empresas de propiedad estatal. | Sí |
| Países (i) clasificados como de muy alto o alto riesgo en el Índice de Estados Frágiles o (ii) afectados por conflictos violentos según la definición del Banco Mundial. | Sí |

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

Países (i) incluidos en la lista de «alerta» del Índice de Estados Frágiles o (ii) sujetos a sanciones relacionadas con la exportación por parte de la UE. Lista de vigilancia[3]

[1] Entre las armas controvertidas se encuentran las minas antipersona, las municiones de racimo, las armas biológicas y químicas (incluido el fósforo blanco) y las armas nucleares procedentes de países no firmantes del Tratado de No Proliferación de Armas Nucleares (TNP).

[2] «Estado patrocinador del terrorismo» es una designación aplicada por el Departamento de Estado de Estados Unidos a países que repetidamente han prestado apoyo a actos de terrorismo internacional.

[3] Además de las exclusiones estrictas, Pictet Asset Management mantiene una lista de vigilancia que incluye países que requieren una diligencia debida adicional por parte de los equipos de inversión antes de invertir.

Para más detalles, consulte la Política de Inversión responsable de Pictet Asset Management (Anexo B).

- Titularidad activa:

El fondo ejerció de forma metódica sus derechos de voto y se implicó con la dirección de las empresas sobre cuestiones ASG importantes.

- **¿Cómo se han comportado los indicadores de sostenibilidad?**

Durante el periodo de información, los indicadores de sostenibilidad se comportaron según se indica a continuación:

- **Exposición a empresas que obtienen una parte significativa de sus ingresos, EBIT, valor de empresa o parámetros similares de actividades económicas que contribuyen a los objetivos medioambientales o sociales, y bonos con etiqueta cuando sea relevante para la clase de activos (inversiones sostenibles):**

46,59%

En el informe del próximo año se facilitará información adicional sobre objetivos medioambientales y/o sociales específicos.

- **Grado de ajuste a los ODS**

El comportamiento utilizó un indicador sistemático propio basado en tecnología de procesamiento del lenguaje natural para estimar el ajuste de los productos y servicios de cada emisor a todos los ODS pertinentes. Los resultados de este indicador figuran en la documentación de los informes estratégicos.

- **Reducción del universo de inversión por factores ASG**

El fondo reduce su universo de inversión eliminando al menos el 20% de los emisores con los mayores riesgos de sostenibilidad.

Los riesgos de sostenibilidad son acontecimientos o condiciones de riesgo ASG que podrían tener una incidencia negativa importante en el valor de las inversiones si se produjeran. Los riesgos de sostenibilidad incluían, entre otros, los siguientes: riesgo de transición climática, riesgo físico climático, riesgo medioambiental, riesgo social y riesgo de gobernanza. Se realizan revisiones periódicas y controles de riesgo para supervisar la aplicación.

Las principales incidencias adversas («PIA») son efectos negativos, materiales o posiblemente materiales, sobre factores de sostenibilidad causados, agravados o directamente vinculados con las decisiones y el asesoramiento. Entre las principales incidencias adversas se incluyen, entre otras, las emisiones de gases de efecto invernadero (GEI), la contaminación atmosférica, la pérdida de biodiversidad, las emisiones al agua, los residuos peligrosos/radioactivos, las cuestiones sociales y laborales, y la corrupción y el soborno.

- **Principal incidencia adversa (PIA)**

El fondo utiliza una combinación de enfoques para considerar y, en la medida de lo posible, mitigar las incidencias adversas materiales de nuestras inversiones en la sociedad y el medioambiente, como emisiones de GEI, contaminación atmosférica, pérdida de biodiversidad, emisiones al agua, residuos peligrosos/radioactivos, derechos humanos, normas laborales, corrupción y soborno, y salud pública.

El grado y la forma en que estas incidencias se tuvieron en cuenta dependieron de factores como el contexto específico de la inversión que provoca la incidencia adversa o la disponibilidad de datos fiables.

Los indicadores de sostenibilidad miden cómo se alcanzan las características medioambientales o sociales que promueve el producto financiero.

De conformidad con la política de exclusión de Pictet Asset Management descrita en la Política de Inversión responsable de la empresa (véase el cuadro anterior para consultar las actividades excluidas y los umbrales de exclusión aplicados), el fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente:

Actividades controvertidas (media ponderada de ingresos de la empresa, en %)*:

| | Fondo (%) | Índice de referencia (%) |
|--|-----------|--------------------------|
| Combustibles fósiles y energía nuclear | 2,69 | 4,15 |
| Armas | 0,15 | 0,99 |
| Otras actividades controvertidas | 0,00 | 1,02 |
| No aplicable: | 1,42 | 0,00 |
| No cubierto: | 0,00 | 0,02 |

* Los combustibles fósiles y la energía nuclear incluyen la extracción de carbón térmico y la generación de electricidad, la producción y extracción de petróleo y gas, la extracción de energía de esquisto, la exploración de petróleo y gas en los mares del Ártico y la generación de energía nuclear. Las armas incluyen la contratación militar (servicios de armas y relacionadas con estas), clientes civiles de armas pequeñas (armas de asalto/no asalto), clientes militares/de las fuerzas y cuerpos de seguridad de armas pequeñas y componentes clave de pequeñas armas. Otras actividades controvertidas incluyen la producción de tabaco, la producción de entretenimiento para adultos, la explotación de juegos de azar, el desarrollo o crecimiento de organismos modificados genéticamente, la producción o venta al por menor de pesticidas. La exposición se basa en datos de terceros y puede no reflejar nuestro punto de vista interno. Pictet Asset Management tiene plena discreción sobre la aplicación de los criterios de exclusión y se reserva el derecho de apartarse de la información de terceros, según el caso, cuando se considere incorrecta o incompleta.

Fuente: Pictet Asset Management, Sustainalytics.

Además, el fondo excluyó a los emisores que tenían exposición a:

- (i) PIA 10: Incumplimientos de los principios del Pacto Mundial de las Naciones Unidas y las Directrices para Empresas Multinacionales de la Organización para la Cooperación y el Desarrollo Económicos (OCDE).
- (ii) PIA 14: Exposición a armas controvertidas (minas antipersonas, municiones en racimo, armas químicas y armas biológicas)

• Derechos de voto

Durante el periodo de referencia, el fondo votó en 47 juntas generales de 47 juntas en las que se podía votar (100,00%). Votamos «en contra» (incluidas «abstenciones» o «retenciones») en al menos una resolución en el 25,53% de las juntas.

De las 565 resoluciones de la dirección, votamos en contra de la dirección en 18 puntos (3,19%) y nos abstuvimos en 3 puntos (0,53%).

Apoyamos 24 (80,00%) resoluciones de accionistas de un total de 30 propuestas.

Por lo que respecta a las cuestiones medioambientales y/o sociales, votamos a favor de 2 de las 2 resoluciones de la dirección y a favor de 19 de las 23 resoluciones de accionistas.

Fuente: Pictet Asset Management, ISS ESG.

• Interacción

El fondo se implicó con 20 empresas sobre cuestiones ASG (datos a 30.09.2023). Esto incluye diálogos internos, iniciativas de colaboración entre inversores y servicios de implicación de terceros. Para que se considere implicación, el diálogo con una empresa objetivo debe tener un objetivo claro y mensurable en un horizonte temporal predefinido. Es importante señalar que no todas las interacciones rutinarias o de supervisión, aunque impliquen a la alta dirección o al Consejo de administración, se consideran implicaciones en nuestra evaluación.

Fuente: Pictet Asset Management, Sustainalytics.

• ¿... y en comparación con períodos anteriores?

Esta cuestión se abordará en futuros informes anuales debido a la falta de historial.

● **¿Cuáles han sido los objetivos de las inversiones sostenibles que ha realizado en parte el producto financiero y de qué forma ha contribuido la inversión sostenible a dichos objetivos?**

Pictet Asset Management utilizó marcos de referencia propios, así como los objetivos de la Taxonomía de la UE, para definir las inversiones sostenibles.

El fondo invirtió en valores que financiaban actividades económicas que contribuyeron sustancialmente a objetivos medioambientales y/o sociales como:

Medioambientales

- mitigación del cambio climático o adaptación al mismo
- uso sostenible y protección de los recursos hídricos y marinos
- transición hacia una economía circular
- prevención y control de la contaminación o
- protección y recuperación de la biodiversidad y los ecosistemas

Sociales

- comunidades inclusivas y sostenibles
- nivel de vida adecuado y bienestar para los usuarios finales o
- trabajo digno

● **¿De qué manera las inversiones sostenibles que el producto financiero ha realizado en parte, no han causado un perjuicio significativo a ningún objetivo de inversión sostenible medioambiental o social?**

Para evitar que las inversiones sostenibles causen un perjuicio significativo a cualquier otro objetivo medioambiental o social, el fondo aplicó los siguientes criterios de selección sobre la base del mejor esfuerzo:

(i) Exclusiones de emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente (véase la descripción del marco de exclusión de IR).

(ii) Los emisores asociados a controversias elevadas y graves no se contabilizaron como inversiones sostenibles.

La información se obtuvo de proveedores terceros y/o de análisis interno. La información ASG de terceros proveedores de datos puede haber sido incompleta, inexacta o no estar disponible. Como consecuencia de ello, existía el riesgo de que el Gestor de inversiones evaluara incorrectamente un valor o emisor, dando lugar a la inclusión o exclusión incorrecta de un valor en el fondo. Los datos ASG incompletos, inexactos o no disponibles también pueden actuar como una limitación metodológica a una estrategia de inversión no financiera (como la aplicación de criterios ASG o similares). En los casos identificados, el Gestor de inversiones trató de mitigar este riesgo mediante su propia evaluación. En caso de que las características ASG de un valor mantenido por el fondo cambiaran, dando lugar a la venta del valor, el Gestor de inversiones no acepta responsabilidad alguna en relación con dicho cambio.

● **¿Cómo se han tenido en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?**

Pictet Asset Management realiza un seguimiento de todos los indicadores obligatorios de principales incidencias adversas (incluidos en el Anexo 1 del Reglamento Delegado (UE) 22 / 1288 de la Comisión) cuando disponemos de datos sólidos. Se espera que la calidad de los datos disponibles mejore con el tiempo.

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas de sus inversiones en la sociedad y el medioambiente que se consideran importantes para la estrategia de inversión, mediante un conjunto de decisiones de gestión de cartera, actividades de propiedad activa y exclusión de emisores asociados a conductas o actividades controvertidas. Más información en el informe de PIA de la entidad, disponible en:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=es&bl=PAM>

● **¿Se han ajustado las inversiones sostenibles a las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios rectores de las Naciones Unidas sobre las empresas y los derechos humanos?**

Para garantizar que la inversión sostenible no causara un perjuicio significativo a ningún objetivo de inversión sostenible, el fondo excluyó a las empresas con infracciones elevadas y graves de (i) los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos,

Las principales incidencias adversas
son las incidencias negativas más importantes de las decisiones de inversión sobre los factores de sostenibilidad en relación con asuntos medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

normas laborales, protección del medioambiente y lucha contra la corrupción o (ii) las Líneas Directrices de la OCDE para Empresas Multinacionales, incluidos los asuntos sociales y laborales graves.

La taxonomía de la UE establece el principio de «no causar un perjuicio significativo», según el cual las inversiones que se ajusten a la taxonomía no deben perjudicar significativamente a los objetivos de la taxonomía de la UE, e incluye criterios específicos de la Unión.

El principio de «no perjudicar de forma significativa» se aplica únicamente a las inversiones subyacentes del producto financiero que contemplan los criterios de la UE relativos a actividades económicas sostenibles desde una perspectiva medioambiental. Las inversiones subyacentes al resto del producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas medioambientalmente sostenibles.

Cualquier otra inversión sostenible tampoco debe perjudicar significativamente a ningún objetivo medioambiental o social.

¿Cómo tiene en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas que se consideran importantes para la estrategia de inversión. Entre las incidencias adversas se incluyeron, entre otras, las emisiones de gases de efecto invernadero (GEI), la contaminación atmosférica, la pérdida de biodiversidad, las emisiones al agua, los residuos peligrosos/radioactivos, las cuestiones sociales y laborales, y la corrupción y el soborno, que se abordaron mediante una combinación de:

(i) decisiones de gestión de carteras

El equipo de inversión puntuó las posiciones según una evaluación de los riesgos medioambientales, sociales y de gobernanza como parte del marco de puntuación del fondo. Los gestores de inversiones determinan las puntuaciones sobre una base cualitativa, basándose en el análisis fundamental y en datos cuantitativos ASG, incluidos los datos sobre la Principal incidencia adversa, los datos ASG facilitados por las empresas y los datos proporcionados por terceros proveedores de datos ASG. El proceso de puntuación del equipo de inversión fue un componente clave del proceso de construcción de la cartera del comportamiento, determinando las ponderaciones objetivo en la cartera.

(ii) voto por delegación

El fondo se atuvió a las directrices de voto de Pictet Asset Management, que están diseñadas para apoyar una cultura de gobierno corporativo sólida, una gestión eficaz de las cuestiones medioambientales y sociales, y la publicación de información exhaustiva de acuerdo con normas creíbles. Dichas directrices también pretenden apoyar a los órganos de gobierno mundiales reconocidos que promueven prácticas empresariales sostenibles que abogan por la gestión del medio ambiente, las prácticas laborales justas, la no discriminación y la protección de los derechos humanos. Todas las actividades de voto del fondo se registraron y pueden compartirse previa solicitud.

(iii) implicación

La interacción con los emisores se realizó mediante conversaciones individuales, reuniones de accionistas/bonistas, giras de inversores y/o conferencias telefónicas. Los objetivos de estas interacciones fueron evaluar una organización, supervisar que su estrategia se estaba aplicando conforme a nuestras expectativas y garantizar que los emisores iban camino de cumplir sus metas y objetivos.

Cuando corresponde, nos implicamos con las empresas en relación con cuestiones ASG importantes, como los objetivos de reducción de los GEI, las mejoras en la gobernanza y diversas controversias medioambientales, sociales y de gobernanza, para asegurarnos de que las entendieran y las abordaran eficazmente a corto, medio y largo plazo. Nuestras actividades de implicación combinaron debates dirigidos a nivel interno, iniciativas de colaboración con inversores institucionales y servicios de implicación externos.

(iv) exclusión de emisores asociados a conductas o actividades controvertidas

El fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se definen en la Política de Inversión responsable de la Pictet Asset Management y/o (ii) empresas que infringieron gravemente los principios del Pacto Mundial de la ONU sobre derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción y las armas controvertidas.

¿Cuáles han sido las inversiones principales de este producto financiero?

La lista incluye las inversiones que constituyen la **mayor parte de las inversiones** del producto financiero durante el período de referencia, que es: 01.10.2022 - 30.09.2023

| INVERSIONES DE MAYOR VOLUMEN | SECTOR | % DE ACTIVOS | PAÍS |
|------------------------------|------------------------------|--------------|----------------|
| HCA HEALTHCARE INC | Salud | 4,9 | Estados Unidos |
| MICROSOFT CORP | Tecnología de la información | 4,8 | Estados Unidos |

¿Cuál ha sido la proporción de inversiones relacionadas con la sostenibilidad?

46,59%

La asignación de activos describe el porcentaje de inversiones en activos específicos.

● ¿Cuál ha sido la asignación de activos?

El fondo se ajustó en un 98,58% con características medioambientales o sociales (n.º 1 Ajustadas a características medioambientales o sociales) y tuvo hasta un 1,42% invertido en la categoría Otras (n.º 2 Otras). El 46,59% se asignó a inversiones sostenibles (n.º 1A Sostenibles) y el resto se invirtió en inversiones ajustadas a otras características medioambientales o sociales (n.º 1B Otras características medioambientales o sociales).

n.º 1 Ajustadas a características medioambientales o sociales incluye las inversiones del producto financiero utilizadas para lograr las características medioambientales o sociales que promueve el producto financiero.

n.º 2 Otras incluye el resto de inversiones del producto financiero que ni se ajustan a las características medioambientales o sociales ni pueden considerarse inversiones sostenibles.

La categoría **n.º 1 Ajustadas a características medioambientales o sociales** abarca:

- la subcategoría **n.º 1A Sostenibles**, que abarca las inversiones sostenibles con objetivos medioambientales o sociales.

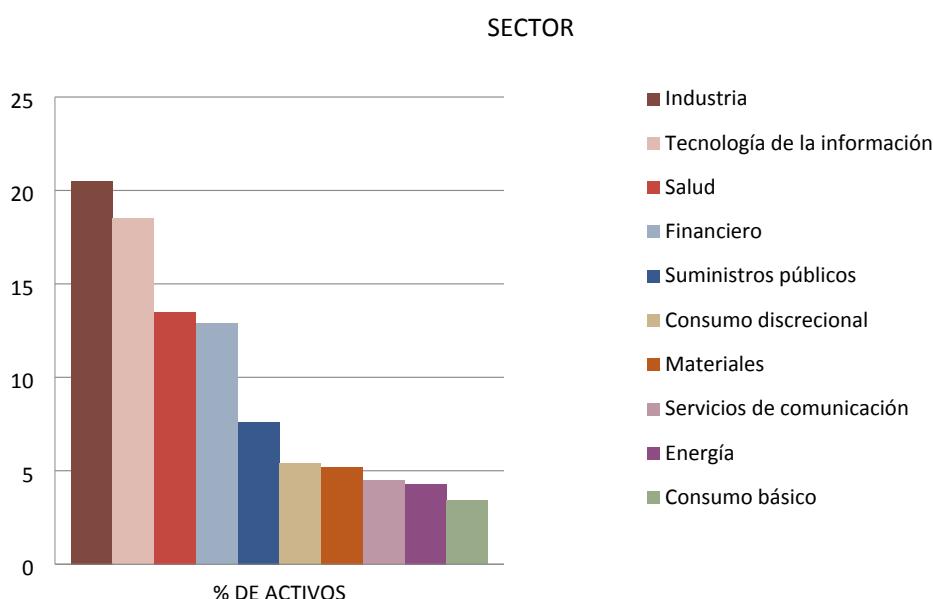

- la subcategoría **n.º 1B Otras características medioambientales o sociales**, que abarca inversiones ajustadas a las características medioambientales o sociales que no pueden considerarse inversiones sostenibles.

Notas:

- Las inversiones «n.º 1A Sostenibles», «Otras medioambientales» y «Sociales» se calcularon sobre una base de aprobado/suspenso. Incluyen bonos certificados (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.
- Las inversiones ajustadas a la taxonomía verde de la UE se calculan ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a la mitigación del cambio climático y la adaptación al mismo) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.
- A falta de una taxonomía social de la UE, Pictet ha desarrollado un marco de taxonomía social propio. El marco se basa en basado en el Informe sobre taxonomía social publicado por la Plataforma de Finanzas Sostenibles de la UE en 2022. Las actividades admisibles se definen como bienes y servicios beneficiosos desde el punto de vista social que contribuyen sustancialmente a uno de los tres objetivos sociales siguientes: (1) comunidades inclusivas y sostenibles, (2) nivel de vida adecuado y bienestar para los usuarios finales y (3) trabajo digno.

Fuente: Pictet Asset Management, Sustainanalytics, FTSE Green Revenues, Factset RBICS.

● ¿En qué sectores económicos se han realizado las inversiones?

Fuente: Pictet Asset Management, GICS/MSCI.

Estamos evaluando la disponibilidad y la calidad de los datos que nos permitirían divulgar información más granular en futuros informes sobre los sectores y subsectores de la economía que obtienen ingresos a partir de la exploración, la minería, la extracción, la producción, el procesamiento, el almacenamiento, el refinado o la distribución, incluidos el transporte, el almacenamiento y el comercio, de combustibles fósiles, según se definen en el artículo 2, punto (62), del Reglamento (UE) 2018/1999 del Parlamento Europeo y del Consejo.

¿En qué medida se ajustaban las inversiones sostenibles con un objetivo medioambiental a la taxonomía de la UE?

El fondo realizó inversiones en actividades económicas que contribuyeron a los dos primeros objetivos medioambientales (mitigación del cambio climático y adaptación a este), según lo establecido en el artículo 9 del Reglamento (UE) 2020/852.

Las inversiones ajustadas a la taxonomía de la UE se calcularon ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a objetivos medioambientales relevantes) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.

Los datos de ajuste a la Taxonomía verde de la UE proceden de informes públicos. Los cálculos también pueden incluir estimaciones en un número limitado de casos en los que no se disponía de datos sobre la alineación con la Taxonomía verde de la UE. Las estimaciones se realizaron sobre la base del mejor esfuerzo y siguiendo un planteamiento conservador para obtener un resultado prudente.

Los procedimientos de control se han aplicado para verificar en todo momento el cumplimiento del artículo 3 del Reglamento sobre taxonomía de la UE.

Los datos facilitados no han sido verificados por un auditor externo ni revisados por un tercero independiente.

● ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil o la energía nuclear que cumplían con la taxonomía de la UE¹?.

Sí:

En gas fósil En energía nuclear

No

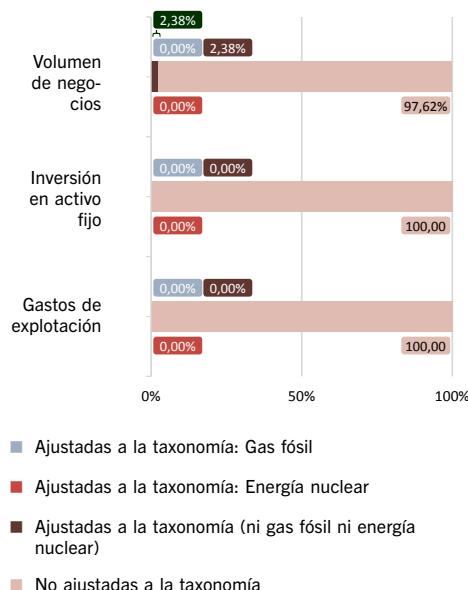

La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permite ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

Para ajustarse a la taxonomía de la UE, los criterios correspondientes al **gas fósil** incluyen limitaciones de emisiones y el paso a la energía renovable o combustibles bajos en carbono de aquí al fin de 2035. Por lo que respecta a la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

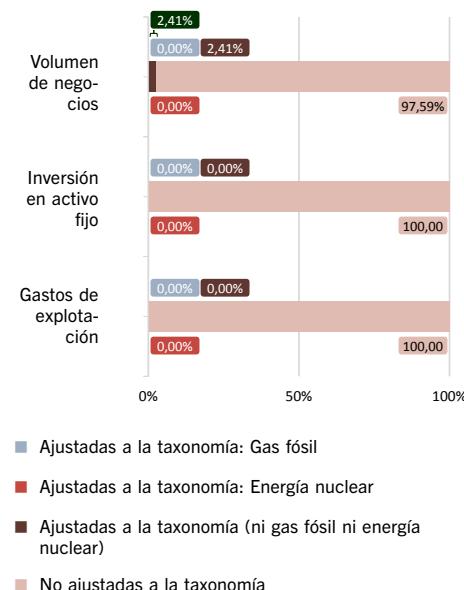

Las actividades que se ajustan a la taxonomía se expresan como un porcentaje de:
- el **volumen de negocios**, que refleja el «carácter ecológico» de las empresas en las que se invierte en la actualidad;
- la **inversión en activo fijo**, que muestra las inversiones ecológicas realizadas por las empresas en las que se invierte, pertinentes para la transición a una economía verde;
- los **gastos de explotación**, que reflejan las actividades operativas ecológicas de las empresas en las que se invierte.

Los gráficos que figuran a continuación muestran en verde el porcentaje de inversiones que se ajustaban a la taxonomía de la UE. Dado que no existe una metodología adecuada para determinar la adaptación a la taxonomía de los bonos soberanos*, el primer gráfico muestra la adaptación a la taxonomía correspondiente para todas las inversiones del producto financiero, incluidos los bonos soberanos, mientras que el segundo gráfico muestra la adaptación a la taxonomía solo en relación con las inversiones del producto financiero distintas de los bonos soberanos.

1. Ajuste a la taxonomía de las inversiones incluidos los bonos soberanos*

2. Ajuste a la taxonomía de las inversiones excluidos los bonos soberanos*

Este gráfico representa el 98,58% de las inversiones totales.

* A efectos de estos gráficos, los «bonos soberanos» incluyen todas las exposiciones soberanas

Nota:

Utilizamos los ingresos como medida clave para establecer la asignación de objetivos y el ajuste real con la taxonomía de la UE debido a la disponibilidad limitada y a la falta de datos fiables para los gastos de explotación y la inversión en activo fijo.

Fuente: Pictet Asset Management.

¹ Las actividades relacionadas con el gas fósil o la energía nuclear solo cumplirán la taxonomía de la UE cuando contribuyan a limitar el cambio climático («mitigación del cambio climático») y no perjudiquen significativamente ningún objetivo de la taxonomía de la UE (véase la nota explicativa en el margen izquierdo). Los criterios completos correspondientes a las actividades económicas del gas fósil y la energía nuclear que se ajustan a la taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

● **¿Cuál ha sido la proporción de las inversiones realizadas en actividades de transición y facilitadoras?**

La proporción de inversiones realizadas en:

- Actividades de transición: No aplicable*
- Actividades de facilitadoras: No aplicable*

* La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permiten ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

● **¿Qué porcentaje de inversiones se han ajustado a la taxonomía de la UE en comparación con los períodos de referencia anteriores?**

No aplicable.

¿Cuál ha sido la proporción de inversiones sostenibles con un objetivo medioambiental no ajustadas a la taxonomía de la UE?

27,82%

Estas inversiones sostenibles no se ajustan a la Taxonomía de la UE porque sus actividades económicas o bien (i) no están cubiertas por la Taxonomía de la UE, o bien (ii) no cumplen los criterios técnicos de selección para lograr una contribución sustancial en el sentido de la Taxonomía de la UE.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta los criterios para las actividades económicas medioambientalmente sostenibles con arreglo al Reglamento (UE) 2020/852.

¿Cuál ha sido la proporción de inversiones socialmente sostenibles?

18,76%

¿Qué inversiones se han incluido en «otras» y cuál ha sido su propósito? ¿ha habido garantías medioambientales o sociales mínimas?

Las «otras» inversiones del fondo incluían posiciones de tesorería mantenidas principalmente para satisfacer los objetivos diarios de liquidez y gestión de riesgos permitidos y previstos por la política de inversión del fondo. Cuando sea preciso, se aplicarán salvaguardias medioambientales o sociales mínimas a los valores subyacentes.

¿Qué medidas se han adoptado para cumplir las características medioambientales o sociales durante el período de referencia?

Durante el periodo de referencia, se alcanzó el objetivo de inversión sostenible siguiendo la estrategia de inversión y respetando los elementos vinculantes.

Los elementos vinculantes del fondo son:

- Exclusión de emisores que:
 - están relacionados con armas nucleares de países que no han firmado el Tratado sobre la No Proliferación de Armas Nucleares (TNP) y otras armas controvertidas
 - obtienen una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, como la extracción de carbón térmico y la generación de electricidad, la exploración y producción no convencional de petróleo y gas, la producción de petróleo y gas convencional, la generación de energía nuclear, las armas convencionales y armas pequeñas, la contratación militar de armas y productos y servicios relacionados con las armas, la producción de tabaco, la producción de entretenimiento para adultos, las actividades del juego, el desarrollo y crecimiento de organismos modificados genéticamente, la producción y comercialización de pesticidas. Para más detalles sobre los umbrales de exclusión aplicables a las actividades anteriores, consulte la Política de Inversión responsable de Pictet Asset Management.

- incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción
- análisis de criterios ASG de los valores admisibles que abarca al menos el 90% del patrimonio neto o el número de emisores incluidos en la cartera

Además, el fondo se implicó con 20 empresas a 30.09.2023.

¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

Los índices de referencia son índices para medir si el producto financiero logra las características medioambientales o sociales que promueve.

● ¿Cómo difería el índice de referencia de un índice general de mercado?

No aplicable.

● ¿Cómo se ha comportado este producto financiero con respecto a los indicadores de sostenibilidad para determinar la conformidad del índice de referencia con las características medioambientales o sociales que promueve?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice general de mercado?

No aplicable.

OBJETIVO DE INVERSIÓN SOSTENIBLE

Inversión sostenible significa una inversión en una actividad económica que contribuye a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo a ningún objetivo medioambiental o social y que las empresas en las que se invierte sigan prácticas de buena gobernanza.

La **taxonomía de la UE** es un sistema de clasificación previsto en el Reglamento (UE) 2020/852 por el que se establece una lista de **actividades económicas medioambientalmente sostenibles**. Dicho Reglamento no prevé una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental pueden ajustarse, o no, a la taxonomía.

| ¿ESTE PRODUCTO FINANCIERO TENÍA UN OBJETIVO DE INVERSIÓN SOSTENIBLE? | | | |
|--|-------------------------------------|--|--|
| <input checked="" type="radio"/> Si | <input checked="" type="radio"/> No | <input type="radio"/> Promovió características medioambientales o sociales y, aunque no tenía como objetivo una inversión sostenible, tuvo un porcentaje del ___% de inversiones sostenibles | <input type="radio"/> con un objetivo medioambiental en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input checked="" type="checkbox"/> Ha realizado inversiones sostenibles con un objetivo medioambiental: 58,69% | <input type="checkbox"/> | <input type="checkbox"/> con un objetivo medioambiental en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input type="checkbox"/> con un objetivo medioambiental en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input checked="" type="checkbox"/> en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input type="checkbox"/> | <input type="checkbox"/> con un objetivo social | <input type="checkbox"/> con un objetivo social |
| <input checked="" type="checkbox"/> en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input type="checkbox"/> | <input type="checkbox"/> Ha promovido características medioambientales o sociales, pero no ha realizado ninguna inversión sostenible | |
| <input checked="" type="checkbox"/> Ha realizado inversiones sostenibles con un objetivo social: 37,00% | <input type="checkbox"/> | | |

Nota: Las inversiones sostenibles se calcularon sobre una base de aprobado/suspenso, incluyendo bonos con etiqueta (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% (medida por ingresos, EBIT, valor de empresa o indicadores similares) a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.

¿En qué grado se ha cumplido el objetivo de inversión sostenible de este producto financiero?

Principales maneras por las que el fondo logró su objetivo de sostenibilidad:

- Impacto positivo:

El fondo logró un impacto medioambiental y/osocial positivo, invirtiendo principalmente en empresas con una huella medioambiental reducida que contribuyen a superar dos desafíos medioambientales estrechamente ligados: la biodiversidad y la economía circular.

No se ha designado ningún índice de referencia con el fin de lograr el objetivo de inversión sostenible.

El fondo invirtió principalmente en empresas cuyas actividades están relacionadas en gran medida con, entre otras cosas, los recursos renovables, el diseño ecológico, la optimización de la producción, el ciclo biológico, el consumo inteligente, la reutilización de los residuos y otras actividades económicas relevantes.

Los valores admisibles incluyeron acciones emitidas por empresas con una proporción significativa de actividades (medida por ingresos, EBIT, valor de empresa o parámetros similares) derivadas de dichas actividades económicas.

- Exclusiones basadas en normas y valores:

El fondo excluyó los emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente o que incumplen de forma grave las normas internacionales, según se detalla a continuación:

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

| Actividad | Umbrales de ingresos |
|---|----------------------|
| Combustibles fósiles y energía nuclear | |
| Extracción de carbón térmico | > 25% |
| Generación de energía térmica de carbón | > 25% |
| Producción de petróleo y gas | > 25% |
| Extracción de arenas bituminosas | > 10% |
| Extracción de energía de esquisto | > 10% |
| Exploración de petróleo y gas en el Ártico | > 10% |
| Generación de energía nuclear | > 50% |
| Armas | |
| Producción de armas controvertidas[1] | > 0% |
| Armas de contratación militar | > 10% |
| Productos y/o servicios relacionados con armas de contratación militar | > 50% |
| Clientes civiles de armas pequeñas (armas de asalto) | > 10% |
| Clientes civiles de armas pequeñas (armas de no asalto) | > 10% |
| Clientes militares/de fuerzas del orden de armas pequeñas | > 25% |
| Componentes clave de armas pequeñas | > 25% |
| Otras actividades controvertidas | |
| Producción de entretenimiento para adultos | > 10% |
| Operaciones de juego | > 10% |
| Desarrollo de plantas y semillas modificadas genéticamente | > 25% |
| Cultivo de plantas y semillas modificadas genéticamente | > 25% |
| Producción de plaguicidas | > 10% |
| Venta al por menor de plaguicidas | > 10% |
| Producción de productos de tabaco | > 10% |
| Exclusiones de empresas por incumplimiento de normas internacionales | Excluidas |
| Empresas que incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción | Sí |
| Exclusiones de países | Excluidas |
| Países (i) incluidos en la lista de Estados patrocinadores del terrorismo, según la definición de la Oficina de Control de Activos Extranjeros de EE. UU.[2] o (ii) sujetos a sanciones financieras de la UE contra bancos centrales y/o empresas de propiedad estatal. | Sí |
| Países (i) clasificados como de muy alto o alto riesgo en el Índice de Estados Frágiles o (ii) afectados por conflictos violentos según la definición del Banco Mundial. | Sí |

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

Países (i) incluidos en la lista de «alerta» del Índice de Estados Frágiles o (ii) sujetos a sanciones relacionadas con la exportación por parte de la UE. Lista de vigilancia[3]

[1] Entre las armas controvertidas se encuentran las minas antipersona, las municiones de racimo, las armas biológicas y químicas (incluido el fósforo blanco) y las armas nucleares procedentes de países no firmantes del Tratado de No Proliferación de Armas Nucleares (TNP).

[2] «Estado patrocinador del terrorismo» es una designación aplicada por el Departamento de Estado de Estados Unidos a países que repetidamente han prestado apoyo a actos de terrorismo internacional.

[3] Además de las exclusiones estrictas, Pictet Asset Management mantiene una lista de vigilancia que incluye países que requieren una diligencia debida adicional por parte de los equipos de inversión antes de invertir.

Para más detalles, consulte la Política de Inversión responsable de Pictet Asset Management (Anexo B).

Además de las exclusiones mencionadas, basadas en la Política de Inversión responsable de Pictet Asset Management, la estrategia aplicó límites de exclusión más estrictos basados en directrices internas.

- Titularidad activa:

El fondo ejerció sus derechos de voto de forma metódica. El fondo también se implicó con la dirección de las empresas sobre cuestiones ASG importantes.

- Inversiones sostenibles:

Pictet Asset Management utilizó un marco propio, así como los objetivos de la Taxonomía de la UE, para definir las inversiones sostenibles.

El fondo invirtió en valores que financiaban actividades económicas que contribuyeron sustancialmente a objetivos medioambientales y/o sociales como:

Medioambientales

- mitigación del cambio climático o adaptación al mismo
- suso sostenible y protección de los recursos hídricos y marinos
- transición hacia una economía circular
- prevención y control de la contaminación o
- protección y recuperación de la biodiversidad y el ecosistema

Sociales

- comunidades inclusivas y sostenibles
- nivel de vida adecuado y bienestar para los usuarios finales o
- trabajo digno

● **¿Cómo se han comportado los indicadores de sostenibilidad?**

Durante el periodo de información, los indicadores de sostenibilidad se comportaron según se indica a continuación:

- **Exposición a empresas que obtienen una parte significativa de sus ingresos, EBIT, valor de empresa o parámetros similares de actividades económicas que contribuyen a los objetivos medioambientales o sociales, y bonos con etiqueta cuando sea relevante para la clase de activos (inversiones sostenibles):**

95,69%

- **Exposición a ingresos de actividades económicas que contribuyen a la mitigación del cambio climático y/o a la adaptación al mismo (inversiones ajustadas a la taxonomía de la UE):**

3,33%

En el informe del próximo año se facilitará información adicional sobre objetivos medioambientales y/o sociales específicos.

- **Perfil ASG global**

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos.

- **Principal incidencia adversa (PIA)**

El fondo utiliza una combinación de enfoques para considerar y, en la medida de lo posible, mitigar las incidencias adversas materiales de sus inversiones en la sociedad y el medioambiente, como emisiones de GEI, contaminación atmosférica, pérdida de biodiversidad, emisiones al agua, residuos peligrosos/radioactivos, derechos humanos, normas laborales, corrupción y soborno, y salud pública.

Los indicadores de sostenibilidad miden cómo se logran los objetivos sostenibles de este producto financiero.

El grado y la forma en que estas incidencias se tuvieron en cuenta dependieron de factores como el contexto específico de la inversión que provoca la incidencia adversa o la disponibilidad de datos fiables.

De conformidad con la política de exclusión de Pictet Asset Management descrita en la Política de Inversión responsable de la empresa (véase el cuadro anterior para consultar las actividades excluidas y los umbrales de exclusión aplicados), el fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se detalla a continuación:

Actividades controvertidas (media ponderada de ingresos de la empresa, en %)*:

| | Fondo (%) | Índice de referencia (%) |
|--|-----------|--------------------------|
| Combustibles fósiles y energía nuclear | 0,03 | 4,15 |
| Armas | 0,07 | 0,99 |
| Otras actividades controvertidas | 0,09 | 1,02 |
| No aplicable: | 4,31 | 0,00 |
| No cubierto: | 0,27 | 0,02 |

* Los combustibles fósiles y la energía nuclear incluyen la extracción de carbón térmico y la generación de electricidad, la producción y extracción de petróleo y gas, la extracción de energía de esquisto, la exploración de petróleo y gas en los mares del Ártico y la generación de energía nuclear. Las armas incluyen la contratación militar (servicios de armas y relacionadas con estas), clientes civiles de armas pequeñas (armas de asalto/no asalto), clientes militares/de las fuerzas y cuerpos de seguridad de armas pequeñas y componentes clave de pequeñas armas. Otras actividades controvertidas incluyen la producción de tabaco, la producción de entretenimiento para adultos, la explotación de juegos de azar, el desarrollo o crecimiento de organismos modificados genéticamente, la producción o venta al por menor de pesticidas. La exposición se basa en datos de terceros y puede no reflejar nuestro punto de vista interno. Pictet Asset Management tiene plena discreción sobre la aplicación de los criterios de exclusión y se reserva el derecho de apartarse de la información de terceros, según el caso, cuando se considere incorrecta o incompleta.

Fuente: Pictet Asset Management, Sustainalytics.

Además, el fondo excluyó a los emisores que tenían exposición a:

(i) PIA 10: Incumplimientos de los principios del Pacto Mundial de las Naciones Unidas y las Directrices para Empresas Multinacionales de la Organización para la Cooperación y el Desarrollo Económicos (OCDE).

(ii) PIA 14: Exposición a armas controvertidas (minas antipersonas, municiones en racimo, armas químicas y armas biológicas)

• Derechos de voto

Durante el periodo de referencia, el fondo votó en 53 juntas generales de 54 juntas en las que se podía votar (98,15%). Votamos «en contra» (incluidas «abstenciones» o «retenciones») en al menos una resolución en el 44,44% de las juntas.

De las 698 resoluciones de la dirección, votamos en contra de la dirección en 38 puntos (5,44%) y nos abstuvimos en 12 puntos (1,72%).

Apoyamos 7 (58,33%) resoluciones de accionistas de un total de 12 propuestas.

Por lo que respecta a las cuestiones medioambientales y/o sociales, votamos a favor de 1 de las 1 resoluciones de la dirección y a favor de 2 de las 4 resoluciones de accionistas.

Fuente: Pictet Asset Management, ISS ESG.

• Interacción

El fondo se implicó con 22 empresas sobre cuestiones ASG (datos a 30.09.2023). Esto incluye diálogos internos, iniciativas de colaboración entre inversores y servicios de implicación de terceros. Para que se considere implicación, el diálogo con una empresa objetivo debe tener un objetivo claro y mensurable en un horizonte temporal predefinido. Es importante señalar que no todas las interacciones rutinarias o de supervisión, aunque impliquen a la alta dirección o al Consejo de administración, se consideran implicaciones en nuestra evaluación.

Fuente: Pictet Asset Management, Sustainalytics.

- ¿... y en comparación con períodos anteriores?**
Esta cuestión se abordará en futuros informes anuales debido a la falta de historial.
- ¿De qué manera las inversiones sostenibles no han causado un perjuicio significativo a ningún objetivo medioambiental o social?**
Para evitar que las inversiones sostenibles causen un perjuicio significativo a cualquier otro objetivo medioambiental o social, el fondo aplicó los siguientes criterios de selección sobre la base del mejor esfuerzo:
- (i) Exclusiones de emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente (véase la descripción del marco de exclusión de IR).
 - (ii) Los emisores asociados a controversias elevadas y graves se excluyeron.
- La información se obtuvo de proveedores terceros y/o de análisis interno. La información ASG de terceros proveedores de datos puede haber sido incompleta, inexacta o no estar disponible. Como consecuencia de ello, existía el riesgo de que el Gestor de inversiones evaluara incorrectamente un valor o emisor, dando lugar a la inclusión o exclusión incorrecta de un valor en el fondo. Los datos ASG incompletos, inexactos o no disponibles también pueden actuar como una limitación metodológica a una estrategia de inversión no financiera (como la aplicación de criterios ASG o similares). En los casos identificados, el Gestor de inversiones trató de mitigar este riesgo mediante su propia evaluación. En caso de que las características ASG de un valor mantenido por el fondo cambiaran, dando lugar a la venta del valor, el Gestor de inversiones no acepta responsabilidad alguna en relación con dicho cambio.
- ¿Cómo se han tenido en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?**
Pictet Asset Management realiza un seguimiento de todos los indicadores obligatorios de principales incidencias adversas (incluidos en el Anexo 1 del Reglamento Delegado (UE) 22 / 1288 de la Comisión) cuando disponemos de datos sólidos. Se espera que la calidad y la disponibilidad de los datos mejoren con el tiempo.
El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas de sus inversiones en la sociedad y el medioambiente que se consideran importantes para la estrategia de inversión, mediante un conjunto de decisiones de gestión de cartera, actividades de propiedad activa y exclusión de emisores asociados a conductas o actividades controvertidas.
Más información en el informe de PIA de la entidad, disponible en:
<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=es&bl=PAM>
- ¿Se han ajustado las inversiones sostenibles a las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios rectores de las Naciones Unidas sobre las empresas y los derechos humanos?**
Para garantizar que la inversión sostenible no causara un perjuicio significativo a ningún objetivo de inversión sostenible, el fondo excluyó a las empresas con infracciones elevadas y graves de (i) los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción o (ii) las Líneas Directrices de la OCDE para Empresas Multinacionales, incluidos los asuntos sociales y laborales graves.
-  **¿Cómo tiene en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?**
- El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas que se consideran importantes para la estrategia de inversión. Entre las incidencias adversas se incluyeron, entre otras, las emisiones de gases de efecto invernadero (GEI), la contaminación atmosférica, la pérdida de biodiversidad, las emisiones al agua, los residuos peligrosos/radioactivos, las cuestiones sociales y laborales, y la corrupción y el soborno, que se abordaron mediante una combinación de:
- (i) decisiones de gestión de carteras
- El equipo de inversión puntuó las posiciones según una evaluación de los riesgos y oportunidades medioambientales, sociales y de gobernanza, así como la exposición a inversiones sostenibles, como parte del marco de puntuación del fondo. Las puntuaciones se determinan de forma cualitativa por los gestores de inversión, basándose en estudios fundamentales y datos cuantitativos ASG, incluidos los datos sobre el Principio de Impacto Negativo, los datos ASG facilitados por las empresas y los datos

proporcionados por terceros proveedores de datos ASG. El proceso de puntuación del equipo de inversión fue un componente clave del proceso de construcción de la cartera del compartimento, determinando las ponderaciones objetivo en la cartera.

(ii) voto por delegación

El fondo se atuvió a las directrices de voto de Pictet Asset Management, que están diseñadas para apoyar una cultura de gobierno corporativo sólida, una gestión eficaz de las cuestiones medioambientales y sociales, y la publicación de información exhaustiva de acuerdo con normas creíbles. Dichas directrices también pretenden apoyar a los órganos de gobierno mundiales reconocidos que promueven prácticas empresariales sostenibles que abogan por la gestión del medio ambiente, las prácticas laborales justas, la no discriminación y la protección de los derechos humanos. Todas las actividades de voto del fondo se registraron y pueden compartirse previa solicitud.

(iii) implicación

La interacción con los emisores se realizó mediante conversaciones individuales, reuniones de accionistas/bonistas, giras de inversores y/o conferencias telefónicas. Los objetivos de estas interacciones fueron evaluar una organización, supervisar que su estrategia se estaba aplicando conforme a nuestras expectativas y garantizar que los emisores iban camino de cumplir sus metas y objetivos.

Cuando correspondió, nos implicamos con los emisores para abordar preocupaciones importantes en materia de ASG, mejorar las prácticas de sostenibilidad de las empresas o implicarnos en temas de impacto positivo para asegurarnos de que las entendían plenamente y las abordaban eficazmente a corto, medio y largo plazo. Nuestras actividades de implicación combinaron debates dirigidos a nivel interno, iniciativas de colaboración con inversores institucionales y servicios de implicación externos.

(iv) exclusión de emisores asociados a conductas o actividades controvertidas

El fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se definen en la Política de Inversión responsable de la Pictet Asset Management y/o (ii) empresas que infringieron gravemente los principios del Pacto Mundial de la ONU sobre derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción y las armas controvertidas.

¿Cuáles han sido las inversiones principales de este producto financiero?

La lista incluye las inversiones que constituyen la mayor parte de las inversiones del producto financiero durante el período de referencia, que es: 16.12.2022 - 30.09.2023

| INVERSIONES DE MAYOR VOLUMEN | SECTOR | % DE ACTIVOS | PAÍS |
|------------------------------|------------------------------|--------------|----------------|
| REPUBLIC SERVICES INC | Industria | 3,4 | Estados Unidos |
| BANK RAKYAT INDONESIA PERSER | Financiero | 3,4 | Indonesia |
| INTUIT INC | Tecnología de la información | 3,3 | Estados Unidos |
| AMERICAN WATER WORKS CO INC | Suministros públicos | 3,2 | Estados Unidos |
| COPART INC | Industria | 3,1 | Estados Unidos |
| EQUINIX INC | Bienes inmobiliarios | 3,0 | Estados Unidos |
| AUTODESK INC | Tecnología de la información | 2,9 | Estados Unidos |
| SCHNEIDER ELECTRIC SE | Industria | 2,8 | Francia |
| WASTE CONNECTIONS INC | Industria | 2,7 | Canadá |

¿Cuál ha sido la proporción de inversiones relacionadas con la sostenibilidad?

95,69%

La asignación de activos describe el porcentaje de inversiones en activos específicos.

● ¿Cuál ha sido la asignación de activos?

El fondo asignó el 95,69% de sus activos a inversiones sostenibles (n.º 1 Sostenibles) y el 4,31% a Inversiones no sostenibles (n.º 2 No sostenibles). El 58,69% de sus activos se han asignado a objetivos medioambientales y el 37,00% a objetivos sociales.

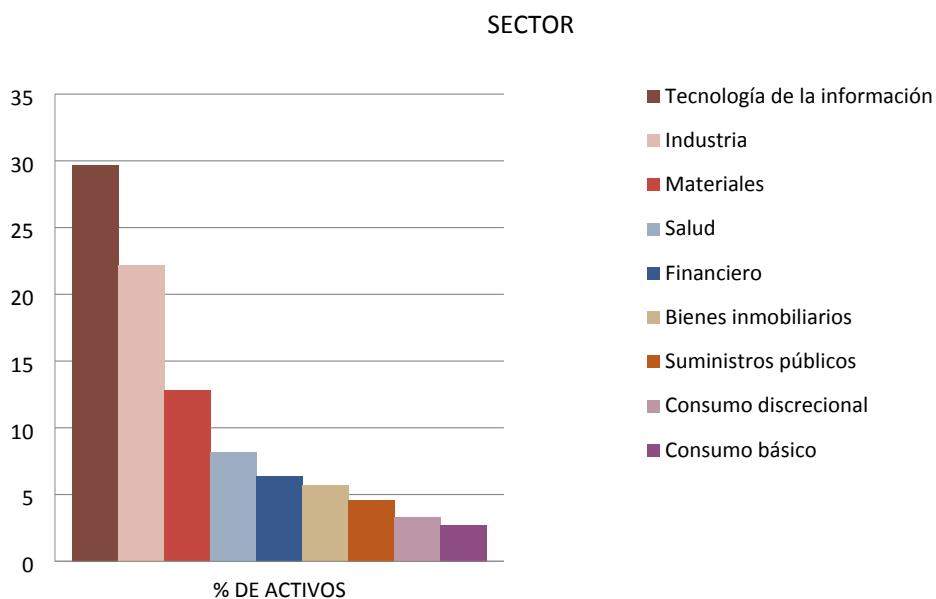

Notas:

- Las inversiones «n.º 1A Sostenibles», «Otras medioambientales» y «Sociales» se calcularon sobre una base de aprobado/suspenso. Incluyen bonos certificados (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.
- Las inversiones ajustadas a la taxonomía verde de la UE se calculan ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a la mitigación del cambio climático y la adaptación al mismo) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.
- A falta de una taxonomía social de la UE, Pictet ha desarrollado un marco de taxonomía social propio, basado en el Informe sobre taxonomía social publicado por la Plataforma de Finanzas Sostenibles de la UE en 2022. Las actividades admisibles se definen como bienes y servicios que contribuyen sustancialmente a uno de los tres objetivos siguientes: (1) comunidades inclusivas y sostenibles, (2) nivel de vida adecuado y bienestar para los usuarios finales y (3) trabajo digno.

Fuente: Pictet Asset Management, FTSE Green revenues, Factset RBICS.

● ¿En qué sectores económicos se han realizado las inversiones?

Fuente: Pictet Asset Management, GICS/MSCI.

Estamos evaluando la disponibilidad y la calidad de los datos que nos permitirían divulgar información más granular en futuros informes sobre los sectores y subsectores de la economía que obtienen ingresos a partir de la exploración, la minería, la extracción, la producción, el

procesamiento, el almacenamiento, el refinado o la distribución, incluidos el transporte, el almacenamiento y el comercio, de combustibles fósiles, según se definen en el artículo 2, punto (62), del Reglamento (UE) 2018/1999 del Parlamento Europeo y del Consejo.

¿En qué medida se ajustaban las inversiones sostenibles con un objetivo medioambiental a la taxonomía de la UE?

El fondo realizó inversiones en actividades económicas que contribuyeron a los dos primeros objetivos medioambientales (mitigación del cambio climático y adaptación a este), según lo establecido en el artículo 9 del Reglamento (UE) 2020/852.

Las inversiones ajustadas a la taxonomía de la UE se calcularon ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a objetivos medioambientales relevantes) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.

Los datos de ajuste a la Taxonomía verde de la UE proceden de informes públicos. Los cálculos también pueden incluir estimaciones en un número limitado de casos en los que no se disponía de datos sobre la alineación con la Taxonomía verde de la UE. Las estimaciones se realizaron sobre la base del mejor esfuerzo y siguiendo un planteamiento conservador para obtener un resultado prudente.

Los procedimientos de control se han aplicado para verificar en todo momento el cumplimiento del artículo 3 del Reglamento sobre taxonomía de la UE.

Los datos facilitados no han sido verificados por un auditor externo ni revisados por un tercero independiente.

● ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil o la energía nuclear que cumplían con la taxonomía de la UE¹?

Sí:

En gas fósil En energía nuclear

No

La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permite ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

Para ajustarse a la taxonomía de la UE, los criterios correspondientes al **gas fósil** incluyen limitaciones de emisiones y el paso a la energía renovable o combustibles bajos en carbono de aquí al fin de 2035. Por lo que respecta a la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

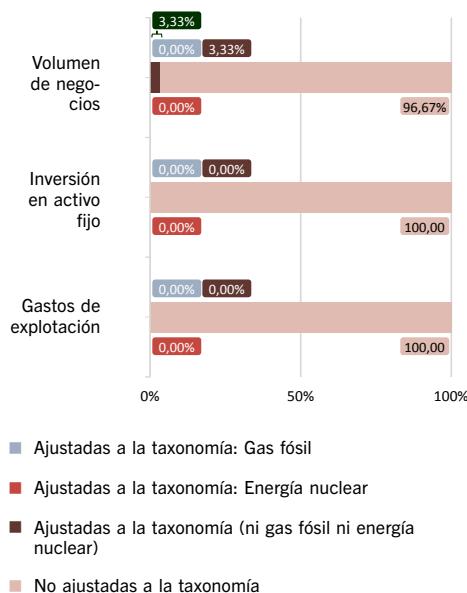

¹ Las actividades relacionadas con el gas fósil o la energía nuclear solo cumplirán la taxonomía de la UE cuando contribuyan a limitar el cambio climático («mitigación del cambio climático») y no perjudiquen significativamente ningún objetivo de la taxonomía de la UE (véase la nota explicativa en el margen izquierdo). Los criterios completos correspondientes a las actividades económicas del gas fósil y la energía nuclear que se ajustan a la taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

Las actividades que se ajustan a la taxonomía se expresan como un porcentaje de:

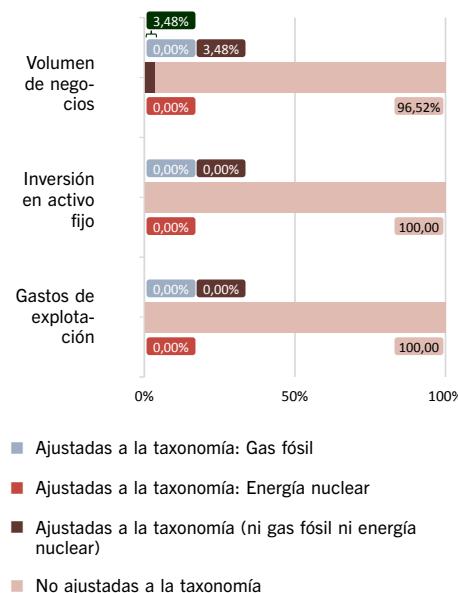

- El **volumen de negocios**, que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas en las que se invierte.
- La **inversión en activo fijo**, que muestra las inversiones ecológicas realizadas por las empresas en las que se invierte, por ejemplo, para la transición a una economía verde.
- Los **gastos de explotación**, que reflejan las actividades operativas ecológicas de las empresas en las que se invierte.

Los gráficos que figuran a continuación muestran en verde el porcentaje de inversiones que se ajustaban a la taxonomía de la UE. Dado que no existe una metodología adecuada para determinar la adaptación a la taxonomía de los bonos soberanos*, el primer gráfico muestra la adaptación a la taxonomía correspondiente para todas las inversiones del producto financiero, incluidos los bonos soberanos, mientras que el segundo gráfico muestra la adaptación a la taxonomía solo en relación con las inversiones del producto financiero distintas de los bonos soberanos.

1. Ajuste a la taxonomía de las inversiones incluidos los bonos soberanos*

2. Ajuste a la taxonomía de las inversiones excluidos los bonos soberanos*

Este gráfico representa el 95,69% de las inversiones totales.

* A efectos de estos gráficos, los «bonos soberanos» incluyen todas las exposiciones soberanas

Nota:

Utilizamos los ingresos como medida clave para establecer la asignación de objetivos y el ajuste real con la taxonomía de la UE debido a la disponibilidad limitada y a la falta de datos fiables para los gastos de explotación y la inversión en activo fijo.

Fuente: Pictet Asset Management.

● ¿Cuál ha sido la proporción de las inversiones realizadas en actividades de transición y facilitadoras?

La proporción de inversiones realizadas en:

- Actividades de transición: No aplicable*
- Actividades de facilitadoras: No aplicable*

* La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permiten ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

● ¿Qué porcentaje de inversiones se han ajustado a la taxonomía de la UE en comparación con los períodos de referencia anteriores?

No aplicable.

¿Cuál ha sido la proporción de inversiones sostenibles con un objetivo medioambiental no ajustadas a la taxonomía de la UE?

58,69%

Estas inversiones sostenibles no se ajustan a la Taxonomía de la UE porque sus actividades económicas o bien (i) no están cubiertas por la Taxonomía de la UE, o bien (ii) no cumplen los criterios técnicos de selección para lograr una contribución sustancial en el sentido de la Taxonomía de la UE.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta

los criterios para las actividades económicas medioambientalmente sostenibles con arreglo a la taxonomía de la UE.

¿Cuál ha sido la proporción de inversiones socialmente sostenibles?

37%

¿Qué inversiones se han incluido en «No sostenibles» y cuál ha sido su propósito? ¿Ha habido garantías medioambientales o sociales mínimas?

Las «otras» inversiones del fondo incluían posiciones de tesorería mantenidas principalmente para satisfacer los objetivos diarios de liquidez y gestión de riesgos permitidos y previstos por la política de inversión del fondo. Cuando sea preciso, se aplicarán salvaguardias medioambientales o sociales mínimas a los valores subyacentes.

¿Qué medidas se han adoptado para lograr el objetivo de inversión sostenible durante el período de referencia?

Durante el periodo de referencia, se alcanzó el objetivo de inversión sostenible siguiendo la estrategia de inversión y respetando los elementos vinculantes.

Los elementos vinculantes del fondo son:

- al menos el 80% de las inversiones sostenibles, es decir, inversiones en empresas que tienen una exposición importante a actividades como los recursos renovables, el diseño ecológico, la optimización de la producción, el ciclo biológico, el consumo inteligente, la reutilización de los residuos y otras actividades económicas relevantes (según los ingresos, el valor de empresa, los beneficios antes de intereses e impuestos o similares)
- Exclusión de emisores que:
 - participan en la producción de armas controvertidas, incluidas minas antipersona, municiones de racimo, armas biológicas y químicas, armas nucleares y uranio empobrecido
 - obtienen una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, como la extracción de carbón térmico y la generación de electricidad, la exploración y producción no convencional de petróleo y gas, la producción de petróleo y gas convencional, la generación de energía nuclear, las armas convencionales y armas pequeñas, la contratación militar de armas y productos y servicios relacionados con las armas, la producción de tabaco, la producción de entretenimiento para adultos, las actividades del juego, el desarrollo y crecimiento de organismos modificados genéticamente, la producción y comercialización de pesticidas. Para más detalles sobre los umbrales de exclusión aplicables a las actividades anteriores, consulte la Política de Inversión responsable de Pictet Asset Management.
 - incumplen gravemente normas internacionales, incluidos los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción
- un perfil ASG mejor que el del índice de referencia
- análisis de criterios ASG de los valores admisibles que abarca al menos el 90% del patrimonio neto o el número de emisores incluidos en la cartera

Además, el fondo se implicó con 22 empresas a 30.09.2023.

¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No se ha designado ningún índice de referencia con el fin de lograr el objetivo de inversión sostenible.

● ¿Cómo difería el índice de referencia de un índice general de mercado?

No aplicable.

Los índices de referencia de sostenibilidad son índices que miden si

- **¿Cómo se ha comportado este producto financiero con respecto a los indicadores de sostenibilidad para determinar la conformidad del índice de referencia con las características medioambientales o sociales que promueve?**
No aplicable.
- **¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?**
No aplicable.
- **¿Cómo se ha comportado este producto financiero en comparación con el índice general de mercado?**
No aplicable.

31.03.2023 - 30.09.2023

Plantilla de información periódica de los productos financieros a que se refiere el artículo 9, apartados 1 a 4 bis, del Reglamento (UE) 2019/2088 y el artículo 5, párrafo primero, del Reglamento (UE) 2020/852

Nombre del producto: **Pictet - China Environmental Opportunities**

Identificador de entidad jurídica: **2138005SU67AUB1RXC79**

OBJETIVO DE INVERSIÓN SOSTENIBLE

Inversión sostenible significa una inversión en una actividad económica que contribuye a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo a ningún objetivo medioambiental o social y que las empresas en las que se invierte sigan prácticas de buena gobernanza.

La **taxonomía de la UE** es un sistema de clasificación previsto en el Reglamento (UE) 2020/852 por el que se establece una lista de **actividades económicas medioambientalmente sostenibles**. Dicho Reglamento no prevé una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental pueden ajustarse, o no, a la taxonomía.

| ¿ESTE PRODUCTO FINANCIERO TENÍA UN OBJETIVO DE INVERSIÓN SOSTENIBLE? | |
|--|--|
| <input checked="" type="radio"/> Si | <input checked="" type="radio"/> No |
| <input checked="" type="checkbox"/> Ha realizado inversiones sostenibles con un objetivo medioambiental: 78,93% | <input type="checkbox"/> Promovió características medioambientales o sociales y, aunque no tenía como objetivo una inversión sostenible, tuvo un porcentaje del ___% de inversiones sostenibles <input type="checkbox"/> con un objetivo medioambiental en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE <input type="checkbox"/> con un objetivo medioambiental en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE <input type="checkbox"/> con un objetivo social |
| <input checked="" type="checkbox"/> Ha realizado inversiones sostenibles con un objetivo social: 17,84% | <input type="checkbox"/> Ha promovido características medioambientales o sociales , pero no ha realizado ninguna inversión sostenible |

Nota: Las inversiones sostenibles se calcularon sobre una base de aprobado/suspenso, incluyendo bonos con etiqueta (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% (medida por ingresos, EBIT, valor de empresa o indicadores similares) a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.

¿En qué grado se ha cumplido el objetivo de inversión sostenible de este producto financiero?

Principales maneras por las que el fondo logró su objetivo de sostenibilidad:

• Impacto positivo:

Este fondo trató de lograr un impacto medioambiental y/o social positivo, invirtiendo principalmente en empresas chinas con una huella medioambiental reducida que contribuyen a superar los desafíos medioambientales globales al ofrecer productos y servicios en la cadena de valor medioambiental. Dichos productos y servicios son necesarios para apoyar la transición hacia una economía con bajas emisiones de carbono, un modelo de economía circular, controlar y prevenir la contaminación o, por ejemplo, proteger los recursos escasos, como el agua.

No se ha designado ningún índice de referencia con el fin de lograr el objetivo de inversión sostenible.

El fondo invirtió principalmente en empresas cuyas actividades están relacionadas en gran medida con, entre otras cosas, la energía renovable, el transporte verde, la descarbonización industrial, la eficiencia de los recursos y la protección medioambiental.

Los valores admisibles incluyeron acciones emitidas por empresas con una proporción significativa de actividades (medida por ingresos, EBIT, valor de empresa o parámetros similares) derivadas de dichas actividades económicas.

- Exclusiones basadas en normas y valores:

El fondo excluyó los emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente o que incumplen de forma grave las normas internacionales, según se detalla a continuación:

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

| Actividad | Umbrales de ingresos |
|---|----------------------|
| Combustibles fósiles y energía nuclear | |
| Extracción de carbón térmico | > 25% |
| Generación de energía térmica de carbón | > 25% |
| Producción de petróleo y gas | > 25% |
| Extracción de arenas bituminosas | > 10% |
| Extracción de energía de esquisto | > 10% |
| Exploración de petróleo y gas en el Ártico | > 10% |
| Generación de energía nuclear | > 50% |
| Armas | |
| Producción de armas controvertidas[1] | > 0% |
| Armas de contratación militar | > 10% |
| Productos y/o servicios relacionados con armas de contratación militar | > 50% |
| Clientes civiles de armas pequeñas (armas de asalto) | > 10% |
| Clientes civiles de armas pequeñas (armas de no asalto) | > 10% |
| Clientes militares/de fuerzas del orden de armas pequeñas | > 25% |
| Componentes clave de armas pequeñas | > 25% |
| Otras actividades controvertidas | |
| Producción de entretenimiento para adultos | > 10% |
| Operaciones de juego | > 10% |
| Desarrollo de plantas y semillas modificadas genéticamente | > 25% |
| Cultivo de plantas y semillas modificadas genéticamente | > 25% |
| Producción de plaguicidas | > 10% |
| Venta al por menor de plaguicidas | > 10% |
| Producción de productos de tabaco | > 10% |
| Exclusiones de empresas por incumplimiento de normas internacionales | Excluidas |
| Empresas que incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción | Sí |
| Exclusiones de países | Excluidas |
| Países (i) incluidos en la lista de Estados patrocinadores del terrorismo, según la definición de la Oficina de Control de Activos Extranjeros de EE. UU.[2] o (ii) sujetos a sanciones financieras de la UE contra bancos centrales y/o empresas de propiedad estatal. | Sí |
| Países (i) clasificados como de muy alto o alto riesgo en el Índice de Estados Frágiles o (ii) afectados por conflictos violentos según la definición del Banco Mundial. | Sí |

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

Países (i) incluidos en la lista de «alerta» del Índice de Estados Frágiles o (ii) sujetos a sanciones relacionadas con la exportación por parte de la UE. Lista de vigilancia[3]

[1] Entre las armas controvertidas se encuentran las minas antipersona, las municiones de racimo, las armas biológicas y químicas (incluido el fósforo blanco) y las armas nucleares procedentes de países no firmantes del Tratado de No Proliferación de Armas Nucleares (TNP).

[2] «Estado patrocinador del terrorismo» es una designación aplicada por el Departamento de Estado de Estados Unidos a países que repetidamente han prestado apoyo a actos de terrorismo internacional.

[3] Además de las exclusiones estrictas, Pictet Asset Management mantiene una lista de vigilancia que incluye países que requieren una diligencia debida adicional por parte de los equipos de inversión antes de invertir.

Para más detalles, consulte la Política de Inversión responsable de Pictet Asset Management (Anexo B).

Además de las exclusiones mencionadas, basadas en la Política de Inversión responsable de Pictet Asset Management, la estrategia aplicó límites de exclusión más estrictos basados en directrices internas.

- Titularidad activa:

El fondo ejerció sus derechos de voto de forma metódica. El fondo también se implicó con la dirección de las empresas sobre cuestiones ASG importantes.

- Inversiones sostenibles:

Pictet Asset Management utilizó un marco propio, así como los objetivos de la Taxonomía de la UE, para definir las inversiones sostenibles.

El fondo invirtió en valores que financiaban actividades económicas que contribuyeron sustancialmente a objetivos medioambientales y/o sociales como:

Medioambientales

- mitigación del cambio climático o adaptación al mismo
- suso sostenible y protección de los recursos hídricos y marinos
- transición hacia una economía circular
- prevención y control de la contaminación o
- protección y recuperación de la biodiversidad y el ecosistema

Sociales

- comunidades inclusivas y sostenibles
- nivel de vida adecuado y bienestar para los usuarios finales o
- trabajo digno

● **¿Cómo se han comportado los indicadores de sostenibilidad?**

Durante el periodo de información, los indicadores de sostenibilidad se comportaron según se indica a continuación:

- **Exposición a empresas que obtienen una parte significativa de sus ingresos, EBIT, valor de empresa o parámetros similares de actividades económicas que contribuyen a los objetivos medioambientales o sociales, y bonos con etiqueta cuando sea relevante para la clase de activos (inversiones sostenibles):**

96,76%

- **Exposición a ingresos de actividades económicas que contribuyen a la mitigación del cambio climático y/o a la adaptación al mismo (inversiones ajustadas a la taxonomía de la UE):**

1,48%

En el informe del próximo año se facilitará información adicional sobre objetivos medioambientales y/o sociales específicos.

- **Perfil ASG global**

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos.

Como resultado, el fondo ha conseguido un perfil medioambiental, social y de gobernanza (ASG) mejor que el del índice de referencia, tras eliminar el 20% inferior de emisores con las características ASG más bajas.

- **Principal incidencia adversa (PIA)**

Los indicadores de sostenibilidad miden cómo se logran los objetivos sostenibles de este producto financiero.

El fondo utiliza una combinación de enfoques para considerar y, en la medida de lo posible, mitigar las incidencias adversas materiales de sus inversiones en la sociedad y el medioambiente, como emisiones de GEI, contaminación atmosférica, pérdida de biodiversidad, emisiones al agua, residuos peligrosos/radioactivos, derechos humanos, normas laborales, corrupción y soborno, y salud pública.

El grado y la forma en que estas incidencias se tuvieron en cuenta dependieron de factores como el contexto específico de la inversión que provoca la incidencia adversa o la disponibilidad de datos fiables.

De conformidad con la política de exclusión de Pictet Asset Management descrita en la Política de Inversión responsable de la empresa (véase el cuadro anterior para consultar las actividades excluidas y los umbrales de exclusión aplicados), el fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se detalla a continuación:

Actividades controvertidas (media ponderada de ingresos de la empresa, en %)*:

| | Fondo (%) | Índice de referencia (%) |
|--|-----------|--------------------------|
| Combustibles fósiles y energía nuclear | 0,00 | 2,31 |
| Armas | 0,00 | 0,15 |
| Otras actividades controvertidas | 0,02 | 0,01 |
| No aplicable: | 3,24 | 0,00 |
| No cubierto: | 8,89 | 0,13 |

* Los combustibles fósiles y la energía nuclear incluyen la extracción de carbón térmico y la generación de electricidad, la producción y extracción de petróleo y gas, la extracción de energía de esquisto, la exploración de petróleo y gas en los mares del Ártico y la generación de energía nuclear. Las armas incluyen la contratación militar (servicios de armas y relacionadas con estas), clientes civiles de armas pequeñas (armas de asalto/no asalto), clientes militares/de las fuerzas y cuerpos de seguridad de armas pequeñas y componentes clave de pequeñas armas. Otras actividades controvertidas incluyen la producción de tabaco, la producción de entretenimiento para adultos, la explotación de juegos de azar, el desarrollo o crecimiento de organismos modificados genéticamente, la producción o venta al por menor de pesticidas. La exposición se basa en datos de terceros y puede no reflejar nuestro punto de vista interno. Pictet Asset Management tiene plena discreción sobre la aplicación de los criterios de exclusión y se reserva el derecho de apartarse de la información de terceros, según el caso, cuando se considere incorrecta o incompleta.

Fuente: Pictet Asset Management, Sustainalytics.

Además, el fondo excluyó a los emisores que tenían exposición a:

(i) PIA 10: Incumplimientos de los principios del Pacto Mundial de las Naciones Unidas y las Directrices para Empresas Multinacionales de la Organización para la Cooperación y el Desarrollo Económicos (OCDE).

(ii) PIA 14: Exposición a armas controvertidas (minas antipersonas, municiones en racimo, armas químicas y armas biológicas)

● Derechos de voto

Durante el periodo de referencia, el fondo votó en 8 juntas generales de 8 juntas en las que se podía votar (100,00%). Votamos «en contra» (incluidas «abstenciones» o «retenciones») en al menos una resolución en el 50,00% de las juntas.

De las 88 resoluciones de la dirección, votamos en contra de la dirección en 12 puntos (13,64%) y nos abstuvimos en 0 puntos (0,00%).

Apoyamos 1 (33,33%) resoluciones de accionistas de un total de 3 propuestas.

Por lo que respecta a las cuestiones medioambientales y/o sociales, votamos a favor de 0 de las 0 resoluciones de la dirección y a favor de 0 de las 0 resoluciones de accionistas.

Fuente: Pictet Asset Management, ISS ESG.

● Interacción

El fondo se implicó con 2 empresas sobre cuestiones ASG (datos a 30.09.2023). Esto incluye diálogos internos, iniciativas de colaboración entre inversores y servicios de implicación de terceros. Para que se considere implicación, el diálogo con una empresa objetivo debe tener un

objetivo claro y mensurable en un horizonte temporal predefinido. Es importante señalar que no todas las interacciones rutinarias o de supervisión, aunque impliquen a la alta dirección o al Consejo de administración, se consideran implicaciones en nuestra evaluación.

Fuente: Pictet Asset Management, Sustainalytics.

● **¿... y en comparación con períodos anteriores?**

Esta cuestión se abordará en futuros informes anuales debido a la falta de historial.

● **¿De qué manera las inversiones sostenibles no han causado un perjuicio significativo a ningún objetivo medioambiental o social?**

Para evitar que las inversiones sostenibles causen un perjuicio significativo a cualquier otro objetivo medioambiental o social, el fondo aplicó los siguientes criterios de selección sobre la base del mejor esfuerzo:

(i) Exclusiones de emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente (véase la descripción del marco de exclusión de IR).

(ii) Los emisores asociados a controversias elevadas y graves se excluyeron.

La información se obtuvo de proveedores terceros y/o de análisis interno. La información ASG de terceros proveedores de datos puede haber sido incompleta, inexacta o no estar disponible. Como consecuencia de ello, existía el riesgo de que el Gestor de inversiones evaluara incorrectamente un valor o emisor, dando lugar a la inclusión o exclusión incorrecta de un valor en el fondo. Los datos ASG incompletos, inexactos o no disponibles también pueden actuar como una limitación metodológica a una estrategia de inversión no financiera (como la aplicación de criterios ASG o similares). En los casos identificados, el Gestor de inversiones trató de mitigar este riesgo mediante su propia evaluación. En caso de que las características ASG de un valor mantenido por el fondo cambiaran, dando lugar a la venta del valor, el Gestor de inversiones no acepta responsabilidad alguna en relación con dicho cambio.

● **¿Cómo se han tenido en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?**

Pictet Asset Management realiza un seguimiento de todos los indicadores obligatorios de principales incidencias adversas (incluidos en el Anexo 1 del Reglamento Delegado (UE) 22 / 1288 de la Comisión) cuando disponemos de datos sólidos. Se espera que la calidad y la disponibilidad de los datos mejoren con el tiempo.

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas de sus inversiones en la sociedad y el medioambiente que se consideran importantes para la estrategia de inversión, mediante un conjunto de decisiones de gestión de cartera, actividades de propiedad activa y exclusión de emisores asociados a conductas o actividades controvertidas.

Más información en el informe de PIA de la entidad, disponible en:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=es&bl=PAM>

● **¿Se han ajustado las inversiones sostenibles a las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios rectores de las Naciones Unidas sobre las empresas y los derechos humanos?**

Para garantizar que la inversión sostenible no causara un perjuicio significativo a ningún objetivo de inversión sostenible, el fondo excluyó a las empresas con infracciones elevadas y graves de (i) los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción o (ii) las Líneas Directrices de la OCDE para Empresas Multinacionales, incluidos los asuntos sociales y laborales graves.

¿Cómo tiene en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas que se consideran importantes para la estrategia de inversión. Entre las incidencias adversas se incluyeron, entre otras, las emisiones de gases de efecto invernadero (GEI), la contaminación atmosférica, la pérdida de biodiversidad, las emisiones al agua, los residuos peligrosos/radioactivos, las cuestiones sociales y laborales, y la corrupción y el soborno, que se abordaron mediante una combinación de:

(i) decisiones de gestión de carteras

El equipo de inversión puntuó las posiciones según una evaluación de los riesgos y oportunidades medioambientales, sociales y de gobernanza, así como la exposición a inversiones sostenibles, como parte del marco de puntuación del fondo. Las puntuaciones se determinan de forma cualitativa por los gestores de inversión, basándose en estudios fundamentales y datos cuantitativos ASG, incluidos los datos sobre el Principio de Impacto Negativo, los datos ASG facilitados por las empresas y los datos proporcionados por terceros proveedores de datos ASG. El proceso de puntuación del equipo de inversión fue un componente clave del proceso de construcción de la cartera del compartimento, determinando las ponderaciones objetivo en la cartera.

(ii) voto por delegación

El fondo se atuvo a las directrices de voto de Pictet Asset Management, que están diseñadas para apoyar una cultura de gobierno corporativo sólida, una gestión eficaz de las cuestiones medioambientales y sociales, y la publicación de información exhaustiva de acuerdo con normas creíbles. Dichas directrices también pretenden apoyar a los órganos de gobierno mundiales reconocidos que promueven prácticas empresariales sostenibles que abogan por la gestión del medio ambiente, las prácticas laborales justas, la no discriminación y la protección de los derechos humanos. Todas las actividades de voto del fondo se registraron y pueden compartirse previa solicitud.

(iii) implicación

La interacción con los emisores se realizó mediante conversaciones individuales, reuniones de accionistas/bonistas, giras de inversores y/o conferencias telefónicas. Los objetivos de estas interacciones fueron evaluar una organización, supervisar que su estrategia se estaba aplicando conforme a nuestras expectativas y garantizar que los emisores iban camino de cumplir sus metas y objetivos.

Cuando correspondió, nos implicamos con los emisores para abordar preocupaciones importantes en materia de ASG, mejorar las prácticas de sostenibilidad de las empresas o implicarnos en temas de impacto positivo para asegurarnos de que las entendían plenamente y las abordaban eficazmente a corto, medio y largo plazo. Nuestras actividades de implicación combinaron debates dirigidos a nivel interno, iniciativas de colaboración con inversores institucionales y servicios de implicación externos.

(iv) exclusión de emisores asociados a conductas o actividades controvertidas

El fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se definen en la Política de Inversión responsable de la Pictet Asset Management y/o (ii) empresas que infringieron gravemente los principios del Pacto Mundial de la ONU sobre derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción y las armas controvertidas.

¿Cuáles han sido las inversiones principales de este producto financiero?

La lista incluye las inversiones que constituyen la mayor parte de las inversiones del producto financiero durante el período de referencia, que es: 31.03.2023 - 30.09.2023

| INVERSIONES DE MAYOR VOLUMEN | SECTOR | % DE ACTIVOS | PAÍS |
|------------------------------|------------------------------|--------------|-------|
| BEIJING-SHANGHAI HIGH SPE-A | Industria | 2,6 | China |
| SUNGROW POWER SUPPLY CO LT-A | Industria | 2,2 | China |
| GONGNIU GROUP CO LTD-A | Industria | 2,2 | China |

¿Cuál ha sido la proporción de inversiones relacionadas con la sostenibilidad?

96,76%

La asignación de activos describe el porcentaje de inversiones en activos específicos.

● ¿Cuál ha sido la asignación de activos?

El fondo asignó el 96,76% de sus activos a inversiones sostenibles (n.º 1 Sostenibles) y el 3,24% a Inversiones no sostenibles (n.º 2 No sostenibles). El 78,93% de sus activos se han asignado a objetivos medioambientales y el 17,84% a objetivos sociales.

n.º 1 Sostenibles incluye las inversiones sostenibles con objetivos medioambientales o sociales.

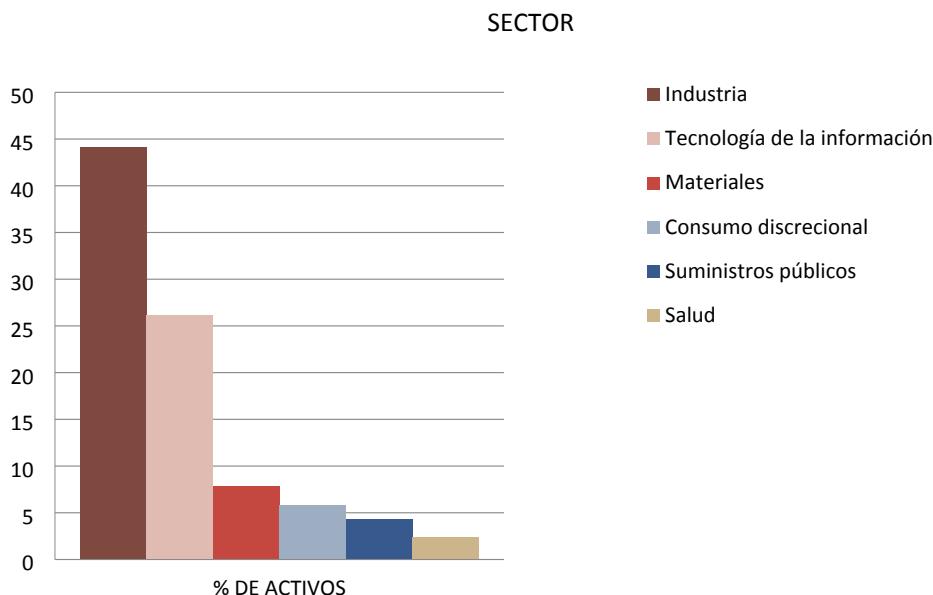

n.º 2 No sostenibles incluye las inversiones que no pueden considerarse

Notas:

- Las inversiones «n.º 1A Sostenibles», «Otras medioambientales» y «Sociales» se calcularon sobre una base de aprobado/suspenso. Incluyen bonos certificados (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.
- Las inversiones ajustadas a la taxonomía verde de la UE se calculan ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a la mitigación del cambio climático y la adaptación al mismo) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.
- A falta de una taxonomía social de la UE, Pictet ha desarrollado un marco de taxonomía social propio, basado en el Informe sobre taxonomía social publicado por la Plataforma de Finanzas Sostenibles de la UE en 2022. Las actividades admisibles se definen como bienes y servicios que contribuyen sustancialmente a uno de los tres objetivos siguientes: (1) comunidades inclusivas y sostenibles, (2) nivel de vida adecuado y bienestar para los usuarios finales y (3) trabajo digno.

Fuente: Pictet Asset Management, FTSE Green revenues, Factset RBICS.

● ¿En qué sectores económicos se han realizado las inversiones?

Fuente: Pictet Asset Management, GICS/MSCI.

Estamos evaluando la disponibilidad y la calidad de los datos que nos permitirían divulgar información más granular en futuros informes sobre los sectores y subsectores de la economía que obtienen ingresos a partir de la exploración, la minería, la extracción, la producción, el procesamiento, el almacenamiento, el refinado o la distribución, incluidos el transporte, el almacenamiento y el comercio, de combustibles fósiles, según se definen en el artículo 2, punto (62), del Reglamento (UE) 2018/1999 del Parlamento Europeo y del Consejo.

¿En qué medida se ajustaban las inversiones sostenibles con un objetivo medioambiental a la taxonomía de la UE?

El fondo realizó inversiones en actividades económicas que contribuyeron a los dos primeros objetivos medioambientales (mitigación del cambio climático y adaptación a este), según lo establecido en el artículo 9 del Reglamento (UE) 2020/852.

Las inversiones ajustadas a la taxonomía de la UE se calcularon ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a objetivos medioambientales relevantes) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.

Los datos de ajuste a la Taxonomía verde de la UE proceden de informes públicos. Los cálculos también pueden incluir estimaciones en un número limitado de casos en los que no se disponía de datos sobre la alineación con la Taxonomía verde de la UE. Las estimaciones se realizaron sobre la base del mejor esfuerzo y siguiendo un planteamiento conservador para obtener un resultado prudente.

Los procedimientos de control se han aplicado para verificar en todo momento el cumplimiento del artículo 3 del Reglamento sobre taxonomía de la UE.

Los datos facilitados no han sido verificados por un auditor externo ni revisados por un tercero independiente.

● ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil o la energía nuclear que cumplían con la taxonomía de la UE¹?

Sí:

En gas fósil En energía nuclear

No

La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permite ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

Para ajustarse a la taxonomía de la UE, los criterios correspondientes al **gas fósil** incluyen limitaciones de emisiones y el paso a la energía renovable o combustibles bajos en carbono de aquí al fin de 2035. Por lo que

¹ Las actividades relacionadas con el gas fósil o la energía nuclear solo cumplirán la taxonomía de la UE cuando contribuyan a limitar el cambio climático («mitigación del cambio climático») y no perjudiquen significativamente ningún objetivo de la taxonomía de la UE (véase la nota explicativa en el margen izquierdo). Los criterios completos correspondientes a las actividades económicas del gas fósil y la energía nuclear que se ajustan a la taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

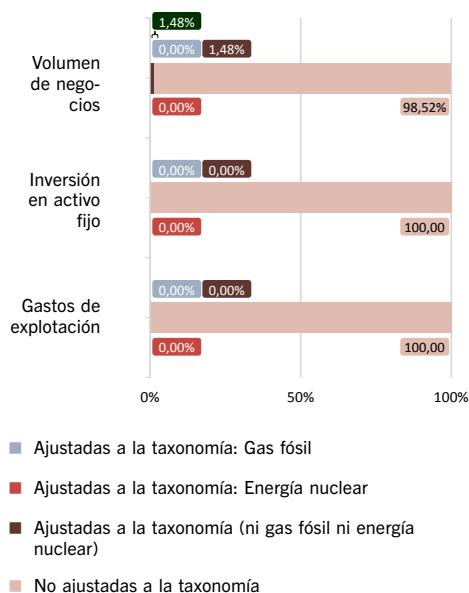

respecta a la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las actividades que se ajustan a la taxonomía se expresan como un porcentaje de:

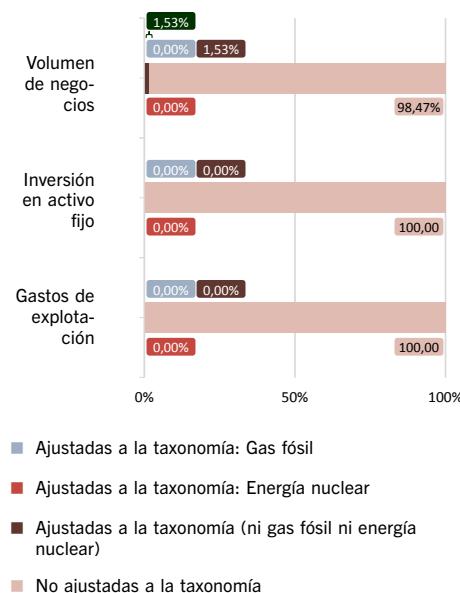

- **El volumen de negocios**, que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas en las que se invierte.
- **La inversión en activo fijo**, que muestra las inversiones ecológicas realizadas por las empresas en las que se invierte, por ejemplo, para la transición a una economía verde.
- **Los gastos de explotación**, que reflejan las actividades operativas ecológicas de las empresas en las que se invierte.

Los gráficos que figuran a continuación muestran en verde el porcentaje de inversiones que se ajustaban a la taxonomía de la UE. Dado que no existe una metodología adecuada para determinar la adaptación a la taxonomía de los bonos soberanos, el primer gráfico muestra la adaptación a la taxonomía correspondiente para todas las inversiones del producto financiero, incluidos los bonos soberanos, mientras que el segundo gráfico muestra la adaptación a la taxonomía solo en relación con las inversiones del producto financiero distintas de los bonos soberanos.*

1. Ajuste a la taxonomía de las inversiones incluidos los bonos soberanos*

2. Ajuste a la taxonomía de las inversiones excluidos los bonos soberanos*

Este gráfico representa el 96,76% de las inversiones totales.

* A efectos de estos gráficos, los «bonos soberanos» incluyen todas las exposiciones soberanas

Nota:

Utilizamos los ingresos como medida clave para establecer la asignación de objetivos y el ajuste real con la taxonomía de la UE debido a la disponibilidad limitada y a la falta de datos fiables para los gastos de explotación y la inversión en activo fijo.

Fuente: Pictet Asset Management.

● ¿Cuál ha sido la proporción de las inversiones realizadas en actividades de transición y facilitadoras?

La proporción de inversiones realizadas en:

- Actividades de transición: No aplicable*
- Actividades de facilitadoras: No aplicable*

* La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permiten ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

● ¿Qué porcentaje de inversiones se han ajustado a la taxonomía de la UE en comparación con los períodos de referencia anteriores?

No aplicable.

¿Cuál ha sido la proporción de inversiones sostenibles con un objetivo medioambiental no ajustadas a la taxonomía de la UE?

78,93%

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta los criterios para las actividades económicas medioambientalmente sostenibles con arreglo a la taxonomía de la UE.

Estas inversiones sostenibles no se ajustan a la Taxonomía de la UE porque sus actividades económicas o bien (i) no están cubiertas por la Taxonomía de la UE, o bien (ii) no cumplen los criterios técnicos de selección para lograr una contribución sustancial en el sentido de la Taxonomía de la UE.

¿Cuál ha sido la proporción de inversiones socialmente sostenibles?

17,84%

¿Qué inversiones se han incluido en «No sostenibles» y cuál ha sido su propósito? ¿Ha habido garantías medioambientales o sociales mínimas?

Las «otras» inversiones del fondo incluían posiciones de tesorería mantenidas principalmente para satisfacer los objetivos diarios de liquidez y gestión de riesgos permitidos y previstos por la política de inversión del fondo. Cuando sea preciso, se aplicarán salvaguardias medioambientales o sociales mínimas a los valores subyacentes.

¿Qué medidas se han adoptado para lograr el objetivo de inversión sostenible durante el período de referencia?

Durante el periodo de referencia, se alcanzó el objetivo de inversión sostenible siguiendo la estrategia de inversión y respetando los elementos vinculantes.

Los elementos vinculantes del fondo son:

- al menos el 80% de las inversiones sostenibles, es decir, inversiones en empresas que tienen una exposición importante a actividades como la energía renovable, el transporte verde, la descarbonización industrial, la eficiencia de los recursos, la protección medioambiental (según los ingresos, el valor de empresa, los beneficios antes de intereses e impuestos o similares)
- Exclusión de emisores que:
 - participan en la producción de armas controvertidas, incluidas minas antipersona, municiones de racimo, armas biológicas y químicas, armas nucleares y uranio empobrecido
 - medioambiente, como la extracción de carbón térmico y la generación de electricidad, la exploración y producción no convencional de petróleo y gas, la producción de petróleo y gas convencional, la generación de energía nuclear, las armas convencionales y armas pequeñas, la contratación militar de armas y productos y servicios relacionados con las armas, la producción de tabaco, la producción de entretenimiento para adultos, las actividades del juego, el desarrollo y crecimiento de organismos modificados genéticamente, la producción y comercialización de pesticidas. Para más detalles sobre los umbrales de exclusión aplicables a las actividades anteriores, consulte la Política de Inversión responsable de Pictet Asset Management.
 - incumplen gravemente normas internacionales, incluidos los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción
- un perfil ASG mejor que el del índice de referencia, tras eliminar el 20% inferior de emisores con las características ASG más bajas
- análisis de criterios ASG de los valores admisibles que abarca al menos el 90% del patrimonio neto o el número de emisores incluidos en la cartera

Además, el fondo se implicó con 2 empresas a 30.09.2023.

¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No se ha designado ningún índice de referencia con el fin de lograr el objetivo de inversión sostenible.

Los índices de referencia de sostenibilidad son índices que miden si el producto financiero logra el objetivo de sostenibilidad.

- **¿Cómo difería el índice de referencia de un índice general de mercado?**
No aplicable.
- **¿Cómo se ha comportado este producto financiero con respecto a los indicadores de sostenibilidad para determinar la conformidad del índice de referencia con las características medioambientales o sociales que promueve?**
No aplicable.
- **¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?**
No aplicable.
- **¿Cómo se ha comportado este producto financiero en comparación con el índice general de mercado?**
No aplicable.

Nombre del producto: **Pictet - Multi Asset Global Opportunities**

Identificador de entidad jurídica: **549300Y6STSCWOUIU46**

CARACTERÍSTICAS MEDIOAMBIENTALES O SOCIALES

Inversión sostenible
significa una inversión en una actividad económica que contribuye a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo a ningún objetivo medioambiental o social y que las empresas en las que se invierte sigan prácticas de buena gobernanza.

La **taxonomía de la UE** es un sistema de clasificación previsto en el Reglamento (UE) 2020/852 por el que se establece una lista de **actividades económicas medioambientalmente sostenibles**. Dicho Reglamento no prevé una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental pueden ajustarse, o no, a la taxonomía.

| ¿ESTE PRODUCTO FINANCIERO TENÍA UN OBJETIVO DE INVERSIÓN SOSTENIBLE? | | | |
|---|-------------------------------------|---|---|
| <input checked="" type="radio"/> Si | <input type="radio"/> No | <input checked="" type="radio"/> Promovió características medioambientales o sociales y, aunque no tenía como objetivo una inversión sostenible, tuvo un porcentaje del 23,08% de inversiones sostenibles | <input checked="" type="radio"/> con un objetivo medioambiental en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> Realizó inversiones sostenibles con un objetivo medioambiental: ____% | <input checked="" type="checkbox"/> | <input checked="" type="checkbox"/> con un objetivo medioambiental en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> con un objetivo social |
| <input type="checkbox"/> en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | | | |
| <input type="checkbox"/> en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | | | |
| <input type="checkbox"/> Realizó inversiones sostenibles con un objetivo social: ____% | <input type="checkbox"/> | <input type="checkbox"/> Ha promovido características medioambientales o sociales, pero no ha realizado ninguna inversión sostenible | |
| | | | |

Nota: Las inversiones sostenibles se calcularon sobre una base de aprobado/suspenso, incluyendo bonos con etiqueta (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% (medida por ingresos, EBIT, valor de empresa o indicadores similares) a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.

¿En qué grado se han cumplido las características medioambientales o sociales que promueve este producto financiero?

Las características medioambientales y sociales de este producto financiero se promovieron utilizando:

- Inclinación positiva:

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos y, como resultado, tuvo un perfil medioambiental, social y de gobernanza (ASG) mejor que el del universo de inversión.

No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

- Exclusiones basadas en normas y valores:

El fondo excluyó los emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente o que incumplen de forma grave las normas internacionales, según se detalla a continuación:

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

Actividad

Umbrales de ingresos

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

| | |
|---|------------------------------------|
| Combustibles fósiles y energía nuclear | |
| Extracción de carbón térmico | > 25% |
| Generación de energía térmica de carbón | > 25% |
| Extracción de arenas bituminosas | > 25% |
| Extracción de energía de esquisto | > 25% |
| Exploración de petróleo y gas en el Ártico | > 10% |
| Armas | |
| Producción de armas controvertidas ^[1] | > 0% |
| Armas de contratación militar | > 10% |
| Clientes civiles de armas pequeñas (armas de asalto) | > 10% |
| Clientes civiles de armas pequeñas (armas de no asalto) | > 10% |
| Clientes militares/de fuerzas del orden de armas pequeñas | > 25% |
| Componentes clave de armas pequeñas | > 25% |
| Otras actividades controvertidas | |
| Producción de entretenimiento para adultos | > 10% |
| Operaciones de juego | > 10% |
| Producción de productos de tabaco | > 10% |
| Exclusiones de empresas por incumplimiento de normas internacionales | Excluidas |
| Empresas que incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción | Sí |
| Exclusiones de países | Excluidas |
| Países (i) incluidos en la lista de Estados patrocinadores del terrorismo, según la definición de la Oficina de Control de Activos Extranjeros de EE. UU. ^[2] o (ii) sujetos a sanciones financieras de la UE contra bancos centrales y/o empresas de propiedad estatal. | Sí |
| Países (i) clasificados como de muy alto o alto riesgo en el Índice de Estados Frágiles o (ii) afectados por conflictos violentos según la definición del Banco Mundial. | Sí |
| Países (i) incluidos en la lista de «alerta» del Índice de Estados Frágiles o (ii) sujetos a sanciones relacionadas con la exportación por parte de la UE. | Lista de vigilancia ^[3] |

^[1] Entre las armas controvertidas se encuentran las minas antipersona, las municiones de racimo, las armas biológicas y químicas (incluido el fósforo blanco) y las armas nucleares procedentes de países no firmantes del Tratado de No Proliferación de Armas Nucleares (TNP).

^[2] «Estado patrocinador del terrorismo» es una designación aplicada por el Departamento de Estado de Estados Unidos a países que repetidamente han prestado apoyo a actos de terrorismo internacional.

^[3] Además de las exclusiones estrictas, Pictet Asset Management mantiene una lista de vigilancia que incluye países que requieren una diligencia debida adicional por parte de los equipos de inversión antes de invertir.

Para más detalles, consulte la Política de Inversión responsable de Pictet Asset Management (Anexo B).

- Titularidad activa:

El fondo ejerció de forma metódica sus derechos de voto y se implicó con la dirección de las empresas sobre cuestiones ASG importantes.

● **¿Cómo se han comportado los indicadores de sostenibilidad?**

Durante el periodo de información, los indicadores de sostenibilidad se comportaron según se indica a continuación:

- **Perfil ASG global**

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos.

Como resultado, el fondo ha conseguido un perfil ambiental, social y de gobernanza (ASG) mejor que el del universo de inversión.

● **Principal incidencia adversa (PIA)**

El fondo utiliza una combinación de enfoques para considerar y, en la medida de lo posible, mitigar las incidencias adversas materiales de nuestras inversiones en la sociedad y el medioambiente, como emisiones de GEI, contaminación atmosférica, pérdida de biodiversidad, emisiones al agua, residuos peligrosos/radioactivos, derechos humanos, normas laborales, corrupción y soborno, y salud pública.

El grado y la forma en que estas incidencias se tuvieron en cuenta dependieron de factores como el contexto específico de la inversión que provoca la incidencia adversa o la disponibilidad de datos fiables.

De conformidad con la política de exclusión de Pictet Asset Management descrita en la Política de Inversión responsable de la empresa (véase el cuadro anterior para consultar las actividades excluidas y los umbrales de exclusión aplicados), el fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente:

Actividades controvertidas (media ponderada de ingresos de la empresa, en %)*:

| | Fondo (%) | Índice de referencia (%) |
|--|-----------|--------------------------|
| Combustibles fósiles y energía nuclear | 1,47 | 0,00 |
| Armas | 0,11 | 0,00 |
| Otras actividades controvertidas | 0,14 | 0,00 |
| No aplicable: | 58,01 | 100,00 |
| No cubierto: | 0,79 | 0,00 |

* Los combustibles fósiles y la energía nuclear incluyen la extracción de carbón térmico y la generación de electricidad, la producción y extracción de petróleo y gas, la extracción de energía de esquisto, la exploración de petróleo y gas en los mares del Ártico y la generación de energía nuclear. Las armas incluyen la contratación militar (servicios de armas y relacionadas con estas), clientes civiles de armas pequeñas (armas de asalto/no asalto), clientes militares/de las fuerzas y cuerpos de seguridad de armas pequeñas y componentes clave de pequeñas armas. Otras actividades controvertidas incluyen la producción de tabaco, la producción de entretenimiento para adultos, la explotación de juegos de azar, el desarrollo o crecimiento de organismos modificados genéticamente, la producción o venta al por menor de pesticidas. La exposición se basa en datos de terceros y puede no reflejar nuestro punto de vista interno. Pictet Asset Management tiene plena discreción sobre la aplicación de los criterios de exclusión y se reserva el derecho de apartarse de la información de terceros, según el caso, cuando se considere incorrecta o incompleta.

Fuente: Pictet Asset Management, Sustainalytics.

Además, el fondo excluyó a los emisores que tenían exposición a:

(i) PIA 10: Incumplimientos de los principios del Pacto Mundial de las Naciones Unidas y las Directrices para Empresas Multinacionales de la Organización para la Cooperación y el Desarrollo Económicos (OCDE).

(ii) PIA 14: Exposición a armas controvertidas (minas antipersonas, municiones en racimo, armas químicas y armas biológicas)

● **Derechos de voto**

Durante el periodo de referencia, el fondo votó en 1.370 juntas generales de 1.385 juntas en las que se podía votar (98,92%). Votamos «en contra» (incluidas «abstenciones» o «retenciones») en al menos una resolución en el 38,63% de las juntas.

De las 19.483 resoluciones de la dirección, votamos en contra de la dirección en 1.083 puntos (5,56%) y nos abstuvimos en 208 puntos (1,07%).

Apoyamos 450 (64,66%) resoluciones de accionistas de un total de 696 propuestas.

Por lo que respecta a las cuestiones medioambientales y/o sociales, votamos a favor de 102 de las 105 resoluciones de la dirección y a favor de 271 de las 402 resoluciones de accionistas.

Fuente: Pictet Asset Management, ISS ESG.

● Interacción

El fondo se implicó con 284 empresas sobre cuestiones ASG (datos a 30.09.2023). Esto incluye diálogos internos, iniciativas de colaboración entre inversores y servicios de implicación de terceros. Para que se considere implicación, el diálogo con una empresa objetivo debe tener un objetivo claro y mensurable en un horizonte temporal predefinido. Es importante señalar que no todas las interacciones rutinarias o de supervisión, aunque impliquen a la alta dirección o al Consejo de administración, se consideran implicaciones en nuestra evaluación.

Fuente: Pictet Asset Management, Sustainalytics.

● ¿... y en comparación con períodos anteriores?

Esta cuestión se abordará en futuros informes anuales debido a la falta de historial.

● ¿Cuáles han sido los objetivos de las inversiones sostenibles que ha realizado en parte el producto financiero y de qué forma ha contribuido la inversión sostenible a dichos objetivos?

El fondo no se comprometió a un porcentaje mínimo de inversiones sostenibles.

Sin embargo, *a posteriori*, el fondo invirtió en valores que financiaban actividades económicas que contribuyeron sustancialmente a objetivos medioambientales y/o sociales como:

Medioambientales

- mitigación del cambio climático o adaptación al mismo
- suso sostenible y protección de los recursos hídricos y marinos
- transición hacia una economía circular
- prevención y control de la contaminación o
- protección y recuperación de la biodiversidad y los ecosistemas

Sociales

- comunidades inclusivas y sostenibles
- nivel de vida adecuado y bienestar para los usuarios finales o
- trabajo digno

Pictet Asset Management utilizó un marco de referencia propio, así como los objetivos de la Taxonomía de la UE, para definir las inversiones sostenibles.

● ¿De qué manera las inversiones sostenibles que el producto financiero ha realizado en parte, no han causado un perjuicio significativo a ningún objetivo de inversión sostenible medioambiental o social?

Para evitar que las inversiones sostenibles causen un perjuicio significativo a cualquier otro objetivo medioambiental o social, el fondo aplicó los siguientes criterios de selección sobre la base del mejor esfuerzo:

- (i) Exclusiones de emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente (véase la descripción del marco de exclusión de IR).
- (ii) Los emisores asociados a controversias elevadas y graves no se contabilizaron como inversiones sostenibles.

La información se obtuvo de proveedores terceros y/o de análisis interno. La información ASG de terceros proveedores de datos puede haber sido incompleta, inexacta o no estar disponible. Como consecuencia de ello, existía el riesgo de que el Gestor de inversiones evaluara incorrectamente un valor o emisor, dando lugar a la inclusión o exclusión incorrecta de un valor en el fondo. Los datos ASG incompletos, inexactos o no disponibles también pueden actuar como una limitación metodológica a una estrategia de inversión no financiera (como la aplicación de criterios ASG o similares). En los casos identificados, el Gestor de inversiones trató de mitigar este riesgo mediante su propia evaluación. En caso de que las características ASG de un valor mantenido por el fondo cambiaran, dando lugar a la venta del valor, el Gestor de inversiones no acepta responsabilidad alguna en relación con dicho cambio.

● ¿Cómo se han tenido en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?

Pictet Asset Management realiza un seguimiento de todos los indicadores obligatorios de principales incidencias adversas (incluidos en el Anexo 1 del Reglamento Delegado (UE) 22 / 1288 de la Comisión) cuando disponemos de datos sólidos. Se espera que la calidad de los datos disponibles mejore con el tiempo.

Las principales incidencias adversas son las incidencias negativas más importantes de las decisiones de inversión sobre los factores de sostenibilidad en relación con asuntos

medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas de sus inversiones en la sociedad y el medioambiente que se consideran importantes para la estrategia de inversión, mediante un conjunto de decisiones de gestión de cartera, actividades de propiedad activa y exclusión de emisores asociados a conductas o actividades controvertidas. Más información en el informe de PIA de la entidad, disponible en:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=es&bl=PAM>

- *¿Se han ajustado las inversiones sostenibles a las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios rectores de las Naciones Unidas sobre las empresas y los derechos humanos?*

Para garantizar que la inversión sostenible no causara un perjuicio significativo a ningún objetivo de inversión sostenible, el fondo excluyó a las empresas con infracciones elevadas y graves de (i) los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción o (ii) las Líneas Directrices de la OCDE para Empresas Multinacionales, incluidos los asuntos sociales y laborales graves.

La taxonomía de la UE establece el principio de «no causar un perjuicio significativo», según el cual las inversiones que se ajusten a la taxonomía no deben perjudicar significativamente a los objetivos de la taxonomía de la UE, e incluye criterios específicos de la Unión.

El principio de «no perjudicar de forma significativa» se aplica únicamente a las inversiones subyacentes del producto financiero que contemplan los criterios de la UE relativos a actividades económicas sostenibles desde una perspectiva medioambiental. Las inversiones subyacentes al resto del producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas medioambientalmente sostenibles.

Cualquier otra inversión sostenible tampoco debe perjudicar significativamente a ningún objetivo medioambiental o social.

¿Cómo tiene en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas que se consideran importantes para la estrategia de inversión. Entre las incidencias adversas se incluyeron, entre otras, las emisiones de gases de efecto invernadero (GEI), la contaminación atmosférica, la pérdida de biodiversidad, las emisiones al agua, los residuos peligrosos/radioactivos, las cuestiones sociales y laborales, y la corrupción y el soborno, que se abordaron mediante una combinación de:

(i) decisiones de gestión de carteras

El equipo de inversión puntuó las posiciones según una evaluación de los riesgos medioambientales, sociales y de gobernanza como parte del marco de puntuación del fondo. Los gestores de inversiones determinan las puntuaciones sobre una base cualitativa, basándose en el análisis fundamental y en datos cuantitativos ASG, incluidos los datos sobre la Principal incidencia adversa, los datos ASG facilitados por las empresas y los datos proporcionados por terceros proveedores de datos ASG. El proceso de puntuación del equipo de inversión fue un componente clave del proceso de construcción de la cartera del compartimento, determinando las ponderaciones objetivo en la cartera.

(ii) voto por delegación

El fondo se atuvo a las directrices de voto de Pictet Asset Management, que están diseñadas para apoyar una cultura de gobierno corporativo sólida, una gestión eficaz de las cuestiones medioambientales y sociales, y la publicación de información exhaustiva de acuerdo con normas creíbles. Dichas directrices también pretenden apoyar a los órganos de gobierno mundiales reconocidos que promueven prácticas empresariales sostenibles que abogan por la gestión del medio ambiente, las prácticas laborales justas, la no discriminación y la protección de los derechos humanos. Todas las actividades de voto del fondo se registraron y pueden compartirse previa solicitud.

(iii) implicación

La interacción con los emisores se realizó mediante conversaciones individuales, reuniones de accionistas/bonistas, giras de inversores y/o conferencias telefónicas. Los objetivos de estas interacciones fueron evaluar una organización, supervisar que su estrategia se estaba aplicando conforme a nuestras expectativas y garantizar que los emisores iban camino de cumplir sus metas y objetivos.

Cuando corresponde, nos implicamos con las empresas en relación con cuestiones ASG importantes, como los objetivos de reducción de los GEI, las mejoras en la gobernanza y diversas controversias medioambientales, sociales y de gobernanza, para asegurarnos de que las entendieran y las abordaran

eficazmente a corto, medio y largo plazo. Nuestras actividades de implicación combinaron debates dirigidos a nivel interno, iniciativas de colaboración con inversores institucionales y servicios de implicación externos.

El proceso de voto por delegación y de implicación fue dirigido principalmente por profesionales de la inversión de varios equipos de inversión de Pictet Asset Management, con el apoyo de un equipo central de ASG.

(iv) exclusión de emisores asociados a conductas o actividades controvertidas

El fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se definen en la Política de Inversión responsable de la Pictet Asset Management y/o (ii) empresas que infringieron gravemente los principios del Pacto Mundial de la ONU sobre derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción y las armas controvertidas.

¿Cuáles han sido las inversiones principales de este producto financiero?

La lista incluye las inversiones que constituyen la mayor parte de las inversiones del producto financiero durante el período de referencia, que es: 01.10.2022 - 30.09.2023

| INVERSIONES DE MAYOR VOLUMEN | SECTOR | % DE ACTIVOS | PAÍS |

Fuente: Pictet Asset Management.

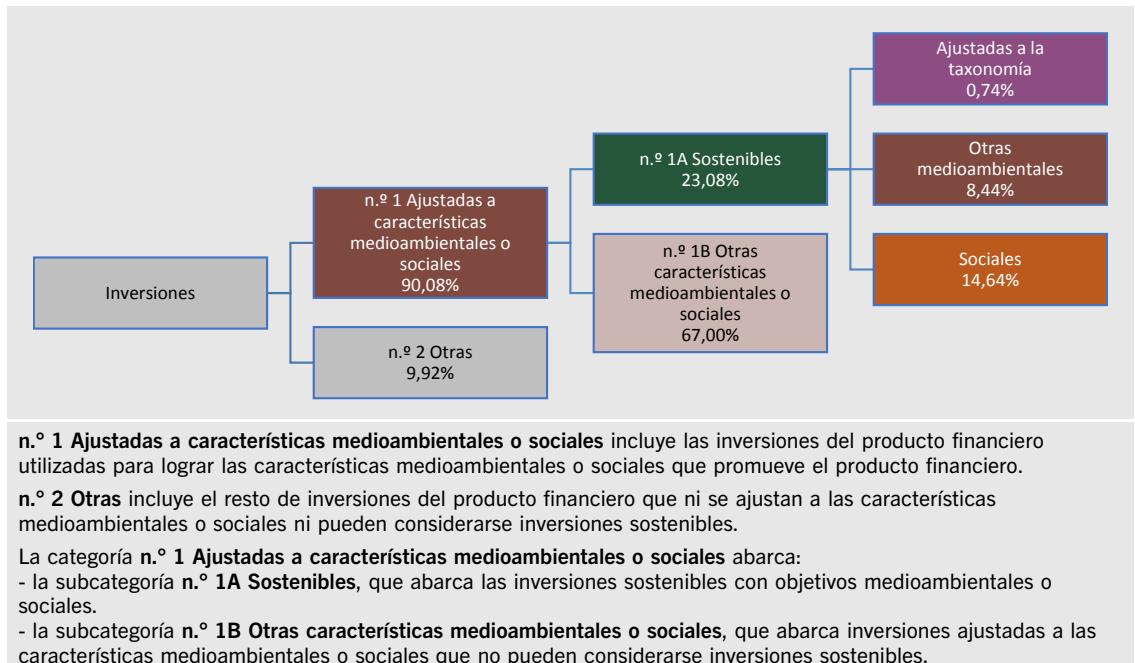

¿Cuál ha sido la proporción de inversiones relacionadas con la sostenibilidad?

23,08%

● ¿Cuál ha sido la asignación de activos?

El fondo se ajustó en un 90,08% con características medioambientales o sociales (n.º 1 Ajustadas a características medioambientales o sociales) y tuvo hasta un 9,92% invertido en la categoría Otras (n.º 2 Otras). El 23,08% se asignó a inversiones sostenibles (n.º 1A Sostenibles) y el resto se invirtió en inversiones ajustadas a otras características medioambientales o sociales (n.º 1B Otras características medioambientales o sociales).

La asignación de activos describe el porcentaje de inversiones en activos específicos.

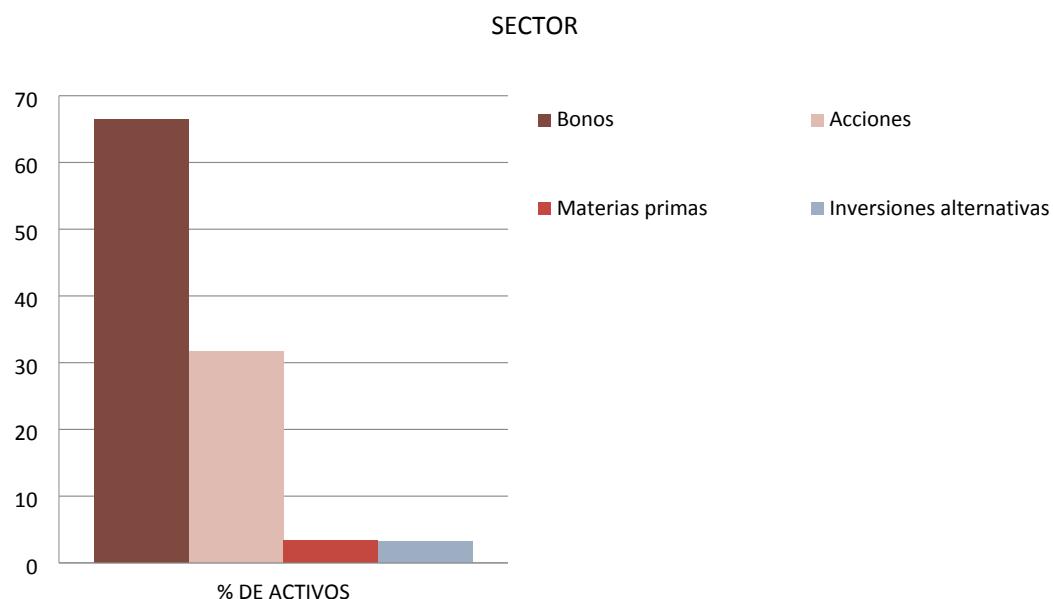

Notas:

- Las inversiones «n.º 1A Sostenibles», «Otras medioambientales» y «Sociales» se calcularon sobre una base de aprobado/suspenso. Incluyen bonos certificados (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.
- Las inversiones ajustadas a la taxonomía verde de la UE se calculan ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a la mitigación del cambio climático y la adaptación al mismo) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.
- A falta de una taxonomía social de la UE, Pictet ha desarrollado un marco de taxonomía social propio. El marco se basa en basado en el Informe sobre taxonomía social publicado por la Plataforma de Finanzas Sostenibles de la UE en 2022. Las actividades admisibles se definen como bienes y servicios beneficiosos desde el punto de vista social que contribuyen sustancialmente a uno de los tres objetivos sociales siguientes: (1) comunidades inclusivas y sostenibles, (2) nivel de vida adecuado y bienestar para los usuarios finales y (3) trabajo digno.

Fuente: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RBICS.

● ¿En qué sectores económicos se han realizado las inversiones?

Fuente: Pictet Asset Management.

Estamos evaluando la disponibilidad y la calidad de los datos que nos permitirían divulgar información más granular en futuros informes sobre los sectores y subsectores de la economía que obtienen ingresos a partir de la exploración, la minería, la extracción, la producción, el procesamiento, el almacenamiento, el refinado o la distribución, incluidos el transporte, el almacenamiento y el comercio, de combustibles fósiles, según se definen en el artículo 2, punto (62), del Reglamento (UE) 2018/1999 del Parlamento Europeo y del Consejo.

¿En qué medida se ajustaban las inversiones sostenibles con un objetivo medioambiental a la taxonomía de la UE?

El fondo realizó inversiones en actividades económicas que contribuyeron a los dos primeros objetivos medioambientales (mitigación del cambio climático y adaptación a este), según lo establecido en el artículo 9 del Reglamento (UE) 2020/852.

Las inversiones ajustadas a la taxonomía de la UE se calcularon ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a objetivos medioambientales relevantes) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.

Los datos de ajuste a la Taxonomía verde de la UE proceden de informes públicos. Los cálculos también pueden incluir estimaciones en un número limitado de casos en los que no se disponía de datos sobre la alineación con la Taxonomía verde de la UE. Las estimaciones se realizaron sobre la base del mejor esfuerzo y siguiendo un planteamiento conservador para obtener un resultado prudente.

Los procedimientos de control se han aplicado para verificar en todo momento el cumplimiento del artículo 3 del Reglamento sobre taxonomía de la UE.

Los datos facilitados no han sido verificados por un auditor externo ni revisados por un tercero independiente.

● ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil o la energía nuclear que cumplían con la taxonomía de la UE¹?

Sí:

En gas fósil En energía nuclear

No

La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permite ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

Para ajustarse a la taxonomía de la UE, los criterios correspondientes al **gas fósil** incluyen limitaciones de emisiones y el paso a la energía renovable o combustibles bajos en carbono de aquí al fin de 2035. Por lo que respecta a la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

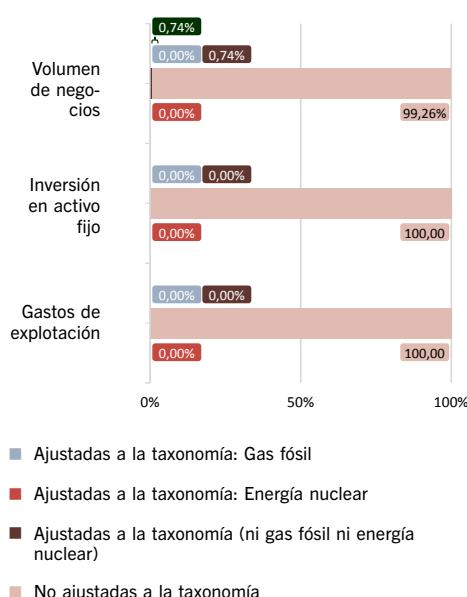

¹ Las actividades relacionadas con el gas fósil o la energía nuclear solo cumplirán la taxonomía de la UE cuando contribuyan a limitar el cambio climático («mitigación del cambio climático») y no perjudiquen significativamente ningún objetivo de la taxonomía de la UE (véase la nota explicativa en el margen izquierdo). Los criterios completos correspondientes a las actividades económicas del gas fósil y la energía nuclear que se ajustan a la taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

Las actividades que se ajustan a la taxonomía se expresan como un porcentaje de:

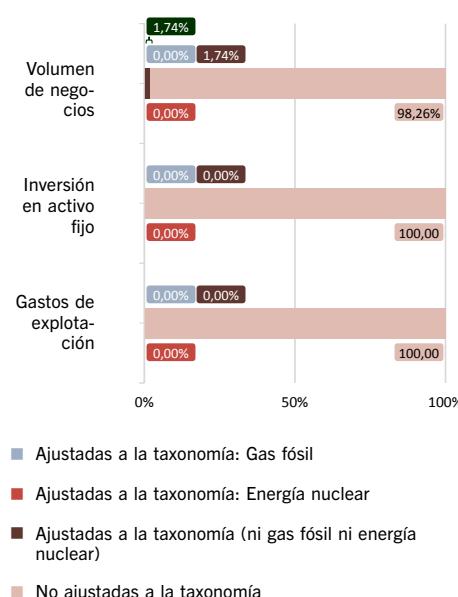

- el **volumen de negocios**, que refleja el «carácter ecológico» de las empresas en las que se invierte en la actualidad;
- la **inversión en activo fijo**, que muestra las inversiones ecológicas realizadas por las empresas en las que se invierte, pertinentes para la transición a una economía verde;
- los **gastos de explotación**, que reflejan las actividades operativas ecológicas de las empresas en las que se invierte.

Los gráficos que figuran a continuación muestran en verde el porcentaje de inversiones que se ajustaban a la taxonomía de la UE. Dado que no existe una metodología adecuada para determinar la adaptación a la taxonomía de los bonos soberanos*, el primer gráfico muestra la adaptación a la taxonomía correspondiente para todas las inversiones del producto financiero, incluidos los bonos soberanos, mientras que el segundo gráfico muestra la adaptación a la taxonomía solo en relación con las inversiones del producto financiero distintas de los bonos soberanos.

1. Ajuste a la taxonomía de las inversiones incluidos los bonos soberanos*

2. Ajuste a la taxonomía de las inversiones excluidos los bonos soberanos*

Este gráfico representa el 42,93% de las inversiones totales.

* A efectos de estos gráficos, los «bonos soberanos» incluyen todas las exposiciones soberanas

Nota:

Utilizamos los ingresos como medida clave para establecer la asignación de objetivos y el ajuste real con la taxonomía de la UE debido a la disponibilidad limitada y a la falta de datos fiables para los gastos de explotación y la inversión en activo fijo.

Fuente: Pictet Asset Management.

● ¿Cuál ha sido la proporción de las inversiones realizadas en actividades de transición y facilitadoras?

La proporción de inversiones realizadas en:

- Actividades de transición: No aplicable*
- Actividades de facilitadoras: No aplicable*

* La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permiten ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

● ¿Qué porcentaje de inversiones se han ajustado a la taxonomía de la UE en comparación con los períodos de referencia anteriores?

No aplicable.

¿Cuál ha sido la proporción de inversiones sostenibles con un objetivo medioambiental no ajustadas a la taxonomía de la UE?

8,44%

Estas inversiones sostenibles no se ajustan a la Taxonomía de la UE porque sus actividades económicas o bien (i) no están cubiertas por la Taxonomía de la UE, o bien (ii) no cumplen los criterios técnicos de selección para lograr una contribución sustancial en el sentido de la Taxonomía de la UE.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta

¿Cuál ha sido la proporción de inversiones socialmente sostenibles?

14,64%

¿Qué inversiones se han incluido en «otras» y cuál ha sido su propósito? ¿ha habido garantías medioambientales o sociales mínimas?

Las «otras» inversiones del fondo incluían posiciones de tesorería mantenidas principalmente para satisfacer los objetivos diarios de liquidez y gestión de riesgos permitidos y previstos por la política de inversión del fondo. Cuando sea preciso, se aplicarán salvaguardias medioambientales o sociales mínimas a los valores subyacentes.

¿Qué medidas se han adoptado para cumplir las características medioambientales o sociales durante el período de referencia?

Durante el periodo de referencia, se alcanzó el objetivo de inversión sostenible siguiendo la estrategia de inversión y respetando los elementos vinculantes.

Los elementos vinculantes del fondo son:

- Exclusión de emisores que:
 - están relacionados con armas nucleares de países que no han firmado el Tratado sobre la No Proliferación de Armas Nucleares (TNP) y otras armas controvertidas
 - obtienen una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, como la extracción de carbón térmico y la generación de electricidad, la exploración y producción no convencional de petróleo y gas, las armas convencionales y armas pequeñas, las armas de contratación militar, la producción de tabaco, la producción de entretenimiento para adultos y las actividades del juego. Para más detalles sobre los umbrales de exclusión aplicables a las actividades anteriores, consulte la Política de Inversión responsable de Pictet Asset Management.
 - incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción
- exclusiones de países sujetos a sanciones internacionales
- un perfil ASG mejor que el del universo de inversión
- análisis de criterios ASG de los valores admisibles que abarca al menos el 90% del patrimonio neto o el número de emisores incluidos en la cartera

Además, el fondo se implicó con 284 empresas a 30.09.2023.

¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

● ¿Cómo difería el índice de referencia de un índice general de mercado?

No aplicable.

- **¿Cómo se ha comportado este producto financiero con respecto a los indicadores de sostenibilidad para determinar la conformidad del índice de referencia con las características medioambientales o sociales que promueve?**
No aplicable.
- **¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?**
No aplicable.
- **¿Cómo se ha comportado este producto financiero en comparación con el índice general de mercado?**
No aplicable.

CARACTERÍSTICAS MEDIOAMBIENTALES O SOCIALES

Inversión sostenible
significa una inversión en una actividad económica que contribuye a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo a ningún objetivo medioambiental o social y que las empresas en las que se invierte sigan prácticas de buena gobernanza.

La **taxonomía de la UE** es un sistema de clasificación previsto en el Reglamento (UE) 2020/852 por el que se establece una lista de **actividades económicas medioambientalmente sostenibles**. Dicho Reglamento no prevé una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental pueden ajustarse, o no, a la taxonomía.

| ¿ESTE PRODUCTO FINANCIERO TENÍA UN OBJETIVO DE INVERSIÓN SOSTENIBLE? | | | |
|---|-------------------------------------|---|---|
| <input checked="" type="radio"/> Si | <input type="radio"/> No | <input checked="" type="radio"/> Promovió características medioambientales o sociales y, aunque no tenía como objetivo una inversión sostenible, tuvo un porcentaje del 13,96% de inversiones sostenibles | <input checked="" type="radio"/> con un objetivo medioambiental en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> Realizó inversiones sostenibles con un objetivo medioambiental: ____% | <input checked="" type="checkbox"/> | <input checked="" type="checkbox"/> con un objetivo medioambiental en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> con un objetivo medioambiental en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | | | <input checked="" type="checkbox"/> con un objetivo social |
| <input type="checkbox"/> en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | | | |
| <input type="checkbox"/> Realizó inversiones sostenibles con un objetivo social: ____% | <input type="checkbox"/> | <input type="checkbox"/> Ha promovido características medioambientales o sociales, pero no ha realizado ninguna inversión sostenible | |

Nota: Las inversiones sostenibles se calcularon sobre una base de aprobado/suspenso, incluyendo bonos con etiqueta (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% (medida por ingresos, EBIT, valor de empresa o indicadores similares) a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.

¿En qué grado se han cumplido las características medioambientales o sociales que promueve este producto financiero?

Las características medioambientales y sociales de este producto financiero se promovieron utilizando:

- Inclinación positiva:

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos, lo que resulta en un perfil medioambiental, social y de gobernanza (ASG) mejor que una cartera neutral. Por término medio, una cartera neutral tendría una calificación de riesgo ASG «media». No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

- Exclusiones basadas en normas y valores:

El fondo excluyó los emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente o que incumplen de forma grave las normas internacionales, según se detalla a continuación:

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

Actividad

Umbrales de ingresos

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

| | |
|---|------------------------|
| Combustibles fósiles y energía nuclear | |
| Extracción de carbón térmico | > 25% |
| Generación de energía térmica de carbón | > 25% |
| Producción de petróleo y gas | > 25% |
| Extracción de arenas bituminosas | > 10% |
| Extracción de energía de esquisto | > 10% |
| Exploración de petróleo y gas en el Ártico | > 10% |
| Generación de energía nuclear | > 50% |
| Armas | |
| Producción de armas controvertidas[1] | > 0% |
| Armas de contratación militar | > 10% |
| Productos y/o servicios relacionados con armas de contratación militar | > 50% |
| Clientes civiles de armas pequeñas (armas de asalto) | > 10% |
| Clientes civiles de armas pequeñas (armas de no asalto) | > 10% |
| Clientes militares/de fuerzas del orden de armas pequeñas | > 25% |
| Componentes clave de armas pequeñas | > 25% |
| Otras actividades controvertidas | |
| Producción de entretenimiento para adultos | > 10% |
| Operaciones de juego | > 10% |
| Desarrollo de plantas y semillas modificadas genéticamente | > 25% |
| Cultivo de plantas y semillas modificadas genéticamente | > 25% |
| Producción de plaguicidas | > 10% |
| Venta al por menor de plaguicidas | > 10% |
| Producción de productos de tabaco | > 10% |
| Exclusiones de empresas por incumplimiento de normas internacionales | Excluidas |
| Empresas que incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción | Sí |
| Exclusiones de países | Excluidas |
| Países (i) incluidos en la lista de Estados patrocinadores del terrorismo, según la definición de la Oficina de Control de Activos Extranjeros de EE. UU.[2] o (ii) sujetos a sanciones financieras de la UE contra bancos centrales y/o empresas de propiedad estatal. | Sí |
| Países (i) clasificados como de muy alto o alto riesgo en el Índice de Estados Frágiles o (ii) afectados por conflictos violentos según la definición del Banco Mundial. | Sí |
| Países (i) incluidos en la lista de «alerta» del Índice de Estados Frágiles o (ii) sujetos a sanciones relacionadas con la exportación por parte de la UE. | Lista de vigilancia[3] |

[1] Entre las armas controvertidas se encuentran las minas antipersona, las municiones de racimo, las armas biológicas y químicas (incluido el fósforo blanco) y las armas nucleares procedentes de países no firmantes del Tratado de No Proliferación de Armas Nucleares (TNP).

[2] «Estado patrocinador del terrorismo» es una designación aplicada por el Departamento de Estado de Estados Unidos a países que repetidamente han prestado apoyo a actos de terrorismo internacional.

[3] Además de las exclusiones estrictas, Pictet Asset Management mantiene una lista de vigilancia que incluye países que requieren una diligencia debida adicional por parte de los equipos de inversión antes de invertir.

Para más detalles, consulte la Política de Inversión responsable de Pictet Asset Management (Anexo B).

- Titularidad activa:

El fondo se implicó con la dirección de las empresas sobre cuestiones ASG importantes.

● ¿Cómo se han comportado los indicadores de sostenibilidad?

Durante el periodo de información, los indicadores de sostenibilidad se comportaron según se indica a continuación:

- **Perfil ASG global**

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos.

Como resultado, el fondo ha conseguido un perfil ambiental, social y de gobernanza (ASG) mejor que el de la cartera neutral.

- **Principal incidencia adversa (PIA)**

El fondo utiliza una combinación de enfoques para considerar y, en la medida de lo posible, mitigar las incidencias adversas materiales de nuestras inversiones en la sociedad y el medioambiente, como emisiones de GEI, contaminación atmosférica, pérdida de biodiversidad, emisiones al agua, residuos peligrosos/radioactivos, derechos humanos, normas laborales, corrupción y soborno, y salud pública.

El grado y la forma en que estas incidencias se tuvieron en cuenta dependieron de factores como el contexto específico de la inversión que provoca la incidencia adversa o la disponibilidad de datos fiables.

De conformidad con la política de exclusión de Pictet Asset Management descrita en la Política de Inversión responsable de la empresa (véase el cuadro anterior para consultar las actividades excluidas y los umbrales de exclusión aplicados), el fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente:

Actividades controvertidas (media ponderada de ingresos de la empresa, en %)*:

| | Fondo (%) | Índice de referencia (%) |
|--|-----------|--------------------------|
| Combustibles fósiles y energía nuclear | 0,08 | 0,00 |
| Armas | 0,03 | 0,00 |
| Otras actividades controvertidas | 0,01 | 0,00 |
| No aplicable: | 20,71 | 0,00 |
| No cubierto: | 1,87 | 0,00 |

* Los combustibles fósiles y la energía nuclear incluyen la extracción de carbón térmico y la generación de electricidad, la producción y extracción de petróleo y gas, la extracción de energía de esquisto, la exploración de petróleo y gas en los mares del Ártico y la generación de energía nuclear. Las armas incluyen la contratación militar (servicios de armas y relacionadas con estas), clientes civiles de armas pequeñas (armas de asalto/no asalto), clientes militares/de las fuerzas y cuerpos de seguridad de armas pequeñas y componentes clave de pequeñas armas. Otras actividades controvertidas incluyen la producción de tabaco, la producción de entretenimiento para adultos, la explotación de juegos de azar, el desarrollo o crecimiento de organismos modificados genéticamente, la producción o venta al por menor de pesticidas. La exposición se basa en datos de terceros y puede no reflejar nuestro punto de vista interno. Pictet Asset Management tiene plena discreción sobre la aplicación de los criterios de exclusión y se reserva el derecho de apartarse de la información de terceros, según el caso, cuando se considere incorrecta o incompleta.

Fuente: Pictet Asset Management, Sustainalytics.

Además, el fondo excluyó a los emisores que tenían exposición a:

(i) PIA 10: Incumplimientos de los principios del Pacto Mundial de las Naciones Unidas y las Directrices para Empresas Multinacionales de la Organización para la Cooperación y el Desarrollo Económicos (OCDE).

(ii) PIA 14: Exposición a armas controvertidas (minas antipersonas, municiones en racimo, armas químicas y armas biológicas)

- **Interacción**

Los indicadores de sostenibilidad miden cómo se alcanzan las características medioambientales o sociales que promueve el producto financiero.

El fondo se implicó con 14 empresas sobre cuestiones ASG (datos a 30.09.2023). Esto incluye diálogos internos, iniciativas de colaboración entre inversores y servicios de implicación de terceros. Para que se considere implicación, el diálogo con una empresa objetivo debe tener un objetivo claro y mensurable en un horizonte temporal predefinido. Es importante señalar que no todas las interacciones rutinarias o de supervisión, aunque impliquen a la alta dirección o al Consejo de administración, se consideran implicaciones en nuestra evaluación.

Fuente: Pictet Asset Management, Sustainalytics.

● **¿... y en comparación con períodos anteriores?**

Esta cuestión se abordará en futuros informes anuales debido a la falta de historial.

● **¿Cuáles han sido los objetivos de las inversiones sostenibles que ha realizado en parte el producto financiero y de qué forma ha contribuido la inversión sostenible a dichos objetivos?**

El fondo no se comprometió a un porcentaje mínimo de inversiones sostenibles.

Sin embargo, *a posteriori*, el fondo invirtió en valores que financiaban actividades económicas que contribuyeron sustancialmente a objetivos medioambientales y/o sociales como:

Medioambientales

- mitigación del cambio climático o adaptación al mismo
- uso sostenible y protección de los recursos hídricos y marinos
- transición hacia una economía circular
- prevención y control de la contaminación o
- protección y recuperación de la biodiversidad y los ecosistemas

Sociales

- comunidades inclusivas y sostenibles
- nivel de vida adecuado y bienestar para los usuarios finales o
- trabajo digno

Pictet Asset Management utilizó un marco de referencia propio, así como los objetivos de la Taxonomía de la UE, para definir las inversiones sostenibles.

● **¿De qué manera las inversiones sostenibles que el producto financiero ha realizado en parte, no han causado un perjuicio significativo a ningún objetivo de inversión sostenible medioambiental o social?**

Para evitar que las inversiones sostenibles causen un perjuicio significativo a cualquier otro objetivo medioambiental o social, el fondo aplicó los siguientes criterios de selección sobre la base del mejor esfuerzo:

- (i) Exclusiones de emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente (véase la descripción del marco de exclusión de IR).
- (ii) Los emisores asociados a controversias elevadas y graves no se contabilizaron como inversiones sostenibles.

La información se obtuvo de proveedores tercero y/o de análisis interno. La información ASG de terceros proveedores de datos puede haber sido incompleta, inexacta o no estar disponible. Como consecuencia de ello, existía el riesgo de que el Gestor de inversiones evaluará incorrectamente un valor o emisor, dando lugar a la inclusión o exclusión incorrecta de un valor en el fondo. Los datos ASG incompletos, inexactos o no disponibles también pueden actuar como una limitación metodológica a una estrategia de inversión no financiera (como la aplicación de criterios ASG o similares). En los casos identificados, el Gestor de inversiones trató de mitigar este riesgo mediante su propia evaluación. En caso de que las características ASG de un valor mantenido por el fondo cambiaron, dando lugar a la venta del valor, el Gestor de inversiones no acepta responsabilidad alguna en relación con dicho cambio.

● **¿Cómo se han tenido en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?**

Pictet Asset Management realiza un seguimiento de todos los indicadores obligatorios de principales incidencias adversas (incluidos en el Anexo 1 del Reglamento Delegado (UE) 22 / 1288 de la Comisión) cuando disponemos de datos sólidos. Se espera que la calidad de los datos disponibles mejore con el tiempo.

Las principales incidencias adversas
son las incidencias negativas más importantes de las decisiones de inversión sobre los factores de sostenibilidad en relación con asuntos medioambientales,

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas de sus inversiones en la sociedad y el medioambiente que se consideran importantes para la estrategia de inversión, mediante un conjunto de decisiones de gestión de cartera, actividades de propiedad activa y exclusión de emisores asociados a conductas o actividades controvertidas. Más información en el informe de PIA de la entidad, disponible en:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=es&bl=PAM>

- *¿Se han ajustado las inversiones sostenibles a las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios rectores de las Naciones Unidas sobre las empresas y los derechos humanos?*

Para garantizar que la inversión sostenible no causara un perjuicio significativo a ningún objetivo de inversión sostenible, el fondo excluyó a las empresas con infracciones elevadas y graves de (i) los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción o (ii) las Líneas Directrices de la OCDE para Empresas Multinacionales, incluidos los asuntos sociales y laborales graves.

La taxonomía de la UE establece el principio de «no causar un perjuicio significativo», según el cual las inversiones que se ajusten a la taxonomía no deben perjudicar significativamente a los objetivos de la taxonomía de la UE, e incluye criterios específicos de la Unión.

El principio de «no perjudicar de forma significativa» se aplica únicamente a las inversiones subyacentes del producto financiero que contemplan los criterios de la UE relativos a actividades económicas sostenibles desde una perspectiva medioambiental. Las inversiones subyacentes al resto del producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas medioambientalmente sostenibles.

Cualquier otra inversión sostenible tampoco debe perjudicar significativamente a ningún objetivo medioambiental o social.

¿Cómo tiene en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas que se consideran importantes para la estrategia de inversión. Entre las incidencias adversas se incluyeron, entre otras, las emisiones de gases de efecto invernadero (GEI), la contaminación atmosférica, la pérdida de biodiversidad, las emisiones al agua, los residuos peligrosos/radioactivos, las cuestiones sociales y laborales, y la corrupción y el soborno, que se abordaron mediante una combinación de:

(i) decisiones de gestión de carteras

El equipo de inversión puntuó las posiciones según una evaluación de los riesgos medioambientales, sociales y de gobernanza como parte del marco de puntuación del fondo. Los gestores de inversiones determinan las puntuaciones sobre una base cualitativa, basándose en el análisis fundamental y en datos cuantitativos ASG, incluidos los datos sobre la Principal incidencia adversa, los datos ASG facilitados por las empresas y los datos proporcionados por terceros proveedores de datos ASG. El proceso de puntuación del equipo de inversión fue un componente clave del proceso de construcción de la cartera del comportamiento, determinando las ponderaciones objetivo en la cartera.

(ii) implicación

La interacción con los emisores se realizó mediante conversaciones individuales, reuniones de accionistas/bonistas, giras de inversores y/o conferencias telefónicas. Los objetivos de estas interacciones fueron evaluar una organización, supervisar que su estrategia se estaba aplicando conforme a nuestras expectativas y garantizar que los emisores iban camino de cumplir sus metas y objetivos.

Cuando corresponde, nos implicamos con las empresas en relación con cuestiones ASG importantes, como los objetivos de reducción de los GEI, las mejoras en la gobernanza y diversas controversias medioambientales, sociales y de gobernanza, para asegurarnos de que las entendieran y las abordaran eficazmente a corto, medio y largo plazo. Nuestras actividades de implicación combinaron debates dirigidos a nivel interno, iniciativas de colaboración con inversores institucionales y servicios de implicación externos.

(iii) exclusión de emisores asociados a conductas o actividades controvertidas

El fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se definen en la Política de Inversión responsable de la Pictet Asset Management y/o (ii) empresas que infringieron gravemente los principios del Pacto Mundial de la ONU sobre derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción y las armas controvertidas.

¿Cuáles han sido las inversiones principales de este producto financiero?

La lista incluye las inversiones que constituyen la **mayor parte de las inversiones** del producto financiero durante el período de referencia, que es: 01.10.2022 - 30.09.2023

| INVERSIONES DE MAYOR VOLUMEN | SECTOR | % DE ACTIVOS | PAÍS |
|---|----------------|--------------|-------------|
| SNB BILL ZERO% 13.11.2023 Uns | Financiero | 1,3 | Suiza |

Fuente: Pictet Asset Management, Merrill Lynch.

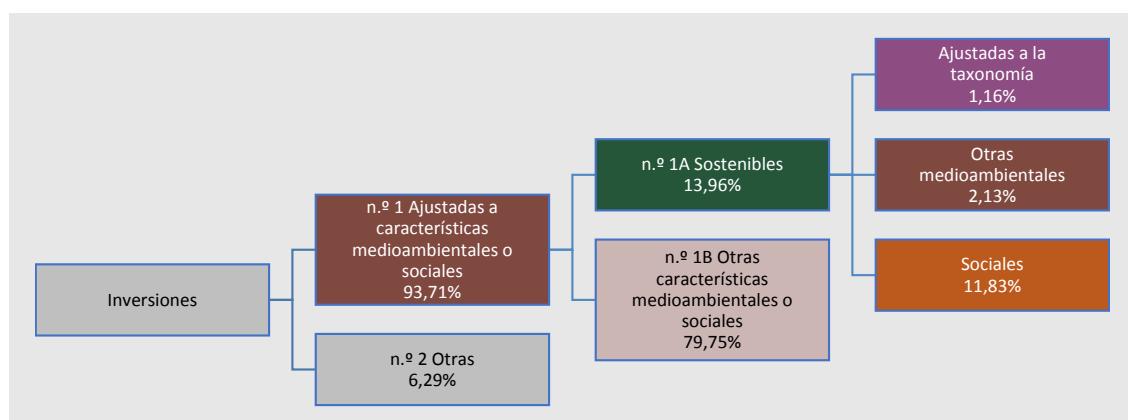

¿Cuál ha sido la proporción de inversiones relacionadas con la sostenibilidad?

13,96%

La **asignación de activos** describe el porcentaje de inversiones en activos específicos.

¿Cuál ha sido la asignación de activos?

El fondo se ajustó en un 93,71% con características medioambientales o sociales (n.º 1 Ajustadas a características medioambientales o sociales) y tuvo hasta un 6,29% invertido en la categoría Otras (n.º 2 Otras). El 13,96% se asignó a inversiones sostenibles (n.º 1A Sostenibles) y el resto se invirtió en inversiones ajustadas a otras características medioambientales o sociales (n.º 1B Otras características medioambientales o sociales).

n.º 1 Ajustadas a características medioambientales o sociales incluye las inversiones del producto financiero utilizadas para lograr las características medioambientales o sociales que promueve el producto financiero.

n.º 2 Otras incluye el resto de inversiones del producto financiero que ni se ajustan a las características medioambientales o sociales ni pueden considerarse inversiones sostenibles.

La categoría n.º 1 Ajustadas a características medioambientales o sociales abarca:

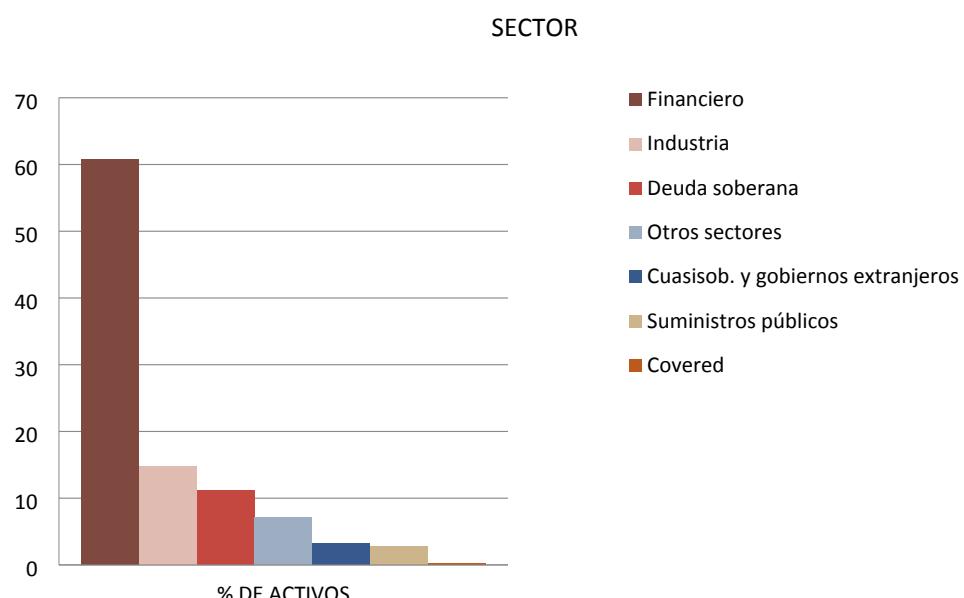

- la subcategoría n.º 1A Sostenibles, que abarca las inversiones sostenibles con objetivos medioambientales o sociales.
- la subcategoría n.º 1B Otras características medioambientales o sociales, que abarca inversiones ajustadas a las características medioambientales o sociales que no pueden considerarse inversiones sostenibles.

Notas:

- Las inversiones «n.º 1A Sostenibles», «Otras medioambientales» y «Sociales» se calcularon sobre una base de aprobado/suspenso. Incluyen bonos certificados (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.
- Las inversiones ajustadas a la taxonomía verde de la UE se calculan ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a la mitigación del cambio climático y la adaptación al mismo) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.
- A falta de una taxonomía social de la UE, Pictet ha desarrollado un marco de taxonomía social propio. El marco se basa en basado en el Informe sobre taxonomía social publicado por la Plataforma de Finanzas Sostenibles de la UE en 2022. Las actividades admisibles se definen como bienes y servicios beneficiosos desde el punto de vista social que contribuyen sustancialmente a uno de los tres objetivos sociales siguientes: (1) comunidades inclusivas y sostenibles, (2) nivel de vida adecuado y bienestar para los usuarios finales y (3) trabajo digno.

Fuente: Pictet Asset Management, Sustainanalytics, FTSE Green Revenues, Factset RBICS.

● ¿En qué sectores económicos se han realizado las inversiones?

Fuente: Pictet Asset Management, Merrill Lynch.

Estamos evaluando la disponibilidad y la calidad de los datos que nos permitirían divulgar información más granular en futuros informes sobre los sectores y subsectores de la economía que obtienen ingresos a partir de la explotación, la minería, la extracción, la producción, el procesamiento, el almacenamiento, el refinado o la distribución, incluidos el transporte, el almacenamiento y el comercio, de combustibles fósiles, según se definen en el artículo 2, punto (62), del Reglamento (UE) 2018/1999 del Parlamento Europeo y del Consejo.

¿En qué medida se ajustaban las inversiones sostenibles con un objetivo medioambiental a la taxonomía de la UE?

El fondo realizó inversiones en actividades económicas que contribuyeron a los dos primeros objetivos medioambientales (mitigación del cambio climático y adaptación a este), según lo establecido en el artículo 9 del Reglamento (UE) 2020/852.

Las inversiones ajustadas a la taxonomía de la UE se calcularon ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a objetivos medioambientales relevantes) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.

Los datos de ajuste a la Taxonomía verde de la UE proceden de informes públicos. Los cálculos también pueden incluir estimaciones en un número limitado de casos en los que no se disponía de datos sobre la alineación con la Taxonomía verde de la UE. Las estimaciones se realizaron sobre la base del mejor esfuerzo y siguiendo un planteamiento conservador para obtener un resultado prudente.

Los procedimientos de control se han aplicado para verificar en todo momento el cumplimiento del artículo 3 del Reglamento sobre taxonomía de la UE.

Los datos facilitados no han sido verificados por un auditor externo ni revisados por un tercero independiente.

● **¿Invirtió el producto financiero en actividades relacionadas con el gas fósil o la energía nuclear que cumplían con la taxonomía de la UE¹?**

Sí:

En gas fósil En energía nuclear

No

La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permite ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

Para ajustarse a la taxonomía de la UE, los criterios correspondientes al **gas fósil** incluyen limitaciones de emisiones y el paso a la energía renovable o combustibles bajos en carbono de aquí al fin de 2035. Por lo que respecta a la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

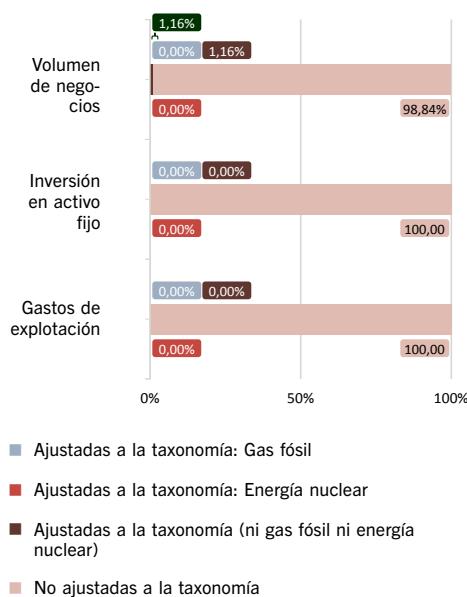

¹ Las actividades relacionadas con el gas fósil o la energía nuclear solo cumplirán la taxonomía de la UE cuando contribuyan a limitar el cambio climático («mitigación del cambio climático») y no perjudiquen significativamente ningún objetivo de la taxonomía de la UE (véase la nota explicativa en el margen izquierdo). Los criterios completos correspondientes a las actividades económicas del gas fósil y la energía nuclear que se ajustan a la taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

Las actividades que se ajustan a la taxonomía se expresan como un porcentaje de:

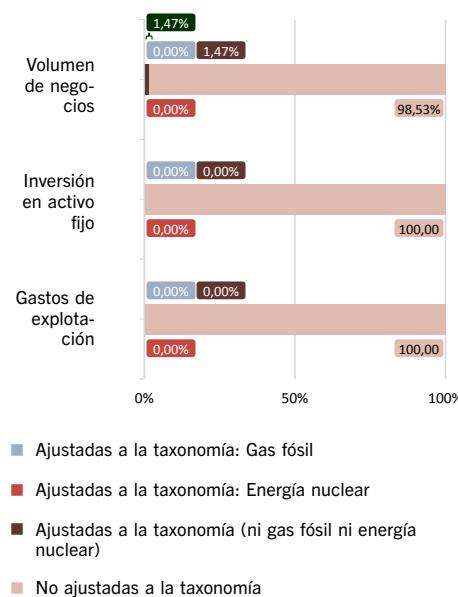

- el **volumen de negocios**, que refleja el «carácter ecológico» de las empresas en las que se invierte en la actualidad;
- la **inversión en activo fijo**, que muestra las inversiones ecológicas realizadas por las empresas en las que se invierte, pertinentes para la transición a una economía verde;
- los **gastos de explotación**, que reflejan las actividades operativas ecológicas de las empresas en las que se invierte.

Los gráficos que figuran a continuación muestran en verde el porcentaje de inversiones que se ajustaban a la taxonomía de la UE. Dado que no existe una metodología adecuada para determinar la adaptación a la taxonomía de los bonos soberanos*, el primer gráfico muestra la adaptación a la taxonomía correspondiente para todas las inversiones del producto financiero, incluidos los bonos soberanos, mientras que el segundo gráfico muestra la adaptación a la taxonomía solo en relación con las inversiones del producto financiero distintas de los bonos soberanos.

1. Ajuste a la taxonomía de las inversiones incluidos los bonos soberanos*

2. Ajuste a la taxonomía de las inversiones excluidos los bonos soberanos*

Este gráfico representa el 79,29% de las inversiones totales.

* A efectos de estos gráficos, los «bonos soberanos» incluyen todas las exposiciones soberanas

Nota:

Utilizamos los ingresos como medida clave para establecer la asignación de objetivos y el ajuste real con la taxonomía de la UE debido a la disponibilidad limitada y a la falta de datos fiables para los gastos de explotación y la inversión en activo fijo.

Fuente: Pictet Asset Management.

● ¿Cuál ha sido la proporción de las inversiones realizadas en actividades de transición y facilitadoras?

La proporción de inversiones realizadas en:

- Actividades de transición: No aplicable*
- Actividades de facilitadoras: No aplicable*

* La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permiten ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

● ¿Qué porcentaje de inversiones se han ajustado a la taxonomía de la UE en comparación con los períodos de referencia anteriores?

No aplicable.

¿Cuál ha sido la proporción de inversiones sostenibles con un objetivo medioambiental no ajustadas a la taxonomía de la UE?

2,13%

Estas inversiones sostenibles no se ajustan a la Taxonomía de la UE porque sus actividades económicas o bien (i) no están cubiertas por la Taxonomía de la UE, o bien (ii) no cumplen los criterios técnicos de selección para lograr una contribución sustancial en el sentido de la Taxonomía de la UE.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta

¿Cuál ha sido la proporción de inversiones socialmente sostenibles?

11,83%

¿Qué inversiones se han incluido en «otras» y cuál ha sido su propósito? ¿ha habido garantías medioambientales o sociales mínimas?

Las «otras» inversiones del fondo incluían posiciones de tesorería mantenidas principalmente para satisfacer los objetivos diarios de liquidez y gestión de riesgos permitidos y previstos por la política de inversión del fondo. Cuando sea preciso, se aplicarán salvaguardias medioambientales o sociales mínimas a los valores subyacentes.

¿Qué medidas se han adoptado para cumplir las características medioambientales o sociales durante el período de referencia?

Durante el periodo de referencia, se alcanzó el objetivo de inversión sostenible siguiendo la estrategia de inversión y respetando los elementos vinculantes.

Los elementos vinculantes del fondo son:

- Exclusión de emisores que:
 - están relacionados con armas nucleares de países que no han firmado el Tratado sobre la No Proliferación de Armas Nucleares (TNP) y otras armas controvertidas
 - obtienen una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, como la extracción de carbón térmico y la generación de electricidad, la exploración y producción no convencional de petróleo y gas, la producción de petróleo y gas convencional, la generación de energía nuclear, las armas convencionales y armas pequeñas, la contratación militar de armas y productos y servicios relacionados con las armas, la producción de tabaco, la producción de entretenimiento para adultos, las actividades del juego, el desarrollo y crecimiento de organismos modificados genéticamente, la producción y comercialización de pesticidas. Para más detalles sobre los umbrales de exclusión aplicables a las actividades anteriores, consulte la Política de Inversión responsable de Pictet Asset Management.
 - incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción
 - sobreponer los valores con riesgos de sostenibilidad bajos
- análisis de criterios ASG de los valores admisibles que abarca al menos el 80% del patrimonio neto o el número de emisores incluidos en la cartera

Además, el fondo se implicó con 14 empresas a 30.09.2023.

¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

● ¿Cómo difería el índice de referencia de un índice general de mercado?

No aplicable.

- **¿Cómo se ha comportado este producto financiero con respecto a los indicadores de sostenibilidad para determinar la conformidad del índice de referencia con las características medioambientales o sociales que promueve?**
No aplicable.
- **¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?**
No aplicable.
- **¿Cómo se ha comportado este producto financiero en comparación con el índice general de mercado?**
No aplicable.

CARACTERÍSTICAS MEDIOAMBIENTALES O SOCIALES

Inversión sostenible significa una inversión en una actividad económica que contribuye a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo a ningún objetivo medioambiental o social y que las empresas en las que se invierte sigan prácticas de buena gobernanza.

La **taxonomía de la UE** es un sistema de clasificación previsto en el Reglamento (UE) 2020/852 por el que se establece una lista de **actividades económicas medioambientalmente sostenibles**. Dicho Reglamento no prevé una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental pueden ajustarse, o no, a la taxonomía.

| ¿ESTE PRODUCTO FINANCIERO TENÍA UN OBJETIVO DE INVERSIÓN SOSTENIBLE? | | | |
|--|--|-------------------------------------|--|
| <input checked="" type="radio"/> Si | | <input checked="" type="radio"/> No | |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo medioambiental: ____% | <input checked="" type="checkbox"/> | Promovió características medioambientales o sociales y, aunque no tenía como objetivo una inversión sostenible, tuvo un porcentaje del 10,14% de inversiones sostenibles |
| <input type="checkbox"/> | en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> | con un objetivo medioambiental en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> | en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> | con un objetivo medioambiental en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo social: ____% | <input type="checkbox"/> | con un objetivo social |
| <input type="checkbox"/> | | <input type="checkbox"/> | Ha promovido características medioambientales o sociales, pero no ha realizado ninguna inversión sostenible |

Nota: Las inversiones sostenibles se calcularon sobre una base de aprobado/suspenso, incluyendo bonos con etiqueta (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% (medida por ingresos, EBIT, valor de empresa o indicadores similares) a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.

¿En qué grado se han cumplido las características medioambientales o sociales que promueve este producto financiero?

Las características medioambientales y sociales de este producto financiero se promovieron utilizando:

- Inclinación positiva:

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos, lo que resulta en un perfil medioambiental, social y de gobernanza (ASG) mejor que una cartera neutral. Por término medio, una cartera neutral tendría una calificación de riesgo ASG «media».

No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

- Exclusiones basadas en normas y valores:

El fondo excluyó los emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente o que incumplen de forma grave las normas internacionales, según se detalla a continuación:

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

| Actividad | Umbrales de ingresos |
|---|----------------------|
| Combustibles fósiles y energía nuclear | |
| Extracción de carbón térmico | > 25% |
| Generación de energía térmica de carbón | > 25% |
| Producción de petróleo y gas | > 25% |
| Extracción de arenas bituminosas | > 10% |
| Extracción de energía de esquisto | > 10% |
| Exploración de petróleo y gas en el Ártico | > 10% |
| Generación de energía nuclear | > 50% |
| Armas | |
| Producción de armas controvertidas[1] | > 0% |
| Armas de contratación militar | > 10% |
| Productos y/o servicios relacionados con armas de contratación militar | > 50% |
| Clientes civiles de armas pequeñas (armas de asalto) | > 10% |
| Clientes civiles de armas pequeñas (armas de no asalto) | > 10% |
| Clientes militares/de fuerzas del orden de armas pequeñas | > 25% |
| Componentes clave de armas pequeñas | > 25% |
| Otras actividades controvertidas | |
| Producción de entretenimiento para adultos | > 10% |
| Operaciones de juego | > 10% |
| Desarrollo de plantas y semillas modificadas genéticamente | > 25% |
| Cultivo de plantas y semillas modificadas genéticamente | > 25% |
| Producción de plaguicidas | > 10% |
| Venta al por menor de plaguicidas | > 10% |
| Producción de productos de tabaco | > 10% |
| Exclusiones de empresas por incumplimiento de normas internacionales | Excluidas |
| Empresas que incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción | Sí |
| Exclusiones de países | Excluidas |
| Países (i) incluidos en la lista de Estados patrocinadores del terrorismo, según la definición de la Oficina de Control de Activos Extranjeros de EE. UU.[2] o (ii) sujetos a sanciones financieras de la UE contra bancos centrales y/o empresas de propiedad estatal. | Sí |
| Países (i) clasificados como de muy alto o alto riesgo en el Índice de Estados Frágiles o (ii) afectados por conflictos violentos según la definición del Banco Mundial. | Sí |

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

Países (i) incluidos en la lista de «alerta» del Índice de Estados Frágiles o (ii) sujetos a sanciones relacionadas con la exportación por parte de la UE. Lista de vigilancia[3]

[1] Entre las armas controvertidas se encuentran las minas antipersona, las municiones de racimo, las armas biológicas y químicas (incluido el fósforo blanco) y las armas nucleares procedentes de países no firmantes del Tratado de No Proliferación de Armas Nucleares (TNP).

[2] «Estado patrocinador del terrorismo» es una designación aplicada por el Departamento de Estado de Estados Unidos a países que repetidamente han prestado apoyo a actos de terrorismo internacional.

[3] Además de las exclusiones estrictas, Pictet Asset Management mantiene una lista de vigilancia que incluye países que requieren una diligencia debida adicional por parte de los equipos de inversión antes de invertir.

Para más detalles, consulte la Política de Inversión responsable de Pictet Asset Management (Anexo B).

- Titularidad activa:

El fondo se implicó con la dirección de las empresas sobre cuestiones ASG importantes.

- **¿Cómo se han comportado los indicadores de sostenibilidad?**

Durante el periodo de información, los indicadores de sostenibilidad se comportaron según se indica a continuación:

- **Perfil ASG global**

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos.

Como resultado, el fondo ha conseguido un perfil ambiental, social y de gobernanza (ASG) mejor que el de la cartera neutral.

- **Principal incidencia adversa (PIA)**

El fondo utiliza una combinación de enfoques para considerar y, en la medida de lo posible, mitigar las incidencias adversas materiales de nuestras inversiones en la sociedad y el medioambiente, como emisiones de GEI, contaminación atmosférica, pérdida de biodiversidad, emisiones al agua, residuos peligrosos/radioactivos, derechos humanos, normas laborales, corrupción y soborno, y salud pública.

El grado y la forma en que estas incidencias se tuvieron en cuenta dependieron de factores como el contexto específico de la inversión que provoca la incidencia adversa o la disponibilidad de datos fiables.

De conformidad con la política de exclusión de Pictet Asset Management descrita en la Política de Inversión responsable de la empresa (véase el cuadro anterior para consultar las actividades excluidas y los umbrales de exclusión aplicados), el fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente:

Actividades controvertidas (media ponderada de ingresos de la empresa, en %)*:

| | Fondo (%) | Índice de referencia (%) |
|--|-----------|--------------------------|
| Combustibles fósiles y energía nuclear | 0,06 | 0,00 |
| Armas | 0,00 | 0,00 |
| Otras actividades controvertidas | 0,01 | 0,00 |
| No aplicable: | 20,86 | 0,00 |
| No cubierto: | 1,64 | 100,00 |

* Los combustibles fósiles y la energía nuclear incluyen la extracción de carbón térmico y la generación de electricidad, la producción y extracción de petróleo y gas, la extracción de energía de esquisto, la exploración de petróleo y gas en los mares del Ártico y la generación de energía nuclear. Las armas incluyen la contratación militar (servicios de armas y relacionadas con estas), clientes civiles de armas pequeñas (armas de asalto/no asalto), clientes militares/de las fuerzas y cuerpos de seguridad de armas pequeñas y componentes clave de pequeñas armas. Otras actividades controvertidas incluyen la producción de tabaco, la producción de entretenimiento para adultos, la explotación de juegos de azar, el desarrollo o crecimiento de organismos modificados genéticamente, la producción o venta al por menor de pesticidas. La exposición se basa en datos de terceros y puede no reflejar nuestro punto de vista interno. Pictet Asset Management tiene

Los indicadores de sostenibilidad miden cómo se alcanzan las características medioambientales o sociales que promueve el producto financiero.

plena discreción sobre la aplicación de los criterios de exclusión y se reserva el derecho de apartarse de la información de terceros, según el caso, cuando se considere incorrecta o incompleta.

Fuente: Pictet Asset Management, Sustainalytics.

Además, el fondo excluyó a los emisores que tenían exposición a:

- (i) PIA 10: Incumplimientos de los principios del Pacto Mundial de las Naciones Unidas y las Directrices para Empresas Multinacionales de la Organización para la Cooperación y el Desarrollo Económicos (OCDE).
- (ii) PIA 14: Exposición a armas controvertidas (minas antipersonas, municiones en racimo, armas químicas y armas biológicas)

- **Interacción**

El fondo se implicó con 17 empresas sobre cuestiones ASG (datos a 30.09.2023). Esto incluye diálogos internos, iniciativas de colaboración entre inversores y servicios de implicación de terceros. Para que se considere implicación, el diálogo con una empresa objetivo debe tener un objetivo claro y mensurable en un horizonte temporal predefinido. Es importante señalar que no todas las interacciones rutinarias o de supervisión, aunque impliquen a la alta dirección o al Consejo de administración, se consideran implicaciones en nuestra evaluación.

Fuente: Pictet Asset Management, Sustainalytics.

- **¿... y en comparación con períodos anteriores?**

Esta cuestión se abordará en futuros informes anuales debido a la falta de historial.

- **¿Cuáles han sido los objetivos de las inversiones sostenibles que ha realizado en parte el producto financiero y de qué forma ha contribuido la inversión sostenible a dichos objetivos?**

El fondo no se comprometió a un porcentaje mínimo de inversiones sostenibles.

Sin embargo, *a posteriori*, el fondo invirtió en valores que financian actividades económicas que contribuyeron sustancialmente a objetivos medioambientales y/o sociales como:

Medioambientales

- mitigación del cambio climático o adaptación al mismo
- uso sostenible y protección de los recursos hídricos y marinos
- transición hacia una economía circular
- prevención y control de la contaminación o
- protección y recuperación de la biodiversidad y los ecosistemas

Sociales

- comunidades inclusivas y sostenibles
- nivel de vida adecuado y bienestar para los usuarios finales o
- trabajo digno

Pictet Asset Management utilizó un marco de referencia propio, así como los objetivos de la Taxonomía de la UE, para definir las inversiones sostenibles.

- **¿De qué manera las inversiones sostenibles que el producto financiero ha realizado en parte, no han causado un perjuicio significativo a ningún objetivo de inversión sostenible medioambiental o social?**

Para evitar que las inversiones sostenibles causen un perjuicio significativo a cualquier otro objetivo medioambiental o social, el fondo aplicó los siguientes criterios de selección sobre la base del mejor esfuerzo:

- (i) Exclusiones de emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente (véase la descripción del marco de exclusión de IR).
- (ii) Los emisores asociados a controversias elevadas y graves no se contabilizaron como inversiones sostenibles.

La información se obtuvo de proveedores tercero y/o de análisis interno. La información ASG de terceros proveedores de datos puede haber sido incompleta, inexacta o no estar disponible. Como consecuencia de ello, existía el riesgo de que el Gestor de inversiones evaluará incorrectamente un valor o emisor, dando lugar a la inclusión o exclusión incorrecta de un valor en el fondo. Los datos ASG incompletos, inexactos o no disponibles también pueden actuar como una limitación metodológica a una estrategia de inversión no financiera (como la aplicación de criterios ASG o similares). En los casos identificados, el Gestor de inversiones trató de mitigar este riesgo

Las principales incidencias adversas son las incidencias negativas más importantes de las decisiones de inversión sobre los factores de sostenibilidad en relación con asuntos medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

mediante su propia evaluación. En caso de que las características ASG de un valor mantenido por el fondo cambiaren, dando lugar a la venta del valor, el Gestor de inversiones no acepta responsabilidad alguna en relación con dicho cambio.

● *¿Cómo se han tenido en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?*

Pictet Asset Management realiza un seguimiento de todos los indicadores obligatorios de principales incidencias adversas (incluidos en el Anexo 1 del Reglamento Delegado (UE) 22 / 1288 de la Comisión) cuando disponemos de datos sólidos. Se espera que la calidad de los datos disponibles mejore con el tiempo.

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas de sus inversiones en la sociedad y el medioambiente que se consideran importantes para la estrategia de inversión, mediante un conjunto de decisiones de gestión de cartera, actividades de propiedad activa y exclusión de emisores asociados a conductas o actividades controvertidas. Más información en el informe de PIA de la entidad, disponible en:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&sla=es&bl=PAM>

● *¿Se han ajustado las inversiones sostenibles a las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios rectores de las Naciones Unidas sobre las empresas y los derechos humanos?*

Para garantizar que la inversión sostenible no causara un perjuicio significativo a ningún objetivo de inversión sostenible, el fondo excluyó a las empresas con infracciones elevadas y graves de (i) los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción o (ii) las Líneas Directrices de la OCDE para Empresas Multinacionales, incluidos los asuntos sociales y laborales graves.

La taxonomía de la UE establece el principio de «no causar un perjuicio significativo», según el cual las inversiones que se ajusten a la taxonomía no deben perjudicar significativamente a los objetivos de la taxonomía de la UE, e incluye criterios específicos de la Unión.

El principio de «no perjudicar de forma significativa» se aplica únicamente a las inversiones subyacentes del producto financiero que contemplan los criterios de la UE relativos a actividades económicas sostenibles desde una perspectiva medioambiental. Las inversiones subyacentes al resto del producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas medioambientalmente sostenibles.

Cualquier otra inversión sostenible tampoco debe perjudicar significativamente a ningún objetivo medioambiental o social.

¿Cómo tiene en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas que se consideran importantes para la estrategia de inversión. Entre las incidencias adversas se incluyeron, entre otras, las emisiones de gases de efecto invernadero (GEI), la contaminación atmosférica, la pérdida de biodiversidad, las emisiones al agua, los residuos peligrosos/radioactivos, las cuestiones sociales y laborales, y la corrupción y el soborno, que se abordaron mediante una combinación de:

(i) decisiones de gestión de carteras

El equipo de inversión puntuó las posiciones según una evaluación de los riesgos medioambientales, sociales y de gobernanza como parte del marco de puntuación del fondo. Los gestores de inversiones determinan las puntuaciones sobre una base cualitativa, basándose en el análisis fundamental y en datos cuantitativos ASG, incluidos los datos sobre la Principal incidencia adversa, los datos ASG facilitados por las empresas y los datos proporcionados por terceros proveedores de datos ASG. El proceso de puntuación del equipo de inversión fue un componente clave del proceso de construcción de la cartera del compartimento, determinando las ponderaciones objetivo en la cartera.

(ii) implicación

La interacción con los emisores se realizó mediante conversaciones individuales, reuniones de accionistas/bonistas, giras de inversores y/o conferencias telefónicas. Los objetivos de estas interacciones fueron evaluar una organización, supervisar que su estrategia se estaba aplicando conforme a nuestras expectativas y garantizar que los emisores iban camino de cumplir sus metas y objetivos.

Cuando corresponde, nos implicamos con las empresas en relación con cuestiones ASG importantes, como los objetivos de reducción de los GEI, las mejoras en la gobernanza y diversas controversias medioambientales, sociales y de gobernanza, para asegurarnos de que las entendieran y las abordaran eficazmente a corto, medio y largo plazo. Nuestras actividades de implicación combinaron debates dirigidos a nivel interno, iniciativas de colaboración con inversores institucionales y servicios de implicación externos.

(iii) exclusión de emisores asociados a conductas o actividades controvertidas

El fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se definen en la Política de Inversión responsable de la Pictet Asset Management y/o (ii) empresas que infringieron gravemente los principios del Pacto Mundial de la ONU sobre derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción y las armas controvertidas.

¿Cuáles han sido las inversiones principales de este producto financiero?

La lista incluye las inversiones que constituyen la mayor parte de las inversiones del producto financiero durante el período de referencia, que es: 01.10.2022 - 30.09.2023

| INVERSIONES DE MAYOR VOLUMEN | SECTOR | % DE ACTIVOS | PAÍS |

Fuente: Pictet Asset Management, Merrill Lynch.

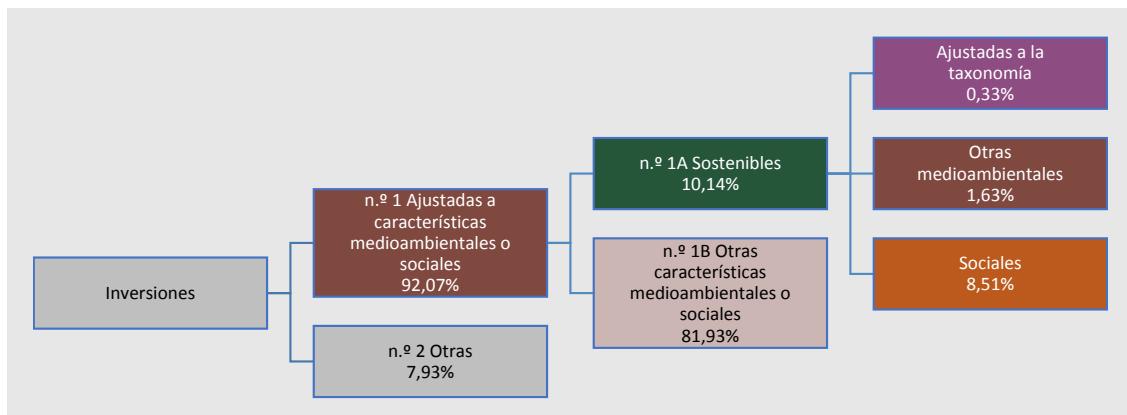

¿Cuál ha sido la proporción de inversiones relacionadas con la sostenibilidad?

10,14%

● ¿Cuál ha sido la asignación de activos?

El fondo se ajustó en un 92,07% con características medioambientales o sociales (n.º 1 Ajustadas a características medioambientales o sociales) y tuvo hasta un 7,93% invertido en la categoría Otras (n.º 2 Otras). El 10,14% se asignó a inversiones sostenibles (n.º 1A Sostenibles) y el resto se invirtió en inversiones ajustadas a otras características medioambientales o sociales (n.º 1B Otras características medioambientales o sociales).

n.º 1 Ajustadas a características medioambientales o sociales incluye las inversiones del producto financiero utilizadas para lograr las características medioambientales o sociales que promueve el producto financiero.

n.º 2 Otras incluye el resto de inversiones del producto financiero que ni se ajustan a las características medioambientales o sociales ni pueden considerarse inversiones sostenibles.

La categoría n.º 1 Ajustadas a características medioambientales o sociales abarca:

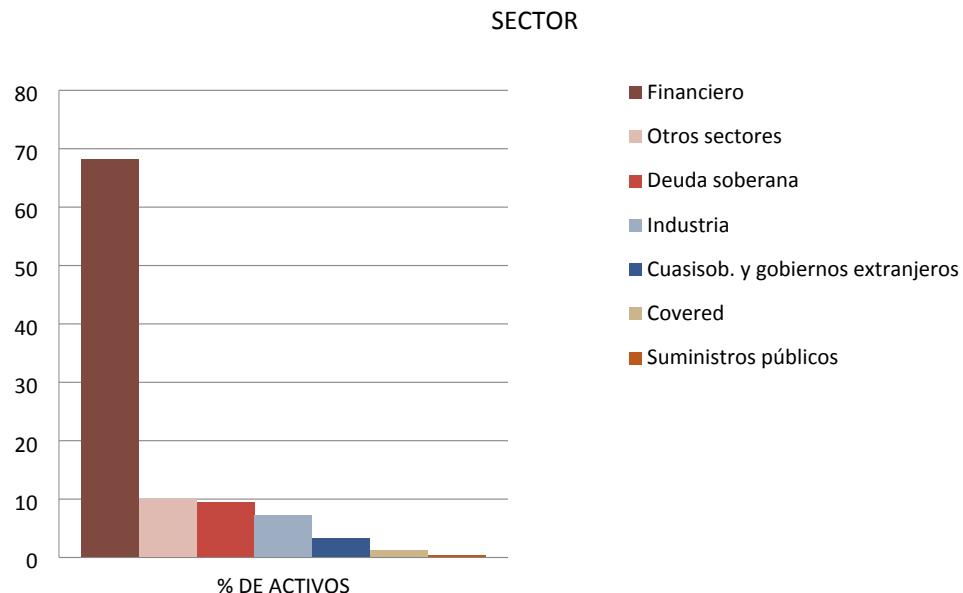

- la subcategoría n.º 1A Sostenibles, que abarca las inversiones sostenibles con objetivos medioambientales o sociales.
- la subcategoría n.º 1B Otras características medioambientales o sociales, que abarca inversiones ajustadas a las características medioambientales o sociales que no pueden considerarse inversiones sostenibles.

Notas:

- Las inversiones «n.º 1A Sostenibles», «Otras medioambientales» y «Sociales» se calcularon sobre una base de aprobado/suspenso. Incluyen bonos certificados (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.
- Las inversiones ajustadas a la taxonomía verde de la UE se calculan ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a la mitigación del cambio climático y la adaptación al mismo) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.
- A falta de una taxonomía social de la UE, Pictet ha desarrollado un marco de taxonomía social propio. El marco se basa en basado en el Informe sobre taxonomía social publicado por la Plataforma de Finanzas Sostenibles de la UE en 2022. Las actividades admisibles se definen como bienes y servicios beneficiosos desde el punto de vista social que contribuyen sustancialmente a uno de los tres objetivos sociales siguientes: (1) comunidades inclusivas y sostenibles, (2) nivel de vida adecuado y bienestar para los usuarios finales y (3) trabajo digno.

Fuente: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RBICS.

● ¿En qué sectores económicos se han realizado las inversiones?

Fuente: Pictet Asset Management, Merrill Lynch.

Estamos evaluando la disponibilidad y la calidad de los datos que nos permitirían divulgar información más granular en futuros informes sobre los sectores y subsectores de la economía que obtienen ingresos a partir de la exploración, la minería, la extracción, la producción, el procesamiento, el almacenamiento, el refinado o la distribución, incluidos el transporte, el almacenamiento y el comercio, de combustibles fósiles, según se definen en el artículo 2, punto (62), del Reglamento (UE) 2018/1999 del Parlamento Europeo y del Consejo.

¿En qué medida se ajustaban las inversiones sostenibles con un objetivo medioambiental a la taxonomía de la UE?

El fondo realizó inversiones en actividades económicas que contribuyeron a los dos primeros objetivos medioambientales (mitigación del cambio climático y adaptación a este), según lo establecido en el artículo 9 del Reglamento (UE) 2020/852.

Las inversiones ajustadas a la taxonomía de la UE se calcularon ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a objetivos medioambientales relevantes) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.

Los datos de ajuste a la Taxonomía verde de la UE proceden de informes públicos. Los cálculos también pueden incluir estimaciones en un número limitado de casos en los que no se disponía de datos sobre la alineación con la Taxonomía verde de la UE. Las estimaciones se realizaron sobre la base del mejor esfuerzo y siguiendo un planteamiento conservador para obtener un resultado prudente.

Los procedimientos de control se han aplicado para verificar en todo momento el cumplimiento del artículo 3 del Reglamento sobre taxonomía de la UE.

Los datos facilitados no han sido verificados por un auditor externo ni revisados por un tercero independiente.

● ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil o la energía nuclear que cumplían con la taxonomía de la UE¹?

Sí:

En gas fósil En energía nuclear

No

La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permite ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

Para ajustarse a la taxonomía de la UE, los criterios correspondientes al **gas fósil** incluyen limitaciones de emisiones y el paso a la energía renovable o combustibles bajos en carbono de aquí al fin de 2035. Por lo que

¹ Las actividades relacionadas con el gas fósil o la energía nuclear solo cumplirán la taxonomía de la UE cuando contribuyan a limitar el cambio climático («mitigación del cambio climático») y no perjudiquen significativamente ningún objetivo de la taxonomía de la UE (véase la nota explicativa en el margen izquierdo). Los criterios completos correspondientes a las actividades económicas del gas fósil y la energía nuclear que se ajustan a la taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

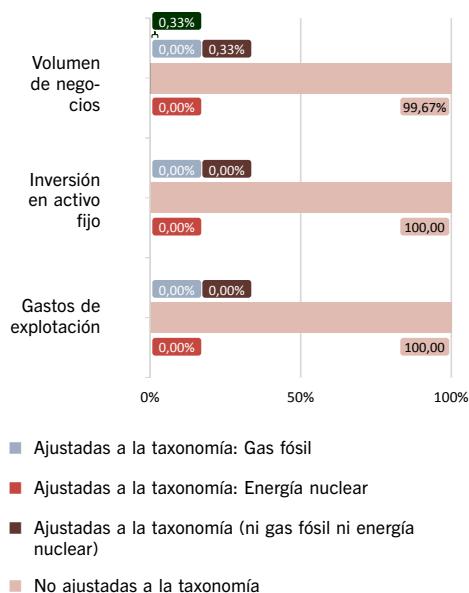

respecta a la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las actividades que se ajustan a la taxonomía se expresan como un porcentaje de:

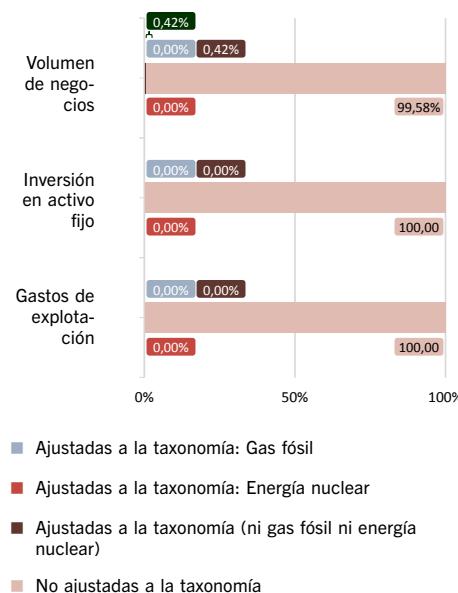

- el **volumen de negocios**, que refleja el «carácter ecológico» de las empresas en las que se invierte en la actualidad;
- la **inversión en activo fijo**, que muestra las inversiones ecológicas realizadas por las empresas en las que se invierte, pertinentes para la transición a una economía verde;
- los **gastos de explotación**, que reflejan las actividades operativas ecológicas de las empresas en las que se invierte.

Los gráficos que figuran a continuación muestran en verde el porcentaje de inversiones que se ajustaban a la taxonomía de la UE. Dado que no existe una metodología adecuada para determinar la adaptación a la taxonomía de los bonos soberanos, el primer gráfico muestra la adaptación a la taxonomía correspondiente para todas las inversiones del producto financiero, incluidos los bonos soberanos, mientras que el segundo gráfico muestra la adaptación a la taxonomía solo en relación con las inversiones del producto financiero distintas de los bonos soberanos.*

1. Ajuste a la taxonomía de las inversiones incluidos los bonos soberanos*

2. Ajuste a la taxonomía de las inversiones excluidos los bonos soberanos*

Este gráfico representa el 79,14% de las inversiones totales.

* A efectos de estos gráficos, los «bonos soberanos» incluyen todas las exposiciones soberanas

Nota:

Utilizamos los ingresos como medida clave para establecer la asignación de objetivos y el ajuste real con la taxonomía de la UE debido a la disponibilidad limitada y a la falta de datos fiables para los gastos de explotación y la inversión en activo fijo.

Fuente: Pictet Asset Management.

● ¿Cuál ha sido la proporción de las inversiones realizadas en actividades de transición y facilitadoras?

La proporción de inversiones realizadas en:

- Actividades de transición: No aplicable*
- Actividades de facilitadoras: No aplicable*

* La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permiten ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

● ¿Qué porcentaje de inversiones se han ajustado a la taxonomía de la UE en comparación con los períodos de referencia anteriores?

No aplicable.

¿Cuál ha sido la proporción de inversiones sostenibles con un objetivo medioambiental no ajustadas a la taxonomía de la UE?

1,63%

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta los criterios para las actividades económicas medioambientalmente sostenibles con arreglo al Reglamento (UE) 2020/852.

Estas inversiones sostenibles no se ajustan a la Taxonomía de la UE porque sus actividades económicas o bien (i) no están cubiertas por la Taxonomía de la UE, o bien (ii) no cumplen los criterios técnicos de selección para lograr una contribución sustancial en el sentido de la Taxonomía de la UE.

¿Cuál ha sido la proporción de inversiones socialmente sostenibles?

8,51%

¿Qué inversiones se han incluido en «otras» y cuál ha sido su propósito? ¿ha habido garantías medioambientales o sociales mínimas?

Las «otras» inversiones del fondo incluían posiciones de tesorería mantenidas principalmente para satisfacer los objetivos diarios de liquidez y gestión de riesgos permitidos y previstos por la política de inversión del fondo. Cuando sea preciso, se aplicarán salvaguardias medioambientales o sociales mínimas a los valores subyacentes.

¿Qué medidas se han adoptado para cumplir las características medioambientales o sociales durante el período de referencia?

Durante el periodo de referencia, se alcanzó el objetivo de inversión sostenible siguiendo la estrategia de inversión y respetando los elementos vinculantes.

Los elementos vinculantes del fondo son:

- Exclusión de emisores que:
 - están relacionados con armas nucleares de países que no han firmado el Tratado sobre la No Proliferación de Armas Nucleares (TNP) y otras armas controvertidas
 - obtienen una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, como la extracción de carbón térmico y la generación de electricidad, la exploración y producción no convencional de petróleo y gas, la producción de petróleo y gas convencional, la generación de energía nuclear, las armas convencionales y armas pequeñas, la contratación militar de armas y productos y servicios relacionados con las armas, la producción de tabaco, la producción de entretenimiento para adultos, las actividades del juego, el desarrollo y crecimiento de organismos modificados genéticamente, la producción y comercialización de pesticidas. Para más detalles sobre los umbrales de exclusión aplicables a las actividades anteriores, consulte la Política de Inversión responsable de Pictet Asset Management.
 - incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción
 - sobreponer los valores con riesgos de sostenibilidad bajos
- análisis de criterios ASG de los valores admisibles que abarca al menos el 80% del patrimonio neto o el número de emisores incluidos en la cartera

Además, el fondo se implicó con 17 empresas a 30.09.2023.

¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

● ¿Cómo difería el índice de referencia de un índice general de mercado?

No aplicable.

Los índices de referencia son índices para medir si el producto financiero logra las características

- **¿Cómo se ha comportado este producto financiero con respecto a los indicadores de sostenibilidad para determinar la conformidad del índice de referencia con las características medioambientales o sociales que promueve?**
No aplicable.
- **¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?**
No aplicable.
- **¿Cómo se ha comportado este producto financiero en comparación con el índice general de mercado?**
No aplicable.

Identificador de entidad jurídica: **549300M2254XJ2ZJD015**

CARACTERÍSTICAS MEDIOAMBIENTALES O SOCIALES

Inversión sostenible
significa una inversión en una actividad económica que contribuye a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo a ningún objetivo medioambiental o social y que las empresas en las que se invierte sigan prácticas de buena gobernanza.

La **taxonomía de la UE** es un sistema de clasificación previsto en el Reglamento (UE) 2020/852 por el que se establece una lista de **actividades económicas medioambientalmente sostenibles**. Dicho Reglamento no prevé una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental pueden ajustarse, o no, a la taxonomía.

| ¿ESTE PRODUCTO FINANCIERO TENÍA UN OBJETIVO DE INVERSIÓN SOSTENIBLE? | | | |
|--|--|--|--|
| <input checked="" type="checkbox"/> Si | | <input checked="" type="checkbox"/> No | |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo medioambiental: ____% | <input checked="" type="checkbox"/> | Promovió características medioambientales o sociales y, aunque no tenía como objetivo una inversión sostenible, tuvo un porcentaje del 13,28% de inversiones sostenibles |
| <input type="checkbox"/> | en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> | con un objetivo medioambiental en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> | en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> | con un objetivo medioambiental en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo social: ____% | <input type="checkbox"/> | con un objetivo social |
| <input type="checkbox"/> | | <input type="checkbox"/> | Ha promovido características medioambientales o sociales, pero no ha realizado ninguna inversión sostenible |

Nota: Las inversiones sostenibles se calcularon sobre una base de aprobado/suspenso, incluyendo bonos con etiqueta (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% (medida por ingresos, EBIT, valor de empresa o indicadores similares) a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.

¿En qué grado se han cumplido las características medioambientales o sociales que promueve este producto financiero?

Las características medioambientales y sociales de este producto financiero se promovieron utilizando:

- Inclinación positiva:

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos, lo que resulta en un perfil medioambiental, social y de gobernanza (ASG) mejor que una cartera neutral. Por término medio, una cartera neutral tendría una calificación de riesgo ASG «media».

No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

- Exclusiones basadas en normas y valores:

El fondo excluyó los emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente o que incumplen de forma grave las normas internacionales, según se detalla a continuación:

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

| Actividad | Umbrales de ingresos |
|---|----------------------|
| Combustibles fósiles y energía nuclear | |
| Extracción de carbón térmico | > 25% |
| Generación de energía térmica de carbón | > 25% |
| Producción de petróleo y gas | > 25% |
| Extracción de arenas bituminosas | > 10% |
| Extracción de energía de esquisto | > 10% |
| Exploración de petróleo y gas en el Ártico | > 10% |
| Generación de energía nuclear | > 50% |
| Armas | |
| Producción de armas controvertidas[1] | > 0% |
| Armas de contratación militar | > 10% |
| Productos y/o servicios relacionados con armas de contratación militar | > 50% |
| Clientes civiles de armas pequeñas (armas de asalto) | > 10% |
| Clientes civiles de armas pequeñas (armas de no asalto) | > 10% |
| Clientes militares/de fuerzas del orden de armas pequeñas | > 25% |
| Componentes clave de armas pequeñas | > 25% |
| Otras actividades controvertidas | |
| Producción de entretenimiento para adultos | > 10% |
| Operaciones de juego | > 10% |
| Desarrollo de plantas y semillas modificadas genéticamente | > 25% |
| Cultivo de plantas y semillas modificadas genéticamente | > 25% |
| Producción de plaguicidas | > 10% |
| Venta al por menor de plaguicidas | > 10% |
| Producción de productos de tabaco | > 10% |
| Exclusiones de empresas por incumplimiento de normas internacionales | Excluidas |
| Empresas que incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción | Sí |
| Exclusiones de países | Excluidas |
| Países (i) incluidos en la lista de Estados patrocinadores del terrorismo, según la definición de la Oficina de Control de Activos Extranjeros de EE. UU.[2] o (ii) sujetos a sanciones financieras de la UE contra bancos centrales y/o empresas de propiedad estatal. | Sí |
| Países (i) clasificados como de muy alto o alto riesgo en el Índice de Estados Frágiles o (ii) afectados por conflictos violentos según la definición del Banco Mundial. | Sí |

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

Países (i) incluidos en la lista de «alerta» del Índice de Estados Frágiles o (ii) sujetos a sanciones relacionadas con la exportación por parte de la UE. Lista de vigilancia[3]

[1] Entre las armas controvertidas se encuentran las minas antipersona, las municiones de racimo, las armas biológicas y químicas (incluido el fósforo blanco) y las armas nucleares procedentes de países no firmantes del Tratado de No Proliferación de Armas Nucleares (TNP).

[2] «Estado patrocinador del terrorismo» es una designación aplicada por el Departamento de Estado de Estados Unidos a países que repetidamente han prestado apoyo a actos de terrorismo internacional.

[3] Además de las exclusiones estrictas, Pictet Asset Management mantiene una lista de vigilancia que incluye países que requieren una diligencia debida adicional por parte de los equipos de inversión antes de invertir.

Para más detalles, consulte la Política de Inversión responsable de Pictet Asset Management (Anexo B).

- Titularidad activa:

El fondo se implicó con la dirección de las empresas sobre cuestiones ASG importantes.

- **¿Cómo se han comportado los indicadores de sostenibilidad?**

Durante el periodo de información, los indicadores de sostenibilidad se comportaron según se indica a continuación:

- **Perfil ASG global**

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos.

Como resultado, el fondo ha conseguido un perfil ambiental, social y de gobernanza (ASG) mejor que el de la cartera neutral.

- **Principal incidencia adversa (PIA)**

El fondo utiliza una combinación de enfoques para considerar y, en la medida de lo posible, mitigar las incidencias adversas materiales de nuestras inversiones en la sociedad y el medioambiente, como emisiones de GEI, contaminación atmosférica, pérdida de biodiversidad, emisiones al agua, residuos peligrosos/radioactivos, derechos humanos, normas laborales, corrupción y soborno, y salud pública.

El grado y la forma en que estas incidencias se tuvieron en cuenta dependieron de factores como el contexto específico de la inversión que provoca la incidencia adversa o la disponibilidad de datos fiables.

De conformidad con la política de exclusión de Pictet Asset Management descrita en la Política de Inversión responsable de la empresa (véase el cuadro anterior para consultar las actividades excluidas y los umbrales de exclusión aplicados), el fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente:

Actividades controvertidas (media ponderada de ingresos de la empresa, en %)*:

| | Fondo (%) | Índice de referencia (%) |
|--|-----------|--------------------------|
| Combustibles fósiles y energía nuclear | 0,09 | 0,00 |
| Armas | 0,00 | 0,00 |
| Otras actividades controvertidas | 0,01 | 0,00 |
| No aplicable: | 21,67 | 0,00 |
| No cubierto: | 2,74 | 0,00 |

* Los combustibles fósiles y la energía nuclear incluyen la extracción de carbón térmico y la generación de electricidad, la producción y extracción de petróleo y gas, la extracción de energía de esquisto, la exploración de petróleo y gas en los mares del Ártico y la generación de energía nuclear. Las armas incluyen la contratación militar (servicios de armas y relacionadas con estas), clientes civiles de armas pequeñas (armas de asalto/no asalto), clientes militares/de las fuerzas y cuerpos de seguridad de armas pequeñas y componentes clave de pequeñas armas. Otras actividades controvertidas incluyen la producción de tabaco, la producción de entretenimiento para adultos, la explotación de juegos de azar, el desarrollo o crecimiento de organismos modificados genéticamente, la producción o venta al por menor de pesticidas. La exposición se basa en datos de terceros y puede no reflejar nuestro punto de vista interno. Pictet Asset Management tiene

Los indicadores de sostenibilidad miden cómo se alcanzan las características medioambientales o sociales que promueve el producto financiero.

plena discreción sobre la aplicación de los criterios de exclusión y se reserva el derecho de apartarse de la información de terceros, según el caso, cuando se considere incorrecta o incompleta.

Fuente: Pictet Asset Management, Sustainalytics.

Además, el fondo excluyó a los emisores que tenían exposición a:

- (i) PIA 10: Incumplimientos de los principios del Pacto Mundial de las Naciones Unidas y las Directrices para Empresas Multinacionales de la Organización para la Cooperación y el Desarrollo Económicos (OCDE).
- (ii) PIA 14: Exposición a armas controvertidas (minas antipersonas, municiones en racimo, armas químicas y armas biológicas)

- **Interacción**

El fondo se implicó con 12 empresas sobre cuestiones ASG (datos a 30.09.2023). Esto incluye diálogos internos, iniciativas de colaboración entre inversores y servicios de implicación de terceros. Para que se considere implicación, el diálogo con una empresa objetivo debe tener un objetivo claro y mensurable en un horizonte temporal predefinido. Es importante señalar que no todas las interacciones rutinarias o de supervisión, aunque impliquen a la alta dirección o al Consejo de administración, se consideran implicaciones en nuestra evaluación.

Fuente: Pictet Asset Management, Sustainalytics.

- **¿... y en comparación con períodos anteriores?**

Esta cuestión se abordará en futuros informes anuales debido a la falta de historial.

- **¿Cuáles han sido los objetivos de las inversiones sostenibles que ha realizado en parte el producto financiero y de qué forma ha contribuido la inversión sostenible a dichos objetivos?**

El fondo no se comprometió a un porcentaje mínimo de inversiones sostenibles.

Sin embargo, *a posteriori*, el fondo invirtió en valores que financiaban actividades económicas que contribuyeron sustancialmente a objetivos medioambientales y/o sociales como:

Medioambientales

- mitigación del cambio climático o adaptación al mismo
- uso sostenible y protección de los recursos hídricos y marinos
- transición hacia una economía circular
- prevención y control de la contaminación o
- protección y recuperación de la biodiversidad y los ecosistemas

Sociales

- comunidades inclusivas y sostenibles
- nivel de vida adecuado y bienestar para los usuarios finales o
- trabajo digno

Pictet Asset Management utilizó un marco de referencia propio, así como los objetivos de la Taxonomía de la UE, para definir las inversiones sostenibles.

- **¿De qué manera las inversiones sostenibles que el producto financiero ha realizado en parte, no han causado un perjuicio significativo a ningún objetivo de inversión sostenible medioambiental o social?**

Para evitar que las inversiones sostenibles causen un perjuicio significativo a cualquier otro objetivo medioambiental o social, el fondo aplicó los siguientes criterios de selección sobre la base del mejor esfuerzo:

- (i) Exclusiones de emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente (véase la descripción del marco de exclusión de IR).
- (ii) Los emisores asociados a controversias elevadas y graves no se contabilizaron como inversiones sostenibles.

La información se obtuvo de proveedores tercero y/o de análisis interno. La información ASG de terceros proveedores de datos puede haber sido incompleta, inexacta o no estar disponible. Como consecuencia de ello, existía el riesgo de que el Gestor de inversiones evaluará incorrectamente un valor o emisor, dando lugar a la inclusión o exclusión incorrecta de un valor en el fondo. Los datos ASG incompletos, inexactos o no disponibles también pueden actuar como una limitación metodológica a una estrategia de inversión no financiera (como la aplicación de criterios ASG o similares). En los casos identificados, el Gestor de inversiones trató de mitigar este riesgo

Las principales incidencias adversas son las incidencias negativas más importantes de las decisiones de inversión sobre los factores de sostenibilidad en relación con asuntos medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

mediante su propia evaluación. En caso de que las características ASG de un valor mantenido por el fondo cambiaren, dando lugar a la venta del valor, el Gestor de inversiones no acepta responsabilidad alguna en relación con dicho cambio.

● *¿Cómo se han tenido en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?*

Pictet Asset Management realiza un seguimiento de todos los indicadores obligatorios de principales incidencias adversas (incluidos en el Anexo 1 del Reglamento Delegado (UE) 22 / 1288 de la Comisión) cuando disponemos de datos sólidos. Se espera que la calidad de los datos disponibles mejore con el tiempo.

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas de sus inversiones en la sociedad y el medioambiente que se consideran importantes para la estrategia de inversión, mediante un conjunto de decisiones de gestión de cartera, actividades de propiedad activa y exclusión de emisores asociados a conductas o actividades controvertidas. Más información en el informe de PIA de la entidad, disponible en:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&sla=es&bl=PAM>

● *¿Se han ajustado las inversiones sostenibles a las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios rectores de las Naciones Unidas sobre las empresas y los derechos humanos?*

Para garantizar que la inversión sostenible no causara un perjuicio significativo a ningún objetivo de inversión sostenible, el fondo excluyó a las empresas con infracciones elevadas y graves de (i) los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción o (ii) las Líneas Directrices de la OCDE para Empresas Multinacionales, incluidos los asuntos sociales y laborales graves.

La taxonomía de la UE establece el principio de «no causar un perjuicio significativo», según el cual las inversiones que se ajusten a la taxonomía no deben perjudicar significativamente a los objetivos de la taxonomía de la UE, e incluye criterios específicos de la Unión.

El principio de «no perjudicar de forma significativa» se aplica únicamente a las inversiones subyacentes del producto financiero que contemplan los criterios de la UE relativos a actividades económicas sostenibles desde una perspectiva medioambiental. Las inversiones subyacentes al resto del producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas medioambientalmente sostenibles.

Cualquier otra inversión sostenible tampoco debe perjudicar significativamente a ningún objetivo medioambiental o social.

¿Cómo tiene en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas que se consideran importantes para la estrategia de inversión. Entre las incidencias adversas se incluyeron, entre otras, las emisiones de gases de efecto invernadero (GEI), la contaminación atmosférica, la pérdida de biodiversidad, las emisiones al agua, los residuos peligrosos/radioactivos, las cuestiones sociales y laborales, y la corrupción y el soborno, que se abordaron mediante una combinación de:

(i) decisiones de gestión de carteras

El equipo de inversión puntuó las posiciones según una evaluación de los riesgos medioambientales, sociales y de gobernanza como parte del marco de puntuación del fondo. Los gestores de inversiones determinan las puntuaciones sobre una base cualitativa, basándose en el análisis fundamental y en datos cuantitativos ASG, incluidos los datos sobre la Principal incidencia adversa, los datos ASG facilitados por las empresas y los datos proporcionados por terceros proveedores de datos ASG. El proceso de puntuación del equipo de inversión fue un componente clave del proceso de construcción de la cartera del compartimento, determinando las ponderaciones objetivo en la cartera.

(ii) implicación

La interacción con los emisores se realizó mediante conversaciones individuales, reuniones de accionistas/bonistas, giras de inversores y/o conferencias telefónicas. Los objetivos de estas interacciones fueron evaluar una organización, supervisar que su estrategia se estaba aplicando conforme a nuestras expectativas y garantizar que los emisores iban camino de cumplir sus metas y objetivos.

Cuando corresponde, nos implicamos con las empresas en relación con cuestiones ASG importantes, como los objetivos de reducción de los GEI, las mejoras en la gobernanza y diversas controversias medioambientales, sociales y de gobernanza, para asegurarnos de que las entendieran y las abordaran eficazmente a corto, medio y largo plazo. Nuestras actividades de implicación combinaron debates dirigidos a nivel interno, iniciativas de colaboración con inversores institucionales y servicios de implicación externos.

(iii) exclusión de emisores asociados a conductas o actividades controvertidas

El fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se definen en la Política de Inversión responsable de la Pictet Asset Management y/o (ii) empresas que infringieron gravemente los principios del Pacto Mundial de la ONU sobre derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción y las armas controvertidas.

¿Cuáles han sido las inversiones principales de este producto financiero?

La lista incluye las inversiones que constituyen la mayor parte de las inversiones del producto financiero durante el período de referencia, que es: 01.10.2022 - 30.09.2023

| INVERSIONES DE MAYOR VOLUMEN | SECTOR | % DE ACTIVOS | PAÍS |

Fuente: Pictet Asset Management, Merrill Lynch.

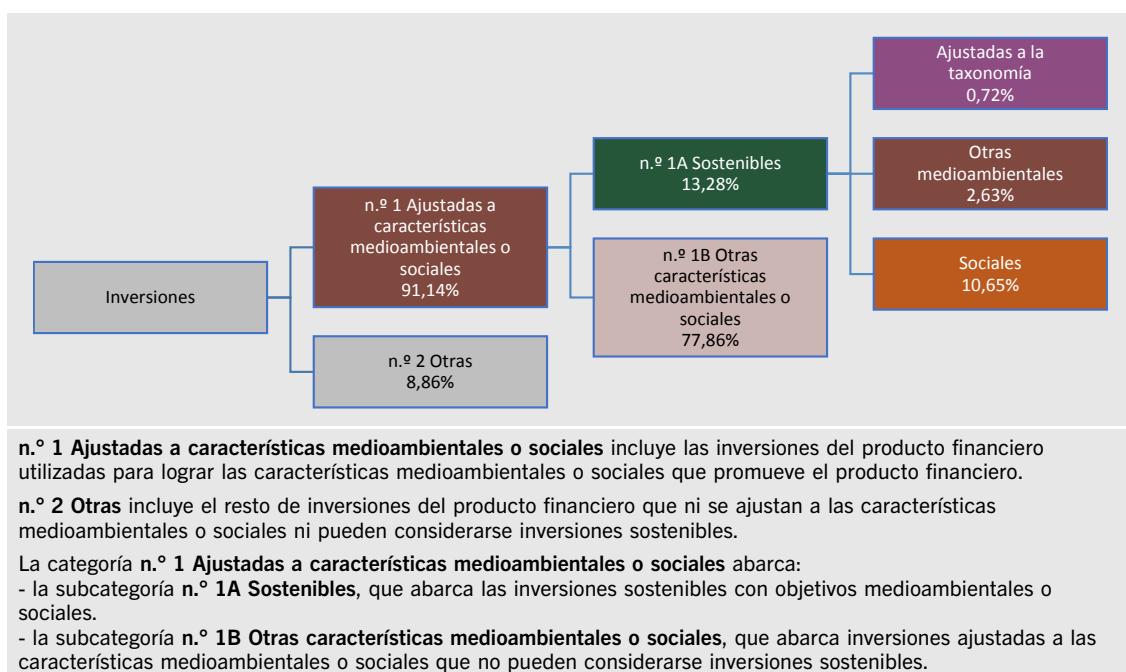

¿Cuál ha sido la proporción de inversiones relacionadas con la sostenibilidad?

13,28%

● ¿Cuál ha sido la asignación de activos?

El fondo se ajustó en un 91,14% con características medioambientales o sociales (n.º 1 Ajustadas a características medioambientales o sociales) y tuvo hasta un 8,86% invertido en la categoría Otras (n.º 2 Otras). El 13,28% se asignó a inversiones sostenibles (n.º 1A Sostenibles) y el resto se invirtió en inversiones ajustadas a otras características medioambientales o sociales (n.º 1B Otras características medioambientales o sociales).

La asignación de activos describe el porcentaje de inversiones en activos específicos.

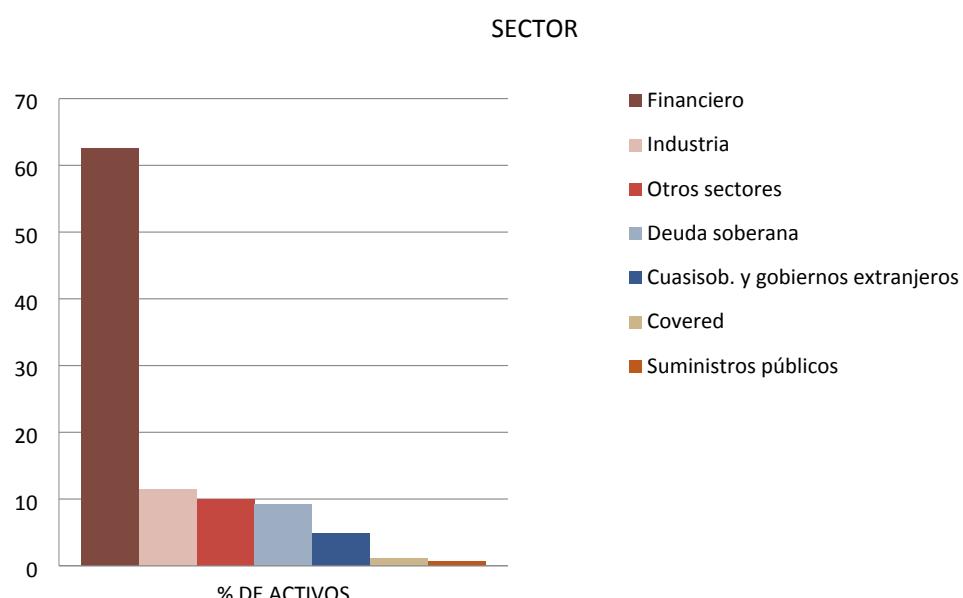

Notas:

- Las inversiones «n.º 1A Sostenibles», «Otras medioambientales» y «Sociales» se calcularon sobre una base de aprobado/suspensión. Incluyen bonos certificados (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.
- Las inversiones ajustadas a la taxonomía verde de la UE se calculan ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a la mitigación del cambio climático y la adaptación al mismo) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspensión.
- A falta de una taxonomía social de la UE, Pictet ha desarrollado un marco de taxonomía social propio. El marco se basa en el Informe sobre taxonomía social publicado por la Plataforma de Finanzas Sostenibles de la UE en 2022. Las actividades admisibles se definen como bienes y servicios beneficiosos desde el punto de vista social que contribuyen sustancialmente a uno de los tres objetivos sociales siguientes: (1) comunidades inclusivas y sostenibles, (2) nivel de vida adecuado y bienestar para los usuarios finales y (3) trabajo digno.

Fuente: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RB/CS.

● ¿En qué sectores económicos se han realizado las inversiones?

Fuente: Pictet Asset Management, Merrill Lynch.

Estamos evaluando la disponibilidad y la calidad de los datos que nos permitirían divulgar información más granular en futuros informes sobre los sectores y subsectores de la economía que obtienen ingresos a partir de la exploración, la minería, la extracción, la producción, el procesamiento, el almacenamiento, el refinado o la distribución, incluidos el transporte, el almacenamiento y el comercio, de combustibles fósiles, según se definen en el artículo 2, punto (62), del Reglamento (UE) 2018/1999 del Parlamento Europeo y del Consejo.

¿En qué medida se ajustaban las inversiones sostenibles con un objetivo medioambiental a la taxonomía de la UE?

El fondo realizó inversiones en actividades económicas que contribuyeron a los dos primeros objetivos medioambientales (mitigación del cambio climático y adaptación a este), según lo establecido en el artículo 9 del Reglamento (UE) 2020/852.

Las inversiones ajustadas a la taxonomía de la UE se calcularon ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a objetivos medioambientales relevantes) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.

Los datos de ajuste a la Taxonomía verde de la UE proceden de informes públicos. Los cálculos también pueden incluir estimaciones en un número limitado de casos en los que no se disponía de datos sobre la alineación con la Taxonomía verde de la UE. Las estimaciones se realizaron sobre la base del mejor esfuerzo y siguiendo un planteamiento conservador para obtener un resultado prudente.

Los procedimientos de control se han aplicado para verificar en todo momento el cumplimiento del artículo 3 del Reglamento sobre taxonomía de la UE.

Los datos facilitados no han sido verificados por un auditor externo ni revisados por un tercero independiente.

● ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil o la energía nuclear que cumplían con la taxonomía de la UE¹?

Sí:

En gas fósil En energía nuclear

No

La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permite ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

Para ajustarse a la taxonomía de la UE, los criterios correspondientes al **gas fósil** incluyen limitaciones de emisiones y el paso a la energía renovable o combustibles bajos en carbono de aquí al fin de 2035. Por lo que respecta a la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

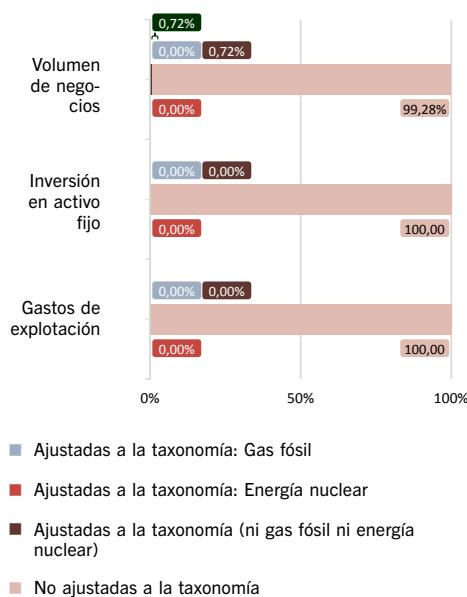

¹ Las actividades relacionadas con el gas fósil o la energía nuclear solo cumplirán la taxonomía de la UE cuando contribuyan a limitar el cambio climático («mitigación del cambio climático») y no perjudiquen significativamente ningún objetivo de la taxonomía de la UE (véase la nota explicativa en el margen izquierdo). Los criterios completos correspondientes a las actividades económicas del gas fósil y la energía nuclear que se ajustan a la taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

Las actividades que se ajustan a la taxonomía se expresan como un porcentaje de:

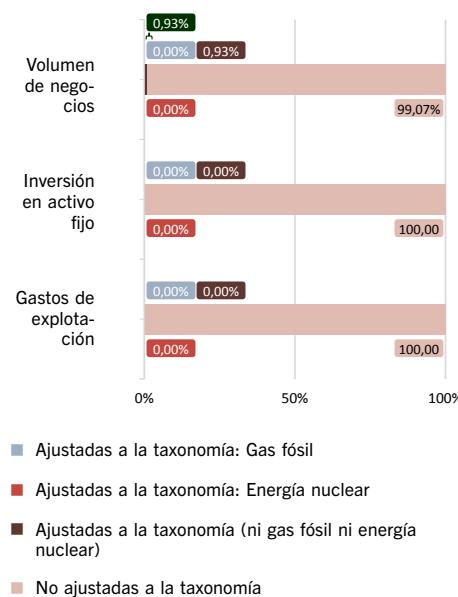

- el **volumen de negocios**, que refleja el «carácter ecológico» de las empresas en las que se invierte en la actualidad;
- la **inversión en activo fijo**, que muestra las inversiones ecológicas realizadas por las empresas en las que se invierte, pertinentes para la transición a una economía verde;
- los **gastos de explotación**, que reflejan las actividades operativas ecológicas de las empresas en las que se invierte.

Los gráficos que figuran a continuación muestran en verde el porcentaje de inversiones que se ajustaban a la taxonomía de la UE. Dado que no existe una metodología adecuada para determinar la adaptación a la taxonomía de los bonos soberanos*, el primer gráfico muestra la adaptación a la taxonomía correspondiente para todas las inversiones del producto financiero, incluidos los bonos soberanos, mientras que el segundo gráfico muestra la adaptación a la taxonomía solo en relación con las inversiones del producto financiero distintas de los bonos soberanos.

1. Ajuste a la taxonomía de las inversiones incluidos los bonos soberanos*

2. Ajuste a la taxonomía de las inversiones excluidos los bonos soberanos*

Este gráfico representa el 78,33% de las inversiones totales.

* A efectos de estos gráficos, los «bonos soberanos» incluyen todas las exposiciones soberanas

Nota:

Utilizamos los ingresos como medida clave para establecer la asignación de objetivos y el ajuste real con la taxonomía de la UE debido a la disponibilidad limitada y a la falta de datos fiables para los gastos de explotación y la inversión en activo fijo.

Fuente: Pictet Asset Management.

● ¿Cuál ha sido la proporción de las inversiones realizadas en actividades de transición y facilitadoras?

La proporción de inversiones realizadas en:

- Actividades de transición: No aplicable*
- Actividades de facilitadoras: No aplicable*

* La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permiten ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

● ¿Qué porcentaje de inversiones se han ajustado a la taxonomía de la UE en comparación con los períodos de referencia anteriores?

No aplicable.

¿Cuál ha sido la proporción de inversiones sostenibles con un objetivo medioambiental no ajustadas a la taxonomía de la UE?

2,63%

Estas inversiones sostenibles no se ajustan a la Taxonomía de la UE porque sus actividades económicas o bien (i) no están cubiertas por la Taxonomía de la UE, o bien (ii) no cumplen los criterios técnicos de selección para lograr una contribución sustancial en el sentido de la Taxonomía de la UE.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta

¿Cuál ha sido la proporción de inversiones socialmente sostenibles?

10,65%

¿Qué inversiones se han incluido en «otras» y cuál ha sido su propósito? ¿ha habido garantías medioambientales o sociales mínimas?

Las «otras» inversiones del fondo incluían posiciones de tesorería mantenidas principalmente para satisfacer los objetivos diarios de liquidez y gestión de riesgos permitidos y previstos por la política de inversión del fondo. Cuando sea preciso, se aplicarán salvaguardias medioambientales o sociales mínimas a los valores subyacentes.

¿Qué medidas se han adoptado para cumplir las características medioambientales o sociales durante el período de referencia?

Durante el periodo de referencia, se alcanzó el objetivo de inversión sostenible siguiendo la estrategia de inversión y respetando los elementos vinculantes.

Los elementos vinculantes del fondo son:

- Exclusión de emisores que:
 - están relacionados con armas nucleares de países que no han firmado el Tratado sobre la No Proliferación de Armas Nucleares (TNP) y otras armas controvertidas
 - obtienen una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, como la extracción de carbón térmico y la generación de electricidad, la exploración y producción no convencional de petróleo y gas, la producción de petróleo y gas convencional, la generación de energía nuclear, las armas convencionales y armas pequeñas, la contratación militar de armas y productos y servicios relacionados con las armas, la producción de tabaco, la producción de entretenimiento para adultos, las actividades del juego, el desarrollo y crecimiento de organismos modificados genéticamente, la producción y comercialización de pesticidas. Para más detalles sobre los umbrales de exclusión aplicables a las actividades anteriores, consulte la Política de Inversión responsable de Pictet Asset Management.
 - incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción
 - sobreponer los valores con riesgos de sostenibilidad bajos
- análisis de criterios ASG de los valores admisibles que abarca al menos el 80% del patrimonio neto o el número de emisores incluidos en la cartera

Además, el fondo se implicó con 12 empresas a 30.09.2023.

¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

● ¿Cómo difería el índice de referencia de un índice general de mercado?

No aplicable.

- **¿Cómo se ha comportado este producto financiero con respecto a los indicadores de sostenibilidad para determinar la conformidad del índice de referencia con las características medioambientales o sociales que promueve?**
No aplicable.
- **¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?**
No aplicable.
- **¿Cómo se ha comportado este producto financiero en comparación con el índice general de mercado?**
No aplicable.

Nombre del producto: **Pictet - Short-Term Money Market JPY**

Identificador de entidad jurídica: **549300184SDM88N97072**

CARACTERÍSTICAS MEDIOAMBIENTALES O SOCIALES

Inversión sostenible significa una inversión en una actividad económica que contribuye a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo a ningún objetivo medioambiental o social y que las empresas en las que se invierte sigan prácticas de buena gobernanza.

La **taxonomía de la UE** es un sistema de clasificación previsto en el Reglamento (UE) 2020/852 por el que se establece una lista de **actividades económicas medioambientalmente sostenibles**. Dicho Reglamento no prevé una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental pueden ajustarse, o no, a la taxonomía.

| ¿ESTE PRODUCTO FINANCIERO TENÍA UN OBJETIVO DE INVERSIÓN SOSTENIBLE? | | | |
|---|-------------------------------------|---|---|
| <input checked="" type="radio"/> Si | <input type="radio"/> No | <input checked="" type="radio"/> Promovió características medioambientales o sociales y, aunque no tenía como objetivo una inversión sostenible, tuvo un porcentaje del 17,13% de inversiones sostenibles | <input checked="" type="radio"/> con un objetivo medioambiental en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> Realizó inversiones sostenibles con un objetivo medioambiental: ____% | <input checked="" type="checkbox"/> | <input checked="" type="checkbox"/> con un objetivo medioambiental en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> con un objetivo medioambiental en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | | | <input checked="" type="checkbox"/> con un objetivo social |
| <input type="checkbox"/> en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | | | |
| <input type="checkbox"/> Realizó inversiones sostenibles con un objetivo social: ____% | <input type="checkbox"/> | <input type="checkbox"/> Ha promovido características medioambientales o sociales, pero no ha realizado ninguna inversión sostenible | |

Nota: Las inversiones sostenibles se calcularon sobre una base de aprobado/suspenso, incluyendo bonos con etiqueta (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% (medida por ingresos, EBIT, valor de empresa o indicadores similares) a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.

¿En qué grado se han cumplido las características medioambientales o sociales que promueve este producto financiero?

Las características medioambientales y sociales de este producto financiero se promovieron utilizando:

- Inclinación positiva:

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos, lo que resulta en un perfil medioambiental, social y de gobernanza (ASG) mejor que una cartera neutral. Por término medio, una cartera neutral tendría una calificación de riesgo ASG «media». No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

- Exclusiones basadas en normas y valores:

El fondo excluyó los emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente o que incumplen de forma grave las normas internacionales, según se detalla a continuación:

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

Actividad

Umbrales de ingresos

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

| | |
|---|------------------------|
| Combustibles fósiles y energía nuclear | |
| Extracción de carbón térmico | > 25% |
| Generación de energía térmica de carbón | > 25% |
| Producción de petróleo y gas | > 25% |
| Extracción de arenas bituminosas | > 10% |
| Extracción de energía de esquisto | > 10% |
| Exploración de petróleo y gas en el Ártico | > 10% |
| Generación de energía nuclear | > 50% |
| Armas | |
| Producción de armas controvertidas[1] | > 0% |
| Armas de contratación militar | > 10% |
| Productos y/o servicios relacionados con armas de contratación militar | > 50% |
| Clientes civiles de armas pequeñas (armas de asalto) | > 10% |
| Clientes civiles de armas pequeñas (armas de no asalto) | > 10% |
| Clientes militares/de fuerzas del orden de armas pequeñas | > 25% |
| Componentes clave de armas pequeñas | > 25% |
| Otras actividades controvertidas | |
| Producción de entretenimiento para adultos | > 10% |
| Operaciones de juego | > 10% |

| Cultivo de plantas y semillas modificadas genéticamente | > 25% |
| Producción de plaguicidas | > 10% |
| Venta al por menor de plaguicidas | > 10% |
| Producción de productos de tabaco | > 10% |
| Exclusiones de empresas por incumplimiento de normas internacionales | Excluidas |
| Empresas que incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción | Sí |
| Exclusiones de países | Excluidas |
| Países (i) incluidos en la lista de Estados patrocinadores del terrorismo, según la definición de la Oficina de Control de Activos Extranjeros de EE. UU.[2] o (ii) sujetos a sanciones financieras de la UE contra bancos centrales y/o empresas de propiedad estatal. | Sí |
| Países (i) clasificados como de muy alto o alto riesgo en el Índice de Estados Frágiles o (ii) afectados por conflictos violentos según la definición del Banco Mundial. | Sí |
| Países (i) incluidos en la lista de «alerta» del Índice de Estados Frágiles o (ii) sujetos a sanciones relacionadas con la exportación por parte de la UE. | Lista de vigilancia[3] |

[1] Entre las armas controvertidas se encuentran las minas antipersona, las municiones de racimo, las armas biológicas y químicas (incluido el fósforo blanco) y las armas nucleares procedentes de países no firmantes del Tratado de No Proliferación de Armas Nucleares (TNP).

[2] «Estado patrocinador del terrorismo» es una designación aplicada por el Departamento de Estado de Estados Unidos a países que repetidamente han prestado apoyo a actos de terrorismo internacional.

[3] Además de las exclusiones estrictas, Pictet Asset Management mantiene una lista de vigilancia que incluye países que requieren una diligencia debida adicional por parte de los equipos de inversión antes de invertir.

Para más detalles, consulte la Política de Inversión responsable de Pictet Asset Management (Anexo B).

- Titularidad activa:

El fondo se implicó con la dirección de las empresas sobre cuestiones ASG importantes.

● ¿Cómo se han comportado los indicadores de sostenibilidad?

Durante el periodo de información, los indicadores de sostenibilidad se comportaron según se indica a continuación:

- **Perfil ASG global**

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos.

Como resultado, el fondo ha conseguido un perfil ambiental, social y de gobernanza (ASG) mejor que el de la cartera neutral.

- **Principal incidencia adversa (PIA)**

El fondo utiliza una combinación de enfoques para considerar y, en la medida de lo posible, mitigar las incidencias adversas materiales de nuestras inversiones en la sociedad y el medioambiente, como emisiones de GEI, contaminación atmosférica, pérdida de biodiversidad, emisiones al agua, residuos peligrosos/radioactivos, derechos humanos, normas laborales, corrupción y soborno, y salud pública.

El grado y la forma en que estas incidencias se tuvieron en cuenta dependieron de factores como el contexto específico de la inversión que provoca la incidencia adversa o la disponibilidad de datos fiables.

De conformidad con la política de exclusión de Pictet Asset Management descrita en la Política de Inversión responsable de la empresa (véase el cuadro anterior para consultar las actividades excluidas y los umbrales de exclusión aplicados), el fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente:

Actividades controvertidas (media ponderada de ingresos de la empresa, en %)*:

| | Fondo (%) | Índice de referencia (%) |
|--|-----------|--------------------------|
| Combustibles fósiles y energía nuclear | 0,10 | 0,00 |
| Armas | 0,04 | 0,00 |
| Otras actividades controvertidas | 0,00 | 0,00 |
| No aplicable: | 34,12 | 0,00 |
| No cubierto: | 2,32 | 100,00 |

* Los combustibles fósiles y la energía nuclear incluyen la extracción de carbón térmico y la generación de electricidad, la producción y extracción de petróleo y gas, la extracción de energía de esquisto, la exploración de petróleo y gas en los mares del Ártico y la generación de energía nuclear. Las armas incluyen la contratación militar (servicios de armas y relacionadas con estas), clientes civiles de armas pequeñas (armas de asalto/no asalto), clientes militares/de las fuerzas y cuerpos de seguridad de armas pequeñas y componentes clave de pequeñas armas. Otras actividades controvertidas incluyen la producción de tabaco, la producción de entretenimiento para adultos, la explotación de juegos de azar, el desarrollo o crecimiento de organismos modificados genéticamente, la producción o venta al por menor de pesticidas. La exposición se basa en datos de terceros y puede no reflejar nuestro punto de vista interno. Pictet Asset Management tiene plena discreción sobre la aplicación de los criterios de exclusión y se reserva el derecho de apartarse de la información de terceros, según el caso, cuando se considere incorrecta o incompleta.

Fuente: Pictet Asset Management, Sustainalytics.

Además, el fondo excluyó a los emisores que tenían exposición a:

(i) PIA 10: Incumplimientos de los principios del Pacto Mundial de las Naciones Unidas y las Directrices para Empresas Multinacionales de la Organización para la Cooperación y el Desarrollo Económicos (OCDE).

(ii) PIA 14: Exposición a armas controvertidas (minas antipersonas, municiones en racimo, armas químicas y armas biológicas)

- **Interacción**

Los indicadores de sostenibilidad miden cómo se alcanzan las características medioambientales o sociales que promueve el producto financiero.

El fondo se implicó con 6 empresas sobre cuestiones ASG (datos a 30.09.2023). Esto incluye diálogos internos, iniciativas de colaboración entre inversores y servicios de implicación de terceros. Para que se considere implicación, el diálogo con una empresa objetivo debe tener un objetivo claro y mensurable en un horizonte temporal predefinido. Es importante señalar que no todas las interacciones rutinarias o de supervisión, aunque impliquen a la alta dirección o al Consejo de administración, se consideran implicaciones en nuestra evaluación.

Fuente: Pictet Asset Management, Sustainalytics.

● **¿... y en comparación con períodos anteriores?**

Esta cuestión se abordará en futuros informes anuales debido a la falta de historial.

● **¿Cuáles han sido los objetivos de las inversiones sostenibles que ha realizado en parte el producto financiero y de qué forma ha contribuido la inversión sostenible a dichos objetivos?**

El fondo no se comprometió a un porcentaje mínimo de inversiones sostenibles.

Sin embargo, *a posteriori*, el fondo invirtió en valores que financiaban actividades económicas que contribuyeron sustancialmente a objetivos medioambientales y/o sociales como:

Medioambientales

- mitigación del cambio climático o adaptación al mismo
- uso sostenible y protección de los recursos hídricos y marinos
- transición hacia una economía circular
- prevención y control de la contaminación o
- protección y recuperación de la biodiversidad y los ecosistemas

Sociales

- comunidades inclusivas y sostenibles
- nivel de vida adecuado y bienestar para los usuarios finales o
- trabajo digno

Pictet Asset Management utilizó un marco de referencia propio, así como los objetivos de la Taxonomía de la UE, para definir las inversiones sostenibles.

● **¿De qué manera las inversiones sostenibles que el producto financiero ha realizado en parte, no han causado un perjuicio significativo a ningún objetivo de inversión sostenible medioambiental o social?**

Para evitar que las inversiones sostenibles causen un perjuicio significativo a cualquier otro objetivo medioambiental o social, el fondo aplicó los siguientes criterios de selección sobre la base del mejor esfuerzo:

- (i) Exclusiones de emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente (véase la descripción del marco de exclusión de IR).
- (ii) Los emisores asociados a controversias elevadas y graves no se contabilizaron como inversiones sostenibles.

La información se obtuvo de proveedores tercero y/o de análisis interno. La información ASG de terceros proveedores de datos puede haber sido incompleta, inexacta o no estar disponible. Como consecuencia de ello, existía el riesgo de que el Gestor de inversiones evaluará incorrectamente un valor o emisor, dando lugar a la inclusión o exclusión incorrecta de un valor en el fondo. Los datos ASG incompletos, inexactos o no disponibles también pueden actuar como una limitación metodológica a una estrategia de inversión no financiera (como la aplicación de criterios ASG o similares). En los casos identificados, el Gestor de inversiones trató de mitigar este riesgo mediante su propia evaluación. En caso de que las características ASG de un valor mantenido por el fondo cambiaron, dando lugar a la venta del valor, el Gestor de inversiones no acepta responsabilidad alguna en relación con dicho cambio.

● **¿Cómo se han tenido en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?**

Pictet Asset Management realiza un seguimiento de todos los indicadores obligatorios de principales incidencias adversas (incluidos en el Anexo 1 del Reglamento Delegado (UE) 22 / 1288 de la Comisión) cuando disponemos de datos sólidos. Se espera que la calidad de los datos disponibles mejore con el tiempo.

Las principales incidencias adversas
son las incidencias negativas más importantes de las decisiones de inversión sobre los factores de sostenibilidad en relación con asuntos medioambientales,

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas de sus inversiones en la sociedad y el medioambiente que se consideran importantes para la estrategia de inversión, mediante un conjunto de decisiones de gestión de cartera, actividades de propiedad activa y exclusión de emisores asociados a conductas o actividades controvertidas. Más información en el informe de PIA de la entidad, disponible en:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=es&bl=PAM>

- *¿Se han ajustado las inversiones sostenibles a las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios rectores de las Naciones Unidas sobre las empresas y los derechos humanos?*

Para garantizar que la inversión sostenible no causara un perjuicio significativo a ningún objetivo de inversión sostenible, el fondo excluyó a las empresas con infracciones elevadas y graves de (i) los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción o (ii) las Líneas Directrices de la OCDE para Empresas Multinacionales, incluidos los asuntos sociales y laborales graves.

La taxonomía de la UE establece el principio de «no causar un perjuicio significativo», según el cual las inversiones que se ajusten a la taxonomía no deben perjudicar significativamente a los objetivos de la taxonomía de la UE, e incluye criterios específicos de la Unión.

El principio de «no perjudicar de forma significativa» se aplica únicamente a las inversiones subyacentes del producto financiero que contemplan los criterios de la UE relativos a actividades económicas sostenibles desde una perspectiva medioambiental. Las inversiones subyacentes al resto del producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas medioambientalmente sostenibles.

Cualquier otra inversión sostenible tampoco debe perjudicar significativamente a ningún objetivo medioambiental o social.

¿Cómo tiene en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas que se consideran importantes para la estrategia de inversión. Entre las incidencias adversas se incluyeron, entre otras, las emisiones de gases de efecto invernadero (GEI), la contaminación atmosférica, la pérdida de biodiversidad, las emisiones al agua, los residuos peligrosos/radioactivos, las cuestiones sociales y laborales, y la corrupción y el soborno, que se abordaron mediante una combinación de:

(i) decisiones de gestión de carteras

El equipo de inversión puntuó las posiciones según una evaluación de los riesgos medioambientales, sociales y de gobernanza como parte del marco de puntuación del fondo. Los gestores de inversiones determinan las puntuaciones sobre una base cualitativa, basándose en el análisis fundamental y en datos cuantitativos ASG, incluidos los datos sobre la Principal incidencia adversa, los datos ASG facilitados por las empresas y los datos proporcionados por terceros proveedores de datos ASG. El proceso de puntuación del equipo de inversión fue un componente clave del proceso de construcción de la cartera del comportamiento, determinando las ponderaciones objetivo en la cartera.

(ii) implicación

La interacción con los emisores se realizó mediante conversaciones individuales, reuniones de accionistas/bonistas, giras de inversores y/o conferencias telefónicas. Los objetivos de estas interacciones fueron evaluar una organización, supervisar que su estrategia se estaba aplicando conforme a nuestras expectativas y garantizar que los emisores iban camino de cumplir sus metas y objetivos.

Cuando corresponde, nos implicamos con las empresas en relación con cuestiones ASG importantes, como los objetivos de reducción de los GEI, las mejoras en la gobernanza y diversas controversias medioambientales, sociales y de gobernanza, para asegurarnos de que las entendieran y las abordaran eficazmente a corto, medio y largo plazo. Nuestras actividades de implicación combinaron debates dirigidos a nivel interno, iniciativas de colaboración con inversores institucionales y servicios de implicación externos.

(iii) exclusión de emisores asociados a conductas o actividades controvertidas

El fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se definen en la Política de Inversión responsable de la Pictet Asset Management y/o (ii) empresas que infringieron gravemente los principios del Pacto Mundial de la ONU sobre derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción y las armas controvertidas.

¿Cuáles han sido las inversiones principales de este producto financiero?

La lista incluye las inversiones que constituyen la **mayor parte de las inversiones** del producto financiero durante el período de referencia, que es: 01.10.2022 - 30.09.2023

| INVERSIONES DE MAYOR VOLUMEN | SECTOR | % DE ACTIVOS | PAÍS |

¿Cuál ha sido la proporción de inversiones relacionadas con la sostenibilidad?

17,13%

La asignación de activos describe el porcentaje de inversiones en activos específicos.

¿Cuál ha sido la asignación de activos?

El fondo se ajustó en un 95,93% con características medioambientales o sociales (n.º 1 Ajustadas a características medioambientales o sociales) y tuvo hasta un 4,07% invertido en la categoría Otras (n.º 2 Otras). El 17,13% se asignó a inversiones sostenibles (n.º 1A Sostenibles) y el resto se invirtió en inversiones ajustadas a otras características medioambientales o sociales (n.º 1B Otras características medioambientales o sociales).

n.º 2 Otras incluye el resto de inversiones del producto financiero que ni se ajustan a las características medioambientales o sociales ni pueden considerarse inversiones sostenibles.

La categoría **n.º 1 Ajustadas a características medioambientales o sociales** abarca:

- la subcategoría **n.º 1A Sostenibles**, que abarca las inversiones sostenibles con objetivos medioambientales o sociales.

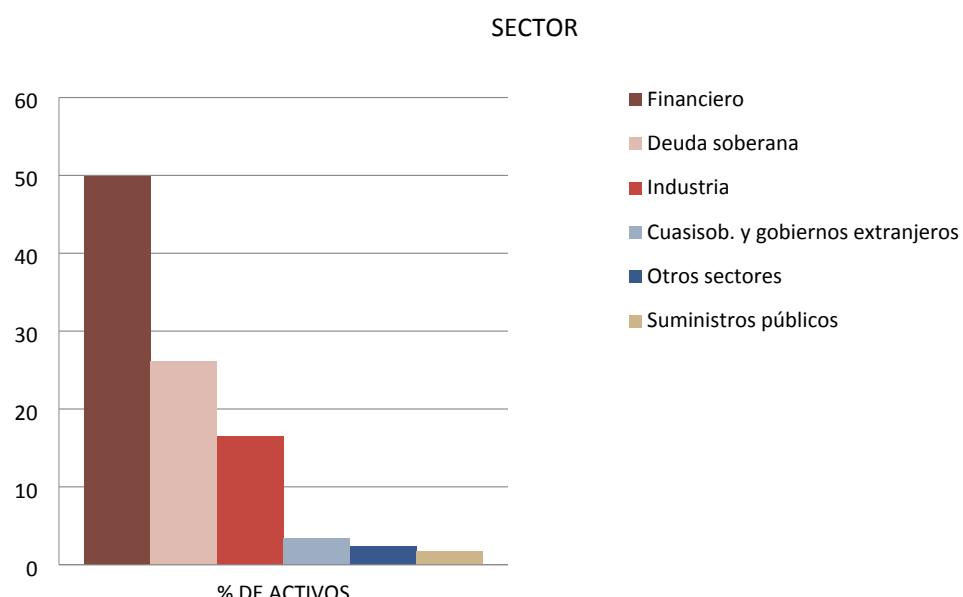

- la subcategoría **n.º 1B Otras características medioambientales o sociales**, que abarca inversiones ajustadas a las características medioambientales o sociales que no pueden considerarse inversiones sostenibles.

Notas:

- Las inversiones «n.º 1A Sostenibles», «Otras medioambientales» y «Sociales» se calcularon sobre una base de aprobado/suspenso. Incluyen bonos certificados (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.
- Las inversiones ajustadas a la taxonomía verde de la UE se calculan ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a la mitigación del cambio climático y la adaptación al mismo) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.
- A falta de una taxonomía social de la UE, Pictet ha desarrollado un marco de taxonomía social propio. El marco se basa en basado en el Informe sobre taxonomía social publicado por la Plataforma de Finanzas Sostenibles de la UE en 2022. Las actividades admisibles se definen como bienes y servicios beneficiosos desde el punto de vista social que contribuyen sustancialmente a uno de los tres objetivos sociales siguientes: (1) comunidades inclusivas y sostenibles, (2) nivel de vida adecuado y bienestar para los usuarios finales y (3) trabajo digno.

Fuente: Pictet Asset Management, Sustainanalytics, FTSE Green Revenues, Factset RBICS.

● ¿En qué sectores económicos se han realizado las inversiones?

Fuente: Pictet Asset Management, Merrill Lynch.

Estamos evaluando la disponibilidad y la calidad de los datos que nos permitirían divulgar información más granular en futuros informes sobre los sectores y subsectores de la economía que obtienen ingresos a partir de la exploración, la minería, la extracción, la producción, el procesamiento, el almacenamiento, el refinado o la distribución, incluidos el transporte, el almacenamiento y el comercio, de combustibles fósiles, según se definen en el artículo 2, punto (62), del Reglamento (UE) 2018/1999 del Parlamento Europeo y del Consejo.

¿En qué medida se ajustaban las inversiones sostenibles con un objetivo medioambiental a la taxonomía de la UE?

El fondo realizó inversiones en actividades económicas que contribuyeron a los dos primeros objetivos medioambientales (mitigación del cambio climático y adaptación a este), según lo establecido en el artículo 9 del Reglamento (UE) 2020/852.

Las inversiones ajustadas a la taxonomía de la UE se calcularon ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a objetivos medioambientales relevantes) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.

Los datos de ajuste a la Taxonomía verde de la UE proceden de informes públicos. Los cálculos también pueden incluir estimaciones en un número limitado de casos en los que no se disponía de datos sobre la alineación con la Taxonomía verde de la UE. Las estimaciones se realizaron sobre la base del mejor esfuerzo y siguiendo un planteamiento conservador para obtener un resultado prudente.

Los procedimientos de control se han aplicado para verificar en todo momento el cumplimiento del artículo 3 del Reglamento sobre taxonomía de la UE.

Los datos facilitados no han sido verificados por un auditor externo ni revisados por un tercero independiente.

● **¿Invirtió el producto financiero en actividades relacionadas con el gas fósil o la energía nuclear que cumplían con la taxonomía de la UE¹?**

Sí:

En gas fósil En energía nuclear

No

La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permite ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

Para ajustarse a la taxonomía de la UE, los criterios correspondientes al **gas fósil** incluyen limitaciones de emisiones y el paso a la energía renovable o combustibles bajos en carbono de aquí al fin de 2035. Por lo que respecta a la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

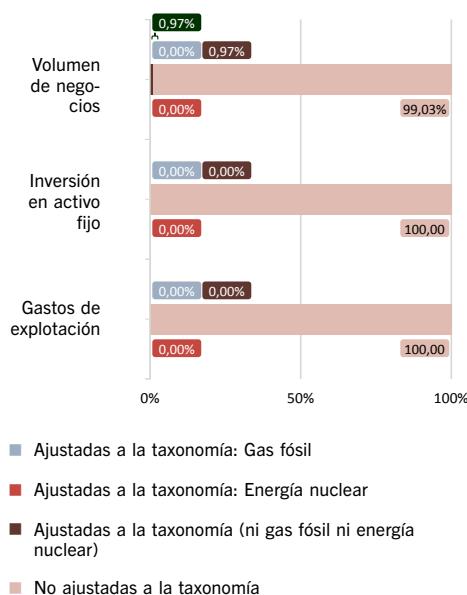

¹ Las actividades relacionadas con el gas fósil o la energía nuclear solo cumplirán la taxonomía de la UE cuando contribuyan a limitar el cambio climático («mitigación del cambio climático») y no perjudiquen significativamente ningún objetivo de la taxonomía de la UE (véase la nota explicativa en el margen izquierdo). Los criterios completos correspondientes a las actividades económicas del gas fósil y la energía nuclear que se ajustan a la taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

Las actividades que se ajustan a la taxonomía se expresan como un porcentaje de:

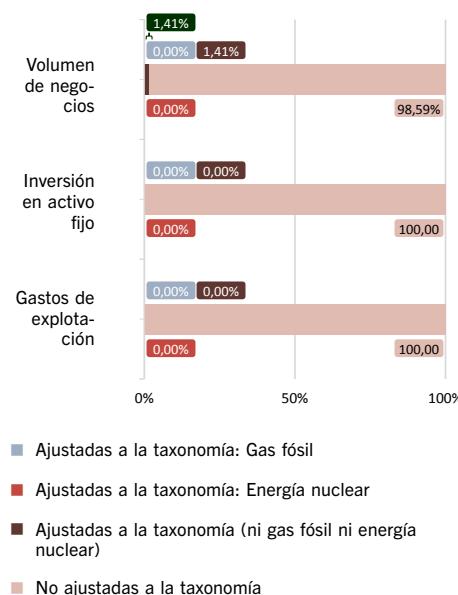

- el **volumen de negocios**, que refleja el «carácter ecológico» de las empresas en las que se invierte en la actualidad;
- la **inversión en activo fijo**, que muestra las inversiones ecológicas realizadas por las empresas en las que se invierte, pertinentes para la transición a una economía verde;
- los **gastos de explotación**, que reflejan las actividades operativas ecológicas de las empresas en las que se invierte.

Los gráficos que figuran a continuación muestran en verde el porcentaje de inversiones que se ajustaban a la taxonomía de la UE. Dado que no existe una metodología adecuada para determinar la adaptación a la taxonomía de los bonos soberanos*, el primer gráfico muestra la adaptación a la taxonomía correspondiente para todas las inversiones del producto financiero, incluidos los bonos soberanos, mientras que el segundo gráfico muestra la adaptación a la taxonomía solo en relación con las inversiones del producto financiero distintas de los bonos soberanos.

1. Ajuste a la taxonomía de las inversiones incluidos los bonos soberanos*

2. Ajuste a la taxonomía de las inversiones excluidos los bonos soberanos*

Este gráfico representa el 66,9% de las inversiones totales.

* A efectos de estos gráficos, los «bonos soberanos» incluyen todas las exposiciones soberanas

Nota:

Utilizamos los ingresos como medida clave para establecer la asignación de objetivos y el ajuste real con la taxonomía de la UE debido a la disponibilidad limitada y a la falta de datos fiables para los gastos de explotación y la inversión en activo fijo.

Fuente: Pictet Asset Management.

● ¿Cuál ha sido la proporción de las inversiones realizadas en actividades de transición y facilitadoras?

La proporción de inversiones realizadas en:

- Actividades de transición: No aplicable*
- Actividades de facilitadoras: No aplicable*

* La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permiten ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

● ¿Qué porcentaje de inversiones se han ajustado a la taxonomía de la UE en comparación con los períodos de referencia anteriores?

No aplicable.

¿Cuál ha sido la proporción de inversiones sostenibles con un objetivo medioambiental no ajustadas a la taxonomía de la UE?

3,81%

Estas inversiones sostenibles no se ajustan a la Taxonomía de la UE porque sus actividades económicas o bien (i) no están cubiertas por la Taxonomía de la UE, o bien (ii) no cumplen los criterios técnicos de selección para lograr una contribución sustancial en el sentido de la Taxonomía de la UE.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta

¿Cuál ha sido la proporción de inversiones socialmente sostenibles?

13,32%

¿Qué inversiones se han incluido en «otras» y cuál ha sido su propósito? ¿ha habido garantías medioambientales o sociales mínimas?

Las «otras» inversiones del fondo incluían posiciones de tesorería mantenidas principalmente para satisfacer los objetivos diarios de liquidez y gestión de riesgos permitidos y previstos por la política de inversión del fondo. Cuando sea preciso, se aplicarán salvaguardias medioambientales o sociales mínimas a los valores subyacentes.

¿Qué medidas se han adoptado para cumplir las características medioambientales o sociales durante el período de referencia?

Durante el periodo de referencia, se alcanzó el objetivo de inversión sostenible siguiendo la estrategia de inversión y respetando los elementos vinculantes.

Los elementos vinculantes del fondo son:

- Exclusión de emisores que:
 - están relacionados con armas nucleares de países que no han firmado el Tratado sobre la No Proliferación de Armas Nucleares (TNP) y otras armas controvertidas
 - obtienen una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, como la extracción de carbón térmico y la generación de electricidad, la exploración y producción no convencional de petróleo y gas, la producción de petróleo y gas convencional, la generación de energía nuclear, las armas convencionales y armas pequeñas, la contratación militar de armas y productos y servicios relacionados con las armas, la producción de tabaco, la producción de entretenimiento para adultos, las actividades del juego, el desarrollo y crecimiento de organismos modificados genéticamente, la producción y comercialización de pesticidas. Para más detalles sobre los umbrales de exclusión aplicables a las actividades anteriores, consulte la Política de Inversión responsable de Pictet Asset Management.
 - incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción
 - sobreponer los valores con riesgos de sostenibilidad bajos
- análisis de criterios ASG de los valores admisibles que abarca al menos el 80% del patrimonio neto o el número de emisores incluidos en la cartera

Además, el fondo se implicó con 6 empresas a 30.09.2023.

¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

● ¿Cómo difería el índice de referencia de un índice general de mercado?

No aplicable.

- **¿Cómo se ha comportado este producto financiero con respecto a los indicadores de sostenibilidad para determinar la conformidad del índice de referencia con las características medioambientales o sociales que promueve?**
No aplicable.
- **¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?**
No aplicable.
- **¿Cómo se ha comportado este producto financiero en comparación con el índice general de mercado?**
No aplicable.

CARACTERÍSTICAS MEDIOAMBIENTALES O SOCIALES

Inversión sostenible significa una inversión en una actividad económica que contribuye a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo a ningún objetivo medioambiental o social y que las empresas en las que se invierte sigan prácticas de buena gobernanza.

La **taxonomía de la UE** es un sistema de clasificación previsto en el Reglamento (UE) 2020/852 por el que se establece una lista de **actividades económicas medioambientalmente sostenibles**. Dicho Reglamento no prevé una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental pueden ajustarse, o no, a la taxonomía.

| ¿ESTE PRODUCTO FINANCIERO TENÍA UN OBJETIVO DE INVERSIÓN SOSTENIBLE? | | | |
|--|--|-------------------------------------|--|
| <input checked="" type="radio"/> Si | | <input checked="" type="radio"/> No | |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo medioambiental: ____% | <input checked="" type="checkbox"/> | Promovió características medioambientales o sociales y, aunque no tenía como objetivo una inversión sostenible, tuvo un porcentaje del 10,73% de inversiones sostenibles |
| <input type="checkbox"/> | en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> | con un objetivo medioambiental en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> | en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> | con un objetivo medioambiental en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo social: ____% | <input type="checkbox"/> | con un objetivo social |
| <input type="checkbox"/> | | <input type="checkbox"/> | Ha promovido características medioambientales o sociales, pero no ha realizado ninguna inversión sostenible |

Nota: Las inversiones sostenibles se calcularon sobre una base de aprobado/suspenso, incluyendo bonos con etiqueta (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% (medida por ingresos, EBIT, valor de empresa o indicadores similares) a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.

¿En qué grado se han cumplido las características medioambientales o sociales que promueve este producto financiero?

Las características medioambientales y sociales de este producto financiero se promovieron utilizando:

- Inclinación positiva:

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos, lo que resulta en un perfil medioambiental, social y de gobernanza (ASG) mejor que una cartera neutral. Por término medio, una cartera neutral tendría una calificación de riesgo ASG «media».

No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

- Exclusiones basadas en normas y valores:

El fondo excluyó los emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente o que incumplen de forma grave las normas internacionales, según se detalla a continuación:

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

| Actividad | Umbrales de ingresos |
|---|----------------------|
| Combustibles fósiles y energía nuclear | |
| Extracción de carbón térmico | > 25% |
| Generación de energía térmica de carbón | > 25% |
| Producción de petróleo y gas | > 25% |
| Extracción de arenas bituminosas | > 10% |
| Extracción de energía de esquisto | > 10% |
| Exploración de petróleo y gas en el Ártico | > 10% |
| Generación de energía nuclear | > 50% |
| Armas | |
| Producción de armas controvertidas[1] | > 0% |
| Armas de contratación militar | > 10% |
| Productos y/o servicios relacionados con armas de contratación militar | > 50% |
| Clientes civiles de armas pequeñas (armas de asalto) | > 10% |
| Clientes civiles de armas pequeñas (armas de no asalto) | > 10% |
| Clientes militares/de fuerzas del orden de armas pequeñas | > 25% |
| Componentes clave de armas pequeñas | > 25% |
| Otras actividades controvertidas | |
| Producción de entretenimiento para adultos | > 10% |
| Operaciones de juego | > 10% |
| Desarrollo de plantas y semillas modificadas genéticamente | > 25% |
| Cultivo de plantas y semillas modificadas genéticamente | > 25% |
| Producción de plaguicidas | > 10% |
| Venta al por menor de plaguicidas | > 10% |
| Producción de productos de tabaco | > 10% |
| Exclusiones de empresas por incumplimiento de normas internacionales | Excluidas |
| Empresas que incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción | Sí |
| Exclusiones de países | Excluidas |
| Países (i) incluidos en la lista de Estados patrocinadores del terrorismo, según la definición de la Oficina de Control de Activos Extranjeros de EE. UU.[2] o (ii) sujetos a sanciones financieras de la UE contra bancos centrales y/o empresas de propiedad estatal. | Sí |
| Países (i) clasificados como de muy alto o alto riesgo en el Índice de Estados Frágiles o (ii) afectados por conflictos violentos según la definición del Banco Mundial. | Sí |

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

Países (i) incluidos en la lista de «alerta» del Índice de Estados Frágiles o (ii) sujetos a sanciones relacionadas con la exportación por parte de la UE. Lista de vigilancia[3]

[1] Entre las armas controvertidas se encuentran las minas antipersona, las municiones de racimo, las armas biológicas y químicas (incluido el fósforo blanco) y las armas nucleares procedentes de países no firmantes del Tratado de No Proliferación de Armas Nucleares (TNP).

[2] «Estado patrocinador del terrorismo» es una designación aplicada por el Departamento de Estado de Estados Unidos a países que repetidamente han prestado apoyo a actos de terrorismo internacional.

[3] Además de las exclusiones estrictas, Pictet Asset Management mantiene una lista de vigilancia que incluye países que requieren una diligencia debida adicional por parte de los equipos de inversión antes de invertir.

Para más detalles, consulte la Política de Inversión responsable de Pictet Asset Management (Anexo B).

- Titularidad activa:

El fondo se implicó con la dirección de las empresas sobre cuestiones ASG importantes.

● **¿Cómo se han comportado los indicadores de sostenibilidad?**

Durante el periodo de información, los indicadores de sostenibilidad se comportaron según se indica a continuación:

• **Perfil ASG global**

El fondo incrementó el peso de los valores con riesgos de sostenibilidad bajos y/o disminuyó el peso de los valores con riesgos de sostenibilidad altos.

Como resultado, el fondo ha conseguido un perfil ambiental, social y de gobernanza (ASG) mejor que el de la cartera neutral.

• **Principal incidencia adversa (PIA)**

El fondo utiliza una combinación de enfoques para considerar y, en la medida de lo posible, mitigar las incidencias adversas materiales de nuestras inversiones en la sociedad y el medioambiente, como emisiones de GEI, contaminación atmosférica, pérdida de biodiversidad, emisiones al agua, residuos peligrosos/radioactivos, derechos humanos, normas laborales, corrupción y soborno, y salud pública.

El grado y la forma en que estas incidencias se tuvieron en cuenta dependieron de factores como el contexto específico de la inversión que provoca la incidencia adversa o la disponibilidad de datos fiables.

De conformidad con la política de exclusión de Pictet Asset Management descrita en la Política de Inversión responsable de la empresa (véase el cuadro anterior para consultar las actividades excluidas y los umbrales de exclusión aplicados), el fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente:

Actividades controvertidas (media ponderada de ingresos de la empresa, en %)*:

| | Fondo (%) | Índice de referencia (%) |
|--|-----------|--------------------------|
| Combustibles fósiles y energía nuclear | 0,08 | 0,00 |
| Armas | 0,00 | 0,00 |
| Otras actividades controvertidas | 0,01 | 0,00 |
| No aplicable: | 26,82 | 0,00 |
| No cubierto: | 2,02 | 0,00 |

* Los combustibles fósiles y la energía nuclear incluyen la extracción de carbón térmico y la generación de electricidad, la producción y extracción de petróleo y gas, la extracción de energía de esquisto, la exploración de petróleo y gas en los mares del Ártico y la generación de energía nuclear. Las armas incluyen la contratación militar (servicios de armas y relacionadas con estas), clientes civiles de armas pequeñas (armas de asalto/no asalto), clientes militares/de las fuerzas y cuerpos de seguridad de armas pequeñas y componentes clave de pequeñas armas. Otras actividades controvertidas incluyen la producción de tabaco, la producción de entretenimiento para adultos, la explotación de juegos de azar, el desarrollo o crecimiento de organismos modificados genéticamente, la producción o venta al por menor de pesticidas. La exposición se basa en datos de terceros y puede no reflejar nuestro punto de vista interno. Pictet Asset Management tiene

Los indicadores de sostenibilidad miden cómo se alcanzan las características medioambientales o sociales que promueve el producto financiero.

plena discreción sobre la aplicación de los criterios de exclusión y se reserva el derecho de apartarse de la información de terceros, según el caso, cuando se considere incorrecta o incompleta.

Fuente: Pictet Asset Management, Sustainalytics.

Además, el fondo excluyó a los emisores que tenían exposición a:

- (i) PIA 10: Incumplimientos de los principios del Pacto Mundial de las Naciones Unidas y las Directrices para Empresas Multinacionales de la Organización para la Cooperación y el Desarrollo Económicos (OCDE).
- (ii) PIA 14: Exposición a armas controvertidas (minas antipersonas, municiones en racimo, armas químicas y armas biológicas)

- **Interacción**

El fondo se implicó con 10 empresas sobre cuestiones ASG (datos a 30.09.2023). Esto incluye diálogos internos, iniciativas de colaboración entre inversores y servicios de implicación de terceros. Para que se considere implicación, el diálogo con una empresa objetivo debe tener un objetivo claro y mensurable en un horizonte temporal predefinido. Es importante señalar que no todas las interacciones rutinarias o de supervisión, aunque impliquen a la alta dirección o al Consejo de administración, se consideran implicaciones en nuestra evaluación.

Fuente: Pictet Asset Management, Sustainalytics.

- **¿... y en comparación con períodos anteriores?**

Esta cuestión se abordará en futuros informes anuales debido a la falta de historial.

- **¿Cuáles han sido los objetivos de las inversiones sostenibles que ha realizado en parte el producto financiero y de qué forma ha contribuido la inversión sostenible a dichos objetivos?**

El fondo no se comprometió a un porcentaje mínimo de inversiones sostenibles.

Sin embargo, *a posteriori*, el fondo invirtió en valores que financian actividades económicas que contribuyeron sustancialmente a objetivos medioambientales y/o sociales como:

Medioambientales

- mitigación del cambio climático o adaptación al mismo
- uso sostenible y protección de los recursos hídricos y marinos
- transición hacia una economía circular
- prevención y control de la contaminación o
- protección y recuperación de la biodiversidad y los ecosistemas

Sociales

- comunidades inclusivas y sostenibles
- nivel de vida adecuado y bienestar para los usuarios finales o
- trabajo digno

Pictet Asset Management utilizó un marco de referencia propio, así como los objetivos de la Taxonomía de la UE, para definir las inversiones sostenibles.

- **¿De qué manera las inversiones sostenibles que el producto financiero ha realizado en parte, no han causado un perjuicio significativo a ningún objetivo de inversión sostenible medioambiental o social?**

Para evitar que las inversiones sostenibles causen un perjuicio significativo a cualquier otro objetivo medioambiental o social, el fondo aplicó los siguientes criterios de selección sobre la base del mejor esfuerzo:

- (i) Exclusiones de emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente (véase la descripción del marco de exclusión de IR).
- (ii) Los emisores asociados a controversias elevadas y graves no se contabilizaron como inversiones sostenibles.

La información se obtuvo de proveedores tercero y/o de análisis interno. La información ASG de terceros proveedores de datos puede haber sido incompleta, inexacta o no estar disponible. Como consecuencia de ello, existía el riesgo de que el Gestor de inversiones evaluará incorrectamente un valor o emisor, dando lugar a la inclusión o exclusión incorrecta de un valor en el fondo. Los datos ASG incompletos, inexactos o no disponibles también pueden actuar como una limitación metodológica a una estrategia de inversión no financiera (como la aplicación de criterios ASG o similares). En los casos identificados, el Gestor de inversiones trató de mitigar este riesgo

Las principales incidencias adversas son las incidencias negativas más importantes de las decisiones de inversión sobre los factores de sostenibilidad en relación con asuntos medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

mediante su propia evaluación. En caso de que las características ASG de un valor mantenido por el fondo cambiaren, dando lugar a la venta del valor, el Gestor de inversiones no acepta responsabilidad alguna en relación con dicho cambio.

● *¿Cómo se han tenido en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?*

Pictet Asset Management realiza un seguimiento de todos los indicadores obligatorios de principales incidencias adversas (incluidos en el Anexo 1 del Reglamento Delegado (UE) 22 / 1288 de la Comisión) cuando disponemos de datos sólidos. Se espera que la calidad de los datos disponibles mejore con el tiempo.

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas de sus inversiones en la sociedad y el medioambiente que se consideran importantes para la estrategia de inversión, mediante un conjunto de decisiones de gestión de cartera, actividades de propiedad activa y exclusión de emisores asociados a conductas o actividades controvertidas. Más información en el informe de PIA de la entidad, disponible en:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&sla=es&bl=PAM>

● *¿Se han ajustado las inversiones sostenibles a las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios rectores de las Naciones Unidas sobre las empresas y los derechos humanos?*

Para garantizar que la inversión sostenible no causara un perjuicio significativo a ningún objetivo de inversión sostenible, el fondo excluyó a las empresas con infracciones elevadas y graves de (i) los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción o (ii) las Líneas Directrices de la OCDE para Empresas Multinacionales, incluidos los asuntos sociales y laborales graves.

La taxonomía de la UE establece el principio de «no causar un perjuicio significativo», según el cual las inversiones que se ajusten a la taxonomía no deben perjudicar significativamente a los objetivos de la taxonomía de la UE, e incluye criterios específicos de la Unión.

El principio de «no perjudicar de forma significativa» se aplica únicamente a las inversiones subyacentes del producto financiero que contemplan los criterios de la UE relativos a actividades económicas sostenibles desde una perspectiva medioambiental. Las inversiones subyacentes al resto del producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas medioambientalmente sostenibles.

Cualquier otra inversión sostenible tampoco debe perjudicar significativamente a ningún objetivo medioambiental o social.

¿Cómo tiene en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas que se consideran importantes para la estrategia de inversión. Entre las incidencias adversas se incluyeron, entre otras, las emisiones de gases de efecto invernadero (GEI), la contaminación atmosférica, la pérdida de biodiversidad, las emisiones al agua, los residuos peligrosos/radioactivos, las cuestiones sociales y laborales, y la corrupción y el soborno, que se abordaron mediante una combinación de:

(i) decisiones de gestión de carteras

El equipo de inversión puntuó las posiciones según una evaluación de los riesgos medioambientales, sociales y de gobernanza como parte del marco de puntuación del fondo. Los gestores de inversiones determinan las puntuaciones sobre una base cualitativa, basándose en el análisis fundamental y en datos cuantitativos ASG, incluidos los datos sobre la Principal incidencia adversa, los datos ASG facilitados por las empresas y los datos proporcionados por terceros proveedores de datos ASG. El proceso de puntuación del equipo de inversión fue un componente clave del proceso de construcción de la cartera del compartimento, determinando las ponderaciones objetivo en la cartera.

(ii) implicación

La interacción con los emisores se realizó mediante conversaciones individuales, reuniones de accionistas/bonistas, giras de inversores y/o conferencias telefónicas. Los objetivos de estas interacciones fueron evaluar una organización, supervisar que su estrategia se estaba aplicando conforme a nuestras expectativas y garantizar que los emisores iban camino de cumplir sus metas y objetivos.

Cuando corresponde, nos implicamos con las empresas en relación con cuestiones ASG importantes, como los objetivos de reducción de los GEI, las mejoras en la gobernanza y diversas controversias medioambientales, sociales y de gobernanza, para asegurarnos de que las entendieran y las abordaran eficazmente a corto, medio y largo plazo. Nuestras actividades de implicación combinaron debates dirigidos a nivel interno, iniciativas de colaboración con inversores institucionales y servicios de implicación externos.

(iii) exclusión de emisores asociados a conductas o actividades controvertidas

El fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se definen en la Política de Inversión responsable de la Pictet Asset Management y/o (ii) empresas que infringieron gravemente los principios del Pacto Mundial de la ONU sobre derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción y las armas controvertidas.

¿Cuáles han sido las inversiones principales de este producto financiero?

La lista incluye las inversiones que constituyen la mayor parte de las inversiones del producto financiero durante el período de referencia, que es: 02.05.2023 - 30.09.2023

¿Cuál ha sido la proporción de inversiones relacionadas con la sostenibilidad?

10,73%

La asignación de activos describe el porcentaje de inversiones en activos específicos.

¿Cuál ha sido la asignación de activos?

El fondo se ajustó en un 90,61% con características medioambientales o sociales (n.º 1 Ajustadas a características medioambientales o sociales) y tuvo hasta un 9,39% invertido en la categoría Otras (n.º 2 Otras). El 10,73% se asignó a inversiones sostenibles (n.º 1A Sostenibles) y el resto se invirtió en inversiones ajustadas a otras características medioambientales o sociales (n.º 1B Otras características medioambientales o sociales).

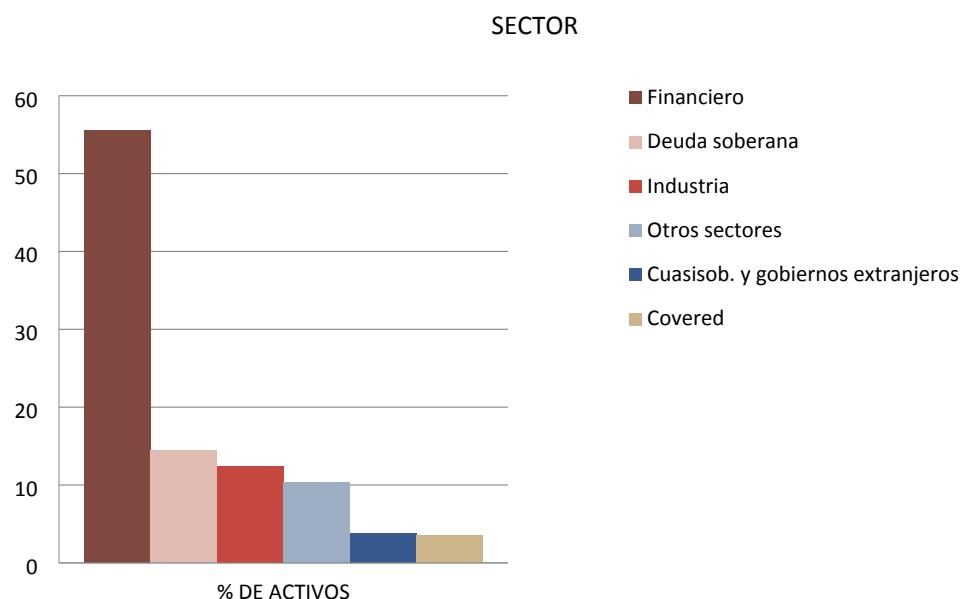

Notas:

- Las inversiones «n.º 1A Sostenibles», «Otras medioambientales» y «Sociales» se calcularon sobre una base de aprobado/suspenso. Incluyen bonos certificados (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.
- Las inversiones ajustadas a la taxonomía verde de la UE se calculan ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a la mitigación del cambio climático y la adaptación al mismo) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.
- A falta de una taxonomía social de la UE, Pictet ha desarrollado un marco de taxonomía social propio. El marco se basa en basado en el Informe sobre taxonomía social publicado por la Plataforma de Finanzas Sostenibles de la UE en 2022. Las actividades admisibles se definen como bienes y servicios beneficiosos desde el punto de vista social que contribuyen sustancialmente a uno de los tres objetivos sociales siguientes: (1) comunidades inclusivas y sostenibles, (2) nivel de vida adecuado y bienestar para los usuarios finales y (3) trabajo digno.

Fuente: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RB/CS.

● ¿En qué sectores económicos se han realizado las inversiones?

Fuente: Pictet Asset Management, Merrill Lynch.

Estamos evaluando la disponibilidad y la calidad de los datos que nos permitirían divulgar información más granular en futuros informes sobre los sectores y subsectores de la economía que obtienen ingresos a partir de la exploración, la minería, la extracción, la producción, el procesamiento, el almacenamiento, el refinado o la distribución, incluidos el transporte, el almacenamiento y el comercio, de combustibles fósiles, según se definen en el artículo 2, punto (62), del Reglamento (UE) 2018/1999 del Parlamento Europeo y del Consejo.

¿En qué medida se ajustaban las inversiones sostenibles con un objetivo medioambiental a la taxonomía de la UE?

El fondo realizó inversiones en actividades económicas que contribuyeron a los dos primeros objetivos medioambientales (mitigación del cambio climático y adaptación a este), según lo establecido en el artículo 9 del Reglamento (UE) 2020/852.

Las inversiones ajustadas a la taxonomía de la UE se calcularon ponderando los ingresos (es decir, las ponderaciones de los valores se multiplican por la proporción de ingresos procedentes de actividades económicas que contribuyen a objetivos medioambientales relevantes) y no pueden consolidarse con otras cifras siguiendo un enfoque de aprobado/suspenso.

Los datos de ajuste a la Taxonomía verde de la UE proceden de informes públicos. Los cálculos también pueden incluir estimaciones en un número limitado de casos en los que no se disponía de datos sobre la alineación con la Taxonomía verde de la UE. Las estimaciones se realizaron sobre la base del mejor esfuerzo y siguiendo un planteamiento conservador para obtener un resultado prudente.

Los procedimientos de control se han aplicado para verificar en todo momento el cumplimiento del artículo 3 del Reglamento sobre taxonomía de la UE.

Los datos facilitados no han sido verificados por un auditor externo ni revisados por un tercero independiente.

● ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil o la energía nuclear que cumplían con la taxonomía de la UE¹?

Sí:

En gas fósil En energía nuclear

No

La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permite ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

Para ajustarse a la taxonomía de la UE, los criterios correspondientes al **gas fósil** incluyen limitaciones de emisiones y el paso a la energía renovable o combustibles bajos en carbono de aquí al fin de 2035. Por lo que respecta a la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

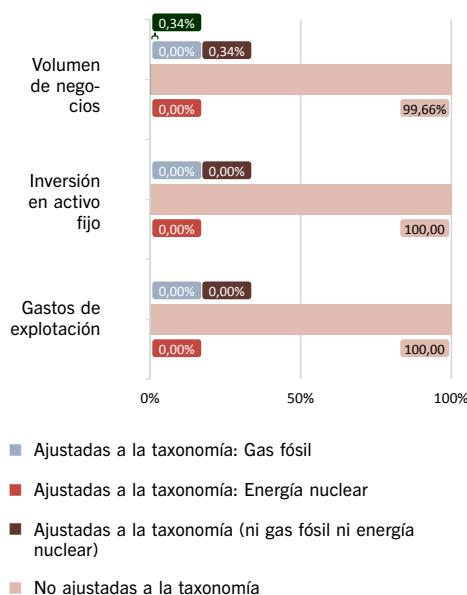

¹ Las actividades relacionadas con el gas fósil o la energía nuclear solo cumplirán la taxonomía de la UE cuando contribuyan a limitar el cambio climático («mitigación del cambio climático») y no perjudiquen significativamente ningún objetivo de la taxonomía de la UE (véase la nota explicativa en el margen izquierdo). Los criterios completos correspondientes a las actividades económicas del gas fósil y la energía nuclear que se ajustan a la taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

Las actividades que se ajustan a la taxonomía se expresan como un porcentaje de:

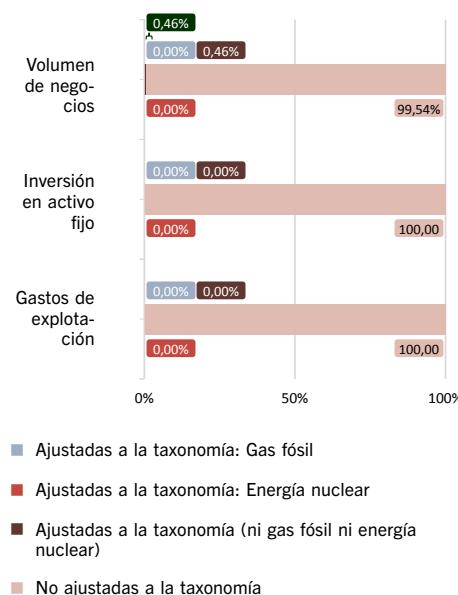

- el **volumen de negocios**, que refleja el «carácter ecológico» de las empresas en las que se invierte en la actualidad;
- la **inversión en activo fijo**, que muestra las inversiones ecológicas realizadas por las empresas en las que se invierte, pertinentes para la transición a una economía verde;
- los **gastos de explotación**, que reflejan las actividades operativas ecológicas de las empresas en las que se invierte.

Los gráficos que figuran a continuación muestran en verde el porcentaje de inversiones que se ajustaban a la taxonomía de la UE. Dado que no existe una metodología adecuada para determinar la adaptación a la taxonomía de los bonos soberanos*, el primer gráfico muestra la adaptación a la taxonomía correspondiente para todas las inversiones del producto financiero, incluidos los bonos soberanos, mientras que el segundo gráfico muestra la adaptación a la taxonomía solo en relación con las inversiones del producto financiero distintas de los bonos soberanos.

1. Ajuste a la taxonomía de las inversiones incluidos los bonos soberanos*

2. Ajuste a la taxonomía de las inversiones excluidos los bonos soberanos*

Este gráfico representa el 73,18% de las inversiones totales.

* A efectos de estos gráficos, los «bonos soberanos» incluyen todas las exposiciones soberanas

Nota:

Utilizamos los ingresos como medida clave para establecer la asignación de objetivos y el ajuste real con la taxonomía de la UE debido a la disponibilidad limitada y a la falta de datos fiables para los gastos de explotación y la inversión en activo fijo.

Fuente: Pictet Asset Management.

● ¿Cuál ha sido la proporción de las inversiones realizadas en actividades de transición y facilitadoras?

La proporción de inversiones realizadas en:

- Actividades de transición: No aplicable*
- Actividades de facilitadoras: No aplicable*

* La insuficiente calidad y disponibilidad de los datos actualmente disponibles en el mercado no permiten ofrecer tal desglose. Estamos trabajando con los proveedores de datos para aumentar la calidad y la disponibilidad a lo largo del tiempo.

● ¿Qué porcentaje de inversiones se han ajustado a la taxonomía de la UE en comparación con los períodos de referencia anteriores?

No aplicable.

¿Cuál ha sido la proporción de inversiones sostenibles con un objetivo medioambiental no ajustadas a la taxonomía de la UE?

3,97%

Estas inversiones sostenibles no se ajustan a la Taxonomía de la UE porque sus actividades económicas o bien (i) no están cubiertas por la Taxonomía de la UE, o bien (ii) no cumplen los criterios técnicos de selección para lograr una contribución sustancial en el sentido de la Taxonomía de la UE.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta

¿Cuál ha sido la proporción de inversiones socialmente sostenibles?

6,77%

¿Qué inversiones se han incluido en «otras» y cuál ha sido su propósito? ¿ha habido garantías medioambientales o sociales mínimas?

Las «otras» inversiones del fondo incluían posiciones de tesorería mantenidas principalmente para satisfacer los objetivos diarios de liquidez y gestión de riesgos permitidos y previstos por la política de inversión del fondo. Cuando sea preciso, se aplicarán salvaguardias medioambientales o sociales mínimas a los valores subyacentes.

¿Qué medidas se han adoptado para cumplir las características medioambientales o sociales durante el período de referencia?

Durante el periodo de referencia, se alcanzó el objetivo de inversión sostenible siguiendo la estrategia de inversión y respetando los elementos vinculantes.

Los elementos vinculantes del fondo son:

- Exclusión de emisores que:
 - están relacionados con armas nucleares de países que no han firmado el Tratado sobre la No Proliferación de Armas Nucleares (TNP) y otras armas controvertidas
 - obtienen una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, como la extracción de carbón térmico y la generación de electricidad, la exploración y producción no convencional de petróleo y gas, la producción de petróleo y gas convencional, la generación de energía nuclear, las armas convencionales y armas pequeñas, la contratación militar de armas y productos y servicios relacionados con las armas, la producción de tabaco, la producción de entretenimiento para adultos, las actividades del juego, el desarrollo y crecimiento de organismos modificados genéticamente, la producción y comercialización de pesticidas. Para más detalles sobre los umbrales de exclusión aplicables a las actividades anteriores, consulte la Política de Inversión responsable de Pictet Asset Management.
 - incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción
 - sobreponer los valores con riesgos de sostenibilidad bajos
- análisis de criterios ASG de los valores admisibles que abarca al menos el 80% del patrimonio neto o el número de emisores incluidos en la cartera

Además, el fondo se implicó con 10 empresas a 30.09.2023.

¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

● ¿Cómo difería el índice de referencia de un índice general de mercado?

No aplicable.

- **¿Cómo se ha comportado este producto financiero con respecto a los indicadores de sostenibilidad para determinar la conformidad del índice de referencia con las características medioambientales o sociales que promueve?**
No aplicable.
- **¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?**
No aplicable.
- **¿Cómo se ha comportado este producto financiero en comparación con el índice general de mercado?**
No aplicable.

CARACTERÍSTICAS MEDIOAMBIENTALES O SOCIALES

Inversión sostenible
significa una inversión en una actividad económica que contribuye a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo a ningún objetivo medioambiental o social y que las empresas en las que se invierte sigan prácticas de buena gobernanza.

La **taxonomía de la UE** es un sistema de clasificación previsto en el Reglamento (UE) 2020/852 por el que se establece una lista de **actividades económicas medioambientalmente sostenibles**. Dicho Reglamento no prevé una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental pueden ajustarse, o no, a la taxonomía.

| ¿ESTE PRODUCTO FINANCIERO TENÍA UN OBJETIVO DE INVERSIÓN SOSTENIBLE? | | | |
|--|--|-------------------------------------|---|
| | <input type="checkbox"/> Si | | <input checked="" type="checkbox"/> No |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo medioambiental: ____% | <input checked="" type="checkbox"/> | Promovió características medioambientales o sociales y, aunque no tenía como objetivo una inversión sostenible, tuvo un porcentaje del 1,04% de inversiones sostenibles |
| <input type="checkbox"/> | en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input type="checkbox"/> | con un objetivo medioambiental en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> | en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input checked="" type="checkbox"/> | con un objetivo medioambiental en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> | Realizó inversiones sostenibles con un objetivo social: ____% | <input type="checkbox"/> | <input checked="" type="checkbox"/> con un objetivo social |
| <input type="checkbox"/> | | <input type="checkbox"/> | Ha promovido características medioambientales o sociales, pero no ha realizado ninguna inversión sostenible |

Nota: Las inversiones sostenibles se calcularon sobre una base de aprobado/suspenso, incluyendo bonos con etiqueta (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% (medida por ingresos, EBIT, valor de empresa o indicadores similares) a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.

¿En qué grado se han cumplido las características medioambientales o sociales que promueve este producto financiero?

Las características medioambientales y sociales de este producto financiero se promovieron utilizando:

- Best-in-class:

El fondo invirtió en valores de emisores con riesgos de sostenibilidad bajos, a la vez que evitó aquellos con riesgos de sostenibilidad altos, reduciendo el universo de inversión en al menos un 20%. El universo de inversión está compuesto por bonos soberanos de categoría de inversión (*investment grade*).

No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

- Exclusiones basadas en normas y valores:

El fondo excluyó los emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente o que incumplen de forma grave las normas internacionales, según se detalla a continuación:

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

Actividad

| Empresas que incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción | Sí |
|---|----|

Exclusiones de países Excluidas

| | |
|---|------------------------------------|
| Países (i) incluidos en la lista de Estados patrocinadores del terrorismo, según la definición de la Oficina de Control de Activos Extranjeros de EE. UU. ^[2] o (ii) sujetos a sanciones financieras de la UE contra bancos centrales y/o empresas de propiedad estatal. | Sí |
| Países (i) clasificados como de muy alto o alto riesgo en el Índice de Estados Frágiles o (ii) afectados por conflictos violentos según la definición del Banco Mundial. | Sí |
| Países (i) incluidos en la lista de «alerta» del Índice de Estados Frágiles o (ii) sujetos a sanciones relacionadas con la exportación por parte de la UE. | Lista de vigilancia ^[3] |

[1] Entre las armas controvertidas se encuentran las minas antipersona, las municiones de racimo, las armas biológicas y químicas (incluido el fósforo blanco) y las armas nucleares procedentes de países no firmantes del Tratado de No Proliferación de Armas Nucleares (TNP).

[2] «Estado patrocinador del terrorismo» es una designación aplicada por el Departamento de Estado de Estados Unidos a países que repetidamente han prestado apoyo a actos de terrorismo internacional.

[3] Además de las exclusiones estrictas, Pictet Asset Management mantiene una lista de vigilancia que incluye países que requieren una diligencia debida adicional por parte de los equipos de inversión antes de invertir.

Para más detalles, consulte la Política de Inversión responsable de Pictet Asset Management (Anexo B).

● Titularidad activa:

Durante el periodo de referencia, no se ha llevado a cabo ninguna implicación.

● **¿Cómo se han comportado los indicadores de sostenibilidad?**

Durante el periodo de información, los indicadores de sostenibilidad se comportaron según se indica a continuación:

● **Reducción del universo de inversión por factores ASG**

El fondo reduce su universo de inversión eliminando al menos el 20% de los emisores con los mayores riesgos de sostenibilidad.

Los riesgos de sostenibilidad son acontecimientos o condiciones de riesgo ASG que podrían tener una incidencia negativa importante en el valor de las inversiones si se produjeran. Los riesgos de sostenibilidad incluían, entre otros, los siguientes: riesgo de transición climática, riesgo físico climático, riesgo medioambiental, riesgo social y riesgo de gobernanza. Se realizan revisiones periódicas y controles de riesgo para supervisar la aplicación.

Las principales incidencias adversas («PIA») son efectos negativos, materiales o posiblemente materiales, sobre factores de sostenibilidad causados, agravados o directamente vinculados con las decisiones y el asesoramiento. Entre las principales incidencias adversas se incluyen, entre otras, las emisiones de gases de efecto invernadero (GEI), la contaminación atmosférica, la pérdida de biodiversidad, las emisiones al agua, los residuos peligrosos/radioactivos, las cuestiones sociales y laborales, y la corrupción y el soborno.

● **Principal incidencia adversa (PIA)**

El fondo utiliza una combinación de enfoques para considerar y, en la medida de lo posible, mitigar las incidencias adversas materiales de nuestras inversiones en la sociedad y el medioambiente, como emisiones de GEI, contaminación atmosférica, pérdida de biodiversidad, emisiones al agua, residuos peligrosos/radioactivos, derechos humanos, normas laborales, corrupción y soborno, y salud pública.

El grado y la forma en que estas incidencias se tuvieron en cuenta dependieron de factores como el contexto específico de la inversión que provoca la incidencia adversa o la disponibilidad de datos fiables.

El fondo invierte principalmente en deuda pública durante el período de referencia. En el caso de las inversiones en bonos no soberanos y de conformidad con la política de exclusión de Pictet Asset Management descrita en la Política de Inversión responsable de la empresa (véase el cuadro anterior para consultar las actividades excluidas y los umbrales de exclusión aplicados), el fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente:

Actividades controvertidas (media ponderada de ingresos de la empresa, en %)*:

| | Fondo (%) | Índice de referencia (%) |
|--|-----------|--------------------------|
| Combustibles fósiles y energía nuclear | 0,00 | 0,00 |
| Armas | 0,00 | 0,00 |
| Otras actividades controvertidas | 0,00 | 0,00 |
| No aplicable: | 53,22 | 0,00 |
| No cubierto: | 0,00 | 0,00 |

* Los combustibles fósiles y la energía nuclear incluyen la extracción de carbón térmico y la generación de electricidad, la producción y extracción de petróleo y gas, la extracción de energía de esquisto, la exploración de petróleo y gas en los mares del Ártico y la generación de energía nuclear. Las armas incluyen la contratación militar (servicios de armas y relacionadas con estas), clientes civiles de armas pequeñas (armas de asalto/no asalto), clientes militares/de las fuerzas y cuerpos de seguridad de armas pequeñas y componentes clave de pequeñas armas. Otras actividades controvertidas incluyen la producción de tabaco, la producción de entretenimiento para adultos, la explotación de juegos de azar, el desarrollo o crecimiento de organismos modificados genéticamente, la producción o venta al por menor de pesticidas. La exposición se basa en datos de terceros y puede no reflejar nuestro punto de vista interno. Pictet Asset Management tiene plena discreción sobre la aplicación de los criterios de exclusión y se reserva el derecho de apartarse de la información de terceros, según el caso, cuando se considere incorrecta o incompleta.

Fuente: Pictet Asset Management, Sustainalytics.

Los indicadores de sostenibilidad miden cómo se alcanzan las características medioambientales o sociales que promueve el producto financiero.

Además, el fondo excluyó a los emisores que tenían exposición a:

- (i) PIA 10: Incumplimientos de los principios del Pacto Mundial de las Naciones Unidas y las Directrices para Empresas Multinacionales de la Organización para la Cooperación y el Desarrollo Económicos (OCDE).
- (ii) PIA 14: Exposición a armas controvertidas (minas antipersonas, municiones en racimo, armas químicas y armas biológicas)

● **¿... y en comparación con períodos anteriores?**

Esta cuestión se abordará en futuros informes anuales debido a la falta de historial.

● **¿Cuáles han sido los objetivos de las inversiones sostenibles que ha realizado en parte el producto financiero y de qué forma ha contribuido la inversión sostenible a dichos objetivos?**

El fondo no se comprometió a un porcentaje mínimo de inversiones sostenibles.

Sin embargo, *a posteriori*, el fondo invirtió en valores que financian actividades económicas que contribuyeron sustancialmente a objetivos medioambientales y/o sociales como:

Medioambientales

- mitigación del cambio climático o adaptación al mismo
- uso sostenible y protección de los recursos hídricos y marinos
- transición hacia una economía circular
- prevención y control de la contaminación o
- protección y recuperación de la biodiversidad y los ecosistemas

Sociales

- comunidades inclusivas y sostenibles
- nivel de vida adecuado y bienestar para los usuarios finales o
- trabajo digno

Pictet Asset Management utilizó un marco de referencia propio, así como los objetivos de la Taxonomía de la UE, para definir las inversiones sostenibles.

● **¿De qué manera las inversiones sostenibles que el producto financiero ha realizado en parte, no han causado un perjuicio significativo a ningún objetivo de inversión sostenible medioambiental o social?**

Para evitar que las inversiones sostenibles causen un perjuicio significativo a cualquier otro objetivo medioambiental o social, el fondo aplicó los siguientes criterios de selección sobre la base del mejor esfuerzo:

- (i) Exclusiones de emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente (véase la descripción del marco de exclusión de IR).
- (ii) Los emisores asociados a controversias elevadas y graves no se contabilizaron como inversiones sostenibles.

La información se obtuvo de proveedores tercero y/o de análisis interno. La información ASG de terceros proveedores de datos puede haber sido incompleta, inexacta o no estar disponible. Como consecuencia de ello, existía el riesgo de que el Gestor de inversiones evaluara incorrectamente un valor o emisor, dando lugar a la inclusión o exclusión incorrecta de un valor en el fondo. Los datos ASG incompletos, inexactos o no disponibles también pueden actuar como una limitación metodológica a una estrategia de inversión no financiera (como la aplicación de criterios ASG o similares). En los casos identificados, el Gestor de inversiones trató de mitigar este riesgo mediante su propia evaluación. En caso de que las características ASG de un valor mantenido por el fondo cambiaren, dando lugar a la venta del valor, el Gestor de inversiones no acepta responsabilidad alguna en relación con dicho cambio.

● **¿Cómo se han tenido en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?**

Pictet Asset Management realiza un seguimiento de todos los indicadores obligatorios de principales incidencias adversas (incluidos en el Anexo 1 del Reglamento Delegado (UE) 22 / 1288 de la Comisión) cuando disponemos de datos sólidos. Se espera que la calidad de los datos disponibles mejore con el tiempo.

Las principales incidencias adversas son las incidencias negativas más importantes de las decisiones de inversión sobre los factores de sostenibilidad en relación con asuntos medioambientales, sociales y laborales, el

respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas de sus inversiones en la sociedad y el medioambiente que se consideran importantes para la estrategia de inversión, mediante un conjunto de decisiones de gestión de cartera, actividades de propiedad activa y exclusión de emisores asociados a conductas o actividades controvertidas. Más información en el informe de PIA de la entidad, disponible en:

<https://documents.am.pictet/?cat=marketing-permalink&dtyp=PAI&dla=es&bl=PAM>

- ¿Se han ajustado las inversiones sostenibles a las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios rectores de las Naciones Unidas sobre las empresas y los derechos humanos?

El fondo invierte principalmente en deuda pública durante el período de referencia.

En el caso de las inversiones en bonos no soberanos, nos aseguramos de que las inversiones sostenibles no causaran un perjuicio significativo a ningún objetivo de inversión sostenible, el fondo excluyó a las empresas con infracciones elevadas y graves de (i) los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción o (ii) las Líneas Directrices de la OCDE para Empresas Multinacionales, incluidos los asuntos sociales y laborales graves.

La taxonomía de la UE establece el principio de «no causar un perjuicio significativo», según el cual las inversiones que se ajusten a la taxonomía no deben perjudicar significativamente a los objetivos de la taxonomía de la UE, e incluye criterios específicos de la Unión.

El principio de «no perjudicar de forma significativa» se aplica únicamente a las inversiones subyacentes del producto financiero que contemplan los criterios de la UE relativos a actividades económicas sostenibles desde una perspectiva medioambiental. Las inversiones subyacentes al resto del producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas medioambientalmente sostenibles.

Cualquier otra inversión sostenible tampoco debe perjudicar significativamente a ningún objetivo medioambiental o social.

¿Cómo tiene en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas que se consideran importantes para la estrategia de inversión. Entre las incidencias adversas se incluyeron, entre otras, las emisiones de gases de efecto invernadero (GEI), la contaminación atmosférica, la pérdida de biodiversidad, las emisiones al agua, los residuos peligrosos/radioactivos, las cuestiones sociales y laborales, y la corrupción y el soborno, que se abordaron mediante una combinación de:

(i) decisiones de gestión de carteras

El equipo de inversión puntuó las posiciones según una evaluación de los riesgos medioambientales, sociales y de gobernanza como parte del marco de puntuación del fondo. Los gestores de inversiones determinan las puntuaciones sobre una base cualitativa, basándose en el análisis fundamental y en datos cuantitativos ASG, incluidos los datos sobre la Principal incidencia adversa, los datos ASG facilitados por las empresas y los datos proporcionados por terceros proveedores de datos ASG. El proceso de puntuación del equipo de inversión fue un componente clave del proceso de construcción de la cartera del comportamiento, determinando las ponderaciones objetivo en la cartera.

(ii) exclusión de emisores asociados a conductas o actividades controvertidas

El fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se definen en la Política de Inversión responsable de la Pictet Asset Management y/o (ii) empresas que infringieron gravemente los principios del Pacto Mundial de la ONU sobre derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción y las armas controvertidas, o (iii) países sujetos a sanciones internacionales; véase también la información detallada sobre las exclusiones que figura en la Política de Inversión responsable de Pictet Asset Management.

¿Cuáles han sido las inversiones principales de este producto financiero?

La lista incluye las inversiones que constituyen la mayor parte de las inversiones del

¿Cuál ha sido la proporción de inversiones relacionadas con la sostenibilidad?

1,04%

La asignación de activos describe el porcentaje de inversiones en activos específicos.

¿Cuál ha sido la asignación de activos?

El fondo se ajustó en un 95,78% con características medioambientales o sociales (n.º 1 Ajustadas a características medioambientales o sociales) y tuvo hasta un 4,22% invertido en la categoría Otras (n.º 2 Otras). El 1,04% se asignó a inversiones sostenibles (n.º 1A Sostenibles) y el resto se invirtió en inversiones ajustadas a otras características medioambientales o sociales (n.º 1B Otras características medioambientales o sociales).

n.º 1 Ajustadas a características medioambientales o sociales incluye las inversiones del producto financiero utilizadas para lograr las características medioambientales o sociales que promueve el producto financiero.

n.º 2 Otras incluye el resto de inversiones del producto financiero que ni se ajustan a las características medioambientales o sociales ni pueden considerarse inversiones sostenibles.

La categoría **n.º 1 Ajustadas a características medioambientales o sociales** abarca:

- la subcategoría **n.º 1A Sostenibles**, que abarca las inversiones sostenibles con objetivos medioambientales o sociales.

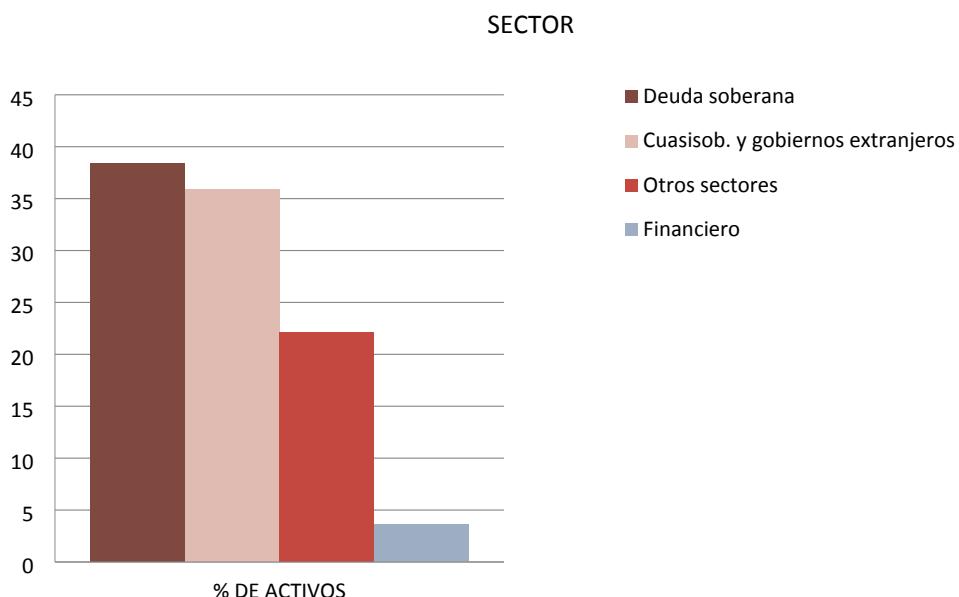

- la subcategoría **n.º 1B Otras características medioambientales o sociales**, que abarca inversiones ajustadas a las características medioambientales o sociales que no pueden considerarse inversiones sostenibles.

Notas:

- Las inversiones «n.º 1A Sostenibles», «Otras medioambientales» y «Sociales» se calcularon sobre una base de aprobado/suspenso. Incluyen bonos certificados (cuando sea relevante para la clase de activos) y valores de emisores con una exposición mínima del 20% a actividades económicas que contribuyeron a al menos un objetivo medioambiental o social.
- A falta de una taxonomía social de la UE, Pictet ha desarrollado un marco de taxonomía social propio. El marco se basa en basado en el Informe sobre taxonomía social publicado por la Plataforma de Finanzas Sostenibles de la UE en 2022. Las actividades admisibles se definen como bienes y servicios beneficiosos desde el punto de vista social que contribuyen sustancialmente a uno de los tres objetivos sociales siguientes: (1) comunidades inclusivas y sostenibles, (2) nivel de vida adecuado y bienestar para los usuarios finales y (3) trabajo digno.

Fuente: Pictet Asset Management, Sustainalytics, FTSE Green Revenues, Factset RBICS.

● ¿En qué sectores económicos se han realizado las inversiones?

Fuente: Pictet Asset Management, Merrill Lynch.

Estamos evaluando la disponibilidad y la calidad de los datos que nos permitirían divulgar información más granular en futuros informes sobre los sectores y subsectores de la economía que obtienen ingresos a partir de la exploración, la minería, la extracción, la producción, el procesamiento, el almacenamiento, el refinado o la distribución, incluidos el transporte, el almacenamiento y el comercio, de combustibles fósiles, según se definen en el artículo 2, punto (62), del Reglamento (UE) 2018/1999 del Parlamento Europeo y del Consejo.

¿En qué medida se ajustaban las inversiones sostenibles con un objetivo medioambiental a la taxonomía de la UE?

No aplicable.

● ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil o la energía nuclear que cumplían con la taxonomía de la UE¹?

Sí:

En gas fósil En energía nuclear

No

Para ajustarse a la taxonomía de la UE, los criterios correspondientes al **gas fósil** incluyen limitaciones de emisiones y el paso a la energía renovable o combustibles bajos en carbono de aquí al fin de 2035. Por lo que respecta a la **energía nuclear**, los criterios incluyen normas

¹ Las actividades relacionadas con el gas fósil o la energía nuclear solo cumplirán la taxonomía de la UE cuando contribuyan a limitar el cambio climático («mitigación del cambio climático») y no perjudiquen significativamente ningún objetivo de la taxonomía de la UE (véase la nota explicativa en el margen izquierdo). Los criterios completos correspondientes a las actividades económicas del gas fósil y la energía nuclear que se ajustan a la taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

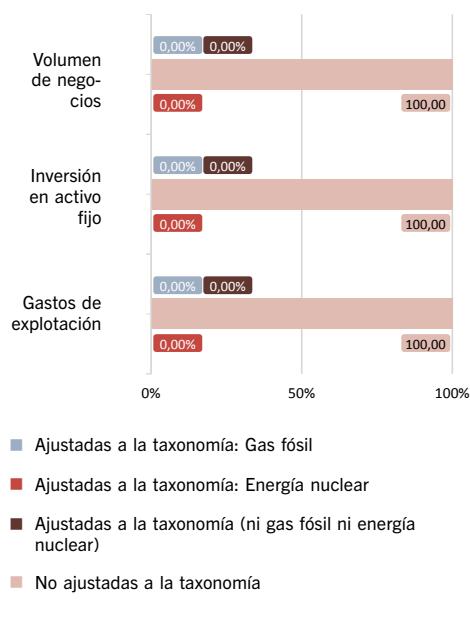

exhaustivas de seguridad y gestión de residuos.

Las actividades que se ajustan a la taxonomía se expresan como un porcentaje de:

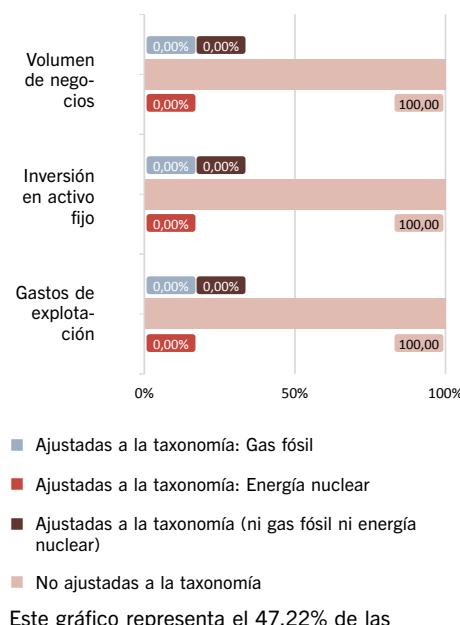

- el **volumen de negocios**, que refleja el «carácter ecológico» de las empresas en las que se invierte en la actualidad;
- la **inversión en activo fijo**, que muestra las inversiones ecológicas realizadas por las empresas en las que se invierte, pertinentes para la transición a una economía verde;
- los **gastos de explotación**, que reflejan las actividades operativas ecológicas de las empresas en las que se invierte.

Los gráficos que figuran a continuación muestran en verde el porcentaje de inversiones que se ajustaban a la taxonomía de la UE. Dado que no existe una metodología adecuada para determinar la adaptación a la taxonomía de los bonos soberanos*, el primer gráfico muestra la adaptación a la taxonomía correspondiente para todas las inversiones del producto financiero, incluidos los bonos soberanos, mientras que el segundo gráfico muestra la adaptación a la taxonomía solo en relación con las inversiones del producto financiero distintas de los bonos soberanos.

1. Ajuste a la taxonomía de las inversiones incluidos los bonos soberanos*

2. Ajuste a la taxonomía de las inversiones excluidos los bonos soberanos*

Este gráfico representa el 47,22% de las inversiones totales.

* A efectos de estos gráficos, los «bonos soberanos» incluyen todas las exposiciones soberanas

● ¿Cuál ha sido la proporción de las inversiones realizadas en actividades de transición y facilitadoras?

No aplicable.

● ¿Qué porcentaje de inversiones se han ajustado a la taxonomía de la UE en comparación con los períodos de referencia anteriores?

No aplicable.

¿Cuál ha sido la proporción de inversiones sostenibles con un objetivo medioambiental no ajustadas a la taxonomía de la UE?

0,90%

Estas inversiones sostenibles no se ajustan a la Taxonomía de la UE porque sus actividades económicas o bien (i) no están cubiertas por la Taxonomía de la UE, o bien (ii) no cumplen los criterios técnicos de selección para lograr una contribución sustancial en el sentido de la Taxonomía de la UE.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta los criterios para las actividades económicas medioambientalmente sostenibles con arreglo al Reglamento (UE) 2020/852.

¿Cuál ha sido la proporción de inversiones socialmente sostenibles?

0,15%

¿Qué inversiones se han incluido en «otras» y cuál ha sido su propósito? ¿ha habido garantías medioambientales o sociales mínimas?

Las «otras» inversiones del fondo incluían posiciones de tesorería mantenidas principalmente para satisfacer los objetivos diarios de liquidez y gestión de riesgos permitidos y previstos por la política de inversión del fondo. Cuando sea preciso, se aplicarán salvaguardias medioambientales o sociales mínimas a los valores subyacentes.

¿Qué medidas se han adoptado para cumplir las características medioambientales o sociales durante el período de referencia?

Durante el periodo de referencia, se alcanzó el objetivo de inversión sostenible siguiendo la estrategia de inversión y respetando los elementos vinculantes.

Los elementos vinculantes del fondo son:

- Exclusión de emisores que:
 - están relacionados con armas nucleares de países que no han firmado el Tratado sobre la No Proliferación de Armas Nucleares (TNP) y otras armas controvertidas
 - obtienen una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, como la extracción de carbón térmico y la generación de electricidad, la exploración y producción no convencional de petróleo y gas, la producción de petróleo y gas convencional, la generación de energía nuclear, las armas convencionales y armas pequeñas, la contratación militar de armas y productos y servicios relacionados con las armas, la producción de tabaco, la producción de entretenimiento para adultos, las actividades del juego, el desarrollo y crecimiento de organismos modificados genéticamente, la producción y comercialización de pesticidas. Para más detalles sobre los umbrales de exclusión aplicables a las actividades anteriores, consulte la Política de Inversión responsable de Pictet Asset Management.
 - incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción
 - sobreponer los valores con riesgos de sostenibilidad bajos
- análisis de criterios ASG de los valores admisibles que abarca al menos el 80% del patrimonio neto o el número de emisores incluidos en la cartera

¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

● ¿Cómo difería el índice de referencia de un índice general de mercado?

No aplicable.

● ¿Cómo se ha comportado este producto financiero con respecto a los indicadores de sostenibilidad para determinar la conformidad del índice de referencia con las características medioambientales o sociales que promueve?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No aplicable.

Los índices de referencia son índices para medir si el producto financiero logra las características medioambientales o sociales que promueve.

● **¿Cómo se ha comportado este producto financiero en comparación con el índice general de mercado?**

No aplicable.

CARACTERÍSTICAS MEDIOAMBIENTALES O SOCIALES

Inversión sostenible significa una inversión en una actividad económica que contribuye a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo a ningún objetivo medioambiental o social y que las empresas en las que se invierte sigan prácticas de buena gobernanza.

La **taxonomía de la UE** es un sistema de clasificación previsto en el Reglamento (UE) 2020/852 por el que se establece una lista de **actividades económicas medioambientalmente sostenibles**. Dicho Reglamento no prevé una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental pueden ajustarse, o no, a la taxonomía.

| ¿ESTE PRODUCTO FINANCIERO TENÍA UN OBJETIVO DE INVERSIÓN SOSTENIBLE? | | | |
|---|--|---|--|
| <input checked="" type="radio"/> Si | <input type="radio"/> No | <input checked="" type="radio"/> Promovió características medioambientales o sociales y, aunque no tenía como objetivo una inversión sostenible, tuvo un porcentaje del ___% de inversiones sostenibles | <input type="radio"/> con un objetivo medioambiental en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE |
| <input type="checkbox"/> Realizó inversiones sostenibles con un objetivo medioambiental: ___% | <input type="checkbox"/> | <input type="checkbox"/> con un objetivo medioambiental en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | <input type="checkbox"/> con un objetivo social |
| <input type="checkbox"/> en actividades económicas que pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | | | |
| <input type="checkbox"/> en actividades económicas que no pueden considerarse medioambientalmente sostenibles con arreglo a la taxonomía de la UE | | | |
| <input type="checkbox"/> Realizó inversiones sostenibles con un objetivo social: ___% | <input checked="" type="checkbox"/> Ha promovido características medioambientales o sociales, pero no ha realizado ninguna inversión sostenible | | |

¿En qué grado se han cumplido las características medioambientales o sociales que promueve este producto financiero?

Las características medioambientales y sociales de este producto financiero se promovieron utilizando:

- Best-in-class:

El fondo invirtió en valores de emisores con riesgos de sostenibilidad bajos, a la vez que evitó aquellos con riesgos de sostenibilidad altos, reduciendo el universo de inversión en al menos un 20%. El universo de inversión está compuesto por bonos soberanos de categoría de inversión (*investment grade*).

No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

- Exclusiones basadas en normas y valores:

El fondo excluyó los emisores que tienen actividades significativas con incidencias adversas en la sociedad o el medioambiente o que incumplen de forma grave las normas internacionales, según se detalla a continuación:

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

| Actividad | Umbrales de ingresos |
|---|----------------------|
| Combustibles fósiles y energía nuclear | |
| Extracción de carbón térmico | > 25% |
| Generación de energía térmica de carbón | > 25% |

Exclusiones de empresas basadas en actividades controvertidas y umbrales de ingresos

| | |
|--|-------|
| Producción de petróleo y gas | > 25% |
| Extracción de arenas bituminosas | > 10% |
| Extracción de energía de esquisto | > 10% |
| Exploración de petróleo y gas en el Ártico | > 10% |
| Generación de energía nuclear | > 50% |
| Armas | |
| Producción de armas controvertidas[1] | > 0% |
| Armas de contratación militar | > 10% |
| Productos y/o servicios relacionados con armas de contratación militar | > 50% |
| Clientes civiles de armas pequeñas (armas de asalto) | > 10% |
| Clientes civiles de armas pequeñas (armas de no asalto) | > 10% |
| Clientes militares/de fuerzas del orden de armas pequeñas | > 25% |
| Componentes clave de armas pequeñas | > 25% |
| Otras actividades controvertidas | |
| Producción de entretenimiento para adultos | > 10% |
| Operaciones de juego | > 10% |
| Desarrollo de plantas y semillas modificadas genéticamente | > 25% |
| Cultivo de plantas y semillas modificadas genéticamente | > 25% |
| Producción de plaguicidas | > 10% |
| Venta al por menor de plaguicidas | > 10% |
| Producción de productos de tabaco | > 10% |

Exclusiones de empresas por incumplimiento de normas internacionales Excluidas

| | |
|---|----|
| Empresas que incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción | Sí |
|---|----|

Exclusiones de países Excluidas

| | |
|---|------------------------|
| Países (i) incluidos en la lista de Estados patrocinadores del terrorismo, según la definición de la Oficina de Control de Activos Extranjeros de EE. UU.[2] o (ii) sujetos a sanciones financieras de la UE contra bancos centrales y/o empresas de propiedad estatal. | Sí |
| Países (i) clasificados como de muy alto o alto riesgo en el Índice de Estados Frágiles o (ii) afectados por conflictos violentos según la definición del Banco Mundial. | Sí |
| Países (i) incluidos en la lista de «alerta» del Índice de Estados Frágiles o (ii) sujetos a sanciones relacionadas con la exportación por parte de la UE. | Lista de vigilancia[3] |

[1] Entre las armas controvertidas se encuentran las minas antipersona, las municiones de racimo, las armas biológicas y químicas (incluido el fósforo blanco) y las armas nucleares procedentes de países no firmantes del Tratado de No Proliferación de Armas Nucleares (TNP).

[2] «Estado patrocinador del terrorismo» es una designación aplicada por el Departamento de Estado de Estados Unidos a países que repetidamente han prestado apoyo a actos de terrorismo internacional.

[3] Además de las exclusiones estrictas, Pictet Asset Management mantiene una lista de vigilancia que incluye países que requieren una diligencia debida adicional por parte de los equipos de inversión antes de invertir.

Para más detalles, consulte la Política de Inversión responsable de Pictet Asset Management (Anexo B).

- Titularidad activa:

Durante el periodo de referencia, no se ha llevado a cabo ninguna implicación.

Los indicadores de sostenibilidad miden cómo se alcanzan las características medioambientales o sociales que promueve el producto financiero.

● ¿Cómo se han comportado los indicadores de sostenibilidad?

Durante el periodo de información, los indicadores de sostenibilidad se comportaron según se indica a continuación:

● Reducción del universo de inversión por factores ASG

El fondo reduce su universo de inversión eliminando al menos el 20% de los emisores con los mayores riesgos de sostenibilidad.

Los riesgos de sostenibilidad son acontecimientos o condiciones de riesgo ASG que podrían tener una incidencia negativa importante en el valor de las inversiones si se produjeran. Los riesgos de sostenibilidad incluían, entre otros, los siguientes: riesgo de transición climática, riesgo físico climático, riesgo medioambiental, riesgo social y riesgo de gobernanza. Se realizan revisiones periódicas y controles de riesgo para supervisar la aplicación.

Las principales incidencias adversas («PIA») son efectos negativos, materiales o posiblemente materiales, sobre factores de sostenibilidad causados, agravados o directamente vinculados con las decisiones y el asesoramiento. Entre las principales incidencias adversas se incluyen, entre otras, las emisiones de gases de efecto invernadero (GEI), la contaminación atmosférica, la pérdida de biodiversidad, las emisiones al agua, los residuos peligrosos/radioactivos, las cuestiones sociales y laborales, y la corrupción y el soborno.

● Principal incidencia adversa (PIA)

El fondo utiliza una combinación de enfoques para considerar y, en la medida de lo posible, mitigar las incidencias adversas materiales de nuestras inversiones en la sociedad y el medioambiente, como emisiones de GEI, contaminación atmosférica, pérdida de biodiversidad, emisiones al agua, residuos peligrosos/radioactivos, derechos humanos, normas laborales, corrupción y soborno, y salud pública.

El grado y la forma en que estas incidencias se tuvieron en cuenta dependieron de factores como el contexto específico de la inversión que provoca la incidencia adversa o la disponibilidad de datos fiables.

El fondo invierte principalmente en deuda pública durante el período de referencia. En el caso de las inversiones en bonos no soberanos y de conformidad con la política de exclusión de Pictet Asset Management descrita en la Política de Inversión responsable de la empresa (véase el cuadro anterior para consultar las actividades excluidas y los umbrales de exclusión aplicados), el fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente:

Actividades controvertidas (media ponderada de ingresos de la empresa, en %)*:

| | Fondo (%) | Índice de referencia (%) |
|--|-----------|--------------------------|
| Combustibles fósiles y energía nuclear | 0,00 | 0,00 |
| Armas | 0,00 | 0,00 |
| Otras actividades controvertidas | 0,00 | 0,00 |
| No aplicable: | 59,15 | 0,00 |
| No cubierto: | 0,00 | 0,00 |

* Los combustibles fósiles y la energía nuclear incluyen la extracción de carbón térmico y la generación de electricidad, la producción y extracción de petróleo y gas, la extracción de energía de esquisto, la exploración de petróleo y gas en los mares del Ártico y la generación de energía nuclear. Las armas incluyen la contratación militar (servicios de armas y relacionadas con estas), clientes civiles de armas pequeñas (armas de asalto/no asalto), clientes militares/de las fuerzas y cuerpos de seguridad de armas pequeñas y componentes clave de pequeñas armas. Otras actividades controvertidas incluyen la producción de tabaco, la producción de entretenimiento para adultos, la explotación de juegos de azar, el desarrollo o crecimiento de organismos modificados genéticamente, la producción o venta al por menor de pesticidas. La exposición se basa en datos de terceros y puede no reflejar nuestro punto de vista interno. Pictet Asset Management tiene plena discreción sobre la aplicación de los criterios de exclusión y se reserva el derecho de apartarse de la información de terceros, según el caso, cuando se considere incorrecta o incompleta.

Fuente: Pictet Asset Management, Sustainalytics.

Además, el fondo excluyó a los emisores que tenían exposición a:

- (i) PIA 10: Incumplimientos de los principios del Pacto Mundial de las Naciones Unidas y las Directrices para Empresas Multinacionales de la Organización para la Cooperación y el Desarrollo Económicos (OCDE).
- (ii) PIA 14: Exposición a armas controvertidas (minas antipersonas, municiones en racimo, armas químicas y armas biológicas)

● ¿... y en comparación con períodos anteriores?

Esta cuestión se abordará en futuros informes anuales debido a la falta de historial.

¿Cómo tiene en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

Las principales incidencias adversas son las incidencias negativas más importantes de las decisiones de inversión sobre los factores de sostenibilidad en relación con asuntos medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

El fondo tuvo en cuenta y, en la medida de lo posible, mitigó las incidencias adversas que se consideran importantes para la estrategia de inversión. Entre las incidencias adversas se incluyeron, entre otras, las emisiones de gases de efecto invernadero (GEI), la contaminación atmosférica, la pérdida de biodiversidad, las emisiones al agua, los residuos peligrosos/radioactivos, las cuestiones sociales y laborales, y la corrupción y el soborno, que se abordaron mediante una combinación de:

(i) decisiones de gestión de carteras

El equipo de inversión puntuó las posiciones según una evaluación de los riesgos medioambientales, sociales y de gobernanza como parte del marco de puntuación del fondo. Los gestores de inversiones determinan las puntuaciones sobre una base cualitativa, basándose en el análisis fundamental y en datos cuantitativos ASG, incluidos los datos sobre la Principal incidencia adversa, los datos ASG facilitados por las empresas y los datos proporcionados por terceros proveedores de datos ASG. El proceso de puntuación del equipo de inversión fue un componente clave del proceso de construcción de la cartera del compartimento, determinando las ponderaciones objetivo en la cartera.

(ii) exclusión de emisores asociados a conductas o actividades controvertidas

El fondo no tuvo ninguna exposición a empresas que obtuvieran una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, según se definen en la Política de Inversión responsable de la Pictet Asset Management y/o (ii) empresas que infringieron gravemente los principios del Pacto Mundial de la ONU sobre derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción y las armas controvertidas, o (iii) países sujetos a sanciones internacionales; véase también la información detallada sobre las exclusiones que figura en la Política de Inversión responsable de Pictet Asset Management.

¿Cuáles han sido las inversiones principales de este producto financiero?

La lista incluye las inversiones que constituyen la mayor parte de las inversiones del producto financiero durante el período de referencia, que es: 01.10.2022 - 30.09.2023

| INVERSIONES DE MAYOR VOLUMEN | SECTOR | % DE ACTIVOS | PAÍS |
|--------------------------------------|-----------------------------------|--------------|-----------------|

¿Cuál ha sido la proporción de inversiones relacionadas con la sostenibilidad?

0,00%

La asignación de activos describe el porcentaje de inversiones en activos específicos.

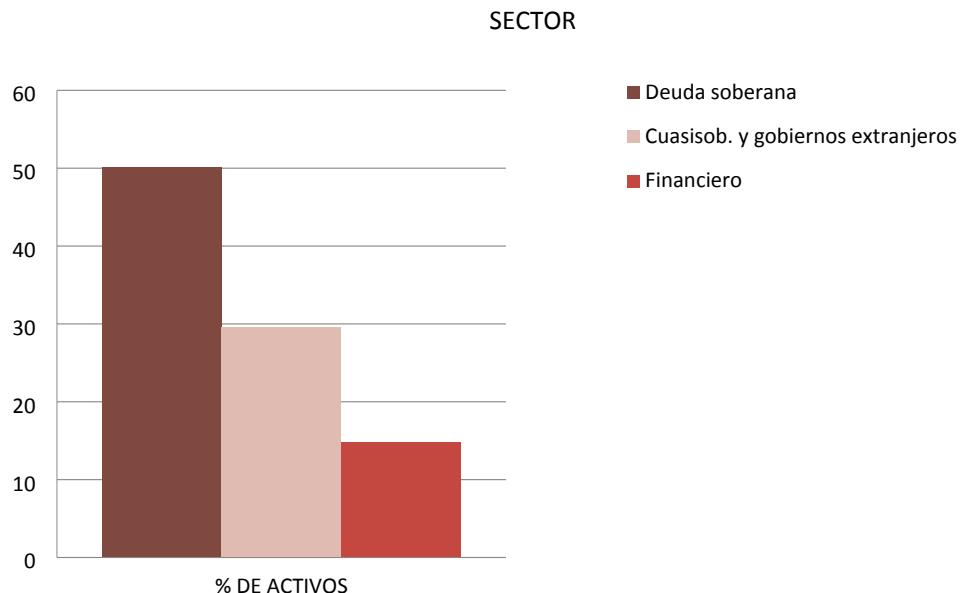

¿Cuál ha sido la asignación de activos?

El fondo se ajustó en un 94,24% con características medioambientales o sociales (n.º 1 Ajustadas a características medioambientales o sociales) y tuvo hasta un 5,76% invertido en la categoría Otras (n.º 2 Otras). El 0,00% se asignó a inversiones sostenibles (n.º 1A Sostenibles) y el resto se invirtió en inversiones ajustadas a otras características medioambientales o sociales (n.º 1B Otras características medioambientales o sociales).

Fuente: Pictet Asset Management.

● ¿En qué sectores económicos se han realizado las inversiones?

Fuente: Pictet Asset Management, Merrill Lynch.

Estamos evaluando la disponibilidad y la calidad de los datos que nos permitirían divulgar información más granular en futuros informes sobre los sectores y subsectores de la economía que obtienen ingresos a partir de la exploración, la minería, la extracción, la producción, el procesamiento, el almacenamiento, el refinado o la distribución, incluidos el transporte, el almacenamiento y el comercio, de combustibles fósiles, según se definen en el artículo 2, punto (62), del Reglamento (UE) 2018/1999 del Parlamento Europeo y del Consejo.

¿En qué medida se ajustaban las inversiones sostenibles con un objetivo medioambiental a la taxonomía de la UE?

No aplicable.

● ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil o la energía nuclear que cumplían con la taxonomía de la UE¹?

Sí:

En gas fósil En energía nuclear

No

Para ajustarse a la taxonomía de la UE, los criterios correspondientes al **gas fósil** incluyen limitaciones de emisiones y el paso a la energía renovable o combustibles bajos en carbono de aquí al fin de 2035. Por lo que respecta a la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

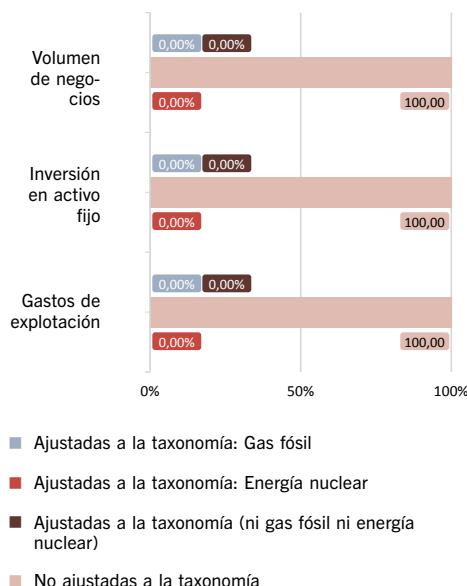

¹ Las actividades relacionadas con el gas fósil o la energía nuclear solo cumplirán la taxonomía de la UE cuando contribuyan a limitar el cambio climático («mitigación del cambio climático») y no perjudiquen significativamente ningún objetivo de la taxonomía de la UE (véase la nota explicativa en el margen izquierdo). Los criterios completos correspondientes a las actividades económicas del gas fósil y la energía nuclear que se ajustan a la taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

Las actividades que se ajustan a la taxonomía se expresan como un porcentaje de:

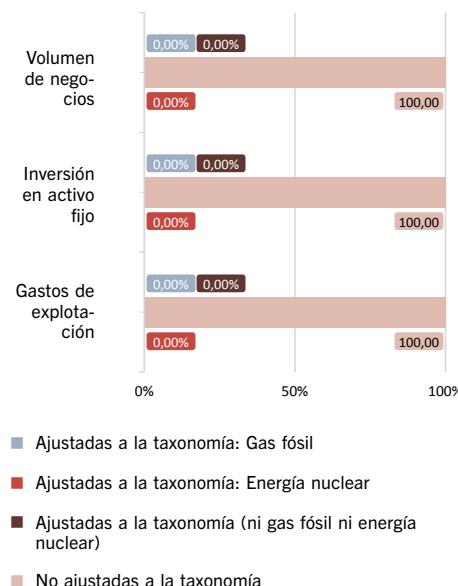

- el **volumen de negocios**, que refleja el «carácter ecológico» de las empresas en las que se invierte en la actualidad;
- la **inversión en activo fijo**, que muestra las inversiones ecológicas realizadas por las empresas en las que se invierte, pertinentes para la transición a una economía verde;
- los **gastos de explotación**, que reflejan las actividades operativas ecológicas de las empresas en las que se invierte.

Los gráficos que figuran a continuación muestran en verde el porcentaje de inversiones que se ajustaban a la taxonomía de la UE. Dado que no existe una metodología adecuada para determinar la adaptación a la taxonomía de los bonos soberanos*, el primer gráfico muestra la adaptación a la taxonomía correspondiente para todas las inversiones del producto financiero, incluidos los bonos soberanos, mientras que el segundo gráfico muestra la adaptación a la taxonomía solo en relación con las inversiones del producto financiero distintas de los bonos soberanos.

1. Ajuste a la taxonomía de las inversiones incluidos los bonos soberanos*

2. Ajuste a la taxonomía de las inversiones excluidos los bonos soberanos*

Este gráfico representa el 40,88% de las inversiones totales.

* A efectos de estos gráficos, los «bonos soberanos» incluyen todas las exposiciones soberanas

● ¿Cuál ha sido la proporción de las inversiones realizadas en actividades de transición y facilitadoras?

No aplicable.

● ¿Qué porcentaje de inversiones se han ajustado a la taxonomía de la UE en comparación con los períodos de referencia anteriores?

No aplicable.

¿Cuál ha sido la proporción de inversiones sostenibles con un objetivo medioambiental no ajustadas a la taxonomía de la UE?

0,00%

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta los criterios para las actividades económicas medioambientalmente sostenibles con arreglo al Reglamento (UE) 2020/852.

¿Cuál ha sido la proporción de inversiones socialmente sostenibles?

0%

¿Qué inversiones se han incluido en «otras» y cuál ha sido su propósito? ¿ha habido garantías medioambientales o sociales mínimas?

Las «otras» inversiones del fondo incluían posiciones de tesorería mantenidas principalmente para satisfacer los objetivos diarios de liquidez y gestión de riesgos permitidos y previstos por la política de inversión del fondo. Cuando sea preciso, se aplicarán salvaguardias medioambientales o sociales mínimas a los valores subyacentes.

¿Qué medidas se han adoptado para cumplir las características medioambientales o sociales durante el período de referencia?

Durante el periodo de referencia, se alcanzó el objetivo de inversión sostenible siguiendo la estrategia de inversión y respetando los elementos vinculantes.

Los elementos vinculantes del fondo son:

- Exclusión de emisores que:
 - están relacionados con armas nucleares de países que no han firmado el Tratado sobre la No Proliferación de Armas Nucleares (TNP) y otras armas controvertidas
 - obtienen una parte significativa de sus ingresos a partir de actividades perjudiciales para la sociedad o el medioambiente, como la extracción de carbón térmico y la generación de electricidad, la exploración y producción no convencional de petróleo y gas, la producción de petróleo y gas convencional, la generación de energía nuclear, las armas convencionales y armas pequeñas, la contratación militar de armas y productos y servicios relacionados con las armas, la producción de tabaco, la producción de entretenimiento para adultos, las actividades del juego, el desarrollo y crecimiento de organismos modificados genéticamente, la producción y comercialización de pesticidas. Para más detalles sobre los umbrales de exclusión aplicables a las actividades anteriores, consulte la Política de Inversión responsable de Pictet Asset Management.
 - incumplen gravemente los principios del Pacto Mundial de las Naciones Unidas en materia de derechos humanos, normas laborales, protección del medioambiente y lucha contra la corrupción
 - sobreponer los valores con riesgos de sostenibilidad bajos
- análisis de criterios ASG de los valores admisibles que abarca al menos el 80% del patrimonio neto o el número de emisores incluidos en la cartera

¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No se ha designado ningún índice de referencia con el fin de lograr las características medioambientales o sociales que promueve el fondo.

Los índices de referencia son índices para medir si el producto financiero logra las características medioambientales o sociales que promueve.

● ¿Cómo difería el índice de referencia de un índice general de mercado?

No aplicable.

● ¿Cómo se ha comportado este producto financiero con respecto a los indicadores de sostenibilidad para determinar la conformidad del índice de referencia con las características medioambientales o sociales que promueve?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice de referencia?

No aplicable.

● ¿Cómo se ha comportado este producto financiero en comparación con el índice general de mercado?

No aplicable.
